A REVIEW *

U.S. assistance to India has taken many forms as can be seen from the above tables, but the most important part has been directly allied to economic development under the Five-Year Plans. Technical and developmental aid provided by the U.S. Government totalled \$435,800,000 (Rs. 206.33 crores) as of December 31, 1958, and is administered by the U.S. Technical Co-operation Mission (TCM).

TCM assistance to India is primarily technical and developmental and comprises a five-pronged approach: (1) the use of technicians or experts who demonstrate new techniques or methodology under the various projects; (2) the specialised training of Indian technicians abroad, who upon their return to India carry forward work already undertaken by American counterparts; (3) the procurement of demonstration equipment not available within India for pilot projects; (4) the payment of costs for contracted services; and (5) substantial assistance (in prior years) in the form of foodstuffs, steel and capital equipment.

The Indo-American programme dates from the signing of the General Agreement for Technical Co-operation between the Governments of India and the United States on January 5, 1952.

Up to Dec. 31, 1958, the two countries had jointly undertaken a total of 156 separate projects in eight major activity fields in support of India's First and Second Five-Year Plans. These projects have been developed by the appropriate ministries of the Government of India, and approved by the Ministry of Finance, Department of Economic Affairs, and by the TCM representing the U.S. International Co-operation Administration.

Contributions of the Government of India to the joint effort—rupee expenditures—are mainly in payment of local construction costs, project sites, transport and handling charges within India of U.S.-contributed commodities, a portion of the within-India support costs for U.S. project technicians, as well as salaries and other costs of Indian personnel who are sent to the U.S. and other countries for training.

More than 950 American technical specialists in various fields have been assigned to India under the programme during the past seven years, each one of them at the specific request of the Indian Government.

Another vital component of the Indo-American technical co-operation programme is the specialised training of Indian technicians and scientists abroad, who upon their return to India carry forward work already initiated by American counterparts. As of June 30, 1958, 568 Indian technicians had completed their advanced training in the United States or other countries and returned to India to carry on work in their particular fields; 83 remained in training in the U.S.; and another 272 were in final process for further study there.

EDUCATION

TCM is also actively assisting India in the gigantic programme of reorienting, strengthening and expanding education in India.

Aid is also being given to several technical education institutions, to the extension training programme for secondary school teachers, and for home science education and research.

Forty-eight Indian universities and other research centres throughout India are being assisted under a provision of the India Emergency Food Aid Act of 1951 setting apart the first \$5 million (Rs. 2.35 crores) paid by India as

interest on the 1951 Wheat Loan for assistance to higher education in India and, to a minor extent, in the United States. American books, scientific and teaching equipment, and services of American educational experts are being provided to these Indian institutions under this programme, which is now in its fourth year.

The Ford Foundation, America's outstanding philanthropic organisation, has also aided education in India in a large way, including the training in the United States of nearly 300 engineers for India's growing steel industry with the active collaboration of seven leading American steel producers and several universities.

Under the Fulbright and Smith-Mundt scholarship programmes, over 350 Indian students, teachers and research scholars have received travel grants and fellowships for higher studies in the U.S., and more than 250 American scholars have come to India for study and research.

AGRICULTURE

In the early years of the Indo-American technical co-operation programme, emphasis was laid on development of agriculture, which occupied top priority in India's First Five-Year Plan. Accordingly, technical and commodity assistance stressed such activities as purchase and distribution of more than 300,000 tons of fertilisers and 135,000 tons of steel for agricultural implements; drilling of more than 3,000 tubewells for irrigation, soil fertility surveys, locust control, training in the use of agricultural machinery, modern storage of food grains, livestock improvement and dairy development. U.S. contributions to 27 joint projects in the field of agriculture and natural resources have totalled \$92,023,000 (Rs. 43.82 crores).

INDUSTRY

In recent years, however, increased attention has been devoted to assistance in tackling the problems of industrial development. Import of steel for industrial uses and for railroads has been the largest project in this field. A large part of the rupee proceeds from the sale of TCM-supplied steel in India has been loaned to the Industrial Credit and Investment Corporation which makes available credit to private industry. Other major projects include assistance for several river valley projects, improvement of power facilities in Rajasthan and Delhi, rural electrification, small industries development, heavy equipment training, the Indian National Productivity Council and the Resinane Corporation.

An outstanding TCM project in the field of industrial development is technical and economic aid to India's National Productivity Council. The Indian Government became interested in these programmes, and sent a team to visit various productivity centres and industries in Europe, the U.K. and the U.S. As a result of this visit, financed by TCM, the National Productivity Council was set up in India in 1958.

Expansion plans call for the establishment of 30 local productivity councils by 1961.

Under the productivity council programme, teams from various industries are organised and sent to whatever country seems to have the best productivity record in that industry. Each team is composed of representatives of management, labour and the Government. Each team is required to write a report on their findings of a particular tour so that the whole industry, labour unions and government can benefit from their observations.

Up to December 31, 1958, forty joint Indo-American projects had been under way in the field of industry and mining, with a total U.S. contribution of \$110,589,000 (Rs. 52.65 crores).

For the modernisation and expansion of India's vast railway network, TCM has financed the supply of 100 locomotives, 8,730 goods wagons, 255,000 tons of steel and 4,000 tons of rail. Other projects in the field of transportation have provided for the services under contract of a Railway Survey Team, for improvement and expansion of aviation ground facilities, and for technical assistance to civil air transport and highway transportation. TCM aid in the trans-

portation field totalled \$78 million (Rs. 37 crores) as of Dec. 31, 1958.

SOCIAL WELFARE

Aid totalling \$55,704,000 (Rs. 26.5 crores) has been extended by TCM for 14 projects in the field of health and sanitation. These include malaria control and eradication, village water supply and sanitation, filaria control, and medical, nursing and health education.

India's well-known Community Development Programme has been largely an Indian programme, but TCM has played a vital catalytic role by providing technical specialists, transportation equipment such as jeeps, station wagons and trailers, and demonstration equipment including 1,000 film projectors, at a total cost of \$14,068,000 (Rs. 6.7 crores). Other projects include social welfare education and demonstration of improved methods of low-cost housing.

TCM has provided assistance for six joint projects in the field of public administration for a total contribution of \$121,000 (Rs. 5.76 lakhs).

In addition to the above, joint projects under the Indo-American Technical Co-operation Programme have included mass communications training, nuclear engineering, nuclear research, and banking and investment.

PRIVATE AID

Several American educational, philanthropic and religious organisations and foundations and voluntary relief agencies also have extended aid to India during the last decade. Under the so-called American Voluntary Agencies Programme, several of these charitable groups distribute free to needy persons milk, flour and other agricultural commodities which are supplied to them by the United States Government. The total value of these commodities distributed in India under this programme up to June 30, 1958, was \$65.2 million (Rs. 31 crores), and the agencies themselves spent \$5,500,000 (Rs. 2.62 crores) on the programme.

The Ford and Rockefeller Foundations have sizeable aid programmes in India. For grants to India totalled \$27.9 million (Rs. 13.3 crores) as of December 1958, mainly in the fields of rural development, training of village-level workers, development of small industry, advancement of education, strengthening of public administration and cultural interchange.

Rockefeller grants, mainly for public health, medical education and biological and medical research, totalled \$6,000,000 (Rs. 2.85 crores) in the decade ended June 30, 1958. Between 1920 and 1947, the Rockefeller Foundation had extended aid to India totalling \$1,485,004 (Rs. 70.7 lakhs).

Other private American aid to India, including gifts in kind or cash, scholarships and technical assistance, has been estimated to total \$50 million (Rs. 23.81 crores).

1958

Indo-American economic and technical co-operation and U.S. assistance to India reached a peak level during 1958. America extended credits to India during the year exceeding \$600 million (Rs. 285 crores)—more than one-third of all aid earmarked for India since independence.

The major portion of U.S. assistance to India has been extended in the form of long-term loans as desired by the Government of India, and much of it has been for agricultural commodities which India has needed to meet shortages and hold down internal prices. Including the \$190 million (Rs. 90 crores) Wheat Loan of 1951, nearly 7,000,000 tons of American wheat alone has been delivered to India, while another 3,000,000 tons of wheat and other foodgrains will be supplied under 1958 agreements.

A substantial portion of American aid during 1958 was for large capital expenditures to execute development projects under the Second Five-Year Plan in the face of growing foreign exchange needs. Two U.S. Government agencies extended credits to India for the first time—the Export-Import Bank and the Development Loan Fund. The Bank extended credits totalling \$150 million (Rs. 71.43 crores) and the Fund \$175 million (Rs. 83.3 crores).

* 1959 March : gift of 7,000 machine tools (Rs. 7 crores).

The Export-Import Bank credit is for the purchase in the United States of capital goods for projects in the fields of irrigation and reclamation, power development, coal and iron ore mining, road transportation, communications and industrial development. Bank loans are to be repaid in dollars over a period of 15 years.

Development Loan Fund money will be used by India to finance capital equipment purchases for projects in both the public and private sectors—such as railways, transportation, mining, chemicals, cement, jute and mechanical engineering industries. DLF loans may be repaid in rupees and can be spent by the Government of India on world-wide tenders and not necessarily in the United States.

Another major item of American assistance during 1956 was the signing of two agreements totalling \$295 million (Rs 141 crores) for importing U.S. agricultural commodities, mainly wheat. These agreements were signed under U.S. Public Law 480, which permits the sale of agricultural commodities to foreign countries in their own currencies. Most of the rupee proceeds from the sale of these agricultural commodities in India are either loaned or given as grants to the Government of India for executing economic development projects. These agreements not only enable India to meet food shortages and hold down internal prices, but obviate an otherwise huge drain on her limited foreign exchange resources and provide large rupee funds for executing development projects.

The first of these agricultural commodities agreements was signed in August 1956 for a total of \$36.1 million (Rs. 171.5 crores). All the commodities under the 1956 agreement, including nearly four million tons of wheat, and 300,000 tons of rice, had been delivered to India by early 1959.

* Agreement signed on March 18, 1959 covers Rs. 100 crores in loan and grant to 14 public sector river valley projects—arising from PL 480 signed on Aug. 29, 1956.

The first loan agreement for utilization of the P.L. 480 Rupee Fund, signed on July 29, 1958, provided Rs. 26 crores to the Indian Refinance Corporation for extending credits to medium-sized industries in the private sector. Under this programme, Indian business men have to arrange for loans for expansion schemes through their regular banks as normal commercial transactions, and the Refinance Corporation in turn lends its funds to these banks reimbursing them for such industrial loans.

The P.L. 480 agreement signed in September 1958 for \$238.8 million (Rs. 118.7 crores) includes a provision that the rupee equivalent of \$60 million (Rs. 28.5 crores) be set apart for lending to private concerns in India by the U.S. Export-Import Bank.*

Also in 1958, the United States advanced to India a loan of \$20 million (Rs. 9.5 crores) for the Orissa Iron Ore Project to develop the resources of that State in collaboration with Japan. Another major item was a \$10 million (Rs. 4.76 crores) grant for the malaria eradication programme.

In addition, the United States during 1958 agreed to defer dollar repayments on the \$190 million (Rs. 90 crores) Wheat Loan of 1951 for nine years. These deferrals total approximately \$68 million (Rs. 32.3 crores) and when payments resume no additional interest will be charged on the money due.

American business men are taking increasing interest in India's economic development. The World Bank and Fund meetings in New Delhi in October 1958 were attended by more than 70 of America's leading bankers, investment specialists and industrialists in addition to the official delegation. They travelled around the country and later reported they were tremendously impressed by India's progress.

Indian business men are also interested in joint ventures with Americans as revealed by the leader of the U.S. Trade Mission after a two-month tour of North India in late 1958 and a month of consultations at the U.S. Small Industries Exhibit in New Delhi. Mr. Nathaniel Knowles, leader of the mission, told a press conference that 117 definite proposals for joint ventures between American and Indian businesses had been received during the mission's stay in India.

Similar visits by other U.S. trade missions are scheduled for Calcutta, Madras, and Bombay in conjunction with the showings of the U.S. Small Industries Exhibit in these cities.

Another development in fostering participation by American private capital in India's economic growth was the signing in 1958 of the Investment Guarantee Agreement between the governments of India and the United States. The agreement assures American private capital of convertibility and repatriation in case of nationalization, expropriation or war. India is one of several countries which have signed similar Investment Guarantee Agreements with the United States, in an effort to attract private capital.

Recognition and appreciation in America of India's objectives, aspirations and problems reached a new peak in 1958 with the adoption by the U.S. Senate of a bipartisan resolution expressing U.S. interest in India's development plans and noting the importance of providing continuing assistance to India "to complete successfully its current programme for economic development."

As a matter of fact, ever since the first year of India's existence as a sovereign republic, the Government and people of the United States have been partners in this country's efforts to achieve economic freedom.

U. N. AID TO INDIA

Programmes: TAA 22; ILO 36; FAO 9; UNESCO 12; WHO 91.

Subjects in which technical assistance was offered were

TAA: Statistics (Quality Control, Mathematical Statistics, Installation Engineers of various types of equipment), Earth Moving Equipment, Power Distribution, Mining, Dam Designs, Bhakra, DDT and Penicillin, Glass Moulds, Time and Motion Study, Lighthouse Engineering, Town Planning, Housing Documentation, Demography.

ILO: Manpower Organization including Vocational Training, Employment Information, Occupational Classification, Apprenticeship, Instructor Trainers Productivity and Industrial Relations.

FAO: Irrigation Evaluation, Land Reform, Aerial Survey, Rinderpest, Dairy Husbandry, Sheep and Wool, Livestock, Hides and Skin, Agricultural Statistics, Fisheries (in various branches such as Fish Marketing, Fish Training, Fish Technology, Naval Architects, Harbour Specialists and Fleet Managers), Logging, Resin Tapping, Soil Conservation, Food Technology, Dietetics, Home Economics.

UNESCO: Photo-elasticty, Electronics, Silicate Technology, Dam Construction, Civil and Electrical Engineering, Chemical Engineering, Technology of Inorganic, Industrial Electronics, Switchgear Design, Refrigeration, Fuel Technology, Machine Tool, Metallurgy and Technology of Iron and Steel.

ICAO: Check Pilots and Link Training.

ITU: Railway Electrification.

WHO: TB Demonstration and Training Centres: Madras, Nagpur, Hyderabad, Vital and Health Statistics, MCH Nursing, Donorship Nursing and Midwifery, Health Education, Public Health, Environmental Sanitation, Preventive and Social Medicine.

Among the institutions that benefited were: Indian Statistical Institute, Calcutta; Roorkes

University; National Building Organization; Central Training Institute, Koni Bilaspur; Indian Agricultural Research Institute, Central Bureau of Vocational Guidance, National Physical Laboratory; Banarus University; Engineering College, Poona; Institute of Radio Physics and Electronics, Calcutta; Indian Institutes of Technology, Bombay and Kharagpur; All India Institute of Hygiene and Public Health and All India Institute of Medical Sciences.

Some of the fields of activity in which the United Nations technical assistance programme co-operated with India during 1957 are:

A former United States Army Corps of Engineers, one of the ninety odd U.N. experts working in India, advised the Government on the Bhakra Nangal Dam. A Dutchman is one of the group of technicians working on certain phases of India's livestock situation while another from the United Kingdom is helping improve village pastures. Close to the roof of the world another expert from the Netherlands is working with a group of Indian horticulturists to start a prosperous fruit industry.

Fisheries specialists from Norway, Japan, Iceland, Belgium and Sweden are working in India to set up a modern fishing industry. This team has been to different parts of the country—to Bombay State, Madras, Cochin and West Bengal, advising on modernization of boats, equipment and harbour facilities, adapting their suggestions to the needs of each region.

Experts from other countries have helped in setting up maintenance shops for transport vehicles and application of modern techniques of industrial engineering.

Russian and American experts are working on the staff of India's higher institutes of technology.

Specialists from many countries are participating in public health, malaria eradication and nurse training programmes of the country.

DURING 1956 the sum of money allotted to India for the Expanded Programme of Technical Assistance was U.S. dollars 2,344,600 and the sum contributed by India was U.S. dollars 600,000.

The total cost of the projects under the expanded technical assistance programme in 1957 in U.S. dollars was 1,906,613.

Indian contribution to T. N. (1958): Rs. 50.98 lakhs.

The contributions pledged by the Governments for the entire Expanded Programme of Technical Assistance for 1957 and 1958 were U.S. dollars 20,837,537 and \$2,623,756 respectively. Indian contribution for this period, \$500,000 and \$ 525,000 respectively. In addition the Government contributed \$224,512 towards the local living expenses of experts.

The total amounts obligated during 1957 classified under different agencies are as follows (Figures in U.S. dollars).

UNTAA: 698,660; ILO: 100,212; FAO: 413,444; UNESCO: 308,953; ICAO: 12,231; WHO: 371,283 and ITU: 1,850; Total: 1,906,613.

During 1957 one hundred and thirty-seven experts were engaged under the Expanded Programme and 51 under the Regular Programme: 27 by UNTAA; 10 by ILO; 46 by FAO; 29 by UNESCO; 2 by ICAO; 73 by WHO and 1 by ITU.

During the same period 117 Indian nationals were recruited by the various agencies under the Expanded and Regular Programmes: UNTAA 20; ILO 6; FAO 29; UNESCO 25; ICAO 4; WHO 30, ITU 1; WHO 2.

The total fellowships awarded to Indians both under the expanded and regular programmes during the year were 162: TAA 88; ILO 15; FAO 9, UNESCO 6; ICAO 1; and WHO 32.

In addition 14 fellows went under the regional projects of the Expanded Programme.

India gave facilities to 171 fellows from various countries under the Expanded and Regular

FOREIGN AID TO INDIA

THE total external assistance authorised to India between August 1949 and January 1959 by the I.B.R.D. (International Bank of Reconstruction & Development) and some of the foreign Governments and institutions totalled Rs. 1,482 crores. Among the countries from which assistance was obtained were the U.S.A., the U.K., Canada, Australia, New Zealand, W. Germany, Japan, the U.S.S.R. and Norway (See tables attached).

I.B.R.D.—From August 1949 to January 1959, the I.B.R.D. authorised 17 loans for Rs. 241.6 crores—Rs. 150.4 crores to the public sector and the remainder to the private sector (Table II). Drawings till the end of September 1958 amounted to Rs. 143.4 crores, the share received by the public sector being of the order of Rs. 73 crores.

U.S.A.—Total assistance from the U.S.A. authorised between 1951 and January 1959 amounted to Rs. 759.7 crores. Of this Rs. 523 crores was authorised during the Second Plan period (upto January 1959). Of the total U.S. aid authorised to India, Rs. 313.4 crores was under the P.L. 480 Programme, Rs. 176.7 crores under the Indo-U.S. Technical Aid Programme, Rs. 71.4 crores from the 'Exim Bank' and Rs. 88.8 crores under the D.L.F. Programme.

Though in the initial stages of the Indo-U.S. aid programme, the entire aid was offered by the U.S. as a grant, it was agreed in 1954-55 that a major part of the aid should be in the form of a loan and that 50 per cent of the development assistance (as distinct from Technical Assistance since that year) should be taken in the shape of U.S. surplus agricultural commodities.

Some of the loans are repayable in foreign currencies and some may be repaid in rupees. The wheat loan, the Exim Bank loan and the U.S. Banks' credits to A.I.I. belong to the first category, the T.C.A. loan and loans from the Development Loan Fund and the Asian Economic Development Fund belong to the second. As at the end of January 1959, loans repayable in foreign currencies (excluding P.L. 480) amounted to Rs. 167 crores and those repayable in rupee currency Rs. 155 crores. As regards P.L. 480 assistance, the rupee equivalent of the dollar cost of the U.S. surplus agricultural commodities plus 50 per cent ocean freight costs are deposited in the U.S. Government Title account in India. Of this a part is to be retained by the U.S. Government for its expenditure in India and the rest will be utilised for making grants and loans to the Government of India for mutually agreed projects.

The U.S. aid under the T.C.A. programme is being utilised on mutually agreed projects such as imports of fertilisers, iron and steel for agricultural and industrial use, construction of tube wells and supply of essential items of equipment

like locomotives and wagons for the railways, vehicles, agricultural implements and visual aid for community projects. Of the total U.S. aid committed, it is estimated that India utilised Rs. 413 crores upto September 1958. (See also article U.S. Aid to India.)

Canada—Total aid allocated by Canada from 1951-52 to 1957-58 amounted to about Rs. 64.2 crores. This has been used for a wide variety of projects such as the purchase of wheat, trucks and buses (for the Bombay State Transport Corporation), locomotives and locomotive boilers for Indian railways, heavy equipment for hydro-electric projects at Umtru, Mayurakshi and Kundah, diesel generating sets, locomotives, plant projection and aeromagnetic survey for oil prospecting in Rajasthan.

Since April 1958, Canada has allocated to India a total sum of Rs. 12.3 crores out of which Rs. 4.19 crores will be received as a wheat loan.

U.K.—Till recently, assistance from the U.K. has been offered mainly for research and demonstration equipment for the technical institutes under the Technical Co-operation Scheme of the Colombo Plan. During the year 1956-57, the U.K. Government granted a loan of Rs. 20 crores towards the erection of the Durgapur Steel Plant (also called the first Export Credit Guarantee Department Loan). Besides this the Indian Steel Consortium, London also arranged for bank credits of Rs. 15.3 crores with Messrs. Lazard Bros. & Co. Ltd. for purchases of equipment for the Durgapur Plant. Out of the two credits, nearly Rs. 12 crores is estimated to have been utilised upto September 1958. In September 1958, the U.K. Government authorised a further loan of Rs. 38 crores (the Second E.C.G.D. Loan) to meet the country's pressing foreign exchange commitments.

Australia—The total economic assistance allocated by Australia between 1951 and 1957 is of the order of Rs. 10.8 crores. In the first two years, the funds were utilised to purchase wheat and flour as well as construction equipment for the Tungabhadra Project and electrical equipment for the Ramagundam Project in Hyderabad. The allocations for the subsequent years are being used for the supply of radio equipment and diesel cars and wagons for railways.

During 1958-59 an allocation of 9,000 tons of wheat (worth about Rs. 30 lakhs) has been received.

New Zealand—Total assistance allocated by the Government of New Zealand since the inception of the Colombo Plan upto the 31st March, 1958 totalled \$2.1 million (Rs. 2.8 crores). Of this a cash grant of \$1 million was for the All India Medical Institute towards meeting

a part of its capital cost and \$0.8 million for the Delhi Milk Scheme. The other allocations were mainly for equipment for dairy schemes in India.

U.S.S.R.—A credit of Rs. 83 crores has been received from the U.S.S.R. for the establishment of a steel plant at Bhilai. Of this Rs. 34.4 crores crores were utilised upto September 1958.

Further credits to the tune of about Rs. 60 crores have been authorised by the Soviet Government as a loan for financing industrial projects included in the Second Plan, such as heavy machine building works, mining machinery plant, power station at Neyveli, optical glass factory and development of Korba coal fields.

Norway—Total grants from Norway amounted to Rs. 1.7 crores. Of this, Rs. 0.7 crore (Krs 10 million) was granted in 1953 for a pilot project of fishery development in Kerala. In 1956-58 an additional sum of Rs. 1.0 crore was offered to expand the activities of the same project as well as to develop a new fishery centre at Cochin. By March 1958 a large part of this amount was utilised.

Ford Foundation—From September 1951 upto September 1958 the Ford Foundation extended aid totalling Rs. 9.6 crores towards the training of personnel for rural development, small scale industries, education, research and training and cultural interchange. The amount utilised out of this grant upto September 1958 was Rs. 4.9 crores.

Japan—In February 1958, Japan agreed to make available Yen credits of Rs. 24 crores. Also Japan agreed to provide a loan of Rs. 3.8 crores for the iron ore project in Orissa. Japan has agreed to contribute a further \$10 million following the I.B.R.D. conference in August 1958.

West Germany—The total aid authorised by West Germany in respect of the Rourkela Steel Project amounted to Rs. 78 crores. Of this, Rs. 29.3 crores were utilised upto September 1958. Germany agreed in January 1959 to loan a further sum of Rs. 20 crores for our import of capital goods.

Technical Assistance—India has received substantial technical assistance from Australia, Canada, New Zealand, the U.K., the U.S.A., West Germany and from the United Nations and its specialised Agencies. Under the Technical Co-operation Scheme of the Colombo Plan, the Commonwealth countries undertook to provide books and equipment worth Rs. 0.6 crore for technical institutes and research centres.

Training facilities for Indians overseas are also provided by the U.S., the Colombo Plan countries, West Germany and also under the U.N. Technical Assistance Programme. (See articles 'Colombo Plan' and 'U.N. Aid to India.')

* Figures are in million dollars. Those in brackets are in Rs. Crores

REPAYMENT OF LOANS

A statement was made in the Lok Sabha on March 13, 1959 by the Finance Minister on estimated repayment of foreign loans (both principal and interest) on Government account from 1959-60 to 1963-64

The statement is given below

(Rs. lakhs)															
	1959-60			1960-61			1961-62			1962-63			1963-64		
	Cap	Int.	Total	Cap	Int.	Total	Cap	Int.	Total	Cap	Int.	Total	Cap	Int.	Total
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)	(14)	(15)	(16)
A. Repayable in Foreign Currency															
(i) * Foreign Loans	7.03	12.64	19.67	23.96	20.31	44.27	47.11	25.59	72.70	43.35	23.78	67.13	51.28	22.16	73.44
(ii) ** I.M.F. Drawings	—	2.50	2.50	1.52	2.43	36.95	60.71	2.36	63.07	—	—	—	—	—	—
(iii) *** Deferred Payment Liabilities (Public Sector) (As on 1-10-58)	2.54	—	2.54	4.51	—	4.51	6.42	—	6.42	5.43	—	5.43	1.19	—	1.19
Total 'A'	9.57	15.14	24.71	62.99	22.74	85.73	114.24	27.95	142.19	48.78	23.78	72.56	52.47	22.16	74.63
B. Repayable in rupees :															
Foreign Loans	2.83	2.86	5.19	3.12	5.56	8.68	4.29	6.53	10.82	5.42	8.68	14.10	6.12	9.37	15.49
Total A & B	11.90	18.00	29.90	66.11	28.30	94.41	118.53	34.48	153.01	54.20	32.46	86.66	58.59	31.53	90.12

Note.—The above statement includes loans formally authorised but not yet fully drawn and has been prepared on the basis of an estimated rate of drawing.

* This includes foreign loans granted to non-government agencies in the public sector (e.g. Madras Port, Calcutta Port, Air India International) under guarantee of the Government of India.

** The interest charges on I.M.F. drawings, which are normally payable in gold, become payable partly or wholly in Rupees depending upon the level of the country's monetary reserves at the time each payment falls due.

*** Figures in respect of Deferred Payments are inclusive of interest charges.

EDUCATION

Note: Educational statistics are provided in a series of tables at the end of the article.

SINCE August 15, 1947 Education at the Centre has been constituted into a separate Ministry of Education. The State Governments are fully autonomous in regard to educational matters except in respect of educational development programme for which they receive grants-in-aid from the Central Government. Each programme has to be approved by the Central Government who have to examine whether it is in accord with the All-India approved educational policy.

The Ministry has offices in London, Washington, Nairobi and Bonn.

It is responsible for the four Central Universities of Aligarh, Banaras, Delhi and Visva Bharati, and some institutions of higher learning. Other departments that come within the purview of the Ministry are: UNESCO, Indian Wheat Loan Education Programme, National Book Trust, Social Welfare, Youth Welfare, Sports and Games, National Discipline, Child Welfare Scholarship Schemes, Propagation and Development of Hindi, National Archives, Indian Historical Records Commission.

The work of the Ministry is distributed among eight Divisions: Elementary and Basic Education, Secondary Education, Higher Education and UNESCO, Hindi, Social Education and Social Welfare, Physical Education and Recreation, Scholarships, and Administrative.

The Central Advisory Board of Education meets every year usually in January to review the progress of education in the various States. It consists of 43 members with the Union Minister of Education as Chairman. All the State Education Ministers, Members of Parliament, representatives of Inter-University Board and other specialised bodies and prominent educationists are represented on the Board.

The Board has 5 Standing Committees to deal with various educational problems. These are: Basic Education Committee, Social Education Committee, Secondary Education Committee, Higher Education Committee and General Purposes Committee.

Some of the other educational bodies associated with the Ministry are:

All-India Council for Elementary Education, All-India Council for Secondary Education, All-India Council for Technical Education* and the University Grants Commission.

In the States the Secretary, Department of Education, is the permanent head of the Department and the Director of Education acts as an expert Adviser to the Minister in charge of Education. The Director controls the inspecting staff and the teaching staff of the Government institutions. In some States the functions of Director are discharged by the Educational Officer, in others by the Education Secretary.

The authority of Government in controlling the system of public instruction is in part shared with and in part delegated to Universities, and Boards of Secondary and Intermediate Education as regards secondary education, and to local bodies as regards elementary education in some States.

The control over higher education is exercised through the University Grants Commission.

At the beginning of 1959 there were 41 universities and 13 Boards of Secondary Education.

Certain forms of Technical Education are under the technical departments concerned and come within the purview of the Minister in charge of those Departments.

Institutions under private management are controlled by Government and by local bodies by "recognition" and by the payment of grants-in-aid, with the assistance of the inspecting staff employed by Government and by local bodies.

During 1956-59 the total Central assistance on States' schemes was Rs. 11.81 crores. State-wise the amounts sanctioned in Rs. lakhs were: Andhra 60, Assam 51, Bihar 100, Bombay 160, Kashmir 17, Kerala 67, M. P. 74, Madras 108, Mysore 70, Orissa 84, Punjab 58, Rajasthan 50, U.P. 130, W. Bengal 155.

The average annual cost per student in primary, secondary and higher education was respectively Rs. 25.4, Rs. 68.2, Rs. 496.1. The Government of India incurred Rs. 5.4, 0.9 and 12.8 respectively out of the above costs.

The real problem of Indian education is finance with which is tied up the quality of teaching at all levels and the pay-scales and service conditions of teachers.

Some specific problems are lack of school buildings, of trained teachers, short supply of teachers especially in basic, science, technology, lack of equipment, under-staffed Directorates and Inspectorates.

Questions over which the public mind is agitated are how to hasten free and compulsory elementary education for 6-14 age-group, how to make basic work on a mass scale, how to convert as quickly as possible secondary schools into multi-purpose and higher secondary schools with adequate trained staff and equipment, the medium of education and the language formula, the place of Sanskrit, better system of examination, the problem of limiting admission to Universities, the three-year degree course, and student indiscipline.

One of the problems which will bear a longer note because it is concerned with the whole ideology on which the education system is based—this problem is one of inculcating a sense of national cohesion and emotional integration in schools and colleges.

Questioned on this subject the Minister of State for Education said in Parliament that this was really the problem of building up national character and was therefore a process of evolution over a long period of time.

However, the Ministry was taking general measures to re-orient the approach and background of teaching.

One of the major steps taken in this connection is the acceptance of the basic system of education as the national pattern of education. Under this system, school children of all castes, creeds and classes are brought together without distinction of any kind. It is hoped that in the course of time this system of education will help establish a classless society based on co-operation and non-violence.

In the new syllabus for the higher secondary schools, the old subjects of history, geography, civics have been combined under the general heading of "Social Studies", the aim of which course is to prepare the students for an intelligent and effective participation in group and national life. During the final year of the higher secondary course, the students have to study as one of the topics the problems of national reconstruction.

Another major step is the holding of Youth Festivals every year in which all Universities participate. In this manner, college students of both the sexes from all parts of the country are brought together and get an opportunity of community living.

The National Bank Trust of India is publishing certain books, the purpose of which is to inculcate the sense of national cohesion and emotional integration among students and the public.

National Discipline Scheme

Yet another step in this direction was taken when the National Discipline Scheme was sanctioned as a part of the educational development programme under the Second Five Year

Plan. The scheme aims at infusing in the younger generation a sense of discipline and citizenship and inspiring them to moral and spiritual values which are the accepted common cultural heritage of this country.

This Scheme is in operation in the Punjab, Bombay, West Bengal, Delhi, M.P., Kashmir and a few schools in U.P. The State Governments have their own schemes under the general supervision of the Central Ministry.

The total number of children trained by Central Government Instructors was 2,46,000 in Feb. 1959.

The number of schools where training was being imparted was as follows:

Delhi 19, Punjab 57, M.P. 4, U.P. 12, Bombay 139, Kashmir 20, W. Bengal 40, Total 292.

The total number of children on rolls was 1,68,792 broken up as follows: Delhi 18,208, Punjab 35,715, M.P. 2,842, U.P. 4,902, Bombay 66,714, Kashmir 12,678, W. Bengal 21,632.

These figures are exclusive of those under training in State schemes.

The scheme was started in 1954 in Delhi, Faridabad, Rajpura and Uthmanagar—actually in an institution for displaced persons, Kasturba Niketan, in Delhi. It gives physical training by means of drills, parades and sports. During vacation children are encouraged to join excursions and community work. There are lectures, demonstrations and tours. Through all these a sense of discipline and tolerance is inculcated.

PRIMARY EDUCATION

No. of primary schools on 31st March 1957: 287,318.

Total enrolment on 31st March 1957: 23,914,356.

Basic education is now accepted as the pattern of national education.

The aims have been: to provide free and compulsory education to all children upto the age of 14 as quickly as possible; second, to convert as many primary schools as possible into Basic schools; third, to enrich the curriculum by introducing creative activity and improve the quality of text-books.

The statistical position about Basic education is shown in the tables at the end of the article.

A national programme of orienting elementary non-Basic schools towards the Basic pattern is under implementation. The steps suggested do not require either large funds or fully trained personnel. They are concerned about the introduction of activities of a cultural, recreation and social nature.

Established in February, 1956, the National Institute of Basic Education carries on its various programmes of research, training and publication of literature. State Governments are given 100 per cent, and voluntary organisations 60 per cent, financial assistance towards improving the existing post-Basic institutions or starting new Basic schools at Secondary or post-Basic level. The establishment of a Central Basic School at New Delhi to demonstrate what an urban Basic school can achieve under proper conditions is under way. In addition to the schemes of 'Prize Contests for Books for Children', 'Organisation of Sahitya Rashmikalas for Training Writers of Children's Books' and 'Production of Model Books for Children', a scheme has been adopted for the production of suitable literature on Basic education in the form of guide books, monographs, supplementary reading material and source books.

An All-India Council for Elementary Education plans and organizes studies pertaining to elementary education and assists in the production of suitable literature.

* This is under a different Ministry.

SECONDARY EDUCATION

No. of secondary schools in 1957 : 35,828.

Enrolment in secondary schools : 93,84,167.
No. of multi-purpose schools end of March 1958 : 1,143.

Second Plan target : 1,304.

No. of Higher Secondary Schools end of March 1959 : 1,033.

Second Plan target : 1,197.

Plan allotment for reorganization of secondary education : Rs. 51 crores.

Central assistance for 1958-59 : Rs. 3.33 crores.

Allotment for 1959-60 : Rs. 4 crores.

Central assistance for increased pay of teachers 1967-68 : Rs. 42.61 lakhs.

The Centre bears half the increased cost of all schemes.

The accepted pattern of education comprises eight years of elementary (Basic) education; three years of secondary education with diversified courses to give it a vocational bias and make it a terminal point for entry into trade or profession; and three years of university education leading to the first degree.

At the secondary stage, a child should in addition to the core curriculum which would include languages, social studies, general science and one compulsory craft—a child should opt for one of the following diversified courses to be provided in reorganised multi-purpose schools :—humanities, science, technical, commerce, agriculture, fine arts or home science.

Except science, humanities and commerce the groups are relatively new to secondary schools. Multi-purpose schools are schools in which these have been introduced.

This new scheme for the conversion of high schools into multi-purpose schools was launched in 1964 along with a number of ancillary schemes, such as the training of teachers in new subjects, improvement of teaching facilities particularly in science, of school libraries, the introduction of craft in middle schools, and also other miscellaneous schemes like teachers' seminars, training of career masters, etc.

The formula about language teaching now generally accepted is formed of three items :

1. Mother-tongue ; or regional language ; or mother-tongue and regional language ; or mother-tongue and classical language ; or regional language and classical language.
2. English or a modern European language.
3. Hindi for non-Hindi areas ; or modern Indian language for Hindi areas.

In the matter of reform of examination the proposals which hold the field have not so far been put into effect. These are improvement of the essay type of examination, inclusion of objective type tests as part of school examination, introduction of cumulative record cards, and the assignment of a certain percentage of marks in the final examination to the work done during the year.

Early in 1957 an American expert held six five-day work-shops for secondary school teachers to train them in the preparation of test material, and another for teachers of training colleges.

Copies of a programme of action accepted by a conference of representatives of Boards of Secondary Education and of Universities conducting the matriculation examination held in April 1957 and the recommendations of a conference of representatives of State Boards of Secondary Education held in Sept. 1958 were sent to all Governments for necessary action.

Among the recommendations are : Every State should set up an Examination Unit before 1961 ; the All India Council should produce a large pool of test material ; arrangements for the training of extra evaluation personnel should be made ; Schools should be notified in advance of the proposed changes.

The provision of diversified courses has given rise to the need for educational and vocational guidance on the part of teachers and school administrators. Accordingly it was recommended that Bureau of Educational and Vocational Guidance should be established in every State. Bureaus now exist in Andhra, Assam, Bombay, Bihar, Kerala, Orissa, U.P. and Madhya Pradesh.

At the Centre there is a Central Bureau of Educational and Vocational Guidance. This was established in Oct. 1954. It has been engaged in the preparation of notes on group guidance in the classroom and the organisation of training courses and seminars for counsellors. Five such courses were held at different places—Ferozpur, Meerut, Bangalore, Surat, Agra—in 1958. A ten-month course for counsellors and directors was also organised.

About text-books, the Secondary Education Commission had recommended the formation of special text-book committees to examine the problem.

The following States have taken measures to nationalise the production of text books partially or wholly : Andhra, Assam, Bihar, Bombay, Kashmir, Kerala, M.P., Punjab, Rajasthan, U.P. and West Bengal.

The Central Government's Central Bureau of Text-book Research—established in 1954—has framed criteria for the evaluation of text-books. It prepares syllabi and gives general guidance as well.

It has prepared a combined Basic and non-Basic syllabi for English, Hindi, Mathematics, Social Studies and Science for primary and middle grades. Twenty-four try-out lessons in science and social studies were also prepared.

A pamphlet entitled 'Hints on Text-Book Production for Authors and Publishers' is under preparation.

To strengthen science teaching science clubs are organised. Up to the end of 1957-58 more than 130 science clubs were started. At the end of the Second Plan two per cent of the secondary schools in every State will have science clubs—about 330 in all.

For the promotion of research in subjects of importance to secondary education there is an allotment of Rs. 1.64 lakhs for 1958-59. Much of the research is conducted in teachers' training colleges and Departments of education in universities, the provision for 1959-60 is Rs. 1.80 lakhs.

The Central Institute of English at Hyderabad for research in English teaching and training started functioning in November 1958.

For the promotion of Gandhi's teaching and way of life a selection of suitable books is being made for primary, secondary and university levels.

There is an All-India Council for Secondary Education set up in August 1955 to help implement the recommendations of the Secondary Education Commission.

It is an autonomous body with 22 members. Among the more important problems which it has tackled or is tackling are syllabi for the new subjects in multi-purpose schools. The draft syllabi have been distributed among recognized educational bodies. A second task is the reform of examination for the study of which the Council has established a unit. The Council is also organising refresher and training courses in evaluation for practising teachers. Teachers have been sent abroad—10 in Feb. 1958 to U.S.A.—for training.

A committee set up to review the work of the council reported in Dec. 1958. It has recommended that the Council should be reorganised to make it more representative and that it should be converted into a Directorate of the Ministry with advisory and executive functions. This proposal would probably be implemented in 1959.

The budget allotment for the council for 1958-59 was Rs. 29.80 lakhs and for 1959-60, Rs. 27.95 lakhs.

Multipurpose Schools

Below we describe the position in regard to the reorganisation of secondary education in the various States and indicate some of the problems that multipurpose schools face.

Eight States and two Union Territories (Andhra Pradesh, Kerala, Madhya Pradesh, Mysore, Orissa, Punjab, Rajasthan, West Bengal, Delhi and Tripura) have already introduced the revised pattern of Secondary Education. Two States (Madras and Himachal) propose to introduce it from 1959-60, while Bombay has not yet taken a final decision except for the Vidharbha Division which follows the new pattern. However it is hoped that Bombay will fall in line with the proposal in due course, since six of the eight Universities in that State have already accepted the three-year course. There is no information from Assam, while Uttar Pradesh has taken a decision against the scheme.

With regard to the progress of reorganisation, West Bengal has converted about a quarter of its High schools, while Madhya Pradesh and Delhi hope to complete the necessary upgrading by 1961. Madras, Punjab and Himachal Pradesh are expected to do so by 1963 and Assam by the end of the Fourth Plan. No definite replies have been received from the other States.

In Andhra, Madhya Pradesh, Madras, Rajasthan and West Bengal, students passing out of multipurpose schools are eligible for admission into professional institutions and Arts and Science colleges. In other States there are variations. In Bombay, the Nagpur University admits such students directly to the three-year course. In the Punjab, the students are eligible for admission to the pre-professional course but not directly to an Engineering College. Uttar Pradesh continues the old relationship between the Intermediate and B.A. classes. In Kerala and Mysore the entire question is still under investigation. In Orissa, the first batch from multipurpose schools will not be out until 1960 and in Assam not until 1962.

The new courses are fairly popular and the State Governments do not experience any special difficulties in attracting students. The popularity of the courses, however, varies from State to State. Thus, Agriculture does not seem to be popular in Kerala and Mysore—the average figures for the 9th class are 10 and 9. Commerce suffers a similar fate in Madras and in Kerala, while the same is true of Fine Arts and Home Science in Madras and Punjab. In Uttar Pradesh the crafts appear to be unpopular, while West Bengal has commented on the slump in the study of the Humanities. Science is reported to be popular everywhere.

The teacher remains the key for the successful implementation of any important educational reform. In the First Plan, assistance was given to 7 States (Assam, Andhra, Punjab, West Bengal, Orissa, Madras and Hyderabad) for setting up schools for training teachers in practical subjects, particularly Crafts, and to 8 States (Assam, Andhra, Bihar, Bombay, Punjab, Madhya Pradesh, Madras and Hyderabad) for expanding and improving training facilities in the existing institutions.

However, the magnitude of the problem is so great that shortages of teaching personnel continue all round. In the vocational subjects, teachers are not available in the scales of pay offered. In certain subjects adequate training facilities do not exist at the University or other levels. This may be due to the preoccupation of the existing institutions with the present backlog of untrained teachers or to the fact that schools have not always found it possible to spare teachers for training courses when substitutes are not easily available.

Some assistance in this field was given by the All India Council for Secondary Education which, during 1957 and 1958, organised nine seminar-cum-training courses at various places in the country to train teachers in all the effective (practical) Subjects.

At present all the State Governments except Punjab, Jammu and Kashmir, Mysore and Madras have established their Bureau of Educational and Vocational Guidance, but the position in the multipurpose schools is not very satisfactory. The States Bureau have not yet succeeded in reaching the schools to any large extent and a majority of secondary institutions, specially in Andhra, Madhya Pradesh, Kerala, Orissa and Rajasthan, are without any kind of guidance facilities. Nor have they taken up any training programmes for counsellors.

In the circumstances, such guidance as is being given is based on the cumulative record cards (wherever they exist), performance in achievement tests, examination marks and consultations between the heads of institutions and the subject teachers.

While no scientific study has been made of the reaction of parents to guidance, available information suggests that the parental reaction varies from place to place. In Bombay and Madras there has been no noticeable resistance. In West Bengal, Uttar Pradesh, Punjab and Mysore, however, experience seems to be different. Mysore and Uttar Pradesh have reported that parents have preconceived notions about the suitability of their wards for certain courses and will not easily give them up.

Equipment: The paucity of suitable textbooks is acutely felt. There are hardly any books written in accordance with the syllabus prescribed. The teachers have, therefore, to work hard to collect suitable matter from different sources. In the absence of textbooks the pupils are required to take down notes copiously. This leaves very little time at their disposal for self study. It has been experienced that as a result of this the prescribed courses cannot be adequately completed in the time available.

Rajasthan, Orissa and Madhya Pradesh seem to be already in possession of books in English and/or Hindi or the regional language. In West Bengal, which has prescribed no textbooks, books on all courses are available in English and on most courses in Bengali as well. In Bombay textbooks on agricultural subjects are available in the regional languages, textbooks in Commerce are under preparation while the question of preparing books in Fine Arts and Home Science is under consideration. Other States like U.P., Punjab and Madras are still examining the matter.

The All India Council for Secondary Education has brought out an important Handbook of suggestions for teaching Home Science and similar Handbooks for General Science and Social Studies are under preparation. The Council also expects to call expert committees soon for the preparation of instructional material in the practical subjects.

The position with regard to the buildings seems to be reassuring in many States. Madhya Pradesh, Rajasthan and Uttar Pradesh have either completed their construction programmes or are about to do so. Madras, Orissa and Punjab hope to reach completion by 1959-60. Mysore and Assam a year later. The position in Andhra Pradesh, Himachal Pradesh and Kerala is indefinite. Bombay and West Bengal blame the slowness of progress on the paucity of funds and building materials. Mysore blames dilatory government procedures and the non-availability of contractors willing to take up work in the sparsely populated areas.

Bombay, Madhya Pradesh, Madras, Orissa, Rajasthan and Uttar Pradesh do not experience much difficulty in equipping their institutions. Kerala, however, thinks that equipment of the right quality has been in short supply owing to the import policy of the Government of India. Mysore and Punjab find that local firms are not always able to deliver the equipment whereas foreign exchange difficulties stand in the way of direct import. West Bengal also complains of short supply.

UNIVERSITY EDUCATION

Position on 31st March 1957:

No. of Universities: 41 (March 1956).
No. of Colleges: 812.

No. of Technical and Professional Colleges: 531
Total no. of students: 7,98,101.
Second Plan allotment: Rs. 27 crores.

The policy in regard to university education is largely the one recommended by the Indian University Education Commission which made a report in 1949. (This report is summarised in a previous edition.)

There is now a University Grants Commission. (See also the note below.) Its duty is to take such steps as it thinks fit for the promotion and co-ordination of university education and for the determination and maintenance of the standards of teaching, examination and research.

Universities

There were in all 41 universities in India in December, 1956. The names of the universities with the names of the Vice-Chancellors are given below:—

The Central Universities are four: Aligarh, Banaras, Visva Bharati and Delhi.

It may be mentioned here that for purposes of employment under the Central Government the degrees of 8 institutions besides the universities mentioned below are recognised.

The institutions are: Gurukul University, Kangri, Haridwar; Jamia Millia Islamia, Delhi; Kashi Vidyapeeth, Varanasi; Gujarat Vidyapeeth (degrees awarded during 1950-52); Tilak Maharashtra Vidyapeeth, Poona (degrees awarded prior to 1932); Tata Institute of Social Sciences, Bombay; National Council of Rural Higher Education; and Qaumi Vidyapeeth, Lahore (degrees awarded upto 1927).

Agra University.—Lt.-Col. K. P. Bhatnagar, M.A., LL.B.

Aligarh University.—Col. B. H. Zaidi, B.A. (Cantab.), Bar-at-Law.

Allahabad University.—Dr. Shri Ranjan, M.Sc. (Cantab.), D.Sc. (France).

Andhra University.—(Waltair).—Dr. V. S. Krishna, B.A. (Oxon.), Ph.D. (Vienna).

Annamalai University (Annamalainagar).—T. M. Narayanaswamy Pillai, M.A., B.L.

Banaras Hindu University.—Dr. Veni Shanker Jha, Ph.D. (London).

Baroda University.—Dr. Jyotindra M. Mehta, M.A. (Oxon), Ph.D. (Lond.), Barrister-at-Law.

Bihar University (Patna).—Dr. Dukhan Ram, B.Sc., M.B., D.L.O., D.O.M.S. (Lond.).

Bombay University.—T. M. Advani, M.A., LL.B.

Calcutta University.—Professor N. K. Sidhanta, M.A. (Cantab.).

Delhi University.—Dr. V. K. R. V. Rao, M.A., Ph.D. (Cantab.).

Gauhati University.—S. K. Bhuyan, M.A., B.L., Ph.D. (Lond.), D.Litt. (Lond.).

Gorakhpur University (Gorakhpur, U.P.).—Dr. B. N. Jha, B.Ed. (Edin.).

Gujarat University (Ahmedabad).—Maganbhai P. Desai, Shataksa Parangala (Guj. Vid.).

Indian Agricultural Research Institute (New Delhi).—B. P. Pal, M.Sc., Ph.D. (Cantab.), (Director).

Indian Institute of Science (Bangalore).—S. Bhagwantham, M.Sc. (Madras), D.Sc. (Andhra), (Director).

Jabalpur University (Jabalpur).—Pandit K. L. Dubey, B.A., LL.B.

Jammu & Kashmir University (Srinagar).—A. A. A. Fyso, M.A. (Cantab.).

Jadavpur University (Calcutta).—Dr. T. Sen, Eng. (Munich), (Rector).

Karnatak University (Dharwar).—D. C. Pavate, M.A. (Cantab.).

Kerala University (Trivandrum).—Dr. John Matthai, B.A. B.L. (Madras), B.Litt. (Oxon.), D.Sc. (Lond.).

Kurukshetra University (Kurukshetra).—Dr. A. C. Joshi, D.Sc., F.R.I.

Lucknow University.—Prof. K. A. Subramania Iyer, M.A. (Lond.).

Madras University.—Lt.-Col. Diwan Bahadur Sir A. Lakshmanaswami Mudaliar, B.A., M.D., LL.D., D.Sc., F.R.C.O.G., F.A.G.S.

Marathwada University (Aurangabad).—S. R. Dongerkerry, B.A., LL.B.

Mysore University.—K. V. Pattappa, M.A., D.Litt.

Nagpur University.—Justice G. B. Badkar, M.A., LL.B.

Orissa University (Hyderabad).—D. S. Reddy, M.A. (Oxon.).

Patna University.—Dr. Balbhadra Prasad, D.Sc. (Lond.).

Poona University.—D. G. Karve, M.A.

Punjab University (Chandigarh).—Dr. A. G. Joshi, D.Sc., F.R.I.

Rajasthan University (Jaipur).—G. C. Chatterjee, M.A. (Punjab), B.A. (Cantab.).

Roorkee University.—A. N. Khosla, I.R.E. (Retd.).

Sardar Vallabhbhai Vidyapeeth (Vallabh Vidyarnagar, Kaira Dist., Bombay).—Babubhai J. Patel, B.A., LL.B.

Sanskrit University (Varanasi).

Saugor University.—Dr. Dwaraka Prasad Mishra, B.A., LL.B., D. Litt.

Sri Venkateswara University (Tirupati, Andhra).—S. Govindarajulu, M.A., LL.B. (Cantab.), B.L., Bar-at-Law.

Uttal University (Cuttack).—Dr. P. K. Parija, M.A. (Cantab.), I.R.E. (Retd.).

Vikram University (Ujjain).—Dr. Mata Prasad D.Sc., F.R.I.C., F.R.I.

Visva Bharati University (Santiniketan).—Kshitis Chandra Chaudhuri, M.A.

The Banaras Hindu University Enquiry Committee revealed a disquieting state of affairs. The President promulgated the Banaras Hindu University Amendment Ordinance, 1958, which was replaced by an Act of Parliament which came into force on 20th Sept. 1958. Certain reforms have been introduced as an interim measure. The recommendations of the Committee are under the consideration of the Ministry which is also in touch with the Banaras University authorities, the U. G. C. and the U. P. Government. It is proposed to make suitable amendments in the Banaras Hindu University Act.

University Grants Commission

(C.S.I.R. Building, New Delhi)

The members and staff of the Commission are given below.

Members: C. D. Deshmukh (Chairman), Pandit H. N. Kumar, Dr. K. S. Krishnan, G. G. Chatterji, Dr. A. Lakshmanaswami Mudaliar, Prof. N. K. Sidhanta, K. G. Salyidatta, N. N. Wanchoo, Dewan Anand Kumar.

Secretary, Samuel Mathai; **Asst. Secretary,** N. N. Ayengar.

*Deemed to be universities under Sec. 8 of the U. G. C. Act.

The statement given below shows the grants paid to the universities during 1957-58:

CENTRAL UNIVERSITIES.—	
Allgarh Muslim University.	Rs. 51,54,418-97
Banaras Hindu University.	54,24,780-80
Delhi University ..	42,24,866-68
Viveka Bharati University.	16,71,322-84
Total	1,64,75,399-29
Constituent Colleges of Delhi University ..	18,04,355-00
STATE UNIVERSITIES.	
Aliahabad University.	41,000
Andhra University ..	2,94,270
Agra University ..	3,10,800
Annamalai University.	6,40,337-15
M. S. University of Baroda.	10,11,076-57
Bombay University*	14,61,785-32
Bihar University ..	66,880
Calcutta University*	21,22,100-87
Gauhati University ..	7,48,640
Gujarat University ..	3,17,398-53
Jadavpur University ..	14,19,721-35
Karnatak University ..	5,20,000
Lucknow University.	36,900
Madras University*	23,50,480-75
Mysore University ..	30,000
Nagpur University ..	1,73,050-52
Omanah University ..	3,81,628-98
Patna University ..	2,32,500
Poona University ..	2,26,200
Punjab University ..	11,50,611
Rajasthan University ..	5,02,202
Sagar University ..	99,525
Kerala University ..	700
Roorkee University ..	8,46,140
Utkal University ..	5,17,100
Sri Venkateswara University ..	3,70,000
S. V. B. Vidyapeeth ..	36,586
S. N. D. T. Women's ..	4,92,322-50
Total	1,63,77,905-54
Total for Central Universities, Constituent Colleges of Delhi University and State Universities ..	
Grants paid by adjustments:—	
Non-Plan: 10,38,482 76	
Plan: 25,80,065 05	
Total: 36,18,547-81	3,46,57,659-81

* This includes centenary grants also.

Provision for 1958-59: Rs. 4-32 crores
Provision for 1959-60:—

Plan: Rs. 4-58 crores

Non-Plan: Rs. 2-06 crores.

Three-Year Course

The following 20 Universities have introduced the three-year degree course:

Delhi, Jadavpur, Sagar, Madras, Baroda, Karnatak, Kerala, Omanah, Viveka Bharati, Mysore, Vallabhbhai Vidyapeeth, Nagpur, Andhra, Allgarh, Annamalai, Sri Venkateswara Vikram, Poona, Marathwada and Rajasthan.

The following nine universities will introduce the course as from the year shown against each:

Bihar, Jabalpur, Patna and S. N. D. T. Women's as from 1959-60; Utkal and Calcutta as from 1960-61; Banaras and Punjab as from 1961-62; and Gauhati from 1962-63.

The other universities have agreed in principle to introduce the course (Agra, Aliahabad, Gujarat, Kashmir, Kurukshetra, Lucknow) except Bombay which has rejected it on academic grounds. Gorakhpur is still considering the scheme (March 1959).

It is estimated that the cost of implementing the scheme during the Second Plan is Rs. 15 crores. The Central Government and the State Government or the private management will share the expenditure equally. Thus the shares will be Central Government Rs. 5 crores, U. G. C. Rs. 2-5 crores and State Governments Rs. 7-5 crores. The U. G. C. will be concerned with the non-Government Colleges.

The allotments for 1958-59 are as follows:

Central Govt. for State Govts.: Rs. 35 lakhs.

Central Govt. for U. G. C. Rs. 35 lakhs.

U. G. C. for non-Govt. Colleges: Rs. 80 lakhs.

The allotments for 1959-60 are as follows:

Central Govt. for State Govts.: Rs. 25 lakhs.

Central Govt. for U. G. C.: Rs. 95 lakhs.

U. G. C. for non-Govt. Colleges: Rs. 120 lakhs.

The changing of all the High Schools into Higher Secondary Schools will take time and will cost a good deal of money. It has, therefore, been decided that the reform of education at the university stage need not wait till the Higher Secondary School has been universally introduced. As an interim measure it has been proposed that a student leaving School after Matriculation should be admitted to what is known as "a pre-university" class run by the university and, after successful completion of that course of one year, be admitted to the university in the Three-Year Degree Course.

It may be argued that with the introduction of the pre-university class all that happens is that the total period of four years is divided slightly differently and that the change is not worth the trouble and expense; but this would not be correct. The reforms contemplated are not merely in design and structure. The expectation is that the pre-university class will be used (as it has been used in the Delhi University since 1941) as a preparatory year giving a grounding in General Education and a special stress on the study of languages particularly English to enable students to follow teaching through that language.

The course of study for the three years is conceived as an integrated whole and planned at a somewhat higher level than was possible when the degree course was only two-year long.

Pay Scales—The U. G. C. has prepared a scheme for raising the pay scales of teachers by which the U. G. C. will bear 50% of the increased expenditure in the case of men's colleges and 25 in the case of women's colleges.

The following typical scales were fixed: Principals Rs. 600-40-800, Heads of Departments Rs. 400-25-700, Lecturers Rs. 200-15-320-20-500, tutors and demonstrators Rs. 150-200.

The Universities of Poona, Calcutta, Bombay and Omanah have agreed to the scales fixed.

About the subject, General Education, material for this is being prepared at Allgarh University and experiments are in progress in one or two colleges.

Examination Reform—About reform in examination, the universities were requested in 1955 to examine the desirability of reducing the burden of the final examination, distributing the work of the students uniformly throughout the course, instituting tutorial work and trying out experiments in the use of objective tests. The Allgarh University, which was given grants to conduct research in the system of examination at the university stage, established a psychometric unit to experiment with the comprehensive examination of achievement in selected subject fields. The achievement tests devised by this unit are under statistical examination.

The University Grants Commission is examining the methods of educational and achievement testing of students through methods other than examination. The Commission has also sent its officers to various foreign countries to study this problem; and have set up a committee to examine the question. Dr. Bloom, the American expert, conducted four seminars for the university teachers during July-August 1958, in this context.

Another problem is over-crowding at universities. It is hoped that the acceptance of the three year-course would help to regulate the numbers to some extent. It is a condition of financial assistance that colleges should agree to a phased reduction. The maximum strength suggested is 800 to 1,000 for a college.

Medium of Instruction:—In regard to the medium of instruction, except for Sagar University no university has switched to Hindi as the sole medium of instruction. Agra, Aliahabad, Banaras, Baroda, Bihar, Delhi, Lucknow, Nagpur, Omanah, Rajasthan and Sardar Vallabhbhai Vidyapeeth have decided to introduce Hindi as the medium of instruction by stages upto the bachelor's degree and in certain cases upto the M.A. stage. Patna University will adopt Hindi as the medium of instruction for non-language subjects from 1959. Certain universities in the non-Hindi-speaking regions are considering the question of introducing the regional language as the medium of instruction. No University, however, appears to have taken a final decision in the matter so far.

The University Grants Commission has suggested that the change from English to an Indian language should not be hastened and that it should be preceded by adequate preparatory measures. Even after the change, English should continue to be studied by all university students.

RURAL HIGHER EDUCATION

To look after the interests of higher education in the rural areas a National Council for Rural Higher Education was set up in 1956.

There exist ten Rural Institutes whose aim is to do for the rural areas what the universities do for the urban areas. These Institutes are to provide courses in rural services, rural and civil engineering and agricultural science.

These Institutes will confer diplomas after a three-year course preceded by a higher secondary examination. The details of the preparatory matriculation course are also being worked out.

The ten Institutes are:

Gandhigram Rural Institute, Gandhigram; Ramakrishna Mission Vidyalyaya Rural Institute, Coimbatore; Lok Bharati Rural Institute, Banars; Rural Institute, Amravati; Mouni Vidyapeeth Rural Institute, Garhota; Vidya Bhawan Rural Institute, Udaipur; Balwant Vidyapeeth Rural Institute, Bichpuri, Agra; Rural Institute Jamia Millia, New Delhi; Institute of Rural Higher Education, Sriniketan, West Bengal; Rural Institute of Higher Studies, Birouli, Bihar.

Proposals for starting Rural Institutes in each of the States of Punjab and Madhya Pradesh, in addition to the ten Rural Institutes already functioning are under consideration. The Three-Year Diploma in Rural Services offered by the Rural Institutes has been recognized as equivalent to the first degree of a recognized University by the Government of India for a period of five years in the first instance—till Nov. 3, 1963. The question of recognition by the universities is under the consideration of the Inter-University Board.

The Institutes are assisted financially to the extent of 75 per cent of the non-recurring and 50 per cent of the recurring expenditure by the Central Government except the ones at Sriniketan and Jamia Nagar which receive a full grant.

The training is so fashioned as to make the students into effective leaders of the community to which they belong.

Today, these Institutes have developed into something more than mere schools of higher learning. They are fulfilling a variety of vital functions. In the first place, they have succeeded to a significant extent in putting a stop to the process which resulted in a continuous migration of talented youth from rural areas to towns in search of learning and work. Besides, they are acting today as clearing-houses for ideas in rural areas. They undertake research and experiments in development planning and encourage and guide pilot projects in selected

villages. The time is not far when these Institutes will develop into key centres of development planning in rural communities.

They also play a part in removing the gulf between the opportunities that exist for education in the urban and rural areas.

TECHNICAL EDUCATION

In 1947 India produced only 980 graduates in engineering and 820 graduates in technology and about 1,450 diploma holders. In 1957 the total output of graduates in this field was over 4,000 and of diploma holders about 5,000.

When the relevant schemes under the Second Plan are implemented technical institutions will be in a position to admit every year about 12,915 students for degree courses and 24,547 students for diploma courses.

Every State except Jammu and Kashmir has at least one engineering college and one polytechnic.

Below we show the progress made in this field—the number of institutions in existence; the intake of students and the out-turn of students:

		1951	1956	1957	1960-61 (estimate)
Institutions	Degree	53	70	74	90
	Diploma	89	109	129	187
Intake	Degree	4,788	6,367	9,778	12,915
	Diploma	6,216	9,899	15,995	24,547
Out-turn	Degree	2,683	4,293	4,290	—
	Diploma	2,628	4,075	5,034	—

In March 1958, there were 83 colleges offering first degree courses in engineering and technology and 149 polytechnics offering diploma courses with an annual admission capacity of 11,000 and 19,400 students respectively.

About 5,000 persons are being trained abroad of whom 40 per cent are engineers. About one-third of these return every year.

Since it takes at least four to five years to train a competent engineer and still longer to establish a fully developed technological institution some shortage during the Second Five-Year Plan is unavoidable.

Mining engineers and petroleum technologists are and will for some years continue to be in short supply. There is also a general shortage at the top levels of design and research engineers, research scientists, teachers and medical specialists.

At the other end, there is also a short supply of machine operators, surveyors, draftsman-engineers and geological drillers.

About 40,000 craftsmen are to be trained by the end of the Second Plan. For this purpose over 20,000 additional seats are to be established in industrial training institutions. Construction of buildings to house the institutions were to be completed by 1959-60. Equipment worth Rs. 75 lakhs has been offered by the U.S.

A number of schemes have been instituted for the training of teachers for technical institutions. It has been decided to create a pool of trained

teachers for the various technical institutions. For this purpose, teaching fellowships will be instituted, and the selected persons will be apprentices to senior professors to give them teaching experience. On the completion of apprenticeship fellowships holders will form a pool and the technical institutions will be invited to select from the pool, teachers for their requirements.

The training period will last from two to three years.

During the training period, graduates are paid fellowships of Rs. 350-25-400 and diploma holders fellowships of Rs. 200-20-240.

It is proposed to select in the first year of the scheme 75 graduates and 50 diploma holders for the training. The number will be increased gradually in subsequent years.

The Central Government now bears 50 per cent of the expenditure for schemes for undergraduate courses and 100 per cent for post-graduate and specialised and research courses.

An open door policy is also now adopted for the establishment of technical institutions by private agencies. This has helped in the development of technical education.

Foreign Help

Foreign assistance is in the form of scientific and workshop equipment, foreign experts as professors at Indian institutions, training facilities for Indians abroad.

The assistance received from various agencies upto 30th June 1958 is shown below:

	Equipment Rs. lakhs	Foreign Experts	Fellowships Abroad
T. C. M. (U.S.A.)	33.04	43	57
Wheat Loan Programme (U.S.A.)	3.44	—	3
Colombo Plan (U.K. & Australia)	8.65	6	13
UNESCO AND UNTAA	23.42	28*	15
Total	68.55	77	88

* Includes 13 Soviet experts, one American expert and three Russian translators.

An agreement was signed with the U.S.S.R. in Dec. 1955. This provided for free equipment worth Rs. 36 lakhs, the training of 60 Indian engineers in the U.S.S.R., for Soviet professors on deputation in India, publication in India of Russian text books in engineering and their translation into English.

A new agreement with the U.S.A. under T.C.M. for 1958-59 was signed in Sept. 1958.

This provides for 26 U.S. experts on deputation here, training of 20 Indians abroad, and free equipment worth \$80,000. The U.S.A. has also offered in addition to train 60 Indian engineers.

Institutes of Technology

The establishment of the Indian Institute of Technology at Kharagpur in West Bengal as the first in a chain of four regional higher technological institutes, and the development of the Indian Institute of Science at Bangalore as a centre of advanced technology mark a new trend in the field of technological education in this country.

The Indian Institute of Technology provides facilities for education to over 1,800 students in the undergraduate courses and to 400 in post-graduate courses and research work.

By an Act of Parliament the Institute has been made an autonomous body. While the Central Government will finance it, its administration will be in the hands of a Board of Governors.

The Institute in Bombay has started functioning, while two—in Madras and Kanpur—are in the process of establishment.

Each Institute when completed will provide for the education of over 1,800 students in the undergraduate and 400 in the post-graduate courses.

Thus by 1961 there will be over 10,000 places for advanced engineering courses in the country and 21,000 for diploma.

The Institute in Bombay has secured technical assistance from the U.S.S.R. under the UNESCO Expanded Technical Assistance Programme. Thirteen Soviet experts have already arrived. Equipment worth Rs. 3 lakhs has also been received. More equipment is expected in the near future.

For a fuller note on the Indian Institute of Science at Bangalore see under Bangalore District, Mysore State.

The All-India Council for Technical Education was set up by the Government of India in November 1945 to advise them on all matters relating to the co-ordination and development of technical education in the country after the high school stage. Its personnel has been drawn from Government of India Departments, State Governments, Parliament, industry and commerce, professional and educational bodies.

The Council has appointed four Regional Committees—one each for the eastern, western, southern and northern regions of the country to survey the facilities of their region, determine regional needs, foster liaison between industry and technical institutions, assist and advise on co-ordinated development.

SCHOLARSHIP SCHEMES

In order to promote fundamental research in various branches of Science and Technology in Universities and other Educational Institutions, grants-in-aid are paid to individual research workers who experience difficulties in the pursuit of their research work.

Between 1952 and 1958 grants amounting to Rs. 14,97,550 were sanctioned for payment to individual research workers through the Universities concerned.

Pursuant to the recommendation of the Scientific Manpower Committee, a Research Training Scholarships Scheme was started in 1949-50 with the twin objective of promoting scientific and technological research in Universities and other educational institutions and training research workers required for various national development programmes.

These scholarships are awarded to candidates possessing M.Sc. or equivalent qualification and who are engaged in research of doctorate standard in basic sciences or to graduates in engineering or technology who are doing post-graduate research.

At present there are about 680 scholarships each of the value of Rs. 200 per month, in force. Each scholarship is tenable for a period of three years for a candidate and after every three years the scholarship is rewarded to a new candidate.

The scheme for the award of National Research Fellowships was initiated by the Government of India in 1955-56 to encourage brilliant young scholars of the highest possible standard in science or technology who promise to do research at any recognised University or Research Institution. Each fellowship is of the value of Rs. 400 per month.

A grant of Rs. 1,000 per year is also given to each fellowship for any special apparatus or equipment required for research. The tenure of the award is three years extendable up to five years in special cases.

The total number sanctioned so far is 80, which is the target for the Second Plan.

The Practical Training Stipend Scheme was formulated to give post-institutional practical training in industrial establishments to selected students qualifying from engineering and technological institutions. There are two categories of stipends, namely senior stipends of the value of Rs. 150 per month and junior stipends of the value of Rs. 100 per month which are awarded to graduates and diploma-holders in engineering and technology respectively. The stipends are instituted in selected Government establishments and industrial concerns who offer training under proper supervision and assume responsibility for it.

There are over 1,000 training places.

Allied Courses

The importance of training in business management and industrial administration are well recognized, and a comprehensive scheme on an all-India basis prepared.

Courses in Management Studies are now offered at the Indian Institute of Technology, Kharagpur; the Delhi School of Economics, Delhi; the Department of Economics, Madras University, Madras; the School of Economics and Sociology, Bombay University, Bombay; the Indian Institute of Science, Bangalore; and the Institute of Social Welfare and Business Management, Calcutta.

An Administrative Staff College in India on the lines of the Administrative Staff College, Henley-on-Thames, England has been established at Hyderabad. The College is a joint enterprise of the Central Government, private industry and commerce. It is an autonomous organisation, and functions as a registered Society under the Societies Registration Act. The administration and management of the affairs of the College is entrusted to a Court of Governors.

The first course was started in Dec. 1957. The maximum intake is 60 students.

Four regional schools of printing at Madras, Bombay, Calcutta and Allahabad have started functioning.

Each school is a joint enterprise of the Central and State Governments and is designed to train 200 candidates every year.

A fifth school is proposed to be started in Delhi as part of the Delhi Polytechnic.

A School of Town and Country Planning has been set up by the Central Government as a joint enterprise with the Institute of Town Planners (India) to provide facilities for training in Town and Country Planning.

Second Plan

The Second Five-Year Plan of Technical Education as prepared by the All India Council for Technical Education includes proposals for projects which are estimated to cost Rs. 80 crores. The Plan envisages development of technical education at all levels in addition to the improvement and development of the existing institutions. The Plan provides for the establishment of three Higher Technological Institutions in the western (Bombay), northern and southern regions. The Plan also provides for the establishment of 29 new polytechnics, 8 engineering colleges and about 61 junior technical schools. Further, there is a provision for starting refresher and summer courses for teachers, schemes for training of technical personnel.

Of the eight engineering colleges one each will be established in Andhra, Kerala, Madhya Pradesh, Orissa and Punjab and two in Assam.

Of the 29 polytechnics, six will be established in Mysore three in Andhra, one in Kerala, one in Pondicherry, five in Bombay, three in Madhya Pradesh, two in Rajasthan, two in Uttar Pradesh, one in Jammu and Kashmir, two in West Bengal, one in Tripura and one in Assam.

The junior technical schools will be located as follows: 18 in Kerala, 10 in Bihar, seven in West Bengal, six in the Punjab, five in Madhya Pradesh, four each in Rajasthan and Jammu and Kashmir, two each in Bombay and Orissa and one each in Assam, Himachal Pradesh and Tripura.

The establishment of these institutions will result in an intake of 12,915 into degree courses and 24,547 in diploma courses by the year 1960-61.

For the establishment of these institutions and for the development of the existing institutions the State and the Central Plans provide for a total outlay of Rs. 58 crores.

SOCIAL EDUCATION

The new concept of social education is embodied in a five point programme: literacy, education in health and hygiene, training for trade, profession or calling, citizenship, and healthy recreation.

It is also directed to arouse interest in the development plans in Community Project areas and to provide leadership.

The Central Government guides, co-ordinates and helps with finance, but the actual burden of implementing the schemes lies with the State Governments.

The programme is based on the report of a committee called the Saksena Committee which was adopted in 1949 and a target for the attainment of 50 per cent literacy in the five subsequent years was recommended.

Since the inception of Community Projects in 1952, the concept of Social Education has been oriented to arouse the people's interest in different developmental activities under Five Year Plans, to strengthen social harmony and social solidarity and to bring home to them the knowledge essential for a healthy social life, and to generate village leadership. The Central Government guides, co-ordinates and helps with finance but the actual burden of implementing the schemes lies mostly with the State Governments. Some voluntary organisations as also other Ministries of the Government of India, Ministry of Community Development in particular, are also doing good work in the field of social education.

The programme of Social Education is put through literacy classes, Community Centres, Youth Clubs, including Gram Sakshas Dal, Farmers' Clubs and Mahila Samities and libraries which are an essential agency of mass education.

The number of State Central and District Libraries has steadily increased. At present (1959) there are 23 State Central and 172 District Libraries, in the country.

Radio listening and Discussion Groups, demonstrations and excursions have been effectively used. Besides radio, visual aids and printed literature have served as means of imparting education to the masses.

To have suitably trained personnel for the implementation of Social Education programmes, the Government of India have established 25 Janata Colleges for the training of village leaders. The Ministry of Community Development conducts a number of Social Education Organisers Training Centres under their scheme. A National Fundamental Education Centre has been set up to train District Social Education Organisers. The Centre, also conducts research and evaluation of social education programmes. So far 117 District Social Education Organisers have been sanctioned by the Government of India. Some States have also appointed Assistant/Deputy Director of Social Education to effectively supervise, and guide social education work.

To encourage production of suitable literature for neo-literates and social education workers, the Ministry has organized a number of schemes, including the award of prizes to authors, and the bulk purchase of good books.

The Ministry has its own programme of publishing literature for social education workers and neo-literates. Particular mention in this connection may be made of "Teachers Handbook of Social Education", "Social Education" and the Popular Encyclopedia in Hindi (Gyan Sarovar), meant for neo-literates as follow-up literature, two volumes of which have already been published.

A school of librarianship is being set up under the administrative control of the Delhi University to organise training courses for librarians from States and conduct research in librarianship.

To evolve a suitable curriculum for adults schools an experiment is being conducted through the agency of the Research, Training and Production Centre or the Jamia Millia, New Delhi.

The Government of India have set up a Library Committee and a Rural Education Committee to review the position in these fields.

A pilot Workers' Institute is proposed to be set up in a town which has a large labour population.

With a view to properly organise social education in urban areas, Co-ordinating Councils are proposed to be set up in a few cities.

FREE AND COMPULSORY EDUCATION

At the end of the First Five Year Plan the position was as follows:—

The percentage of children of the age-group 6-14 attending school was 49 per cent.

Compulsory education for the age-group 6-11 (approximately) was introduced in selected areas of the various states, comprising 1,093 towns and 39,376 villages.

There were 46,218 schools in these areas, with an enrolment of 60,67,412 students.

Free education for the children in the age-group 6-11 has been introduced in many states.

The aim is now to achieve free and compulsory education by the end of the Third Plan, that is, 1960-61. It is believed that even this is difficult to achieve as it would require about Rs. 300 crores.

The statistical position is given under the tables at the end of the article.

The position about free education is as follows:

Assam: Primary education is free for children in the age-group 6-11.

Bihar: Education is free for children in the age-group 6-11.

Bombay: Primary education is generally free.

Jammu and Kashmir: Education in the State has been made free from primary to college level.

Madras: Primary education is generally free in the State.

Mysore: In the areas of the former Mysore State, education upto the age of 14 is free. In Bombay-Karnatak, Hyderabad-Karnatak and Madras-Karnatak areas primary education is free in the schools controlled by the Government and the local bodies. The aided schools in these areas, however, charge fees.

Orissa: Education is free for all children upto the age of 11.

West Bengal: Primary education is free upto the age of 11 in rural areas of the State and also in certain municipalities of the State.

Uttar Pradesh: Education is free in classes 1 to 8.

Delhi: Free primary education is imparted upto the age of 11 years. Concession of free education upto the age of 14 years has also been extended in all senior basic schools in rural areas of the territory.

Laccadives, Minicoy and Amindivi Islands: Primary education is free.

Tripura: Education is free in all Government schools.

Andaman and Nicobar Islands: Primary education is free.

Complete information was not available from the Governments of Andhra Pradesh, Madhya Pradesh, Kerala, Punjab and Rajasthan and the administrations of Manipur and Himachal Pradesh at the time of writing.

WOMEN'S EDUCATION

The National Committee on Women's Education appointed in May 1955 under the chairmanship of Mrs. Durgabai Deshmukh submitted a report on Jan. 8, 1959.

The other members of the Committee were: Miss S. Panandikar, Mr. P. N. Mathur, Shrimati Kulkarni Sayani, Mr. J. P. Naik, Shrimati Zera Ahmed, Shrimati O. C. Srinivasan, Kumari S. Rajan (Secretary).

Among the recommendations were: Women's education should be regarded as a major special problem. Special machinery should be created to deal with it. The Centre should assume full responsibility, both financially and for setting the targets. In the States there should be State Councils, and a Woman Joint Director of Education in special charge. An extra fund of Rs. 10 crores should be earmarked for the rest of the Plan period. Plans should be prepared and the entire financial responsibility should be taken by the Centre. In the Third Plan there should be a special programme and a sum of Rs. 100 crores allotted. The U. G. C. should set aside Rs. one crore for the rest of the Plan period. There should be an increase in the remuneration of women teachers and an old-age pension scheme. Extra amenities should be provided to induce women teachers to take jobs in rural areas. Part-time teaching by women should be encouraged. All discrimination between Government and non-Government agencies in the matter of grants should be abolished.

SCHOLARSHIP SCHEMES

(See under Students' Guide).

FIVE-YEAR PLANS

In the First Five-Year Plan about Rs. 169 crores were provided for the development of education—Rs. 44 crores at the Centre and Rs. 125 crores in the States.

More than half of this amount was provided for Elementary (including Basic) Education and the rest for the improvement of Secondary education, University education, Technical and Vocational education, Social education, etc.

The operative years of the First Five-Year Plan, in fact, started from 1953-54 and in that sense it was a Three-Year Plan in which an attempt was made to fulfil, so far as possible, the achievement of the objectives formulated.

The estimated actual expenditure during the Plan was Rs. 152 crores—Centre Rs. 35 crores, States Rs. 117 crores.

The Second Plan allotment was Rs. 307 crores—Rs. 95 crores for Central Schemes and Rs. 212 crores for States Schemes.

But after the re-appraisal this was reduced to Rs. 275 crores—Centre Rs. 68 crores, States Rs. 207 crores.

The distribution of the provision between different fields of education in the First and Second Five-Year Plans is set out below :—
(Rs. in crores)

	First Five-Year Plan	Second Five-Year Plan
Elementary education	92	92
Secondary education	22	31
University education	15	45
Technical and Vocational education ..	23	52
Social education ..	5	5
Administration and Miscellaneous ..	11	30
Total ..	169	275

The estimated expenditures during the First Plan under different heads were: Elementary Education 85, Secondary Education 20, University Education 13, Technical and Vocational 20, Social Education 5, Administration and Miscellaneous 9, Total 152.

As a result of the implementation of the First Plan, the enrolment in classes I-V, VI-VIII and IX-XI increased from 1.92 crores, 0.81 crores and 0.12 crores respectively in 1950-51 to 2.52 crores, 0.48 crores and 0.20 crores in 1955-56 respectively. Although the proportion of girls availing of educational facilities increased to a great extent there were considerable disparities between boys and girls.

As a result of the steps taken during the First Plan, the development of Basic Education became an integral part of the programme of improving elementary education and in different degrees almost all the States advanced in this direction.

Towards the end of 1954-55, the Central Ministry of Education sponsored a programme for establishing 500 multi-purpose schools, assisting 900 existing schools with better facilities in the teaching of science, providing libraries in 500 multi-purpose schools and 1,500 ordinary secondary schools and introducing the teaching of crafts in 2,000 middle schools along with necessary supporting programmes for training of teachers, organisation of seminars, etc.

During the First Plan period, the number of university students increased from 3,96,745 to about 7,50,000; the number of universities from 23 to 32 and the number of colleges from 695 to 965.

The University Grants Commission began to function in 1954 with the specific purpose of assisting the universities and taking steps, in consultation with the universities for the promotion and co-ordination of university education, determination and maintenance of standards of teaching, examinations and research.

Second Plan

During the Second Plan, the intention is to expand the educational facilities at the elementary stage, reorganise the pattern of secondary education and improve the quality of education at the collegiate level.

The major physical targets aimed at under the Second Five-Year Plan are :—

	From 1955-56	To 1960-61
(1) Percentage of children of age-group 6-11 to be brought under instruction to total population of the age-group ..	52.1%	63.4%
(2) Percentage of children of age-group 11-14 to be brought under instruction to total population of the age-group ..	16.3%	19.7%
(3) Percentage of children of age-group 14-17 to be brought under instruction to total population of the age-group ..	8.1%	10.4%
(4) Number of Primary/Junior Basic schools ..	278,135	330,947
(5) Number of Junior Basic schools ..	11,073	33,513
(6) Number of Middle/Senior Basic schools ..	21,780	25,185
(7) Number of Senior Basic schools ..	4,842	10,768
(8) Number of High or Higher Secondary schools ..	10,838	12,863
(9) Number of High schools to be upgraded to Higher Secondary schools ..	47	1,197
(10) Total number of Multi-purpose schools to be established ..	367	1,304
(11) Universities ..	32	39

The plan for the compulsory education of 6-11 group will call for 14,000 additional teachers on the basis of one additional age-group for every year, and one teacher for every 35 students.

Whether the State Governments can carry through their plans depends on the availability of finances of the order of Rs. 300 crores during the eight years 1958-66.

NON-AFFILIATED INSTITUTIONS FOR DEGREE OR DIPLOMA ENGINEERING, TECHNOLOGY, COMMERCE

[Note: For Colleges see under Universities in each State.]

ANDHRA

Andhra Polytechnic, Kakinda.
Government Ceramic Institute, Gudur.
Vuyyur Polytechnic, Vuyyur.
Central Crafts Institute, Malapally, Hyderabad.
Government Technical College, Hyderabad.
Government Technical Training Centre, Nizambad.
Government College of Fine Art, Hyderabad.
Warangal Polytechnic, Warangal.

ASSAM

Assam Civil Engineering Institute, Gauhati.
H.E.H. Prince of Wales Technical Institute of Engineering and Technology, Jorhat.

BIHAR

Indian School of Mines and Applied Geology, Dhanbad.

Jamshedpur Technical Institute, Jamshedpur.
Ranchi School of Engineering, Ranchi.
Tirhut School of Engineering, Munshapur.
Chaibasa Technical School, Chaibasa.
Dehri Technical School, Dehri.
Ranchi Technical School, Ranchi.
Sindri School of Engineering, Sindri.

BOMBAY

Birla Vishwakarma Mahavidyalaya, Anand.
College of Engineering, Poona.
Government Leather Working School, Bandra (Greater Bombay).
Government Tanning Institute, Bandra (Greater Bombay).
L. D. College of Engineering, Ahmedabad.
Nautical and Engineering College, Bombay.
Radio Electric Institute, Bombay.

E. C. Technical Institute, Ahmedabad.
St. Xavier's Technical Institute, Bombay.
Sir Osrow Wadia Institute of Electrical Technology, Poona.

S. N. Parulkar Parul Polytechnic, Surat.
Victoria Jubilee Technical Institute, Bombay.
Deccan Education Society's Technological Institute, Poona.

Aurangabad Polytechnic, Aurangabad.
Lukhdhrij Engineering College, Morvi.
Shri A. V. Parikh Technical Institute, Rajkot.
Sir Bhavsinhji Polytechnic, Bhavnagar.

DELHI

Delhi Polytechnic, Delhi.

KERALA

Kerala Polytechnic, Kozhikode.

MADHYA PRADESH

Central Technical Institute, Gwalior.
Govindram Saksaria Kala Bhawan, Indore.
Polytechnic Institute, Bhopal.
Government Polytechnic, Ujjain.
Polytechnic Institute, Nowgong.

MADRAS

Arthur Hope Polytechnic, Coimbatore.
Central Polytechnic, Madras.
C. N. Technical & Industrial Institute, Vepery, Madras.
Institute of Leather Technology, Madras.
Madras Institute of Technology, Madras.
P.S.G. and Son's Charity Industrial Institute, Coimbatore.
Ramakrishna Mission Technical Institute, Madras.
Seshasayee Institute of Technology, Tennur, Tiruchirappalli.
Tamilnad Polytechnic, Madurai.

MYSORE

D. R. R. Occupational Institute, Davangere.
Indian Institute of Science, Bangalore.
National Institute of Engineering, Mysore.
Occupational Institute, Chintamani.
Silver Jubilee Technical Institute, Bhadravati.
School of Engineering, Bangalore.
S.L.V. Occupational Institute, Hassan.
Sri J. Occupational Institute, Bangalore.
Sri K. Silver Jubilee Technological Institute, Bangalore.
Rayalaseema Polytechnic, Bellary.
Dharmaprakas C.P.C. Occupational Institute, Mysore.
B.V. Bhoomrati College of Engineering and Technology, Hubli.
Gulbarga Polytechnic, Gulbarga.
Karnatak Polytechnic, Mangalore.

ORISSA

Orissa School of Engineering, Cuttack.

PUNJAB

Engineering College, Ludhiana.
Government Hosiery Institute, Ludhiana.
Government Institute of Dyeing & Calico Printing, Ludhiana.
Government School of Engineering, Nilokheri.
Government Tanning Institute, Jullundur.
Government Technical Institute, Ambala.
Guru Nanak Engineering College, Ludhiana.
Mehar Chand Technical Institute, Jullundur.
National Institute of Engineering, Hoshiarpur.
Polytechnic, Nilokheri.
Punjab Institute of Textile Technology, Amritsar.
Shri Vashwakarma Polytechnic, Phagwara.
Surgical Instruments Centre and Development Laboratory, Sonapat.
Tara Karan S.D. Technical Institute, Balj Nath (Kangra).
Technological Institute of Textiles, Bhiwani.

RAJASTHAN

M. B. M. Engineering College, Jodhpur.

UTTAR PRADESH

Chandhry Mukhtar Singh Government Polytechnic, Meerut.
Civil Engineering School, Lucknow.
Government Wood Working Institute, Allahabad.
Government Central Textile Institute, Kanpur.
Government Central Weaving Institute, Banaras.
Government Central Woodworking Occupational Institute, Bareilly.
Government Polytechnic, Allahabad.
Government Polytechnic, Dehra Dun.
Government Polytechnic, Jaunpur.
Government Polytechnic, Ghazipur, Lucknow.
Government Technical Institute, Gorakhpur.

Government Technical Institute, Jhansi.
Government Technical Institute, Lucknow.
Harcourt Butler Technological Institute, Kanpur.
Hewett Engineering School, Lucknow.
I. D. Technical Institute, Bahjoi.
Indian Institute of Sugar Technology, Kanpur.
Prem Mahavidyalaya Engineering College, Mathura.
Technical College, Dayalbagh, Agra.
Government Leather Working School, Kanpur.
Government Technical Institute, Ghazipur.

WEST BENGAL

Air Technical Training Institute, Dum Dum.
Bengal Ceramic Institute, Calcutta.
Bengal Tanning Institute, Calcutta.
Bengal Textile Institute, Serampore.
Berhampore Textile Institute, Berhampore.
Calcutta Technical School, Calcutta.
College of Aeronautical Services, Dum Dum.
Hooghly Institute of Technology, Hooghly.
Indian Institute of Technology, Kharagpur.
Institute of Jute Technology, Calcutta.
Jaipalguri Polytechnic, Jaipalguri.
Kanchrapara Technical School, Kanchrapara.
K. G. Engineering Institute, Viahnupur, Bankura.
Directorate of Marine Engineering Training, New Taratala Road, Calcutta.
M. B. C. Institute of Engineering & Technology, Burdwan.
R. K. Mission Shiba Mandir, Belur, Howrah.

AGRICULTURE

Indian Agricultural Research Institute, New Delhi; Indian Dairy Research Institute, Bangalore; Government Agricultural Institute, Bulandshahr (U.P.); Government Agricultural Institute, Chirgaon (U.P.); Government Agricultural Institute, Gorakhpur; Agriculture Institute, Laxmipur, Panna, Madhya Pradesh.

BANKING, COMMERCE AND CO-OPERATION

Co-operative Training College, Poona; Delhi Polytechnic, Delhi; Government College of Commerce, Hyderabad; Co-operative College, Trivandrum; Sanatan Dharam College, Alleppey.

DOMESTIC SCIENCE

Lady Irwin College, New Delhi; Domestic Science Training College, Hyderabad; Girls' Vocational Institute, Aurangabad; Girls' Vocational Institute, Gulbarga; Girls' Vocational Institute, Warangal; Girls' Vocational Institute, Hyderabad; Girls' Vocational Institute, Secunderabad.

FORESTRY

Southern Forest Rangers College, Coimbatore; Indian Forest College, Dehra Dun; Northern Forest Ranger College, Dehra Dun.

MARINE TRAINING

Training Ship "Dufferin", Bombay.

MUSIC AND FINE ARTS

Gandharva Mahavidyalaya Mandal, Poona; Madhava Music College, Gwalior; Central College of Karnataka Music, Madras; Government School of Arts, Simla; S.S.T. Academy of Music, Trivandrum; Bhatkhande (Marrie) College of Hindustani Music, Lucknow; Kamboj Sapt-kala Niketan, Meerut; Prayag Sangit Samiti, Allahabad; Sangeet Vidyalaya, Almora; All India College of Music, Arts and Crafts, Dhakuria (24, Parganas); Aryya Sangeet Vidyaapeeth, 199, Landsdowne Road, Calcutta; Bengal Music College, 4, Hindustan Road, Calcutta; Government College of Art and Craft, 28, Chowringhee Road, Calcutta; Ram Saran College of Music, Vishnupur, Bankura; Art College, Gwalior; Art College, Indore; Laxmi Kala Bhawan, Dhar; M. S. Bhand's School of Arts, Gwalior; Music College, Indore; Gita Bitan Sikshayatan, 155, Russa Road, Calcutta; Harishikesh Sangeet Vidyalaya, Nabadwip, Nadia; Ajmer Music College, Ajmer.

ORIENTAL LEARNING AND THEOLOGY

Swadhyaya Mandal, Killa-Pardi (Dist. Surat); Government Sanskrit College, Gwalior; Sanskrit Mahavidyalaya, Indore; Maharaja's Sanskrit College, Mysore; Sanskrit College, Melkote (Mysore); Sanskrit College, Siddaganga (Mysore); Sri Chamarajendra Sanskrit College, Bangalore; Bidyabhushan Sanskrit College, Bolangir (Orissa); Maharaja's Sanskrit College, Parlakimedi (Orissa); Sadasiva Sanskrit College, Puri; Birla Sanskrit College, Pilani; Government Sanskrit College, Alwar; Government Sanskrit College, Jodhpur; Government Sanskrit College, Sikar (Rajasthan); Government Sanskrit College, Udaipur; Maharaja's Sanskrit College, Jaipur; Rishikul Brahmancharya Ashram Sanskrit College, Lakshmi Garh (Rajasthan); Sanskrit College, Nathdwara (Rajasthan); Shri Dadu Mahavidyalaya, Jaipur; Shri Digambar Jain Sanskrit College, Jaipur; Shri Ramanuj College, Didwana (Rajasthan); Shri Sardul Brahmancharya Ashram Sanskrit College, Bikaner; Shri Vithal Nath Sanskrit Mahavidyalaya, Kotah; Allia Oriental College, Rampur; Darul-Uloom, Deoband (U.P.); Darul-Uloom Nadwatul Uloom, Lucknow; Government Sanskrit College, Banaras; Gurukul University, Kangri (Dist. Saharanpur, U.P.); Gurukul Vrindaban, Mathura; Kashi Vidyapith, Banaras; Mashar-Uloom, Saharanpur; Calcutta Madrasah, 21, Wellesley Square, Calcutta; Prachyavani (Institute of Oriental Learning), 3, Federation Street, Calcutta; Serampore College, Serampore, Hooghly; Bhajan Das Sanskrit Pathshala, Nayan (Rajasthan); Chamariya Sanskrit Mahavidyalaya, Fatehpur (Rajasthan); Choukhanil Sanskrit Pathshala, Beengua (Rajasthan); Dhuleshwar Sanskrit Pathshala, Manoharpur (Rajasthan); Ganga Sanskrit Pathshala, Bikaner; Goenka Sanskrit Pathshala, Doondalod (Rajasthan); Govardhan Sanskrit Pathshala, Khadagada (Rajasthan); Government Sanskrit Pathshala, Bundi; Hanumat Sanskrit Vidyalaya, Sardarshahr (Rajasthan); Harimukh Raya Sanskrit Vidyalaya, Ramgarh (Rajasthan); Jangid Vedic Vidyalaya, Fatehpur (Rajasthan); Khandal Vipra Vidyalaya, Jaipur; Mangal Dutta Mahavidyalaya, Ratangarh (Rajasthan); Matribhasha Vidyapeeth, Karauli (Rajasthan); Pareek Vidyalaya, Merta City (Rajasthan); Beengata Sanskrit Vidyalaya Bagar (Rajasthan); Sakseriya Sanskrit Vidyalaya, Chirawa (Rajasthan); Sanskrit Mahavidyalaya, Chittor; Saraswati Vidyapeeth, Kotah; Sarvajank Sanskrit Vidyalaya, Baran (Rajasthan); Shridhar Sanskrit Pathshala, Brahmipuri, Jaipur; Kanya Gurupal, Dehra Dun (U.P.); and Sanskrit Pathshalas at Amarsar, Banwara, Bharatpur, Bonli, Chak, Cheethwari, Chomu, Dausa, Dholal, Ganora, Kaladera, Kausali, Karauli, Khorli, Lalot, Muchkund Dolpur, Neemkathana, Niwai, Paota, Samode, Talabgaon all in Rajasthan.

PHYSICAL EDUCATION

Andhra Training College of Physical Education, Vijayawada; College of Physical Education, Muzaffarpur (Bihar); Government College of Health and Physical Education, Patna; Kalvayadhasa S.Y.M.Y. Samiti, Lonavla (Bombay); Training Institute for Physical Education, Kandivli (Bombay); Academy of Physical Education of Sri Hanuman Vyamshala, Hyderabad; Physical Training College, Shivpur (M.P.); Hanuman Vyayam Prasarak Mandal, Amravati; Y.M.C.A. College of Physical Education, Saidapet, Madras; Physical Training College, Trivandrum; Government College of Physical Education, Rampur; Government College of Physical Education, 30, Ramkrishna Samadhi Road, Calcutta.

RURAL STUDIES

Shri Shivaji Lok Vidyapitha, Amravati.

SOCIAL SCIENCES

Tata Institute of Social Sciences, Chembur, Bombay.

STATISTICS

Statistical Branch of Indian Council of Agricultural Research, New Delhi; Indian Statistical Institute, Calcutta.

TEACHERS' TRAINING

Basic Training College, Turki (Bihar); B.N.E. Training College for Women, Patna; Women's Training College, Musaffarpur (Bihar); Teachers' Training College, Ranchi; Training College, Bhagalpur; Graduates' Basic Training Centre, Dhulia (Bombay); Graduates' Basic Training Centre, Rajpipla (Bombay); Graduates' Basic Training Centre, Dharwar; Jamia Training Institute, Jamia Millia Islamia, Jamianagar, Delhi; Lady Irwin College, New Delhi; Domestic Science Training College, Hyderabad; C. T. College, Jaora (M.P.); Government Teachers' College, Dewas (M.P.); Nal Talim Bhawan, Sevagram; Government Secondary Training School, Berhampur (Orissa); Secondary Training School, Cuttack; St. Bedes College, Simla; A.P. Mission Higher Secondary School, Dehra Dun; Baiwant Rajput College, Agra; D. A. V. College, Kanpur; Dharam Sama College, Aligarh; Gorakhpur University Foundation Society, Gorakhpur; Government Basic Training College, Lucknow; Government College of Home Science for Women, Allahabad; Government Constructive Training College, Lucknow; Government Junior Basic Training College, Allahabad; Government Junior Basic Training College, Lucknow; Government Junior Basic Training College, Musaffarnagar; Government Nursery Training College, Allahabad; Government Training College for Women, Allahabad; Government Training College for Women, Lucknow; Kishori Raman College, Mathura; K. P. Training College, Allahabad; Lucknow Christian College, Lucknow; Meerut College, Meerut; Queen Victoria Higher Secondary School, Agra; Tilak Dhari College, Jaunpur; Women's Training College, Dayahagh, Agra; Government Central Pedagogical Institute, Allahabad; Government School of Arts and Crafts, Lucknow; St. Mary's Convent Training College for Anglo-Indians, Allahabad; Training College for Teachers for Schools for Defectives, Lucknow; Basic Training College, Banipur (24 Parganas, West Bengal).

VETERINARY SCIENCE

Indian Veterinary Research Institute, Isatnagar (U.P.); Indian Veterinary Research Institute, Murkeshwar (U.P.); Bengal Veterinary College, Calcutta.

COMMUNITY DEVELOPMENT PROJECTS

THE Community Projects Administration was established on 31st March, 1952 under an Administrator, who was under the general supervision of the Central Committee of the Planning Commission.

The Administration was transformed into the Ministry of Community Development on 20th Sept. 1956.

The subject of village panchayats was transferred to this Ministry in March 1958.

On 30th Dec. 1958 the work relating to Co-operation was also transferred to the Ministry of Community Development and the Ministry was renamed the Ministry of Community Development and Co-operation.

The total number of blocks in operation on 1st January, 1959 was 2,405 covering 3,02,947 villages, with a population of more than 165 million. The coverage works out at 56 per cent of the rural population. The following table shows blocks in operation year-wise :—

Series	No of Blocks allotted	No of villages covered (approx.)	Population covered in millions (approx.)
C. D. Blocks including special Multipurpose blocks			
1956-57	252½	36,017	18.50
1957-58	180½	26,651	11.84
Stage I Blocks —			
1954-55	20½	2,977	1.83
1955-56	190½	26,143	13.30
1956-57	491	66,815	33.30
1957-58	604	65,922	39.95
1958-59	225	22,387	14.58
Stage II Blocks			
1952-53	210½	26,904	15.35
1953-54	62	7,693	3.91
1955-56	159½	21,438	12.40
Total	2,405*	3,02,947	165.05

* Excludes 137 and 145 pre-extension blocks allotted for April and October, 1959, respectively.

The year 1958-59 witnessed an important change in the programme, namely the abolition of distinction between N.E.S. and Intensive Stages, and the decision to stagger the full coverage of the country into the Third Five Year Plan.

The programme now falls into two stages, Stage I and Stage II. The revised schematic budgets for Stage I, and Stage II blocks are Rs. 12 lakhs and Rs. 5 lakhs respectively for a five year period of operation. Stage I is the intensive development stage and Stage II is the post-intensive Phase.

It has also been decided that all future blocks should have a one year period of pre-extension activity exclusively in the field of Agriculture.

Complete coverage of the country is aimed at by October 1963.

Of Rs. 12 lakhs to be spent in five years in a Stage I block, an amount of Rs. 4.55 lakhs is to be spent on agriculture, irrigation, rural arts and crafts. To the extent possible, this amount is to be spent through the agency of village cooperatives.

Of the remaining amount, a sum of Rs. 2.9 lakhs is to be incurred invariably through the agency of panchayats and other local institutions, and not through the departmental agency.

Following is the item-wise break-up: Education and Social Education Rs. 130,000; Drinking water supply Rs. 50,000; Drainage and Sanitation Rs. 25,000; and Communications Rs. 85,000.

Power for making allotments in this category are to be vested in the Block Development Committee.

The Schematic Budget of Rs. 5 lakhs for five years of a Stage II block is, similarly, to be divided and allotted.

The three basic village institutions, namely, the Panchayat, the Cooperative, and the Village School, have been accepted as the primary means, and democratic decentralisation as the national policy for the promotion of socio-economic development in the villages. Hitherto, the emphasis in the programme was in securing

efficient administration, ensuring proper co-ordination, arranging for the requisite training of the personnel and providing necessary funds for promoting "Local Works" schemes. The next step is to vitalise the basic institutions in the village and make them responsible both for planning and execution.

An Institution for training senior officers from the States, such as Development Commissioners, Heads of Technical Departments, and Collectors, as also interested non-officials, has been set up at Mussoorie.

An Institution for training principals and staff of various training institutions connected with the Community Development programme has been established at Dehra Dun.

A U.N. Evaluation Mission is at present (March 1959) in the country. It consists of Mr. M. J. Coldwell until recently President of the Canadian Cooperative Commonwealth Federation, Dr. Margaret Reid, Professor of Social Anthropology, University of London and Prof. Rene Dumont, Agricultural Economist of the National Institute of Tropical Agriculture, Paris.

People's contribution in cash, kind and labour upto September 30, 1958, totalled Rs. 65.98 crores, as against the Government expenditure of Rs. 103.38 crores. People's contribution in other words, amounted to 64 per cent of the Government's expenditure, as against the figure of 60 per cent for the previous year.

Budget		
	Revised Estimates 1958-59 (Rs. lakhs)	Budget Estimates 1959-60 (Rs. lakhs)
Grants to States	1,258.00	1,720.08
Central Schemes (training etc.)	50.20	71.86
Loans to States	919.22	1,275.00
Third Party loans for Union Territories	8.37	13.00
Total	2,236.29	3,079.94

Two items may be mentioned here—

Loans from Technical Cooperation Mission (1957-58): two million dollars.

Grant from Ford Foundation: Rs. 8.37 lakhs (1956-57), Rs. 3.38 lakhs (1957-58).

Equipment like vehicles, tractors, cinema trailer sets, X-ray sets etc. for irrigation, animal husbandry, road building and other programmes continued to be supplied during 1958-59. The total value of all such equipment imported under the Indo-U.S. Technical Assistance Programme and supplied to the blocks upto the end of 1958 was about Rs. 8.95 crores.

Further dollar assistance under the Indo-U.S. Technical Assistance Programme for the procurement of equipment for the Community Development Programme has been discontinued, and future requirements of equipment will be purchased out of the 'Rupee' provision in the Block budget.

EXPENDITURE

Progress of Government expenditure and people's contribution under the Community Development Programme, upto September 30, 1958 are shown below.

State	No. of blocks	Estimated target expenditure (Rs. lakhs)	Expenditure incurred (Rs. lakhs)	Col. (4) as percentage of Col. (3)	People's Contribution value (Rs. lakhs)	Col. (6) as percentage of Col. (4)

TRAINING STAFF

The table below gives statistical information about the training of various categories as on 31st Dec. 1958.

Category	Persons		Training Centres
	Trained	Under Training	
Village Level Workers			
(i) Extension Training Centres (Non-integrated)	9,681	2,508	40
(ii) Extension Training Centres (Integrated)	22,974	2,804	35
(iii) Basic Agricultural School/Wings	17,562	4,356	65
Gram Sevikas	1,053	468	27
Extension Officers (Industries)	1,138	482	11
Extension Officers (Co-operation)	1,554	479	8
Health Personnel (Orientation)	1,570	81	3

There is in Mussoorie an Institute known as the Central Institute of Study and Research which gives a training to the key personnel in community development programmes. It has now only a Study Wing. It is proposed to add a Research Wing.

The Ministry has reorganised the training programme for the staff. The four B.D.O. Training Centres at Nilokheri, Ranchi, Rajendra Nagar and Bakshi-kha-Talab have been converted into

orientation training centres to provide orientation training to all block-level functionaries, as also job and refresher training to Block Development Officers. An orientation training centre has been set up at Mysore and two more are to be set up at Jubbulpore and Junagadh.

A trainers' training institute has been set up at Rajpur near Dehra Dun to provide training to the principals, directors and instructional staff of the various types of training institutes run

by the Ministry of Community Development and Cooperation, and also to the principals of Extension Training Centres sponsored by the Ministry of Food and Agriculture.

The Ministry has also drawn up two training schemes for the training of Sarpanchas of Panchayats and non-official members of the Block Development Committees. The details are being finalized.

There were 20,911 Gram Sevaks in India on March 31, 1958.

Following is the State-wise break-up of the number of Gram Sevaks:—Andhra Pradesh 1,847; Assam 633; Bihar 2,852; Bombay 2,044; Kerala 529; Madhya Pradesh 2,195; Madras 1,348; Mysore 807; Orissa 1,134; Punjab 1,197; Rajasthan 859; Uttar Pradesh 3,420; West Bengal 1,001; Jammu and Kashmir 548; Delhi 53; Himachal Pradesh 246; Manipur 56; Tripura 52; N.E.F.A. 60, and Pondicherry 40.

The number of Gram Sevaks by the end of Second Five Year Plan period would be 33,500.

Jeeps

The number of jeeps on June 1, 1958 was 2,502.

Andhra Pradesh 229; Assam 89; Bihar 265; Bombay 316; Madhya Pradesh 274; Madras 175; Punjab 168; Uttar Pradesh 389; Orissa 123; West Bengal 128; Mysore 75; Rajasthan 136; Kerala 60; Delhi 9; Himachal Pradesh 29; Tripura 10; Manipur 8; Pondicherry 2; Andaman and Nicobar Islands 2; and Social Education Organizers Training Centres 15.

RESEARCH

RESearch in pure science is carried out mainly in the universities, scientific surveys of the Government, and in some research institutes such as the Tata Institute of Fundamental Research. The Council of Scientific & Industrial Research (C.S.I.R.) and the Department of Atomic Energy provide facilities for fundamental or basic research in their laboratories and institutes, and also sponsor such research in universities and research institutions all over the country.

Research in applied science and for industrial development is done mainly under the auspices of the C.S.I.R., the Co-operative Industrial Research Associations, institutes functioning under various Ministries and the laboratories attached to a few industrial concerns.

The Shri Ram Institute for Industrial Research, Delhi, undertakes, on a 'not-for-profit' basis, researches on projects sponsored by industrial concerns, groups of companies, individuals and Government agencies.

Research in engineering subjects is undertaken in some of the C.S.I.R. laboratories and institutes, the Indian Institute of Science, Bangalore, Central and State Hydraulic Engineering Research Stations, Indian Institute of Technology, Kharagpur, and in a few engineering colleges, such as the College of Engineering and Technology, Jadavpur.

The Council of Scientific & Industrial Research, also sponsors engineering research in various institutions through its research committees.

Medical research is mainly in the charge of the Indian Council of Medical Research.

Agricultural research is looked after by the Indian Council of Agricultural Research, New Delhi, and the various Central Committees for agricultural commodities like the Indian Central Cotton Committee, Indian Central Jute Committee, etc. and the research institutes functioning under the Ministry for Food and Agriculture. (See article on agriculture).

The Indian Veterinary Research Institute, Izatnagar (U.P.) is concerned with veterinary diseases. The National Dairy Research Institute at Karnal in the Punjab works on dairy research.

Research in forestry and forest products is undertaken by the Forest Research Institute and Colleges at Dehra Dun.

Medical research is carried out under the auspices of the Indian Council of Medical Research, institutes functioning under the Ministry of Health, and the Council of Scientific and Industrial Research.

Research for defence purposes is undertaken in the Defence Science Laboratory at New Delhi; the naval research laboratory in Cochin, the Technical Development Establishments at Kanpur, Dehra Dun, Bangalore, Kirkee and other places.

Research in the humanities—literature, language, the arts, etc.—is done at individual institutions scattered throughout the country.

It may be mentioned here that the Central Government has a Scientific Liaison Officer in the U.K.

About 275 research journals (English) are published in India. These cover a wide range of subjects, grouped as follows: General science, 31; Engineering, including civil, electrical, telecommunication and aeronautical, 31; Chemistry, including biochemistry, chemical technology, plastics, paint, oils and fats, soap, and food, 21; Agriculture, including forestry, 35; and Medical sciences, 64.

SCIENTIFIC SOCIETIES

The National Institute of Sciences of India, New Delhi, established in 1955, is the scientific Academy recognised by the Government of India.

Besides this, there are two other general science Academies with national scope, viz. the Indian Academy of Sciences, Bangalore and the National Academy of Sciences, Allahabad.

The oldest learned society in India is the Asiatic Society of Bengal, founded in 1874. From it originated the Indian Science Congress Association which held its first annual meeting in 1914.

Scientific bodies are:

Indian Association for the Cultivation of Science, Jadavpur, Calcutta-13.

Aeronautical Society of India, New Delhi.

Agricultural & Horticultural Society of India, Calcutta.

Agri-Horticultural Society of Madras, Madras.

Anatomical Society of India, 1, Park Street, Calcutta-16.

Anthropological Society of Bombay, 136, Apollo Street, Bombay.

Architectural Society of India, Bombay.

Association of Microbiologists of India, 1, Park Street, Calcutta-16.

Banaras Mathematical Society, University of Lucknow, Lucknow.

Biological Society of Assam, Cotton College, Gauhati.

Bombay Natural History Society, 114, Apollo Street, Bombay.

Bombay Sanitary Association, Princess Street, Bombay.

Botanical Society of Bengal, 85, Ballygunge, Circular Road, Calcutta.

Calcutta Geographical Society, Calcutta.

Calcutta Mathematical Society, 92, Upper Circular Road, Calcutta.

Calcutta Statistical Association, Ansoosh Building, Calcutta-7.

Congress of Theoretical & Applied Mechanics, Kharagpur.

Concrete Association of India, C/o A.C.C., 121, Queen's Road, Bombay.

Engineering Association of India, India Exchange, Calcutta-1.

Entomological Society of India, Indian Agricultural Research Institute, New Delhi.

Geographical Society of India, Senate House, Calcutta University, Calcutta.

Geological Institute, 27, Chowringhee Road, Calcutta.

Geological, Mining & Metallurgical Society of India, Presidency College, Calcutta.

Gujarat Research Society, 46-48, Maplanade Mansions, Mahatma Gandhi Road, Bombay-1.

Helmintological Society of India, 1, Park Street, Calcutta-16.

Horticultural Society of India, 117, M-Block Hutments, New Delhi.

Indian Botanical Society, C/o Institute of Science, Mayo Road, Bombay.

Indian Ceramic Society, Banaras Hindu University, Banaras.

Indian Chemical Society, 92, Upper Circular Road, Calcutta.

Indian Council of Geographers, 1, Park Street, Calcutta-16.

Indian Dairy Science Association, Hosur Road, Bangalore-1.

Indian Ecological Society, 1, Park Street, Calcutta-16.

Indian Institute of Architects, Prospect Chambers Annex, D. Nauroji Road, Bombay.

Indian Institute of Chemical Engineers, Jadavpur University, Calcutta.

Indian Institute of Metals, 23-B, Netaji Subhas Road, Calcutta.

Indian Mathematical Society, Madras-4.

Indian Meteorological Society, New Delhi.

Indian National Society of Soil Mechanics & Foundation Engineering, New Delhi.

Indian Pharmaceutical Congress Association, 2, Heysham Road, Calcutta.

Indian Physical Society, Jadavpur, Calcutta-32.

Indian Physiological Society, Calcutta.

Indian Phytopathological Society, Pusa Institute Buildings, New Delhi.

Indian Society of Agricultural Economics, 46-48, Maplanade Mansions, Mahatma Gandhi Road, Fort, Bombay.

Indian Society for Agricultural Statistics, Queen Victoria Road, New Delhi.

Indian Society of Engineers, Calcutta.

Indian Society of Genetics & Plant Breeding, Indian Agricultural Research Institute, P.O. Pusa, New Delhi.

Indian Society for Quality Control, Calcutta.

Indian Society of Soil Science, Indian Agricultural Research Institute, New Delhi.

Institution of Engineers, 8, Gokhale Road, Calcutta-20.

Institution of Chemists, Medical College, Calcutta.

Institution of Military Engineers, New Delhi.

Institution of Surveyors, New Delhi.

Institution of Telecommunication Engineers, New Delhi.

International Society of Plant Morphologists, University of Delhi, Delhi.

Maharashtra Association for the Cultivation of Science, Law College Building, Poona.

Mechanical Engineers' Association, Janmabhoomi Chambers, 29, Fort Street, Bombay.

Mining, Geological & Metallurgical Institute of India, 27, Chowringhee, Calcutta.

Mysore Geologists' Association, Mysore Geological Department, Bangalore-1.

Oil Technologists' Association (India), I.I.B. Technological Institute, Kanpur.

Palaeobotanical Society of India, 53, University Road, Lucknow.

Physiological Society of India, 1, Park Street, Calcutta-16.

Psychoanalytical Society, Calcutta.

Rajasthan Academy of Sciences, Pilani, Rajasthan.

Royal Agri-Horticultural Society of India, 1, Allipore Road, Calcutta.

Society of Biological Chemists, P.O. Malleswaram, Bangalore-3.

Sugar Technologists' Association of India, Nawabganj, Kanpur.

Tropical Diet Research Society, Calcutta.

Vijnana Parishad, University Campus, Allahabad.

Zoological Society of Bengal, 85, Ballygunge, Circular Road, Calcutta-19.

Zoological Society of India, Jabakusum House, 34, Chittaranjan Avenue, Calcutta.

COUNCIL OF SCIENTIFIC RESEARCH

The major part of applied research in India is now carried on under the auspices of the Council of Scientific and Industrial Research (Ministry of Scientific Research and Cultural Affairs).

The Council of Scientific & Industrial Research was established in 1942 by the Government of India as an autonomous body registered under the *Registration of Societies Act XXI* of 1860. The functions of the Council include: the promotion, guidance and co-ordination of scientific and industrial research in India; the establishment, maintenance and management of laboratories and institutes to further scientific research; and the collection and dissemination of scientific information.

Research under the Council is carried on in its own laboratories and extra-murally in universities and other institutions under a grants-in-aid scheme.

The Council is administered by a Governing Body with the Prime Minister as President, the Minister for Scientific Research and Cultural Affairs as Vice-President and representatives of science, industry and certain Government departments as members. The Board of Scientific & Industrial Research advises the Governing Body on research and development proposals and also as to the lines on which scientific and industrial research ought to be conducted and the channels into which it should be guided for ensuring co-ordinated development of science and industry in the country.

The Board consists of representatives of science, engineering, industry and appropriate departments of State Governments and of

the Government of India. It functions in two working parties (i) scientific and technical subjects; and (ii) engineering subjects. The Board is advised by a number of Research Committees, which keep a watch on the progress of research schemes falling within their scope, formulate long-range research projects on specific subjects and recommend to the Board necessary grants-in-aid and block grants for research in universities and other institutions scattered in the country. The number of Research Committees at present is 15 as follows:

Aeronautical; Biological; Biophysics; Chemical; Civil Engineering & Hydraulic; Electrical & Mechanical Engineering; Essential Oils; Geological & Mineralogical; Metals; Pharmaceutical & Drugs; Physical; Public Health Engineering; Radio; Vanaaspati; and Joint Committee of the Indian Central Oilseeds Committee and C.S.I.R. for Vegetable Oils.

In addition to fostering research in its own laboratory network, the Council sponsors research in universities and research institutes through a system of grant-in-aid. Under this scheme, several surveys of raw materials for industry have been initiated and block grants have been provided for specific research project.

About 300 research schemes were in operation at 38 different centres in India during the year 1957-58. Several new schools of research have come into existence as a result of the Council's grant-in-aid scheme, e.g. geophysics at Waltair and nuclear and ionospheric research at Calcutta; a Rain & Cloud Physics unit has been established at Delhi and five Essential Oil Research Centres have been established in various parts of the country.

Sponsored research has proved particularly fruitful in the training of research personnel. It has enlarged the research effort in the country and stimulated research in borderline subjects.

The Council has undertaken the compilation of data relating to the qualifications and experience of scientific and technical personnel in the country—to make up a National Register. This Unit of the C.S.I.R. maintains information also on Indian technical personnel abroad.

The C.S.I.R. has, in fact, accepted the responsibility to administer a pool for temporary placement of Indians returning from abroad with high qualifications in scientific and technical subjects.

In accordance with the scheme, the pool will consist initially of 100 officers from which services of individual officers will be placed at the disposal of various industrial establishments in the private and public sectors, Departments of Government, Universities, or research and scientific institutions, till they are absorbed suitably. The recruitment to this pool will be through a Special Recruitment Board constituted for the purpose. The pool will also consist of a proportion of persons holding high Indian qualifications.

The Council publishes scientific periodicals, standard works of reference, monographs, bulletins and reports. As many as 16 periodicals are published, including two in Hindi and one in Kannada. Special mention may be made of the Dictionary of Indian Raw Materials and Industrial Products, an encyclopaedia issued under the general title: Wealth of India.

The Council takes an active part in international scientific projects, such as the International Geophysical Year.

The C.S.I.R. budget for 1958-59 was approximately Rs. 5 crores. A sum of Rs. 24 lakhs was allocated by the Council in 1957-58 to 380 scientists for research in various institutions.

The Second Five Year Plan provides Rs. 27-25 crores to the Council for research and development.

The Indian National Scientific Documentation Centre (INSDOC) provides information, document procurement and translation services to research worker. It acts as a repository for scientific publications and for these submitted

by research workers for Doctorate Degrees in Indian universities.

National Research Development Corporation

With a view to helping industry to fully utilize the results of research carried out in its laboratories, the Council has appointed Industrial Liaison Officers at Delhi and Jaipur, and Regional Liaison Officers at Calcutta, Madras and Bombay.

The Council maintains a patents section for drafting and filing patent specifications.

Industrial research has also been considerably stimulated and the gap between discovery and development progressively reduced by the efforts of the National Research Development Corporation.

Up to the end of September 1958, the Corporation had referred some 470 inventions for development. It had also set up 14 development projects and licensed 49 patents and processes of which 10 processes are already under production.

Another 30 processes are expected to go into production by 1960-61 when the value of commercial production from processes licensed by the Corporation is estimated to touch about Rs. 3-25 crores, involving a foreign exchange saving of about Rs. 2-5 crores.

The development projects include the mechanical bamboo pulp project for establishing the potentialities of increased yield of cheap paper from bamboo by a partially mechanical process.

The Corporation is currently arranging for trials of the project. If the process proves successful, the pulp yield from 100 tons of bamboo is expected to be doubled—from 35-40 to 70-80 tons.

Enterprise has also been shown by the Corporation towards the development of indigenous production of baby food. The first tins of home made milk powder for babies are expected in the market in 1959.

The Corporation had two tons of milk powder produced from buffalo milk according to a process developed by the Central Food Technological Research Institute. The food was distributed to hospitals and found quite satisfactory.

The Amul dairy farm, which supplied the buffalo milk, has since been licensed for commercially manufacturing 1,500 tons of this baby food.

Other processes developed include those for producing mica insulating bricks (these are being used in the Bhilai steel plant), carbon slabs and blocks, liasorb (for absorbing carbon-dioxide in mines), foam glass, vitamin 'C', ginger cocktail, composite protein food, tonic wine, bamboo boards, mineral wool and electronic multi-testers.

The Corporation hopes to license several more processes. These include a process of manufacturing wet ground mica powder, which is used in the production of rubber and paints. This item is imported at present.

The Corporation also expects to license a process for producing wax from sugarcane "Pressmud". This wax is required in the manufacture of shoe polish.

NATIONAL LABORATORIES

There are 21 national laboratories functioning under the Council.

The National Physical Laboratory in New Delhi and the National Chemical Laboratory at Poona stand on a special footing.

The former is equipped for the maintenance of and research in fundamental and derived standards. It also undertakes research in industrial standards of performance and practice.

The National Chemical Laboratory is concerned with investigations embracing all the chief applications of chemistry. In the areas not covered by the activities of other institutions this Laboratory has a special responsibility.

The National Metallurgical Laboratory, Jamshedpur;

The Central Fuel Research Institute, Jealgora with Coal Survey Stations at Jharla, Raniganj, Bilaspur, Ranchi, Jorhat and Hyderabad.

The Central Glass & Ceramic Research Institute, Calcutta;

The Central Food Technological Research Institute, Mysore;

The Central Drug Research Institute, Lucknow;

The Central Leather Research Institute, Madras;

The Central Building Research Institute, Roorkes;

The Central Road Research Institute, New Delhi;

The Central Salt Research Institute, Bhavnagar;

The National Botanic Gardens, Lucknow;

The Central Electronics Engineering Research Institute, Pilani;

The Indian Institute for Biochemistry & Experimental Medicine, Calcutta;

The Central Mining Research Station, Dhanbad;

The Central Electro-Chemical Research Institute at Karaikudi;

The Birla Industrial and Technological Museum, Calcutta;

Regional Research Laboratory, Hyderabad;

Regional Research Laboratory, Jammu;

The Central Mechanical Engineering Research Institute, Durgapur;

The Central Public Health Engineering Research Institute, Nagpur.

The work of the national laboratories covers a wide field. Some of the laboratories have undertaken surveys and assessment of raw materials for industry and also the discovery of indigenous substitutes for raw materials hitherto imported.

Special mention may be made of the national survey of coal resources, which has provided basic information on the fuel resources of the country.

Improved processes of manufacture which can be adopted by industry have been developed and several processes for the manufacture of new products, not hitherto produced in the country, have been worked out.

Procedures for improving the quality of products produced in the country have been formulated.

Among the more recent achievements of the Council's laboratories, mention may be made of the production of optical glass, of mica insulating bricks, of stainless steels in which nickel has been eliminated, and nickel-free alloys for coinage.

Other products include ceramic condensers, tanning auxiliaries, multipurpose food, foam glass, ion-exchange resins, industrial carbons and synthetic vitamin C.

NUCLEAR RESEARCH AND ATOMIC ENERGY

Nuclear research is of recent origin in India. Pioneering work in this field was done by the Tata Institute of Fundamental Research, Bombay, established in 1945 as a high-level academic institution for carrying research and advanced study in physics with special emphasis on nuclear physics and mathematics.

This Institute has since been recognised as the National Centre for advanced study and fundamental research in nuclear science and mathematics.

The Institute is the most important centre for cosmic ray research in India and has made notable contributions to the theory of elementary particles. Its nuclear emulsion group for the study of new elementary particles is probably the second largest in the world and has made outstanding contributions.

During the years preceding the establishment of the Atomic Energy Commission, the Institute had already collected and built up a small group of scientists trained in some of the special techniques of nuclear physics.

Another institution connected with nuclear research is the Saha Institute of Nuclear Physics, Calcutta, which was founded by the late Dr. Meghnad Saha, F.R.S., and was formally inaugurated in 1950.

Considerable fundamental research work in nuclear science and cosmic rays is also being conducted at some 15 universities and research institutions all over India with financial assistance from the Department of Atomic Energy.

The development and control of atomic energy in India is regulated by the Atomic Energy Act (Act No. XXIX of 1948) and the Department of Atomic Energy handles all business of the Government of India relating to atomic energy and functions of the Central Government under the Act.

In view of the important and rapid strides that India had made in the research into and development of atomic energy for peaceful purposes and of the greatly expanded programme envisaged for the future, including the construction of atomic power stations, it was decided in March 1958, to establish an Atomic Energy Commission with full authority to plan and implement the various measures on sound technical and economic principles and free from all non-essential restrictions or needlessly inelastic rules.

The new Commission which assumed authority on June 23, 1958, is responsible for (a) formulating the policy of the Department of Atomic Energy, (b) preparing the budget of the Department, and (c) implementing Government's policy in all matters concerning atomic energy.

The Commission's programmes envisage that India should be able to produce all the basic materials required for the production of atomic energy, promote its use in agriculture, biology, industry and medicine, prepare a long-range plan for the generation of electric power and set up one or more power stations.

The scientific and technical work of the Department is carried out by the Atomic Minerals Division and the Atomic Energy Establishment at Trombay near Bombay.

Some of the more important functions of the Atomic Minerals Division are: (a) geological survey, prospecting, exploration and mining of minerals useful for the production of atomic energy, (b) working and development of atomic minerals on industrial scale, and (c) procurement of atomic minerals, etc.

Trombay Establishment

The Atomic Energy Establishment at Trombay which was formally inaugurated in January 1957, is the Indian centre for research and development work in the field of atomic energy. The 2,400 acre Establishment is the heart of the Indian Atomic Energy Commission's activities in the field of research.

Over 800 Indian scientists and technical personnel are presently working for the Establishment, to put atomic energy to work for the benefit of India (In 1954, there were only 215).

To ensure a steady supply of trained scientific and technical personnel, the Establishment started a training programme in 1957 under which 250 young graduates and engineers are recruited annually from the universities and given supplementary training for a year to fit them for work in India's atomic energy programme. It is hoped to increase the intake of this Training School to 350 a year in due course.

Almost all the instruments and electronic components that are needed in nuclear energy work are now being made in the Trombay Establishment, thus making the country self-sufficient in this vital field, and saving considerable foreign exchange.

The Trombay Establishment (whose work is split up into 14 divisions, which are, in turn, grouped into 4 main groups: the Physics, the Chemistry, the Engineering, and Biology Divisions) includes India's first reactor, APSARA; the Radio-Chemistry Laboratory, and the Thorium Processing Plant.

Nearing completion are the Canada-India Reactor, ZERLINA, a Zero Energy reactor, a Uranium Metal Plant, and plants for processing fuels and moderators.

APSARA Reactor: APSARA, India's first atomic reactor, which went into operation two and a half years ago (August 4, 1956), has provided useful facilities for research in many fields. It is the first reactor to go into operation in Asia, outside the U.S.S.R. It was designed, engineered and built entirely by Indian scientists and engineers and by Indian industry, except for the fuel elements. The fuel elements (convex plates of enriched uranium alloyed with aluminium and canned in aluminium) have been provided by the U.K. Atomic Energy Authority. It was built in the space of only a year after design finalisation.

This small-sized reactor, which cost Rs. 35 lakhs (£260 thousand), is producing radio isotopes which are already being extensively used in Indian agriculture, medicine and industry, and research workers at the universities.

APSARA is the nation's principal facility for training personnel in reactor technology and for fundamental research in physics, engineering and biology, which require the use of strong fluxes of neutrons.

ZERLINA: A second reactor, ZERLINA (zero energy reactor for lattice investigations and new assemblies), is being built and was expected to go into operation by the middle of 1959. This reactor will be very useful in the study and design of new reactor systems.

Canada-India Reactor: India's third research reactor will be the Rs. 7½ crore (£5.3 million) Canada-India Reactor, now under construction at Trombay. When it goes into operation in 1960, India will possess one of the best isotope producers in the world. With it the country will be able to produce the full range of radioactive isotopes. This reactor is based on the design of the NRX Reactor at Chalk River, Ontario (Canada), with substantial modifications to allow for its installation in a tropical country close to a large centre of population and with many improvements based on Canadian experience. A joint Indo-Canadian project, Canada's share (£2.75 million) being provided under the Colombo Plan, this reactor is the first major atomic energy project to be undertaken in the field of international assistance. The reactor will require some 20 tons of heavy water, which has been sold to India by the U.S. Atomic Energy Commission.

Radio-Chemistry Laboratory: This Laboratory, which was built early in 1958, is a start to train a team of chemists in the handling of highly radioactive substances. An important function of the Laboratory is to assist all Divisions of the Establishment in the use and handling of radioactive materials in their experiments. Dr. Welch, a senior scientist, from the U.K. who is here under the Colombo Plan, is at present assisting in directing and organising the work of the Laboratory. The Laboratory was set up under the supervision of a U.K. scientist, G. R. Hall, seconded from the Atomic Energy Research Establishment at Harwell.

Thorium Plant: The 4-year-old Thorium Plant produces two much-needed raw materials for atomic energy development: over 300 tons of thorium and a few tons of uranium a year, which is equivalent in fuel value to roughly 1,000 million tons of coal. This is about 30 times the present annual production of coal in India. The plant was built entirely by Indian scientists and engineers. Its capacity was increased six-fold in 1958. The plant is one of the largest in the world for the production of thorium nitrate. Besides supplying virtually the entire requirements of the gas mantle industry in Asia, it also

supplied markets in Europe and America, helping India to save foreign exchange by meeting local requirements and is earning valuable foreign exchange by exports. A part of the production of the plant is also stockpiled according to a planned programme for future use in India's atomic energy programme (See also under 'Government Industrial Undertakings').

Uranium Metal Plant: The production of adequate supplies of uranium is the basic requirement for a self-sufficient atomic energy programme and, accordingly, a plant has been set up at Trombay to process uranium concentrates into reactor-grade uranium metal for experimental purposes and for use in the reactors that are under construction at Trombay. It has already provided necessary experience for the design and construction of the large uranium plants which will be required for a full-scale atomic power programme.

Fuel Element Fabrication Plant: A "fuel element" is the form in which fuel is inserted into a nuclear reactor. Usually it is a cylindrical rod of uranium sealed into a container or "can" of magnesium/aluminium alloy. The uranium metal produced at the Uranium Metal Plant will be rolled into rods of suitable sizes at the Fuel Element Plant for use in India's reactors.

A pilot plant for the extraction of uranium from copper tailings is in operation in Ghatalla (Bihar). Heavy water, one of the essential commodities in an atomic energy programme, will be produced in quantity as a by-product at the fertiliser plant which is being set up at Nangal (Punjab).

The Mineral Sand Industry of south India is proposed to be nationalised in stages and the Travancore Minerals (Private) Ltd., a company owned jointly by the Government of India, the Government of Kerala and the Government of Madras, started functioning in 1957. Ilmenite, which is the main product of this industry, has proved to be a valuable foreign exchange earner. The company is also producing rutile, zircon and monazite.

Government have decided that a minimum of 250,000 kW of nuclear power be included in the power programme of the Third Plan and exploratory talks with the manufacturers of the atomic power station in other countries are in progress.

The Department has been providing grants-in-aid to various university laboratories and research institutions and is assisted in this work by a Board of Research in Nuclear Science and Advisory Committees for Chemistry, Physics, Cosmic Rays, Biology and Medicine, and Food and Agriculture.

OTHER RESEARCH BODIES

There is a whole host of research organizations (besides the ones mentioned above) engaged in scientific research of one sort or another.

The Geological Survey of India in Calcutta maps out the mineral resources of the country. The Indian Bureau of Mines and the Mineral Information Bureau at Delhi help in the prospecting and working of minerals.

The Oil and Natural Gas Commission is responsible for the prospecting and exploitation of mineral oil resources.

Cartographic work is in progress under the National Atlas Organization in Calcutta.

The Survey of India with its headquarters at Dehra Dun is engaged in large-scale mapping of river basins and in the preparation of topographical maps.

The Botanical and Zoological Surveys both in Calcutta conduct systematic surveys of the animal and plant resources of the country.

The Meteorological Departments of the Government of India at Delhi and Poona are concerned with meteorological, climatological, hydro-meteorological and snow surveys.

The Department of Anthropology in Calcutta is concerned with ethnographic surveys and a variety of other studies in anthropology.

The Indian Association for the Cultivation of Science in Calcutta is engaged in physical and chemical research, both in its theoretical and applied aspects.

Research in radio physics and electronics is in progress at the Indian Institute of Radio Physics and Electronics in Calcutta, while research in cosmic rays and theoretical physics is carried on at the Physics Research Laboratory in Ahmedabad.

The Bose Research Institute in Calcutta conducts research in physics, chemistry, zoology and plant breeding.

The Birla Sahani Institute at Lucknow carries on research in plant fossils.

ENGINEERING RESEARCH

The Indian Standards Institution at New Delhi lays down specifications for materials, tools and products.

Among engineering institutions providing facilities for research the following may be mentioned:

All India Institute of Hygiene and Public Health, Calcutta: Sanitary engineering.

Central Building Research Institute, Roorkee (U. P.): Building engineering, prestressed concrete engineering, etc.

Central Electronics Engineering Research Institute, Pilani (Rajasthan): Electronics and telecommunication engineering.

Central Mechanical Engineering Research Institute, Durgapur (W. Bengal): Mechanical engineering.

Central Public Health Engineering Research Institute, Nagpur: Public Health and sanitary engineering.

Central Road Research Institute, New Delhi: Road engineering.

Concrete Research Laboratory, Chepank, Madras: Structural engineering.

Indian Institute of Science, Bangalore: Aeronautical engineering, internal combustion engines, and power, hydraulic and electrical communication engineering.

It may be mentioned here that initial work on a major wind tunnel project to be located at the Indian Institute of Science, Bangalore, has been sanctioned by the C.S.I.R. This wind tunnel, which has a large working section, will ultimately form the nucleus of the proposed National Aeronautical Research Laboratory at Bangalore.

The laboratory, which is estimated to cost about Rupees one lakh, is expected to start functioning by 1962 or 1963. It is the first large one of its kind in the country which will be capable of undertaking tests at speeds greater than the speed of sound. In view of the increasing importance of the aeronautical research work and of high speed flight, the project has been accorded a high priority. The project will be staffed by Indian scientists and the equipment as far as possible will be manufactured indigenously.

It is the most important research equipment in aeronautical development.

Indian School of Mines and Applied Geology, Dhanbad: Mining engineering.

M. S. University, Baroda: Civil, mechanical and telecommunication engineering.

P. S. G. & Sons' Charities College, Coimbatore: Civil, mechanical and electrical engineering.

Government College of Technology, Coimbatore: Heat engineering, hydraulic engineering, soil mechanics.

Indian Institute of Technology, Kharagpur: Mechanical engineering.

Madras Institute of Technology, Madras: Aeronautical and automobile engineering and soil mechanics.

University College of Science and Technology, University of Calcutta: Heat and illumination engineering.

A number of Ministries and Departments of the Government of India have development and research sections in engineering:

The Indian Agricultural Research Institute, New Delhi has a Division of Agricultural Engineering which is concerned with agricultural equipment.

The Ministry of Communications has a Research and Development Directorate which sees to the specifications, certification and manufacture of aircraft and aircraft material.

The Ministry has a Telecommunications Research Centre in Delhi.

The Technological Development Wing of the Ministry of Industries offers advice on engineering equipment in general and more especially on machine tools and internal combustion engines.

The Central Board of Irrigation and Power conducts eleven research stations the chief of which are in Poona, Amritsar and Poondi (Madras State). The one at Khadakvasla near Poona is the most important. It conducts research in hydraulic engineering, soil mechanics, concrete materials and navigation.

The All India Radio has a research unit of its own in New Delhi.

The Railway Board has centres in Lucknow, Lonavla and Chittaranjan to investigate problems connected with railways.

Research projects connected with roads, bridges, ports, harbours are taken up for investigation by the Roads Organization under the Ministry of Transport.

MEDICAL RESEARCH

Medical Research is conducted chiefly under the auspices of the Indian Council of Medical Research, New Delhi. The Council also grants research fellowships. There is a Scientific Advisory Board which deals with technical questions and publishes reports of research carried on under the auspices of the Council.

The Council spent over Rs. 52 lakhs on research in 1957-58. In 1958-59 the expenditure was expected to exceed Rs. 60 lakhs.

The more prominent research institutions in medicine are:

School of Tropical Medicine, Calcutta: Diseases peculiar to tropical climate.

All India Institute of Hygiene and Public Health, Calcutta: Preventive and social medicine.

Indian Cancer Research Centre, Bombay: Cancer.

Vallabhbhai Patel Chest Institute, Delhi: Tuberculosis.

Central Leprosy Research Institute Madras: Leprosy.

Haffkine Institute, Bombay: Plague, malaria, virus diseases, nutrition. It also manufactures vaccine and sera.

Central Research Institute, Kasauli: Microbiology, bio-chemistry, serology.

Pasteur Institute, Coonoor: Rabies, influenza, tropical eosinophilia, anti-venom serum, serological reactions.

King Institute of Preventive Medicine, Guindy, Madras: Vaccines, specially against smallpox and therapeutic sera.

Bengal Immunity Research Institute, Calcutta (Private): Prevention, control and cure of disease, and anti-malarial drugs.

Central Drug Research Laboratory, Calcutta: Biological and chemical assays of drugs. It also gives technical advice to drug manufacturing firms.

Drug Research Laboratory, Jammu: Research in medicinal plants. Has two farms. Promotes standardization of indigenous drugs.

Virus Research Centre, Poona: Virus-caused diseases.

Central Drug Research Institute, Lucknow: Work on drugs.

Malaria Institute of India, Delhi: Malaria. Nutrition Research Laboratories, Coonoor: Nutrition and allied subjects.

The Indian Council of Medical Research initiates research in a large number of specific problems at medical colleges and hospitals in the country including the institutions mentioned above.

The problems are too technical to be mentioned here. But in general they relate to in the 1958-59 series, besides clinical research covering a large area, haematology, cardio-vascular diseases and hypertension, liver diseases, cholera leprosy, malaria, tuberculosis, venereal diseases, dental health, environmental sanitation and hygiene, industrial health, maternal and child health, mental health, nutrition, protein foods, human lactation, protein metabolism, energy metabolism, nutritive value of certain food stuffs, food technology, growth and physical development of Indian infants, lathyrism, fluorosis, physiology and pharmacology, physiology of human reproduction, virus diseases.

RESEARCH IN HUMANITIES

Research in the humanities—literature, language, arts, etc.—is engaging the attention of individual institutions scattered throughout the country.

Anjuman-i-Islam Urdu Research Institute, Hornby Road, Bombay 1; Anthropological Society of Bombay, C/o K. R. Cama Oriental Research Institute, 136, Apollo Street, Bombay; Bangiya Sahitya Parishad, 243-1 Upper Circular Road, Calcutta; Bhandarkar Oriental Research Institute, Poona; Bharatiya Itihasa Samshodhaka Mandal, Sadashive Peth, Poona; Bharatiya Vidya Bhawan, Chowpatty, Bombay; B. J. Institute of Learning and Research, Bhadra, Ahmedabad; B. M. Institute of Child Development, Pharmacy College, Navrangpura, Ahmedabad; Bureau of Psychology, Allahabad; D. A. Memorial Institute, C/o Bharatiya Itihasa Samshodhaka Mandal, Poona; Deccan College of Post-Graduate and Research Institute, Poona; Department of Anthropology, Indian Museum, 27 Chowringhee Road, Calcutta; Department of Archaeology, Ministry of Education, New Delhi; Department of Historical and Antiquarian Studies, Gauhati; Dharmakosha Mandal (Vedic Research Institute), C/o Prajna Pathshala, Wai, Dist. North Satara, Bombay; Gangadhar Jha Research Institute, Allahabad; Gokhale Institute of Politics and Economics, Poona; Gujarat Research Society, Bombay; Hindi Vidya Pith, Deogarh, Bihar; Indian Institute of Education, 11 Horniman Circle, Bombay; Indian Institute of Philosophy, Amalner, East Khandesh, Bombay; Kannada Research Institute, Dharwar; Karnatak Research Society, Dharwar; K. P. Jayaswal Research Institute, Patna; K. R. Cama Oriental Institute, 136 Apollo Street, Bombay; Kuppaswami Sastri Research Institute, Mysore, Madras; Mandir Vidya Pith, Bhagalpur, Bihar; Marathi Samshodhan Mandal, Mumbai Marathi Granth-sangrahalaya, Thakurdwar, Bombay; Mithila Institute of Post-Graduate Studies and Research in Sanskrit Learning, Darbhanga, Bihar; Nalanda Pali Institute, P.O. Nalanda, Patna; National Archives of India, Ministry of Education, New Delhi; Oriental Research Institute, Mysore; Rajasthan Vidyya Vidya Peeth, Udaipur; Rajwade Samshodhan Mandal, Dhulia, Bombay; Scindia Research Institute, Ujjain; Shri G. K. Institute of Rural Education, Gargoti, Kolhapur Dt., Bombay; Sheth Bholabhai Jeshingbhai Institute of Learning and Research, Bhadra, Ahmedabad; Shri Farbes Gujarati Sabha, Bombay; Tata Institute of Social Sciences, Chembur, Bombay; The Asiatic Society, 1, Park Street, Calcutta; Vachana Mantapa (Kannada Research Institute), Belgaum; Venkateswara Research Institute, Tirupati; Vaidika Samshodhana Mandal, Tilak Memorial, Poona; Vaidika Pratikriti Institute, Muzaffarpur; Vishveshwaranand Vedic Research Institute, Hoshiarpur, Punjab.

CIVIL AVIATION

ALLOTMENT under the Second Five-Year Plan, Rs. 43 crores.

The budget estimates for 1958-59 for the Civil Aviation Department were: Revenue Expenditure: Rs. 3.79 crores; Capital Expenditure: Rs. 3.23 crores; Revenue from landing, etc. at civil aerodromes: Rs. 88 lakhs.

1950-60 budget estimates: Capital expenditure: Rs. 4.28 crores; Revenue expenditure: Rs. 6.94 crores.

The internal air services and services to neighbouring countries are managed by a corporation called Indian Airlines Corporation, and the external services by Air-India International Corporation. According to the Act, the number of members of a Corporation cannot be less than five and not more than nine. Each of the Corporations has a general manager.

The Central Government has authority to give the Corporations directions about opening a new transport service, closing an existing service, or other changes in schedule. At the end of a financial year the Corporations must present a report to the Central Government which will be laid before Parliament.

Private agencies can use aircraft for purposes of instruction, rescue or relief, air survey, fire fighting, crop dusting, locust control or for providing joy rides.

An Air Transport Council has been established for considering points of common interest between either of the Corporations and the Director-General of Civil Aviation or the Director-General of Posts and Telegraphs.

An Advisory Committee for each Corporation was appointed in April 1958.

A Labour Relations Committee for each Corporation consisting of representatives of the Corporation and of employees, was formed early in 1956. The Committee has been formed in such a way that the representatives of employees are not less than the representatives of the Corporation. This Committee will give advice to the Corporation on matters of labour.

In addition to the two Corporations, there were 14 flying clubs and six transport companies, the latter holding permits for non-scheduled services on December 31, 1958.

INDIAN AIR LINES CORPORATION

(Thapar House, Janpath, New Delhi.)

Some basic facts about the Indian Airlines Corporation for 1957-58 are as follows:

Service	Hours Flown	Miles Flown	Passengers Carried	Freight Carried lbs.	Mails Carried lbs.
Scheduled Services (including N.A.S.)	108202-00	17,064,997	551,570	85,864,703	11,551,137
Night Airmail Services	9151-10	1,618,338	50,951	2,726,048	3,993,546
Non-Scheduled Rev. Services	8349-35	1,253,555	47,994	13,162,580	19,868

INDIAN AIRLINES CORPORATION was formed on 1st August, 1953, as a State Corporation under the provisions of the Air Corporations Act, 1953.

The present fleet consists of 6 DC-4, 62 DC-3, 12 Vickers Vikings, 10 Vickers Viscounts and 7 DH Herons (Total: 97) operating 14,570 unduplicated route miles throughout India, connecting Afghanistan, Kasat and West Pakistan, Nepal, Burma and Ceylon.

Indian Airlines Corporation is now a full member of the International Air Transport Association. Indian Air Lines Corporation has set up training establishments for its Flying, Engineering and Traffic personnel.

The members of the Board of Directors of the Indian Airlines Corporation are:

V. Shankar, I.C.S. (Chairman), J. R. D. Tata, Air Marshal S. Mukerji, Comdg. General M. J. B. Manekji, B. R. Patel, Air Commodore P. C. Lal, D.F.C., N. N. Wanchoo, I.C.S., S. R. Vasavada, Mrs. P. V. Cherian.

Secretary: S. C. Mukerji.

The operations of the Corporation have been divided into three Areas, namely Delhi, Bombay and Calcutta. Each Area is under the charge of an Area Manager who is responsible to the Chairman for the proper administration and co-ordination between different departments in the Area. The Headquarters Office of the Corporation has, besides the Chairman and the General Manager, Departmental Heads.

The total number of staff employed by the Corporation is about 9,400.

The crew strength of the Indian Airlines Corporation consists of 216 Commanders and 122 Co-pilots.

The loss incurred by I.A.C. in 1957-58 was Rs. 103.07 lakhs as against Rs. 108.79 lakhs in 1956-57.

‡ Air Corporations Act, 1953.

AIR-INDIA INTERNATIONAL

The members of the Air-India International Corporation (New India Assurance Bldg., Bombay 1) are:

J. B. D. Tata (Chairman), V. Shankar, I.C.S., K. C. Mahindra, Air Marshal S. Mukerji, B. R. Patel, I.C.S. (Vice-Chairman), Air Commodore P. C. Lal, D.F.C., N. N. Wanchoo, I.C.S.

Personnel: 4,266.

Unduplicated route mileage: 21,617.

Fleet: Ten 1049-G Super Constellations.

One DC-3C Freighter.

Three 707 Boeing Aircraft on order.

The three Boeing 707 Inter-Continental Jet Airliners will be delivered early in 1960. The Inter-Continental Jet Airliners will not only reduce the present flying time by half, but will also offer greater seating capacity.

The Corporation has steadily stepped up its frequencies on the India/UK, India/Tokyo and India/Nairobi routes. Air-India International now operates a daily service to U.K., thrice a week to Tokyo, twice a week to Nairobi and once

a week to Sydney via Madras, Singapore and Darwin. There is also a regional weekly service to Jakarta via Madras and Singapore, and a weekly service to Moscow from Delhi.

Traffic Headquarters: 4th Floor, Bank of India Building, Mahatma Gandhi Road, Fort, Bombay-1. Cable: AIRINDIA.

Net profit for the year ending March 31, 1958: Rs. 126.10 lakhs.

Operating Revenue: Rs. 1,082.49 lakhs.

Budget estimates (1950-60) are as follows (Rs. lakhs):

	1958-59 Revised	1959-60 Budget
Purchase of aircraft	15.15	255.00
Redemption of Compensation bonds	254.00	—
Workshop expansion	30.00	33.00

AIRCRAFT

There were 536 aircraft holding current Certificates of registration in India at the end of June 1958 of which 212 held current Certificates of Airworthiness.

Of the 536 aircraft 12 were owned by Air-India International and 91 by Indian Airlines Corporation.

AERODROMES

There were 84 aerodromes maintained and operated by the Civil Aviation Department in Dec. 1958.

The following aerodromes (3) are classed as International Aerodromes:

Bombay (Santa Cruz Airport); Calcutta (Dum Dum Airport); Delhi (Palam Airport).

The following aerodromes (8) are classed as Major Aerodromes:

Agartala (Tripura); Ahmedabad; Begumpet (Hyderabad); Delhi (Safdarjung); Gauhati; Madras (St. Thomas Mt.); Nagpur; Tiruchirappalli.

The following aerodromes (38) are classed as Intermediate Aerodromes:

Allahabad; Amritsar; Aurangabad (Bombay); Bagdogra (West Bengal); Balurghat (West Bengal); Banaras; Baroda; Belgaum; Bhavnagar; Bhopal; Bhubaneswar; Bikaner; Bombay (Juhu)*; Chandigarh; Coimbatore; Coorah-Bihar; Cuttack (Bhubaneswar)*; Gaya; Gorakhpur (Kumil)*; Indore; Jaipur; Junagadh (Keshod)*; Kailashahar (Tripura); Kamalpur (Tripura); Khowal (Tripura); Kumbhirgram (Assam); Lucknow (Amausi)*; Mangalore (Rajpet)*; Mohanbati (Assam); North Lakhimpur (Lilabari)*; Pasighat (N.E.F.A.); Patna; Porbandar (Bombay); Rajkot; Rupsi (Assam); Tezpur (Assam); Trivandrum; Vijayavada; Vishakhapatnam.

The following aerodromes (35) are classed as Minor Aerodromes:

Akola; Asansol; Bareilly; Bilaspur; Chakulia (Bihar); Cuddappah (Andhra); Donakonda (Andhra); Jhansi; Jharsuguda (Orissa); Jubbulpore; Kanpur (Civil) (Uttar Pradesh); Khandwa; Kolhapur; Kotah (Rajasthan); Lalitpur (U.P.); Madras; Manipal Road (Assam); Malda; Muzaffarpur (Bewaghat)*; Mysore; Palanpur (Deesa) (Bombay); Panagarh (W. Bengal); Panna (M.P.); Raipur; Rajahmundry; Ramnad; Ranchi; Satna (M.P.); Saharanpur (U.P.); Sheila (Assam); Sholapur; Tanjore; Udaipur (Dabok); Vellore; Warangal.

The new aerodromes at Kandla† and Phoolbagh (Haldwani, U.P.) are shortly to be completed. Three more new aerodromes at Dehra Dun, Ratnagiri and Koshikode and a Gliderdrome at Poona are expected to be completed during the remaining part of the Second Five Year Plan.

* Name of aerodrome or location.

† Was opened in March 1959.

New aerodromes are also under construction at Tuliha (Imphal), Raxaul (Bihar), Joghani (Bihar) and Behala (Calcutta).

The new terminal building at Bombay (Santa Cruz) airport, the largest airport building in India, was commissioned from March 5, 1958.

The works completed during the half year ending June 30, 1958 include the erection of two S. W. P. hangars at Calcutta (Dum Dum) airport, the construction of an apron and a taxi track at Bombay (Santa Cruz) airport and the erection of a Butler Hangar having a floor area of 160 ft. by 130 ft. with an apron of 300 ft. by 150 ft. in front and a taxi track of 300 ft. by 50 ft. at Bagdogra aerodrome.

Radar: A storm warning radar—Decca type 41—has been installed at Sonagaon airport at Nagpur to provide accurate information about storm precipitation centres to aviators. This radar can detect storms upto about 150 miles and indicate the direction and speed of its movement.

A radar of this type is in operation at Santa Cruz (Bombay) and another is to be installed shortly at Madras, Dum Dum airport at Calcutta and Safdarjung airport at New Delhi have already been provided with high-power storm detecting radars.

Apart from radars at Calcutta, Delhi, Nagpur, Bombay and Madras, Decca type 41 radars will also be provided at Gauhati and Gaya. The installation of the radar at Madras is to be taken up shortly and that at Gauhati and Gaya is expected to be completed by 1960.

AIR TRAINING

At the end of November 1958 there were 14 flying clubs centrally subsidized and three satellite centres with their headquarters at Delhi, Bombay, Madras, Barrackpore, Patna, Bhubaneswar, Nagpur, Jullundur, Jaipur, Lucknow (with satellites at Allahabad, Kanpur and Varanasi), Bangalore, Indore, Hyderabad and Gauhati. From Feb. 17, 1954 the Hyderabad State Aero Club revived its flying activity under the name of Andhra Pradesh Flying Club and the Assam Flying Club started operation from June 4, 1958.

These flying clubs trained 198 'A' and 3 'B' pilots in 1958. On Nov. 30, 1958, there were 547 trainees for 'A' Licence and 1 for 'B' Licence undergoing training. During 1958 the flying clubs logged a total of 23,818 hours of flying.

The number of aircraft on charge on Nov. 1, 1958 was 133; 28 belonged to the Government and 105 to the clubs.

The number of pilots employed was 43, aircraft maintenance engineers 39, mechanics 136.

The aircraft flew 2,400 hours in Nov. 1958.

In order to promote air-mindedness among the youth of the country 50 Free Flying Scholarships were awarded to trainees of Flying Clubs during 1957-58. Training was imparted upto 50 hours free of cost to the trainees. Another 50 scholarships were awarded during 1958-59.

There were three Government Gliding Centres at Poona, Allahabad and Bangalore and one centrally subsidized Gliding Club at Delhi in operation at the close of November 1958. These centres and the Club trained 132 Gliding Pilots.

The number of gliders on charge on November 30, 1958 was 32, all of which belonged to the Government of India.

The total subsidy granted to flying and gliding clubs in 1957-58 was Rs. 15,15,362.

The number of persons holding current pilot's 'A' licence increased from 715 at the end of June 1957 to 1,023 at the end of November 1958. There was, however, a slight decrease in the number of 'B' Pilots holding current licence from 506 at the end of June 1957 to 555 at the end of November 1958. The number of Aircraft Maintenance Engineers holding Indian Licences increased from 953 in Dec. 1957 to 1,011 in June 1958.

The Civil Aviation Training Centre at Allahabad opened in 1948 trains commercial pilots, aircraft maintenance engineers, aerodrome control officers and operators, fire operators, radio operators and technicians.

The Centre comprises the following four wings, viz. :—

(1) Flying School; (2) Aerodrome Training School; (3) Engineering School; (4) Communications School.

In addition a Repair and Overhaul Organisation is also attached to the Centre for carrying out repairs and overhaul of the Centre's aircraft.

At the Civil Aviation Training Centre, Allahabad 16 persons were trained for Commercial pilots' course and 16 were given Conversion course on Dakota aircraft. One person completed the Navigators' course in the Flying School. At the Aerodrome School 22 Assistant Aerodrome Officers, 41 Aerodrome Operators and 57 Fire Service Personnel underwent Refresher Course. At the Communication School, 43 trainees completed Radio Operators Advanced Refresher Course, 55 Radio Technicians Advanced Refresher Course and 62 persons Special VOR, and RTT-I Courses. One Ceylonese national completed his training in Specialist Course ILS, VOR/AD.

At the end of November 1958, there were 177 trainees undergoing training in different courses. This number includes two Nepalese nationals, four Singapore nationals, one Philippine national, one Ceylonese and two Afghan nationals undergoing training in various courses.

I.A.C. has a Central Training Establishment at Hyderabad.

The Government of India have set up a school of aviation medicine in the premises of the Hindustan Aircraft Ltd., Bangalore.

TELECOMMUNICATIONS

The aeronautical telecommunications service of the Civil Aviation Department came into existence in 1946.

For purposes of organisation, India has been divided into four regions (Bombay, Calcutta, Delhi, Madras), each under the charge of a Controller of Communication, who is responsible to the Director of Communication for the maintenance and operation of the aeronautical communication stations in his region.

The aeronautical communication organisation has the following ancillary units as central establishments in Delhi :—

The Radio Construction and Development Units; The Central Radio Stores Depot.

Each of these is under the charge of a Controller.

The Service includes: (i) Radio Aids to Navigation to provide en-route navigational guidance to the aircraft in flight; (ii) Radio Aids to Approach & Landing to ensure safe approach to an aerodrome and landing of the aircraft particularly under bad weather and poor visibility conditions; (iii) Air Ground Communication to provide communication facilities between ground stations and aircraft in flight. (iv) Fixed Communication Service for exchange of aircraft operational messages between the aerodromes; (v) Meteorological Information Service to disseminate latest weather reports from the meteorological observations and forecasts.

The facilities include up-to-date electronic aids, such as very high frequency automatic visual direction finder, very high frequency omni-directional radio range (VOR), standard instrument landing system (ILS), aerodrome control radar (A.C.R.), radar responder equipment of the Eureka Mark VII type, long range high frequency radiotelephone air/ground channels, radio-teletypewriter fixed telecommunication circuits and multi-channel automatic speech recorders.

At the end of 1958 there were 76 aero-nautical communication stations providing a total number of 614 navigational aids and communication facilities.

The new transmitting station for Calcutta Airport situated at Garui village, three miles west of the Airport, was formally inaugurated on January 12, 1958.

The non-directional radio beacon at Port Blair was brought into continuous operation to meet the operational requirements of international flights on Bombay-Bangkok and Colombo-Bangkok sectors.

Surface movement control on VHF radiotelephony was introduced at Bombay, Calcutta, Delhi, Gauhati, Madras and Nagpur. Additional facility for Aerodrome Control on VHF Radiotelephony was provided at Kalaasalar, Rupsi and Chandigarh. Aerodrome Control HF R/T was provided at Udaipur. Tezpur was provided with Inter-Tower HF R/T facility. En-route communication on VHF radiotelephony was introduced at Calcutta, Patna, Lucknow and Delhi (Safdarjung).

Very High Frequency Omni Range (VOR), a most up-to-date navigational aid and the first of its kind to be installed in India was introduced for regular operation at Bombay. Z Marker beacon was installed and brought into regular operation at the Radio Range site at Calcutta. Automatic Visual VHF direction finding system, type AD-200 was installed at Amritsar.

To improve air/ground communication on radiotelephony under the prevailing propagation conditions, aeromobile frequencies on the domestic routes were reorganised.

RESEARCH

Research and development for civil aviation is undertaken by The Research and Development Organization of the Civil Aviation Department.

The work of the R & D Organization is in New Delhi at a research and test laboratory, known as the Technical Centre, opened in 1949. The Centre is being staffed and equipped in gradual stages in order to realize the objectives of the Organization.

The principal objectives of the Research and Development Organization are as follows :—

1. Participation in design and development work on gliders, sailplanes and light trainer aircraft.
2. Operational research with particular reference to Indian conditions and the development of safety devices.
3. Research on problems of airworthiness and safety in operations; examination of prototype civil aircraft for airworthiness and for their type certification.
4. Structural testing and research relating to major modifications, repair and construction of aircraft.
5. Development of aircraft materials of indigenous origin; preparation of standard specifications for these materials in co-operation with the Indian Standards Institution.
6. Study of current developments in aviation technology with special reference to new types of civil aircraft and engines and new operational techniques.
7. Encouragement and promotion of fundamental research and advanced scientific and engineering training in aeronautics, and advice on advanced education in aeronautical engineering.
8. Co-operation with international scientific bodies, in initiating research on various aeronautical subjects.

The need for aircraft manufacturing was keenly felt immediately on the outbreak of the war and the Hindustan Aircraft Company was established in the year 1940. Aircraft, aeromaterials, accessories and parts are now being manufactured in the country.

India is a member of the International Civil Aviation Organisation and has been elected to its Council.

AIR AGREEMENTS

India has entered into bilateral air agreements with the following 17 countries on the dates shown against each :—

France	10-7-1947
Sweden	21-5-1948
Pakistan	23-6-1948
Ceylon	21-12-1948

Switzerland	24-6-1949
Australia	11-7-1949
The Philippines	20-10-1949
Netherlands	24-5-1951
U.K.	1-12-1951
Afghanistan	20-1-1952
Egypt	14-6-1952
Iraq	27-7-1955
Japan	28-11-1955
U.S.A.	8-2-1956
Thailand	12-6-1956
Lebanon	13-3-1958
Russia	2-6-1958

Airlines of the following countries operate air services to and/or across India under temporary authorisation granted by the Govt. of India :—

Norway, Denmark, Sweden (jointly under one authorisation), Burma; Lebanon (Pending Ratification of Agreement).

Indian Airlines operate to and/or across the following countries under temporary authorisation :—

Burma, Nepal, Czechoslovakia, Lebanon, Syria, Italy, West Germany, Indonesia.

1958—A REVIEW

As many as 783,000 passengers and over 180 million lb. of cargo were carried by scheduled and non-scheduled air transport services in the country in 1958.

The scheduled air transport services flew 24,086,000 miles in 1958. The number of passengers and freight carried increased from 615,321 and 85,691,035 lb. respectively in 1957 to 683,000 passengers and 98,494,000 lb. of freight in 1958. The mail carried by scheduled services also showed an increase over the previous year.

During 1958, nearly 30,000 hours and 4,877,000 miles were flown on non-scheduled operations against the previous year's figure of 32,832 hours and 5,457,882 miles. The number of passengers and cargo carried were approximately 100,000 passengers and 82,527,000 lb. respectively against 126,459 passengers and 88,703,088 lb. of cargo the previous year.

During 1958 the Night Air Mail Services carried about 48,000 passengers, 2,986,000 lbs. of cargo and 4,018,000 lbs. of mail.

Air-India International alone flew on its scheduled services 3,180,347 miles carrying 37,831 passengers, 1,567,527 lbs. of cargo and 780,932 lbs. of mail during the first half of 1958, as against 3,380,185 miles flown, 44,975 passengers and 1,613,383 lbs. of cargo and 728,535 lbs. of mail carried during the preceding six months.

During the period under review, Indian Airlines Corporation flew 8,751,305 miles, carrying 316,473 passengers, 47,858,085 lbs. of cargo and 5,703,862 lbs. of mail. The respective figures for the preceding six months were 8,527,964 miles, 261,208 passengers, 41,691,648 lbs. of cargo and 5,471,189 lbs. of mail.

Passenger fares on I.A.C. were revised with effect from 15th June, 1958.

The introduction by Air-India International of a weekly scheduled service in each direction between Delhi and Moscow via Tashkent was an important development in the field of international air transport services.

A scheduled weekly cargo service between India and the U.K. was introduced.

A scheduled halt at Jakarta was provided on the service operated between Bombay and Sydney and the frequency of the Bombay-Tokyo service was increased from two to three times a week.

Air agreements were signed with the Lebanon and U.S.S.R.

The fleet of the I.A.C. was supplemented by the addition of five more Viscount aircraft. Air-India International received two more Super Constellations.

The three Boeing 707 jet aircraft, which have been ordered, are expected to be delivered in the first quarter of 1960.

The first proto-type of the two-seater Glider Model TS-2 designed and constructed at the Technical Centre of the Civil Aviation Department was test-flown.

Two newly-constructed aerodromes at Udaipur and Malda were opened to air traffic. The construction of aerodromes at Kandla* and Haldwani

was nearing completion, and work was in progress on the construction of aerodromes at Joghani, Raxaul, Behala and Tullihal. The new terminal building at Bombay (Santa Cruz) airport was opened to traffic.

Schemes have been sanctioned for the development of the three international airports at Bombay, Delhi and Calcutta to make them fit for Boeing jet operations.

The Central Training Establishment of I.A.C. came into being at Hyderabad on 10th Oct. 1958.

Government have decided to put the I.A.C. on a better financial footing by waiving interest on Government loans till 1966, write off net cash loss of Rs. 2.23 crores, grant subsidy rather than loan in future.

During the period 1st January to 17th December 1958, there were 30 major accidents in India involving 23 Indian registered aircraft, 2 foreign registered aircraft and 5 gliders in addition to 5 accidents to Indian registered aircraft in Nepal and one in East Pakistan. Eight of these accidents were fatal resulting in the death of 60 persons, including 23 crew, 35 passengers and 2 passengers-by.

Three of the accidents to Indian registered aircraft related to aircraft engaged on scheduled passenger service, one to aircraft on scheduled freighter service, eight to aircraft on non-scheduled passenger and freighter services, nineteen to aircraft engaged on instructional flights and three to aircraft engaged on private and miscellaneous flights.

ENQUIRY COMMITTEE

The report of the Committee appointed by the Government of India to examine the cost structure and efficiency of the Indian Airlines Corporation was laid on the table of the Lok Sabha on March 23, 1959.

The Committee was headed by Mr. Stephen Wheatcroft, an aviation expert from the United Kingdom. Besides Mr. Wheatcroft, the Committee consisted of three members, namely, Mr. C. J. Lalaka, who was formerly the Chief Engineer of Bharat Airways, Mr. P. K. Sen, Director of Commercial Audit, and Mr. K. R. Kuppuswami of the Ministry of Finance.

The report is under examination by the Government of India (March 1959).

The overall picture of the Indian Airlines Corporation which has emerged from the Committee's survey of the Corporation's work is that of an airline which operates a generally efficient network of air services. The Committee have expressed the view that the general standards of I.A.C. operations and the 'quality' of the transport offered to the public are very good, particularly when the low average level of fares is borne in mind and that the I.A.C. provides a very satisfactory system of domestic air services in India.

The Committee have commented on the general lack of cost-consciousness in the organisation, inadequate budgetary planning and deficiency in the system of controlling budgeted expenditure.

The Committee have also drawn attention to the existence of surplus labour force in the Corporation, and have proposed that it should place a total prohibition on new recruitment until this surplus has been absorbed. The Committee have commented that the employees' unions appear to have forgotten that the staff of a public Corporation have a responsibility towards consumers as well as to looking after their own rewards and conditions of work, and have added that unless the workers can be persuaded to recognise the need for great improvement in the present level of productivity, there is not much hope that major reductions can be made in the level of operating cost.

The Committee have advocated that I.A.C. should be directly subsidized for the operation of any routes on which there is no prospect that revenues will cover standard costs of operation.

The Committee have analysed the cost of operation of the three main types of aircraft in the fleet of the I.A.C., viz. the Dakota, the Skymaster and the Viscount. The overall effect of the recommendations is to produce a standard cost level for direct operating costs of the Dakota which is 15 per cent lower than the I.A.C. level in 1957-58. In respect of the Skymaster operations the effect of the recommendations is to produce a standard cost level which is 3 per cent higher than the level achieved by the I.A.C. in 1957-58, but is 9 per cent lower than that which the I.A.C. have estimated for 1959-60.

The Committee have recorded their admiration for the efficiency of the I.A.C. Viscount operations and have stated that in the operations of the Viscount, in the utilization achieved, in the work of maintenance and overhaul and in the general level of operating cost, the I.A.C. compares favourably with Viscount operators in other parts of the world.

The Committee have stated that in their recommendations on the standard costs of operation they have assumed a higher level of efficiency in some phases of I.A.C. operations than it is reasonable to expect the Corporation to achieve for some years. Taking into account likely increase in traffic, the Committee have suggested that the I.A.C. should be expected to achieve the standard cost level by 1962-63.

The Committee are inclined to take an optimistic view of the future financial prospects of the Corporation, for, although the deficit is over Rs 1 crore, the difference between revenue and expenditure is only 10 per cent. In the opinion of the Committee, a substantial increase in the revenue can be forecast with the operation of Viscounts on the trunk routes; and profitable operations are also possible on the Night Air Mail Services.

If the standard cost for Dakota operations recommended by the Committee are achieved and if a realistic assessment is made of the deficits which are incurred by the I.A.C. in the operations of non-commercial services, and revenues subventions are paid to the Corporation for these routes, then it should be possible for the deficit in the I.A.C. to be entirely eliminated within the next few years.

* Was opened in March 1959.

PORTS

ALLOTMENT under First Five-Year Plan : major ports: Rs. 25.70 crores; minor: Rs. 2.41 crores.

Allotment under the Second Plan : major ports: Rs. 37.6 crores; minor ports: Rs. 5.00 crores.

There are six major ports in India, 18 intermediate ports, 116 minor ports and 43 sub-ports.

Technically a major port is one which is capable of taking in ocean-going steamers with a registered tonnage of 4,000 or more and berth them along wharves.

The six major ports are :

Bombay, Calcutta, Cochin, Kandla, Madras and Vishakapatnam.

The intermediate ports, the Minor ports and the sub-ports are distributed as follows State-wise :

MYSORE : There are two intermediate ports (Karwar and Mangalore), 20 minor ports and 13 sub-ports.

MADRAS : There are three intermediate ports (Cuddalore, Nagapattinam and Tuticorin), three minor ports and 14 sub-ports.

BOMBAY : BOMBAY REGION: There are three intermediate ports (Broach, Ratnagiri and Okha), 67 minor ports and four sub-ports.

Saurashtra and Kutch Region : There are six intermediate ports (Mandvi, Navlakhi, Bedi, Porbandar, Veraval and Bhavnagar), 11 minor ports and ten sub-ports.

Kerala : There are two intermediate ports (Alleppey and Kozhikode), eight minor ports and two sub-ports.

ORISSA : There are two minor ports.

ANDHRA PRADESH : There are two intermediate ports (Masulipatnam and Kakinada) and five minor ports.

The three ports of Bombay, Calcutta and Madras are administered by Port Trusts which are statutory bodies set up by the Bombay Port Trust Act 1879, the Calcutta Port Trust Act 1890, and the Madras Port Trust Act 1905.

Cochin, Kandla and Vishakapatnam are administered directly by the Central Government.

The intermediate, minor and sub-ports are administered by State Governments.

A National Harbour Board exists to advise the Government on matters of general policy. On the Board are represented the Central Ministries concerned, the Planning Commission, the maritime State Governments, Major Port Authorities, representatives of certain trades and industry and of labour.

There is also an Intermediate Port Development Committee for the selection of suitable intermediate ports for intensive development.

This Committee was to submit its recommendations before July 1959.

SECOND FIVE-YEAR PLAN

The Second Plan comprises, among others, the following works :—

Calcutta : A new general cargo berth at King George's Dock; A new tea warehouse; A new bucket dredger, 100 ton floating crane, salvage tug and dispatch vessel and other floating craft totalling Rs. 4.8 crores; Remodelling of the Port Commissioners' Railway.

Bombay : Provision of 54 more electric cranes in Alexandra Dock; A new grab dredger; Dredging of the main harbour channel; A new 125 ton floating crane.

Madras : A new wet dock for 6 berths; A new dredger; Mechanical handling of coal and ore.

Vishakapatnam : 2 new berths (later revised to 5)—3 for general cargo and 2 for ores.

Kandla : 2 additional berths for ore traffic. A new township called the Gandhidham township is also being developed just behind the port.

Cochin : 1 floating crane; 1 dredger.

The total estimated cost of the development works in the Second Plan was Rs. 79.9 crores, of which central assistance will be restricted to Rs. 43.5 crores. Rising costs and certain alterations and additions which have been found necessary will increase the total cost of the schemes to Rs. 95 crores.

The more important schemes already completed or nearing completion are the construction of four berths and allied works at Kandla, the Marine Oil Terminals at Bombay and Vishakapatnam, reconstruction of 12 transit sheds in Bombay, installation of 34 electric wharf cranes in Alexandra Docks, Bombay, an oil tanker berth with pipeline connections in Cochin and the erection of a coal loading plant and construction of a heavy lift yard with a 200 ton crane in Calcutta.

A proposal under consideration is the construction of a subsidiary port near Calcutta.

The services of Mr. F. Posthuma, Deputy Director of the Rotterdam Port, have been obtained by the Government of India through the United Nations to make a preliminary study regarding the selection of a suitable site.

Among the sites favoured for the purpose is Haldia, about 75 miles from Calcutta, and the other nearer the sea.

The main object of the construction of a new port is to accommodate bigger ships than can navigate the Hooghly up to Calcutta, thereby relieving congestion at Calcutta port.

The intention of the Government of India, at present, appears to be to shift the export of coal and ore from Calcutta to the proposed subsidiary port. According to a rough estimate, eight berths will thus be released at Calcutta which might be utilised for other cargo and passenger ships.

For the development of non-major ports there is a provision of Rs. 5 crores.

Included in this provision are the amounts required for the establishment of a Dredger-cum-Survey Launch Pool for dredging the outer harbours, and carrying out hydrographic surveys before and after dredging; for adding a third survey ship to the Marine Survey Wing of the Ministry of Defence, exclusively for hydrographic surveys of minor ports; for meeting the expenditure on preliminary investigations connected with the development of the minor ports of Tuticorin, Pradip, Mangalore, etc.

The construction of a new pier at Pondicherry estimated to cost Rs. 36.75 lakhs has also been undertaken.

1957-58—A Review

Port operation and development were the subject of study by two expert missions from abroad. One was a mission deputed by the U.K. Government under the Colombo Plan in October, 1957, to visit the major ports of Calcutta, Bombay, Vishakapatnam and Madras and advise on cargo handling and other port operational problems.

Their reports on the subject included suggestions regarding the speeding up of movement of cargoes from and to the ports by the provision of suitable railway wagons, streamlining of customs formalities, imposition of panel rates of demurrage on consignees for delay in the removal of cargoes, provision of more mechanical aids, improvement in the maintenance of equipment of all kinds and taking a more co-ordinated view of traffic requirements in the planning of berths and other physical facilities.

The Mission, however, urged caution in the matter of introducing large-scale mechanisation before ensuring the co-operation of labour.

About the second mission, this was an export team sent by the World Bank and led by Mr. Posthuma, the Chief Engineer of the Rotterdam Port Authority. The object of this deputation was to make an on-the-spot study of the development projects of the ports of Calcutta, Madras, Vishakapatnam and Bombay. This was in connection with the application by India to the Bank for a loan to cover the foreign exchange component of the expenditure estimated at Rs. 40 crores in respect of the development schemes of these ports.

Agreements were executed on June 25, 1958, between the Bank and the two port authorities of Calcutta and Madras. The loans were for an amount of 29 million and 14 million dollars in various foreign currencies to the two port authorities of Calcutta and Madras, respectively.

The provision of facilities for stepping up ore exports through Vishakapatnam port will be covered by an aid of Rs. 2 crores from the U.S. President's Asian Development Fund.

As regards Bombay, the main outlay is on two large schemes—dredging of the main harbour channel and the modernisation of the Prince's and Victoria docks. In the opinion of the World Bank Mission, these schemes were not ripe enough for the consideration of a loan from the Bank. The trustees are now to formulate and finalise their schemes for presentation to the Bank.

Foreign assistance to the extent of five million dollars for the purchase of two suction dredgers for Bombay port and three dredgers for catering to the dredging requirements of the new major port of Kandla and of a selected number of minor ports has been secured.

The first stage in the development of Kandla port comprising the construction of four cargo berths and allied facilities is practically over, and the construction of two additional berths for facilitating the export of the new-found ore from Rajasthan is now taken up.

About minor ports, to deal with the problem of siltation it has been decided to constitute a dredger-cum-survey launch pool consisting of three dredgers, a fleet of survey launches and other equipment estimated to cost over Rs. 2 crores.

Each of the dredger units will be based at the ports of Kandla, Bombay and Vishakapatnam and will be employed for undertaking dredging work at Kandla and at selected intermediate ports—18 in number.

To cater to the requirements of additional ore export traffic and thus earn valuable foreign exchange, a few of the minor ports are being developed to the requisite standard.

When the works contemplated are executed, the port capacity can be expected to rise to the order of about 40 million tons in the aggregate. The port capacity would then be adequate to meet the country's expanding needs.

There was an all-India strike of port and dock workers in 1958. The strike began at all the major ports other than Kandla at midnight between June 15 and 16, 1958, while at Kandla the workers joined the strike on June 23.

There was only a token strike lasting three days at the port of Cochin and that port started functioning normally from the morning of 19th.

At the other major ports, normal work was resumed only on 27th June. Fortunately, the ports were able to clear the congestion within two days of the resumption of the work by the strikers.

Following the settlement of the strike, the recommendations contained in the report of the Officer on Special Duty, Mr. Chaudhuri, were discussed with the representatives of the Federations of Port and Dock workers from 14th to 20th July, 1958, and Government decisions on the important recommendations contained in it were published in their Resolution of July 20, 1958.

LIGHTHOUSES

Lighthouses are divided into general and local according to the utility of a particular lighthouse to navigation. The superintendence and management of general lighthouses is vested in the Union Government while the local lighthouses are managed by local lighthouse authorities such as State Governments, Port Trusts, etc.

A statutory body—the Central Advisory Committee for Lighthouses has been appointed under the Indian Lighthouses Act, which advises the Union Government on matters connected with the erection, additions, alterations, improvements etc. of lighthouses. The Chairman of the Committee is the Secretary to the Government of India, Ministry of Transport and Communications, or the officer deputed by him to act as Chairman on his behalf. The members are: The Director-General of Shipping, Bombay (*ex-officio*); Nautical Adviser to the Government of India (*ex-officio*); A representative of the Ministry of Finance, Government of India; A Deputy Secretary to the Government of India, Ministry of Transport and Communications (*ex-officio*); G. T. Kamdar, representative of the Federation of Indian Chambers of Commerce and Industry; J. E. Galloway, representative of Associated Chambers of Commerce; T. M. Goculdas, nominated by Government to represent Indian Shipping interests; B. P. Singh Roy, representative of Indian National Steamship Owners' Association; Jaidu Manikyal Rao, Government nominee representing Indian Sailing Vessels' interest; Director-General of Lighthouses and Lightships, New Delhi (*ex-officio*), Member Secretary.

There are 183 lighthouses, 9 lightvessels, 101 lightbuoys, 282 unlighted buoys, 190 beacons, 299 land marks and 713 other marks, making a total of 1,777 aids to navigation strewn over the coastline of approximately 4,340 miles including Andaman Island. 59 new lighthouses and other aids to navigation have been established so far. The Second Five-Year Plan envisages the improvement of aids to navigation at an estimated cost of Rs. 400 lakhs. A summary of the programme under the Second Five-Year Plan is given below:—Construction of lighthouses, towers, buildings and jetties, 100 nos.; Purchase and installation of optical equipment apparatus and machinery, 100 nos.; Establishment of M.F. and V.H.F. Radio Station, 15 nos.; Establishment of Deccan Navigator Stations, 8 nos.; Purchase and installation of harbour and ship borne Radars, 15 nos.; Installation of sound signals, 50 nos.; Purchase and installation of electric power generator equipment and machinery, 75 nos.; Purchase and establishment of lightships, 10 nos.; Purchase of ships, tenders, lifeboats, motor launches, etc., 35 nos.; Purchase and establishment of buoys and other floating aids, 150 nos.

During the year 1957-58, new lights were exhibited at 2 lightstations viz. Protan Island (Bombay State) and False Point (Orissa State). A new lighthouse tower has been built on the Protan Island in the Gulf of Kutch and a new optical equipment installed, which has a beam intensity of 4,95,000 candelas. This provides a range of 14 miles in adverse weather. This light started functioning from 5th February 1958.

The new optical equipment at False Point is electrically operated, the power for the light being supplied by generators installed at the station. The beam intensity of this light is 1.4 million candelas and ensures a range of 17 miles in misty weather. This light started functioning from 31st May 1958.

8 buoys were laid in Vizag Harbour and the installation of the lighting equipment on these buoys is in progress. A new M. F. Radio beacon has been installed at False Point (Orissa State).

A new lighthouse tower has been constructed at Korlai Fort (Bombay State) and the lighting equipment installed thereon. The work of the improvement of the Gogha lighthouse (Bombay State) has been completed and the new optical equipment installed.

The works of installation of a Harbour Radar at Kandla; Radio Beacons at Diu Head, Khan-

deri Island and Okha (Bombay State) and Dolphin's Nose (Andhra Pradesh); light-bouy at Sultanpur Shoal (Bombay State); new optical equipment at Uttan Point (Bombay State) and Alleppey (Kerala); Radar sets at Khandari Island (Bombay State) and Sugar Island (West Bengal State) and Fog Signal and Auxiliary Red light at Bhatkal (Bombay State) are in progress.

The Central Advisory Committee for Lighthouses which met at Bombay in October 1958 approved of a proposal to construct a lighthouse at Lushington Shoals off Port Okha in Bombay State at an estimated cost of Rs. 80 lakhs. The proposed lighthouse with a beam intensity of 10 million candelas will have a range of 17 miles in misty weather and a fog signal with a range of 10 miles.

The committee, which was presided over by Shri E. L. Gupta, Secretary, Department of Transport, Government of India, also approved of a number of works providing navigational aids to shipping at a cost of Rs. 2½ crores.

Important works, besides the proposed lighthouse at Lushington Shoal, are a lighthouse at Androth Island in Laocedives, the Minicoy lighthouse, construction of a lighthouse at the mouth of river Hooghly and a new lighthouse at Chandrabhaga in Orissa.

Improvements to Shortt Island lighthouse in Orissa are estimated to cost Rs. 14-35 lakhs.

Some of the new and important lighthouses, the construction of which is now in progress are those at Tolleshwar, Rajapur Bay, Tarapore, Tapli, Dwarka, Navinal and Chachhi in Bombay State, and Kollthottam in Kerala State.

The Department of Lighthouses & Lightships is maintained on a self-supporting basis and its revenue is derived from the light dues levied on ships visiting Indian ports. The entire revenue is utilized for the maintenance and development of lighthouses and any balance left is accumulated in a reserve fund known as the General Reserve Fund for financing the projects in future. The balance in the General Reserve Fund stood at Rs. 103 lakhs on 1st April 1958. The present rate of lightdues is four annas per ton on steamships and one anna per ton on sailing ships.

This Department is also responsible for the administration of the Fairways Act.

It is proposed to electrify the lighthouses at Manapad, Mahabalipuram and Muttam Point (Madras State). The electrification will result in an increasing the beam intensity by over three times.

BOMBAY

The Port of Bombay is over 20 square miles in extent.

The Bombay Port Trust, which was constituted by Government in 1873, is administered by a Chairman appointed by Government and a Board of 24 Trustees, 10 of whom are nominated by Government, 2 elected by the Bombay Chamber of Commerce, 6 by the Indian Merchants' Chamber, 1 by the Maharashtra Chamber of Commerce, 2 by the Municipal Corporation, 1 by the Millowners' Association, 1 by the Indian National Steamship Owners' Association, Bombay, and 1 by the East India Cotton Association Limited, Bombay.

The entire administration is subject to the provisions of the Bombay Port Trust Act, 1879.

The main channel, which is approximately 1½ miles in width, has silted recently and the controlling depth is now 28 feet.

Anchorage in the harbour with a depth of upto 34 feet below chart datum can be obtained. Mean range at springs is 12 feet.

Passenger Facilities.—Trans-oceanic passenger traffic is mostly dealt with at the Ballard Pier Station. Coastal and Harbour Passenger traffic is dealt with at the New Ferry Wharf.

The total number of overseas passengers embarking and disembarking at Bombay in 1957-58 was 1,40,844 while the number of passengers carried by the coastal services was 7,08,605.

Wet Docks.—There are three wet docks, the main features of which are as follows:—

Number of Berths (excluding Harbour Walls).

Prince's Dock	..	12
Victoria Dock	..	18
Alexandra Dock	..	17

The three Docks together have a water area of 104½ acres and about 4½ lineal miles of quays; extensive open storage and shed and warehouse accommodation for the reception and storage of goods, exist.

Dry Docks.—The dimensions of the two Dry Docks are as follows:—

Dry Docks	Length—(1) Caisson in Inner Groove, (2) Caisson in Outer Groove.	Width at entrance.	Normal minimum depth of water over sill.
Marweather Dock.	(1) 500'-0" (2) 525'-0"	65'-6" ..	22'-0" ..
Hughes Dock.	1000'-0" (divisible into two compartments of varying lengths)	100'-0"	33'-0"

The Bunders.—Besides the wet docks described above, there are along the harbour front a number of 'bundars' or open wharves and basins where the traffic carried by sailing vessels is handled. These bunders, which provide an aggregate quayage of 41,000 lineal feet, are equipped with cranes and other facilities for loading, unloading and storing cargo. The extensive **TIMBER PONDS** at Sewri, covering an area of over 60 acres, form an important feature of the bunders. The total cargo handled at the bunders amounted to about 6.82 million tons during 1957-58.

Ballard Pier.—Is a 1,500 ft. extension of the harbour wall on the west side of the Alexandra Dock entrance lock and is the arrival and departure berth for the foreign mail steamers and other large passenger liners. The station building comprises three platforms for tourist and other trains, a handsome concourse with waiting and refreshment rooms and a spacious baggage and customs hall.

Bulk Oil Facilities.—Till recently the dangerous petroleum imported at Bombay was all handled at the Pir Panu Oil Berth. Non-dangerous petroleum was also handled at the Alexandra Dock Harbour Wall Berths. With the installation of two Oil refineries at Bombay, these facilities became inadequate and a New Marine Oil Terminal equipped with all modern facilities for the speedy discharge and loading of oil and capable of receiving tankers drawing up to 34'6" has been constructed at Butcher Island within the Bombay Harbour. The new terminal is expected to meet the requirements of the bulk oil trade at this port for many years to come.

The Depots.—The more important depots are: **Grain Depot**, containing over a million square feet of shed accommodation and about 90,000 square feet of plinth area, is designed primarily for the storage of grain and seeds in bags.

Cotton Depot, is one of the largest and most up-to-date Depots of its kind in existence, and covers an area of 432,500 square yards of reclaimed land on which the Port Trust has erected 178 fireproof ferro-concrete godowns equipped with sprinkler protection, 16 open sheds on plinths and 225 open plinths.

It has 16 covered platforms and 4 open plinths for Railway reception and despatch, and a Railway Yard with 8 miles of track. There are within the Depot a Fire Brigade Salvage Corps Station, Dispensary, Canteen, Grain Shop and other facilities for the Trade.

Manganese Ore Depot, provides open storage accommodation of about 70,000 sq. yds. in 32 plots each fully equipped with Railway Sidings. The Depot has a weighbridge.

There are also special depots for coal, charcoal, iron, timber and other building materials, etc. several of which not only have railway facilities but also wharf fronts.

In addition, there are several large warehouses and godowns in the vicinity of the docks available for renting out for storage of grain, tobacco and other trade purposes, the largest of these godowns is the **RYAN GRAIN MARKET** providing storage accommodation of 225,000 sq. feet.

Port Trust Railway

The Port maintains its own railway system which handles more than 59 per cent of the railborne goods traffic of Bombay. The traffic to and from the trunk railways during the year 1957-58 amounted to 4,055,000 tons, and its local station-to-station traffic is about 5,71,800 tons. The principal commodities carried are cotton, grain and seeds, oil-cake, manganese ore, sugar, kerosene and other bulk oils, coal, charcoal and china clay.

Though only 7.755 miles in actual length, it comprises over 134 miles of main lines and sidings all directly linked with the inter-railway exchange yard at Wadala, the various storage depots and the docks and wharves.

REVENUE AND EXPENDITURE FOR THE YEAR 1957-58

Revenue .. Rs. 12,32,51,024	} Total of general and pilotage accounts only.
Expenditure 9,10,28,309	

* Is likely to leave (April 1959).

Statistics showing the number of vessels (exclusive of ferry steamers) which entered the docks and went alongside Harbour Walls or Pir Pau Oil Pier during the period 1952-53 to 1957-58 are given in the table below :

Year	Number	Net registered Tonnage
1952-53 ..	2,561	8,446,538
1953-54 ..	2,663	8,720,375
1954-55 ..	2,534	8,875,811
1955-56 ..	2,528	9,342,179
1956-57 ..	2,667	9,556,633
1957-58 ..	2,906	11,120,606

The number of passengers excluding those handled by country craft and harbour ferries was 849,449.

As on December 31, 1957, the Bombay Port Trust provided houses for 3,913 employees, i.e. 17.10 per cent of its total staff (excluding docks casual mazdoors).

Nine welfare centres were conducted by the Labour Department at Port Trust residential settlements for workmen. Reading rooms were provided at seven places where periodicals were made available. Clinics for women and children were conducted at Antop village and Wadala.

The expenditure out of the Employees Welfare Fund to which an annual contribution of Rs. 30,000 is made from revenue, aggregated to Rs. 62,554 during 1957-58 as against Rs. 55,068 during 1956-57.

Board of Trustees (1957-58)

Nominated by Government : Chairman, I. T. Ghulap, I.C.S.* Kumar Pravinlalji, I.P., M. G. Abrol, B. Arora, M. M. Khan, V. L. Gidwani,

I.C.S., Brig. Kamta Prasad, M.C., Rear Admiral B. S. Noman, I.N., S. V. Kailaspathy, H. N. Trivedi, G. H. Kale.

Elected by the Bombay Chamber of Commerce : S. M. Scott ; E. A. Jenkins.

Elected by the Indian Merchants' Chamber, Bombay : B. D. Somani, Devji Rattansey, Ambalal Kilachand, Gordhandas Jadavji, Mathradas Haridas, C. H. Bhabha.

Elected by the East India Cotton Association Ltd., Bombay : Madanmohan R. Rula.

Elected by the Indian National Steamship Owners' Association, Bombay : H. M. Desai.

Elected by the Maharashtra Chamber of Commerce, Bombay : K. V. Apte.

Elected by the Municipal Corporation of Greater Bombay : Dr. S. G. Patel, R. S. Pandey.

Elected by the Millowners' Association, Bombay : A. N. Mafatlal.

PRINCIPAL OFFICERS

General Manager, T. S. Parasuraman.

Secretary, E. H. Simoes.

Chief Accountant, I. B. Das Gupta.

Chief Engineer, S. B. Dalal.

Deputy Chief Engineer, K. G. Sarma.

Docks Manager, V. Van.

Addl. Docks Manager, A. M. Shaikh.

Railway Manager, J. N. Adagga.

Deputy Conservator, W. E. Brown.

Harbour Master, J. H. S. Stewart.

Estate Manager, N. D. Baria.

Controller of Stores, P. V. Thadani.

Chief Medical Officer, Dr. N. V. Nene.

Chief Labour Officer, Batuk H. Mehta.

Legal Adviser, S. D. Nariman.

STATISTICS SHOWING CARGO HANDLED AT THE DOCKS AND BUNDERS DURING THE PERIOD 1952-53 to 1957-58

Year										Imports	Exports	Total
										Tons	Tons	Tons
1952-53	4,965,000	1,943,000	6,638,000
1953-54	4,775,000	1,951,000	6,727,000
1954-55	5,630,000	1,954,000	7,584,000
1955-56	6,707,000	3,599,000	10,306,000
1956-57	8,239,000	3,740,000	11,979,000
1957-58	9,302,000	3,808,000	13,110,000
1958-59 (revised estimates)	7.8 mln.	3.3 mln.	11.1 mln.

CALCUTTA

The Port of Calcutta is situated on the left bank of the River Hooghly which is formed by the uniting of the three off-takes from the parent river Ganges. The port is about 80 miles from the mouth of the river and 121 miles from the Western Channel Light Vessel at Sandheads. The Port is administered by a Port Commission

with jurisdiction under the Calcutta Port Act from Budge Budge to Konnagar.

The chief exports from Calcutta are coal, tea, carpets, gunnies, bone and bone-meal, skins, hemp, iron and steel manufactures, lac oil other than petroleum, scrap, ores, hides and mica. The principal imports are salt, foodgrains, machinery, petroleum, petroleum products, iron,

and steel, metals other than iron and steel, lubricating oil, cement, rubber, chemical products, soda, timber, tobacco, paint, varnish, fertilisers.

Revised income and expenditure for 1958-59 : Rs. 12.83 crores and Rs. 12.30 crores. Budget for 1959-60 : Income Rs. 12.23 crores ; Expenditure Rs. 12.40 crores.

STATISTICS SHOWING CARGO HANDLED BY CALCUTTA, THE NUMBER OF PASSENGERS EMBARKED AND DISEMBARKED AND THE RECEIPTS AND EXPENDITURE, DURING THE PERIOD 1953-54 to 1956-57 :

Year	Imports Tonnage	Exports Tonnage	Total Tonnage	Passengers Embarked	Passengers Disembarked	Revenue Income Rs. in lakhs	Expenditure Rs. in lakhs
1953-54	2,723,062	5,336,037	8,059,099	15,710	16,299	818	900
1954-55	3,240,436	4,573,377	7,813,813	11,854	11,673	883	921
1955-56	3,409,062	4,621,673	8,030,735	18,523	18,638	997	934
1956-57	4,352,958	4,516,252	8,869,210	17,554	15,437	1,047	960
1957-58	5,515,768	4,640,579	10,156,347	14,467	17,276	1,276	1,120

The number of vessels that entered the port during the year was 1,593 (1957-58).

The largest vessel to enter the Port was 16,735 tons gross tonnage but speaking generally the ideal ship for the Port is a ship of under 550 feet in length, broad in beam and loading to a maximum of about 26 feet.

Berths and Anchorages.—Anchorages are available at Saugor Roads, Haldia, Kalpi Diamond Harbour, Royapur, Ulubaria, Buj Buj and Garden Reach of which Royapur, Ulubaria, Buj Buj and Garden Reach are available only for deep laden vessels outward bound or in emergency. The other anchorages are used by ships on passage to and from the Port.

In the port ships lie to moorings when in the stream or alongside jetties with cables forward and aft. The largest man-of-war so far accepted in the Port has been 10,000 tons cruiser class and one berth is available for this class of ship.

Accommodation (Kidderpore Docks).—These consist of Nos. 1 and 2 Docks and Turning Basin. Dock No. 1 is 2,700 feet in length by 600 feet wide, with a depth of 30 feet of water and has twelve berths serving single-storey cargo sheds. Dock No. 2 has a length of 4,500 feet by 400 feet and also provides a depth of 30 feet of water. It has eight general berths serving single and double storeyed sheds and six coal berths including three mechanical loading berths.

King George's Dock.—This Dock comprises a lock entrance 700 feet long by 90 feet wide, four general cargo berths, a heavy-lift yard with one 200-ton crane, and a semi-mechanical ore berth and an oil berth. Provision has been made in the Second Five Year plan for the construction of three additional general cargo berths at B, D, and F berths and a laying up berth.

Dry Docks.—Five dry docks, owned by the Port Commissioners, are available for the use of shipping, three in Kidderpore Docks and two in King George's Dock.

Jetties.—The Garden Reach Jetties consist of a coaling jetty for ships up to 450 feet in length and three jetties for ships up to 600 feet. One jetty which was burnt down by fire in 1951 is being restored with the provision of a single storied shed. The transit sheds are double storeyed. Calcutta jetties are situated on the riverbanks below Howrah Bridge. There are nine jetties with a total length of 4,735 feet, but only five of them viz. Nos. 2, 3, 7, 8 and 9 are available for ocean-going steamers.

Wharves.—Petroleum Wharves at Budge Budge are situated some 14 miles below the entrances to the docks.

Warehouses.—The Commissioners provide extensive warehouse accommodation consisting of two Tea Warehouses with extension having a storage area of 416,000 sq. ft., a grain and seeds depot at Kantapukur comprising 37 sheds with a storage area of about 1,053,108 sq. ft., two sheds at Jhinjerapal with a storage area of 70,200 sq. ft., A and B Sheds at Kidderpore, and the Fairlie, Clive, Canning and Strand Warehouses situated close to the Calcutta Jetties with a total floor area of about 292,200 sq. ft. Provision has been made for the construction of another six-storeyed warehouse for tea at Lybian Depot with 600,000 sq. ft. of covered accommodation.

Coal.—There are at present six coaling berths at Kidderpore Dock No. 2 and one at Garden Reach Jetty.

Overall Capacity of Port.—Calcutta with the existing facilities has handled a sea-borne traffic of nearly 11 million tons a year without congestion or delay.

The total number of cargo boats licensed in the Port was 4,159 in 1957-58 with a carrying capacity of about 286,844 tons. The total number of passenger boats licensed in 1957-58 was 534 with a carrying capacity of 13,504 passengers.

The Port Trust Railway.—Communication between the various points in the Docks and Jetties including all the Commissioners' warehouses is maintained by the Commissioners' Railway which has 210 miles of permanent way and connects with the two main railway systems serving Calcutta. Goods can therefore be railed from any point on the Commissioners' premises to any part of India.

Commissioners

B. K. Mitra, I.C.S., *Chairman*; A. C. Whitchee, Comdr. B. K. Gupta, B. Gupta, I.C.S., Anand Mohan, Kripal Singh, P. C. Majumdar, M. C. Mehta, B. P. Singh Roy, Rabindra Lal Sinha, B. K. Banerjee, R. H. Mody, B. G. Bangur, N. L. Kanoria, G. D. Longhurst, H. S. Singhanla, P. N. Talukdar, T. C. Basu, B. C. Ghose, B. N. Mondal, M.L.A., Kall Mukherjee, Nepal Bhattacharya, J. M. Parsons.

Kelly; *Port Pilotage Officer.*—P. Collinson; *River Surveyor.*—J. A. C. King; *Medical Officer.*—Dr. K. Sundry, M.B.; *River Consulting Engineer and London Agents.*—Messrs. Rendel Palmer & Tritton *Docks Manager.*—A. P. McMahon.

COCHIN

The Port of Cochin, one of the six major ports of India is a natural harbour lying on the direct route to Australia and the Far East from Europe. It is open for deep-water traffic in the worst monsoons and provides a splendid anchorage at all times of the year. Any ship drawing up to 30' draft can enter the port even in the roughest weather.

The Port consists of an extensive area of sheltered navigable backwaters behind an opening, 440 yards wide.

The Cochin Harbour Railway is connected with the Broad Gauge system of the Southern Railway. The construction of the metre gauge railway connecting Cochin with Quilon in the south has been completed and the line thrown open for public traffic. The work in connection with the extension of the metre gauge system to the Cochin Harbour Terminus has been started.

The entrance channel of the harbour is 450 ft. wide and about 4 miles long, buoyed on both sides according to regulations. The activities of the port are mainly centred in Willingdon Island which has been reclaimed from the backwaters by dredged soil from the inner channels.

Inside the harbour there are thirteen stream berths, one coal berth, four wharf berths, one boat train pier Jetty and two tanker berths. Of the thirteen stream berths, one is a swinging berth capable of accommodating vessels up to 650 ft. overall in length and 28 ft. draft. Twelve are fore and aft berths in the Mattancherry channel. The coal berth, wharf berths and the boat train pier jetty are situated on the Willingdon Island facing the Mattancherry channel. The tanker berths are in the Ernakulam channel which provide facilities to discharge oils direct to the shore installations.

The deep water wharf where the four wharf berths are situated is 2,200 ft. long with a reinforced concrete frontage. This can accommodate at a time 4 vessels of 450 ft. in length.

Facilities have been provided at the boat train pier Jetty also for pumping black oil from and to the oil installations on shore and to supply bunkers from the shore installations direct to vessels working at deep water wharf.

The work on the construction of a new deep water wharf on the eastern side of Willingdon Island facing the Ernakulam Channel

to accommodate 4 vessels at a time with transit sheds, warehouses, broad and metre gauge railway sidings, cranes, offices, etc. is making rapid progress. The work on the construction of a second coal berth on the western side of Willingdon Island facing the Mattancherry channel is also progressing.

The principal imports are food grains, mineral oils, coal, cashewnuts, hardware, chemicals and manure.

The principal exports are coir and coir products, tea, rubber, cashew kernels, coconuts, spices and ores.

Statistics showing the growth of the Port from 1953-54 to 1957-58.

Year	Imports	Exports	Total
	Tons	Tons	Tons
1953-54	1,233,501	323,681	1,557,182
1954-55	1,197,956	353,693	1,551,649
1955-56	1,220,836	387,851	1,608,687
1956-57	1,308,014	418,991	1,727,005
1957-58	1,404,278	395,593	1,799,871

The total number of passengers embarked and disembarked in 1957-58 was 2,507. Receipts and Expenditure in the same period were Rs 90.81 lakhs and Rs 101.32 lakhs respectively.

The administration of the Port is carried on by the Administrative officer working directly under the Ministry of Transport and Communications of the Government of India. He is assisted by an Advisory Committee consisting of the representatives of the Government of India, the Government of the State of Kerala, and the local Chambers of Commerce and Municipalities.

Administrative Officer.—M. S. Venkataraman, B.A.; *Chief Engineer.*—C. V. Venkateswaran, B.E.; *Deputy Conservator.*—B. M. Chokkar; *Traffic Manager.*—Topen Bhose, B.A.; *Chief Accountant.*—A. N. Alyaswami, M.A.; *Secretary & Statistical Officer.*—J. Cyril Raj, M.A.; *Senior Medical Officer.*—Dr. V. K. Menon, M.B.B.S.; *Port Health Officer.*—Dr. K. Bhaskaran, M.B.B.S., D.P.H.

KANDLA

The major port of Kandla now has the following main facilities:—

A Jetty 2,700 ft. long capable of berthing four 600 ft long deep water steamers for discharge or loading of general cargo, packed or in bulk. It has four 6-ton electric quay cranes and more quay cranes are in the process of erection.

Three large transit sheds—450 ft. × 140 ft. each.

Large open transit areas.

Four double-storeyed warehouses 500 ft. × 120 ft. each, immediately behind the transit sheds and areas, with over-bridge connections to the roofs of the transit sheds.

An oil berth capable of taking oil tankers of up to 16,000 tons dead-weight capacity.

A tidal basin 500 ft. × 300 ft. for lighters and sailing vessels, provided with cranes.

A Floating Dry Dock capable of taking vessels of up to 250 ft. length.

Two passenger landing stages for ferries.

The oil berth was brought into use in April 1955; the lighter basin was brought into use in November 1955, the passenger berth for the ferry service between Navlakhi and Kandla was declared open on 1st October 1956 and the floating dry dock was completed in December 1956.

The Government of India have also sanctioned the construction of two additional berths, as a part of the Second Five Year Plan schemes of the Port. Work on these has already commenced.

Kandla port, the first major port to be constructed since independence, will serve a hinterland of 275,000 square miles with a population of 60 millions.

With the opening of the Bhildi-Raniwara railway line, Kandla now has a shorter rail connection with western Rajasthan and southern Punjab. A national highway to connect Kandla with Ahmedabad is expected to be completed by 1960.

Estimated cost of the project: Rs 14,17,25,000. Amount spent on this project till 31st August 1958: Rs. 13,13,66,000.

Statistics of revenue and expenditure of Kandla Port during 1957-58.

Revenue: Rs. 47,95,892-34.

Expenditure: Rs. 35,33,294-46.

The port has at present adequate capacity to handle import and export traffic upto 1.3 million tons per annum.

The traffic at the Port of Kandla during the year 1957-58 was as under:—

- (a) Total imports during the year.. 6,08,978 tons.
- (b) Total exports during the year .. 2,35,277 tons.
- (c) No. of passengers embarked and disembarked by the Navlakhi-Kandla ferry service during the year .. 75,207 incoming; 73,727 outgoing (total: 1,48,934 persons).
- (d) The total of imports and exports during the year.. 8,44,255 tons.

The Major Port of Kandla and the Kandla Port and the Township Projects are under the administrative control of the Government of India in the Ministry of Transport. The Development Commissioner, Kandla is the head of these Organisations. He is assisted by a Port Advisory Committee to advise him on all matters relating to the Port.

The Government of India have decided to establish a free trade zone at Kandla.

Principal Officers.—Development Commissioner, P. N. Saxena; Financial Adviser & Chief Accounts Officer, V. N. Singh; Superintending Engineer (Harbour), M. Ramabrahmam; Superintending Engineer (General), R. B. Sukhrani; Deputy Conservator, Capt. D. V. Singh; Secretary (Town Development), Shrivakumar Dhundaw; Secretary to the Development Commissioner, Dr. R. P. Bhargava.

MADRAS

The Madras Harbour is an artificial one formed by two arms projecting from a low, sandy coast.

The affairs of the Port are administered by a Board of Trustees which function under the Madras Port Trust Act. The Chairman is the Chief Executive Officer of the Board.

The Port is about 3/5 mile square (excluding boat basin, etc.) with an area of approximately 200 acres. Width at entrance 400 ft.; depth of water at entrance at high water 37 ft. and at low water 34 ft. Practically the whole of the enclosed harbour has a depth of 30 ft. at I.S.L.W. There are no navigational difficulties and the Port is approached direct from the open sea.

There is accommodation for 16 vessels inside the harbour 8 at Moorings and 8 at Quays. The depth at moorings ranges from 26 ft. to 30 ft. and at quays upto 31 ft. 6 in. Pilotage is compulsory.

The Income and Expenditure for the year 1957-58 were Rs. 2,78,71,935 and Rs. 2,01,93,920 respectively.

Number of passengers embarked during 1957-58 was 24,636 and of passengers disembarked 34,060.

The chief imports are coal and coke, foodgrains, mineral oils, metals, timber, textiles, machinery, hardware, hides and skins, paper including old newspapers, dyeing and tanning substances, chemical manures, sugar, asphalt, chemicals, cotton, etc.

Ores, piecegoods, hides and skins (raw and tanned), onions, raw tobacco, twist and yarn, mica, etc. form the principal exports.

The export of groundnut oil is also an important item and three oil tanks have been erected for storing the oil.

Statistics showing the growth of the Port from 1952-53 to 1957-58.

Year	Imports		Exports		Total
	Tons		Tons		
1952-53 ..	1,869,082		835,685		2,204,767
1953-54 ..	1,641,315		494,610		2,135,935
1954-55 ..	1,716,301		485,089		2,201,370
1955-56 ..	1,833,874		627,787		2,461,611
1956-57 ..	2,033,402		632,426		2,665,828
1957-58 ..	2,002,938		672,851		2,675,789

Trustees of the Port: Appointed by Government.—G. Venkateswara Ayyar, I.C.S., Chairman; Jagjit Singh, Collector of Customs; A. C. Mukherji, General Manager, Southern Railway; T. K. Palaniappam, M.A., I.A.S., Director of Industries and Commerce; D. Balasundaram, I.A.S., Commissioner, Corporation of Madras; Capt. S. K. Kumartha, Principal Officer, Mercantile Marine Department, Madras; Maj. Genl. B. K. Koochhar, The G.O.C. Madras, Mysore and Kerala Area; A. S. K. Iyengar, Representative of Labour.

Elected by Commercial Bodies, etc.—(Representing Corporation of Madras): P. N. Lakshminipathy; (Representing Madras Chamber of Commerce, Madras): J. R. Galloway and E. F. G. Hunter; (Representing Southern India Chamber of Commerce): A. M. Kuthandarama Reddi, C. K. Duraisvelan, M.A., B.E., J. B. Nayak, M. V. Arunachalam and V. C. Sreeramulu Chetty, J.P.; (Representing the Andhra Chamber of Commerce): Jayantilal P. Sanghrajka and B. Ramalinga Reddy; ((Representing the Indian National Steamship Owners' Association, Bombay): P. Lakshminipathy Naidu.

VISHAKAPATNAM

Vishakapatnam Harbour was created in order to supply an outlet for a large area of fertile country adjacent to the east coast of India, and for Madhya Pradesh with considerable mineral resources and no alternative access to the outside world. In 1933, the harbour was first opened for ocean-going vessels, and ships drawing upto 28 ft. 6 in. and having a length of up to 550 ft. can now enter and leave the harbour at all times of the year. Under favourable states of tide, however, ships drawing 30 ft. can enter or leave the harbour by prior arrangements.

The harbour now provides the following facilities:

The inner harbour consists of a turning basin, four quay berths each 600 feet long and equipped with portal electric cranes, transit sheds, and railway lines, both behind and on the quay-side of the transit sheds and three concrete jetty and wharf berths for coal and oil. Besides, there are four mooring berths which are served by a fleet of lighters owned and operated by the port authorities and shallow water channels with timber jetties for lightering work. The quay berths No. 1 and 2 are specially equipped and reserved for the expeditious handling of manganese and iron ore: on an average, approximately 3,000 tons are loaded in a day.

A 1,200 ft. long quay berth, capable of accommodating two oil tankers simultaneously has been constructed to provide the necessary Port and Harbour facilities for the Caltex Oil Refinery at Vishakapatnam which is in full operation.

A Dry Dock 366 ft. by 60 ft. with a depth of 14 ft. below low water has been in use at the Port for the docking of vessels, but ordinarily only small craft not exceeding 300 ft. in length can be docked.

The Port has floating cranes capable of dealing with heavy lifts up to 50-ton capacity.

Income and Expenditure of the Port for the year 1957-58.

	Receipts		Expenditure	
	Rs.		Rs.	
Port Fund ..	1,43,82,419		93,50,900	
Pilotage Fund	2,09,525		1,57,668	

Statistics showing total imports and exports handled during the five years from 1953-54 to 1957-58.

Year	Imports		Exports		Total
	Tons		Tons		
1953-54 ..	185,824		1,205,015		1,390,839
1954-55 ..	239,510		795,725		1,035,235
1955-56 ..	228,406		1,094,648		1,323,054
1956-57 ..	494,121		995,633		1,489,804
1957-58 ..	1,145,894		1,346,884		2,492,778

The Port is administered by the Government of India, Ministry of Transport and Communications, New Delhi.

Principal Officers.—Port Administrative Officer and Port Conservator.—C. B. Reddy, I.A.S.; **Secretary.**—G. Parthasarathi, B.A.; **Deputy Chief Engineer.**—S. Subbarao; **Deputy Port Conservator.**—E. H. Glasup; **Traffic Manager.**—R. Srinivasan; **Mechanical Superintendent.**—A. W. De Lima.

BROACH PORT

The following are figures for the year 1957-58 :
—Number of passengers embarked and disembarked : Nil.

Imports : 22,710 tons ; Value of imports : Rs. 90,98,745.

Exports : 10,856 tons ; Value of exports : Rs. 26,35,280.

Total income : Rs. 5,239.45 (Customs import duty Rs. 14.16 ; Landing and wharfage fee Rs. 42.88 ; Port dues Rs. 4,993.18).

Customs, Miscellaneous recoveries, Light dues Rs. 189.23 nP.

Total expenditure : Rs. 10,400 (Pay and allowances Rs. 8,800 ; Overtime fees Rs. 1,230 ; Travelling allowance Rs. 370).

MANGALORE PORT

Revenue & Expenditure : The particulars of Revenue receipts and expenditure of funds administered by the Mangalore Port Trust Board during the year 1957-58 were as follows :

	Receipts.	Expenditure.
	Rs.	Rs.
1. Mangalore Port Trust Fund.. .. .	4,06,523	2,39,235
2. Mangalore Port Fund.. .. .	1,00,111	22,605
3. Mangalore Pilotage Fund.. .. .	4,678	4,819

Passengers embarked and disembarked during 1957-58 : 6,974‡ passengers embarked and 6,793 passengers disembarked.

Tonnage of Trade handled (1957-58) (Approx.)

(i) Imports : The Imports during the year amounted to 86,047 (approx.) tons.

(ii) Exports : The Exports during the year amounted to 2,10,903 (approx.) tons.

(iii) The total approximate weight of cargo handled at the Port during the year was 2,96,950 tons.

RAILWAYS

THE total route mileage of all the railways in India on March 31, 1958 was 34,888.87. The total electrified route mileage was 268.86.

The total route mileage is made up of the following:

Govt. railways—34,181.05
Non-Govt. railways—707.82.
The total capital at charge on March 31, 1958 was Rs. 1,228.64 crores.

There are three kinds of gauge, broad (5 ft. 6 in.), metre (3 ft. 3½ in.) and narrow (2 ft. 6 in.). There is also a light gauge usually laid on the mountains (3 ft.). An example of this last is the Darjeeling-Himalayan.

The total route mileage by gauge was as follows:

Broad gauge: 16,246.37

Metre gauge: 15,480.78

Narrow gauge: 3,161.72

The fares (pies per mile) on March 31, 1959 were as follows:—

were as follows:				
Air conditioned	..	{	1—300 (miles)	24
			301 and over	32
Second class	..	{	1—150 (miles)	18
			151—300	16

(Ordinary)	..		"	4½

* For under 50 miles 5

MISCELLANEOUS INFORMATION

There are in all about 6,400 railway stations. In any one day of 24 hours about 7,300 trains cover distances aggregating 562,000 miles.

The goods trains carry 362,000 tons or about 10,000,000 maunds daily. Daily, the railways load about 23,000 wagons.

Railwaymen on the line and those working in yards, sheds, repair shops, workshops and "neck lines" have to maintain and operate a total of over 10,000 locomotives, 24,000 coaching vehicles and nearly 283,000 goods wagons.

The men in charge of the safe operation of trains have to keep in constant good trim roughly 15,000,000 rails laid over 49,500 miles of railway track, nearly 100,000 points and crossings and about 30,000,000 fish plates.

The number of men, women and children who boarded the trains averaged about 4,000,000 daily—an all-time high. The railways carried an average of 3.64 lakhs tons of goods in each 24-hour period, while the loading of goods exceeded a steady average of over 1,000 wagons per hour, all the year round.

Out of every rupee which the railway earned during the year, passengers contributed 31 naye Paise and goods traffic another 61 naye Paise. The balance came from parcels, luggage and miscellaneous sources.

While passengers contributed less than one-third of the total revenues compared to two-thirds from goods traffic, the former utilised major portion of the total rail capacity.

There are 367 stations throughout the country which had book-stalls (Sept. 1958). Of these Messrs. Wheeler and Co. had book-stalls on 240 stations.

There were 101 stations having book-stalls on the Southern Railway; 65 on the Central

Railway; 56 on the Western Railway; 51 on the Northern Railway; 30 on the Eastern Railway; 29 on the North-Eastern Railway; 22 on the South-Eastern Railway, and 13 on the North-East Frontier Railway.

ZONAL ADMINISTRATION

The entire Government railway system is now grouped into eight administrations: the Southern Railway, the Western Railway, the Central Railway, the Northern Railway, the Eastern Railway, the South-Eastern Railway, the North-Eastern Railway and the North-East Frontier Railway.

The headquarters of the Southern Railway are at Madras, of the Western Railway at Bombay, of the Central Railway also at Bombay, of the Northern Railway at Delhi, of the Eastern Railway at Calcutta, of the South-Eastern Railway also at Calcutta, of the North-Eastern at Gorakhpur and the North-East Frontier Railway at Pandu.

Some of these railways comprise smaller systems.

Besides the Indian Government railways, there are nine company railways and one District Board railway.

For these railways see below.

STATISTICS

The principal statistics for the year 1957-58 are given below. The first column shows the position for all railways, the second only for Government railways:

	All Railways	Government Railways.
Capital at charge (Rs. crores)*	1,228.64	1,169.13
Route mileage (March 31)	34,888.87	34,461.88
Gross earnings (Rs. crores)	382.99	361.42
Total working expenses (Rs. crores)	311.16	309.76
Operating ratio (per cent)	81.24	81.21
No. of passengers originating (million)	1,431.06	1,410.18
Passenger miles (million)	43,332.80	43,042.93
Earnings from carriage of passengers (Rs. crores)	120.08	119.10
Average earnings per passenger mile (pies)	5.32	5.31
Freight tons originating (million)	133.37	132.08
Freight ton miles (million)	44,897.44	44,861.39
Earnings from carriage of goods (Rs. crores)	225.72	225.20
Average earnings per freight ton mile (pies)	11.4	11.4
Total train miles (million)	226.06	224.76
Gross earnings per train mile (Rs.)	18.0	18.1
Working expenses per train mile (Rs.)	14.8	14.9
Net earnings per train mile (Rs.)	3.19	3.21
Net earnings per mean mile worked (Rs.)	20.645	20.848

* Exclusive of such projects as Chittaranjan.

Other information about Indian Railways for 1957-58 is given below:—

New Lines opened to Traffic	168.14 miles
Lines under Construction	430.61 miles
Total No. of Locomotives (March 31, 1958)	10,182
No. of Steam Locomotives	9,946
No. of Diesel Electric Locomotives	37
No. of Electric Locomotives	89
No. of Diesel Hydraulic and Mechanical	60
No. of Passenger Carriages (March 31, 1958)	17,967
Total No. of Seats (March 31, 1958)	11,83,285
No. of air conditioned seats	2,580
No. of 1st Class seats	67,901
No. of 2nd Class seats	67,709
No. of 3rd Class seats	1,045,095
No. of Goods Vehicles (March 31, 1958)	246,054
Total carrying Capacity in tons	4,997,827
Total No. of Passengers Carried (Crores)	143.11

No. of A.C.	104,000
No. of 1st Class Passengers (Million)	23.38
No. of 2nd Class Passengers (Million)	14.06
No. of 3rd Class Passengers (Million)	1,393.51
Total Passenger Miles (Crores)	4,533.28
Average Miles per Passenger	30.3
Total Earnings from Passengers (Rs. in Crores)	120.08
Earnings from A.C. Passengers (Rs. Millions)	9.87
Earnings from 1st Class Passengers (Rs. in Million)	66.11
Earnings from 2nd Class Passengers (Rs. in Crores)	5.81
Earnings from 3rd Class Passengers (Rs. in Crores)	106.68
Goods Carried (Million tons)	133.37
Net ton Miles (Crores)	4,489.74
Average Miles a Ton of Goods was Carried	336.7

Total fuel consumed in terms of coal (1957-58) ..	14.01 million tons
Value of stores imported direct (Rs. in Crores) ..	27.10
Value of imported stores purchased in India (Rs. in Crores) ..	36.25
Value of stores of indigenous origin (Rs. in Crores) ..	158.48
Cost of Police and Railway Protection Force (Rs. in Crores) ..	6.14
Total No. of special trains (in 1958) ..	1,776
Special trains for Kisans ..	22
Special trains for Students/Teachers ..	11
Special trains for pilgrims ..	14
Capital at charge, Chittaranjan Works (Rs. lakhs) ..	21.85
Capital at charge, Integral Coach Factory (Rs. lakhs) ..	10.63
Capital at charge, Locomotive component works—Banaras (Rs. lakhs) ..	2.11

STAFF

The total strength of Staff (March 31, 1958) ..	1,116,878
Position on Government Railways :	
Class I and II Staff ..	4,013
Class III Staff ..	428,275
Class IV other than Workshop and artisan ..	508,809
Class IV Workshop, artisan ..	170,429
The total cost of all Staff (Rs. in Crores) ..	172.94
The total cost of Class I and Class II (Rs. in Crores) ..	4.36
The total cost of Class III staff rising to above Rs. 250 per month (Rs. in Crores) ..	9.87
The total cost of Class III staff, rising to not more than Rs. 250 per month other than workshop and artisan (Rs. in Crores) ..	58.46
The total cost of workshop staff plus artisan staff, Class III (Rs. in Crores) ..	27.56
The total cost of Class IV staff other than workshop and artisan (Rs. in Crores) ..	54.21
Class IV, workshop and artisan (Rs. in Crores) ..	18.48
Total cost of workshop and artisan staff Class III or IV (Rs. in Crores) ..	46.04
Man-days lost due to Sickness ..	12,436,588
Man-days lost due to Strikes or Lock-outs ..	15,400
Total Man-days lost ..	12,451,997
Total No. of Female Employees (March 31, 1958) ..	9,325
Class I and II Officers ..	2
Class III Staff :	
Clerks ..	1,936
Stenographers ..	79
Nurses ..	637
Teachers ..	529
Others ..	866
Class IV Staff ..	5,276

ACCIDENTS

Accidents 1957-58 :

	Killed	Injured
Passengers ..	435	3,683
Railway Servants ..	283	28,084
Other Persons ..	365	500
TOTAL ..	1,083	32,267

1. No. of Collisions in which Passenger Trains were involved ..	30
2. No. of Derailment to Passenger Trains ..	216
3. No. of Train wreackings ..	1

4. Attempted Train wreackings ..	77
5. Flooding ..	68
6. Failure of bridges, tunnels ..	3
7. Trains running into road traffic at level crossings ..	161
8. Broken rails ..	43
9. Failure of engine owing to faulty material etc. ..	2,066
10. Derailments not involving passenger trains ..	1,224
11. Fires in trains, stations etc. ..	339
12. Collisions involving goods trains ..	132
Total of all accidents ..	9,168
There were five major accidents during the year.	

On 2nd June, 1957 near Sewri Station on the Harbour Branch of the Electrified Section of the Central Railway two trains collided. Twenty-three persons were killed and sixty-four injured. The damage was Rs. 47,770.

On 19th Aug. 1957 at Palasa Station of the South-Eastern Railway a bogie from a goods train rolled down a gradient and collided with a passenger train, four persons were killed and seventeen injured. The damage was about Rs. 96,400.

On 23rd Nov. 1957 between Padali and Asvalli Stations on the Central Railway a passenger train was derailed. Nine persons were killed and 107 persons injured. The damage was Rs. 1,88,080. An enquiry under the chairmanship of Justice G. D. Khosla found that the accident was due to sabotage.

On 1st Jan. 1958 at Mohri Station on the Northern Railway two passenger trains collided. Thirty-six persons were killed and 88 injured. The damage was about Rs. 3,49,300. An enquiry Commission under Justice B. N. Nigam was set up. But the report has not been published as a case connected with the accident was sub judice.

On 26th Feb. 1958 at Sonarpur Station on the Eastern Railway two passenger trains collided. Five were killed and 47 injured. The damage was Rs. 44,100.

CENTRAL RAILWAY, 1957-58

(Victoria Terminus, Bombay 1)

No. of Goods Wagons (open)	7,669
Tons carried (in thousand)	21,348
No. of staff	1,45,194

BRANCH AND COMPANY RAILWAYS

The eight big railway systems owned by the Government of India comprise in some cases smaller systems as follows:

Central:

1. Ellichpur-Yeotmal, narrow, 118 miles, branch line under rebate terms.
2. Pulgaon-Arvi, narrow, 22 miles, branch line under rebate terms.

Northern:

1. Rupar-Nangal-Dam, broad, 35, jointly owned by the Government of India and the Punjab Government.
2. Mukarvan-Pathankot, broad, 26 miles.

North-East Frontier:

1. Chaparmukh-Silighat, metre, 51 miles, branch line company under guarantee terms.
2. Katakhal-Lalabazar, metre, 23 miles, branch line company under guarantee terms.
3. Darjeeling Himalayan, Mountain railway, 52 miles.

Southern Railway:

1. Cochin Harbour Extension, broad, 4 miles, Cochin Harbour Authority.
2. Tenali-Repalle, broad, 21 miles, District Board, Guntur.
3. Alnavar-Dandell, metre, 19 miles, Government of Mysore.
4. Peralam-Karalkkal, metre, 15 miles.
5. Pondicherry, metre, 8 miles.
6. Nanjangud Town—Chamarajanagar, metre, 22 miles, District Boards of Mysore and Mandya.

Western:

1. Ujjain-Agar, narrow, 42 miles.
- There are 10 non-Government railways, nine of these are company railways and one a District Board railway.

They are all narrow gauge railways.

The District Board railway is the Bhaktiarpur Bihar Light, 33 miles.

The nine company railways are:

1. Ahmadpur-Katwa, 32 miles.
2. Arrah-Basaram Light, 65 miles.
3. Bankura-Damodar River, 60 miles.
4. Burdwan-Katwa, 32 miles.
5. Dehri-Rohas Light, 24 miles.
6. Futwa-Islampur, 27 miles.
7. Howrah-Amta Light, 44 miles.
8. Howrah-Sheakhala Light, 17 miles.
9. Shadara-Saharanpur Light, 93 miles.

RAILWAY BUDGET

(Rupees in Crores)

	Actuals 1957-58	Revised Estimate 1958-59	Budget Estimate 1959-60
Gross Traffic Receipts	379.78	394.38	422.03
Working Expenses	264.18	274.22	283.71
Net Miscellaneous Expenditure	12.56	12.03	17.61
Appropriation to Depreciation
Reserve Fund	45.00	45.00	45.00
Payment to Worked Lines	0.26	0.10	0.11
Total	322.00	331.33	346.43
Net Railway Revenues	57.78	63.03	75.60
Dividend to General Revenues	44.40	50.03	54.41
Net Surplus	13.38	13.00	21.19

Some individual items on the expenditure side are given below:

	(In crores of rupees)
Budget Estimate 1959-60	
Demand No. 4.—Administration	35.47
Demand No. 5.—Repairs and Maintenance	109.89
Demand No. 6.—Operating Staff	66.27
Demand No. 7.—Operation (Fuel)	62.45
Demand No. 8.—Operation other than Staff and Fuel	21.23
Demand No. 9.—Misc. Expenses	26.05
Demand No. 10.—Labour Welfare	9.24
TOTAL	330.60
Credits or recoveries	—46.89
TOTAL	283.71

Other categories of expenditure in Rs. lakhs: Rolling stock: 80.38; track renewals: 38.84; traffic facilities: 40.28; staff quarters: 6.29; amenities for staff: 3.70; passenger and other railway users' amenities: 2.95; new lines: 23.68; electrification: 26.47.

Some individual items on the receipts side are given below:

	(In crores of rupees)
Budget Estimate 1959-60	
Passenger Earnings—	
Upper	13.52
Third	104.78
Other Coaching Earnings	24.00
Goods Earnings	272.58
Other Sundry Earnings	8.40
Total Earnings	423.28
Suspense	—1.25
Gross Traffic Receipts	422.03

The programme of new acquisition under rolling-stock for 1959-60 is given below. They are to be obtained from indigenous sources.

Steam locomotives 220; Diesel locomotives 14; Steam boilers 40; carriages 492; wagons in terms of four-wheelers 14,780.

BUDGET SPEECH

Below we give a few points from the budget speech (Feb. 1959) of the Minister for Railways.

During 1958-59 about 1,500 engineers and supervisors and two lakh workers worked on various projects apart from normal work. Out of a total of 1,848 new lines and doublings under the Plan, 423 lines were opened. Construction was in progress on 525 miles of new line projects. These are: Chandrapura-Muri-Ranchi-Hatia, Bondamunda-Dumaro, Bhilai-Deoighat, Barabill-Pampoh Gorge, Bondamunda-Nowagaon-Purnapani, Damodar-Kalipahari, Bijuri-Karan-nji, Gidi-Saunda-Bachra branch lines in the Jarangdi and Karanpura Coalfields, Kumedpur-Barsoil, Robertganj-Gashwa Road, Ghasia-bad-Tuglakabad including the Second Jamuna Bridge, the remaining 180 miles of the Khandwa-Hingoli and the Baraset-Hassanabad.

In addition 900 miles of doublings are in progress.

The work on strengthening the Assam Rail Link Route is also in progress.

The bridge over the Ganga at Mokameh would be opened to traffic in April 1959.†

Construction on certain new lines has also started.

Such new lines aggregate to nearly 500 miles, and are Udaipur-Himmatnagar, Jhunda-Kandla, Tildanga-Farakka, Khajuriaghat-Malda, the Delhi Avoiding Line and the extension of the rail-head from Madhopur across the Ravi into the State of Jammu and Kashmir. The Guna-Ujjain and Bakhtiarpur-Rajgir links will also be commenced during this year. Other lines included in the Budget Year are the 11½ mile long Sambalpur-Titlagarh line and the link from Bimlagarh to Kriburi; these projects will assist in the export of 2 million tons of iron ore through the Vizag Port.

The construction of three new lines—namely, Mangalore-Hassan, Diva-Dasgaon* and Patharkandi-Dharmanagar links, are under active consideration.

There is an offer of "Shramdan" labour for earthwork, etc. from the Rajasthan Panchayat Sangh, for the construction of a Broad Gauge link between Hindumalkot, a frontier station on the Broad Gauge of the Northern Railway, and Sri Ganganagar on the Metre Gauge.

Provision has also been made for Phase II of the conversion of Gudivada-Bhimavaram-Vijayawada-Masulipatam section of the Southern Railway from Metre Gauge to Broad Gauge, estimated to cost about Rs. 3 crores, and doubling of Rajahmundry-Samalkot section at an estimated cost of Rs. 1.32 crores.

Rolling Stock

The Chittaranjan Locomotive Works produced 164 locomotives in 1957-58, and expect to produce 168 locomotives in the current year and the same number in the next year. A Steel Foundry of 7,000 ton capacity is being set up at Chittaranjan as an essential adjunct to this production unit.

TELCO works delivered 85 locomotives in 1957-58 and are expected to deliver 100 locomotives in the current year and the same number in the Budget year.

The Integral Coach Factory turned out 222 unfurnished coaches during 1957-58. 295 unfurnished coaches are expected to be produced during the current year, while the Factory would reach its present target of 350 unfurnished coaches in the next year with single shift working. With a view to produce more coaches a second shift will be introduced shortly.

The average cost of manufacture has also come down progressively. Against Rs. 1.21 lakhs per unfurnished coach in 1957-58, the cost is expected to be Rs. 95,000 in the current year. The temporary furnishing unit set up within the factory furnished 178 coaches upto November, 1958. It is hoped that this will soon be replaced by a permanent furnishing unit with the capacity to furnish all the coaches turned out.

There has been progressive increase in the production of rolling stock in the country. Against 234 steam locomotives and 15,985 wagons received by Railways in 1956-57, 249 locomotives and 17,731 wagons were received in 1957-58, the number of locomotives going up to 268 in the current year, while another 268 locomotives and 17,900 wagons will be received in 1959-60.

As regards coaches, 474 Broad Gauge, 185 Metre Gauge and 38 Narrow Gauge bogie third class carriages were manufactured and put into service in 1957-58, in addition to 186 Broad Gauge, 195 Metre Gauge and 31 Narrow Gauge composite coaches containing third class accommodation. During the current year, 277 Broad Gauge, 175 Metre Gauge and 4 Narrow Gauge bogie complete third class coaches and 90 Broad Gauge, 183 Metre Gauge and 1 Narrow Gauge composite coaches having third class accommodation were manufactured and put into service upto the end of October, 1958.

A total of 2,008 coaches, in addition to 104 electrical multiple unit coaches, is expected to be received in 1959-60, against a total of 1,538 coaches expected to be received in the current year and a total of 1,248 coaches received in 1957-58.

It may be added here that the Railway Board has placed orders with Indian manufacturers for the supply of 1,750 broad gauge new design 80-ton eight-wheeler bogie wagons, which have been accepted as the standard design for the future (Dec. 1958).

The Indian railways have traditionally been using four-wheeler wagons with a total carrying capacity of 22 tons. The new wagons will have a capacity of 55 tons, and will greatly help in running longer goods trains in India. For the time being their use will be confined to the steel belt in the eastern region.

A provision for a further lot of about 4,000 new design wagons, incorporating the latest development in wagon design, is being made in the 1959-60 rolling stock programme.

With effect from the 1960-61 rolling stock programme, the Railway Board has decided that all open wagons and 50 per cent of the covered wagons will be built as bogie wagons to the new design.

During 1957-58, 71 new passenger trains were introduced—38 on the Broad Gauge, 31 on the Metre Gauge and 2 on the Narrow Gauge. In the current year upto 1st December, 1958, 45 trains were introduced on the Broad Gauge and 13 on the Metre Gauge. The run of 18 Broad Gauge trains, 36 Metre Gauge trains and 2 Narrow Gauge trains was extended in 1957-58, and of 16 more Broad Gauge trains and 28 more Metre Gauge.

A number of new suburban services were also introduced on various Railways. Against 92 new trains on the Broad Gauge in 1957-58, 52 Broad Gauge trains were introduced upto 1st December, 1958 in the current year, while the run of 36 trains was extended, as against 16 trains in 1957-58.

Besides these, 28 electric suburban trains were also introduced on Eastern Railway upto 1st December, 1958, and the run of 8 trains was extended in the current year, against 8 such new trains introduced in 1957-58.

A tri-weekly Janata Express train was introduced between Delhi and Ahmedabad on 1st October, 1958.

With all these new trains and extensions, the daily train mileage will have increased by about 15,000 miles in the two-year period 1957-58 and 1958-59.

A REVIEW 1957-58

The Railway Ministry's annual report for 1957-58, discloses that the records set up in earlier years in regard to goods and passenger traffic handled were improved upon during the year, which was the second year of the Second Five-Year Plan.

New records were set up in regard to several key operating efficiency indices relating, among other things, to better utilisation of wagons.

The traffic increases, however, did not come up to original anticipations, as there was a drop in both passenger and freight traffic in the closing months of the year.

Goods traffic during the year increased by 6.87 per cent and the number of originating passengers by 3.51 per cent over the previous year.

The freight traffic totalled 133 million tons (of which 132 million tons were lifted by the Government railways) and 44,897 million tons miles, as against 125 million tons and 40,255 million ton miles in the previous year.

The number of originating passengers rose from 1,383 million in 1956-57 to 1,431 millions in 1957-58 (Government railways 1,410 million) and passenger miles increased from 42,195 million to 43,333 million.

Wagons loaded on revenue account (excluding those loaded on account of the railways' own service needs) averaged 12,688 per day on broad gauge and 8,354 on metre gauge as against 12,168 and 7,819 respectively during the previous year, showing an increase of 4.28 per cent on broad gauge and 6.84 per cent on metre gauge.

Taking into account non-revenue loading also, an average of 14,971 and 9,330 wagons were loaded every day on the broad and metre gauges as against the corresponding figures of 14,276 (revised) and 8,671 (revised) during the previous year, registering increases of 4.87 and 7.61 per cent respectively.

Receipts and Expenses

Gross traffic receipts of Government railways during the year amounted to Rs. 379.78 crores, made up of Rs. 119.10 crores under passenger traffic and Rs. 229.68 crores under goods traffic, the balance of Rs. 31.00 crores being contributed by parcels, luggage and other miscellaneous sources of revenue. Increases were recorded under both passenger and goods earnings, the latter contributing the major portion, although not to the extent anticipated in the Budget.

The ordinary working expenses amounted to Rs. 264.18 crores. The appropriation to the Depreciation Reserve Fund was Rs. 46.23 crores. Payment to worked lines as their share of net earnings amounted to Rs. 26 lakhs.

The operating ratio was 81.21 per cent as against 79.90 per cent during the preceding year.

There were normal increases in working expenses due to factors such as the net effect of annual increments to staff, the increase in staff and coal to handle the increased volume of traffic, increase in prices particularly of coal, and increased repair and maintenance expenditure to cover the increasing volume of railway assets.

There were also special items of increase, namely an *ad hoc* increase of Rs. 5 in dearness allowance sanctioned by Government from July, 1957 to staff drawing salary up to Rs. 300 per month, special safety measures undertaken to prevent accidents as far as possible, a non-recurring item of premium paid in the purchase price for taking over the financial interests of Salem and Tanjore District Boards in certain sections of the Southern Railway etc.

After meeting all the charges including, Rs. 45 crores as appropriation to the Depreciation Reserve Fund, the net revenue for the year was Rs. 57.78 crores, out of which Rs. 44.40 crores were paid to the General Revenues as dividend under the revised convention of 1954. The net surplus for the year amounted to Rs. 13.38 crores.

The average receipt per freight ton mile was 11.4 pias as against 11.3 pias during the previous year. The average earnings per passenger mile, however, declined from 5.34 pias during 1956-57 to 5.32 pias during 1957-58.

* This is now sanctioned.

† This is now open.

OPERATING EFFICIENCY

Passenger train miles increased during the year by 2.26 per cent to 121.38 million as compared to an increase of 2.78 per cent in passenger miles. Goods train miles totalled 91.01 million, representing an increase of 5.08 per cent over the figures of the preceding year, as against an increase of 11.5 per cent in net ton miles.

During 1957-58, the index of net ton miles per wagon day rose from the previous year's record figure of 570 to 586 on the broad gauge and from 210 to 225 on the metre gauge, an increase of 2.81 and 7.14 per cent respectively, achieved as a result of steady efforts to secure better wagon loading, better wagon usage and by improving wagon availability for meeting the increasing demands on transport *inter alia* by reduction in the free time allowed for loading and unloading of wagons from 6 to 5 working hours with effect from November 1, 1956.

The percentage of wagons under or awaiting repairs in Mechanical and Transportation workshops and sick lines to the total goods stock on line improved on both broad and metre gauges from 3.79 to 3.53 and 5.02 to 3.96 respectively.

The index of net ton miles per goods locomotive day in use or on line also recorded increases of 5.32 and 6.12 per cent on the broad gauge and of 6.87 and 5.87 on the metre gauge, respectively.

The report also brings out the fact that the mileage performed daily on an average per wagon on the metre gauge increased but showed a slight decrease on the broad gauge.

The speeds of goods trains were generally affected by increased density of traffic, particularly on sections already working to full capacity and on account of extensive remodelling works undertaken on practically all the railways.

On broad gauge the speed was 9.28 miles per hour as against 9.60 in 1956-57. On the metre gauge it was 8.23 as against 8.27 in 1956-57.

The punctuality of mail and important passenger trains recorded an improvement on the metre gauge system, the percentage of trains not losing time having increased from 62.74 in 1956-57 to 75.44 in 1957-58. On the broad gauge also, there was a slight improvement from 70.79 to 70.81.

SELF-SUFFICIENCY

The year saw further progress made in the direction of self-sufficiency in rolling stock. Chittaranjan produced 164 WG locomotives, making a total of 320 locomotives since the commencement of the Second Plan and 668 since the commencement of production in November 1950.

The production of coaches at the Integral Coach Factory, Perambur (near Madras), was 222 during the year under review, making a total of 310 coaches during the Second Plan period at 322 since the commencement of production in 1956.

There has also been substantial progress in the output of wagons and coaching underframes from established wagon-builders within the country. Out of 29,834 wagons of all gauges placed on the line during the year 1957-58, 17,216 were from indigenous sources. Similarly, out of a total of 1,408 coaching vehicles only 164 vehicles were imported.

Mechanical signalling equipment is now largely made in the country and the industry has almost doubled its output in recent months.

Plans were also worked out for simultaneous development of electrical signalling equipment both in the private and public sector.

A nucleus development co-ordinating cell under the Stores Directorate in the Railway Board's office, set up in 1956 as recommended by the Railway Equipment Committee, was entrusted with the task of developing indigenous capacity for such items as are generally imported or for which sufficient capacity does not exist

in the country. Indigenous capacity was located for seven items of pressure castings and for both steam pressure gauges and vacuum gauges. Considerable developmental action was being taken to foster manufacture of miscellaneous items of equipment in the country, such as track materials, particularly production of rails and cast iron sleepers, train lighting equipment, for example dynamos, switch-gear batteries, etc., and headlights of locomotives.

CONSTRUCTION WORKS

New lines aggregating 168 miles were opened to traffic and the electrification of Howrah to Bandel and Sheoraphuli to Tarakeswar, a distance of 46 miles on the Howrah Division of the Eastern Railway, was completed and electric suburban trains were introduced on these sections. Work was also in progress in regard to the construction of about 555 miles of several other railway lines.

New lines opened were: Khandwa-Takal (Central), Hingoli-Kanhergaon (Central), Barhan-Awarah (Northern), Lado-Lekhapani (N.E.), Quilon-Kottayam (Southern), Raniwara-Abildi (Western).

Works in connection with the remodelling of a number of yards on various railways were either completed or were in progress and major doubling of lines aggregating to 167 miles were sanctioned during the year.

A total of 2,478 track miles were renewed, making a total of 4,416 since the commencement of the Second Plan period.

A large number of improvements to signalling and safety works and works in connection with line capacity were carried out. Considerable advances were also made during the year on improvements in signalling standards.

The report refers to the progress made during the year on the Ganga Bridge project at Mokam, on the new Gandak bridge for double metre gauge track, and on the preliminaries for the Brahmaputra bridge in Assam. Several bridge strengthening and protection works were also undertaken on different railways.

A special organisation was set up on each railway for making a review of bridges under a Deputy Chief Engineer. Joint committees of engineers were also formed in all the State authorities. A scheme was drawn up for enlisting the co-operation of villages in communicating timely information of abnormal occurrences such as heavy local rainfall, threatened breaches of tanks, heavy floods etc. to the nearest railway station.

About electrification, 154 stations were electrified. Electric train service started on the Howrah-Sheoraphuli and Howrah-Bandel sections in Dec. 1957.

PASSENGER AMENITIES

The provision of amenities for passengers and other railway users at stations and in trains continued to receive special attention. The expenditure on such amenities totalled Rs. 3.24 crores during 1957-58. Instructions were issued to railways to try, as an experimental measure, on one pair of long distance Janta trains a scheme for the earmarking of separate accommodation for passengers travelling over various specified distances. During the year, this facility was provided on four pairs of Janta trains on the Central, Eastern, North-Eastern, Southern and Western Railways.

A total of 1,408 new coaching vehicles were placed on the line, of which 1,091 were lower class coaches built to improve specifications. In addition, 1,101 third class coaches were fitted with fans. Sleeping accommodation in the third class was extended to six more pairs of trains.

Other amenities included the provision of camping coaches at selected stations where there are no retiring rooms, provision of electric lighting on passenger platforms, station buildings, waiting sheds, approach roads, and circulating

areas, the electrification of 154 stations, the provision of additional platforms and extensions and improvements to several others.

INVESTMENT, STORES

The total investment on all railways on March 31, 1958 amounted to Rs. 14,41.52 crores including lines under construction, of which Rs. 14,35.32 crores represented the investment on Government railways from different sources viz. capital (loan account) Rs. 12,22.44 crores, depreciation reserve fund Rs. 60.25, Development Fund Rs. 99.86 crores and railway revenues Rs. 53.24 crores. The balance of Rs. 6.20 crores was the capital raised by companies and district boards.

Total purchases by the railways during 1957-58 touched a new level of Rs. 221 crores, registering an increase of Rs. 50 crores or 29 per cent over the figure of Rs. 171 crores during 1956-57. Indigenous materials accounted for Rs. 159.48 crores. Stores worth Rs. 27.10 crores were imported direct while Rs. 36.25 crores worth of foreign stores were purchased through agents in India.

The purchase of Khadi amounted to Rs. 62 lakhs as against about Rs. 54 lakhs in the preceding year. The value of purchases of cottage and small scale industries' products was of the order of Rs. 3.58 crores.

The value of railway equipment and stores ordered by the railways during the year amounted to Rs. 292.04 crores, of which Rs. 91.57 crores worth of stores were ordered directly by the Railways and Rs. 86.79 crores worth were ordered by the Railway Board. Orders for stores valued at Rs. 81.83 crores were placed through the Ministry of Works, Housing and Supply and Rs. 31.85 crores worth of stores through other Ministries.

STAFF MATTERS

The Indian Railways are the largest single employers in the country. The total number of staff on Government railways—permanent, temporary, open line and construction was 1,111,026 on March 31, 1958, as against 1,056,692 (revised) on March 31, 1957.

Salaries including allowances, provident fund contribution and gratuity paid to the staff of the Government railways during 1957-58 totalled Rs. 172.94 crores as against Rs. 156.32 (revised figure) crores in the previous year. The increase was chiefly due to the increase in the number of staff, an *ad hoc* increase of Rs. 5 in dearness allowance to the staff drawing a basic salary upto Rs. 300 per month with effect from July 1, 1957 etc., and partly due to redistribution of posts in different grades with retrospective effect.

A pension scheme as for civil services of Government was introduced on the railways in substitution of the existing retirement benefits under the State Railway Provident Fund. In the case of Class IV employees an additional gratuity of Rs. 200 per year of qualifying service in excess of 30 years, subject to a maximum of Rs. 1,000, has also been allowed.

During the year, 15,006 quarters for various categories of staff were constructed, making a total of 24,651 from the beginning of the Plan period.

The medical organisation of the railways at the end of the year consisted of 76 well-equipped and adequately staffed hospitals and 440 dispensaries with 3,950 beds for railway employees and their families. During the year, six new health units, 407 additional indoor beds, and six mobile vans were provided.

A contribution of two rupees per employee was made from railway revenues to the Staff Benefit Fund during the year. To enhance non-official representation and power of Staff Benefit Fund committees, the composition of these committees at the headquarters of each Railway was modified and recognised unions were given representations on these committees.

Other Matters

The Railway Service Commissions at Allahabad, Bombay, Calcutta and Madras received 760,916 applications for class III posts during the year 1957-58. 323,396 applicants were called for written tests and, or interviews, held at 276 different centres throughout the country. The total number of posts filled in was 84,046.

Vigilance organisations on the railways intensified their activities during the year. As a result of departmental action, punishments were imposed in 764 cases. Arising from these 162 persons were either dismissed or removed from service.

The railways settled 489,115 claims during the year, compared to 492,962 during 1956-57. The number of claims which remained outstanding at the end of the year stood at 44,837 as against 57,096 (revised) during 1956-57, showing a decrease of 12,259 cases. The average time taken in the settlement of a claim was 49 days as against 52 days in the previous year.

The net amount paid on account of goods or parcels lost or damaged during the year was Rs. 8.27 crores against Rs. 8.33 crores in 1956-57.

The number of suits filed and those remaining at the close of the year were 38,992 and 19,617 respectively.

Relations between railway administrations and labour were generally satisfactory.

The Permanent Negotiating Machinery set up in 1952 with a view to maintaining contact with labour and resolving disputes and differences which may arise between staff and the Administrations continued to function satisfactorily during 1957-58, and dealt with a number of issues raised by organised labour. The machinery at the second and third tiers resumed functioning.

The National Railway Users' Consultative Council met once during the year and discussed a variety of important subjects. At the railway level, the Railway Users' Consultative Committees representing local interests, held in all 106 meetings.

The Kalighat Falta Railway (26.05 mile narrow gauge line) owned by a company was acquired on March 31, 1957.

The number of complaints received during the year was 41,846 as against 38,189 in 1956-57.

Theft and damage to fittings was estimated at Rs. 1,490,801 as against Rs. 1,760,855 in 1956-

57. The major item here was dynamo belt. Loss due to theft of railway property from workshops and stores was estimated at Rs. 1,78,487 as against Rs. 1,66,654 in 1956-57. Theft of property entrusted to railways for safe carriage, the number of cases was, in running trains 12,194, yard thefts 1,106 and goods shed thefts 841.

The loss on account of floods and cyclones was about Rs. 34.21 lakhs.

The number of passengers detected without tickets was for 1957-58 and 1956-57 respectively, 6,279, 507 and 7,353, 340. The amount of fare and excess charges realised was Rs. 1.43 crores and Rs. 1.58 crores.

The Central Ticket Checking Organization set up in January 1957 found that the percentage

of ticketless travel was about 4 and the consequent loss to the revenue of the order of Rs. 4.5 crores.

Special measures taken were: flying squads for surprise checks, special magistrates for summary trials, plain clothes travelling ticket examiners, improvement in booking arrangements.

The total number of persons detected travelling in women's compartment in 1956-57 was 1,813 and in 1957-58, 502.

Out of the total for 1956-57 and 1957-58, 1,801 were prosecuted. Out of these 1,796 were fined and five awarded jail sentences.

SECOND FIVE-YEAR PLAN

Rs. Crores

Head	Plan	1956-57	1957-58
Rolling stock	380	93.75	84.38
Workshop and sheds	65	3.41	4.76
Plant and Machinery	100	4.13	4.13
Track Renewals	24	19.41	33.66
Bridge works	9	0.75	3.20
Ganga Bridge	186	2.38	2.38
Line Capacity Works	25	15.80	30.09
Signalling and Safety Works	30	1.58	2.08
Electrification	50	4.08	13.78
Staff quarters and welfare	15	8.13	11.03
Passenger amenities	66	3.91	3.24
New lines and restorations	21.5	8.39	18.24
Other Structural Works	10	5.05	8.71
Investment in road services	1125.0	1.45	0.46
Total (Includes other items)		179.09	250.66

The outlay for 1958-59 was expected to be Rs. 245.25 crores; the budget provision for 1959-60 is Rs. 235 crores.

It is expected that the railways would be able to handle the Plan target of 162 million tons in 1960-61.

Upto March 1958, a total amount of Rs. 26.39 crores was withdrawn out of the 90 million dollar (Rs. 42.8 crores) loan agreed to by the World Bank on July 12, 1957. In addition, 1,340 metre gauge type wagons and 12 broad gauge diesel rail cars with spares were received from Australia under the Colombo Plan and rails, fish plates etc. and pig iron worth Rs. 4.82.65 lakhs

were received under the United States T.C.M. aid programme.

During the year, the second year of the Second Plan a sum of Rs. 250.66 crores was spent against Rs. 179.09 in the previous year. Increased operational efficiency, rehabilitation of depleted assets and modernization programme received consistent and sustained attention.

ROADS

THE position of extra-municipal roads metalled and unmetalled as on March 31, 1956 (latest available) was as follows (in miles):—

Metalled				Unmetalled	Total
Bituminous	Concrete	Water-bound macadam	Total surfaced		
23,877	2,363	90,377	121,617	195,051	316,668

The mileage of the national highways is 13,800. The four great trunk roads are 5,000 miles long.

The four great trunk roads, stretching diagonally across the country form the framework with which most of the important subsidiary roads are linked. The most famous is the ancient marching route—known as the Grand Trunk Road—which stretches right across the northern part of the country from Delhi to Calcutta; the other three connect Calcutta with Madras, Madras with Bombay and Bombay with Delhi, and the four of them together account for about 5,000 out of the 121,617 miles of surfaced roads in the country.

The national roads are not "all weather" roads according to modern standards. The Madras-Calcutta Road in particular is far from being bridged throughout its entire length. The missing bridges will not be complete till 1967.

As regards subsidiary roads, the best and most numerous are in South India. The worst served regions are Rajasthan and parts of the Punjab on the one hand, and Orissa and West Bengal on the other, the former owing to its aridity and sparse population, and the latter because of the numerous unbridged and mostly unbridgeable waterways which traverse it. In addition there are numerous other parts of the country, such as the lower Himalayas, which suffer from a dearth of communications owing to difficult terrain.

Besides surfaced roads, there is a very large mileage of "kutchas" roads amounting to approximately 195,051 miles, some of which are good for motor traffic during the dry weather. Of the total length of kutchas roads, 38,139 miles or nearly 20 per cent were constructed under the Community Project and National Extension Schemes during the First Five Year Plan ending March 1956.

The road mileage per 100,000 persons is 82, and per square mile 0.25.

TRANSPORT BODIES

The department in the Central Government which deals with the overall direction of the roads plan and co-ordination of State planning is the Roads Wing under the Ministry of Transport and Communications. The chief official is the Consulting Engineer (Road Development) who is also Joint Secretary to the Ministry of Transport and Communications.

The Roads Wing gives technical advice and arranges for the allocation of Central Road Fund reserves among the States.

An inter-State Transport Commission has been set up to develop, co-ordinate and regulate operation of motor vehicles in area or route common to two or more States. The present Chairman of the Commission is Mr. T. G. N. Ayyar, I.C.S.

For proper and planned development of transport as a whole and to ensure co-ordination between the various modes of transport on the one hand and the central and State transport policies on the other, Government of India have decided to set up three new transport bodies. They are the Transport Development Council, the Road and Inland Water Transport Advisory Committee, and the Central Transport Co-ordination Committee. These are to replace the Transport Advisory Council constituted in 1935, the Central Board of Transport and the Standing Committee of the Central Board of Transport.

The Transport Development Council will be a high-level body to advise the Government of India on all matters of policy relating to roads, road transport as well as inland water transport. The Council will also advise on problems relating to co-ordination between different forms of transport that may be referred to it by the Government of India.

The membership of this Council will be restricted to Transport Ministers of the States and Lt. Governor and Chief Commissioners of the Union Territories. From the Centre, the Ministers of Transport and Communications, Commerce and Industry and Railways, Minister of State in the Ministry of Transport and Communications, Deputy Minister of Transport and Communications and member in charge of transport in the Planning Commission will be its members.

The Union Minister of Transport and Communications will be the chairman of the Council and the Transport Secretary to the Government of India will act as its Secretary. The Council will meet at least once a year.

The Road and Inland Water Transport Advisory Committee will be set up to discuss problems relating to roads, road transport and inland water transport and to make recommendations to the Transport Development Council for final decisions. The Committee will consist of official and non-official members and the Minister of State in the Ministry of Transport and Communications will be its chairman.

The Central Transport Co-ordination Committee will be constituted in the place of the Standing Committee of the Central Board of Transport and will deal with the day-to-day transport problems confronting the different ministries of the Government of India. The Transport Secretary to the Government of India will be the chairman of this Committee.

The Government of India has also prepared a pilot scheme for setting up transport co-operative societies. To begin with, five such societies are to be set up one each in Bombay, Madras, West Bengal, Kerala and Delhi.

The objective of the scheme is twofold; to bring more vehicles on the road; and to find employment for the educated unemployed.

The co-operative societies will be under the control of the State Government. Financial assistance by way of loans will be granted to the societies by the Government of India. The cost of training of the members of the co-operative societies would also be borne by the Central Government.

The membership of the co-operative societies will be restricted to workers, like drivers, mechanics, booking clerks, depot managers, etc.

On the basis of five persons to man one vehicle, each co-operative society will have 50 members. Each member will be required to contribute Rs. 1,000 towards the capital of the society.

ROAD FUND

The first all-India move for road development came in 1928 when the Road Development Committee presided over by the late M. R. Jayakar recommended the creation of a Road Development Fund out of a two-anna share per gallon of the proceeds of the import and excise duties on motor spirit, whose unexpended

balances should not lapse at the end of the financial year. The share was later raised to two and a half annas per gallon.

Upto the end of March 1956 total receipts in the Central Road Fund since its inception were about Rs. 57.43 crores and those in the Central Road Fund Reserve since its inception were about Rs. 11 crores.

In the beginning of 1959 the annual revenue accruing to the Fund amounted to roughly Rs. 5½ crores including credits to the Special Reserve of about Rs. 1 crore per annum. For the first 15 years after its inauguration, the Central Road Fund was the main source of revenue for the construction of new roads or the improvement and modernisation of existing ones. However in the beginning of 1959 this Fund represented hardly 6 per cent of the total tax revenue from motor transport, 10 per cent of the total expenditure on original road works provided for in the Second Five Year Plan and 7 per cent of the gross expenditure on roads inclusive of the maintenance cost of the road system.

On the administrative side roads except for the small mileage of National Highways described later are a State subject and may be divided into two main classes, State Roads under the Public Works Department and Local Roads in charge of local bodies.

NAGPUR PLAN

Following persistent representations from the Indian Roads and Transport Development Association of Bombay, the need for a more adequate programme of road development than could be carried out from the Central Road Fund was accepted by the Government of India in 1943.

In December 1943 the Chief Engineers of the various States met in conference at Nagpur and evolved a road plan based on the minimum needs of the country. Adopting as their objective the very modest proposition that no village in a well-developed agricultural area should remain more than 5 miles from a metalled road, the Chief Engineers recommended the increase of Indian Union's road mileage from 220,000 to 331,000 of which 123,000 miles would be metalled.

The net increase in road mileage under this Plan, now known as the Nagpur Plan works out at 50 per cent.

Five-year programmes for commencement from April 1947 and representing varying proportions of the Nagpur scheme were prepared by the States for their respective areas as part of their post-war reconstruction programmes.

These Programmes, exclusive of National Highways were estimated to cost nearly Rs. 120 crores over a five-year period, and were intended to embrace the construction or improvement of 80,000 miles of roads as under:

State & District Roads.

Mileage improvement	33,393
Mileage, new construction	17,509

Village Roads.

New construction & improvement ..	30,098
-----------------------------------	--------

Progress in the implementation of this post-war reconstruction Plan was however most disappointing.

During the eight years ending March 1951, India's road mileage increased by just 28,599 miles or roughly 13 per cent. Thus at the beginning of the First Five Year Plan, India had 248,509 miles of roads, of which 97,546 miles were metalled and the remaining 150,963 miles unmetalled.

FIRST FIVE YEAR PLAN

A provision of Rs. 156 crores was made for road development during the First Five Year Plan period ending March 1956. Physical achievements during the 5-year period consist of 24,071 miles of new metalled roads, and 44,088 miles of new unmetalled roads, making 68,159 miles of new roads in all. In addition 17,311 miles of existing roads were also improved to better standards. Of the new roads, 23,900 miles were constructed by Public Works Departments or Local Boards, while 44,259 miles were constructed by Community Project and N.E.S. Administrations.

At the beginning of the Five Year Plan, the mileages remaining to be constructed, in order to reach the targets of the Nagpur Road Plan, were 25,454 miles of metalled roads and 57,037 miles unmetalled roads, making a total of 82,491 miles in all.

SECOND FIVE YEAR PLAN

The provision for road development in the Second Five Year Plan is Rs. 269 crores, against Rs. 156 crores in the First Plan. Details are as under:—

(Rs. in Crores)

	2nd 5-Year Plan April 1956 to March 1961	1st 5-Year Plan April 1951 to March 1956
National Highways ..	55	27.00
State Roads financed by the Union Government ..	9	4.24
Central Aid for roads of inter-State or economic importance ..	18	10.00
State Roads ..	162	89.75
Central Road Fund ..	25	25.00
Total ..	269	155.99

During the Second Plan it is expected that 22,000 miles of metalled roads and 40,000 miles of unmetalled roads will be added to the road system, thereby completing the Nagpur Plan in terms of total mileages, taking India as a whole but the actual position will be that a few areas will have road systems slightly larger than the minimum size laid down in the Nagpur Plan while many other areas will still be short of the Nagpur targets. Moreover at the end of the Second Plan there will be hundreds of unbridged river crossings whose number, on National Highways alone, will be 56.

Progress of road development in the first three years of the Second Plan, i.e. from April 1956 to March 1959 is lagging behind schedule except in Assam, Bombay, Kerala, U.P. and Bengal. Consequently the expenditure in these three years is estimated at no more than Rs. 140 crores against a targeted expenditure of Rs. 269 crores for the whole of the Second Five Year Plan.

NATIONAL HIGHWAYS

The Central Government, as part of their contribution towards post-war development accepted liability for the construction and maintenance of the National Highways with effect from 1st April 1947.

On 1st April, 1947 the total length of the roads provisionally accepted as national highways was 13,400 miles. Subsequent on partition and the integration of the former princely states with the Indian Union the total length of these roads increased to about 13,800 miles. On the 1st of April 1947 the selected national highway routes had approximately 1,600 miles of missing road links and thousands of missing culverts and bridges out of which about 150 were bridges on large rivers. In addition, about 9,000 miles of these roads had low-grade surface.

During the 5 years ending March 1956, 636 miles of missing links and a large number of culverts and bridges including 30 major bridges were constructed, about 4,000 miles of existing sections improved and provided with one lane asphalted carriageway, and about 400 miles of the improved sections made fit for two-lane traffic.

About 1,200 miles of missing links and new diversions (including 614 miles in progress at the end of the First Plan period) were proposed to be taken in hand under the Second Plan. Out of these 1,200 miles, about 900 miles are expected to be constructed during the Second Plan period. The balance of work will be carried over to the Third Plan period. With the con-

struction of 900 miles of new lengths in the national highways system, the actual length of National Highways will rise from 12,900 miles as at the end of the First Plan period to 13,800 miles by the end of the Second Plan period. That is to say, all missing road links in the national highway system are expected to be constructed by the end of the Second Plan period.

Besides the construction of the missing links, it is proposed to take in hand during the Second Plan period the construction of 116 major bridges (including 42 bridges in progress at the end of the First Plan), the improvement and asphalted of 4,700 miles of existing sections (including 3,000 miles in progress at the end of the First Plan) and the widening of 3,300 miles (including 300 miles in progress at the end of the First Plan) of the improved sections of National Highways to two-lane carriageway. It is expected that during the Second Plan period, 60 major bridges will be completed and 1,500 miles of improved sections widened to two-lane carriageway. Work on the improvement and asphalted of 4,700 miles of existing sections of National Highways is expected to be completed during the Second Plan period.

NEW ROAD PLAN

Now that the Nagpur Road Plan of 1943 is nearing completion a new assessment of India's needs for the next 20 years has been undertaken by the Chief Engineers at the instance of the Government of India and a new Road Plan has been prepared for execution during the 20-year period from 1961 to 1981.

The broad outline of the plan is to raise the mileage of roads from 3.79 lakhs in 1961 to 6.57 lakhs by 1981 with provision for two lane carriage-ways on National Highways. The Plan aims at doubling the intensity of roads from 0.26 to 0.52 per square mile of territory. When the plan is completed the average distance from a village in an agricultural area to a metalled road will be reduced from five to three miles and the distance to an unmetalled road will be reduced from two to 1½ miles.

There is also a provision to have 1,000 miles of Expressways with limited access and also grade separation at most of the crossings.

The cost of this scheme is estimated at Rs. 4,700 crores and it is recommended should be split up between four 5-year periods as under:—

1961-62 to 1965-66 ..	Rs. 470 crores
1966-67 to 1970-71 ..	Rs. 940 "
1971-72 to 1975-76 ..	Rs. 1,410 "
1976-77 to 1980-81 ..	Rs. 1,880 "

MILEAGE OF EXTRA-MUNICIPAL ROADS IN INDIA AS ON 31st MARCH 1956.

(Including Community Project & N.E.S. Roads).

* Prior to re-organization.

REVENUE FROM MOTOR TRANSPORT

In 1957-58 the expenditure on roads, it is estimated, amounted to Rs. 80 crores made up of Rs. 55 crores on construction works and

Rs. 25 crores on road maintenance. The Governments at the Centre and in the States realized in the year an amount of Rs. 89 crores from motor transport, as under :—

	Revenue, approx. 1957-58 (Rs. in Crores)
Central Revenue.	
Motor Spirit and Diesel Oil Duties	34.40
Tyre Excise and Import Duties	6.90
Vehicle Parts Imports Duties	15.16
	<hr/> 56.46
State Revenue.	
Vehicle Taxes and Petrol Sales Taxes, etc.	32.98
	<hr/> 89.44

MOTOR VEHICLES

The number of motor vehicles in use in India in March 1957 was 459,447. In terms of the population of the country, this represents 89 vehicles per lakh of inhabitants.

The 459,447 vehicles operating in India in March 1957 were distributed among the various States as shown in the table on next page.

STATEMENT SHOWING THE NUMBER OF MOTOR VEHICLES ON THE ROAD IN INDIA ON 1st APRIL 1957.

Name of State	Motor Cycles	Auto-Rickshaws	Jeeps	Private Motor Cars	Motor Cabs	Other Public Service Vehicles	Goods Vehicles	Miscellaneous vehicles††	Total

* Including Jeeps.

** Excluding Telangana area.

†† Auto rickshaws included in miscellaneous vehicles.

† Includes 357 private buses and 1,564 tractors.

NATIONALISED TRANSPORT

Programmes for nationalisation of road transport have occupied a prominent place in the plans of State Governments from 1946 onwards. In April 1951 nationalised bus services had a total fleet of about 8,000 vehicles. By the end of the First Five Year Plan, i.e., in March 1956, the total number of such vehicles increased to approximately 11,000 representing about 27 per cent of the passenger services in the country and 2 per cent of freight transport.

Nationalised bus services are estimated to cover in 1958 the whole of Bombay State and Himachal Pradesh as they existed prior to the States' re-organisation.

No nationalisation has taken place in Tripura but in the remaining parts of the country the extent to which services have been nationalised varies from one State to another, some having started only experimental nationalisation while in others anything up to half of the bus services are under State ownership.

Uttar Pradesh, which, next to Bombay, has the largest nationalised fleet, operates buses on half the mileage of metalled roads of the State, spread over, more or less uniformly, from one end of the State to the other. Nationalised buses in U.P. represent a little over one-third of the total number of buses in operation. Next in importance is the area covered by the old Hyderabad State where roughly half the bus routes were operated by the nationalised services. In Travancore-Cochin, now part of Kerala, arterial routes covering a mileage of 700, out of 4,500 miles of motorable roads in Travancore and Cochin were operated by State buses. In Madras, nationalisation is confined to the limits of Madras City. Likewise West Bengal has nationalised transport in and around the city of Calcutta in addition to the Cooch Behar area. In Bihar, State services operate in areas around Patna, Jamahadpur, Gaya, Ranchi, Monghyr and Bhagalpur. In Orissa they are operated around Puri, Bhubanashwar, Balasore, Berhampur and Koraput. Similarly in Punjab, Jullundur, Ambala and Amritsar are centres of nationalised

services. In addition to the City of Delhi nationalisation has also taken place in parts of Assam, Madhya Pradesh, Rajasthan and Mysore.

Freight transport is operated by certain State Transport organisations such as those in Assam, Bombay, Uttar Pradesh, Jammu & Kashmir and Himachal Pradesh. While these freight lorries as a rule operate on charter basis or on scheduled parcel services without monopoly, the State Transport in Assam has a monopoly of the truck traffic on 68 miles of roads and the entire goods traffic in Himachal Pradesh is a State monopoly.

Expansion of nationalisation during the Second Plan period ending March 1961 will be confined to passenger services. The allocations in the Second Plan will permit of the number of nationalised vehicles being increased from 11,000 to 16,000. Of the additional 5,000 vehicles, 781 are expected to go to Bombay, 753 to West Bengal, 460 to Travancore-Cochin (now Kerala), 430 to Bihar, 334 to Delhi, 278 to Orissa, 237 to Assam and 101 to Uttar Pradesh.

INLAND WATER-WAYS

IN pre-railway days inland navigation played an important role in the transport system of the country. The decline began with the construction of railways in 1855. While the railways received every assistance the water transport was allowed to languish.

Part of the reason for the decline was that large volumes of water were drained off for irrigation thus helping to depress the level of the water. This happened more particularly on the Ganga.

Inland water transport has remained essentially within the sphere of State control. To some extent this is inevitable. Short distance waterway cannot be usefully controlled by a Central authority.

But the position of water-ways traversing more than one State or connecting economically important regions with major ports appears to be different. The State Governments may not have the necessary resources for development. Whether inland water transport can compete with other quicker modes of transport is doubtful. But there are regions such as Assam, for example, where the economy depends to a great extent on water transport. There are also areas where water transport can help relieve congestion in rail transport.

It has come to be recognised that the most rational way to deal with a river is to treat it as a unit from the source to the mouth irrespective of administrative boundaries. Also the utilisation of the water resources of a river should, as far as possible, be on a multi-purpose basis.

Some canals constructed for irrigation have included provision for navigation.

The present constitution, therefore, provides for control by the Central Government of navigation on inter-State rivers and national water-ways. Besides, the Central Water and Power Commission has assisted in the co-ordinated multi-purpose development of the water resources of the country.

The Inland Steam Vessels Act of 1947 was amended in 1951 so that now there is compulsory registration of all inland steam vessels.

Government set up the Ganga-Brahmaputra Water Transport Board in 1952 which co-ordinates and stimulates the navigational activities of the States of U. P., Bihar, West Bengal and Assam.

The whole problem of the development of inland water transport is now under examination by an Enquiry Committee under the chairmanship of Mr. B. K. Gokhale, I.C.S. (Retd.)

Looking back on the state of navigation on the main rivers about a hundred years ago, it is noticed that large steamers plied on the Brahmaputra upto Dibrugarh; on the Ganga as far as Gurmukteshwar, over 700 miles above Patna; and Kanpur, *en route*, presented the appearance of a large port; on the Yamuna as far as Agra; and on the Ghagra, only 30 years ago, a regular service was maintained upto Ayodhya, 200 miles upstream of its confluence with the River Ganga.

Today long stretches of rivers formerly navigable have become shallow and are not used for navigation. Navigation can be restored only by deepening the channel or by using craft specially designed for shallow waters.

PRESENT POSITION

At present steamers ply regularly on the Brahmaputra river upto Desangmukh but on the Ganga as far as Patna only with feeder services upto Buxar on the Ganga and Barhaj on the Ghagra.

There are other parts of the country where canal navigation is still active. In Andhra and Madras States for instance, the Godavari Canals, including the Dummaguda Canal, the Kistna Canals, the Buckingham Canal and the Vedaranyam Canals are important highways for water-borne traffic.

The Godavari and Kistna Delta canals in Andhra are indeed an important means of transport in that region and afford a cheap and ready mode of access to all markets.

The Buckingham Canal in Madras has played an important part in the trade of the country traversed by it, and in particular during the last war when the traffic was heavy it afforded appreciable relief to the railways.

On the west coast in Kerala the backwaters form the chief means of communication and transport.

In Orissa, too, there are some 200 miles of navigable canals in use.

Then there are the important water-ways of West Bengal, comprising besides the delta river system, also the canals around Calcutta.

The records of imports and exports into and from Calcutta show the extent to which the largest seaport in India depends upon its waterway communications. Post-partition figures show that 12 per cent of the trade of the port arrives and leaves by water-ways.

By far the greater proportion of the water-borne traffic of the country is carried by the unorganised country-boats. Reliable figures are not available as to the total ton-miles of traffic thus moved.

It has been estimated, however, that this would amount to only about one per cent of the total railway traffic of the country.

The approximate length of navigable waterways at present in India is as follows:—Uttar Pradesh 745 miles; Bihar, 715 miles; West Bengal, 777 miles; Assam, 920 miles; Orissa, 287 miles; Madras and Andhra, 1,700 miles; Total, 5,144 miles.

The above mileages are approximate and take into account only the main water-ways navigable by steamers and large country-boats. They do not include the numerous tidal creeks on the coasts which are not connected to an inland water-ways system.

Out of 5,144 miles of navigable water-ways 1,762 miles are navigated by steamers, details of which are given below:—

	Miles
River Ganga—Patna to Lalgaola (Border)	315
Patna to Buxar (Feeder service)	100
River Ghagra—Confluence Ganga/Ghagra to Barhaj	97
River Hooghly—Calcutta to Sundarbans (Border)	150
River Brahmaputra—Dibrugarh to Dhubri (Border)	400
(Feeder services on tributaries)	375
(Feeder service in Surma Valley)	85
River Bhagirathi—Calcutta to Ganga River (during rains only)	180
River Brahmaputra—Dibrugarh to Sadiya (during rains only)	60
Total	1,762

FUTURE

1. Uttar Pradesh: (a) Revival of navigation of the Ganga river, Patna-Buxar-Allahabad. (b) Revival of navigation on the Ghagra river upto Bahram Ghat.

2. Bihar: (a) Navigation on the Kosi river is included in the programme of the Kosi Dam Project. (b) Development of navigation on the Gandak river. (c) Development of navigation on the Son river, feasible with the construction of the Rihand Dam.

3. West Bengal: (a) The construction of a navigation canal from Durgapur to the Hooghly river to connect the coal-fields in West Bengal and Bihar with the port of Calcutta, is included in the programme of the Damodar Valley Project. (b) Resuscitation of the Bhagirathi route affording a direct and much shorter navigation connection from the port of Calcutta to Bihar and U.P.

Work on (a) is in progress.

4. Orissa: (a) Resuscitation of the Orissa coast canal to restore the connection between the Hooghly and Dhamra rivers. (b) The

Mahanadi Valley Project makes provision for the development of navigation on the Mahanadi river upto Hirakud dam, about 300 miles from the sea.

5. Assam: The various tributaries of the Brahmaputra offer considerable scope for development of navigation.

6. Madhya Pradesh: Provision for navigation of the Narmada river is aimed at in the investigations in progress on the Narmada Valley projects.

7. Bombay: The construction of dams on the Narmada and Tapi rivers will provide navigational facilities on these rivers. The Kakrapar dam will help provide navigation in the surrounding area.

8. Andhra: Development of the Kistna, and Godavari rivers could also provide navigational facilities.

A priority list has been drawn up in accordance with which it is proposed to develop navigation. In the first stage it is proposed to extend navigation on the Ganga river above Patna as far as Allahabad.

An Inland Water Transport expert, Mr. J. J. Surie of Holland who visited India, inspected the waterways of the Ganga, Ghagra and Brahmaputra rivers, suggested a shallow-craft push two pilot projects comprising a fleet of two 250 B.H.P. tugs and eight 100-ton barges. On the basis of his recommendations, further surveys were undertaken at the instance of the Ganga-Brahmaputra Water Transport Board by the Central Water and Power Commission on the Ganga and Ghagra rivers. He also prepared the designs. Orders for the craft have been placed and on their procurement the project will be started. The cost of the craft is about Rs. 26 lakhs. This is being met out of a special grant given by the Government of India.

Mr. Surie had also recommended two other projects *etc.*, a project for the development of shallow draught navigation with smaller craft on the feeder rivers of the Brahmaputra and of a diesel operated ferry vessel on the Brahmaputra. These have been included in the scheme of financial assistance agreed to by the Planning Commission during the Second Five-Year Plan period.

Surveys are now in progress for drawing up specifications of the craft required for the Assam Feeder river project. The specifications for the diesel ferry vessel across the Brahmaputra have been finalised.

In addition to these two projects, it is proposed to execute development works to the extent of Rs. 150-22 lakhs in the Ganga-Brahmaputra region as a part of the Second Plan. These include dredging of important waterways, provision of aids to navigation such as radio telephony and automatic beacons, and the development of inland port facilities at selected places such as Gauhati, Pandu, Dhubri, Karimganj, Patna and Manihari.

Survey work at Pandu is finished. A scheme has been prepared for building a modern port there for inland craft. The scheme is likely to be implemented in stages.

Arrangements are also being made to provide automatic beacons on the Sundarbans.

The Ganga-Brahmaputra Water Transport Board has to meet a recurring expenditure of about Rs. 50 lakhs during the five-year period.

For South India, the following schemes have been selected for investigation and provision as shown against each has been made in the Second Five-Year Plan:—

Development of the Buckingham Canal including the linking up of the canal with the Madras Harbour Rs. 115 lakhs.

Development of West Coast Canals Rs. 43 lakhs.

Investigations relating to the first project are in progress.

OVERSEAS COMMUNICATIONS SERVICE

Allotment under the Second Five-Year Plan
... Rs. 2 crores.

Overseas Communications Service is a State activity working directly under the Ministry of Communications and Transport on commercial lines, with the Head Office at Bombay. Its functions are provision, operation and development of all facilities for communication between India and the outside world.

The chief administrative head of the Service is the Director General, Overseas Communications Service.

The Service has two main branches, viz. Traffic and Engineering. The Traffic branch is under the control of the Dy Director General (Traffic) and the engineering branch is under the control of the Chief Engineer.

The Overseas Communications Service has four gateway centres for handling international communications. The Bombay Centre has its transmitting station at Kirkee, receiving station at Dhond and the Central Traffic Office at Bombay. The transmitting and receiving stations as well as the Central Traffic Office are inter-linked by wired wireless circuits.

Calcutta centre has its transmitting and receiving stations at Halishahar and Hatikanda about 30 and 36 miles respectively from the main Traffic Office at Dalhousie Square, Calcutta. This centre was inaugurated on 30th December 1955.

Delhi Centre has its main transmitting station at Kalkaji and receiving station at Chattarpur connected to the Traffic Office at Connaught Circus, New Delhi. This centre was inaugurated as a permanent centre on 6th February 1958.

Madras is a cable station but it will soon have a radio centre with its transmitting station at Korattur and receiving station at Padlanellur connected to the Central Traffic Office in the General Post Office buildings, Madras.

The following radio services are now operated by India :—

	Date of Inauguration
1. India-United Kingdom Wireless Telegraph Service	23-7-27
2. India-United Kingdom Radio-Telephone Service	1-5-33
3. India-Australia Wireless Telegraph Service	14-1-42
4. India-China Wireless Telegraph Service	25-2-42
5. India-United States of America Wireless Telegraph Service (via Mackay)	15-8-44
6. Delhi-London Wireless Telegraph Service	29-8-44
7. India-United Kingdom Radio-Photo Service	29-4-48
8. India-United States Radio-Photo Service	29-4-48
9. India-Afghanistan Wireless Telegraph Service	12-1-50
10. India-Japan Wireless Telegraph Service	17-8-50
11. India-Indonesia Radio-Telephone Service	2-10-50
12. India-Indonesia Wireless Telegraph Service	1-2-51
13. India-Thailand Wireless Telegraph Service	15-3-51
14. India-Russia Wireless Telegraph Service	18-6-51
15. India-Egypt Radio-Telephone Service	2-7-51
16. India-United States of America Wireless Telegraph Service (via R(CA))	2-7-51
17. India-Iran Radio-Telephone Service	1-3-52
18. India-Japan Radio-Telephone Service	14-8-52

	Date of Inauguration
19. Calcutta-London Wireless Telegraph Service	12-3-53
20. India-East Africa Radio-Telephone Service	18-8-53
21. India-Hongkong Radio-Telephone Service	23-12-53
22. India-Switzerland Radio-Telephone Service	1-3-54
23. India-Bahrain Radio-Telephone Service	15-5-54
24. India-Malaya Radio-Telephone Service	16-6-54
25. India-Aden Radio-Telephone Service	15-10-54
26. India-Saigon Wireless Telegraph Service	18-10-54
27. India-China Radio-Photo Service	19-10-54
28. Delhi-Peking Wireless Telegraph Service	3-1-55
29. India-China Radio-Telephone Service	2-3-55
30. India-London Radio-Photo Service	2-3-55
31. India-Burma Radio-Telephone Service	24-2-55
32. India-Russia Radio-Telephone Service	4-6-55
33. India-Russia Radio-Photo Service	8-6-55
34. India-Poland Wireless Telegraph Service	21-6-55
35. India-Poland Radio-Telephone Service	22-6-55
36. India-Yugoslavia Wireless Telegraph Service	30-6-55
37. India-Burma Wireless Telegraph Service	15-8-55
38. Calcutta-London Radio-Telephone Service	30-12-55
39. Calcutta-Saigon Radio-Telephone Service	12-1-56
40. India-Japan Radio-Photo Service	25-1-56
41. India-Iran Wireless Telegraph Service	16-2-56
42. India-Australia Radio-Telephone Service	19-7-56
43. India-Hanoi Wireless Telegraph Service	2-9-56
44. India-France Wireless Telegraph Service	25-10-56
45. Delhi-France Radio-Telephone Service	25-10-56
46. Delhi-London Radio-Telephone Service	26-10-56
47. India-Egypt Wireless Telegraph Service	5-11-56
48. India-Ethiopia Radio-Telephone Service	25-11-56
49. India-France Radio-Photo Service	3-12-56
50. India-Poland Radio-Photo Service	27-3-57
51. India-Saudi Arabia Radio-Telephone Service	30-3-57
52. India-Italy Wireless Telegraph Service	6-2-58
53. Delhi-Italy Radio-Telephone Service	6-2-58
54. Calcutta-Germany Radio-Telephone Service	20-2-58

DIRECT RADIO-TELEGRAPH SERVICES

The following links are in operation :

(a) Bombay-London ; (b) Delhi-London ; (c) Bombay-Shanghai ; (d) Bombay-New York ; (e) Bombay-Melbourne ; (f) Bombay-Tokyo ; (g) Delhi-Moscow ; (h) Bombay-Kabul ; (i) Bombay-Djakarta ; (j) Bombay-Bangkok ; (k) Calcutta-London ; (l) Bombay-Saigon ; (m) Delhi-Peking ; (n) Bombay-Warraw ; (o) Bombay-Belgrade ; (p) Calcutta-Hanoi ; (q) Bombay-Teheran ; (r) Bombay-Hanoi ; (s) Delhi-Paris ; (t) Bombay-Egypt ; (u) Bombay-Italy ; (v) Bombay-Hamburg.

Services to other countries are provided through the international trunk routes via London.

DIRECT RADIO-TELEPHONE SERVICES

India today operates twenty-four direct services :

(a) Bombay-London ; through London calls are extended to the following countries : Algeria, Argentina, Asmara, Austria, Barbados, Belgium, Bermuda, Brazil, Canada, Ceuta, Cuba, Czechoslovakia, Denmark, Doha, Finland, Germany, Gibraltar, Goose Bay Labrador (Canada), Greece, Guatemala, Honduras, Hungary, Iceland, Israel, Italy, Kuwait, Lebanon, Luxembourg, Mexico, Morocco, Muscat, Netherlands, Newfoundland, New Zealand, Nicaragua, Norway, Panama, Rhodesia, Saar, Spain, South Africa, South Ireland, South West Africa, Sudan, Sweden, Tangier, Tunisia, United States of America, Vatican City.

Via London to the following Ocean Liners :

America, Athlone Castle, Capetown Castle, Caronia, Corinthia, Constitution, Edinburgh Castle, Empress of England, Empress of Britain, Eastriver, Israel, Ivernia, Independence, Maadani, Mauretania, Nevada, Nieuw Amsterdam, Olympia Elir, Orion, Orcares, Oronsay, Orsova, Oxfordshire, Oslofjord, Pretoria Castle, Queen of Bermuda, Queen Elizabeth, Queen Mary, Reina Del Mar, Rijndam, Stirling Castle, Sylvania, Saxonia, Zion.

Via Berne to Yugoslavia.

Via Bahrain to Muscat, Doha and Kuwait.

Via Egypt to Sudan.

Via Australia to New Zealand.

Via Ethiopia to Asmara.

(b) Bombay-Djakarta ; (c) Bombay-Cairo ; (d) Bombay-Teheran ; (e) Bombay-Tokyo ; (f) Bombay-Nairobi ; (g) Bombay-Hongkong ; (h) Bombay-Berne ; (i) Bombay-Bahrain ; (j) Bombay-Singapore ; (k) Bombay-Aden ; (l) Delhi-Shanghai ; (m) Bombay-Rangoon ; (n) Delhi-Moscow ; (o) Delhi-Warraw ; (p) Bombay-Belgrade ; (q) Calcutta-Saigon ; (r) Calcutta-Sydney ; (s) Delhi-Paris ; (t) Delhi-London ; (u) Bombay-Jedda ; (v) Bombay-Ethiopia ; (w) Bombay-Rome and (x) Calcutta-Germany.

These Radiophone facilities are also used for inter-continental interviews, discussions and programme material for purposes of re-broadcast both in India and abroad.

OVERSEAS RADIO-PHOTO SERVICE

This service enables signalling by radio a manuscript, photograph, drawing—in fact anything that is in black and white on paper and reproduction as a photo replica of the original.

The following circuits are now in operation :

(a) Bombay-London, is also extended to : Australia, South Africa, Canada, Egypt, Finland, Norway, Sweden, Belgium, Portugal, Greece, Denmark, Germany, Italy, Czechoslovakia, Ghana.

(b) Bombay-New York, and via New York to San Francisco. The service is regularly used by the business interests for the exchange of balance sheets, specifications and drawings of machinery, etc.

(c) Delhi-Shanghai	19-10-54
(d) Delhi-London	2-3-55
(e) Delhi-Moscow	8-6-55
(f) Bombay-Tokyo	25-1-56
(g) Delhi-France	3-12-56
(h) Delhi-Poland	27-3-57
(i) Calcutta-Hamburg	14-10-58

OVERSEAS SUBMARINE CABLE SERVICE

The cable chains are :—

(a) Bombay—Aden—Alexandria—Malta—Gibraltar—London.

(b) Bombay—Aden—Mombasa—Zanzibar—Seychelles.

(c) Madras—Penang—Singapore—East Asia.

These submarine cables provide many complementary services thus providing telegraph service to other parts of the world.

MULTI-ADDRESS BROADCASTS

Overseas Communications Service handles news transmissions on behalf of the Government of India to consular posts abroad. The transmissions from New Delhi are picked up by the following consular posts in Asia, Europe, Australia and America: Khatmandu, Rangoon, Singapore, Djakarta, Bagdad, Teheran, Ankara, Paris, Cairo, London, Brussels, Rome, Berns, Prague, Moscow, The Hague, Bonn, Tokyo, Canberra, Peking, and Nairobi.

Transmissions are also made on behalf of certain Press Agencies to different areas.

CONFERENCE CALL FACILITIES

Facilities exist for "Conference Call" to be handled between the U.K., U.S.A. and India. This permits a calling party in India to converse simultaneously with upto five telephone subscribers in the U.K. and U.S.A. These calls are popular with users who desire to hold telephonic conference between parties situated far apart.

LEASED CHANNELS

A novel service, viz Leased Circuits are also now in operation and four of the most important Airlines in the world viz. B O A C, P A.A., A.I.I. and T.W A. avail of this facility.

FIVE-YEAR PLANS

The First Five-Year Plan allocated one crore of rupees for development.

The plan covered modernising and expanding the existing Bombay and Delhi radio centres and opening similar centres at Calcutta and Madras

The Second Five-Year Plan has, with an allocation of two crores of rupees, the following long range objectives in view:—

(1) to provide expanding facilities of direct communications with more foreign centres commensurate with the growing needs of the country;

(2) to provide improved grade and standard of service—greater mechanisation and improved modern techniques;

(3) to provide more powerful service for Multi-Address Broadcasts for Government and Press; and

The table below shows the revised estimates for 1957-58 and the budget estimates for 1958-59 on the expense side.

	Revised Estimate 1957-58	Budget Estimate 1958-59
	Rs.	Rs.
Pay of officers	5,57,000	5,90,000
Pay of establishments	21,82,000	23,85,000
Allowances, honoraria, etc.	21,42,000	20,68,000
Other charges	13,61,000	15,50,000
Interest on capital (Charged)	6,07,000	7,00,000
Depreciation (Voted)	9,30,500	10,80,000
Payments to other Government Departments, etc.	40,31,200	37,80,000
Charges in England	1,17,000	1,06,000
Lump provision for D A. under the interim report of the Pay Commission	70,000	1,17,000
Total	1,19,99,000	1,23,76,000
Capital Budget	21,35,000	25,00,000

(4) to provide leased channels to private agencies and teleprinter-call service to big business houses and for the press.

BUDGETS

The revenue for the year 1958-59 was estimated at Rs. 157.30 lakhs.

Budget estimates for 1959-60: Revenue expenditure Rs 136.85 lakhs; capital expenditure Rs. 40 lakhs.

The profit of the O.C.S. for the year 1957-58 was 43.74 lakhs, i.e., 23.15 per cent of Government capital.

BROADCASTING

ALL-INDIA Radio now has 30 stations, 32 studio centres, 28 receiving centres and 52 transmitters in all.

The network now covers nearly two-thirds of the country.

Short-wave transmitters are due to be added to medium-wave transmitters at a number of stations.

Thus, Bhopal, Lucknow and Hyderabad are to be provided with a 10 K/w short-wave transmitter each, Ranchi and Dharwar will have a 2 K/w transmitter each, and Srinagar and Jammu 7.5 and 1 K/w transmitters each.

Tape recorders, both portable and stationary have been added to station equipment, and greater use is being made of taped programmes to ensure better production.

Orders for 119 tape recorders (50 portable and 69 tape decks) have already been placed.

Equipment worth Rs 50 lakhs under the Colombo Plan was received and almost all of it was put into use during the year.

It consisted mainly of short and medium wave transmitters.

Experimental TV casts were begun in Delhi although listeners are not yet in a position to take advantage of it.

On Republic Day, that is 26th Jan., 1959, the television equipment on loan with AIR was put to a test when the Republic Day parade was televised.

About a dozen sets were installed in the bigger hospitals and girls' colleges of Delhi.

An experimental unit is expected to operate some time towards the middle of 1959 an educational programme in pursuance of a UNESCO scheme.

But at present AIR has neither the staff nor any plans for a regular television service.

An officer has been deputed to London to be trained in the technique of TV production.

All India Radio has now a multi-storied building next to Akashvani Bhavan where many offices of All India Radio are now housed.

The head of AIR is the Director-General, All-India Radio, whose office is located in Broadcasting House, Parliament Street, New Delhi.

Other officers at headquarters are: Chief Engineer, Deputy Directors-General, Deputy Chief Engineer, Director of Programmes, Director of Programme Planning, Director of Listener Research, Deputy Director of Administration and Assistant Directors of Administration.

AIR stations transmit for about five to ten hours a day.

This is generally split up into three transmissions, morning, afternoon and evening.

Programmes are planned by Station Directors with the assistance of the Programme Executives and Programme Assistants. Details are worked out well in advance of their scheduled dates and are published in the journals of All-India Radio.

Broadcasting House.—Probably the largest centre of broadcasting activity in the East, Broadcasting House, New Delhi, was completed

in 1943. Architecturally, it is one of Delhi's newest and most striking sights. It represents from the point of view of equipment, the latest practice in radio engineering.

Research and Maintenance Departments.—These two departments are located in New Delhi.

The Research Department deals with all technical problems concerning reception and transmission. Special studies are undertaken on ionospheric data and forecasting transmission conditions, field strengths of short and medium wave stations, atmospheric noise levels prevalent in various parts of India, studio and recording characteristics and development of cheap receivers.

The Department also maintains a field station at Todapur near Delhi where the frequencies of All-India Radio Stations are constantly checked.

The Maintenance Department handles problems which arise in the upkeep and day-to-day operation of the engineering equipment used by All-India Radio in addition to maintaining Central Stores Depot.

Publications.—AIR has programme journals for home services as also for External Services.

Akashvani (English), *Awas* (Urdu), *Sarang* (Hindi), *Betar Jagat* (Bengali), *Vani* (Telugu), *Vanot* (Tamil), and *Nabhasani* (Gujarati) are for home services.

Only the *Akashvani* is issued weekly, while the rest are fortnightly publications, with a large list of regular subscribers.

† This was inaugurated on January 5, 1959.

For the External Services, *India Calling*, with two versions, the Eastern and the Western, is supplemented by Arabic, Burmese, Chinese and Persian editions.

As the copyright of all the material that is broadcast—talks and discussions—is vested in the Government of India, it was decided to make use of the vast reading matter by issuing *AIR Selections* (English) and *Prasarika* (Hindi), periodically.

The experiment proved a success and a scheme for publishing AIR Selections quarterly in 8 more languages—publication of *Prasarika* in those languages has been put into operation.

Monitoring.—The Monitoring Service (Simla) keeps a round-the-clock watch on transmissions from all the main broadcasting systems of the world, monitors news and commentaries and selected talks transmitted from those stations in English, in Indian languages and in some foreign languages, from 30 different countries.

Listener Research.—The primary purpose of Listener Research is to determine the listening habits and programme preferences of radio listeners by ascertaining from time to time their reactions to items broadcast.

For this purpose, contact with listeners is maintained through their letters, press reactions, field surveys and questionnaire studies of listeners' preferences and reactions to programme broadcast.

A preference survey was carried out in 1957 by handing out a questionnaire to licence-holders when they applied for the renewal of their licences.

Nearly 50,000 persons replied and these replies are now being scrutinised. A listening survey was also carried out in six small towns, each with a population of 10,000 to 15,000.

Advisory Committees, established at the Broadcasting Stations in consultation with the State Governments, keep the Director-General, All-India Radio, in touch with local public opinion in programme construction and advise him on such matters.

PROGRAMMES

Women's Programmes.—These are in the regional language and are broadcast from almost all the stations.

Children's Programmes.—Wherever possible the children are divided into two or three age groups. The programme is conducted or compered by an elderly character known to the children. Another elderly person usually a woman is used to assist the comper.

These are generally broadcast twice a week.

Fables, stories from classics and musical items, form the content of the programmes, and listeners are encouraged to participate.

In the rural broadcasts there is a children's day once a week.

School Broadcasts.—The school broadcasts are meant to supplement the regular curriculum of the school.

The students are divided into two or three age groups.

History, geography and general science are the subjects generally covered.

There are Educational Committees to advise the Station Director on the composition of the programme for the academic term, and these are announced in pamphlets for each term.

Occasionally students from a particular class are taken to the radio station to give a performance.

The idea is that students should listen to the broadcasts while at school in the company of their teachers.

The total number of schools equipped with receiving sets on 31st October 1957 was 9,608. See table below.

Industrial Broadcasts.—Stations in such industrial towns like Bombay, Calcutta, Lucknow, Madras, Ahmedabad put out suitable programmes in the language of the local working class.

The programme contains dialogues, features and news reviews, all relating to workers and their organisations.

For recreation devotional music and popular songs are used.

Labour Welfare Centres are encouraged to participate in the programme.

Rural Broadcasts.—While the provision of programmes is a Central responsibility, the supply of listening sets to the rural population is the responsibility of State Governments.

Supplementary or spare time occupations are suggested, and information is given on items like improved seed, new implements, sowing, crop and cattle pests and their remedies, and market rates of current agricultural produce.

Weather bulletins during the monsoon are a regular feature of the composite programme.

The Union Government has put into operation a scheme for popularising community listening by subsidising State Governments for the purchase of receiving sets. The aim is to provide each village with a population of 1,000 or above, with at least one set.

The subsidy is 50 per cent of the cost of sets and its immediate acceptance is reflected in the rapid rise in the number of community receiving sets.

As part of the scheme, Government has standardised the community receiver set with the help of the radio industry and the Indian Standards Institution. It has been possible to produce such sets for Rs. 120 each and with larger bulk orders the price may go down still further.

Figures for community receiving sets in the rural and urban areas are usually given in the Union Government's official Report.

No such figures however are available for 1957-58. The Report only mentions that "25,036 community receiving sets were supplied (under the Central Government Subsidy scheme) till March 1957 to various States for installation in rural areas, and arrangements were made for the supply of 11,166 receivers complete with auxiliaries during 1957-58."

Another official announcement tells of a scheme for extending community listening in the backward areas of certain States. The initial cost of the sets is to be borne by the Ministry of Information and Broadcasting, the Home Ministry and the State Government in the ratio of 50 : 25 : 25.

Rs. 15 lakhs have been provided in the budget for the two schemes for subsidized receiving sets.

The position as in October 1956 is given in the table below :

Community Listening Sets Oct. 1956

School Licences	State†	Community Licences
594	Andhra	1,614
89	Assam*	188
1,043	Bihar	1,042
778	Bombay	1,833
38	Saurashtra	294
27	Kutch	85
295	Central Circle	1,304
125	Delhi*	58
443	Hyderabad	507
1,180	Madras	2,958
89	Mysore	465
249	Travancore	343
38	Coorg	25
170	Orissa*	278
1,046	Punjab	2,664
307	Rajasthan	84
989	Uttar Pradesh*	4,955
399	West Bengal	1,289
7,820		19,466

* These States are unaffected by the re-organization of States in Nov. 1956.

† Before the reorganization in November 1956.

Note : Assam includes Manipur, Tripura and NEFA. The Central Circle includes Madhya

Pradesh, Vindhya Pradesh areas. Punjab includes P&P&U, Bilaspur, Kashmir and Himachal Pradesh areas. Rajasthan includes Madhya Bharat, Ajmer and Bhopal areas.

By Dec. 1958, 41,627 sets were supplied to State Governments on a 50 per cent subsidy basis.

Broadcasts in Naga Dialects.—The special conditions prevailing in the north-eastern frontier area make it essential to undertake broadcasting in 23 tribal dialects.

Gauhati station in that region has had to be provided with short wave transmitters. Already items in Garo and Khasi-Jaintia dialects are being put out. Other dialects prevalent in the Naga Hills and the adjoining regions, about 15 in number, are also used for broadcast from Gauhati.

Forum Forums.—AIR conducted a unique experiment in Bombay with the co-operation of many institutions and expert knowledge from the various departments. The project was financed by UNESCO to the tune of \$19,000 (about Rs. 80,000).

The project covered Community Project Areas in Kolhapur, Karjat, Mandangad, Ahmednagar, Nasik, Poona, Satara and Thana, comprising in all 150 listening centres.

A series of 20 programmes of 45 minutes each was broadcast from Poona and relayed on Bombay B. As the entire area happens to be Marathi speaking, the programme was in Marathi and contained dramatized stories, panel discussions, talks and interviews, recorded or live programme by members of forums, and five minutes summary of the consequences of the discussion held by the forum.

Participation by the members of the forums was an ingredient of programme.

Very greatly encouraged by the results of the UNESCO pilot project carried out in 150 villages AIR has now decided to continue the scheme, in the same area with the co-operation from the Government of Bombay.

The duration of the rural programmes has already been extended to one hour in all places.

Hindi Lessons.—For popularising Hindi in non-Hindi-speaking regions, All-India Radio devotes 15 minutes a day, five days per week, to impart instruction through the regional languages.

Anniversary Programmes.—Anniversaries of national leaders and of great musicians are now celebrated on a national scale.

National Programmes.—The Saturday National Programmes lasting ninety minutes have been quite popular. It is generally so planned that Northern and Southern (Karnatic) music alternate every Saturday. Arrangements are being made to have this item originate at other places. At present most of the Saturday concerts originate from Delhi and all stations relay them.

Talks.—Important topics of a national character are dealt with by an accepted authority in a nation-wide broadcast on Wednesdays at 8.30 p.m.

Plays, Operas.—On alternate Thursdays, a national programme of plays or operas is arranged in such a way that all stations have the same item, in their respective languages, prepared from one single script. The literature of one region is thus made available to all the other parts of the country at the same time.

Development Projects, Factories.—In order to make the country plan-minded, a feature on some of the bigger national projects like Bhakra-Nangal, is arranged once a month, and it is put out on the air simultaneously from all the stations, the script with actual effects having been supplied from Delhi.

Gandhi Prayers & Memories.—Mahatma Gandhi has his own way of saying prayers and those prayers are broadcast from all stations on Friday mornings. Also the reminiscences of men and women who had known him, immediately after the prayers.

Film Music.—AIR is now in a position to play film music which is quite popular. In the new Variety Programme (Vividh Bharati), nearly two hours are devoted to film music daily, and Radio Kashmir has on an average an hour of film music every day.

Inter-linking of Stations.—The inter-linking of the regional stations is being tried as this makes it easy to maintain a uniformity of programmes, and also provide common listening when a first-rate performance is scheduled. Thus on Wednesdays, musical concerts are arranged from one of the stations in the Western Region and other stations relay it.

Madras and Trichy, for example form a unit for Tamil programmes, and Madras, Vijayawada and Hyderabad for Telugu. For music however, all these stations as also Trichur, Kozhikode-Trivandrum, Bangalore and Dharwar form a larger unit.

Fraser Geet & Sugam Sangit.—In order to provide all stations with standardised light and popular music, All-India Radio organised its own units in different regions for the production of songs. A processing plant capable of producing many discs for its own use in the first instance and for selling them to outside agencies on the lines of the BBC's Transcription Service, has been set up.

Orchestral Music.—All India Radio also established an Orchestral Unit (Vadya-Vrinda) with two wings—one for the North Indian and the other for Karnatic music—for composing orchestral music, using mainly Indian instruments, though the violin, the double-bass and the clarinet were included among Indian instruments. So far over 110 compositions have been finalised and recorded for use when required.

In addition to the elaborations of the Indian *Ragas* and *Raginis*, thematic compositions have been set to instrumental music. The themes of course are classical like the *Meghadoota*, or historical like Asoka's Conquest of the Kalingas. *Jwalamukhi* and *Haryash* are also some of the modern themes chosen for presentation.

Such orchestral music being new to India, the general acceptance of these compositions can by its very nature be a slow process.

Transcription Service.—The plant produced 165 matrices and 5,900 discs as against 45 matrices and 2,100 discs in 1956. The discs of *Sugam Sangit* and *Fraser Geet* are being supplied to all stations. Indian missions abroad required about 740 discs of important items.

Experiments in the production of long-playing records are being carried out.

Voices Recordings.—AIR already has a unique collection of Mahatma Gandhi's prayer-speeches—(51 hrs.). Similar recordings of the Prime Minister's speeches are also preserved. The voices of Tagore, Sarojini Naidu, Srinivasa Sastri, C. F. Andrews, and Nanha Lal D. Kavi have been acquired for preservation.

In the field of music, recordings of *Aftab-e-Mausam* Ustad Fayyaz Khan (of Baroda) extending to over 20 hours, have been obtained.

Vividh Bharati.—This all-entertainment programme, broadcast on short-wave 100 K/W transmitters, from Madras and Bombay simultaneously, was introduced in October 1957. It quickly gained in popularity and is therefore being relayed by some of the stations on medium wave as well.

Special items for South Indian listeners are broadcast daily for two hours in the afternoon from Madras. The letters received about request programme for Vividh Bharati, reached a figure of 500 a day even before the programme completed one year of its service.

A unique feature of this new programme in which all the stations of All India Radio now contribute by sending choice items from their artists on tapes, was the building up of an elaborate library of tapes, light and classical music, both vocal and instrumental,

folk-songs, devotional music, skits, dialogues recitations of modern poetry, songs of regional groups in many languages.

The library which was originally situated in Bombay has now been moved to Delhi.

Competitions.—In its ceaseless effort to find new talent, All-India Radio holds many competitions every year. They are for music, light and classical, vocal and instrumental, northern and southern (Karnatak) styles. The first round of these is held Station-wise and the All-India round takes place in Delhi.

Radio Sanget Sammelan has indeed become a regular annual feature of All India Radio. It consists of a series of concerts before invited audiences arranged in Delhi, Bombay and Madras, and the programme is relayed by all stations.

The fourth Sammelan took place in October 1957 and the fifth in October 1958.

A side-light of the Sammelan is the music competition meant to discover latent talent among younger artistes. Musicians vocal and instrumental between the ages 16 and 21 are invited to participate. The preliminary screening takes place at the respective stations within whose jurisdiction they come, and the final tests are held for Northern music at Delhi and for Karnatic music at Madras.

In all 1,081 candidates participated in 1957 out of whom 684 were selected for the finals in Delhi and Madras respectively.

The competition for plays is language-wise. Prizes in cash are awarded to the first three numbers.

Patel Lectures.—This is an annual feature. The first series of lectures was given by Mr. C. Rajagopalachari in 1955 on the good administrator. The second series was delivered by Dr. K. S. Krishnan in 1956.

The third series was delivered by Dr. J. B. S. Haldane in 1957 on the unity and diversity of life. The fourth was by Dr. Zakir Hussain on educational reconstruction.

In appreciation of the services to All India Radio rendered by the late Mr. P. M. Lad, Secretary to the Ministry of Information and Broadcasting, Lad Memorial Lectures, on a literary question were instituted on the first anniversary of his death—March 1958.

For the first series, literature connected with Marathi saints was the topic selected and eminent scholars were invited to address seen and unseen audiences on the subjects of their study.

Programme Libraries.—At the headquarters of All India Radio, New Delhi three important libraries have been built: (i) Recordings on tape and disc; (ii) Scripts of important programmes from all stations, and (iii) Tape recordings of entertainment programme items contributed by all stations of AIR.

The library of recordings has two sections: internal and external. In the internal section, recordings of all programme items are kept for possible use by other stations. For the other section, recordings have been contributed by various co-operating radio organisations outside India, on an exchange basis. Thus recordings from Damascus, Copenhagen, Kabul, Ottawa, Singapore, Geneva, Tokyo and the U.S.A., have been received while Indian recordings have been sent to many countries for their respective broadcasting organisations. Recordings mostly in demand are of Indian national anthem, orchestral and choral, besides folk music and classical instrumental recitals.

The third library is made up of Vividh Bharati, the light variety programme of All India Radio, broadcast simultaneously from Bombay and Madras on short-wave.

Other Features. Some other features are Tamil by radio from Delhi, Lucknow and Allahabad; radio news-reels called *Dheval Chitra* featuring events and news of a regional character from

Bombay, Poona, Nagpur, Ahmedabad, Baroda and Rajkot. There are also local weather bulletins at the end of the day's transmission.

Special Staff.—In addition to the regular grant for broadcasting made by Parliament, a lump sum is provided every year, to be spent at the discretion of the Minister. It is generally utilised in making certain direct appointments of expert staff without having to go through the Union Public Service Commission. For 1954-55 and 1955-56, such grant amounted to Rs. 6 lakhs and Rs. 10 lakhs respectively.

New staff in charge of the production of special programme has been engaged at almost all the stations on a contract basis. Drawn from the literary or musical world, these officers have helped improve the quality of broadcasting. There are officers in charge of music, both light and classical, and they compose songs for the production of *Sugam Sangit* and *Fraser Geet*.

Others look after the spoken word (i.e. talks and discussions) while a separate officer is in charge of feature productions.

Women officers have been appointed to look after women's and children's programmes at almost all the stations.

NEWS SERVICES

The News Services Division now broadcasts 76 bulletins in 23 Indian and foreign languages. 30 of these bulletins are broadcast in the External Services while 46 bulletins are broadcast in the Home Services, the total transmission time being 14 hours and 34 minutes.

The languages used in the Home Services are: Assamese, Bengali, English, Gujarati, Hindi, Kanarese, Kashmiri, Malayalam, Marathi, Oriya, Punjabi, Sanskrit, Tamil, Telugu, Urdu, Konkani and about 20 other dialects.

All the news bulletins are prepared in the News Service Division and broadcast from the transmitters at Delhi set apart for news.

Each regional station relays the bulletins suitable for its listening areas.

News Reels.—Radio news reels of 10 mts. each on the line of the BBC's radio news reels, have been introduced from Delhi in English and Hindi twice a week.

Regional News.—Centralised news from Delhi does not meet the requirements of the listeners adequately. In an effort to broadcast only news of All-India importance from Delhi, items of local interest are dropped. The State legislatures and other local institutions require to be covered for news. Some of the larger stations, capitals of States, now devote ten minutes a day for covering regional news in languages other than English. The timings however are late in the afternoon.

A few minutes are set apart at each station for local announcements. This period accommodates news of purely local interest.

External Services.—That the External Services serve a useful purpose can be seen from the fact that nearly 10,000 copies of *India Calling* (English) are distributed among listeners.

The Pushtu programme bulletin called *d' Hind-Awas* is at present cyclostyled.

Sixteen languages are used in these broadcasts and the daily time taken by them is (in mts.) :—Arabic 90; Burmese 55; Chinese 75; English 380; French 45; Indonesian 45; Persian 75; Portuguese 30; Pushtu 60; Swahili 35; Tibetan 30.

Among the Indian languages are: Gujarati 55; Hindi 145; Konkani 60; Tamil 60.

Thus daily 20 hrs. and 10 mts. are required for these broadcasts, arranged at times suitable to the region to which they are directed, keeping the Indian population there in touch with the mother country.

In relation to time these broadcasts are composed of 25 per cent news, 33 Indian music, 3 Western music, 12 talks-discussions, 3 drama, 8 programme publicity, 21 Koran and other religious items.

AIR STATIONS

At present (1959 January) there are 30 broadcasting stations

LICENCES

Broadcast receiver licences are issued at all head and sub-post offices at a fee of fifteen rupees per year, and cover the use of receiving sets throughout India.

Broadcast Receiver Licences are issued to Municipalities or other public bodies for the reproduction of broadcast programmes in public places by the Postmaster-General of the State

A licence issued for this purpose covers the use of one wireless receiver only

A separate Broadcast Receiver Licence is, however, necessary in the case of clubs, institutions, messes, etc., for reproducing broadcast programmes at dances, concerts, bazaars, etc., to which the public are admitted.

Broadcast receiver licences have to be renewed at the beginning of every year, as they are valid only upto the end of December. But the rush during January for renewals in the bigger towns particularly is so great that many licence-holders renew their licences as early as November.

It is necessary to explain here that the Post Office issues every quarter monthly figures of licences giving first the new licences issued, then the licences renewed, and last the total licences in force at the end of the month.

The table of figures therefore makes an odd impression when the monthly figures are placed in juxtaposition as below

	New	Renewals	In force Total
1955 Dec	12,627	2,574	947,353
1956 Jan	21,397	619,432	789,891
1956 Dec	17,653	3 570	1,075,909
1957 Jan	28,786	657,419	871,750
1957 Dec	19,463	12,553	1,230,814
1958 Jan	34,988	767,539	972,505

The annual figures of domestic broadcast receiver licences as at the end of each year are given below

Year	Licences	Year	Licences	Year	Licences
1939	82,772	1946	232,368	1953	769,505*
1940	119,417	1947	247,100	1954	885,248
1941	147,121	1948	286,046	1955	947,353
1942	165,675	1949	369,278	1956	1,075,909
1943	176,061	1950	507,324	1957	1,230,814
1944	193,585	1951	635,026		
1945	202,829	1952	694,560*		

* A mistake in calculation was noticed by Director General, All-India Radio and the figures were corrected in a press-note as 473,759 and 587,169 for 1952 and 1953 respectively. In subsequent years, this correction does not seem to have been effected. The figures therefore are "official"

The following table shows the number and the value of radio sets imported into India over a number of years.—

Year	Number	Value in Rs. lakhs
1943-44	5,384	6 53
1944-45	895	1 51
1945-46	5,982	7 04
1946-47	107,114	169 58
1947-48	192,172	286 40
1948-49	42,202	76 59
1949-50	43,555	71 66
1950-51	16,012	25 44
1951-52	29,121	52 64
1952-53	19 286	36 09
1953-54	13,042	23 45
1954-55	4,515	11 20
1955-56	6,258	17 67
1956 (Apr to Dec)	4,393	12 01
1957 (Calendar)	21,813	11 26

RADIO SETS ASSEMBLED IN INDIA 1951-57

In 1957, there were 17 assembling units with a capacity of 240,600 sets. The actual production was 190,692.

The following table shows the trend of production —

Year	Sets
1951	82,788
1952	71,496
1953	56,288
1954	56,404
1955	81 241
1956	150,600
1957	190,692

THE PRESS

THE second Annual Report of the Press Registrar covering the period, January 1 to December 31, 1957, was placed on the table of the Lok Sabha on 9th September, 1958 by the Minister for Information and Broadcasting, Dr. B. V. Keskar.

Though the total number of newspapers in the country was 5,932, details about circulation are available only in respect of 2,843 papers and revised figures for 1956 in respect of 3,050 papers. There were about 165 correspondents in March 1959, accredited to the Government.

CIRCULATION

Taking the total circulation of papers for which data were thus available (i.e. the 2,843 mentioned above), there was an increase of 2.8 per cent in the combined circulation of papers of different categories.

The increase in circulation was highest (84.6 per cent) in the case of fortnightly. Dailies recorded an increase of 8.3 per cent and weeklies of 1.1 per cent.

There was a decline of 41 per cent in the circulation of monthlies.

There was an increase of 0.9 per cent in the circulation of English papers. Hindi papers showed a decline of 8.8 per cent.

Among newspapers of other languages, the following registered an increase in circulation: Assamese (18.3 per cent), Bengali (4.4 per cent), Kannada (63.2 per cent), Oriya (7.0 per cent), Sanskrit (150.0 per cent), Telugu (28.9 per cent), Urdu (0.6 per cent).

On the other hand there was a decline in the circulation of papers of the following languages: Gujarati (12.9 per cent), Malayalam (17.7 per cent), Marathi (17.0 per cent), Punjabi (16.1 per cent) and Tamil (10.3 per cent).

The Report gives an analysis of the available circulation data according to language and periodicity.

The total circulation of 2,843 newspapers in 1957 was 113 lakhs as against 110 lakhs of the 3,050 newspapers in 1956.

Of the more important categories of newspapers, the dailies commanded a circulation of 31.49 lakhs or 27.9 per cent of the total circulation in 1957 compared to 29.08 lakhs in 1956.

The circulation of monthlies was 31.62 lakhs or 28.0 per cent, recording a considerable fall compared to 1956 when their total circulation was 34.79 lakhs.

In respect of weeklies there was a slight increase in circulation from 30.20 lakhs to 30.52 lakhs in 1957, representing 27.0 per cent of the total circulation.

There was a considerable increase in the circulation of fortnightly which rose from 7.85 lakhs in 1956 to 14.49 lakhs in 1957.

There was a decline of 3.12 lakhs in the circulation of newspapers of 'other periodicities' which dropped from 7.60 lakhs in 1956 to 4.48 lakhs in 1957.

Newspapers in English had the largest circulation, i.e., 24.97 lakhs or 22.3 per cent of the total.

Next in importance were Hindi newspapers with a circulation of 20.25 lakhs or 18.0 per cent.

Others in order of importance were Tamil (9.1 per cent); Urdu (7.0 per cent); Gujarati (6.5 per cent); Bengali (6.1 per cent); Marathi (5.9 per cent) and Telugu (5.0 per cent).

The combined circulation of Hindi and Urdu newspapers constituted one-fourth of the total circulation.

Of the total circulation of 31.49 lakhs commanded by daily newspapers, 10.05 lakhs or a little over one-third was that of English dailies.

Next in order of importance were Hindi (3.94 lakhs), Tamil (2.73 lakhs), Marathi (2.47 lakhs), Gujarati (2.26 lakhs) and Urdu (2.03 lakhs).

The circulation of Bengali, Kannada, Malayalam and Telugu dailies ranged between one and two lakhs.

The Report gives a list of 15 dailies and 16 periodicals with a circulation of over 50,000. Among them the *Indian Express* (English, four

editions), the *Thanthi* (Tamil, three editions) and *Times of India* (English, two editions) command a circulation exceeding one lakh each.

Among periodicals the *Sunday Standard* (English, four editions), *Kalyan*, a Hindi monthly from Gorakhpur and *Kumudam*, a Tamil bi-monthly from Madras, have a circulation of over one lakh each.

Dailies	Circulation.
<i>Indian Express</i> , English (Bombay 28,684; Madras 59,930; Madurai 13,986; Delhi 31,907)	132,507

<i>Bharat Jyoti</i> , English Weekly, Bombay	54,898

OWNERSHIP

The study of ownership of newspapers by the Press Registrar, based on data available in respect of 3,987 papers shows no significant shift in the general pattern of ownership as it existed in the preceding year.

The predominant form of ownership continued to be the individual owner accounting for 42.4 per cent of the total in 1957. Ownership by societies or associations including religious and co-operative societies, which constituted the next important group of owners, controlled 21.1 per cent of newspapers. Joint Stock Companies represented the ownership of 9.7 per cent newspapers. Firms and partnerships accounted for 8.7 per cent, educational institutions for 7.6 per cent and Government publications for 5.5 per cent.

There are nine Chains, 119 Groups and 23 Multiple Units in the country. Eleven out of the 23 Multiple Units form part of the Chains.

Although the nine Chains taken together control about one per cent of the total number

of newspapers in the country, they command about 17 per cent of the total circulation (copies sold and distributed free).

The 119 Groups, on the other hand, control 5.3 per cent of the total number of newspapers and command 20 per cent of the total circulation.

Of the nine Chains, the largest commands a circulation of 7.62 lakhs, another a circulation of over three lakhs, while four others have a circulation of over one lakh each.

Out of the 119 Groups, only six command a circulation of over one lakh each, the highest being 1.79 lakhs. Five other Groups command a circulation of over 50,000 each, nine a circulation of over 20,000 each, while the remaining 99 Groups command a circulation of less than 20,000 each.

Between them the nine Chains comprise 63 newspapers (42 dailies, 19 weeklies and one fortnightly and one monthly and command a circulation of 1,868,547.

The largest Chain, both in respect of papers controlled by it and the circulation, is the *Express Newspapers Ltd.*, which controls 19 newspapers (eight dailies and 11 weeklies) with a total circulation of 761,897.

The 42 dailies controlled by Chains command one-third of the total circulation of the 282 dailies for which circulation figures are available.

The 119 Groups comprise 316 newspapers, 85 dailies, 60 weeklies, 16 fortnightly, 140 monthlies and 15 newspapers of other periodicities. Their combined total circulation is 2,220,614. The total actual figures may, however, be higher as it has not been possible to get the circulation figures of 96 constituent units of these Groups.

The 23 Multiple Units comprise 60 newspapers and command a circulation of 11.18 lakhs.

In addition to the above, some religious organisations publish a number of newspapers and periodicals from one centre or more. These are classified as Special Groups. There are eight such groups in the country, publishing in all 48 newspapers in different languages.

The Salvation Army publishes ten journals in English, Marathi, Gujarati, Telugu and Malayalam, the Ambala Church Council of the United Church of Northern India, eight in Hindi, Punjabi and English, the Shri Ramakrishna Math, four in English, Tamil and Telugu, the Christian Literature Society for India, nine in Tamil and Telugu, the Religious Trustees of the Society of Jesus, five in English and Hindi; the Tirunelveli Diocesan Press, six in Tamil; the Theosophical Society of Madras, three in English and Tamil and the Apostolic Seminary of Alwaye, three in Malayalam.

The Central and State Governments between them publish 297 papers. Of these 149 are published by the Central Government and 148 by State Governments. Among the Central Government publications 17 have a circulation ranging from 5,000 to 46,000.

In the States there are six publications with circulation ranging from 5,000 to 23,000.

There are 41 publications issued by the Embassies, High Commissions, etc. of different foreign countries in India. Of these 29 are periodicals and 15 news bulletins issued mainly for the use of the Press. Among the publications of foreign Embassies, for which figures are available, the 'American Reporter', published in five languages, has a circulation of 207,086 and the 'Soviet Land', published in 12 languages, a circulation of 185,575. 'China Today', published by the Chinese Embassy in two languages has a circulation of 5,756.

BASIC FACTS

The total number of newspapers in the country on December 31, 1957 as shown by the Press Registrar's records, was 5,932.

In addition, there were supposed to be in existence another 971 newspapers about which no particulars were available nor was it possible to verify whether they had ceased publication.

During the year under review 800 new newspapers came into existence and 175 ceased publication.

* This is an obvious error in the Registrar's Report. The average net sales July-December 1957 : 1,25,909.

Of all the newspapers and periodicals published in the country, monthlies were the most numerous (2,351), followed by weeklies (1,589), fortnightlies (517) and dailies (446).

More than one-fourth (117) of the country's dailies were published in Bombay State, Uttar Pradesh and Mysore came next with 53 and 43 respectively.

The largest number of newspapers was published in English (20.0 per cent) followed by Hindi (19.0 per cent), Urdu (8.7 per cent), Bengali (6.9 per cent), Gujarati (6.3 per cent), Marathi (5.4 per cent) and Tamil (4.5 per cent). The percentage of newspapers in other languages was below 4 per cent each. Hindi newspapers were published from all the States except Orissa and the Union Territories of Manipur and Tripura.

Of the papers that commenced publication during 1957 the largest number was in English (193), Hindi coming next with 108. Among the newspapers of different languages there were 35 dailies, 148 weeklies, 95 fortnightlies, 330 monthlies and 84 quarterlies.

Intimation about the cessation of 175 newspapers was received by the Press Registrar. Of these 37 were in Hindi, 32 in Urdu and 25 in English. 30 were Assamese, Kannada or Sanskrit

newspaper ceased publication while the smallest (during the year was that of Malayalam, Oriya number of newspapers that ceased publication) and Punjabi.

The table no. 1 shows the number of newspapers in existence in each State on December 31, 1957:

States	No. of Newspapers
Andhra Pradesh	260
Assam	33
Bihar	181
Bombay	1,197

COMMON OWNERSHIP

Common ownership of more than one newspaper has been studied under three categories, namely,

- Chains* i.e. publication of more than one newspaper under common ownership from more than one centre.
- Groups* i.e. publication of more than one newspaper under common ownership from the same centre.
- Multiple Units* i.e. publication of more than one newspaper of the same title, language and periodicity under same ownership at different centres.

There are in all nine chains comprising 63 newspapers, of which 42 are dailies, 19 weeklies, one fortnightly and one monthly. The total circulation commanded by these newspapers is

1,866,547. The Express Newspapers Limited is the largest chain covering 19 newspapers with a total circulation of 761,897. The Bennett, Coleman chain covers 8 newspapers with a total circulation of 368,215.

The Chains are :

Bennett, Coleman & Co. Ltd., Bombay; Express Newspapers (Private) Ltd., Madras*; The Hindustan Times and Allied Publications, Delhi; Ananda Bazar Patrika (Private) Ltd., Calcutta; Amrita Bazar Patrika and Jugantar, Calcutta; Saurashtra Trust; Pratap and Veer Arjun; Lokasatta and Janasatta Daily; Shri Narkesari Prakashan Ltd.

Among the Groups are :

The Bombay Chronicle† (Private) Ltd., Bombay; The Indian National Press (Private) Ltd.;

Kasturi & Sons (Private) Ltd.; Associated Journals Ltd., Lucknow; Chandamama Publications, Madras; Mitra Prakashan (Private) Ltd., Allahabad; Govind Bhavan Karyalaya, Gorakhpur; Mathrubhumi Printing and Publishing Co. (Public) Ltd., Kozhikode; Sakal Papers (Private) Ltd., Poona; Malayala Manorama (Public) Ltd., Kottayam; Lok Prakashan Ltd., Ahmedabad; The Swadesanimitram (Public) Ltd., Madras; Nageswara Rao Estates (Private) Ltd., Madras.

Among the multiple units are :

The Statesman, Calcutta; Vishwamitra, Bombay; Thanthi, Madras; Nava India, Madras; Nava Bharat, Nagpur; Hitavad, Nagpur.

Some religious societies issue newspapers. These societies are: The Salvation Army; Ambala Church Council of the United Church of Northern India; Shri Ramakrishna Math.

PRESS LAWS

In general the laws which affect the Press in India today are Press and Registration of Books Act, 1867; the Indian Official Secrets Act No. XIX of 1923; Sections 124-A, 153-A, 171-G, 255, 292, 293, 294-A, 295-A, 489-A, 499-502 and 505 of the Indian Penal Code; Sections 99-A-99-G and 108 of the Criminal Procedure Code; Sections 81, 84 and 87 of the Indian Evidence Act No. I of 1872; Sections 19 and 181-A of the Sea Customs Act No. VIII of 1878; Sections 5 and 7 of the Land Customs Act No. XIX of 1924; Sections 19, 20, 26, 27-A-27-D of the Indian Post Office Act No. VI of 1898; Section 5 of the Indian Telegraph Act No. XIII of 1885; Sections 40, 52 and 53(1)(b) of the Patents and Designs Act No. II of 1911; the Police (Incitement to Disaffection) Act, 1922; Section 69 of the Trade Marks Act No. V of 1940; the Press (Special Powers) Act No. XXXIX of 1947; the Contempt of Courts Act, 1952 (Act XXXII of 1952); Article 19 (1) (a) and (g) and Clause (2) and (6) of the same Article of the Constitution of India. The amendment to Article 19 (1) (a) reads: "Nothing in Sub-clause (A) of Clause 1 (the Citizen's Right to Freedom of Speech and Expression) shall affect the operation of any existing law or prevent the State from making any law in so far as such law imposes reasonable restrictions on the exercise of the right conferred by the said sub-clause in the interest of the security of the State, friendly relations with foreign States, public order, decency, morality, or in relation to contempt of court, defamation or incitement to an offence (This amendment is retrospective in operation); the Tax on Newspapers (Sales and Advertisements) Repeal Act No. XXVIII of 1951; the Press (Objectionable Matter) Act No. LVI of 1951 as amended by Act 13 of 1954; 8.7 of the Collection of Statistics Act (XXXI of 1953); the Press and Registration of Books (Amendment) Act No. 55 of 1955.

The Delivery of Books (Public Libraries) Act 27 of 1954.

The Drugs and Magic Remedies (Objectionable Advertisements) Act 21 of 1954. This Act controls the advertisement of drugs in certain cases and prohibits the advertisement for certain purposes of remedies alleged to possess magic qualities.

The Criminal Procedure Amendment Act contains a section (198B) which empowers the Government to prosecute a newspaper for defamation of public servants.

The Working Journalists (Industrial Disputes) Act (No. 1 of 1955). The Act extends the provisions of the Industrial Disputes Act, 1947 to working journalists.

The Parliamentary Proceedings (Protection of Publication) Act (No. 24 of 1956). It protects the publication of a substantially true report of any proceedings of either house of Parliament.

Section 11 of the Prize Competitions Act (Act 42 of 1955) contains rules regarding printing and publishing tickets, coupons, etc. in connection with prize competitions.

The Working Journalists Conditions of Service and Miscellaneous Provisions Act (Act 45 of 1955) regulates conditions of service of working journalists (See below).

The Punjab Special Powers (Press) Act was passed on 5th September 1955. It empowers the authorities to control the irresponsible activities of the press indulging in and fostering communal disharmony, dissemination of 'violent' news and pernicious propaganda of a communal nature.

The Newspaper (Price and Page) Act 45 of 1956.

The Young Persons (Harmful Publications) Act No. 93 of 1956.

The Delivery of Books (Public Libraries) Amendment Act No. 99 of 1956.

The Copyright Act 14 of 1957.

* It is proposed to repeal this Act.

The Indian Post Office (Amendment) Act No. 7 of 1958.

The Working Journalists (Fixation of Rates of Wages) Act 29 of 1958.

Press Council Bill No. XII of 1956 was published on July 31, 1956. The Bill seeks to establish a Press Council for the purpose of preserving the liberty of the press and of improving the standards of newspapers in India.

On 12th December 1958 the Supreme Court of India delivered a very important judgment relating to freedom of the press *vis-a-vis* the privileges of legislatures. It laid down "that under the Constitution of India, Indian legislatures have the right or privilege to prohibit absolutely the publication of even a true and faithful report of the debates or proceedings that take place within the House and to inflict punishment for a breach of such privilege. The right to freedom of speech and expression must be read subject to Art. 19(3) and in Art. 105(3).

NEWSPAPERS

The following is a list of some English dailies with the names of the editors:

Amrita Bazar Patrika, Tushar Kanti Ghosh: Calcutta and Allahabad.

Assam Tribune, L. N. Phookan: Gauhati.

INFORMATION SERVICES

Indian Information Service

Indian Government publicity work is carried out chiefly through the following units of the Ministry of Information and Broadcasting:

1. All-India Radio, 2. Press Information Bureau, 3. Publications Division, 4. Films Division, 5. Directorate of Advertising and Visual Publicity, 6. Research and Reference Division, 7. Directorate of Field Publicity.

Officers of the Bureau are attached to Central Ministries for liaison purposes.

There are regional offices of the Bureau in Bombay, Calcutta, Madras, Bangalore, Ernakulam, Lucknow, Jullundur, Gauhati, Cuttack, Nagpur, Patna, Jaipur, Srinagar and Varanasi.

There is also a Defence Wing for publicity for the Armed Forces.

The Bureau has also Information Centres at New Delhi, Jullundur, Srinagar, Hiraakud and Bhakra Nangal. Apart from these, there are also information centres at other State capitals which are run on cost sharing basis with State Governments.

The Bureau's news, feature and reference services are provided in the following languages: English, Hindi, Urdu, Gujarathi, Marathi, Tamil, Bengali, Telugu, Malayalam, Assamese, Oriya, Punjabi and Kannada.

Photographs and ebonoid blocks are also issued to the press.

The Bureau also keeps the Government informed of the views and comments in the press on Government policy and actions.

DIRECTORATE OF ADVERTISING AND VISUAL PUBLICITY

The Directorate of Advertising & Visual Publicity functions as the central organization for the Press advertising and display publicity campaigns of the various Ministries of the Government of India (excepting Railways) and their attached and subordinate offices.

The media used for visual publicity are posters, broadsheets, folders, pamphlets, leaflets, calendars etc., and in the field of out-door publicity, neon-signs, hoardings and display boards, cinema slides, advertising films, etc.

The Directorate has an Exhibition Division which, through its central and regional wings, organises exhibitions depicting progress of the Five-Year Plans and other themes of national importance.

PRESS COMMISSION

A press commission was appointed by the Government of India in Sept. 1952.

The members of the Commission were: the late G. S. Rajadhyaksha (*Chairman*), Dr. C. P. Ramaswami Aiyar, late Acharya Narendra Deva, Dr. Zakir Hussain, Dr. V. K. B. V. Rao, P. H. Patwardhan, T. N. Singh, Jalpal Singh, J. Natarajan, A. R. Bhat, M. Chalapathi Rao.

Mr. A. D. Mani took the place of Mr. Natarajan in March 1953.

The Commission held its first meeting in New Delhi on October 11 and October 12, 1952.

It submitted its report to the Government of India on July 17, 1954 (signed on July 14).

The details of the report were published in previous issues of this book.

Some important recommendations are given below:

The number of newspapers in the country should be greatly increased and more newspapers should come up in the district towns.

A minimum price should be fixed at which papers of a particular size can be sold.

The price-page schedule should prescribe not only the maximum number of pages that could be sold at a particular price, but also the minimum number that must be offered.

The quantum of advertisement in a week's issue of a newspaper should not exceed 40 per cent of the total area.

The publication of newspapers and periodicals should be made a Central responsibility.

Every paper should be constituted as a separate unit so that its profits and losses are definitely ascertainable and both the proprietor and the employees know where they stand.

In the case of multiple editions, each unit should be separated from the others in the matter of accounts. Where a chain consists of a number of groups, each group should be separated from the other.

A strict code of advertising which all members would be compelled to follow and which would be binding also on the associations of advertising agencies and advertisers should be adopted.

* Annual meeting was to take place in August, 1959.

The Act for the regulation of the press as an industry should include a section which makes it an offence, punishable with fine or with imprisonment, the issue of fraudulent advertisements for publication.

The appointment of a Press Registrar for the country for the compilation of facts and figures relating to the industry is commended. It should be made incumbent on each newspaper and periodical to file certain returns with the Registrar.

The Registrar should bring out an annual report on the working of the press on its organisational side, including working conditions in the industry, and concentration of ownership.

A State Trading Corporation entrusted with a monopoly of imports, should also take over the entire output of newsprint of the Indian mills on a fair basis, and sell it, along with imported newsprint, at equated prices.

However objective a news agency strives to be, there are certain drawbacks which arise from a monopoly and which could be obviated only by a competitive service available freely to all users. In the public interest steps should be taken to see that there is more than one news agency functioning efficiently.

News agencies should not be State-owned or State-controlled, and any assistance from the State should have no strings attached, and the State should not have any voice in the control of the agency either editorially or administratively.

In the interests of greater efficiency and smoother operation, certain changes may be brought about in the management of the news agencies.

In the case of P.T.I., a public corporation should be set up, based on the existing organisation but controlled by a board of trustees whose chairman would be appointed by the Chief Justice of India.

In the case of U.P.I.* the management is to be by a board of trustees. In both cases, the board should include a trustee to represent the employees.

The Government should place advertisements having regard to the following considerations: (1) circulation of the paper and the rates charged by that paper; and (2) readership designed to be reached for the purpose of the particular advertisement.

The newspaper is essentially a public utility and whatever may be the precise form of ownership, the exercise of ownership rights may have to be subject to some measures of restraint and regulation.

In connection with instances where the policy of a paper is dictated by the proprietors to suit their personal interests, there should be a periodical publication in the paper of a complete statement of the names of the proprietors and responsible executives on the newspaper, so that the public could judge the extent to which the views expressed in the paper may have to be rejected as being possibly biased.

Exercise, by the individual owner, of the right of control does carry with it the very real danger of misuse of the press for personal or purely commercial purposes. The remedy lies in the diffusion of effective control, or diffusion of ownership among a large number of persons.

One method of providing diffusion of control without making any change in the ownership of the paper would be to transfer the management to a public trust.

The lack of effective control by those who share the ownership would be avoided if shares are gradually distributed among the employees who function in the undertaking itself and are in constant touch with all its activities.

There already exists, in the Indian newspaper industry, a considerable degree of concentration,

and there is a danger that this tendency might further develop in the future. It would not be desirable, in the interest of freedom of choice, that this tendency should be accentuated.

There has been a general decline in the status and independence of the editor.

When a proprietor chooses his editor, he should also delegate to him a measure of individual authority which would enable him to carry out the policy and to resist any attempt to divert the policy in anti-social directions.

An All-India Press Council should be set up by statute. Its objects among others, will be:—

(1) To safeguard the freedom of the press and help the press to maintain its independence.

(2) By censuring objectionable types of journalistic conduct, and by all other possible means, to build up a code in accordance with the highest professional standards.

(3) To study developments in the press which may tend towards concentration or monopoly and, if necessary, to suggest remedies therefor.

(4) To publish reports, at least once a year, recording its work and reviewing the performance of the press, its development, and the factors affecting them.

(5) To improve the methods of recruitment, education and training for the profession, by the creation of suitable agencies for the purpose such as a Press Institute.

The Press Council should have 25 members excluding the chairman who should be a person who is or has been a judge of a High Court and should be nominated by the Chief Justice of India.

Out of these, 13 or more should be working journalists, and the others should be drawn from newspaper proprietors, universities, literary bodies, etc.

WORKING JOURNALISTS

The Minister for Information and Broadcasting announced on December 22, 1954 that Government accepted the following recommendations of the Press Commission:

1. Institution of a Press Council, 2. Maintenance of separate accounts of each unit of a chain of newspapers, 3. Institution of an Advertising Council to enforce a code of advertising, 4. Manufacture of printing machinery in India, 5. The principle of extending to working journalists the provision of the Industrial Disputes Act, 6. The appointment of an accreditation committee at the Centre and the States to advise on accreditation, 7. Periodical publication in every newspaper of a complete statement of proprietors and responsible executives—appropriate action would be taken on this.

Mr. M. L. Bhardwaj has been appointed Registrar of Newspapers of India.

Journalists were brought within the purview of the Industrial Disputes Act by an Ordinance which came into force in March 1955.

The Working Journalists (Conditions of Service) and Miscellaneous Provisions Act, 1955 is meant to regulate certain conditions of service of working journalists and other persons employed in newspaper establishments. The Act extends to the whole of India except Jammu and Kashmir.

The main provisions of this Act were given in previous issues of this book.

In exercise of the powers vested in it by the Act, the Government of India constituted a Wage Board for Working Journalists under the Chairmanship of Mr. H. V. Divatia. Besides the Chairman, the Board consisted of six members, three representing the employees and three the working journalists. The six members were G. Narasimham, A. B. Bhatt, K. P. Kesava Menon, R. Venkataraman, C. Raghavan and G. N.

Acharya. The function of the Board was to inquire into the wage structure of Indian journalism and fix the scale of remuneration.

The decisions of the Wage Board for Working Journalists, were gazetted on May 11, 1957.

These were outlined in previous issues of this book.

The following newspaper establishments namely Express Newspapers Private Ltd., Press Trust of India, Hindustan Times Publications, Janmahbloom Group of Newspapers run by Saurashtra Trust and Indian National Press Ltd. publishing the Free Press Journal and other newspapers challenged the Board's award in regard to the emoluments of working journalists in the Supreme Court.

The Supreme Court delivered its judgement on March 19, 1958. It upheld the validity of the Working Journalists Act except for a single provision but set aside the decisions of the Wage Board on the ground that the Board did not take into account adequately the capacity of the industry in fixing the rates of wages.

The Court held that the decisions, which were published by the Government of India on May 11, 1957, had been arrived at contrary to the mandatory provisions of Section 9(1) of the Working Journalists Act, which required the Wage Board to have regard to the capacity of the industry in fixing rates of wages, and were, therefore, illegal and void.

The Court also came to the conclusion that Section 5(1) (A) (III) of the Act, which entitled a working journalist to payment of gratuity on his resignation any time after three years, was unreasonable and, therefore, violated the fundamental right to freedom of trade guaranteed under Articles 19(1) (G) of the Constitution.

WAGE COMMITTEE

On June 14, 1958, the President of India promulgated an Ordinance called the Working Journalists (Fixation of Rates of Wages) Ordinance to provide for the fixing of rates of wages for working journalists by the Central Government.

Accordingly Government set up a Committee later known as the Wage Board Committee the same day.

It consisted of: Mr. K. Y. Bhandarkar (Chairman), Secretary, Ministry of Law; Mr. K. N. Subramanian, I.C.S., Joint Secretary, Ministry of Labour & Employment; Mr. R. C. Dutt, I.C.S., Joint Secretary, Ministry of Home Affairs; Mr. T. R. V. Chari, Principal Information Officer, Ministry of Information & Broadcasting and Mr. S. Vaidyanath Aiyar, F.C.A., President, Institute of Chartered Accountants.

The committee was to issue notice in a prescribed manner and invite newspaper establishments, working journalists and other persons interested to make representations to it in respect of the decisions of the Wage Board for Working Journalists and the rates of wages that might be fixed under the Ordinance in respect of working journalists.

Representations to the committee were to be made, under the Ordinance, within a period not exceeding 30 days, specified by the committee in its notice. The representations should specifically state the grounds of objections to the Wage Board's decisions, the rates of wages that would be reasonable having regard to the capacity to pay of the employer, and the alterations or modifications which should be made in the decisions of the Board.

The committee, in making its recommendations by way of modification or otherwise of the decisions of the Wage Board, was directed to keep in view the considerations mentioned in Section 9 (1) of the Working Journalists Act, namely, the cost of living, the rates of wages in comparable employments, the circumstances relating to the newspaper industry in different regions of the country, and any other circumstances which might be relevant.

* Now defunct.

† Now dead.

The committee was also authorised to specify which of its recommendations should have prospective or retrospective effect.

As soon as may be after receiving the recommendations of the committee, the Government was to promulgate an order fixing rates of wages which would be binding on newspaper establishments and working journalists and every working journalist would be entitled to claim wages at a rate not less than that specified in the order.

The order would come into operation on the date of publication or on such date whether prospectively or retrospectively as might be specified.

The committee might exercise any or all the powers of an industrial tribunal, and subject to the provisions of the Ordinance and the rules made thereunder, was also authorised to regulate its own procedure.

The Ordinance also enabled the Central Government to set up a wage board for working journalists, as provided in the Working Journal-

ists Act, at any time three years after the date of the order issued by its fixing the rates of wages.

The provisions of the order would have overriding effect over the terms of any award, agreement or contract of service. But where such an award, agreement or contract of service entitled a working journalist to more favourable benefits in respect of any matter then he would be entitled to under the orders, to that extent the terms of the award, agreement or contract of service would prevail.

The Government was authorised under the Ordinance to make modifications in the recommendations of the committee. The Government was also authorised to remit back to the committee the recommendations or any part thereof, consider the further recommendations of the committee and make an order.

The committee was also authorised to take up separately groups or classes of newspaper establishments and make recommendations from time to time.

In a subsequent interview the Union Labour Minister, Mr. G. L. Nanda, told press correspondents that the promulgation of the Ordinance followed the failure of the Government's attempts to bring about a settlement between the parties after the Supreme Court's judgment. While regretting the failure of these attempts, Mr. Nanda hoped that the parties would still proceed with their task in a spirit of goodwill and accommodation rather than one of creating ill-will and bitterness.

Mr. Nanda said the Government would have to bring forward a Bill in due course amending the Working Journalists Act to bring it in line with the judgment of the Supreme Court.

He would also like newspaper establishments, who had already implemented the decisions of the Wage Board to maintain the status quo.

The Wage Committee published its tentative proposals about wage scales and grades on Dec. 29, 1958 and invited comments from interested parties before Jan. 19, 1959. Later the time was extended to Feb. 2.

Aurangabad (Printravel Hotel, Station Road).
Siliguri (Bagdogra, Hilcart Road, Siliguri).
Bangalore (12-A, Mahatma Gandhi Road, Bangalore Cantt.; Airport Office; H. A. L.).
Belgaum (Hotel Green Camp.).
Banaras (Clarks Hotel, Banaras Cantt.; Babatpur Airport).
Bhairawa (P. O. Nautanwa, Distt. Gorakhpur (U.F.)).
Bhavnagar (Diwanpura Road).
Bhubaneswar (Unit No. 6, Type 6, Quarter 6, New Capital).
Bhubi (Holi Chakia, Near City Palace).
Bombay (Airport Santa Cruz (24 hours Service). Army & Navy Building (24 Hrs Service), Mahatma Gandhi Road, Fort).
Calcutta (4, Chittaranjan Avenue (Passenger Bookings); (Freight Bookings), Airport, Dum Dum: Booking Counter; Traffic).
Chandigarh (Hotel Aroma; Sector 22).
Chittagong (319 Quaid-e-Azam Jinnah Road: Patenga Airport).
Cochin ("Luis Hall", Broadway, Ernakulam. Airport: Willingdon Island).
Colombatore (India House, Trichy Road; Airport Palamudu).
Colombo (City Booking Office: 27, Main Street, Gaffoor Building, Fort; Airport Traffic Office: Colombo Airport, Ratmalana).
Dacca (Noor Chambers, 33 Jinnah Avenue, Ramna; Airport).
Darjeeling (Laden La Road).
Delhi (Malhotra Building, Queensway, New Delhi. Airport Safdarjang; Airport Palam).
Dibrugarh (Mohanbari, Mancotta Road, New Khallamari).
Digbol (Blawanath Singh & Co.).
Gauhati (Pujabari, Pan Bazar).
Hyderabad (Bashir Bagh Road (24 hours service); Begumpet Airport).
Imphal (Mahatma Gandhi Avenue).
Jaipur (2-B, New Colony).
Jammu (Standard Hotel, Residency Road).
Jamnagar (Indra Mahal, Bhid-Bhanjan Road; Airport Office).
Jorhat (Nehru Park Road).
Kabul (Deh Afghan Shaha Md. Khanwad Road).
Karachi (Karachi House, McLeod Road; Airport Office, Drigh Road Airport; Air Freight unit).
Kathmandu (8/42 Judha Sadak Airport).
Kashod (Near Railway Station).
Lahore (11, Dayal Singh Mansions, The Mall; Walton Airport).
Lilabari (North Lakhimpur, Assam).
Lucknow (Carlton Hotel).
Madras (5 and 6, Mount Road; Airport Office; Traffic Officer (Passenger Enquiries); Traffic Officer, Airport).
Madurai (101, West Sandapettai Street).
Mangalore (Sri Rang Bhavan, K. S. Rao Road; Airport).
Nagpur (Asha House, Kingsway (24 Hours Service), Booking Office Airport Sonagaon Traffic Office).
Passighat (Old Hospital Colony).
Pathankot (Hiralal Buildings, Railway Road).
Patna (Exhibition House; Airport).
Porbandar (Harish Talkies Buildings, opp. Caltex Petrol Pump).
Rajkot (Hir Mahal, Coronation Gardens, Adjoining Lal Stores; Airport).
Rangoon (Randeria Building, 533, Merchant Street; Airport Office).
Rupsi (Netaji Subhas Road, Dhubri).
Shillong (A. C. Sen & Co., Peak Hotel, Shillong).
Silchar (Club Road).
Srinagar (Tourist Reception Centre; Airport).
Tespur (Bhabani Kutir, Opp. Academy School).
Tinuklia (Asiatic Trading Co.).
Tiruchirappalli (Ashok Bhawan, Junction Road; Airport, Govt. Civil Aerodrome, Pudu Kottah Road, Tiruchirappalli).
Trivandrum (Trivandrum Air Centre, Main Road; Airport Office, Trivandrum).
Vishakapatnam (20/133, Thompson Road; Airport).

PAKISTAN INTERNATIONAL AIRLINES CORPN.

Head Office: PIA House, Karachi Airport, Karachi, Pakistan.
Offices in India: Metro Hotel, New Delhi; 36, Chowringhee Road, Calcutta; Airlines Hotel, Churchgate, Bombay.

1. NEW DELHI—KARACHI (VISCOUNT—815).

ELECTRIC POWER DEVELOPMENT

(By courtesy of the Central Water and Power Commission, Power Wing.)

It is estimated that well over 80 per cent of India's power requirements are at present obtained from animal dung, wood, agricultural waste, etc., and from living energy (animal and human effort).

About industrial energy, about 80 per cent comes from coal; petroleum products account for about 14 per cent and the balance comes from hydro-electricity.

The aggregate generating capacity of the country in electric power has grown as follows (kW) :—

1900	1,180
1905	11,750
1910	31,847
1915	107,286
1920	130,009
1925	327,152
1930	577,140
1935	859,402
1940	1,181,528
1945	1,249,454
1950	1,712,515
1951	1,835,428
1952	2,061,755
1953	2,305,190
1954	2,493,996
1955	2,694,817
1956	2,886,141
1957-58	3,223,111

The total installed capacity at the end of March, 1958 was 3,223,111 kW, of which 1,213,910 kW was water power and 2,009,192 kW thermal.

The per capita consumption of electric power in India is ridiculously low. In 1957-58 it was 23.66 kW hours as against 5,160 in Canada, 3,602 in Sweden, 4,117 in the U.S.A., 7,068 in Norway and 2,899 in Switzerland. The latest estimates place the hydro-electric power potential of India at 35 million kW, but only a little more than one million kW has been tapped so far.

The production and sale of electric power from 1949 to 1957-58 was as follows (in million kWh) :

	Generated	Sold
1949	4,910	4,000
1950	5,110	4,160
1951	5,860	4,790
1952	6,120	5,000
1953	6,700	5,800
1954	7,520	6,250
1955	8,592	7,111
1956	9,662	7,959
1957-58	11,321	9,307

An analysis of electric power consumption in million kWh is given below. The figure in brackets shows the percentage :

	1956	1957-58
Domestic or Residential light and small power ..	934.122 (11.7)	1,086.130 (11.7)
Commercial light and small power ..	545.851 (6.8)	606.814 (6.5)
Industrial Power ..	5,328.424 (66.9)	6,141.799 (66.0)
Traction ..	404.925 (5.1)	421.894 (4.6)
Public lighting ..	117.767 (1.5)	140.458 (1.5)
Irrigation ..	316.180 (4.0)	543.640 (5.8)
Water Works ..	817.076 (4.0)	365.989 (3.9)
TOTAL ..	7,959.345 (100.0)	9,306.724 (100.0)

The following statement shows the number of electrified towns and villages at the end of 1957-58 :

Population	Number of towns	Number with electric supply	Percentage of towns with electric supply to total
Over 100,000	73	73	100.0
50,000 to 100,000	112	112	100.0
20,000 to 50,000	401	354	88.28
10,000 to 20,000	856	10,173	1.81
5,000 to 10,000	3,101		
Below 5,000	556,565		
TOTAL	561,108	10,712	1.91

It may be pointed out that in 1957-58 six large cities—Bombay, Calcutta, Ahmedabad, Kanpur, Madras and Delhi accounted for 40.9 per cent of the country's installed capacity and 39.7 per cent of the generated energy.

Out of the 561,108 villages in India only about 10,712 were provided with electric power as on March 1958.

The total number of consumers at the end of 1957-58 was 3,207,508 (Domestic 2,474,030; Commercial 515,866 Industrial 125,414; Public lighting 4,549; Irrigation 87,649).

The State-wise analysis for 1957-58 is as follows :

State	No. of stations	Installed capacity (kW)	Energy generated mln. kWh)	Energy sold (mln. kWh)	Capacity in Industrial Plants (kW)	Capacity in railway plants (kW)	Annual per capita consumption (kWh)
Andhra	44	205,791	320.298	254.427	50,831	NOT AVAILABLE	7.48
Assam	27	14,964	18.070	15.867	1.61
Bihar	33	203,077	1,050.868	455.615	288,194	1957-58.	10.80
Bombay	179	844,126	3,386.413	2,920.632	110,417	..	55.64
Jammu and Kashmir	8	12,875	20.332	26.234	5.47
Kerala	9	113,777	441.396	342.384	1,661	..	23.24
Madhya Pradesh	88	91,955	187.492	173.527	34,075	..	6.12
Madras	8	249,666	1,342.006	1,024.949	25,145	..	31.44
Mysore	32	190,824	934.000	789.549	12,875	..	37.42
Orissa	25	95,341	93.220	63.297	15,850	..	3.97
Punjab	41	174,521	667.223	302.279	19,503	..	17.23
Rajasthan	55	45,931	96.140	68.962	31,264	..	8.97
Uttar Pradesh	66	354,905	872.008	717.839	40,930	..	10.44
West Bengal	46	563,064	1,090.415	1,873.136	127,380	..	65.49
Delhi	4	54,730	203.773	265.637	10,779	..	140.03
Rest	9	7,764	8.238	12.390	535	..	3.88
TOTAL	674	3,223,111	11,321.892	9,306.724	769,439	..	23.66

INSTALLED CAPACITY

Some individual industries have power-stations of their own. The number of installations and the installed capacity are as follows (as on 31st March, 1958) :

	No.	Capacity (kW)
Aluminium (Primary) ..	5	16,482
Aluminium (Secondary) ..	8	234
Cement (Primary) ..	27	112,380
Cement (Secondary) ..	25	649
Chemicals ..	31	19,235
Collieries ..	155	58,071
Copper (Primary) ..	1	9,875
Copper (Secondary) ..	1	..
Cotton Textiles ..	327	119,817
Fertilisers ..	4	50,160
Gold ..	1	4,725
Iron & Steel (Primary) ..	5	172,450
Iron & Steel (Secondary) ..	20	480
Jute ..	83	33,529
Paper ..	21	73,535
Silk ..	27	1,480
Soap ..	14	366
Sugar ..	81	60,431
Tanneries ..	8	297
Wool ..	13	5,253
TOTAL†	857	769,439

† Does not take into account the figures for railways.

The generating capacity by ownership is as follows :

	1955	1956	1957-58
State owned (Public Sector) ..	1,517,476	1,683,533	1,937,747
Companies (Private Sector) ..	1,177,341	1,202,608	1,285,364
TOTAL	2,694,817	2,886,141	3,223,111

The number of installations at the end of 1957-58 was distributed as follows :

	No.
State Government	111
State Electricity Board	172
Power Corporation	2
Municipality	22
Companies	161
TOTAL	468

Tentative information about installed capacity in kW for 1957-58 by source is given below :—

State	Steam	Hydro	Oil	Total
Andhra	83,500	102,000	20,291	205,791
Assam	622	8,950	5,392	14,964
Bihar	183,620	4,000	15,457	203,077
Bombay	483,650	279,914	80,563	844,128
Jammu and Kashmir	1,500	10,000	769	12,875
Kerala	74,322	109,500	4,277	113,777
Madhya Pradesh	84,000	166,150	17,633	249,683
Madras	178,200	516	180,624
Mysore	85,505	4,000	95,341
Orissa	5,776	145,990	20,705	174,521
Punjab	7,828	21,181	45,931
Rajasthan	24,750	30,755	364,905
Uttar Pradesh	227,760	96,390	27,208	563,064
West Bengal	528,331	3,130	54,730
Delhi	51,600	1,258	7,764
Rest	6,000	506
TOTAL	1,763,257	1,213,919	245,935	3,223,111

FIVE-YEAR PLANS

At the beginning of the First Plan the total installed capacity in the country was 1.8 mln. kW. This was raised to about 3.2 mln. kW. in March 1958.

During the Plan period a total of Rs. 206.71 crores was spent on the four multi-purpose projects—Bhakra, Harike, D.V.C., Hirakud. The Plan provision was Rs. 246.03 crores.

The total expenditure on the new major projects was Rs. 18.11 crores—Koyna, Rihand, Kosi, Nagarjuna Sagar, Chambal.

The total expenditure on the power projects during the First Plan period was Rs. 152.89 crores as against the Plan provision of Rs. 178.63 crores.

The total number of power schemes undertaken during the First Plan was 344. The following principal power schemes were put into commis-

sion during the Plan period. The power generated is also shown :

Bokaro (Bihar) : 1,50,000 kW; Chola Kalyan (Bombay) : 54,000 kW; Jog (Mysore) : 72,000 kW; Khaperkheda (M.P.) : 30,000 kW; Machkund (Andhra-Orissa) : 34,000 kW; Madras city plant extension : 30,000 kW; Moyal (Madras) : 36,000 kW; Nangal (Punjab) : 48,000 kW; Pathri (U.P.) : 13,600 kW; Sarda (U.P.) : 27,600 kW; Sergulam (Kerala) : 48,000 kW.

The total provision for power in the Second Plan is Rs. 427 crores. The target is 6.9 mln. kW.

Rural

The programme included in the Second Five-Year Plan is an ambitious one. Out of Rs. 427 crores for the entire power programme in the country, as much as Rs. 75 crores has been set apart for extending electricity to villages.

During the Second Plan 12,930 villages are expected to be electrified. The number of villages due for electrification in 1958-59 was 2,384.

The State-wise figures for the Plan period are :

Assam 29; Bihar 1,285; Bombay 700; Kerala 1,344; Madras 5,000; Madhya Pradesh 329; Mysore 700; Orissa 223; Punjab 2,100; Rajasthan 113; Uttar Pradesh 235; Centrally Administered Areas 872.

The total number of villages electrified as on March 1958 was 10,712.

At the beginning of the First Plan the number of villages which had electric power was 3,075. At the end of the First Plan the number rose to about 6,500.

Even with this achievement, however, only a little over 3 per cent of the villages would have been covered in 1961.

It is estimated that the average cost of electrification of a village based on present day costs is between Rs. 60,000 and 70,000.

The total cost of reaching all the villages may be put at Rs. 3,000 crores at present day price levels.

POWER PROJECTS

Statistical information about five major multi-purpose projects under the Central Government are given below (power in thousand kilowatts).

Name	Date of completion	Installed capacity	Firm power
Nangal (Punjab) : Ganguwal	1955	96 + 48	72 + 48
Nangal : Kotla	1956		
Bhakra	1961		
Damodar (Bihar, W. Bengal) :			
Bokaro thermal	1953	150	—
Maithon	1957	60	—
Panchet Hill	1959	40	—
Tilaiya	1963	4	—
Damodar (total)	—	254	174
Hirakud (Orissa) :			
Power House No. 1	1957	123	85
Chambal (Gandhisagar) (Rajasthan, Madhya Pradesh)	1962	92	69

In the Tungbhadra Project (Andhra, Mysore) the Dam Power House was completed in December 1956, and the Hampi Power House in April 1957. Total installed capacity will be 63,000 kW.

The Koyna Project (Bombay) Power House will have four units of 60,000 kW each. The project is expected to be completed in 1961-62.

The Rihand Project (U.P.) will have a power house with five units of 60,000 kW each. The project is expected to be completed in June 1961.

The Chambal Project Stage I (Rajasthan, Madhya Pradesh) will generate 75,000 kW of power and is expected to be completed in 1962.

The Nagarjuna Sagar Project (Andhra) will generate at 60 per cent load factor 75,000 kW.

The Central Government have enacted legislation, the Electricity (Supply) Act, 1948, to

provide for the rationalisation of the production and supply of electricity in the country.

The Act provides for the formation of State Electricity Boards in the States which will be charged with the general duty of promoting the co-ordinated development of the generation, supply and distribution of electricity within the State in the most efficient and economical manner.

The State Electricity Boards are required to rationalise supply and distribution of energy, prepare and carry out new schemes, acquire existing stations and equipment, give bulk supplies of power to existing licensees, designate wherever necessary existing stations as controlled stations and direct licensees to achieve the maximum economy and efficiency in the operation of their undertaking.

So far Madhya Pradesh, W. Bengal, Assam, Bihar, Kerala, Madras, Rajasthan, Mysore, Punjab and Bombay States have set up such Boards.

The Act also provides for the creation of a Central Electricity Authority for developing a sound, adequate and uniform national policy and to advise the State Electricity Boards on all major power development schemes that may be taken up by them.

The Authority was constituted in 1950.

It is to act as arbitrator in disputes between a State Government or State Electricity Board and licensee or other persons.

It has to carry out investigations and collect data concerning the generation, distribution and utilisation of power and the development of power resources and publish them from time to time.

CHURCHES IN INDIA

CATHOLIC CHURCH

India is divided into Dioceses and Prefectures Apostolic, which are grouped in 16 Ecclesiastical Provinces or Archdioceses, as follows:—Archdioceses of: 1. Agra with the Dioceses of Ajmer, Allahabad, Indore, Jhansi, Lucknow, Meerut and the Prefecture Apostolic of Gorakhpur; 2. Bangalore with the Dioceses of Bellary, Mangalore, Mysore, Ootacamund; 3. Bombay with the Dioceses of Ahmedabad, Belgaum, Poona; 4. Calcutta with the Dioceses of Dibrugarh, Jalpaiguri, Krishnagar, Patna, Shillong and the Prefecture Apostolic of Bhagalpur, Haflong, Malda, and Sikkim; 5. Changanacherry (Syro-Malabar) with the Dioceses of Kottayam and Palai; 6. Delhi and Simla with the Prefectures Apostolic of Jammu-Kashmir and Jullundur; 7. Ernakulam (Syro-Malabar) with the Dioceses of Kothamangalam, Tellicherry and Trichur; 8. Goa and Damann; 9. Hyderabad with Dioceses of Guntur, Nellore, Vijayawada, Visakhapatnam and Warangal; 10. Madras-Mylapore with the Dioceses of Coimbatore and Vellore; 11. Madurai with the Dioceses of Tiruchirappalli and Tuticorin; 12. Nagpur with the Dioceses of Amravati, Jabalpur, and Rajgarh-Ambikapur; 13. Pondicherry and Cuddalore with the Dioceses of Kumbakonam, Salem, and Tanjore; 14. Ranchi with the Dioceses of Cuttack and Sambalpur; 15. Trivandrum (Syro-Malankara) with the Diocese of Tiruvalla; 16. Verapoly with the Dioceses of Alleppey, Calicut, Cochin, Kottar, Quilon, Trivandrum (Latin), and Vijayapuram.

In all there are 16 Archdioceses (Metropolitan Sees), 48 Dioceses (Suffragan Sees) and 7 Prefectures Apostolic. At the head of an Ecclesiastical Province or Archdiocese there is an Archbishop; at the head of a Diocese there is a Bishop; and at the head of a Prefecture Apostolic there is a Prefect Apostolic.

The Apostolic Internuncio: His Excellency The Most Rev. Dr. James R. Knox, (Apostolic Internunciature, Chanakya Puri, New Delhi 2.)

The Cardinal: His Eminence Valerian Gracias, D.D., M.A. (Archbishop's House, Bombay 1.)

Statistics: Number of Catholics: 5,932,937; Clergy (Foreign): 1,211; Clergy (Indian): 4,446; Colleges: 53; High Schools: 6,176; Technical & Industrial Schools: 135; Students in Colleges: 31,985; Students in Schools: 1,041,083; Hospitals: 132; Dispensaries: 407; Homes for the Aged: 96; Orphanages & Foundling Homes: 421; Leper Asylums: 7; Creches: 64; Rescue Homes: 6; Poor Homes: 20.

PROTESTANT CHURCHES

Below are given particulars about Protestant churches in India which may be of interest.

Places of Worship: 28,533; Ordained Ministers: National: 6,885; Foreign: 1,033; Laymen: National: 24,636; Foreign: 383; Women Foreign Workers: 1,426; Christian Colleges: 46; High Schools: 314; Industrial Schools: 42; Hospitals: 258; Leprosy Institutions: 49; Tuberculosis Sanatoria: 12; Homes for Blind, Deaf, etc.: 8; Homes for Women: 15; Orphanages: 85; Social & Welfare Organisations: 87.

Percentage of Literacy for Protestants, 21.5 (1941 Census); Number of languages in which the scriptures (Protestant version) are available either wholly or in part, 86.

Assemblies of God

Assemblies of God in Great Britain and Ireland in India: Ashti P.O., Bhilr Dist., via Ahmednagar, Bombay.

Australian Assemblies of God Mission: Mission Bungalow, Khed, Taluka Khed, Poona Dist.

South India Assemblies of God: Bethel Bible School, Punalur P.O., Kerala.

Baptist Churches

Baptist Union of India, Pakistan, Burma and Ceylon: The Baptist Union of India, Pakistan, Burma and Ceylon came into being in 1937 in response to a widespread desire on the part of churches and missions of that order for closer co-operation and fellowships in their task.

The union functions as the representative of the affiliated churches and missions in relations to the National Christian Council, the Baptist World Alliance and in other ways that call for concerted voice and action.

Address: Canadian Baptist Mission, Kakina, East Godavari Dist., Andhra Pradesh.

Local Autonomous Churches

Throughout the country there are a large number of local churches, generally of a congregational order, which are fully autonomous. Where information is available these are recorded.

Christian Assemblies in India (Generally known as 'Brethren')

This group consists of hundreds of local independent churches or assemblies on the simple N.T. pattern throughout India, having no common congregational set up but maintaining close fellowship with one another. Most of these were established through the faithful labours of Indian Nationals. Foreign workers previously entered under the initials C.M.M. and F.C.A. work in fellowship with this Missionary Church, mostly shouldering responsibilities connected with Institutions. More details relating to any State may be had by contacting those persons.

Honorary Fellowship Assemblies: P.O. Box 217, Masheerabad, Hyderabad, Andhra Pradesh.

Full Gospel Church Fellowship: 171, Napier Town, Jabalpur, M.P.

Other Groups

Some of the other Independent Churches have been unified under two organisations:

(1) THE ALL INDIA FEDERATION OF NATIONAL CHURCHES with Rev. R. S. Modak as President and Rev. R. S. Williams as General Secretary.

(2) THE FELLOWSHIP OF CHRIST IN INDIA—BHARAT CHRIST SANGH—in Northeast India with the Rev. B. D. Roy, M.A., B.T., Dip. Ed. (Bristol) as President and the Rev. R. C. Das, M.A., as Executive Secretary.

The aim at creating an independent and indigenous church in India. At present there is no formal inter-relation. There is however a fellowship, and sometimes some co-operation.

Lutheran Churches

Federation of Evangelical Lutheran Churches in India: is an expression of the spiritual unity of the Lutheran churches.

The Federation started in July 1953, a Theological College, in Madras in which 8 of its constituent bodies now co-operate. This institution is named as *The Gurukul Lutheran Theological College and Research Institute*, and directs its course of study to the B.D. degree. A further aim is graded research in both Christian and non-Christian religions against the Indian background. It has a governing council of 11 members and is established at Gurukul, Madras 10.

CHRISTIAN MISSIONS IN INDIA

Foreign and national missionaries in India received Rs. 24 crores from abroad during the 30 months preceding June, 1958, it is learned.

Remittances received in 1956 totalled Rs. 9.28 crores and they rose to Rs. 9.53 crores in 1957. The contributions in the first half of 1958 exceeded Rs. 5 crores.

The U. S. led the other countries with remittances totalling Rs. 18.40 crores. The contributions from the countries of the sterling area came to about Rs. 3.3 crores and those from others totalled Rs. 2 crores.

The number of registered foreign missionaries in India, however, shows a decline over the last three years. The number, which was 5,691 in January, 1956, fell to 5,511 in January, 1957, and 4,844 in January, 1958.

Secretary :—Rev. I. A. Phillips.

OTHER MISSIONS

INDIA INDUSTRIAL MISSION, Coimbatore, Calcutta 2.

SALVATION ARMY

The work of the Salvation Army in India and Ceylon was commenced in 1882 by the late Commissioner Booth-Tucker and was for many years under his control, with Headquarters in India. For some time now, the areas occupied have been divided for administrative purposes into 6 Territories, each under a Territorial Commander; and one smaller Command. The headquarters for Pakistan are at Lahore.

North-Eastern Territory, with Headquarters at Calcutta.

Western Territory, with Headquarters at Bombay.

Madras and Andhra Territory, with Headquarters at Madras.

Southern Territory, with Headquarters at Trivandrum, in Kerala.

Ceylon Territory, with Headquarters at Colombo.

Burma Command, with Headquarters at Rangoon.

The Audit and Editorial office is at Poona.

The Commanders are directly responsible to the International Headquarters in London.

North-Eastern Territory.—The area in this Territory is the Salvation Army work in the Punjab (India), Uttar Pradesh, Orissa, Bengal and Assam.

Evangelistic work is extensively carried on.

Medical work is carried on in two Hospitals, one of which is in Dharawal, Punjab and the other in Moradabad, Uttar Pradesh; and also dispensaries.

There are boarding and day schools, a men's Industrial Home in Calcutta, a Young Women's Hostel, and orphanages for both girls and boys.

Village centres at which the S. A. works	2,091
Officers and Employees	719
Social Institutions	7
Boarding and day schools	10
Hospitals	2
Guest House	1

Territorial Headquarters : 37, Dharamtala Street, Calcutta 12.

Territorial Commander :—Lt. Commissioner Joseph Dayha.

Madras and Andhra Territory.—Embraces Madras City, the central and northern districts, of Madras, Andhra Pradesh and Madhya Pradesh. 865 fully commissioned officers and 255 workers are fully occupied in evangelical, educational and village uplift work carried on in just over 400 villages, a high school with hostels for boys and girls, a Training Institute for men and women selected for officership; agricultural settlement of 2,500 men, women and children—many work at Chirala, the others on the land. A Leprosy Hospital, General Hospital, a Social Services Department where wastepaper sorting, etc. is carried on, and a Women's and Children's Home in Madras complete the list of institutions where work is going forward.

Territorial Headquarters :—The Salvation Army, 1C, Ritherdon Road, P.O. Box 483, Vepery, Madras 7.

Territorial Commander :—Colonel Ernest Stanley Hannam.

General Secretary :—Brigadier P. Bhushanam.

Southern India Territory.—The Territorial Headquarters is in Trivandrum in Kerala State.

In 1,156 Corps and Centres of work, the majority of officers labour among the village population. The Army has a membership in South India of 91,018.

This territory is divided for administrative purposes into 15 divisions and Districts, 6 among the Tamil-speaking people and 9 among those who speak Malayalam.

The Catherine Booth Hospital at Nagercoil, is now a fully equipped, modern institution of many departments, dealing with all types of medical and surgical cases. The Hospital is equipped with X-Ray, radium, iron lung and excellent nursing facilities. Branch Hospitals carry the service to some of the most remote regions. 74,422 patients were treated during 1957 in the Catherine Booth Hospital and its several branches and 1,227 major operations and 2,881 minor operations were performed. The Evangeline Booth Leper Hospital at Puthencruz in north Travancore, accommodates 167 patients. These institutions carry on work in accordance with the highest traditions of Christian service.

Workers in the Territory consist of 1,432 officers, 381 employees. There are, 415 Officer Corps and 99 societies, 29 primary day schools, 2 boarding schools, 1 middle school, 1 high school, 1 training garrison, 642 outposts, 1 women's industry.

Territorial Headquarters :—Kowdiyar, Trivandrum 3.

Territorial Commander :—Lieut.-Commissioner Ivar Palmer.

Chief Secretary :—Lt. Colonel Prabhakar S. Das.

Western India Territory.—This territory comprises Corps 242; Outposts 761; Social Institutions 14; Day Schools 81; Boarding Schools 2; Training Colleges 2.

Besides the evangelical operations there are in this Territory, two large Hospitals, the Emory Hospital at Anand, and the Evangeline Booth Hospital at Ahmednagar and a number of dispensaries. Patients treated at both Hospitals during 1958 were—Out-patients 17,029, In-patients 6,929; Major Operations performed 1,313; Minor Operations performed 3,880. Both Hospitals are well-equipped and have a Nurses' Training School attached.

Social work in Bombay includes the King George V Memorial Infirmary, and Lady Dhanbai Jehangir Home for Destitutes, Industrial and Rescue Home for Women at Matunga and King Edward Industrial Home for Men at Byculla. A well-equipped Red Shield House, is situated on Merewether Road, Fort, Bombay. Accommodation for visitors to Bombay may be secured there.

Territorial Headquarters :—P.O. Box 4510, Morland Road, Byculla, Bombay 8.

Territorial Commander :—Lt. Commissioner Theo. H. Holbrook.

Chief Secretary :—Colonel D. A. Sanjivi.

NATIONAL CHRISTIAN COUNCIL OF INDIA
Chiefly to help to co-ordinate the activities of member Churches and Regional Councils and to assist them to co-operate with one another where such co-operation is desirable.

President :—The Most Rev. A. N. Mukerjee, 51, Chowringhee Road, Calcutta-16.

Vice-Presidents :—Dr. D. G. Moses, Hislop College, Nagpur and Rt. Rev. J. E. L. Newbigin, C.S.I., Tallakulam P.O., Madurai, S. India.

Treasurer :—J. S. S. Malelu, Central Bank of India, Bombay 1.

Secretaries :—E. C. Bhatti, M.A., Ph.D.; Korula Jacob, M.A., M.Ed.; The Rev. W. Scopes, M.A.; The Rev. A.E.D. Frederick, M.A., B.D.; The Rev. J. G. F. Naumann; The Rev. H. E. Ferger.

Address :—The National Christian Council, Christian Council Lodge, Nagpur 1 (Bombay State).

SCHEDULED CASTES, TRIBES AND BACKWARD CLASSES

The President has defined by means of an order who the Scheduled Castes and Tribes are.

As regards Backward Classes a Commission was appointed to enquire into their condition.

The functions of the Commission were to determine the criteria on the basis of which any particular section can be described as socially or educationally backward, to prepare a list of such Backward Classes for the whole of India, to examine the condition and difficulties of such classes and make specific recommendations (including financial) for their removal.

The Commission listed 2,399 different classes comprising more than 11 crores of people as socially and educationally backward. The Home Minister in commenting on this stated that this reduced the investigation to an absurdity when the bulk of the country's millions could be counted as coming within the category of backward classes. The criteria fixed by the commission were neither clear-cut nor reliable.

For population of Scheduled Castes and Scheduled Tribes see under Population.

These classes include 779 Scheduled Castes, 245 Scheduled Tribes and 198 nomadic tribes besides a number of unspecified groups.

The Scheduled Tribes live in remote forest regions, chiefly in Bombay, Madhya Pradesh, Bihar, Orissa, West Bengal and Assam.

The percentage of the population of the Scheduled Castes and the Scheduled Tribes to the population as a whole is given below:

Andhra: 14.13, 3.68; Assam: 4.69, 19.48; Bihar: 12.67, 10.00; Bombay: 10.78, 7.76; Kashmir: 3.54, no Scheduled Tribes; Kerala: 8.91, 0.99; M.P.: 15.01, 18.58; Madras: 17.95, 0.45; Mysore: 13.31, 0.41; Orissa: 17.95, 20.55; Punjab: 21.64, 0.02; Rajasthan: 15.67, 11.11; Uttar Pradesh: 20.72, No Scheduled Tribes; West Bengal: 18.04, 5.96.

Delhi: 15.40, No Scheduled Tribes; Himachal Pradesh: 28.84, 2.52; Jammu & Kashmir: No Scheduled Castes, 46.11; Manipur: 4.96, 33.63, Tripura: 7.29, 30.09.

All India: 15.32, 6.23.

Untouchability is abolished and its practice prohibited by law. The State works for the removal of any disability, liability, restriction or condition with regard to access to shops, public restaurants, hotels and places of public entertainment, the use of wells, tanks, roads and places of public resort maintained wholly or partly out of State funds.

The Untouchability (Offences) Act came into force on June 1, 1955.

The State also works for the throwing open of Hindu religious institutions of a public character to all sections.

NEFA is an administrative area under the Central Government, populated almost wholly by Scheduled Tribes.

A Naga Administrative Unit under Central Administration also came into being in December 1957.

The Tribes Advisory Councils exist in Andhra, Bihar, Bombay, M.P., Madras, Orissa, Punjab, Rajasthan and W. Bengal.

With regard to the recommendation for the reservation of seats in Central and State services for backward classes, a substantial minority in the Commission (referred to above) itself was opposed to such reservation. Yet another recommendation was that 70 per cent of the seats in technical and technological institutions of higher learning should be reserved for backward classes.

All the special provisions mentioned above may come up for review by a Commission appointed by the President at any time within ten years.

The expenditure incurred on some individual items during 1957-58 is as follows. The figures are in Rs. lakhs.

	Education	Agriculture	Cottage Industries	Health	Housing	Rehabilitation
Scheduled Tribes ..	154.44	61.28	21.03	64.26	10.54	10.78
Scheduled Castes ..	169.99	20.65	12.63	26.62	92.35	..
Ex-Criminal Tribes ..	11.02	5.62	3.53	1.31	5.56	1.72
Other Backward Classes ..	92.23	7.34	6.65	1.62	1.53	1.23
	Co-operatives		Communications		Aid to Voluntary Agencies	
Tribes	10.53		93.82		9.86	
Castes	1.10		—		12.23	
Ex-Criminal		0.74	
Others		1.75	

after the commencement of the new Constitution. Meanwhile there is an official with the Central Government who is to report to the President from time to time on the working of these provisions.

WELFARE SCHEMES

Total expenditure on welfare of the Scheduled Tribes and Areas for 1957-58 in the State Sector: Rs. 4.92 crores.

Total expenditure on the welfare of Scheduled Castes: Rs. 3.57 crores.

For the welfare of ex-Criminal Tribes: Rs. 30.38 lakhs.

For the welfare of other backward classes: Rs. 1.17 crores.

Total: Rs. 9.96 crores.

The 1957-58 figures for the Central Sector were (estimated): Scheduled Tribes: Rs. 1.15 crores; Scheduled Castes: Rs. 23.71 lakhs; Ex-Criminal Tribes: Rs. 3.71 lakhs; Other Backward Classes: Rs. 2.31 lakhs. Total: Rs. 1.45 crores.

Grand total for 1957-58: Rs. 11.41 crores. Out of this the Central grant-in-aid sanctioned was Rs. 10.13 crores.

The following sums were made available to certain non-official bodies during 1957-58 by the Home Ministry for work in connection with the eradication of untouchability:

Harijan Savak Sangh, Delhi: Rs. 3,13,833; **Bharatiya Depressed Classes League, Delhi:** Rs. 2,21,076; **Iswar Saran Ashram, Allahabad:** Rs. 73,650; **Central Social Welfare, Board, Delhi:** N.A.; **Bharat Dalit Sevak Sangh, Poona:** Rs. 47,700.

For work among other backward classes: **Bharatiya Adajati Sevak Sangh, Delhi:** Rs. 86,288; **Servants of India Society, Allahabad:** Rs. 48,553; **India Red Cross Society, Delhi:** Rs. N.A.; **All India Backward Classes Federation, Delhi:** Rs. 24,379.

Total: Rs. 7,67,829.

Other grants-in-aid sanctioned through State Governments for 1957-58 were:

Tata Institute of Social Sciences, for training of Tribal Welfare Officers, Rs. 62,000.

Indian Council of Child Welfare, Chhindwara, M.P., for setting up child-welfare Centres and day nurseries, Rs. 50,000.

Bharatiya Lok Kala Mandal, Udaipur, for cultural survey in scheduled areas of M.P., Rs. 6,500.

Khadi and Village Industries Board, U.P., for construction of houses for Scheduled Castes, Rs. 2,21,000.

Servants of India Society, Andhra Pradesh Branch, for starting of Ashram schools in Scheduled Areas, Rs. 28,650.

Bharatiya Adimjati Sevak Sangh, Andhra Pradesh, for welfare work among Tribals, Rs. 1,00,000.

SAFEGUARDS

The Constitution of India has laid down certain safeguards for Scheduled Castes, Scheduled Tribes and Backward Classes, the weaker sections of the people.

In the chapter on Fundamental Rights, under Articles 15, 16 and 17, it has been stated that the State shall not discriminate between any citizens on ground of religion, race, caste, sex or place of birth. This does not prevent the State, however, from framing rules for the reservation of seats in the legislature or of appointments in the public services in favour of any class which is not adequately represented.

Similarly, under Article 19, the right to freedom is circumscribed by authorising the State to place reasonable restrictions for the protection of the interests of Scheduled Tribes.

Under the directive principles of policy, under part 4, Article 46 of the Constitution, it is said that the State should promote the educational, economic and political interests of the weaker section of the people and in particular the Scheduled Castes and Scheduled Tribes and protect them from social injustices and all forms of exploitation.

Under Article 17 untouchability is abolished and its practice in any form forbidden.

Article 25 empowers the State to throw open Hindu religious institutions of a public character.

Article 29 provides that no citizen can be denied admission into any educational institution maintained by the State or aided by it on grounds of religion, race, caste or language.

It has been laid down under Article 164, that in the States of Bihar, Madhya Pradesh and Orissa, there should be a Minister in charge of Tribal Welfare who may, in addition, be in charge of the welfare of Scheduled Castes and Scheduled Tribes or any other work of allied nature.

Advisory boards or committees on Harijan welfare have been set up in all States and the Territory of Delhi. In the rest of the Territories there is no Harijan problem.

The Vth and VIth Schedules of the Constitution under Article 244 also provide for the administration and control of Schedule areas and Scheduled Tribes and of Tribal areas in Assam by providing Tribe Advisory Councils for Tribal areas.

For the promotion of the welfare of Scheduled Tribes and Schedule areas, provision has been made under Article 275 for grants-in-aid to be paid out of the Consolidated Fund of India for such schemes of development as may be undertaken by the States with the approval of the Government of India for raising the administration of the Schedule areas of the State to the same level as that of the other areas of the State.

Special provision for grants-in-aid has been made in the case of Assam.

In the Tribal areas in Assam, District or Regional Councils have to be set up for each autonomous region. Three-fourths of the members have to be elected on a basis of adult franchise.

There are special departments to look after the welfare of Scheduled Castes and Tribes and Backward classes in nearly every State.

REPRESENTATION IN LEGISLATURES

Seats are reserved in the Lok Sabha under Articles 330 and 332 for Scheduled Castes and for Scheduled Tribes including the Tribal areas and autonomous districts of Assam.

The number of seats reserved in any State bears the same proportion to the total number of seats allotted to that State in the Lok Sabha as the population of Scheduled Castes and Scheduled Tribes in the State or the part of the State bears to the total population of the State.

Similarly in the Legislative Assembly of every State seats are reserved.

The reservation of seats in the Lok Sabha and Legislative Assemblies will cease to have effect on the expiration of a period of ten years from the commencement of the Constitution.

The representation of the Anglo-Indian community in the Lok Sabha and in the Legislative Assemblies of the States by nomination will also cease after ten years.

Under these provisions 76 seats in the Lok Sabha and 470 in the States Legislatures have been reserved for the Scheduled Castes, and 31 seats in the Lok Sabha and 221 in the State Legislatures for the Tribes.

In addition to the election of reserved seats in the Lok Sabha, 6 members from the Scheduled Castes and 3 from the Scheduled Tribes were returned to the Lok Sabha in the 1957 general elections. For the State Assemblies the respective figures were 8 and 7.

In the Rajya Sabha there were 9 members belonging to the Scheduled Castes and Tribes and in the Legislative Councils there were 9 from the Scheduled Castes and 4 from the Tribes.

The 6 members from the Scheduled Castes elected to the non-reserved seats in the Lok Sabha were:

Mr. B. C. Kamble (Bombay), Mr. H. B. Sonule (Bombay), Mr. B. D. Solunke (Bombay), Mr. V. Easharan (Kerala), Mr. R. L. Jangde (M.P.), Mr. P. B. Naskar (W. Bengal).

The 3 from the Scheduled Tribes were:

Mr. D. S. Dora (Andhra), Mr. J. N. Hazarika (Assam), Mr. D. Deb (Tripura).

The 6 members from the Scheduled Castes in the Rajya Sabha were:

Mr. K. Ram (Bihar), Mr. P. N. Rajabhoj (Bombay), Mr. P. T. Louva (Bombay), Mr. R. U. Agnihotj (M.P.), Mr. V. M. S. Ram (Madras), Mr. E. F. Tamta (U.P.).

The 3 from the Scheduled Tribes were: **Mr. E. Thankira (Assam), Mr. T. Bodra (Bihar), Mr. T. B. P. Singh (M.P.).**

The number of Scheduled Caste and Scheduled Tribe members elected to the non-reserved seats in the State legislatures were respectively as follows:

Andhra 1, none; Assam 1, 1; Bihar none, 2; Kerala 1, none; M.P. none, 1; Madras 2, none; Mysore 1, none; Orissa none, 1; U.P. 1, none; W. Bengal 1, 2.

The position in the Legislative Councils is as follows: **Bihar 3, 4; Bombay 1, none; Madras 1, none; Mysore 2, none; Punjab 1, none; U.P. 1, none.**

REPRESENTATION IN GOVERNMENT

About Ministerial posts the position during 1957 was as follows:

In the Central Government there was one Minister, one Deputy Minister and one Parliamentary Secretary from the Scheduled Castes and one Parliamentary Secretary from the Scheduled Tribes.

Central (Scheduled Castes):

Minister, Mr. Jagjivan Ram; Deputy Minister, Dr. Mono Mohan Das; Parliamentary Secretary, Mr. B. S. Murthy.

Central (Scheduled Tribes):

Parliamentary Secretary, Mr. J. N. Hazarika.

In the State Governments there were 14 Ministers, 7 Deputy Ministers and 4 Parliamentary Secretaries belonging to the Scheduled Castes, and 3 Ministers, 5 Deputy Ministers and 3 Parliamentary Secretaries belonging to the Tribes.

The 14 Ministers belonging to the Scheduled Castes were: **Mr. D. Sanjivayya (Andhra), Mr. M. N. Hazarika (Assam), Mr. Bhola Paswan (Bihar), Mr. N. K. Tirpude (Bombay), Mr. G. R. Anant (M.P.), P. Kakkam (Madras), Mr. Gurbanta Singh (Punjab), Mr. Girdhari Lal (U.P.), Mr. Sita Ram (U.P. Minister of State), Mr. H. C. Naskar (W. Bengal), S. P. Burman (W. Bengal), Mr. R. Chennigaramiah (Mysore), Mr. P. K. Chattan (Kerala), Mr. B. C. Ram (Kashmir, Minister of State).**

The 7 Deputy Ministers belonging to the Scheduled Castes were: **Mr. C. Ram (Bihar), Mr. S. S. Vishnar (M.P.), Mr. S. K. Das (Orissa), Mr. Y. Rai (Punjab), Mr. D. Singh (Punjab), Mr. S. C. Ray Singha (W. Bengal), Mr. S. Ram (Rajasthan).**

The 4 Parliamentary Secretaries belonging to the Scheduled Castes were: **Mr. B. S. Arya (U.P.), Mr. D. Singh (U.P.), Mr. A. S. Naskar (W. Bengal), Mr. N. Majhi (W. Bengal).**

The three Ministers belonging to the Scheduled Tribes were: **Mr. W. A. Sagama (Assam), Mr. Rupnath Brahma (Assam), Mr. N. C. Singh (M.P.).**

The five Deputy Ministers were: **Mr. B. K. Patel (Bombay), Mr. S. B. Solanki (M.P.), Mr. B. S. Bariha (Orissa), Mr. T. Wangdi (W. Bengal), Mr. B. Bhai (Rajasthan).**

The three Parliamentary Secretaries were: **Mr. A. Thangura (Assam, Chief Parl. Secy.), Mr. Lalmawia (Assam), Mr. K. K. Hembram (W. Bengal).**

SERVICES

The claims of members of Scheduled Castes and Scheduled Tribes should be taken into consideration according to Article 335 in the making of appointments to services and posts in connection with the affairs of the Union or of a State consistently with the maintenance of the efficiency of the administration.

The quota reserved for Scheduled Castes and Scheduled Tribes in the Government of India services is as follows:—

Direct Recruitment on all-India Basis :

12½ per cent of vacancies filled by open competition and 16½ per cent of the vacancies filled otherwise have been reserved for Scheduled Castes, and five per cent of the vacancies in all cases for the Scheduled Tribes filled through open competition or otherwise.

In cases of promotion, the following orders have been issued :

For Non-Selection Posts :

(a) If promotion is made subject to the passing of a qualifying departmental examination, the

standard of qualification for Scheduled Castes and Scheduled Tribes need not be so high as prescribed for other candidates;

(b) If promotion is made otherwise than by a qualifying examination, Scheduled Caste and Scheduled Tribe candidates should be adjudged sympathetically without applying too rigid a standard, and the candidates belonging to these castes and tribes should not be superseded without their cases being reviewed at high levels.

For Selection Posts :

(a) If promotions are to be made on the basis of a competitive examination, the communal orders will apply and any Scheduled Caste and Scheduled Tribe candidates, who are above the minimum standard necessary for efficiency, may be selected for appointment against their reserved quota;

(b) If the promotion is made otherwise than through a competitive examination, no relaxed standards of merit are to be applied for Scheduled Caste or Schedule Tribe candidates.

The position in regard to permanent posts held by the Scheduled Castes and Tribes in the Central Government in 1956 is as follows :

	Total	Scheduled Castes	Scheduled Tribes
Class I	3,553	25 (0.7%)	4 (0.11%)
Class II	5,901	109 (1.84%)	4 (0.06%)
Class III	4,47,121	22,531 (5.03%)	1,941 (0.43%)
Class IV	5,30,794	1,14,734 (21.61%)	13,871 (2.61%)

The position about the all-India services on 1st Jan. 1958 was as follows :

	Scheduled Castes	Scheduled Tribes	Others
I.C.S. I.A.S. ..	29	6	1,486
I.P.S. I.T.P. ..	14	5	793

There is no information about the position in the States.

The statistics collected through the Employment Exchanges for 1957 are as follows.

Scheduled Castes

Total registration 1,93,681; Placements under Central Government 12,029; Placements under State Governments, 1,051.

Scheduled Tribes

Total registration 45,205; Placements under Central Government 1,624; State Governments 1,051.

Harijan employees in the country's statutory and semi-Government bodies exceed the quota of twelve and a half per cent reserved for them.

According to a unit-to-unit survey made in February, 1956, over 20,000 Scheduled Caste and 1,300 Scheduled Tribe members were employed in such bodies which numbered 95 having about 1,38,000 employees. The average roughly came to 14.8 per cent, that is, 2 per cent more than the Government reservation.

The representation of Scheduled Castes ranged from 63.3 per cent in the Cantonment Boards to 0.9 per cent in the Central Electro-Chemical Research Institute, Karaikudi South India. The maximum percentage of Scheduled Tribe employees was 47.7 per cent in the Indian Lac Case Committee.

The following States have a certain percentage of jobs reserved for Scheduled Castes and Tribes, the percentage having some relation to the

population. In the brackets is shown whether the reservation is for Castes or Tribes or both :

Andhra (C and T), Assam (T), Bihar (C and T), Bombay (C and T), Madras (C and T), Punjab (C and T), Mysore (C and T), Rajasthan (C and T), Kerala (C and T).

LEGAL AID, EDUCATION

The particulars about the cases under the Untouchability Offences Act, 1955 during the period 1st January to 31st Dec. 1957 : Total No. registered : 496; Challenged : 432; Convicted : 87; Acquitted : 39; Compounded : 86; Still pending 221.

The information given above is incomplete.

No information was furnished by Andhra, Assam, Madras, Andamans and Laccadives, About Bombay information was available only for part of the year.

Legal aid is provided by some State Governments from their own funds or from grants made by the Central Government. In the following the first figure shows the grant made to various States in 1957-58 and the second the Plan provision respectively (in Rs.)

Andhra (Telangana region) 3,000; 24,000. Bihar 10,000; 1,00,000. Bombay 2,000; not available. Mysore 2,500 (includes health and relief grants) Rajasthan 2,500; 40,000. Orissa 1,250; 10,000. Delhi 1,000; 9,000. Kerala 500; 5,000. M.P. 1,000; 10,000.

The total expenditure incurred on education during 1957-58 was Rs 427.68 lakhs.

The amount spent on the scholarship schemes was Rs 202.20 lakhs. For 1958-59 a sum of Rs 200 lakhs is provided, and this will be stabilized at this figure for the rest of the Second Plan period.

The Government of India awarded in 1957-58 (approximate figures) 44,415 scholarships.—Scheduled Castes 26,447, Scheduled Tribes 4,300, other backward classes 13,668.

Total No. of applications received from Scheduled Castes was 26,447, from Scheduled Tribes 4,300, from other backward classes 35,076.

Total : 65,821.

The subject-wise break-up of the scholarships was as follows :

	Applica-tions	Scholar-ships Awarded
Professional	13,385	8,432
Post-graduate	1,854	1,051
Graduate	12,689	7,808
Under-graduate	37,694	27,053
Trade	199	71
Total	65,821	44,415

The position in regard to the Government of India Overseas scholarships is as follows. The first figure shows the number of applications, the second the number of scholarships granted :

S.C. : 15, 4; S.T. : 12, 3; Backward : 68, 5; Total : 95, 12

In 1956-57 the amount of money spent was (Rs.) S.C. : 60,360; S.T. : 44,616; Backward 78,188; Total : 1,83,164.

There is no information about the position in 1957-58.

The following States have agreed to grant full exemption from payment of fees to Scheduled Castes and Tribes at all stages of education :

Andhra, Madhya Pradesh, Madras, U.P., Kashmir, Mysore, Rajasthan, Delhi, Kerala, Manipur, Tripura, and the PEPFU area of the Punjab and the Saurashtra and Kutch areas of Bombay.

The following States have agreed to grant partial exemption :

Assam, Bihar, Bombay, Orissa, Punjab, W. Bengal, Himachal Pradesh.

The following States have agreed to grant full exemption to other backward class students :

Kashmir, Rajasthan, Delhi and the Bhopal and Vindhya Pradesh areas of Madhya Pradesh.

The following States have agreed to grant partial exemption :

Andhra, Bombay, M. P., Madras, Punjab, U. P., Tripura.

REPORT, 1957-58

All-round increase in the tempo of welfare work relating to Scheduled Castes, Scheduled Tribes and Other Backward Classes during 1957-58 is noticed by the Commissioner for Scheduled Castes and Scheduled Tribes in his Report for the year 1957-58.

The Commissioner also reports "remarkable progress" in the field of education and health. Increased co-operative activity is another feature of the year under report.

An outstanding event of the year was the scheme of life membership devised by the Bharatiya Adimjati Sevak Sangh founded by the late Mr. Thakkar Bapa. Under the scheme, life members bind themselves by oath to serve tribal communities as whole-time workers for at least 10 years on emoluments fixed by the Sevak Sangh. Fifteen veteran workers from various non-official agencies in the States took the oath at a function at Rajghat on January 30, 1958, presided over by the President, Dr. Rajendra Prasad.

The All India Cadre of Life Members constituted thus was to be supplemented by State Cadres. At the instance of the Union Home Minister the Government of India agreed to meet the expenses involved in the maintenance of the Central and State Cadres.

The position regarding the recruitment of Scheduled Castes and Scheduled Tribes to I.A.S. and I.P.S. cadres has continued to improve and the number that would be recruited in 1957-58 exceed the total number of the I.A.S. and I.P.S. officers belonging to the Scheduled Castes who were then in service.

All semi-Government and statutory organisations under the administrative control of the various Ministries of the Union Government have agreed to follow Government's orders relating to communal representation of Scheduled Castes and Scheduled Tribes. Instructions have also been issued to Government limited companies to follow the communal representation orders as far as possible.

To eradicate the evil of untouchability, the Commissioner suggests that Scheduled Caste Members of Parliament and State Legislatures, irrespective of their party affiliations, should carry on a "whirlwind" propaganda. Another recommendation is that a situation should be created before the next Elections to ensure that no candidate who has not contributed towards the removal of untouchability aspires for a seat in any Legislature.

The Report refers to the need for the co-ordination of the efforts of non-official agencies such as the All India Harijan Sevak Sangh and the Bharatiya Depressed Classes League to do away with overlapping and waste.

Outlining the achievements of non-official agencies in educating public opinion against the evil of untouchability, the Report says that over 1,800 temples, an equal number of hotels, about 200 Dharmasalas and over 3,000 wells were thrown open to Harijans as a result of the efforts of the All India Harijan Sevak Sangh, Bharatiya Depressed Classes League and other organisations.

Considerable efforts were being made by the Union and State Governments for the educational advancement of the Scheduled Castes and Scheduled Tribes. The scheme of *ad hoc* payments to students, commenced in 1956-57, to meet the delay in the grant of scholarships, was continued during 1957-58 also.

The Commissioner points out in his Report, that the Ashram and Boarding Schools for Scheduled Tribes were "progressing well" in Bombay and Orissa as they had a vocational bias. The steps taken to encourage the opening of mixed hostels for Scheduled Castes by giving stipends to non-Scheduled Caste students to reside in these hostels had made initial progress. There are now (1959) no separate institutions for Harijans. At least 10 per cent would belong to non-Harijan classes. The word Harijan tagged to hostels, colonies and other institutions is being dropped.

The estimate of expenditure during the year for providing medical and public health facilities was about Rs 106 lakhs: about Rs 30 lakhs more than the expenditure incurred in the previous year. The amount would be utilised for the opening and maintenance of 340 dispensaries and hospitals, 78 Health Centres and the sinking and repair of over 4,000 wells.

While outlining the utility of co-operatives in raising the living standards of Backward Classes, the Report points out that the expenditure on 'Co-operation' during the year was higher than in the previous year. As against a sum of nearly Rs. 14 lakhs spent on this account in 1956-57, the outlay for 1957-58 worked out to about Rs. 20 lakhs. In the sphere of cottage industries the State Sector and Centrally-Sponsored Programme included the training of young men and women in various crafts like carpentry, smithy, tailoring, basket and rope making, etc. To encourage Harijans to take to small-scale industries the State Governments have liberalised the terms and conditions governing loans. Individuals can get loans up to Rs. 1,000 on personal bonds and up to Rs. 5,000 on two personal sureties: the rate of interest being 3 per cent.

The problem of shifting cultivation has to be "tackled seriously", says the Report. Schemes for controlling this practice which were initiated in five States during the First Five Year Plan were extended to Kerala, West Bengal and Union Territory of Manipur in 1957-58. It has been further decided to allocate funds to Bombay, Mysore and Madras to tackle the problem. The Commissioner suggests in this connection that it would be desirable to have a consolidated model scheme for all the States.

The Report recommends that the States should try to give the highest priority to the Scheduled Castes and Scheduled Tribes in the distribution of waste land that can be made available to them. Distribution of such land amongst landless labourers, the Commissioner points out, would help to put an end to this practice amongst Scheduled Tribes.

The scheme of Forest Labourers Co-operative Societies, the Commissioner adds, has succeeded "marvellously well" in Bombay. It is necessary for the expansion of this movement, he says, that State Governments adopt the policy of switching over from private contractors to these co-operative societies for granting contracts.

RIOTS

Some other occurrences would also have to be noted.

During the year mass conversions of Scheduled Caste persons to Buddhism were reported in some parts of the country. This movement had its beginning in 1956 when Dr. Ambedkar changed his religion in Nagpur a few months before his death.

This movement was confined mainly to the Marathi-speaking areas of the Bombay and M.P. States.

In the initial stages the Buddhist converts claimed that concessions and privileges should be extended to the new converts. But this could not be done as the constitution recognizes Buddhism as a separate religion. The Government of India took the view that though the converts ceased to be Scheduled Caste Hindus they still remained Backward Classes. Hence the concessions made to Backward Classes might be extended to them too.

The Bombay Government was at first unwilling to accept this suggestion but later agreed. Other Governments which have agreed are Bihar, Punjab and Mysore.

Educational concessions will continue to be enjoyed in Orissa and W. Bengal.

In Madras only free house-sites will be granted.

The Governments of Assam and U.P. had not yet made up their minds, while Kashmir has granted no concessions to Buddhist converts.

The conversion to Buddhism was followed by some rioting between Buddhists and Scheduled Castes and Buddhists and Caste Hindus.

The rioting in the Ramanathapuram District of Madras had no direct connection with untouchability but it gravely affected the Scheduled Castes.

The riots occurred in September 1957 between Maravas (Thevars) and Harijans.

Houses were looted and burned and a number of persons were killed both in the riots and in firing by the police.

The period of the disturbances was between Sept. 11 and 21—there was an isolated incident on Sept. 26. About 122 villages were affected in the four Talukas of Mudukulathur, Paramukudi, Arupukottai and Sivaganga.

In all 40 persons were killed—14 (13 Maravas and one Harijan) in police firing and 26 (eight Maravas and 18 Harijans) in the communal clashes.

The number of persons who sustained injuries was about 100.

The total number of houses set on fire was 2,879. Of these 2,731 belonged to Harijans, 106 to Maravas and 42 to other communities.

The Commissioner for Scheduled Castes toured the area and laid before Parliament a report. The question was discussed both in the Madras legislature and in Parliament. Later, Mr. Datar also toured the area.

The Madras Government granted relief. A grant of Rs. 550 was sanctioned to each family to rebuild its house while the beneficiary had to provide Rs. 200 by way of free labour. The Government of India paid Rs. 8,46,500 to the Madras Government as grant-in-aid for the construction of 2,940 new houses and provide roofing for 300. The Madras Government itself contributed another Rs. 8,46,000 for rehabilitation. Altogether, a total of Rs. 17.92 lakhs were spent.

SOME RECOMMENDATIONS

Financial aid should be given to local bodies for introducing a system of the removal of night soil in hand-carts or wheel barrows.

Where removal by hand is unavoidable pails and buckets should have closely-fitting lids.

Bucket type of latrines should be converted into scavenger free latrines as quickly as possible.

Local bodies should engage scavengers. This should not be left to individual landlords.

Scavengers should be recognized everywhere as full-time servants with the usual privileges and benefits.

Segregation of their quarters is not desirable.

Improvement in the condition of persons engaged in tanning, tanning leather work etc is called for.

Flying yards and tanning pits should be provided outside their quarters.

Caste Hindus should be encouraged to take to the 'dirty professions'.

Education should be free at least upto the middle standard.

Non-Scheduled Caste students in hostels may be given stipends to dine with Scheduled Caste students.

Seats should be reserved in The Banaras Hindu University.

A uniform policy may be enforced in the matter of admission concessions to educational institutions.

Small-scale village industries may be started for the benefit of the Scheduled Castes and Tribes.

In the scaling down of debts of Adivasis loans by private moneylenders should also be taken into account.

Time limit for the submission of reports by the Governors to the President should be strictly adhered to.

State Governments and non-official agencies may be given grants to train Scheduled Castes and Tribes candidates for various services and posts.

The policy of communal representation in services should be fully carried out.

A survey of reserved posts which are unfilled should also be carried out.

These posts should be widely publicised, and non-official agencies and the Commissioner of Scheduled Castes and Tribes should also be notified.

The upper age-limit for Scheduled Castes and Tribes may be relaxed to the extent of five years.

Unfilled vacancies should be carried forward to two years at least.

Application and examination fee should be one-fourth the normal rate for Scheduled Castes and Tribes.

In appointment and promotion the standard of merit should be lowered.

FIVE-YEAR PLANS
The following table shows the expenditure incurred in the First Plan or to be incurred in the Second Plan (Rs.):

Scheme	Scheduled Tribes		Scheduled Castes		Ex-Criminal Tribes		Other Backward Classes		Total expenditure	
	First Plan	Second Plan	First Plan	Second Plan	First Plan	Second Plan	First Plan	Second Plan	First Plan	Second Plan
Education ..	5,10,33,518	8,82,44,845	3,89,34,843	10,76,80,192	16,79,358	77,13,565	1,17,23,687	3,39,13,850	10,32,75,406	23,75,52,452

Intensive Development Blocks	6,42,00,000	6,42,00,000
Miscellaneous ..	91,70,688	1,56,61,910	29,48,375	57,63,510	6,60,601	21,64,509	65,420	1,01,53,950	1,28,45,084	3,37,43,570
Total ..	17,36,64,584	48,33,58,905	5,96,59,312	25,62,85,167	1,02,43,117	3,10,54,783	1,62,10,939	6,58,34,350	25,97,77,952	83,95,38,705

Note.—Includes Rs. 200.00 lakhs to be paid to the Government of Assam under Clause (a) of second proviso to Article 275(1) of the Constitution.

A sum of Rs. 94 crores has been provided in the Second Five Year Plan for the welfare of Scheduled Castes, Scheduled Tribes, etc. In the case of Centrally sponsored schemes, the entire expenditure of about Rs. 32 crores will be borne by the Union Government while the rest of the expenditure of Rs. 59 crores is to be shared between the Union and the States on a 50-50 basis.

Rehabilitation of the backward classes has a high priority in the Plan. Various schemes have been formulated to expedite the implementation of existing programmes and for the provision of further amenities.

Forty-three special multi-purpose development blocks are being set up all over the country for the rehabilitation of Scheduled Castes and Scheduled Tribes. These are based on the general pattern of the National Extension Service Blocks. Expenditure on each project is estimated at Rs. 27 lakhs.

It is proposed to train about 11,000 persons in various States, establish 825 cottage industries centres, 45 training-cum-production centres and 37 industrial and technical training centres during the Second Plan period.

Five technical institutes for tribal students each costing Rs. 50 lakhs are to be set up during this period. These institutes offer training in mechanical and civil engineering and handicrafts.

About 27,000 tribal families will be resettled and 208 demonstration centres set up under the shifting cultivation control scheme to put an end to the harmful practice of felling trees. The scheme was started in Assam, Andhra Pradesh, Bihar, Madhya Pradesh, Orissa and Uttar Pradesh during the First Five Year Plan period. It is being considerably extended during the Second Plan period at a cost of Rs. 3 crores.

It is proposed to spend about Rs. 10 crores on the construction of nearly 1½ lakh houses for Scheduled Castes and Scheduled Tribes during the Second Plan period.

The houses constructed will be of simple design. Each house costs between Rs. 500 to Rs. 1,000 depending on local conditions. Government's subsidy is mostly in the form of building material and the balance of the cost is contributed by the beneficiaries in the form of voluntary labour.

As against the construction of 9,000 houses, 8 model villages and 31 colonies in the First Plan, it is proposed to construct about 3,25,000 houses and 20 colonies during the Second Plan period. In addition, aid is to be given to about 160 housing societies.

LAWS OF 1957

DURING the year 1957* Parliament placed on the statute book 68 laws.

The date mentioned against the Act indicates the date on which the corresponding Bill received the assent of the President of India.

1. The Appropriation Act (28 March, '57).
2. The Appropriation (No. 2) Act (28 March, '57).
3. The Appropriation (vote on account) Act (28 March, '57).
4. The Kerala Appropriation Act (28 March, '57).
5. The Finance Act (29 March, '57).
6. The Appropriation (Railways) Act (29 March, '57).
7. The Prevention of Corruption (Amendment) Act (29 March, '57).
8. The Kerala Appropriation (vote on account) Act (29 March, '57).
9. The Appropriation (Railways) vote on account Act (30 March, '57).
10. The Sea Customs (Amendment) Act (2 April, '57).

International law and practice recognises the right of a maritime State to exercise on the high seas adjacent to its territorial waters and within twelve miles from its coast, the control necessary to prevent and punish the infringement of its custom regulations. This Act confers that power on Custom authorities.

11. The Foreigners Laws (Amendment) Act (2 April, '57).

With the enactment of the Citizens Act 1955 the definition of the term 'foreigner' both in the Registration of Foreigners Act 1939 and the Foreigners Act 1946, has become out of date. The present Act amends it so as to include within its scope all persons who are not citizens of India.

Section 31 confers power on the Central Government to exempt citizens of Commonwealth countries and other persons from the application of the Act. Even in the case of non-Commonwealth citizens power has been conferred to apply all or any of the provisions of the Act to individual cases.

12. The Provisional Collection of Taxes (Temporary Amendment) Act (27 May, '57).
13. The Essential Commodities (Amendment) Act (4 June, '57).
14. The Copyright Act (4 June, '57).

This Act amends and consolidates the law relating to copyright. The following are some features of the Act. (1) A copyright office is to be established under the immediate control of a Registrar of Copyrights (s. 9). The principal function of the Registrar of Copyright office, will be to maintain a Register of Copyrights in which may be entered at the option of the authors the names or titles of works, the names and addresses of the author and owners of copyright (sections 44, 45). (2) A copyright Board is to be constituted under s. 11 which is authorised to determine the reasonableness of the rates and fees charges or royalties claimed by performing right societies, consider applications for general licences for public performance of works and to assess compensation payable under the Act in certain circumstances. (3) The definition of Copyright is enlarged to include exclusive right to communicate works by radio diffusion (s. 14). (4) A cinematographic film is given a separate copyright apart from its various components, story, etc. (5) The term of copyright in a published literary work is the life of the author and fifty years thereafter. (6) The Act also provides for granting licences to produce and publish translations of a work. (7) The Act requires the performing right societies to file certain lists and statements with Registrar (s. 33). (8) It confers broadcast reproduction rights on broadcasting authorities.

(9) Chapter IX deals with International copyright relations.

S. 71 repeals the Indian Copyright Act of 1914 and the Copyright Act of 1911 passed by the Parliament of the United Kingdom as modified in its application to India by the Indian Copyright Act 1914.

15. The Appropriation (No. 3) Act (4 June, '57).
16. The Central Sales Tax (Amendment) Act (4 June, '57).

The object of the Act is to restrict the levy of tax on goods declared to be of special importance in Inter-State trade or Commerce at the last stage of sale or purchase inside the state and to provide that no tax shall be levied in respect of the last stage, if the goods are intended for sale in the course of Inter-State trade or commerce.

17. The Life Insurance Corporation (Amendment) Act (6 June, '57).
18. The Industrial Disputes (Amendment) Act (6 June, '57).

This replaces the Industrial Disputes (Amendment) Ordinance 4 of 1957.

The Supreme Court had decided that no retrenchment compensation was payable under section 25 of the Industrial Disputes Act 1947 to workmen whose services were terminated by an employer on a real and *bona fide* closure of business or when termination occurred as a result of transfer of ownership from one employer to another. This resulted in hardship to workmen. The Act remedies the defect in the original Act.

19. The Reserve Bank of India (Amendment) Act (6 June, '57)

This act enables the Reserve Bank of India to contribute to the capital of financial institutions with a view to providing medium-term loan assistance to industries.

20. The Coal Bearing Areas (Acquisition and Development) Act (8 June, '57).

This is an Act to establish greater public control over the coal mining industry and its development by providing for the acquisition by the State of unworked land containing or likely to contain coal deposits or rights in or over such land, for the extinguishment or modification of such rights accruing by virtue of any agreement, lease, licence or otherwise and for matters connected therewith. The Act was passed in pursuance of the Industrial Policy Resolution adopted in 1956.

The Act provides for the payment of reasonable compensation for the acquisition of the rights of prospecting licences and mining leases. The principles of determining compensation are set out in section 13 of the Act.

21. The State Bank of India (Amendment) Act (8 June, '57).

This Act was passed in order to enable the State Bank to assist in providing adequate medium-term finance to industries in the context of the industrial development contemplated under the Second Five-Year Plan.

22. The Appropriation (Railways) No. 2 Act (24 Aug., '57)
23. The Railway Protection Force Act (29 Aug., '57).

This Act makes radical changes in the functioning of the Watch and Ward Department. That department is re-designated the Railway Protection Force. The Act confers on the members of the Force powers of arrest and search without warrant under certain circumstances. This Force is also expected to help the Railway Police.

24. The Appropriation (No. 4) Act (30 Aug., '57).
25. The Railway Passenger Fares Act (11 Sept., '57).

This Act imposes a tax on fares payable by passengers travelling by railway. S. 3 imposes a levy on passenger fares which is to be in addition to the taxes charged by Railway. S. 5 empowers the Central Government to exempt certain passengers from the levy of this tax.

26. The Finance (No. 2) Act (11 Sept., '57).
27. The Wealth Tax (12 Sept., '57).

This Act imposed an annual tax on the net wealth of individuals, Hindu undivided families and companies. S. 5 provides for exemption in respect of certain assets. It contains a list of 21 items. S. 7 lays down rules for determining the value of assets. The Schedule to the Act lays down the rates of wealth tax. There will be a wealth tax on the first rupees two lakhs of net wealth in the case of an individual. In the case of a company the exemption is on the first rupees five lakhs of net wealth.

28. The Essential Commodities (Second Amendment) Act (17 Sept., '57).
29. The Expenditure Tax Act (17 Sept., '57).

The Act imposes an annual tax on personal expenditure above a prescribed level of individuals and Hindu undivided families.

30. The Minimum Wages (Amendment) Act (17 Sept., '57).

This Act amends the Minimum Wages Act of 1948.

31. The Dhoties (Additional Excise Duty) Amendment Act (17 Sept., '57).

This Act amends the Dhoties (Additional Excise Duty) Act of 1953.

32. The Forward Contracts (Regulation) Amendment Act (17 Sept., '57).

33. The Cotton Fabrics (Additional Excise Duty) (17 Sept., '57).

The Act provides for the levy and collection in certain circumstances of an additional duty of excise on cotton fabrics issued out of mills.

34. The Indian Succession (Amendment) Act (17 Sept., '57).

This Act substitutes a new section for section 382 of the principal Act.

35. The Insurance (Amendment) Act (17 Sept., '57).

36. The Repealing and Amending Act (17 Sept., '57).

37. The Legislative Councils Act (18 Sept., '57).

The States Reorganisation Act provided for the establishment of a Legislative Council for the new State of M.P. This Act provides for the creation of a Legislative Council for Andhra Pradesh, for increasing the strength of Legislative Councils of other states. Under the Act the strength of each Legislative Council is roughly 30 per cent of the strength of the corresponding Legislative Assembly except in the case of U.P. and Bombay. The strength of the Legislative Councils in the various States is as follows. Andhra 90, Bihar 96, Bombay 108, M.P. 90, Madras 63, Mysore 63, Punjab 51, U.P. 108, and West Bengal 75. The Act also makes elaborate provisions in regard to constituencies.

38. The Inter-State Corporations Act (20 Sept., '57).

The Act provides for the reorganisation of certain Corporations functioning in two or more States. The passing of the Act was necessitated on account of State reorganisation. A number of corporate bodies constituted under State Acts before the reorganisation of States found themselves transformed into Inter-State corporations on 1st Nov. 1956. Under section 109 of the States reorganisation Act such corporations were allowed to function as a transitional measure. Under the Act provision is made for the reorganisation of such inter-State corporations.

* In 1958, 59 Bills were passed.

The State Government is authorised to formulate a scheme for a division of the assets and liabilities of the corporations, and submit to the Central Government which is authorised to issue final order after consulting other State Governments concerned.

39. The Foreign Exchange Regulation (Amendment) Act (20 Sept., '57)

The Foreign Exchange Regulation Act (No. 7 of 1947) was due to expire on 31st Dec. '57. This Act places it on a permanent footing. It also provides for departmental inquiry and adjudication of foreign exchange offences by an authority constituted by Government on the lines of the Sea Customs Act.

40. The Industrial Disputes (Banking Companies) Decision Amendment Act (17 Nov., '57).

One of the recommendations of the Bank Award (Justice Gajendragadkar) Commission was that the Government of India should appoint a Commission to examine the financial position of the Banks incorporated in the former Travancore-Cochin State. Accordingly a Commission was appointed and it submitted its report. The Government of India accepted the recommendations and this Act gives effect to some of them.

41. The Indian Tariff (Amendment) Act (29 Nov., '57).

The Act amends the Indian Tariff Act 1934 with a view to (1) granting protection to the automobile industry, and (2) Continuing or discontinuing protection to certain other industries.

42. The Naga Hills Tuensang Act (30 Nov., '57).

The Act provides for the functioning of the Naga Hills Tuensang Area of Assam as an administration unit. This new unit will be administered by the Governor as the agent of the President but it will be distinct from NEFA. S. 3 of the Act amends the Sixth Schedule to the Constitution of India, S. 4 amends the delimitation order and S. 5 the Representation of the People Act.

43. The Industrial Finance Corporation (Amendment) Act (30 Nov., '57).

44. The Public Employment (Requirement as to Residence) Act (7 Dec., '57).

The Act makes in pursuance of clause (3) of art. 16 of the Constitution of India special provisions for requirement as to residence in regard to certain classes of employment in certain areas and repeals existing laws prescribing any requirement.

45. The Indian Nursing Council (Amendment) Act (14 Dec., '57).

The Act increases the number of members of the Council and provides for the maintenance of an All India Register of Nurses. It also facilitates the regulation of Indian citizens holding foreign qualifications and temporary registration of foreign names who are engaged as nurses or teachers or in administration in hospitals in India even though there are no reciprocal arrangements, for the recognition of Indian qualifications with the Nurses Registration Councils in the countries where they were trained or registered.

46. The Cantonments (Extension of Rent Control Laws) Act (18 Dec., '57).

The Act enables Government to extend to any cantonment any rent control enactment which is in force in the State in which the cantonment is situated.

47. The Indian Telegraphic (Amendment) Act (18 Dec., '57).

48. The Reserve Bank of India (Second Amendment) Act (19 Dec., '57).

49. The Central Excise and (Salt) Amendment Act (20 Dec., '57).

50. The Capital Issues (Control) Amendment Act (21 Dec., '57).

51. The Coal Bearing Areas (Acquisition and Development) Amendment) Act (21 Dec., '57).

52. The Opium Laws (Amendment) Act (21 Dec., '57).

53. The Indian Railways (Amendment) Act (24 Dec., '57).

54. The Preventive Detention (Continuance) Act (24 Dec., '57).

The Act extends the life of the Preventive Detention Act 1950 upto 31st Dec. 1960.

55. The Union Duties of Excise (Distribution) Act (24 Dec., '57).

The Act provides for the distribution of a part of the net proceeds of certain Union duties of excise in pursuance of the principles of distribution recommended by the Finance Commission in their report dated 30 Sept., '57.

56. The Appropriation (No. 5) Act (24 Dec., '57).

57. The Estate Duty and Tax on Railway Passenger Fares (Distribution) Act (26 Dec., '57).

The Act lays down the principles of distribution among the States of the net proceeds of the Estate Duty on property other than agricultural land and the tax on railway fares.

58. The Additional Duties of Excise (Goods of Special Importance) Act (24 Dec., '57).

The Act imposes additional duties of excise in replacement of the sales taxes levied by the Union and the State on sugar, tobacco and mill-made textiles and provides for the distribution of the net proceeds of these taxes.

59. The Damodar Valley Corporation (Amendment) Act (24 Dec., '57).

60. The Indian Tariff (Second Amendment) Act (27 Dec., '57).

61. The Delhi Development Act (27 Dec., '57).

62. The Navy Act (27 Dec., '57).

63. The Countess of Dufferin Fund Act (27 Dec., '57).

64. The Prevention of Disqualification (Amendment) Act (27 Dec., '57).

65. The Citizenship (Amendment) Act (27 Dec., '57).

This Act adds the following Commonwealth countries to the list in the First Schedule (1) Ghana, (2) Federation of Malaya, (3) Singapore.

66. The Delhi Municipal Corporation Act (28 Dec., '57).

67. The Mines and Minerals (Regulation and Development) Act (28 Dec., '57).

68. The Payment of Wages (Amendment) Act (28 Dec., '57).

STUDENTS' GUIDE

Below we have brought together information which may be useful for students who are looking for vocational guidance. It is, of course, impossible to put down all the careers that one might take up or the courses of study that are open.

The chief purpose of this article is therefore to tell the student where information may be obtained.

Many schools and colleges themselves provide vocational guidance.

In every State the Education Department has a technical wing usually under the charge of a Director, who can give much information.

There are vocational guidance agencies both Government and non-Government located in various parts of the country. A list is given below.

There is an All India Educational and Vocational Guidance Association, c/o The Faculty of Education and Psychology, University of Baroda, Baroda, which would also be of help.

These bureaux are staffed by what are called counsellors who are specially trained to judge an individual's abilities, aptitudes and interests and who use objective tests before giving advice.

The various employment exchanges in India have guidance units attached to them. They are called Youth Employing and Counselling Units which are part of a National Employment Service with a Central Bureau of Educational and Vocational Guidance at 33, Probyn Road, Delhi 8. These units are attached to the Ministry of Education.

They assist the secondary school leavers for placement. But there is also a school guidance service which helps the student all through by means of general, curricular and occupational orientation during the period of six years of secondary schooling. This school guidance service is about five years old and is hardly effective at the moment.

Many universities today have information bureaux primarily for information about studies abroad.

The Ministry of Education, Government of India, New Delhi, has an Overseas Division which must be consulted.

The foreign Embassies, Legations, Consular Offices and Information Services would be willing to help. A list of these with their addresses can be obtained from the Director, Information Services of India, Ministry of External Affairs, New Delhi.

About studies in the U.S.A., places from where information can be obtained are:

U. S. Information Service, 13, Golf Links, New Delhi; 10, Queen's Road Estate, Bombay; 7, Chowringhee Road, Calcutta 13; 158, Mount Road, Madras 2; Main Road, Cantonment, Trivandrum; Sri Naraynaraja Square, Bangalore City; Arundelpet, Guntur.

About courses of study in England, information may be obtained from:

1. The British Council, French Bank Building, Hornby Street, Bombay 1.

2. The British Information Services, Eastern House, Mansingh Road, New Delhi; Mercantile Bank Building, Mahatma Gandhi Road, Bombay; 1, Harrington Street, Calcutta; 6, Armenian Street, Madras.

USEFUL ADDRESSES

Some other useful addresses are given below not in any special order. The relevant addresses should be selected for information required. The addresses, may, of course, change. Below we give the latest available addresses:

The National Institute of Sciences, Mathura Road, New Delhi.

The National Academy of Sciences, India, Lajpat Rai Road, Allahabad.

Indian Association for the Cultivation of Science, Jadavpur, Calcutta 32.

Indian Science Congress Association, 64, Dilkhusha Street, Calcutta 17.

The names and addresses of specialised bodies are given below:

Accountancy—Institute of Chartered Accountants of India, P. Box 268, Mathura Road, New Delhi 1; Institute of Cost and Works Accountants, 12, Sudder Street, Calcutta 16.

Actuarial Science—Actuarial Society of India, c/o New India Assurance Co., Mahatma Gandhi Road, Bombay 1.

Advertising—Advertising Agencies Association of India, Kitab Mahal, 192, D. Naoroji Road, Bombay 1; Indian Society of Advertisers, Shree Nivas House, Waudby Road, Bombay 1.

Anthropology—Anthropological Society of Bombay, 16, Apollo Street, Bombay 1.

Architecture—Indian Institute of Architects, Prospect Chambers Annexe, Dr. Dadabhai Naoroji Road, Bombay 1.

Art—All-India Association of Fine Arts, 28, Apollo Street, Bombay 1; Bombay Art Society, Jehangir Art Gallery, Mahatma Gandhi Road, Bombay 1; Commercial Artists' Guild, 4th Floor, India House, Fort Street, Bombay 1.

Banking—Indian Institute of Bankers, State Bank of India, Apollo Street, Bombay.

Chemists' Organisation—Society of Biological Chemists, Malleawaram, Bangalore 3.

Cinematography—Indian Motion Picture Producers' Association, Sandhurst Building, Sandhurst Road, Bombay 4.

Commerce—Bombay Chamber of Commerce, Mackinnon Mackenzie Building, Ballard Estate, Bombay 1; Indian Merchants' Chamber, Back-Bay Reclamation, Bombay 1.

Engineering—Electrical Contractors' Association, 63, New Stock Exchange Building, Apollo Street, Bombay 1; Mechanical Engineers' Association (India), Opposite Railway Station, Grant Road (East), Bombay 7; Indian Institution of Chemical Engineers, c/o A. C. College of Technology, Saidapet, P. O. Guindy, Madras; Institution of Engineers (India), Bombay Centre, Ilaco House, Sir P. Mehta Road, Bombay 1; Institution of Production Engineers, Bombay Section, c/o Machine Tools (India) Ltd., Imperial Chambers, Wilson Road, Ballard Estate, Bombay 1; Builders' Association of India, United India Building, Sir Phirozshah Mehta Road, Bombay 1.

Industrial Welfare—Industrial Welfare Association (India), c/o Scientific Management (India) Private Ltd., Taj Mahal Hotel, Bombay 1.

Insurance—Indian Life Insurance Offices Association, Industrial Assurance Building, Churchgate, Bombay 1.

Journalism—All-India Newspaper Editors' Conference, 50-51, Theatre Communications Building, Connaught Place, New Delhi.

Labour Management—National Institute of Labour Management, Post Box 6959, Bombay 27.

Law—The Bombay Advocates' Association, Presidency Small Causes Court, 2nd Floor, Carnac Road, Bombay 2; Bombay Incorporated Law Society, 113-115, Mahatma Gandhi Road, Bombay 1.

Library Science—Bombay Library Association, c/o Siddharth College, Anand Bhawan, Dr. Dadabhai Naoroji Road, Bombay 1.

Medical Science—Bombay Medical Council, Swadeshi Mills Estate, next to Roxy Cinema, New Queen's Road, Bombay 4.

Milowners' Organization—Milowners' Association, Bombay, Elphinstone Building, Veer Nariman Road, Post Box No. 95, Bombay 1.

Mining—The Mining (Institution) and Metallurgical Institute of India, 27, Chowringhee, Calcutta 15.

Natural History—Bombay Natural History Society, 114, Apollo Street, Bombay 1.

Opticians' Organization—Bombay Optical Association, c/o Balliwalla and Homi, Hornby Road, Bombay 1.

Personnel Management—Indian Institute of Personnel Management, 15, Park Street, Calcutta 16.

Pharmacy—Indian Pharmaceutical Association (Bombay State Branch), Kalam Kutir, 3rd Floor, 213-19, Frere Road, Bombay 1.

Plastic Manufacture—All-India Plastic Manufacturers' Association, Chowpatty Chambers, Sandhurst Bridge, Bombay.

Printing—Bombay Presidency Printers' and Lithographers' Association, Narandas Building, 18, Ballard Estate, Bombay 1.

Psychology—Bombay Psychological Association, c/o R. J. Shah, Block 31, Plot 78, Marine Drive, Bombay 1.

Radio and Electronics—All-India Radio Merchants' Association, Fateh Manzil, Opera House, Bombay 4; Radio and Electronics Society of India, Fateh Manzil, Opera House, Bombay 4.

Technology—Sugar Technologists' Association, Nawabganj, Kanpur.

Textile Manufacture—The Textile Association (India), Ganesh Bhawan, Suparbaug Road, Parel, Bombay 12.

Transport—Air-Transport Association of India, Malhotra Building, Connaught Circus, New Delhi; Indian Road and Transport Development Association, 27, Hastion Road, Bombay 1.

The addresses of some useful institutes are given below:

Institute of Jute Technology, 12, Regent Park, Tollygunge, Calcutta; Indian Institute of Sugar Technology, Kanpur; Indian Statistical Institute, 203, Barrackpore, Trunk Road, Calcutta 35; Forest Research Institute, Dehra Dun; Indian Agricultural Research Institute, New Delhi; Indian Dairy Research Institute, Bangalore; Malaria Institute of India, Delhi; Indian Lac Research Institute, Nankum, Ranchi; Indian Cancer Research Institute, Parel, Bombay; Development Commissioner, Small-scale Industries, Shahjahan Road Hutments, New Delhi; All India Handloom Board, Wiltet Road, Bombay 1; All India Handicrafts Board, Ministry of Commerce and Industry, Taj Barracks, Jan Path, New Delhi.

VOCATIONAL GUIDANCE BUREAUS

Below we give a list of these Bureaus.

Central Bureau of Educational and Vocational Guidance, 33, Probyn Road, Delhi 8; State Bureau of Educational & Vocational Guidance, Orissa, Radha Nath Training College, Cuttack-2; Bureau of Educational & Psychological Research, David Hare Training College, Calcutta; State Bureau of Educational & Vocational Guidance, Prantiya Shikshan Mahavidyalaya, Jabalpur, M. P.; Bureau of Psychology, Allahabad; Vocational Guidance Officer, Elphinstone Technical High School Building, 3, Cruickshank Road, Bombay-1; State Bureau of Educational & Vocational Guidance, Bihar, Department of Education, S. P. Verma Road, Patna; Vocational Guidance Officer, State Bureau of Educational & Vocational Guidance, Department of Education, Gwalior (Guidance Units at Indore and Ujjain); Vocational Guidance Officer, Educational & Vocational Guidance Bureau, Jeeban Bharati, Greenlands, Nanpura, Surat; Vocational Guidance Bureau, B. R. College, Agra; Vocational Guidance Bureau, Manava-Bharati, Musoorie; Gujarat Research Society, 46-48, Esplanade Road, Bombay; Vocational Guidance

Bureau, Y.M.C.A., Indore; Vocational & Educational Counselling Services, 44, Palace Court, Calcutta-16; Vocational & Educational Counselling Services, Training School for Village Teachers, Moga (Punjab); Guidance Institute, 1,762, Kirlokar Road, Belgaum; D. M. Institute of Education, Section of Educational & Vocational Guidance, Moga (Punjab); Vocational Guidance Centre, Chintamanrao High School, Shahapur-Belgaum, Belgaum; Counselling Director, Y.M.C.A., Bangalore; Vocational Guidance Sub-Bureau, Government of Bombay, Tilak College of Education, Poona-2; Assistant Vocational Guidance Officer, Vocational Guidance Sub-Bureau, A.G. Teachers' College, Navrangpura, Ahmedabad-9; Vocational Guidance Officer, Vocational Guidance & Employment Counselling Unit, Sub-Regional Employment Exchange, Charbagh, Lucknow; Director, State Bureau of Educational & Vocational Guidance, Himaynagar, Hyderabad; Director, State Bureau of Educational & Vocational Guidance, Bikaner (Rajasthan); Director, State Bureau of Educational & Vocational Guidance, Trivandrum (Kerala); Counsellor, State Bureau of Educational & Vocational Guidance, Shillong; Psychological Research Institute, Khar, Bombay.

EMPLOYMENT EXCHANGES

As already mentioned many employment exchanges have vocational guidance units attached to them. For the latest position at any time the Director-General of Resettlement and Employment, Ministry of Labour and Employment, New Delhi should be contacted.

These units give what is called youth employment service and employment counselling service for adults with job experience.

The Manpower Division of the Directorate-General of Resettlement and Employment at 18, Gurdwara Road, New Delhi conducts a programme of employment market information. This is collected through the various employment exchanges in the country. Each State has a State Employment Market Information Unit which is part of the State Directorate of National Employment Service. For any information about this the State Directors of National Employment Service should be addressed.

The object of the employment market information scheme is the study of employment market conditions in different areas, on a continuing basis, with a view to making available data regarding the supply and demand for manpower and the various other factors that affect the situation from time to time.

Under the Employment Market Information Scheme data are being collected from both the public and private sectors on the basis of an establishment reporting system.

Quarterly information is obtained from private employers regarding changes in employment, nature and volume of current openings, difficulties experienced, if any, in filling them and the occupations in which shortage is experienced.

In addition, data are also collected in regard to the occupational pattern of employment as well as anticipated demands during the subsequent years for different categories of personnel. The information received from employers is studied along with other relevant material including what the Employment Exchange operations have to reveal.

Employment market studies are made on an area basis. Individual area studies would be combined to give regional and national pictures. Among other things, the data would be used for adjusting vocational training facilities and for vocational guidance and counselling.

The Statistical Section of the Manpower Division is responsible for processing manually and on machines all data received from Employment Exchanges. The Statistical and Employment Market Information Sections also undertake special studies in the field of employment and manpower.

Employment market studies are in progress at the time of writing in a number of areas. Among

them are Delhi, Kanpur, Ambala, Gauhati, Cuttack, Indore, Nagpur, Bangalore, Coimbatore and Ernakulam. These will be increased to a hundred and fifty areas by 1960-61.

Quarterly reports on the employment market in Delhi have been and are being published since 1956. Reports on other areas are also being issued.

The Directors of Employment in each State will provide information in regard to the programme in their respective States. The Manpower Division also brings out studies on employment and unemployment. Two such studies relate to (i) the pattern of graduate unemployment and (ii) the supply and demand for school teachers.

GUIDANCE UNITS

Below we give a list of employment exchanges where vocational guidance units have been established.

Sub-Regional Employment Exchange, Near Railway Station, Lucknow (U.P.); Youth Employment Service and Employment Counselling Unit, 13, Selimpore Road, Calcutta-13; The Regional Employment Exchange, No. 108-A, the Mall, Ambala Cantt.; The District Employment Officer, No. 41, Whites Road, Royapettah, Madras-14; The Regional Employment Officer, Brij Kishore Path, Patna; The Regional Employment Officer, 14, Daryaganj, Delhi; The Regional Employment Officer, Hyderabad (Deccan), Tootiq Vile, Khairatabad, Hyderabad (Deccan); The Regional Employment Officer, Hassan Chambers, 2nd Floor, Parsi Bazar Street, Fort, Bombay-1.

The addresses of State Directors of National Employment Service are given below:

State Director of National Employment Service, 23, Staff Road, Ambala Cantt.; Director of National Employment Service, 5, Infantry Road, Bangalore; Labour Commissioner and Director of Employment, Government of Rajasthan, Plot No. C-32, Sarojini Marg, Bhagwandas Road, 'C' Scheme, Jaipur; Secretary and Ex-officio Director of Employment, Van Ross Junction, Trivandrum; State Director of National Employment Service, Grove Side, Keating Road, Shillong; State Director of National Employment Service, 28, Theatre Road, Calcutta; Director of Employment, Mercantile Chambers, 2nd Floor, Graham Road, Ballard Estate, Bombay; Additional Director, National Employment Service, Building No. 6-2-28, Mumtaz Mansion Lane, Safabad, Hyderabad; Director of National Employment Service, Gobind Bhavan, Jabalpur; Director of National Employment Service, New Secretariat Building, Room No. 94, Ground Floor, Patna; Director of Employment and Training, Government of Uttar Pradesh, Civil Secretariat, Lucknow; Director of National Employment Service, Old Secretariat Building, Durga Bazar, Cuttack; Director of National Employment Service, Shadow Bush, No. 8, Haddows Road, Madras; Director of Employment and Training, 18, Gurdwara Road, New Delhi.

PUBLICATIONS

There are a large number of publications which give vocational guidance.

In general, these career books mention the occupations that are open to students who leave at various stages of their school career, the minimum qualifications that are necessary, the educational courses that one has to take, the duration, the cost, the names of the institutions that provide these courses, and the emoluments the posts carry.

Once again it would be impossible to give a full list of these publications. The student has to refer to the publishers, some of whom are listed below not in any special order.

Some books of a general nature are (prices are liable to change):

Facilities for Technical Education in India (Government of India publication, Re. 1).

Scientific Institutions and Societies in India (Bureau of Education, Government of India, Rs. 2-2-0).

Some Careers for Women by Avabai Mehta (Thacker & Co., Rampart Row, Bombay, As. 8).

Careers for Boys (As. 10), Choice of a Career (As. 13) by F. S. Chotia (New Book Co., Hornby Road, Bombay 1).

Directory of Universities and other Institutions of Higher Learning (Manager of Publications, Government of India, Delhi, Rs. 2-6-0).

Professional and Technical Studies in India by A. N. Sharma (Metropolitan Book Co. Ltd. 1, Fair Bazar, Delhi, Rs. 2-12-0).

Hand-Book of the Universities (Inter University Board, C.S.I.R. Bldg., New Delhi).

A Write-Up on the Scope for University Graduates (University Students' Information Bureau, Madras University, Rs. 6-50).

A Hand-Book of Training Facilities in India, Part I, Institutional Training (in two volumes.)

A Hand-Book of Training Facilities in India, Part II, Inplant Training.

Both the books are published by the Occupational Information Unit of the Directorate-General of Resettlement and Employment, Gurdwara Road, New Delhi.

Choosing a Career by C. T. Philip (Oxford University Press, Apollo Bunder, Bombay 1, Rs. 4. Education edition: Rs. 3).

Directorate-General of Resettlement and Employment

The most important single source of information for all India purposes is the Directorate-General of Resettlement and Employment, Ministry of Labour and Employment, Government of India, New Delhi.

It has prepared for each State a separate hand-book giving particulars of technical and professional courses that are available in that State, the period of training, the fees charged, etc.

There is also an all-India volume.

All these are brought up-to-date from time to time.

The Occupational Information Division of the Directorate has brought out a series of career pamphlets. These are available for sale at all Employment Exchanges. Copies have been sent to all colleges and high schools. A list of these pamphlets is given below.

Two books of general interest may be mentioned here.

The first is entitled the Pattern of Graduate Unemployment.

This study analyses graduates registered for employment according to degrees they possess, the subject of their specialisation, the class obtained, the age distribution, their previous employment and their job preference.

Among the graduates registered with the Employment Exchanges (according to the study) it was found that 48.5 per cent held a bachelor's degree in arts, 27.7 per cent in science and 12.8 per cent in commerce. The incidence of unemployment was most acute among graduates with commerce degree, 60.4 per cent of graduates sought clerical employment, 19.5 per cent professional and technical posts, 15.7 per cent administrative and executive jobs and 4.4 per cent other types of jobs.

A second study—Supply and Demand of School Teachers—was published in January, 1958. Of 8.86 lakh persons seeking employment assistance through the Employment Exchanges at the end of November, 1957, about 34,000 (3.8 per cent) were registered for the job of teachers. 53 per cent of them were untrained and 47 per cent trained. 26 per cent of those registered for teachers were women, 11 per cent of the total were graduates who desired teachers' jobs in high schools; 28 per cent wanted jobs in middle schools and 61 per cent in primary schools.

According to this study, there were more teachers than vacancies in Andhra Pradesh, Delhi, Kerala, Mysore, Madras, Punjab, U. P. and West Bengal. A shortage of teachers was noticed in Madhya Pradesh, Rajasthan, Orissa and Bombay.

A project that is of considerable value for the standardisation of occupational nomenclature in the country is the preparation of a National Classification of Occupations. This work which is now in hand aims at the preparation of an occupational dictionary, job analyses and definitions of over a thousand occupations have been completed.

CAREER PAMPHLETS

The Occupation Information Unit of the Directorate General has also brought out:

A series of career pamphlets known as Guides to Careers, a list of which is given below. They can be had from the State Directorates or Employment Exchanges.

Most of the career books are priced 6 nP.

The following are for those who have passed the Matriculation or lower examination.

The Architect; The Pharmacist; The Vaccinator; The Sanitary Inspector; The Pattern Maker; The Instrument Mechanic; The Draughtsman (Mechanical Engineering); The Machinist; The Road Roller Driver; The Overseer (Civil); The Draughtsman (Civil); The Tool Maker; The Social Educational Organiser; The Wireman; The Co-operative Supervisor; The Veterinary Doctor; The Gram Sevka; The Librarian; The Nurse; The Stenographer; Careers for School Leavers; The Auxiliary Nurse; The Teacher (Primary School); The Teacher (High School); The Electrician; The Health Visitor; The Turner; The Tractor Operator; The Radio Technician; The Surveyor; The Moulder; The Panchayat Secretary; The Welder; The Plumber; The Extension Officer (Industries); Careers in Community Projects; The Agriculture Officer.

The following are for those who have passed the Intermediate:

The Chemical Technologist; The Civil Engineer; The Chemical Engineer; The Mining Engineer; The Machine Driller; The Aeronautical Engineer; The Automobile Engineer; The Metallurgist; The Mechanical Engineer; The Electrical Engineer; The Telecommunication Engineer.

The following are for those who have taken a degree:

The Accountant; The Statistician.

There are Hindi versions of some of the career books. These are given below. The price is the same as that of the English original.

The Veterinary Doctor; The Gram Sevka; The Librarian; The Electrician; The Teacher (Primary School); The Teacher (High School); The Auxiliary Nurse; Careers for School Leavers; The Tractor Operator; The Health Visitor; The Stenographer; The Sanitary Inspector; The Panchayat Secretary; The Accountant; The Mining Engineer; The Metallurgist; The Overseer (Civil Engineering); The Social Education Organiser; The Draughtsman (Mech. Engineering); The Machinist; The Vaccinator; The Pharmacist; The Chemical Technologist; The Aeronautical Engineer; The Tool Maker; The Civil Engineer; The Wireman; The Architect; The Surveyor; The Co-operative Supervisor; The Chemical Engineer; The Nurse.

The Y.M.C.A. Publishing House, 5, Russel Street, Calcutta 16, has also brought out a Vocational Guidance Series. The prices vary between 25 nP. and Rs. 1-00.

Careers in the Building Industry; Careers in Accountancy; Careers for Medical Graduates; Careers in Forestry and Fisheries; Careers in Engineering; Careers in Agriculture; Careers for Women; Careers in Government Services.

The Vocational Service Committee of the Bombay Rotary Club of Bombay has published a series through the Oxford University Press,

Apollo Bunder, Bombay 1. They are entitled the Rotary Guide to Careers and are all priced between 50 nP. and Rs. 1-50.

The books in the Rotary Guide to Careers series are:—

Architecture; Engineering; Civil Engineering; Mechanical Engineering; The Book Trade; All India Services; Defence Services; Bombay Government Services; A Medical Career; Cost Accounting; Agricultural Engineering.

The following are now out of print:

Banking; Law; Accountancy.

The Vocational Guidance Bureau, Elphinstone Technical High School Building, 3, Crisakahank Road, Bombay 1, of the Bombay Government has also a series of booklets. It also brings out monographs which give detailed information about individual careers, in Bombay State for students. The Bureau is, in fact, a store-house of information about courses and careers not only in Bombay State but also for all-India purposes.

The booklets range in prices from An. 1 to As. 9.

The titles are given below:

S. S. C.—What Next?; Facilities for Commercial Education in the State of Bombay; Earn While You Learn: Social Work as a Career; Courses for Non-S. S. C.'s; Are you Planning a Technical Career?; Life Assurance as a Career; Facilities for Training in Village Industries; Inter—What Next?; Librarianship as a Career; Careers in the Merchant Navy; Careers in the Police Force; Forestry as a Career; Psychology as a Career.

For possible careers on the railways there is a Railway Board (New Delhi) booklet entitled 'Railway Careers'.

The Central Bureau of Educational and Vocational Guidance, 33, Probyn Road, Delhi 8 has a series entitled 'Occupational Orientation Filmstrips.' These film strips are issued with printed comments with as wide a coverage of the world of work as the secondary school pupil may be expected to know. They are meant for use in schools. The titles are given below:

In Farm and Field; In Workshop and Laboratory; Business is Business; Dealing with People; Public Administration and Private; Men in Uniform; Arts, Crafts and Letters.

SCHOLARSHIPS

Lists of scholarships are obtainable from the heads of schools and colleges and from the Directors of Education of individual States.

It would not be possible to give a list of the various scholarships offered by official and non-official bodies in the country. They would be too numerous to mention.

Information about Scholarships awarded by the Ministry of Education, Government of India, New Delhi, for studies in India is given in "Government of India Scholarships for Studies in India". (Obtainable for 60 nP. from the Manager of Publications, Civil Lines, Delhi-8.)

The Ministry of Education, Government of India, New Delhi has also published a pamphlet on "Scholarships for Studies Abroad", which is obtainable from the Manager of Publications, Civil Lines, Delhi-8 for 37 nP.

The UNESCO publication, "Study Abroad" gives information about scholarships and other awards available for studies abroad. The publication is available from leading booksellers, or from UNESCO, 21, Curzon Road, New Delhi.

Below we give a list of scholarships offered by the Government of India. For details reference should be made to the Scholarships Division of the Ministry of Education, New Delhi:

Modified (Central) Overseas Scholarships Scheme (other than scientific, engineering, technological, fine arts and medical subjects).

Union Territories Overseas Scholarships (other than scientific, engineering, technological, fine arts and medical subjects).

Foreign Languages Scholarships Scheme.

Twenty Fully Paid Overseas Scholarships Scheme (other than scientific, engineering, technological, fine arts and medical subjects).

Agatha Harrison Fellowship Scheme.

Indo-German Industrial Co-operation Scheme—Scholarships to Indian nationals for studies in West Germany and Fellowships to German nationals for studies in India (other than scientific, engineering, technological, fine arts and medical subjects).

London University Institute of Education Fellowships.

General Cultural Scholarships Scheme.

Cottage Industries and Vocational Training Scholarships Scheme.

Scholarships to Bhutanesse Students.

Scholarships to Sikkimesse Students.

Admission of private foreign students to Indian Universities/Institutions recommended by our Missions.

Facilities offered by Indian State Governments/Universities to African Students for studies in India.

Scheduled Castes, Scheduled Tribes and other Backward Classes Scholarships Scheme for post-Matriculation Studies in India.

Overseas Scholarships to Scheduled Castes, Scheduled Tribes and other Backward Classes Students.

Partial Financial Assistance (Loan) Scheme and recoveries of loans under the Scheme.

Research Scholarships in Humanities.

Scholarships/other educational facilities to the Children of Political Sufferers.

Colombo Plan Scholarships/Fellowships (other than scientific, engineering, technological, fine arts and medical subjects).

Point Four Programme Fellowships/Scholarships (other than scientific, engineering, technological, fine arts and medical subjects).

U. N. Social Welfare Fellowships/Scholarships Programme.

UNESCO Fellowships/Scholarships (other than scientific, engineering, technological, fine arts and medical subjects).

Scholarships/Fellowships to Students from South and South-East Asian countries under the Colombo Plan (other than scientific, engineering, technological, fine arts and medical subjects).

Fellowships/Scholarships from Foreign Governments, Institutions and Bodies (other than scientific, engineering, technological, fine arts and medical subjects).

Programme for Exchange of Scholars between India and Foreign Countries (other than scientific, engineering, technological, fine arts and medical subjects).

Post-Matric Merit Scholarships Scheme.

Merit Scholarships in Public Schools.

Scholarships for Higher Studies in Hindi to Students of non-Hindi Speaking States.

Reciprocal Scholarships Scheme in the case of Scholars coming for study of Humanities.

Fellowships to French nationals under the French Fellowships Scheme in the case of Scholars coming for study of Humanities.

Financial Assistance to educational institutions and Indian students abroad.

United States Educational Foundation in India.

* The latest edition Feb. 1959 is entitled 'Scholarship for Study at Home and Abroad' (Ministry of Scientific Research and Cultural Affairs, Price 25 nP.).

Co-ordination of foreign aid projects, e.g., T. O. M., Colombo Plan, Ford Foundation, Point Four Programme, etc.

Post-School Scholarships for the Blind.

Post-School Scholarships for the Deaf.

Scholarships for Handicapped.

Scholarships for the Mentally Retarded Children.

The Ministry of Scientific Research and Cultural Affairs has schemes of its own for subjects other than humanities.

Old Overseas Scholarships Scheme.

Modified (Central) Overseas Scholarships Scheme.

Fully Paid Overseas Scholarships Scheme.

Union Territories (Central States) Overseas Scholarships Scheme.

Indo-German Industrial Co-operation Scheme: Practical Training, Post-Graduate Studies, Fellowships to German nationals for studies in India.

Colombo Plan for Studies Abroad and in India.

Colombo Plan Correspondence Course.

UNESCO Fellowships for Studies Abroad and in India.

Ad hoc awards offered by the Foreign Governments: Governments of U.S.S.R., Czechoslovakia, Austria, France, Belgium, Yugoslavia, U.A.R., Japan, Rumania, Italy, Switzerland, Israel, Sweden, Hungary, Netherlands, Norway.

German Democratic Republic Scholarships Scheme (East Germany).

Hamburg Chamber of Commerce Scholarships Scheme (West Germany): Training of Polytechnic Teachers, Training of Technicians.

Federal Republic of Germany Scholarships Scheme.

Hamburg University Students' Union Scholarships Scheme (West Germany).

Ad hoc offers of West German Government of Museology, Assyriology.

German Academic Exchange Service Scholarships Scheme for unspecified subjects.

Federal Republic of Germany Scholarships for Studies in Fundamental Scientific Research (Atomic Energy).

Federation of British Industries.

Brush Abee Group Scholarships.

Royal Commission of Exhibition 1851 and Rutherford Scholarships.

I.A.E.S.T.E. for Training Abroad.

T.C.M. Scheme for Studies in U.S.A.

Reciprocal Scholarships Scheme in Scientific, Engineering, Technological and Fine Arts and Medical subjects.

Exchange Programmes of Scholars: Governments of China, U.S.S.R., Czechoslovakia, Poland, Yugoslavia, Rumania.

French Fellowships Scheme in Scientific, Engineering, Technological and Fine Arts and Medical subjects.

Scheme for Cultural Scholarships to the Young Artists.

German Democratic Republic Government Scholarships for Post-Graduate Studies.

German Democratic Republic Government Scholarships for Practical Training.

French Government awards for specialized training.

U.N.T.A. Scholarships.

Similar offers by other Governments/Organisations, Universities for studies in Science, Technology and Culture.

ANDAMAN AND NICOBAR ISLANDS

Capital: Port Blair.

Area: 3,215 sq. miles. Pop. 40,000 (approx.) (1958).

The Andamans are a group of 204 islands of various sizes large and small lying between the 6th and 14th Parallels in the Bay of Bengal. The northernmost 'Landfall Island' is 560 miles from the mouth of Hooghly River. The headquarters Port Blair is about 780 and 740 miles from Calcutta and Madras respectively. The main part of the group is composed of five large islands, viz., North Andamans, Middle Andamans, South Andamans, Baratang and Rutland Islands generally known as the Great Andamans. To the south of the Great Andamans is the island of Little Andaman. The extreme length of the Great Andaman Islands is 290 miles and the extreme breadth 32 miles the total land area being approximately 2,580 sq. miles. These islands consist mostly of a mass of hills covered with dense tropical forests and separated by three straits and several creeks. These islands have several very good harbours—Port Blair, Port Cornwallis, Mayabander and Port Elphinstone.

The Nicobar Islands numbering 19 from Car Nicobar in the north to Great Nicobar in the south intervene between Little Andaman and Sumatra. The southern island of Great Nicobar is about 100 miles from Pulo Brasse of Achin Head in Sumatra and the northern island of Car Nicobar 75 miles from Little Andaman. The extreme length of the seaspace occupied by the Nicobars is 163 miles and the extreme width is 36 miles. The islands in the Nicobar group are partly hilly and partly flat.

The climate of the islands can be generally described as tropical; warm but tempered by pleasant sea breezes. The islands are exposed to both monsoons with north-easterly gale from November to January and south-westerly gale from May to October. The weather is quiet only from February to April and to some extent in October. The average rainfall is 125 inches. The maximum temperature varies between 85 and 92 degrees throughout the year. The scenery of the islands is everywhere strikingly beautiful.

POPULATION

The population of the islands according to the 1951 census was 30,971 of whom 22,957 lived in rural areas. The population increased with the arrival of displaced persons from East Bengal. In 1958 the population was approximately 40,000.

The population can be mainly divided into four groups: (a) Aborigines; (b) Andaman Indians; (c) Nicobarese; (d) East Bengal settlers.

(a) *Aborigines*: The aborigines of the Andamans are descendants of a Negrito race, supposed to have been the earliest people to inhabit South East Asia. Essentially there are two main species *Eriantaga*, that is the forest dwellers who comprise the Jarawas and Sentenelese, and the coastal tribe to which the Onges and the Andamanese belong. The Andamanese were originally the most numerous of all the tribes but their number has decreased probably due to their contact with civilisation. They now number 23 in all. Their Chief Loka has now been enlisted in the Bush Police (Constabulary). The Onges are estimated at 150 according to the 1951 Census. The information regarding the Jarawas and Sentenelese is wholly scanty as the tribes are hostile and avoid all contact with administration. According to the 1951 Census, the estimated total number of Jarawas was 60 only, but this figure is obviously undependable.

(b) *Andaman Indians*: From 1858 to 1942 and from October 1945, the Andaman Islands were a Penal Settlement, and except for the steadily increasing number of the aborigines, almost the entire population consisted of convicts and of people who were in these islands in connection with these convicts—administrative personnel, merchants catering to them etc. The strength of the population therefore in this period depended entirely on the number of convicts that were sent to these islands from the mainland. After the issue of the Proclamation abolishing the Penal Settlement, remitting all sentences and offering repatriation at Government expense, which facility was availed of by some 4,200 persons during 1945-46, the population sunk to a little under 14,000 in 1947. This population originally known as local borns has since been recorded as "Andaman Indians" during the 1951 census.

(c) *Nicobarese*: The Nicobarese belong to a completely different race group from the aborigines of the Andamans. They obviously form an integral part of that great yellow race which populated the best part of South-East Asia in prehistoric days. Their number according to the 1951 census is approximately 12,000 spread all over the Nicobar group of islands. Within the last century the race has registered a considerable increase in population. It has doubled itself in fifty years. The entire

population of the Nicobarese from Car Nicobar to Great Nicobar has the same culture and outlook on life.

From 1858 to 1942 the islands were used by the Government of India as a penal settlement for convicts serving life sentences and long terms.

The islands were occupied by the Japanese in March 1942 and re-occupied by the Government of India in October 1945.

With the re-occupation of these islands the penal settlement was abolished and convicts were given an opportunity to return to the mainland.

202 families of displaced persons from East Pakistan were settled in the South Andamans during 1949 under a pilot scheme sanctioned by the Government of India, Ministry of Rehabilitation. The process has continued and so far 2,200 agricultural families have been settled in the various parts of the Andaman group of islands. More agriculturists are expected to be settled during the 2nd Five Year Plan.

The number fixed for 1958-59 was 300 families (210 from W. Bengal and 100 from Bihar).

When India became a Republic in January 1950, these islands were given the status of part 'D' Territory under the direct administration of the President. A new A.C. Power Station was established at Port Blair. A Junior Division of the National Cadet Corps was raised. Social work and cultural activities were organised. A plan for large-scale colonisation of these islands was approved by the Government of India in 1952. The judicial administration of the islands was placed under the jurisdiction of the Calcutta High Court.

AGRICULTURE, INDUSTRY

In the year 1957-58, 28,721 tons timber was shipped to the mainland yielding a revenue of Rs. 66,82,000.

The species of timber found in the forest region are mainly padank, Andaman redwood, Gurjan and Papaya. Gurjan is in great demand for the manufacture of plywood and Papaya for the manufacture of splints and veneers.

Since 1954 teak plantations are being raised in the South and Middle Andamans with great success.

There is a Government saw mill on Chatham Island in Port Blair besides six other smaller units in north, middle and south Andamans. The W.I.M.Co. has a splint factory at Haddo, Port Blair in South Andaman.

There are 40 co-operative societies.

The islands are slowly being made self-sufficient in paddy and rice with the incoming of West Bengal agriculturists, and now grow approximately half their annual requirements. No proper survey of the mineral resources of these islands has yet been undertaken.

Coconuts are next to timber the most important among the produce of the islands and a major item in the diet of the Nicobarees. Exports which go to Calcutta and Madras generally are in the form of nuts and copra. The marketing is done through co-operative societies which are being run by the Nicobarees themselves.

A coconut oil mill is being installed at Dundas Point in South Andamans by a local contractor.

A cork factory has already been established in Kmlus village in Car Nicobar Island.

Rubber trees are being planted in extensive areas by planters in south and middle Andamans. Experiments of planting jute in middle Andamans have proved successful.

There is plenty of scope for fruit growing and pepper. Such fruit as papaya, pineapple, citrus, bananas, mangoes, etc. can be easily grown.

Port Blair has a 450 kW power station established in 1950. An A.C. power station also has been installed in Car Nicobar.

Port Blair has a city Transport Service comprising six passenger buses and one school bus.

There are one high school, 2 middle schools, 42 primary schools, 9 primary-cum-basic schools and one Girls' school. The total number of students in all these schools is 3,588. A Junior Division of the N.C.C. was raised in the High School.

The Government Hospital at Port Blair has 218 beds. Besides the Port Blair Hospitals, there are hospitals at Car Nicobar, Nancowry and Rangat. The total strength of beds is 838 including the bed strength of the present T.B. Hospital at Gambudat.

There are 23 dispensaries all over the Islands.

Comprehensive schemes have been drawn up and put into operation for effective control of diseases like malaria, sharia and V.D. A Malaria

and Malaria Survey Control Unit under the National Health Scheme has been set up and is operating in the Nancowry group of Islands.

A V.D. Unit has been set up in Car Nicobar. The incidence of diseases in these islands is remarkably low compared to that of the mainland.

The Administration runs its own passenger-cum-cargo service between the island and the mainland with two motor vessels M.V. Andamans and M.V. Nicobar. The former is an 8,000 ton class ship and was built by the Hindustan Shipyard. Between these two vessels, 36 round trips are made to the mainland giving an average of one round voyage every tenth day.

The Administration also possesses a steamship S.S. Chhulunga for inter-island coastal communication.

The Hospital Ship M.V. Indus equipped as a travelling dispensary-cum-hospital was gifted to the Administration by the Australian Government under the Colombo Plan for rendering medical aid for the people of distant islands to whom the hospital is not readily approachable.

THE SECOND FIVE-YEAR PLAN

The Plan involves an outlay of Rs. 6 crores. Of this about 80 per cent will be spent on colonisation and refugee rehabilitation. Two thousand acres of unproductive forests will be cleared and brought under coconut plantation. The production of timber is to be raised to 75,000 tons per annum by the end of the plan period. Two veterinary hospitals and two veterinary outposts will be constructed. 100 miles of new roads will be constructed.

The Social Service Programme included in the Plan with an outlay of Rs. 67.5 lakhs envisages gradual but substantial improvements in the spheres of education, health, housing, water supply and tribal welfare. Two N.E.S. Blocks, one in Car Nicobar and the other in south Andaman have been established.

A scheme for the establishment of cottage industries has been formulated with a view to extending employment opportunity and standard of living of the rural population.

Some of the important changes envisaged as a result of the implementation of the recommendations of the Andaman Education Committee are: Four new Basic Primary Schools are to be set up in the headquarters area. New Basic Schools will be opened in rural areas. A Senior Basic School for girls will be opened in Port Blair. Social education will be introduced.

A School for the Training of Teachers in Junior Basic Education will be set up at Port Blair. The expansion of educational facilities in tribal areas is to be speeded up.

New modern hospitals will be constructed at Port Blair and Car Nicobar. Four Maternity and Child Welfare Centres at Mayabunder, Rangat, Wimberleygunj and Car Nicobar, will be opened. Schemes have been included for the expansion and development of co-operative societies. A branch of the State Bank of India has been opened at Port Blair. The annual volume of business is of the order of Rs. 80 lakhs for exports and Rs. 55 lakhs for imports. The Bank has also taken over the Government Treasury business.

ADMINISTRATION

The Andaman Islands are administered by the President acting through a Chief Commissioner and an Advisory Council of 5 Members. The seat of administration is at Port Blair, which is connected with Calcutta and Madras by a steamer service which calls at Port Blair every tenth day.

The islands are connected to India by wireless telegraphy.

For revenue purposes, the Islands form one revenue district under the Deputy Commissioner and three Assistant Commissioners stationed at Port Blair, Mayabunder and Car Nicobar. The Forest administration is controlled by the Chief Conservator of Forests who is ex-officio Secretary to the Chief Commissioner in the Forest Department. The Chief Conservator has three Divisional Forest Officers under him one each in South, Middle and North Andamans.

Besides the Deputy Commissioner who is also the District Judge, the district officers include the Superintendent of Police, two Executive Engineers, the Senior Medical Officer, Harbour Master, Marine Engineer, Agricultural Officer, Education Officer and the Controller, Andaman Labour Force.

The Chief Commissioner's Secretariat consists of a Secretary, Secretary (Forests), Development Secretary and two Assistant Secretaries.

The budget estimates for 1957-58 were: Revenue Rs. 1,41,49,000, expenditure Rs. 4,68,25,000.

Chief Commissioner, M. V. Rajwade, I.A.S.

Advisory Council, Lachman Singh, M.P., K. R. Ganesh, Aftab Ali, John Richardson, Rajan Ranjan Sarkar.

ANDHRA PRADESH

Capital: Hyderabad.

Area: 1,05,963 sq. miles; Population: 9,12,60,133 (1951).

No. of Districts: 20.

No. of talukas: 183.

The total number of District Boards in the State: 20. The number of Municipal Corporations: 2. The number of City and Town Municipalities in Telangana: 79; Municipal Councils in Andhra: 40; number of Panchayats in Telangana: 1,252; Panchayats in Andhra region: 10,000; number of towns and cities in the State: 293; number of villages in the State: 26,450.

The total national income of the State for 1955-56 is estimated to be Rs. 825.10 crores. Strength of Legislative Assembly: 302.

The strength of the Legislative Council: 90.

No. of members from Andhra Pradesh to the Rajya Sabha: 18.

No. of members from Andhra Pradesh to the Lok Sabha: 48.

* Includes one nominated.

Government has decided on the recommendation of a Committee that the minimum wage in the State should be Rs. 56 from Nov. 1, 1958, and that of the clerical staff Rs. 80. About 40,000 Class IV Government servants would benefit. The total burden on the State would be Rs. 4 crores annually.

Regional Committee: A Regional Committee for the Telangana area called the Andhra Pradesh Regional Committee was constituted at Hyderabad on March 21, 1958 in accordance with the provisions in the States Reorganisation Act by an order of the President of the Indian Union in February 1956. All the 108 members elected from the Telangana region to the State Legislative Assembly are members of the Regional Committee.

The Committee advises the State Government on all matters pertaining to the Telangana region. The Government is normally expected to undertake measures or introduce reforms and other legislative measures in consultation with

this committee. The Telangana region comprises nine districts of the former Hyderabad State, namely Adilabad, Nizamabad, Karimnagar, Medak, Warangal, Hyderabad, Nalgonda, Khammam and Mahbubnagar.

There is no regional committee for the Andhra region of the State.

Chairman, Regional Committee, K. Achuta Reddy.

Madras-Andhra Border Dispute: The Pataskar report on the Madras-Andhra border recommended the transfer of parts of Chingleput and Salem Districts to Andhra and a part of Chittoor District including the Taluka of Tiruttani to Madras.

DISTRICTS

Districts with District headquarters in brackets: Anantapur (Anantapur) Chittoor (Chittoor), Cuddappah (Cuddappah), East Godavari (Kakinada), Guntur (Guntur), Krishna (Masulipatnam), Kurnool (Nandyal), Nellore (Nellore), Srikakulam (Srikakulam), Vishakhapatnam (Vishakhapatnam), West Godavari (Eluru),

Hyderabad (Hyderabad), Mahboobnagar (Mahboobnagar), Warangal (Warangal), Khammam (Khammam), Karimnagar (Karimnagar), Adilabad (Adilabad), Nizamabad (Nizamabad), Medak (Sangareddy), Nalgonda (Nalgonda).

TALUKAS

Names of districts showing within brackets the talukas in each district.

Vishakapatnam District (Narsipatnam, Ellamanchilli, Anakapalli, Vishakapatnam, Sringavarapukota, Vijayanagaram, Bhimunipatnam, Chodavaram and Chintapalli).

Srikakulam District (Tekkali, Sompeta, Ichchapuram, Srikakulam, Patapatnam, Narasannapeta, Bobbili, Parvatipuram, Palakonda, Salur and Chipurupalli).

East Godavari District (Kajahmundry, Ramachandrapuram, Rajole, Kakina, Tuni, Bhadrachalam, Amalapuram, Peddapuram, Pithapuram, Rampa (Chodavaram, Yellavaram, Nagur and Kothapeta).

West Godavari District (Bhimavaram, Tadepalligudem, Eluru, Kovvur, Polavaram, Narsapuram, Chintalapudi and Tanuku).

Krishna District (Masulipatnam, Vijayawada, Nuzvid, Nandigama, Kalkalur, Gudivada, Divi, Jaggayyapeta, Udvannavaram and Tiruvuru).

Guntur District (Guntur, Ongole, Bapatla, Tenali, Repalle, Narsaraopet, Palnad, Vinukonda and Sattenapalli).

Nellore District (Gudur, Kavali, Kovur, Nellore, Udayagiri, Kanigiri, Rapur, Atmakur, Kandukur, Daril, Sullurupet, Podili and Venkatagiri).

Chittoor District (Chittoor, Madanapalli, Vayalpad, Kalahasti, Punjanur, Tiruttani, Palameru, Chandragiri, and Puttoor).

Cuddappah District (Cuddappah, Proddutur, Rajampet, Jammalamadugu, Pulivendla, Badwei Rayachoti, Siddhavattam and Kamalapuram).

Kurnool District (Kurnool, Dronachalam, Nandyal, Pattikonda, Nandikotkur, Siruvella, Kambam, Markapuram, Kollukuntla, Banganapalli, Adoni and Aloor).

Anantapur District (Anantapur, Madakasira, Kadiri, Gooty, Hindupur, Penugonda, Kalyandurg, Dharmavaram, Tadipatri, Rayadurg and Urvakonda).

Hyderabad District (Hyderabad West, Hyderabad East, Shahabad, Medchal, Ibrahimpatnam, Tandur and Vikarabad).

Mahbubnagar District (Mahbubnagar, Wanaparti, Atmakoor, Makhtal, Pargi, Shadnagar, Kalvakurti, Achampet, Nagarkurnool, Kollapur, Gadwal, Alampur and Kodagall).

Warangal District (Warangal, Pakhal, Mulug, Mahboobabad, Parkal and Jangaon).

Khammam District (Khammam, Madhira, Yellandu, Burgampahad and Palvancha).

Karimnagar District (Karimnagar, Siricilla, Metpally, Jagtial, Sultanabad, Mahdevpur and Huzarabad).

Adilabad District (Adilabad, Uttnoor, Khanapur, Nirmal, Boath, Chinnoor, Sirpur, Lakshetipet and Asifabad).

Nizamabad District (Nizamabad, Kamareddy, Yellareddy, Banawada, Bodhan and Armoor).

Medak District (Sangareddy, Andole, Medak, Siddipet, Gajwel, Narsapur, Zaheerabad and Narayankhed).

Nalgonda District (Nalgonda, Miryalguda, Deverkonda, Ramannapet, Bhongir, Suryaset and Huzurnagar).

A white paper published in Nov. 1957 envisages the abolition of District Boards and the formation of block and District Councils.

POPULATION

Population of districts based on 1951 census: Anantapur 1,483,591; Chittoor 1,810,377; Cuddappah 1,161,731; Godavari East 2,414,808; Godavari West 1,697,727; Guntur 2,549,996; Krishna 1,779,484; Kurnool 1,618,621; Nellore 1,795,632; Srikakulam 2,123,136; Karimnagar 1,428,168; Warangal 1,325,984; Nalgonda 1,252,810; Khammam 700,006; Hyderabad

1,511,336; Mahbubnagar 1,586,837; Adilabad 902,522; Nizamabad 778,158; Medak 1,245,266; Vishakapatnam 2,072,698.

GEOGRAPHY

The shape of Andhra Pradesh is rather curious. A short neck with protruding belly would be an apt description. It has a chain of mountains, the Eastern Ghats, running over its entire length on the eastern and northern borders.

In the far north too the country is hilly.

There are huge forest areas in Srikakulam, Vishakapatnam, Godavari, Kurnool, Warangal and Adilabad Districts.

The landscape is varied and rich. It ranges from the smiling ever-green plains of the Godavari and Krishna deltas, the rocky drought-stricken plateau of Rayalaseema, the undulating uplands of Northern Circars to the flat sandy downs in Nellore and Guntur.

The climate is warm and humid or hot and humid according to the season.

The average annual rainfall is highest in the north varying between 45 inches and 60 inches. It gradually decreases to the south and south-west down to about 20 inches.

Two-thirds of the rain is from the south-west monsoon.

The rainfall is erratic both in time and quantity. The smaller the rainfall the more erratic it is.

Srikakulam, Vishakapatnam, parts of Godavari and Nellore suffer from periodic floods and droughts, while the others are more liable to suffer from droughts.

There are no mountains of the type of the Sahyadri range, but there are hills and tablelands scattered throughout the State. Some of the hills are high and are covered with useful forest, some carry scrub jungle, while many are quite bare.

The soil in the area covered by the former Andhra State consists of the alluvial of the deltas and littoral tracts, red, black and brown soils.

The agricultural value depends on the textures. The interesting point is that while the top-soil is being washed away year after year, the remaining soil at the bottom continues to produce in the same measure as before. The average yield of rice per acre in Andhra region is 1,293 lbs. while in Telangana area it is 679 lbs. (The all-India average is 729 lbs.).

There are two major rivers in the area of the former Andhra State, the Godavari and the Krishna, three medium rivers with a large number of tributaries, and twenty-nine minor and small rivers. It is estimated that together they carry annually 150 million acre ft. of water into the Bay of Bengal.

The Godavari flows for the major part through the State before it falls into the Bay of Bengal. Its main tributaries are the Manjira, the Pranahita, the Indravati, and the Sabari, some of which flow partly in the Telangana area.

The main tributaries of the Krishna are Tungabhadra, Yerla, Warna and Dudhganga.

The medium rivers are the Pennar, the Nagavalli, the Vamsadhara.

The river system of Telangana consists of two great basins, that of the Godavari and the Krishna. The former with a length of more than 600 miles in the area has a number of tributaries, the chief of which are the Painganga, the Wardha and the Pranahita from the north, and the Manjira and the Maner from the south. Among its tributaries the most important are the Bhima, the Musi on which the capital stands, and the Tungabhadra, which forms the southern boundary of the Raichur-Mudgal Doab. The Telangana region, abounds in tanks and artificial lakes constructed mainly for the purpose of irrigation.

In Telangana the soil has granitic and calcareous formation. It is the land of rice and jowar. The hills are bare of vegetation and the land is covered with huge fantastic tors and boulders. Also as the soil is sandy, the rivers dry up in hot weather, necessitating the storage of water in tanks and artificial lakes for purposes of irrigation.

AGRICULTURE

The total geographical area of the State is 6,66,80,868 acres.

Net area sown in 1955-56 was 279 lakh acres or 41.8 per cent of the total geographical area. Barren and uncultivable land : 72.46 lakh acres.

Land put to non-agricultural uses : 33.38 lakh acres.

Cultivable waste : 41.19 lakh acres.

Permanent pastures and other grazing lands : 28.92 lakh acres.

Land under miscellaneous crops, trees and groves not included in the net area sown : 6.31 lakh acres.

Current fallows : 48.34 lakh acres.

Other fallow lands : 17.29 lakh acres.

Forests 139.92 lakh acres.

Area sown more than once 303.85 lakh acres.

Total cropped area : 303.98 lakh acres.

Production figures for 1955-56 of some of the main crops are as follows : (Cereals 52,59,481 tons); Rice 30,49,697 tons; Jowar 11,31,433 tons; Maize 1,11,863 tons; (Pulses 2,73,867 tons); Tuar 43,784 tons; Green Gram 71,111 tons; Sugarcane 5,25,771 tons; Chillies 1,12,271 tons; (Oilseeds 12,38,827 tons); Groundnut 10,70,119 tons; Castor 62,439 tons; Cotton (Bales) 1,27,940; Tobacco 1,31,108 tons; Bajra 3,08,830; tons; Ragl 2,20,120 tons; Minor millets 4,30,870 tons; Bengal gram 41,884 tons; Black gram 24,320 tons; Horse gram 79,019 tons; Onions 1,09,325 tons; Sesamum 62,217 tons; Mesta 1,09,000 tons.

Position 1956-57 :

Total area under crops in 1956-57 : 30 million acres.

Area under cereals and millets (1956-57) : 18,964,000 acres.

Production of cereals and lesser millets (1956-57) : 55,20,000 tons.

Area and production respectively within brackets for 1956-57 of rice and jowar : Rice (7,104,000 acres; 3,301,000 tons); Jowar (6,180,000 acres; 1,052,000 tons).

The total production of rice is estimated at 40 lakh tons in 1954-59. Out of this 8 to 10 lakh tons may be available for export.

The more useful species of timber produced are Kosum, Toun, Rosewood, Irul, Teak. Bamboo suitable for the manufacture of paper pulp also occur in abundance.

Total Forest area : 14 mln. acres.

LAND REFORMS

According to the census of land holdings conducted in 1954 in the Telangana region and in 1955 in Andhra region, the total number of holdings in Andhra Pradesh is 42,43,655 comprising an area of 3,41,91,769 acres. The average size of a single holding is 8.1 acres. 39.87 lakh holdings are under the personal cultivation of the owners wholly or partly and the remaining 2.66 lakh holdings are completely leased out. The area leased out is 39.29 lakh acres or 11.5 per cent of the total owned area in the holdings. The remaining 88.5 per cent or 302.63 lakh acres are under the personal cultivation of the owners, and they include lands put to non-agricultural uses.

The Tenancy Acts in force are the Hyderabad Tenancy and Agricultural Lands Act, the Hyderabad Prevention of Fragmentation and Consolidation of Holdings Act, the Estates Land Act, the Rent Reduction Act, the Inams Abolition Act and the Andhra Tenancy Act.

An ordinance was promulgated in 1957 calling upon those owning more than 20 acres of land in the former Andhra region to furnish details of their holdings to the Government.

In 1958 a bill, fixing ceiling on land holdings for the entire State of Andhra Pradesh, was drafted and introduced in the State Assembly. The proposals in it have received the approval of the Planning Commission. This fixes the maximum holding as one fetching an annual income of Rs. 5,400.

The definition of 'estate' under the Estates Land Act was enlarged in 1956 so as to include within its scope inam hamlets and inam Khandrigas in inam villages, thereby ensuring the application of the Rent Reduction Act and to some extent the Abolition Act to these inams. Legislation for the abolition of all 'inams' other than 'estates' and for their conversion into ryotwari tenure, was undertaken. With a view to completing the scheme for the abolition of intermediaries proposals are under Government's consideration for legislation for the abolition of the post-1936 inam estates also. The Andhra Tenancy Act was enacted in 1955 providing mainly for the regulation of grants payable by tenants to landlords and for the prescription of a minimum period for agricultural leases. The Hyderabad Tenancy Act was amended so as to confer the right of protected tenancy on a larger class of tenants than had hitherto enjoyed such benefits.

All those who had cultivated land continuously for six years within a prescribed period were classified as protected tenants. They numbered, according to a census taken in 1953-54, about 620,000 in the entire former State and about 260,743 in the nine districts of Telangana. So long as the tenant paid his rent—which in case of dispute was determined by the Government according to a formula linked with the land revenue—he enjoyed absolute rights of cultivation.

The Government promulgated an ordinance to ban all evictions retrospectively from March 21, 1952. Some 600 suits were stayed and more than 5,000 tenants restored to their lands.

The protected tenants were given special privileges, including the right to purchase land held by them on easy terms. There was a limit to the extent of land they could thus purchase.

The tenant's total extent of land, including his own, should not exceed one family holding, which is defined as the extent of land capable of yielding a gross annual income of Rs. 1,600.

The ceiling on present holdings of a landlord was fixed at 4.5 family holdings, while that on future holdings was scaled down to three acres.

Any protected tenant can notify his desire to purchase the land under his occupation provided the landowner does not own more than two family holdings in all. In case the landowner fails to concede his request, an application is made to a tribunal, which will decide how much of the land should be sold to him and at what price.

The Act fixed the maximum limits of the reasonable price which the tenant should pay. They were computed in multiples of land revenue—for dry, *chalka* lands 60 times the land revenue and for wet lands irrigated under flow water or wells 24 times the land revenue.

The price is payable in 16 instalments spread over not more than eight years.

Of the 260,743 protected tenants in Telangana, only 13,125 exercised their right of purchase and bought 142,417 acres.

Towards the end of 1955, it was decided to apply section 38-K of the Tenancy Act in certain selected areas, by which the protected tenants automatically became the owners of the lands, whether or not they made any application in writing to that effect, and it was up to the landlord to prove that this or that particular plot of land was required by him.

This was applied throughout Khammam district and in the Mulug taluka of Warangal district.

By the end of 1957 11,426 protected tenants in Khammam and 1,900 in Mulug had become "owners" of their lands.

It was estimated that throughout Telangana, there were about 5,400 substantial landholders, that is, those who owned more than the statutory limit of 4.5 family holdings (that would yield an annual gross income of Rs. 7,200). In terms of acres, though they vary from district to district, it is estimated that on an average, a family holding ranges from six to nine acres of wet land and 21 to 60 acres of dry land.

The substantial landholders in Telangana together own about 3,958 acres of dry land (assuming six acres of dry land as equivalent to one acre of wet land). The surplus land available for distribution among the landless will be in the neighbourhood of 536,000 acres.

Consolidation of land holdings and prevention of fragmentation was being worked out on an experimental basis in 50 selected villages.

LIVESTOCK

The figures (latest available, 1956) for livestock are in thousands.

Total Cattle 11,276

1. Males over 3 years 4,842 including 23 34 breeding bulls.

2. Females over 3 years 3,762.17 including 1,431 34 in milk.

3. Young Stock under three years 1,200 24.

Total males 6,130.98; total females 5,145.56.

Total Buffaloes 17,214.18

Total males 8,058.74

Total females 9,155.43

Total Goats 3,693.41

Total Horses and Ponies 31.51

Males 16.11

Females 15.40

Mules 0.382.

Donkeys 76.42

Camels 0.107

Pigs 620.84

Total Poultry 14,705.62

Hens 4,649.63; Cocks 1,800 72; Chicken

7,956.62; Ducks 298.73.

LARGE-SCALE INDUSTRY

The main industries are Sugar, Paper, Cement, Cigarettes and Textiles. There is a big sugar factory at Bodhan in Nizamabad District and there are other factories in different places. Paper mills are at Sirpur in Adilabad District and Rajahmundry in East Godavari District. Cement factories are at Vijayawada and other places. Cigarette factories are concentrated in Hyderabad City. Textile Mills are in Hyderabad, Warangal and a few other towns. Others worth mentioning are the Government Ceramic Factory at Gudur, Block Glass Factory at Gudur and the proposed Sri Venkateswara Paper and Strawboard Mills, Tirupathi.

In the Telangana area there are eleven textile factories which employ 8,030 persons, 111 tobacco units employing 8,300 persons, two cotton and spinning factories employing 600 persons. Then there is the ship-building yard at Vishakhapatnam.

A fertilizer factory by the Government and one to manufacture cycle parts are to be set up—the latter at Vijayawada.

MINERALS

The chief minerals produced in the State are coal, iron ore, limestone, manganese and asbestos. The coal industry is situated at Kothagudem, Tandur, Yellandu and Sastri in Telangana region. Other minerals are widely distributed. According to the Geological Survey of India, two large deposits of iron ore containing an estimated reserve of nearly 389 million tons of ore have been located in Guntur and Nellore districts.

Production figures for 1955 are as follows:— (The first figure within brackets shows the output in tons and the second figure indicates the value in lakhs of rupees): Coal (1,681,576 tons; Rs. 369.95 lakhs); Manganese (101,000 tons; Rs. 156.15 lakhs); Mica (4,150 tons; Rs. 114.54 lakhs); Iron Ore (663,000 tons; Rs. 48.81 lakhs); Limestone (244,000 tons; Rs. 35.82 lakhs); Asbestos (321 tons; Rs. 3.09 lakhs); Barytes (4,342 tons; Rs. 0.78 lakhs).

COTTAGE INDUSTRIES

The number of workers employed in small-scale and cottage industries, according to the 1951 census, was 1,107,368 and these were distributed over 355,010 establishments. The most important industry is that of handloom. There are about 4 lakh handlooms in the State; besides, there are 14,000 looms for woven fabrics. The State has thus the largest number of looms in India and this industry provides employment for about 323,000 persons and livelihood for 1,615,000 persons. Assuming that the overall production per month per weaver is 100 yards, the annual output of handloom cloth per annum works out to about 39 crore yards of cloth.

Other important cottage industries are Kambl weaving which employs about 39,000 persons, coir making employing about 12,000 persons and basket making which employs about 40,000 persons.

Certain handicrafts of Andhra Pradesh are world famous. Notable among these are the silver filigree articles of Karimnagar, the exquisite toys of Nirmal, Kondapalli, Nakkapalli and Tirupathi, the carpets of Warangal and Eluru and the lac goods of Narsapur.

TRANSPORT

The total railway route mileage open for traffic in Andhra Pradesh is 2,902 miles out of which 1,633 miles are Broad Gauge, 1,244 miles Metro Gauge and 25 miles Narrow Gauge. The total road mileage including National Highways, State Highways, major district and other district roads is 14,466 miles.

The Andhra Pradesh Road Transport is a nationalised service now largely serving Telangana area. In 1955-56 the road mileage covered by it was 3,577; its total fleet strength 442. Its total earnings from the Telangana area stood at nearly Rs. 1,82,33,000 in 1954-55 and Rs. 1,79,82,000 in 1955-56 while the expenditure was Rs. 1,65,09,000 and Rs. 1,71,28,000 respectively. The number of passengers carried in 1954-55 was 44,815,888 and in 1955-56 it was 47,308,052.

After the Government decided to extend the nationalised road transport to the Andhra region also, a Road Transport Corporation was formed which took over certain routes in Krishna District as a first step. This was challenged by the private operators affected and the Supreme Court gave a decision against the Government. Further action to be taken in this matter is under the Government's consideration.

There is a well-developed airport at Begumpet in Hyderabad city; there are landing grounds near Vijayawada and Vishakhapatnam.

Many canals in the Andhra area are used for boat transport.

Production figures of the various industries are given below :

Commodity	Unit	Production, 1956	Value 1956 (In lakhs of Rs.)
Sugar	000 tons	126	791.13
Paper	"	16.9	201.12
Cement	"	221	180.39
Cigarettes	Crores	541	423.16
Cotton Piecegoods	Lakh Yards	427	N.A.
Cotton Yarn	Lakh Lbs.	222	350.54
Electricity	Million KWT	263	..
Coal	Lakh tons	16.82	369.95
Fertilisers	Tons.	9,184	..

Fertiliser mixture 3,812 tons; Superphosphate 4,203 tons; Bonemeal 1,169 tons.

* Figures for 1956.

There are two broadcasting stations in the State—at Hyderabad and Vijayawada. There were 3,434 community listening sets in the State on 1st November 1958.

The City of Secunderabad is the headquarters of the Secunderabad Division of the Central

Railway and is the junction of the Broad Gauge and Metre Gauge systems. From here lines radiate east, south, west and north. The total mileage open for traffic which now constitutes the Secunderabad division of the Central Railway is 1,461 miles.

Hyderabad City is connected air with Bombay, Nagpur, Madras, Vishakapatnam and Bangalore. Hyderabad City is served by Begumpet aerodrome. Hyderabad is also linked by air to Delhi and Calcutta.

POWER PROJECTS

Installed capacity of State . 192,876 K.W. (1958).

Actual production in State . 246·903 million units (1956-57).

The following table gives particulars about power projects in Andhra Pradesh :

Name.	Location	Installed capacity	Production in million units	Cost	Commissioning date
HYDRO-STATIONS :					
† Machkund	Machkund (Orissa)	59,500 K.W.	155·149	About 18·75 crores (1st stage)	1955
‡ Tungabhadra	Tungabhadra Dam & Hampi (Mysore State)	18,000 K.W.	6·587	7·5 crores (1st stage)	1956-57
Nizamsagar	Nizamabad District	15,000 K.W.	16·578
THERMAL STATIONS :					
Vishakapatnam	Vizag.	6,750 K.W.	3·198
Vijayawada	Vijayawada	12,000 K.W.	1·289
Nellore	Nellore	5,000 K.W.	2·789	..	1950
Hussainsagar	Hyderabad	24,000 K.W.	53·556	About 3·3 crores	1922
Ramagundam	Ramagundam	37,500 K.W.	1956
DIESEL STATIONS** :					
Giddalur	Giddalur	52 K.W.	0·034	..	1955
Markapur	Markapur	170 K.W.	0·005	..	1956
Cumbum	Cumbum	170 K.W.	0·001	..	1956

† This is a joint venture of the Andhra Pradesh and the Orissa States. The cost and power generated are to be shared in the ratio of 70 : 30. This project was started in 1946.

‡ This scheme is under the control of the Tungabhadra Board constituted by the President of the Indian Union consequent on the formation of the Andhra State, from 1-10-1953 and the transfer to the Mysore State from that date of 7 taluks of Bellary District in which the project is located. The expenditure and the benefits of power are to be shared by Andhra and Mysore Governments in the ratio of 80 : 20. This project was started in 1953. The installed capacity is that of two generators.

** A number of stations were progressively stopped with the advent of hydro-power from Tungabhadra Dam.

Chittoor, Hindupur, Warangal Yellandu :

For Chittoor and Hindupur, the installed capacity is 6,162 kW. and the production in 1956-57 was 23·653 million units.

Bulk supply of hydro-power is being purchased from (1) Mettur Project at 7 points of supply in Chittoor area. The maximum demand recorded 2,779·4 kW. as against the original agreement of 3,400 kW. (2) Mysore Jog Power at Bellary. Maximum demand recorded 2,830 kW. as against 2,000 kW. (3) Mysore Sivassamudram Power at Hindupur. Maximum demand recorded 553 kW. as against 700 kW.

For Warangal the installed capacity is 800 kW. and production in 1956-57 was 3·151 million units. For Yellandu the installed capacity is 160 kW. and production in 1956-57 was 0·336 million units.

For Warangal and Yellandu power is being purchased in bulk from the local mills and distributed by Government.

SECOND PLAN

Investigations on the following power projects are being undertaken during the Second Plan period. (1) Nagarjunasagar Hydro-Electric Scheme; (2) Lower Sileru Hydro-Electric Scheme; (3) Nagarjunasagar Canal Power House; (4) Brisailam Hydro-Electric Scheme; (5) Bangareddy Hydro-Electric Scheme; (6) Laxmipuram Hydro-Electric Scheme; (7) Pulichintala Hydro-Electric Scheme; (8) Siddeswaram Hydro-Electric Scheme.

The targets of power production proposed during the Second Plan period are as follows: Installed capacity 1,44,100 kW.; Transmission lines to be constructed, H.T. and L.T. 2,330 miles; Total load to be connected 3,77,100 kW.; Aggregate peak demand 1,27,000 kW.; Consumers that will be served 30,000; Agricultural Services 5,400; Villages and towns to be electrified 340; Per Capita consumption 20 units.

IRRIGATION

Statement showing the net area irrigated by different sources, gross area irrigated and area irrigated more than once in Andhra Pradesh during 1955-56 : Govt. canals 3,128,624 acres; Private canals 63,571 acres; Tanks 2,638,636 acres; Wells 702,915 acres; Other sources 254,194 acres.

Total net area irrigated 6,787,940 acres. Total gross area irrigated 7,907,157 acres. Area irrigated more than once 1,119,217 acres.

A sum of Rs. 14·57 crores was spent on major and medium size irrigation projects in the Andhra region during the First Plan period. Six major irrigation projects, viz., the Tungabhadra, Krishna regulator-cum-road bridge, Upper Pennar, Bomperu Drainage, Ballapadu (Second stage) and Bhairavani-Tippa Projects, were taken up for execution to benefit an area of 290,875 acres in the districts of Krishna, Guntur, Nellore and Anantapur. On these alone Rs. 11·14 crores was spent during the First Plan period. Seventeen medium projects to provide irrigation facilities to 379,875 acres of land were taken up for execution and four of them were completed during the First Plan period. On these a sum of Rs. 343·22 lakhs was spent. Four of the medium projects are located in Srikakulam district, three each in Nellore and Chittoor districts, two each in Cuddappah and Anantapur districts and one each in Vishakapatnam, West Godavari and Kurnool districts.

A sum of Rs. 718·00 lakhs was spent during the First Plan period on two major irrigation projects in Telangana, viz., the Rajolibanda Diversion Scheme for providing irrigation facilities to about one lakh acres in the Mahbubnagar district and the Kadam Project benefiting an area of 67,000 acres in the Adilabad district. They are continued as spill-over schemes in the Second Plan and a sum of Rs. 270·05 lakhs is provided for them. Also during the First Plan period a sum of Rs. 115·81 lakhs was spent on five medium irrigation projects, viz., Kollisagar and Sarlasagar Projects to benefit 60,000 acres in Mahbubnagar district, the Musi and Bhitman-

pally Projects benefiting 43,860 acres in Nalgonda district and the Sirala Project benefiting 3,000 acres in Adilabad district. In the Second Plan these schemes get a provision of Rs. 64·80 lakhs. The total area benefited by these major and medium projects is 273,860 acres.

The Kadam dam (in Adilabad district), 5,945 ft. long, was completed by the middle of 1958; but it suffered serious breaches on September 1, 1958 due to heavy floods in the river. The Government have appointed a Committee to enquire into the causes of this calamity.

A unique achievement with regard to the Musi project in Nalgonda District is that without damming the river or building a reservoir, irrigation water for 2,000 acres of land has been given already through the right flank canal. The reservoir, when completed, will be an 8 sq. mile sheet of water. Irrigation water for 10,000 acres was expected to be given by June 1958 and the complete development of 38,000 acres will be over in two years.

All the major and medium irrigation projects except the four medium projects completed during the First Plan period are included as continuing schemes in the Second Plan. The Vamsadhara Project is a new major scheme included in the Second Plan. A sum of Rs. 19·95 crores is provided in the Second Plan for the Nagarjunasagar Project which is common to both the regions of Andhra Pradesh.

The major and medium irrigation projects included in the Second Plan for Andhra are expected to bring 4·49 lakh acres more under irrigation during the Second Plan period while the area ultimately expected to benefit from these, amounts to 27·30 lakh acres.

Nagarjunasagar Project. The project in its first stage comprises the construction of a masonry dam 302 feet high above the foundation level, across the Krishna river near Nandikonda about 90 miles below Siddeswaram, and two canals taking off from the reservoir, known as the left and the right bank canals. The dam is situated about ten miles from Machera railway station in Guntur district. Large areas extending

† Was inaugurated on Dec. 24, 1957.

between the Krishna and Godavari in the north and the Krishna and the Pennar in the south can be commanded by the reservoir.

The project will have a gross storage capacity of 5.44 million acre feet and is expected to be completed in 1965.

The right bank canal which will be 135 miles long will carry a discharge of 11,000 cusecs in the first Stage. The left bank canal will be 108 miles long and will lead up to the river Muneru in the first stage, and will flow through Telangana.

The cost of the first Stage of the project, namely, construction of the dam and the two canals is estimated to be about Rs. 98.27 crores.

The present scheme which forms the first Stage of the project will irrigate about 2.06 million acres of land spread over the districts of Guntur, Kurnool, Nellore, Warangal and Nalgonda.

The second stage of the project which will be taken up later on will provide for the generation of electric power.

Besides these, other medium projects taken up during the First Plan are Kollasagar project (Mahbubnagar District), Sarla Sagar project (Mahbubnagar District), Bhemanpally project (Nalgonda District) and Sirala project (Adilabad District).

In the Second Plan the provision made for the execution of major projects is Rs. 897.76 lakhs, for medium (spill over) projects Rs. 360.85 lakhs and new medium schemes Rs. 376.34 lakhs.

Malaria Control Units covering about 4 million population is contemplated. A Central Malaria Laboratory and Museum are planned.

With a view to intensifying the control of filariasis in the endemic zones of Nizamabad, Mahbubnagar, Medak and Karimnagar districts, three control units are proposed during the Second Plan period under the National Filariasis Control Programme. In the former Andhra State two survey units and one Filariasis Control Unit were established in 1955 and the survey of endemic areas and control of endemic filariasis have registered considerable progress at the close of the First Plan period.

Total no. of Government hospitals and dispensaries in the State as on 31st July 1958 : 776.

No. of beds available : 16,128.

Second Plan provision for the Medical and Health Development Programme in the State : Rs. 11.5 crores.

EDUCATION†

There are three Universities in the State : The Andhra University at Waltair, the Osmania University at Hyderabad and the Sri Venkateswara University at Tirupati. Total no. of students in the three universities at the end of 1956-57 : Men 41,867 ; women 3,587.

Total no. of educational institutions in the State at the end of 1956-57 : 33,250. No. of students in these institutions : 31,16,482, which is 9.2 per cent of the population of the State. Graduate teachers under training in various institutions number 882.

Besides a large number of Colleges offering general education, two Agricultural Colleges, four Medical Colleges, two Science Colleges, two Veterinary Colleges, two Women's Colleges, a Law College and four Engineering Colleges exist in the State. There are 11 Colleges giving higher education in Sanskrit. One novel experiment is a Janata College in Warangal district where rural youth are given training in better methods of agriculture, rural social service, health and hygiene, rural surveys and crafts.

As for training facilities, there are 4 B.Ed. Colleges, besides a number of Secondary Grade Training Centres and Basic Training Centres. The old type of adult schools are being replaced by Social Education Centres.

No. of primary schools : 27,537 ; enrolment about 22,90,036.

No. of secondary schools : about 953 ; enrolment about 4,53,312.

No. of Colleges : 85 ; enrolment about 50,000. No. of nursery schools : 17 ; enrolment 1,283. No. of oriental schools : 51 ; enrolment 4,255. Public libraries in the State : 1,418.

THE SECOND FIVE-YEAR PLAN

The total outlay envisaged in the Second Five-Year Plan of Andhra Pradesh is Rs. 175.73 crores. The detailed allocations are as follows :

	In crores of Rupees
Agricultural and Community Development	39.85
Irrigation and Power Projects ..	76.47
Industries	14.28
Roads	7.60
Education	12.79
Health including Water Supply ..	10.99
Housing	5.16
Social Welfare and Labour ..	5.83
Miscellaneous	2.67
Total	175.73

The following tables show particulars about some irrigation projects :

Name of Project	District/Area benefited	Total cost Rs. in lakhs	Development Expenditure Five years 1951-56 Rs. in lakhs	Area to be irrigated on completion in '000 acres
Baliapad, IInd Stage	Nellore	58	50	8
Komperu drain	Guntur	98	41	10
Upper Pennar	Anantapur	84	84	6
Bhalrajanitippa	Bellary* and Anantapur	1.02	1.02	8
Tungabhadra	Kurnool, Anantapur, Cuddappah	19.70	11.40	411
Total	—	23.10	14.17	443

Other projects (the name, irrigation benefit in lakh acres and the probable or actual date of completion) are :

Krishna Barrage, 1.17, 1958-59 ; Godavari First Phase, 0.67, 1958-59 ; Sarla Sagar, 0.046, March 1958 ; Rajolimbunda, 1.14, 1959 ; Nagavalli, 0.09, March 1958 ; Vegavathi, 0.064, March 1958 ; Gambiragedda, 0.105, March 1958 ; Seethanagaram, 0.04, March 1958 ; Narayana-puram, 0.368, March 1959 ; Kalangi, 0.043, 1958-59 ; Mallimadugu, 0.040, 1958-59 ; Lower Sagileru, 0.03, March 1958 ; Pancha Nadi, 0.015, March 1958 ; K. C. Canal, 1.959, 1958-59 ; Cheenarayawami, 0.011, March 1958 ; Musil, 0.38, 1958-59 ; Koli Sagar, 0.12, 1958-59.

Second Plan Schemes : Paleru Bitraganta, 0.048, 1960-61 ; Paidigam, 0.035, 1960-61 ; Jutpally, 0.022, 1960-61 ; Lakkanpur, 0.03, 1960-61.

CO-OPERATION

The total number of Co-operative Societies in the State (1956-57) : 19,198 ; membership : 22,88,590. Share capital : Rs. 59,26,06,000.

The number of agricultural credit societies is 9,697 with a membership of 7,48,298.

The percentages of villages covered and rural population served by co-operative societies at the end of July 1958 were 72.5 and 23.7 respectively. Efforts were being made to raise them to 75 and 33 respectively by the end of March 1959. During 1957-58 the following amounts were distributed among agriculturists as loans : Short-term Rs. 759 lakhs ; medium term Rs. 123 lakhs ; long term Rs. 83 lakhs.

COMMUNITY DEVELOPMENT

Total no. of Stage I blocks in the State on April 1, 1958 : 130 ; Stage II blocks : 45.

Community development blocks including four multi-purpose projects : 34 ; Pre-extension blocks : 13.

Ad-hoc panchayat samithis inaugurated on July 1, 1958 : 20.

Achievements under the Community Development Programme upto 31st March 1958 are as follows :

No. of villages covered : 12,917 ; population covered : 13,576,000 ; area covered : 43,876.55 sq. miles ; Government expenditure : Rs. 7,38,58,665 ; people's contribution : Rs. 4,18,53,921 ; drinking water wells dug : 7,794 ; drinking water wells renovated : 38,799 ; new roads constructed : 6,332 miles ; existing roads improved : 5,003 miles ; no. of culverts constructed : 2,466 ; no. of adult literacy centres opened : 5,028 ; no. of adults made literate : 2,21,180 ; no. of persons provided with additional part-time employment : 63,784 ; no. of persons given additional full-time employment : 32,910 ; no. of co-operative societies functioning : 7,235 ; membership of co-operative societies : 7,48,600.

PUBLIC HEALTH

Plague, Cholera, Small-pox, Tuberculosis, Malaria, Filariasis, and Yaws are among the common diseases in the State, but Government efforts to fight these have produced remarkable results in the case of some. Plague used to be almost an annual visitation to Hyderabad City but drastic preventive measures taken in recent years have practically eliminated it. Cholera, Small-pox and other seasonal epidemics continue to attack people but Government steps to reduce their incidences are also proving effective. The B.C.G. vaccination campaign against tuberculosis is in full swing and by the close of the First Plan period nearly 18,00,000 persons were tested and 6,23,000 vaccinated in the former Andhra State. In Telangana region also the scheme is being extended.

Organised assault on malaria is going on, regions vulnerable to the disease claiming priority. An anti-malaria unit was organised at Lakshnavaram in Warangal district during the First Plan period. Ample provision has been made in the Second Plan to provide equipment for the existing three Malaria Control Units functioning in the Telangana region. In the Andhra districts the establishment of four

* Now in Mysore. † There is a small discrepancy between figures here and those given by the Government of India under 'Educational Statistics'.

BUDGET FOR 1959-60

See under "Late Particulars".

ANDHRA PRADESH STATE FINANCIAL CORPORATION

Was established in February 1954.

Object :—Financial assistance to medium and small scale industries established within the State.

Authorised Capital : Rs. 4 crores.

Distribution of shares : 1,50,000 shares of Rs. 100 each are distributed as follows : (a) State Government 70,000; (b) Reserve Bank of India 20,000; (c) Scheduled Banks, Co-operative Banks, Insurance Companies, Investment Trusts and other financial institutions, 50,380; (d) Others 9,620.

Following are figures upto March 31, 1958† (combined Andhra and Hyderabad) :
No. of applications received : 130
No. of applications sanctioned : 76

(Figures in nearest thousands)

Amount of loans sanctioned	Rs. 135,29,000-00
Amount disbursed ..	Rs. 64,92,000-00*
Amount recovered ..	Rs. 12,99,000-00
Rate of interest ..	6% per annum (net)
Total expenses ..	Rs. 89,000-00
Total income ..	Rs. 6,44,000-00**
Net Profit ..	Rs. 5,55,000-00**

ANDHRA UNIVERSITY

(Waltair)

Chancellor : Governor of Andhra Pradesh.

Pro-Chancellor : Dr. B. Gopala Reddi.

Vice-Chancellor : Dr. V. S. Krishna, B.A. (Oxon.), Ph.D. (Vienna).

Registrar : K. V. Gopalaswamy, M.A. (Oxon.), Barrister-at-Law.

Deputy Registrar : V. Srinadhri Rao, M.A.

The Professors are as follows :

K. Rangadharma Rao, M.A., D.Sc. (Madras), D.Sc. (Lond.) (Professor and Head of the Department of Physics).

Swami Jnanananda, M.Sc., D.Sc., Ph.D., F.I.P.S. Sigma XI (Professor and Head of the Department of Nuclear Physics.)

V. Ramaswamy, B.A. (Cantab.), Ph.D. (Cantab.) (Professor and Head of the Department of Mathematics).

G. J. Somayaji, M.A., L.T., Vidwan, P.O.L. (Professor and Head of the Department of Telugu).

K. R. Srinivasa Iyengar, M.A., D.Litt. (Professor and Head of the Department of English).

Prof. K. K. Das, B.Com. (Lond.), D.Sc. (Harvard) (Professor and Head of the Department of Commerce).

S. Meenakshisundaram, M.A., D.Sc. (Professor and Head of the Department of Mathematical Physics).

T. Venkatarayudu, M.A., Ph.D. (Birla Professor, Department of Mathematical Physics).

G. Gopala Rao, M.Sc., A.I.C. (Lond.), D.Sc. (Allahabad) (Vikrama Deo Professor and Head of the Department of Chemistry).

C. Venkata Rao, M.Sc. (Hons.), D.I.C. (Lond.), Ph.D. (Del.), M.I.I.C.H.E., M.P.M.W. Eppatok (Professor and Head of the Department of Technology).

S. Rangaswamy, M.A., Ph.D., D.Phil. (Pharm.) (Basle), F.R.I.C. (Lond.), F.R.S.A., F.A.Sc. (Professor and Head of the Department of Pharmacy).

K. Nagabhushanam, M.A., M.Lic., D.M. (Stockholm) (Professor and Head of the Department of Statistics).

C. Mahadevan, M.A., D.Sc., F.A.Sc., M.A.I.M.S., F.N.I. (Principal, University Colleges and Professor and Head of the Department of Geology and Geo-Physics).

Dr. P. N. Ganapathy, M.A., M.Sc., D.Sc., F.A.S.C., F.Z.S.I. (Professor and Head of the Department of Zoology).

S. Venkataraman, B.A., M.L. (Professor and Head of the Department of Law).

S. T. Krishnaswamy Chetti, M.A., M.Sc. (Lond.), D.I.C. (Lond.), F.R.M.S. (Professor and Head of the Department of Applied Physics including Manufacturing Section).

Bh. S. V. Raghava Rao, M.Sc., A.I.C. (Lond.), Ph.D. (Lond.), A.I.I.Sc. (Vishakapatnam District Board Professor of Chemistry).

J. Venkateswarlu, M.Sc., D.Sc., Ph.D. (Cantab.), F.A.Sc., F.R.S. (Professor and Head of the Department of Botany).

Prof. C. Kunhan Raja, M.A. (Mad.), D.Phil. (Oxon.) (Professor of Sanskrit).

B. Sarveswara Rao, M.A., Ph.D. (Lond.) (Professor and Head of the Department of Economics and Sociology).

The Heads of Departments who are not professors are as follows :—

S. T. Krishnamachari, B.A., B.L., C.P.F. (Paris), D.I.A. (Berlin) (Reader and Head of the Department of French and German).

K. Sachidanandamurthy, B.A. (Hons.) (Reader and Head of the Department of Philosophy).

D. Seetapathi Rao, B.A., B.Sc. (Engg.), M.Sc. (Engg.) (Lond.), D.I.C. (Lond.) (Reader and Head of the Department of Engineering).

Grants :

(a) From State Govt. ..	Recurring.
	Rs. 5,12,555

(b) From University Grants Commission ..	Recurring.
	Rs. 62,470
	Non-recurring.
	Rs. 5,14,145

Total No. of students at the University Colleges, in 1957-58 : 1,788.

Total number of Colleges affiliated and oriental colleges : 51.

This university is teaching as well as affiliating.

OSMANIA UNIVERSITY

Hyderabad 7.

The Osmania University was established in 1918 under Royal Charter which was revised in 1947 and 1950. It is a residential, teaching and affiliating university. It comprises eleven Faculties, namely, Arts, Science, Commerce, Medicine, Engineering, Agriculture, Veterinary Science, Education, Law, Religion and Culture and Technology. There are 6 University Colleges, 7 constituent Degree Colleges (including one exclusively Women's College), 3 constituent Pre-university Course Colleges, 16 Affiliated Colleges (including 2 Medical Colleges, 12 degree Colleges and one Women's College), 1 Pre-University Course College, 2 Constituent Evening Colleges (one Degree and one Pre-University Course) for those in employment.

In the Arts and Science Faculties, English and Hindustani, the latter with Persian and Devanagari Script, are the media of instruction. In all professional courses English is the only medium of instruction. The course of study in M.Sc. Technology has been abolished and a new degree course B.Chem. Technology and B. Chem. Engineering has been instituted. It is of four years' duration after Intermediate Science or pre-professional course. The courses of study in Oriental learning in Sanskrit for entrance test, Dip. O. L. and B.O.L., have been framed. Twelve private Oriental Institutions have been recognised to coach students for these courses. In 1954-55 two new courses of study, the Certificate of Proficiency in Journalism and Diploma in Journalism, were introduced. Diploma and Certificate in Public Administration also introduced in 1956-57.

† More up-to-date figures when available are given under 'Late Particulars.'

* Includes Rs. 8,00,000 originally disbursed by the Madras Industrial Investment Corporation Ltd., Madras and subsequently transferred to Andhra State Financial Corporation. ** Interest on investments taken at gross and includes Rs. 63,738 income-tax on investments deducted at source.

New courses in 1957-58: Dip. in Russian and Italian, M.D., M.S., D.O., and D.L.O., B.E. (Mining).

New courses instituted in 1958-59: M.Sc. (Agriculture); M. Tech. and in Medicine; D.O.P. (Clinical Pathology); D.C.H. (Child Health); M. S. Ophth. M.Sc. (Anatomy, Physiology & Psychology); Dip. in Forensic Medicine.

The University is completely autonomous though it is wholly financed by the Government. The University Council, consisting of 16 members is the governing body. The Vice-Chancellor is the chief administrative officer. The other bodies of the University are the Finance Committee, Academic Council, Senate, Library Committee, Committee of Exams., Faculties and Boards of Studies and the Equivalence Board.

Budget (1958-59): Receipts: Rs. 95,29,887. Expenditure: Rs. 99,49,395.

Contribution by State Government: Rs. 49,22,000.

Library: 121,952 (English 37,240; Urdu, Persian, Arabic 17,037; Oriental 18,028, Gift 10,212; Salarjung 30,426). There are 6,604 MBS.

Admission: The qualification necessary for entrance to the Pre-university Course is the Higher Secondary Certificate or equivalent certificate.

Enrolment (1957-58): 16,725 (Arts and Science: Boys 9,708; Girls 1,877; Professional: Boys 4,870; Girls 270).

Degrees: B.A., M.A., Ph.D. in Arts, B.A., M.A., Ph.D. in Religion and Culture; B.Sc., M.Sc., Ph.D. in Science; B.Com. and M.Com. in Commerce; B.E., M.B.E.S., M.D., M.S., D.O. and D.G.O., B.V.Sc., B.Sc. (Agriculture), B.Ed., M.Ed., LL.B. and LL.M., B. Tech. Technology, B. Chem. Engineering, Dip. O.L. and B.O.L. in Sanskrit, Certificate in Journalism and Public Administration, Diploma in Journalism, French, German, Italian, Russian, Hindi and Public Administration; M.Sc. (Agriculture), M. Tech., D.C.P.; D.H.P.; D.L.O.; M.S. Ophth.; M.Sc. (Anatomy, Physiology, Pathology); Dip. in Forensic Medicine.

CHANCELLOR

N. Sanjeeva Reddy.

VICE-CHANCELLOR

D. S. Reddy, M.A. (Oxon.).

Total number of Women's Colleges: Two.

Total enrolment in Arts and Science Colleges: Boys 9,708; Girls 1,877.

Total number of Professors: 53; Lecturers: 1,096.

Total number of Professional Colleges: 18 (Education, two; Agriculture, one; Veterinary Science, one; Engineering, one; Law, one; Medical, two; Commerce, one). Total enrolment in Professional Colleges: Boys 4,870; Girls 270.

SRI VENKATESWARA UNIVERSITY TIRUPATI

This University was inaugurated on September 2, 1954. This is the third University in the State and is a residential-cum-affiliating University. Instruction is provided in courses leading to Pass, Honours, Post-Honours and Research degree examinations in Mathematics, Philosophy, Economics, Physics, Chemistry and Zoology at the University College run by the University.

Colleges in five districts of Andhra Pradesh are affiliated to it—Kurnool, Cuddappah, Anantapur, Chittoor and Nellore.

The Intermediate Course of Study has been abolished and the one year Pre-University and three year Degree Courses of Study have been introduced with effect from the academic years 1957-58 and 1958-59 respectively.

Admissions to the two year pass courses will be stopped with effect from the academic year 1959-60.

Honours Courses of study have been abolished with effect from the academic year.

The University College is run by the University at Tirupati. There are at present six teaching departments upto the Post-Honours and Research Standard in the University College.

Post Honours and Research degrees were started with effect from the academic year 1957-58.

ARTS COLLEGES

First Grade Colleges (9).
Government Arts College, Cuddappah.
Government Arts College, Anantapur.
Basant Theosophical College, Madanapalle.
Sri Venkateswara College, Tirupati.
Sri Padmavati College for Women, Tirupati.
Osmania College, Kurnool.
V. R. College, Nellore.
Kavali College, Kavali.
Govt. K. V. Reddy College for Women, Kurnool.

PROFESSIONAL COLLEGES

College of Engineering, Anantapur.
Government Training College, Kurnool.
Government Training College, Nellore.
Kurnool Medical College, Kurnool.
Andhra Veterinary College, Tirupati.

ORIENTAL COLLEGES

Sri Venkateswara Oriental College, Tirupati.
Islamia Arabic College, Kurnool.
Jamia Mahammadia Arabic College, Rayadurg, Anantapur District.
Veda & Sanskrit College, Nellore.

Personnel

Chancellor: The Governor of Andhra Pradesh.

(For 'Advertisement' see under 'Index' for page)

ASSAM STATE

Area : 47,089⁹ sq. miles.

Population (1951 census) : 8,830,732.

According to the 1951 Census figures, Naga Hills-Tuensang Area has a population of 212,975, but this leaves out the population of 2,006 sq. miles of Tuensang. Only a 50 sq. mile area of Tuensang (then known as Naga Tribal Area) was covered by the 1951 Census and the population there was recorded as 7,025.

There can be no estimate of the population of N.E.F.A. under the 1951 Census since only thin strips of territory of the Agency were covered by census operations and those now forming part of Assam. The total population of N.E.F.A. as at present constituted (See North East Frontier Agency), is very roughly estimated at 6,50,000.

Capital : Shillong.

Of the total population (census) males number 4,812,166, females 4,231,541, urban 414,418, rural 8,629,289. The rural population is subdivided into Agricultural at 6,606,216, Non-Agricultural 2,023,073.

Population according to religion : Hindus 5,894,738; Muslims 1,096,456; Christians 585,399; Buddhists 22,875; Jains 4,245; Sikhs 4,107; Jews 209; Other religions : Tribal 527,712; Non-Tribal 8,144; Zoroastrians 27.

Number of Scheduled Castes : 424,044; Scheduled Tribes : 1,735,245.

Density of population per sq. mile (Assam State) : 183.2⁹. No reliable figures on birth rate, death rate or infant mortality in the State can be found.

Nearly one half of the area of Assam State is covered by hills. Plains : 23,033 sq miles; Hills : 22,734 sq. miles. Besides, a total area of 1,322 sq. miles, mostly hilly, has been transferred to Assam State from N.E.F.A. The hill areas are sparsely populated and inhabited by the hilltribes. Plains : 7,805,558; Hills : 907,316. Areas transferred from N.E.F.A. : 57,858. Density : Plains : 338.88; Hills (including Transferred Areas) : 42.62.

DISTRICTS

Names of Districts with headquarters in brackets : Goalpara (Dhubri); Kamrup (Gauhati); Darrang (Tezpur); Nowgong (Nowgong); Sibsagar (Jorhat); Lakhimpur (Dibrugarh); Cachar (Silchar); Garo Hills (Tura); United Khasi-Jaintia Hills (Shillong) which is also the capital of the state; United North Cachar and Mikir Hills (Diphu); Mizo previously called Lunghai Hills (Aizawl).

The hill districts have been given, under the Constitution of India, a large measure of self-governing rights according to their respective tribal traditions and customs, exercised through Autonomous District Councils under the supervision of the Government of Assam.

For purposes of Autonomous District Councils, United North Cachar and Mikir Hills are two Districts : North Cachar Hills (Haflong); Mikir Hills (Diphu).

Number of Circles : In Assam Tahsils are termed as Circles : 52.

Number of Local Boards (District Boards) : 15.

Number of Municipalities : 17.

Number of Town Committees : 14.

Number of Cantonments : 1.

Number of Panchayats : (at the end of October 1958) : Rural 422; Primary 2,857.

Number of villages : 25,327.

There is no city in Assam. Names of towns with a population of over 50,000 (according to 1951 Census) : Shillong : 53,756 (excluding Cantonment area comprising a population of 4,746).

Forty per cent of the population are recorded as speaking Assamese and about 24 per cent

Bengali. Other languages spoken in the State are Hindi, Oriya, Mundari, Nepali and a great variety of languages and dialects, classified under the general heading Tibeto-Burman languages.

Number of people speaking the main languages (1951 census) : Assamese : 4,972,493; Bengali : 1,719,155; Hindi : 335,588.

GEOGRAPHY

Assam has three distinct natural divisions : Brahmaputra or Assam Valley, Surma or Barak Valley and the hills.

The river basins are naturally fertile and present in the main few difficulties to the cultivator. Rainfall being high the problem in general is to dispose of the surplus water and to control the action of floods rather than irrigation in the usual sense.

Rice is the staple food crop. Tea and jute are the most important crops grown for export. Besides, potatoes are also cultivated in Assam. A good deal of short staple cotton and fruits like oranges and pineapples are grown in the hills.

Rainfall is everywhere abundant, and ranges from 50 to 258 inches a year leaving aside the highest recorded rainfall in this part of India with the maximum reached at Cherrapunji in the Khasi Hills 32 miles south of Shillong (905 inches in 1861; record precipitation for one day is 41 inches). This is reputed to be the wettest place in the world. Temperatures are moderate.

Earthquakes of considerable severity have taken place. By far the worst in recent times was that which occurred on August 15, 1950, one of the world's five biggest recorded tremors. According to old records the Assam earthquake of 1897 is regarded as the severest in human history.

COTTAGE INDUSTRIES

Main cottage industries : Sericulture and Weaving. Principal areas for Sericulture : Sibsagar, Nowgong and Lakhimpur Districts.

Handloom weaving is done in most of the families in Assam. There are professional weavers in Cachar District and Suakuchi area in Kamrup District.

Number of fly and throw-shuttle looms in the State : 500,000.

Value of total production : Rs. 6,26,00,000.

Value of production of individual industries : Weaving products (Rs. 5,50,00,000); Muga raw silk (Rs. 50,00,000); Mulberry raw silk (Rs. 9,00,000); Open Eri Cocoon (Rs. 27,00,000).

Production of individual industries : Cloth—55,000,000 yards; Mulberry raw silk—30,000 lb.; Muga raw silk—200,000 lb.; Open Eri Cocoon—520,000 lb.

Total number of workers in Cottage Industries : 20,00,000 (inclusive of part-time and whole time workers in sericulture and weaving).

Number of workers in individual industries : Weaving (1,200,000); Sericulture (800,000).

Budget grant for Sericulture and Weaving (1958-59) : Rs. 48,84,000.

AGRICULTURE

Latest available :

Main food crops of the State : Rice, Rape, Mustard, Sugar-cane, Potato, Pulses, Maize and Oranges.

Main cash crops of the State : Tea, Jute, Cotton and Tobacco.

Production of food crops in tons (figures are for 1957-58 and include Naga Hills District) : Autumn Rice : 376,458; Winter Rice : 1,244,474;

Spring Rice : 11,438; Rape and Mustard : 56,233; Sugar-cane : 86,128 (in terms of gur); Potato : 115,154; Pulses, Rabi : 26,774; Tur (Arhar) : 1,794; Maize : 7,689; Gram : 928; Wheat : 1,436; Other cereals and small millets : 1,990; Castor : 762; Sesamum : 3,645; Linseed : 280.

Production of individual cash crops : Tea : 367,879,407 lb. (Black Tea : 362,905,567 and Green Tea : 4,973,840 lb.); Jute : 1,094,116 bales (one bale—400 lb.); Cotton : 8,249 bales (1 bale—392 lb.); Tobacco : 6,910 tons; Mesta : 11,588 bales (one bale—400 lb.).

Total geographical area of the State : 32,896,640 acres (Survey of India).

Total area sown (estimated) : 6,300,116 acres. Area sown more than once : (estimated) : 902,220 acres.

Area under food crops : (estimated) : 5,023,497 acres.

Area under cash crops : (Tea, jute, cotton, tobacco and mesta) (estimated) : 797,570 acres.

Area under individual food crops : Autumn rice 1,072,900 acres; Winter rice 3,116,550 acres; Spring rice 21,350 acres; Rape and Mustard 295,300 acres; Sugar-cane 65,400 acres; Potato 70,670 acres; Pulses, Rabi : 171,355 acres; Tur (Arhar) : 6,340 acres; Maize : 36,040 acres; Gram Pulse : 4,220 acres; Wheat : 6,440 acres; Other cereals and small millets : 9,160 acres; Castor : 5,495; Sesamum : 18,900; Linseed : 1,860.

Area under individual cash crops : Tea—384,065 acres; Jute—349,350 acres; Cotton—34,040 acres; Tobacco—24,115 acres; Mesta—6,000 acres.

The cultivation of oranges, which is a principal crop, is mainly confined to the Khasi-Jaintia Hills which are a non-cadastrally surveyed area. Hence no data available.

Bam Cultivation : Prevails in the hill districts of Assam. Trees and shrubs on hill slopes selected every year are cut down and burnt and then crops grown on the bald patches. The area is then abandoned for a number of years so that trees may grow again and fertility recouped.

Under this system a particular group of people jointly occupy a particular area. They have no individual right over the land. In lieu of land revenue they pay a tax known as House Tax, Hoc Tax or Dao Tax which generally varies from Rs. 2 to Rs. 3 per family.

Veterinary : Total number of cattle : 5,145,576 (Cows—4,735,506, Buffaloes—475,231), Horses and Ponies—15,501, Sheep—32,604, Goats—917,239, Fowls—6,050,724, Other livestock—291,920 (1951 livestock census).

PLANTATIONS

Latest available :

Plantation in the State : Tea.

1956 :

Area under Plantation : 1,395,304 acres.

Number of Plantations (number of main and out gardens) : 818.

Area under Tea : 384,065 acres.

Produce from plantation : Tea : 367,879,407 lbs. (Black tea—362,905,567 lbs.; Green tea—4,973,840 lbs.).

Average daily number of workers :

a) Permanent garden labour : 457,821.

b) Permanent outside labour : 29,436.

c) Temporary outside labour : 42,371.

Fisheries : Variety of fish produced : Rahu, Katia, Mrigal, Mall, etc.

1956-57 :

Number of fish farms 9 (under Government control).

Fish seed collecting centres 14.

* There is some discrepancy between the figures supplied by the Central Govt. and the State Govt.

FORESTS

Main types of Forest with some species of trees of economic importance occurring in them:

Evergreen forests, mixed deciduous forests, deciduous and dry deciduous forests, riverain forests, Savannah forests, swamp forests, bamboos and temperate forests.

A large area under forests falls in the hill districts which are sparsely populated and covered with vegetation.

Assam possesses one of the richest fauna in Asia and it is claimed that outside Africa, there is no part in the world with so many varieties of animals, birds, reptiles and insects. Rhinoceroses, elephants, wild buffaloes, bisons (called 'Mithuns' by most of the hill tribes in Assam and the N.E.F.A.) swamp deer, Sambhar, spotted deer, barking deer, tiger, leopards, black panther, King Cobra, pink-headed duck and Giant Hornbill are some of the well-known specimens of wild life.

Four sanctuaries and two game reserves with a total area of about 500 sq. miles, are maintained by the Government Forest Department for the protection of the interesting and in some cases the numerically dwindling species. Kaziranga and Manas are the two most famous sanctuaries, both nearly the same size, 166 and 162 sq. miles respectively. Kaziranga, in the heart of Assam and situated on the South Trunk River, is easily accessible and affords every facility to the visitor to see the famous one-horned rhinoceros from elephant back at close range. The sanctuary at Manas at the foot of Bhutan Hills is the more attractive from the scenic point of view.

1956-57 (unless otherwise mentioned):

Total forest area in State: 17,664 sq. miles.

Reserve forests: 6,368 sq. miles; Protected forests: 110 sq. miles; Unclassed State forests: 10,424 sq. miles.

Total area of private forests (1955-56): 975 sq. miles inclusive of Corporation Forests.

Total revenue from forests and total expenditure.

Revenue	Rs. 90,26,371.
Expenditure	Rs. 67,53,221.

Main Forest produce with the quantity and value of each variety in brackets:

Timber (74,90,000 cft., Rs. 73,71,285); Firewood (61,02,000 cft., Rs. 1,44,625); Bamboo (27,31,448 Nos., Rs. 1,74,952); Elephants (233 Nos., Rs. 1,97,301); Cane (68,13,676 rft., and 3,360 bundles, Rs. 2,58,784); Lac (405 maunds 20 seers, Rs. 2,281); Elephant tusks (1 maund 6 seers 7 chhataks, Rs. 1,131); That (21,08,937 bundles and leases, Rs. 32,322 and Rs. 83,067 respectively); Flabery (leases, Rs. 74,478); Stone (10,91,738 cft., Rs. 42,331); Sand (17,52,545 cft., and leases, Rs. 1,56,302 and Rs. 3,384); Drugs (Rs. 65,622); Spices (Rs. 201); Incense & Perfumes (Rs. 7,180); Fibres & Flosses (Rs. 25).

Afforestation undertaken (1956-57):

Artificial regeneration ..	48,930 acres.
Natural regeneration ..	1,13,851 acres

Total 1,62,781 acres

Expenditure—Rs. 3,46,452.

Grazing allowed: Cows: 13,546 Nos.; Buffaloes: 13,710 Nos.; Sheep and Goats: 23 Nos.; Other livestock: 279.

Vanamahotsava:

Number of trees planted:	
Edible fruits: 1,907	
Others: 40,552	
Total: 42,459	

Number of trees survived:	
Edible fruits: 493	
Others: 31,761	
Total: 32,254	

Percentage of survivals to planted: 76.

LAND TENURE SYSTEM

There are two classes of land tenure system in the State—the permanently settled estates and the temporarily settled estates.

Permanently settled estates: These are found in Goalpara District and Karimganj Sub-division of the Cachar District. The land is held by zamindars having intermediaries under them. The actual tillers of the land are the tenants who hold land either directly under the zamindars or intermediaries. The tenants also pay a fixed amount of rent.

In common with other States having the permanent settlement system, Assam Government has passed laws to end samindari rights. All area of 15,39,497 acres has already been acquired by Government out of the total permanently settled area of 17,02,055 acres. The rights of intermediaries between tillers and Zamindars that is, of tenure holders and jottars, are now being abolished in Goalpara District. Steps for the acquisition of Zamindari in Karimganj are in progress. Total compensation is estimated at about Rs. 5 crores.

Temporary settlement system: Also known as the Ryotwari system. Prevails in the other plains districts of the State. These lands are assessed to full revenue and are called Khiraj lands.

The peculiarity of this system is that generally the cultivators hold lands directly under the Government unlike the lands in permanently settled estates.

The Khiraj lands are again divided into two categories, periodic and annual. The periodic landowner has a heritable and transferable right whereas the annual landowner (technically called "settlement holder") has a right of user only and has no right of transfer or subletting. Subject to the payment of the land revenue the owners of annual lands get renewal of the lease from year to year. There is a great demand in Assam that annual settlement should be abolished and periodic settlement made the general rule.

Besides these, there are some La-Khiraj (full revenue free) and niaf-Khiraj (half revenue free) tenures in Assam and also a number of Fee Simple tenures. These Fee Simple tenures are for cultivation of tea. These tenures are initially revenue-free, but subsequently they have been assessed at full rate of revenue under Assam Revenue Free Waste Land Grants Act, 1948.

There are three tenancy Acts in Assam, viz. The Goalpara Tenancy Act, The Sylhet Tenancy Act and the Assam (Temporarily Settled Districts) Tenancy Act. The former two Acts apply to the Districts of Goalpara and Cachar (those portions of former Sylhet District which have remained in Assam after partition) respectively. The last Act applies to the plains districts of Assam. These Acts confer rights of occupancy, determine the rent payable by the tenants and regulate the relationship between the landlords and the tenants. The Assam Adhikars Protection and Regulation Act, 1948, governs the conditions regarding crop-rent payable by the crop-sharing tenants and prescribe the conditions on which the landlord can resume possession for personal cultivation. Government has also passed a law called the Assam Fixation of Ceiling on Land Holdings Act (1956), whereby the holding of agricultural lands has generally been limited to a maximum of 150 bighas (about 50 acres) per family.

Hill Districts: In the hill districts of Assam, land administration is carried on by the Autonomous District Councils according to local customs and usages. The provisions of revenue regulations and tenancy acts in force for the plains districts do not apply there and even land-revenue as it exists in the plains, is not realised there. In its place, a house tax or hoe tax is levied on the people. In many parts of the hills, land is held in common by entire villages.

MINES, INDUSTRIES

The only minerals in Assam worked on a commercial scale are coal, limestone and petroleum oil. Petroleum output about 100,000,000 gallons; coal output 4,72,900 tons; and limestone output approximately 1,000,000 tons. The most extensive coal measures hitherto worked are in the Naga Hills, Lakhimpur District and Khasi-Jaintia Hills. Important deposits also exist in the Garo Hills; but those are yet to be exploited. Limestone is quarried in the Khasi-Jaintia Hills. Petroleum is worked only in Lakhimpur and refined there. An oilfield has been found at Nahorkatiya.

An oil refinery is to be set up in the State.

Silk is manufactured in the Assam valley; also cotton weaving prevails as a cottage industry, women playing a predominant part. In this valley there are no caste weavers. In the Surma Valley or Cachar weavers carry on a brisk manufacture on a commercial scale. These handloom products find a ready market on account of the great scarcity of mill made cloth. There is no textile mill in Assam and the entire requirement of mill-made cloth has to be imported from other States.

Tea is the main industry, but there is a large petroleum mining concern with Digboi in Upper Assam as the centre and also some coal-mines. There is a big match manufacturing concern at Dhubri. Boat-building, brass and metal and earthenware, limestone burning, cane and bamboo work, furniture making, sola hat, smithy, brick making, mustard oil pressing, rice and saw mills are other industries. But agriculture employs about 80 per cent of the population. Assam carries on a considerable trade with the adjoining hill tribes and countries.

Power Projects: The only power project the Umtru Hydro-electric Project was started in 1949-50 and completed in 1956-57 at a total cost of Rs. 211.67 lakhs. The project benefits Kamrup, Nowgong and Kand Jhills. The installed capacity is 7,500 kW.

TRADE

Assam has to import almost every article of daily necessity. Unlike in previous years the State has now to supplement the local production of rice—the staple food—by imports from the rest of India. During 1958 import of rice from other States on private trade account was banned and the requisite quantity had to be moved on Central Government account. The State's requirement of wheat was also met by the Central Government with imported wheat.

Manufactured goods, textiles, iron and steel, cement, medicine, sugar and pulses are some of the main items of import. Exports from Assam are tea, jute, timber, cane, bamboos, petroleum, limestone, fish, poultry and fresh fruits.

Assam's trade for the most part, was with areas now included in East Pakistan, but after partition it has dried up to a great extent and the traffic is maintained only by exports of fruits and vegetables and imports of fish, eggs and poultry.

TRANSPORT

Much of the trade of Assam is carried by river. Steamer companies maintain fleets of vessels which ply to and from Neamat, Disangmukh, Tezpur, Gauhati, Goalpara, Dhubri, Karimganj, Silchar and many other smaller stations.

During the dry season the formation of *chars* and sandbanks restrict the volume of riverine traffic and after the 1950 earthquake, Upper Assam has been forced to rely more on road and rail transport.

The rail system in Assam is entirely metre-gauge. On November 1, 1958 the total mileage in the State was 1,455.08.

From January 1958, the entire railway system in Assam has been made part of a new Zone of the Indian Railways—the North East Frontier Railway. Pandu (Maligaon) near Gauhati has been made the head-quarters of N.E.F. Railway.

The railway system enters Assam by the north bank of the Brahmaputra and continues on the more important south bank after crossing the river by a ferry between Amnigaon and Pandu. From Pandu the line stretches eastward to Tinsukia, 324 miles away. Short branch lines connect the important towns of Dibrugarh, Nowgong, Jorhat, Sibsagar and Tezpur to the main line.

The construction of a road-rail bridge to link the two banks of the Brahmaputra has now been taken in hand. The bridge is expected to be completed in 1961 and the cost is estimated at Rs. 10 crores.

Because of the slender surface link between Assam and the rest of India, air services are of great value to the State. The first direct link by air between Calcutta and Gauhati was established in 1947. This air service was originally on a non-scheduled basis but very soon it became a daily service and now there is more than one service a day. Almost all the big towns—Tezpur, Jorhat, Dibrugarh, North Lakhimpur, Nalbari, Dhubri and Gauhati are served by daily scheduled flights. Pasighat and Along in N.E.F.A. have also been placed on the airmap.

Before independence the State had only 2,610 miles of motorable roads—2,040 miles in the plains and 570 miles in the hills. After the achievement of independence an extensive programme of road-making was taken in hand and on March 31, 1956, the total length of motorable roads stood at 6,627 miles including 797 miles of National Highway. Of these 5,163 miles were in the plains and 1,464 in the hills. Besides, there were on this date 1,641 miles of bridle roads.

Nationalisation of motor transport in the State was started in 1948, and till August 1958, 1,062 miles were covered. The Second Five-Year Plan aims at nationalising 830 miles.

On November 1, 1958 :

Number of passenger buses : 337

Number of cars : 21

Number of Goods Vehicles : 138

Number of other vehicles (ambulance, staff car, etc.) : 15

Number of passengers carried in a day (1955-56) : 11,340

Goods carried in a day (1955-56) : 7,870 maunds.

The State Transport organisation provides employment to 2,549 persons. Capital invested till March 31, 1957 is Rs. 1,05,05,430. Profit in 1956-57 stood at Rs. 30,18,403. The State Transport is under the administrative management of a Board, with the Minister for Transport as Chairman.

Shillong is reached by a 63-mile nationalised motor route from Gauhati, the nearest railhead, steamer ghat and air station. Assam Government's State Transport carries both passengers and goods on a monopolistic basis on the National Highway, in combination with railway and steamer services on out-going terms.

The programme of road-making has its special significance in that it is designed to make Assam self-sufficient in ensuring quick transport of its exports to and imports from other parts of the Indian Republic without having to pass through Pakistan. At the same time communications within the State are being improved by provision of necessary feeder roads from and to the arterial road system of the State so that local surplus produce may find good markets.

CIVIL SUPPLIES

In January 1958 the Assam Government promulgated a Food Grains Licensing and Control Order with immediate effect to regulate the sale, purchase, storage and milling of rice and paddy throughout the State.

There was some uneasiness over the 1958 food prospects and it was expected that the shortfall might amount to about 100,000 tons.

No dealer can now purchase, store or sell any rice or paddy exceeding ten maunds without any licence.

The State Government may also compel, for the purpose of "maintaining or increasing supplies or securing an equitable distribution and availability at fair prices", the holders of food stocks to sell to the Government or other specified persons at prices determined by the Central Government.

The movement of food grains out of Goalpara, Nowgong, Sibsagar, Cachar, Kamrup and Darrang districts and North Lakhimpur and Dibrugarh sub-divisions, without permits, has been banned.

An exception has been made, however, in the case of *bona fide* travellers carrying food grains not exceeding five seers.

Rice is the staple food in Assam.

A new Roller Flour Mill has been functioning since May 1957, but the maida and fines produced by this mill are quite inadequate to meet the requirements of the State.

Arrangements have been made for the supply of 1,500 tons of maida per month from Calcutta flour mills in addition to the local production of about 450 tons.

The entire requirements of sugar, salt, cloth and yarn have to be imported as there is no production unit for any of these commodities.

The demand for sugar prior to decontrol in June 1953 was about 2,500 tons monthly. This has now gone up to 5,000 tons. For the entire quantity Assam depends on mills in other States.

In the matter of cloth there is no control on movement or price, but the licensing of dealers still continues.

State's requirements: Rice—1,693,125 tons (annual); Wheat—5,000 tons (monthly); Salt—200,000 md. (monthly); Sugar—8,000 tons (monthly); Cloth—5,000 bales per month; Yarn—3,000 bales per month.

CO-OPERATION

For statistical information see the main article on Co-operation. Some specific types of co-operative societies and their number, not dealt with in the article on Co-operation, are given below.

Small Size Credit Societies (2,470); Consumers & Trading (1,070); Weavers' (885); Urban & Salary Earners' (162); Farming (135); Industrial Societies (110); Multipurpose Societies (97); Fishery (98); Large Size Credit (82); Rice Producers' (38); Primary Marketing (27); Primary Milk (11); Wholesale & Supply (9); Sub-divisional Co-operative Union (5); Milk Union (2); Housing (2); Better Living (2); Cotton Ginning Mill (2); Jute Baling (1); Sugar Mill (1); Apex Weavers' (1); Apex Marketing Society (1); Apex Bank (1).

Number of Central Banks : 14.

Apex Bank : 1 with 17 branches:

Assam Co-operative Apex Bank (1957-58) :

Working capital	Rs. 5,08,29,159
Deposits	4,93,286
Paid-up share capital	43,21,000
Profit	7,52,175

Budget allotment for the department for the year 1958-59 : Rs. 31,70,000.

STATE HELP FOR AGRICULTURE

During the 2nd Five-Year Plan, the department set a target of 3.82 lakh tons of additional foodgrain, out of which 1.04 lakhs were expected to be achieved during 1957-58.

The target is expected to be reached through various development measures such as (i) minor irrigation, (ii) application of manures and fertilizer, (iii) bringing more area under improved seeds, (iv) reclaiming new land and (v) adopting better methods of cultivation.

Minor Irrigation : During 1957-58, 216,650 acres benefited through Minor Irrigation Projects, which were expected to produce additional production potential of 27,130 tons of foodgrain.

Manure and Fertilizer : 42,690 acres were covered by various manures and fertilizer, which were expected to produce an additional 2,700 tons of foodgrain.

Improved seeds : During the year, 46,220 acres were brought under improved seeds which were expected to give 3,470 tons of additional foodgrain.

Improved cultural practices : 18,420 acres were covered by improved cultural production (which also includes plant protection measures), which is expected to produce 1,690 tons of additional foodgrain.

Besides, 1,400 acres of land were covered by soil conservation projects in the hill districts, which were expected to give additional production potential of 460 tons of foodgrain.

Another 50,000 tons of additional foodgrain was expected to be obtained from the production potential created by the permanent schemes opened during the 1st year.

HEALTH SERVICES

Latest figures available :

Commonest diseases in State and mortality from each disease during 1957.

Diseases	Persons affected	Death
Malaria	74,613	5,797
Kala-Azar	3,670	160
Total : All fevers	not available	22,627
Small Pox	not available	67
Dysentery and Diarrhoea	not available	3,098
Respiratory diseases	not available	3,546
Injuries	not available	829

Total number of hospitals and dispensaries : 490.

Number of Allopathic hospitals and Dispensaries : 478 ; (Rural—398 ; Urban—80).

Total number of Ayurvedic dispensaries : 12.

Types of special hospitals and the number of each : T.B. Hospitals—11 (450 beds); Mental Hospital—1 (740 beds); Leprosy Hospitals and Clinics—15 (755 beds); Kala-Azar Hospitals—3 (301 beds).

Total number of Allopathic doctors (Rural and Urban)—2,075.

Total number of Ayurvedic doctors (Rural and Urban)—259.

Total number of Nurses—954.

Total number of Midwives—982.

Total number of Dhals (Rural and Urban)—857.

Total number of Compounders—2,350.

Total number of outdoor patients treated in Hospitals—1,830,000.

Total number of Government Hospitals and Dispensaries—455 (rural 384 ; urban 71).

Total number of Government doctors : Allopathic—350 ; Ayurvedic—12.

Total number of Government Nurses : 260.

Total number of Medical Colleges : Allopathic—1 ; Ayurvedic—1.

Total number of Students: Allopathic—514; Ayurvedic—24.

Special Medical Research Institutes—2 (Pasteur Institute, Shillong; Malaria Institute, Shillong).

Budget allotment (1958-59): for Public Health:—Rs. 1,09,84,000; for Medical: Rs. 1,11,48,000.

EDUCATION

For statistical information on Education, see the main article on Education. Information on certain special topics is given below.

Nursery Schools:

Total number of Nursery Schools: 24 (boys 6; girls 18).

Total enrolment: 921 (boys 440, girls 484).

Total number of teachers: 38.

Number of schools with Nursery classes attached (1955-56): 15 (urban areas 3; rural areas 12).

Total expenditure on Nursery Schools: Rs. 41,028 (excludes expenditure on unrecognised institutions).

European and Anglo-Indian Schools:

Number of European and Anglo-Indian Schools: 4.

Total enrolment: 1,278.

Total Government grant: Rs. 33,478.

Sanskrit Tols:

Number of Sanskrit tols: 139.

Enrolment: 3,668.

Government grant: Rs. 74,000.

Arabic Madrasahs:

Number of Arabic Madrasahs: 121.

Total enrolment: 12,500.

Government grant: Rs. 92,252.

Number of European and Anglo-Indian Schools owned by State Government: 1; by Private agencies: 3.

Number of Sanskrit Tols owned by State Government: Nil; by Private agencies: 139.

Number of Arabic Madrasahs owned by State Government: 1; by Private agencies: 120.

Number of nursery schools owned by State Government: 1; by Private agencies: 23.

Schools for Defectives:

Total number of schools for defectives: 2.

Total enrolment: 64.

Number of teachers: 5.

Government grant: Rs. 8,660 (for one school).

Research Institutions:

Kamrup Anusandhan Samity, Gauhati.

Assam Provincial Museum, Gauhati.

Assam Paribhasa Committee, Gauhati.

Universities:

Number of Universities: One (Gauhati University).

SOCIAL EDUCATION

Number of Social Education Centres organised so far throughout the State: 694.

In order to cater for the post-literacy courses 428 village libraries were given grants-in-aid in 1957.

Adults both male and female are generally admitted into the Social Education Centres.

Total number admitted: 28,114 (men 25,529; women: 2,585).

Total budget for the scheme in the State: Rs. 4,45,000.

Number of adults who appeared in the literacy tests held from the Social Education Centres: 24,307 (men: 21,843; women: 2,464).

Number of adults who came out successful: 18,471 (men: 16,430; women: 2,041).

Number of teachers in Social Education Centres: 694.

Hindi in the Education System:

Hindi has been introduced as a compulsory subject in selected secondary and special schools of the State.

Total number of schools where Hindi has been introduced as a compulsory subject: 507.

The number of candidates who appeared at the different examinations conducted by the Assam Rastrabhasa Prachar Samity: Prathama—10,045; Prabosika—4,478; Probodh: 1,784; Bisharad—539.

Total number of candidates who appeared at different examinations conducted by Assam Rajya Rastrabhasa Prachar Samity (1956): 3,391.

Basic Education:

The Scheme for Basic Education was first introduced in this State only in the year 1949-50 on the lines of the Wardha Education Scheme.

Due attention was paid to the productive side of Basic Education.

It is expected that the existing 8 Government training centres with Basic Schools under them will earn on an average Rs. 1,000 per centre.

LABOUR

Average daily number of workers in registered factories at the end of March 1958: 68,825 (Men 59,527; Women 7,323; Adolescents 1,376; Children 599).

Names of industries in which a minimum wage is fixed: Tea Plantation, Motor Transport, Rice and Oil Mills, Agriculture, Road Construction, Building Operations and Stone-breaking or crushing.

Average monthly earnings of workers in some of the more important industries (in March 1957) (earnings include basic wage as well as other cash remunerations like dearness allowance and overtime; basic wages are shown in brackets):—Plantations: Rs. 45 (Rs. 30-50); Tea factories: Rs. 52-12 (Rs. 37-25); Rice Mills: Rs. 80-31 (Rs. 61-44); Plywood factories and Saw Mills: Rs. 67-66 (Rs. 48-19); Match factory: Rs. 114-50 (Rs. 49-12); Petroleum: Rs. 194-50 (Rs. 102-37).

Total number of Trade disputes for the year 1956-57: 6,504.

Total number of Strikes: 16 (14 in tea plantations).

Total number of workers affected: 4,762 (4,373 in tea plantations).

Number of man-days lost: 24,132.

Number of registered Trade Unions in State (November 1, 1958): 128.

Total membership of Trade Unions: No reliable figure available; but on March 31, 1958, the total for 34 Unions stood at 66,815.

Number of Labour Welfare Centres in State: 20 including two training centres.

Under the Subsidised Industrial Housing Scheme for industrial workers as sanctioned by Assam Government's Directorate of Housing, 303 tenements were built till September 30, 1958.

Under the Plantation Labour Act, 644 Tea estates were expected to provide housing for their workers during 1957 and of them 561 estates returned a total of 7,588 pucca, 488 semi-pucca and 1,704 kutcha houses. The other 83 estates were classed as defaulters.

COMMUNITY PROJECTS

The Community Development Projects and Blocks and the National Extension Service Blocks taken up in the State till March 31, 1957 cover a total area of about 17,257 sq. miles with a population of 28,62,288 (about 94 per cent of the State population) in about 9,915 villages. There are in all 53 blocks in operation now.

HOUSING

Housing authority: Director of Housing, Shillong.

Finance available for housing: Schemes are entirely financed by loans and subsidies from the Government of India, Ministry of Works, Housing and Supply except that for slum clearance schemes a matching subsidy is given by the State Government. Staff expenses for all schemes are borne by the State Government. Allotment by Government of India for the Second Five-Year Plan period: Rs. 141.50 lakhs excluding staff expenses of the order of Rs. 15 lakhs.

The Schemes are: (1) Subsidised Industrial Housing for industrial workers Rs. 10,00,000; (2) Plantation Labour Housing for tea estate workers—Rs. 30,00,000; (3) Low Income Group Housing—Rs. 79,50,000, under which two types of loans are granted: (a) for tenements for municipal sweepers at a ceiling loan of Rs. 2,800, per tenement, and for residential houses by private individuals, with a maximum loan of Rs. 8,000 per house; (4) Rural Housing for improving housing condition in villages—Rs. 10,00,000, and (5) Slum Clearance—Rs. 12,00,000.

Types of houses built: Tenements for municipal sweepers at a ceiling cost of Rs. 3,500 per tenement, and residential houses by private individuals with no prescribed ceiling.

Financial help given to local bodies: To Municipalities for sweepers' tenements, 80 per cent of the estimated cost of construction or Rs. 2,800 per tenement, whichever is less.

The Housing Board advances loans also to private individuals for construction of residential houses at the rate of 80 per cent of the cost of construction or Rs. 8,000, whichever is less, repayable with interest at 5½ per cent per annum in 18 years.

Progress of implementation of the schemes till September 30, 1958: (1) Construction of 303 tenements under Subsidised Industrial Housing Scheme—Rs. 9,09,000; (2) Initial expenses towards implementation of Plantation Labour Housing Scheme—Rs. 67,000; (3) Sanctions to local bodies for construction of tenements for sweepers—Rs. 7,00,000, and to private individuals for residential houses—Rs. 60,00,000; (4) Preliminaries undertaken for Rural Housing, and (5) Construction of 272 tenements undertaken under the Slum Clearance Scheme at an estimated cost of Rs. 8,98,000.

BUDGET (1958-60)

See under 'Late Particulars'.

FIVE-YEAR PLAN

See under article 'Second Five-Year Plan'.

THE ASSAM FINANCIAL CORPORATION

('Glenerquahrt', Shillong)

(Position as on March 31, 1958): †

The Corporation came into being on 14th August 1954.

Aims and objects: To contribute to the industrialisation of the State by providing credit, medium and long term to industrial concerns present or future in Assam.

Authorized capital: Rs. one crore divided into one lakh shares.

The one lakh shares are distributed as below:

1. Government of Assam ..	50,000
2. Reserve Bank of India ..	20,000
3. Scheduled Banks, Insurance Companies, Co-operative Banks and other financial institutions.	25,000
4. Parties other than those referred to above ..	5,000

Total number of applications received: 123

Total number of applications accepted for loan: 50

Total amount of loan sanctioned: Rs. 1,07,50,000

Total amount of loan advanced: Rs. 54,03,448

Rate of interest charged: Six per cent to seven per cent.

	Rs.
Income (1957-58)	5,25,664
Expenditure	73,746
Profit	4,51,918

† Later figures if available are given under 'Late Particulars.'

POPULATION OF DISTRICTS (1961 Census)

Assam Districts.	Total	Males	Females	Rural	Urban
1. Cachar	1,115,865	588,806	527,559	1,054,489	61,376
2. Goalpara	1,108,124	588,999	519,125	1,067,495	40,629
3. Kamrup	1,490,898	799,391	691,001	1,416,512	73,880
4. Darrang	913,841	491,618	422,223	891,390	22,451
5. Nowgong	886,955	476,578	410,377	843,420	43,535
6. Sibsagar	1,212,224	647,982	564,292	1,172,905	39,319
7. Lakhimpur	1,078,157	586,306	491,851	1,021,723	56,434
8. United Khasi and Jaintia Hills	363,599	186,652	176,947	305,087	58,512
9. Lushai Hills	196,202	96,136	100,066	189,252	6,950
10. Garo Hills	242,075	124,054	118,021	242,075
11. United Mikir and North Cachar Hills	165,440	86,430	79,010	163,272	2,168

Names of Districts showing the area in square miles* and population respectively of each District followed by the names, area in square miles and population respectively of the talukas in that particular District within brackets:

Cachar District: 2,687; 1,115,865 (Haikandi: 512; 195,650; Karimganj: 709; 378,324; Silchar: 1,459; 541,891).

Darrang District: 3,361; 913,841 (Mangaldai: 1,272; 402,501; Tezpur: 1,534; 511,340).

Garo Hills District: 3,140; 242,075.

Goalpara District: 3,983; 1,108,124 (Dhubri: 2,881; 779,835; Goalpara: 1,098; 328,280).

Kamrup District: 3,837; 1,490,898 (Barpeta: 1,254; 539,423; Gauhati: 2,590; 950,969).

Lakhimpur District: 4,927; 1,078,157 (Dibrugarh: 2,808; 831,968; North Lakhimpur: 1,345; 246,189).

Mizo Hills (Lushai): 8,134; 196,202 (Aijal: 4,861; 135,985; Lungleh: 3,282; 60,217).

Nowgong District: 2,187; 886,955.

Sibsagar District: 3,456; 1,212,224 (Golaghat: 1,363; 333,553; Jorhat: 1,094; 434,660; Sibsagar: 1,019; 441,011).

United Khasi and Jaintia Hills District: 5,546; 363,599 (Jowai: 1,513; 67,031; Shillong: 4,041; 295,968).

United Mikir and North Cachar Hills District: 5,895; 165,440 (Mikir Hills: 3,995; 125,777; North Cachar: 1,888; 39,663).

* There is a discrepancy between the figure obtained by adding the areas of individual districts and the figure for the area of the State as a whole given at the top of the article.

UNIVERSITY OF GAUhati

Gauhati, Assam.

VICE-CHANCELLOR

S. K. Bhuyan, M.A., B.L., Ph.D. (Lond.), D. Litt. (Lond.).

REGISTRAR

P. Datta, M.A., B.L.

Teaching, Affiliating and Residential.

Subjects where provision exists for post-graduate and research:

Assamese, Philosophy, Economics, History, Education, Mathematics, Statistics, Botany, Commerce, English, Physics, Chemistry, Geology, Anthropology, Agricultural Botany, Sanskrit, Political Science, Culture and Civilisation of Assam.

Number of colleges affiliated: 30 (including one constituent college).

Number of students: Affiliated Colleges: 14,242; University Departments: 1,370; Constituent College (Law College): 860.

Grant from State Government:

Annual recurring grant of Rs. 6,00,000.

Receipts: Rs. 17,65,407-15-9 (1956-57).

Expenditure: Rs. 16,69,850-3-3 (1956-57).

LIST OF COLLEGES *

Assam Agricultural College, Jorhat.
Assam Medical College, Dibrugarh.
Assam Veterinary College, Gauhati.

B. Barooah College, Gauhati.

B.N. College, Dhubri.

Cotton College, Gauhati.

D. C. Baruah Girls' College, Jorhat.

Dibrugarh H.S. Kanol College, Dibrugarh.

Darrang College, Tezpur.

D.M. College, Imphal (Manipur).

Gurucharan College, Silchar.

Handique Girls' College, Gauhati.

J.B. College, Jorhat.

Karimganj College, Karimganj.

Lady Keane Girls' College, Shillong.

M.C. College, Barpeta.

Nalbari College, Nalbari.

Nowgong College, Nowgong.

Sibsagar College, Sibsagar.

St. Anthony's College, Shillong.

St. Edmund's College, Shillong.

St. Mary's College, Shillong.

University Law College, Jhalukbari.

ASSOCIATIONS, ETC.

AMERICAN BAPTIST FOREIGN MISSION SOCIETY (ASSAM MISSION)

Pan Bazar, Gauhati.

President, Miss Florence Wormser; Secretary, Rev. R. G. Beers; Ag. Treasurer, Miss Florence Wormser.

ASSAM CHAMBER OF COMMERCE

Keating Road, SHILLONG.

President, Md. Umaruddin.

Senior Vice-President, P. C. Chaudhuri.

Vice-Presidents, K. L. Bajorin, S. D. Goswami.

Honorary General Secretary, D. P. Agarwal.

Honorary Joint Secretary, Madan Mohan Oberai.

THE ASSAM CO-OPERATIVE TRAINING INSTITUTE

P.O. Joysagar.

Superintendent, Syed Ikram Hussain.

ASSAM ENGINEERING INSTITUTE

Bamuni Maidan, Chandmari, Gauhati.

Principal: Dr. D. R. Khashtgir, D.Sc., M.I.E., M.I.C.E., M.A. ASCE.

ASSAM NATIONAL CHAMBER OF COMMERCE

P.O. Ulubari, Gauhati.

Hon. Secretary: S. C. Deb.

ASSAM RESEARCH SOCIETY

Gauhati.

President: P. D. Chaudhuri. Jt. Secretaries: Dr. P. Goswami, M. C. Das.

ASSAM SAHITYA SABHA

Chandrakanta Handique Bhawan, Jorhat.

President: Principal P. D. Chaliha, M.A., B.L.;

General Secretary: Binanda Ch. Barua, B.A.;

Asst. Secy.: Jatindra Nath Goswami, M.A., B.T.

ASSAM SANGIT NATAK ACADEMY

Kismet, Upland Road, Shillong.

President: Fasil Ali, Governor of Assam;

Chairman: Debeshwar Sarma, Education Minister, Assam State; Hon. Secretary: Rani Sabita Debi.

BINAPANI NATYA SAMITY

Haibargaon (Dt. Nowgong).

President: Rabindra Nath Bordoloi; Secretary: Keshab Chandra Hazarika; Asst. Secretary: Jogendra Nath Bhattacharyya.

ASSAM TEXTILE INSTITUTE

Gauhati

Principal: H. K. Varma.

Lecturer in Weaving: D. M. Barua; Lecturer in Textile Chemistry: B. Sen; Lecturer in Physics: A. K. Sharma; Lecturer in Textile Design: N. Srikantiah.

THE COUNCIL OF BAPTIST CHURCHES IN ASSAM & MANIPUR

Pan Bazar, Gauhati.

President: Jonathan Thumra; General Secretary: Rev. Edward Singha; Treasurer: Miss Florence E. Wormser.

DIOCESE OF SHILLONG

Bishop's House, Shillong.

Bishop of Shillong: Most Rev. S. Ferrando, S.D.B.; Secretary: Rev. M. Bianchi, S.D.B.

H.R.H. THE PRINCE OF WALES INSTITUTE OF ENGINEERING AND TECHNOLOGY

Jorhat.

Principal: Harendra Nath Barua, B.Sc. (Mining).

INDIAN MEDICAL ASSOCIATION

Assam State Branch

Pan Bazar, Gauhati.

President: Dr. Major G. S. Guha; Vice-President: Dr. R. Goswami; Hon. Secretary: Dr. B. N. Chaudhury.

KAMARUPA ANUSANDHAN SAMITY

Gauhati

President: P. D. Chaudhury, M.A., B.L.; Jt. Secretaries: Dr. P. D. Goswami, M.A., D.Phil., M. C. Das, M.A.

NARAYANI HANDIQUI HISTORICAL INSTITUTE

Department of Historical and Antiquarian Studies in Assam, Gauhati.

Deputy Director & Officer-in-Charge of the Department: Dr. Pratap Chandra Choudhury, M.A. (B.H.U.), Ph.D. (Lond.).

PASTEUR INSTITUTE & MEDICAL RESEARCH INSTITUTE

Shillong.

Director: Dr. R. L. Cunville; Asst. Director: Dr. L. M. Koki; Biochemist: Dr. J. K. Barooah.

SILCHAR SANGEET VIDYALAYA

Silchar (Dis. Cachar).

President: S. M. Deb; Secretary & Principal: S. P. Bhattacharyya.

TOCKLAI EXPERIMENTAL STATION

Cinnamara P.O.

Director: H. Ferguson, B.Sc. (Agr.).

* Besides the list below, there are seven other Colleges.

NAGA HILLS-TUENSANG AREA

Area : 6,331* sq. miles.

Population : 355,000 (approximately). According to the 1951 census figures, Naga Hills-Tuensang (as now constituted) has a population of 2,12,975, but this leaves out the population of 2,005 sq. miles of Tuensang. Only a 50 sq. mile area of Tuensang (then known as Naga Tribal Area) was covered by the 1951 census and the population there was recorded as 7,025.

Headquarters : Kohima.

Administrative Districts with headquarters shown within brackets: Kohima (Kohima); Mokokchung (Mokokchung); Tuensang (Tuensang).

This administrative unit comprising the Naga areas of Assam State and North-East Frontier Agency, that is, the Naga Hills district of Assam and the Tuensang Frontier Division of NEFA, came into being on December 1, 1957, following the acceptance by the Government of India of a resolution passed by a Naga convention at Kohima which advocated this course as a step preliminary to solving the political deadlock there.

The Naga Hills-Tuensang Area is, like NEFA, administered by the President of India through the Governor of Assam. The responsibility for the administration rests with the External Affairs Ministry. The Governor has under him, for this Area, a Commissioner who in turn is helped by three Deputy Commissioners in the three districts and other staff.

The economy of the unit is entirely dependent on its abundant forests. Revenue is derived from house tax and forest produce like bamboo, cane, timber, thatch and 'Agar'. Rice is grown but all other necessities of life have to be imported. The Naga tribes depend on their own cottage industry for cloth but yarn is imported.

The main tribes in the Area are : Angami, Sema, Lhotha, Ao, Rengma, Chakasang, Sangtam, Konyak, Chang, Phom, Yimchunggur, Khimungan.

Education (in November 1958) :

Total number of Lower Primary schools : 377.
Total number of students : 20,728.
Total number of teachers : 744.
Total number of L.P. schools owned by Government : 355.
Total number of Upper Primary schools : 3.
Total number of students : 402.
Total number of teachers : 12.
Total number of U.P. schools owned by Government : 3.
Total number of Middle English schools : 35.
Total number of students : 3,559.
Total number of teachers : 175.
Total number of M. E. schools owned by Government : 35.
Total number of High English schools : 7.
Total number of students : 2,760.
Total number of teachers : 105.
Total number of H. E. schools owned by Government : 7.

Public Health (in November 1958) :

Total number of hospitals : 29.
Total number of dispensaries : 21.
Total number of civil doctors : 57.

Communications : The area is dependent on roads for all its communications. The railhead Dimapur (or Manipur Road) is the starting point of a National Highway which runs through Kohima to Imphal, headquarters of the Union Territory of Manipur and the nearest airport served by scheduled flights of the Indian Airlines.

Roads in November 1958 :

National Highway, from Dimapur to Mao : 64 miles.
Roads capable of taking 3-ton trucks : 200 miles.
Jeepable roads : 526 miles.
Mule paths : 183 miles.
Porter tracks : 166 miles.
Total : 1,139 miles.

Total length of new roads now being constructed : 392 miles.

Revenue and Expenditure : 1958-59 :

Revenue : Rs. 3,00,000.
Expenditure : Rs. 4,74,00,000.

NORTH-EAST FRONTIER AGENCY

Area : 31,592 sq. miles.

Headquarters : Shillong.

Population : The latest census of India, in 1951 did not extend to the whole of the North-East Frontier Agency and only a very small portion of the territory was covered, which now forms part of Assam. These figures are included in the total population of Assam. The population of N.E.F.A. is very roughly estimated now at 650,000.

The North-East Frontier Agency, geographically and constitutionally a part of Assam but administered by the Union Government, is situated on the borders of Bhutan, Tibet and Burma.

The Agency is inhabited exclusively by hill tribes who have only recently been integrated with the rest of India. The main tribes are : Monpas, Sherdukpen, Akas, Apatanis, Dadas, Tagins, Hill Miris, Minyongs, Padams, Gallongs, Membas; Pallihos, Ramos, Bokaros, Boris, Mishmis, Singphos, Khampis, Wanchoos, Nokteys, and seven tribes of Nagas—Konyaks, Phoms, Changs, Sangtams, Semas, Yimchunggurs and Khimungans.

Before Independence the area was practically unadministered. Since August 15, 1947, considerable attention is being devoted to it and it is now administered by the Ministry of External Affairs, with the Governor of Assam acting as the Agent of the President of India under the provisions of the Sixth Schedule (Part B) of the Constitution. The Governor is assisted by an Adviser. The N.E.F.A. is completely separate from Assam administratively.

The Agency Secretariat is situated in Shillong, capital of Assam.

Divisions in the Agency with headquarters in brackets: Kameng Frontier Division (Bomdila); Subansiri Frontier Division (Ziro); Siang Frontier Division (Along); Lohit Frontier Division (Tesu); Tirap Frontier Division (Khela).

Each Division is under the charge of a Political Officer. The Sub-divisions are entrusted to Assistant Political Officers, who have under them Base Superintendents and Area Superintendents. The system of administration has been organised on a single line. At the Secretariat in Shillong the heads of various departments are integrated and in the Divisions, the Political Officers are assisted by all the technical departments. Senior officers of the Agency are drawn from a newly created special cadre—Indian Frontier Administrative Service.

GEOGRAPHY

The North-East Frontier Agency is a wild mountainous country and presents a remarkable topographical variety. The northern regions bounded by the Himalayas are perennially snow-bound. On the east, the hill ranges bordering on Burma stand as formidable slopes. Near Assam State areas the Agency has some plains.

The entire area is intersected by rivers, numbering about 50, including the Dihang, continuation of the Tsan-po of Tibet, which emerges in Assam as the mighty Brahmaputra. About 15,000 sq. miles of the total area, are estimated to be covered by forests.

The fauna and flora are very rich. Wild elephants, buffaloes, tigers and various kinds of deer are found. To the people of the Agency, the mithun, described as a cross between a cow and a buffalo, is most important as it serves as the standard of value and the medium of exchange.

Monsoon sets in from the month of April and continues till October. Rainfall is heavy except in the Monpa-Sherdukpen area.

LANGUAGES AND DIALECTS

Just as a large variety of tribes is found in the Agency, so also a large number of distinct languages and dialects are spoken. A vast amount of research still remains to be done but broadly the following is the list Division-wise (dialects of the main language are given in brackets):

Kameng Frontier Division : Monpa or Brahmi (Monpa, Dirang Monpa, Lish Monpa); Miji; Aka; Khos; Sherdukpen; Dafa; Sulung; Tibetan. **Subansiri Frontier Division :** Dafa; Apatani; Hill Miri; Mikir. **Siang Frontier Division :** Adi (Tagin or Moya, Gallong, Bori, Bokar, Karka, Simong, Milang or Gomru, Bomdo, Pailubu, Ramo, Panggi, Tangam, Padam, Minyong, Pail); Memba. **Lohit Frontier Division :** Khamba; Digaru; Idu (Bebejya Idu); Miju; Singpho; Khapti. **Tirap Frontier Division :** Tangba (Yogli, Tikhak, Lungchang, Moshang, Havi, Lungri, Longphi, Ponthal, Rundra, Muglom); Noktey (Borduria, Soha); Wancho.

Very few of these languages have a script and it is one of the objectives of the Agency Administration in the sphere of education, to provide the people with a medium for writing their languages.

EDUCATION

Education in the Agency is of the Basic type. Some of the schools have already been converted into the Basic pattern and the rest are in the process of conversion.

Due emphasis is laid on instruction in crafts and agriculture. Attached to every school is an agricultural garden where seasonal vegetables are grown by the students through improved methods. Different craftlike carpentry, weaving, cane and bamboo work and soap-making are also practised. The products of these activities may be utilised by the students either for their own use or sold by them for economic gain.

Up to the Primary stage, the mother tongue of the students is sought to be made the medium of instruction in schools, after which Hindi takes the place up to the Xth Class. Assamese is introduced as a compulsory second language from Class VI. Assamese will, however, be retained as the medium of instruction for those students who are using it at present and the switchover to Hindi will be gradual.

The task of preparing text-books in tribal languages is being given great importance. Thirty-four text books for Grade I have been translated into 13 tribal languages and books for Grades II and III are under preparation. A Philological Section in Shillong looks after the accuracy of the translations.

In 1947, when the Department of Education was set up there were only two Lower Primary Schools in the entire Agency. At the end of 1956-57 the situation was :

Number of institutions : Lower Primary—110; Middle English—13; High English—8; Total—126.

A Basic Education Training Institute at Margherita runs reorientation courses for the teachers.

For other statistical data on Education in N.E.F.A., see main article on Education.

COTTAGE INDUSTRIES

The people of the Agency have a great tradition of artistic and cultural self-reliance. The Administration aims at assisting them to develop their capabilities and to improve their standard of living by adopting better technique.

* There is some discrepancy between the figures given by the Central Govt. and the State Govt.

Cottage Industries Training and Production Centres have been opened at 13 places to impart training in weaving, spinning, knitting, carpet-making, carpentry, wood-carving, cane and bamboo work, smithy and pottery. Rearing of silk and *endi* is demonstrated at sericultural farms at three centres.

Till the end of 1956-57, 906 persons were trained in different crafts and 345 more were under training at the beginning of the next financial year. About 100 instructors impart training in crafts and sericulture. Expenditure during 1956-57 : Rs. 5,25,073.

PUBLIC HEALTH

1956-57 :

Main types of disease with number of patients treated within brackets :

Malaria (51,412); Diarrhoea and dysentery (20,741); Goitre (13,456); Venereal disease (2,847).

Number of Hospitals : 30; Number of beds : 561; Number of Leprosy colonies : 3; Number of leprosy patients treated : 191; Number of dispensaries : 36; Number of doctors : 87; Number of Nurses : 15; Number of out-door patients treated : 3,28,270; Number of indoor patients treated : 5,232.

Two B.C.G. teams toured Pasighat area of the Slang Frontier Division of the Agency covering a population of 5,503. The campaign will be carried on until the whole of the Agency is covered.

A Health Training and Research Centre has been started to train rural health workers drawn from the villages.

Expenditure in 1956-57 : Rs. 21,06,850.

AGRICULTURE

Agriculture is the mainstay of the people of the Agency. Generally, the *jhum* system is followed as in the hills of Assam and the yield is not enough to meet the requirements.

A radical change from *jhumming* to permanent cultivation is not considered possible in the difficult terrain of the Agency and the objective

of the Agriculture Department of N.E.F.A. is to introduce permanent cultivation wherever possible and simultaneously to improve *jhumming* on scientific lines.

Since independence, over 23,500 acres of land have been developed for permanent cultivation and 10,000 acres more are proposed to be so developed during the Second Five-year Plan period.

No data are yet available on the total area under cultivation or on the nature and quantity of crop produced.

State help towards agriculturists consists of :

(i) Subsidy towards land reclamation, minor irrigation, purchase of tools, purchase of seeds, purchase of plough bullock, agricultural education and training and purchase of improved cattle, pigs and poultry;

(ii) Technical advice and guidance along with free services with necessary equipment for plant protection, organisation of marketing facilities, organisation of exhibitions, organisation of conducted tours, organisation of crop competitions, organisation of demonstration of improved crops, veterinary aid and livestock upgrading.

LAND TENURE

There is no regular land tenure system in N.E.F.A. as in other settled areas. Each tribe has its own customary system, giving individual as well as joint right on the land as under the jurisdiction of each village. Land belonging to each village is controlled by village elders organised in institutions similar to *panchayats* and they are guided by the old customs which vary greatly from place to place.

As no regular survey has yet been undertaken a detailed description is not available.

COMMUNITY PROJECTS

Community Development and National Extension Service Blocks in the Agency cover 1,200 sq. miles with a total population of 80,454. A special N.E.F.A. type block has been evolved by the Administration with the approval of the Ministry to meet the specific needs of the people with less expenditure. The main emphasis is laid, on self-sufficiency in food, better roads, water supply and sanitation.

COMMUNICATIONS

The difficulty of communications in the densely forested mountainous terrain is one of the major problems in the Agency. The highest priority is assigned to communications so that easy contact may be established with every part of the territory.

The total mileage of roads, paths and tracks in the Agency on March 31, 1957 :

Roads : 533 miles; Bridle Paths : 267 miles; Mule Paths : 297 miles; Porter Tracks : 2,671 miles; Total : 3,768 miles.

On March 31, 1957, seven airfields and three light plane strips were in commission and plans were in hand for five more airfields and two more airstrips. For the development of the interior, carriage of mail and cash and the evacuation of casualties the Administration depends greatly on light aircraft while bigger planes are used for landing or dropping supplies all over the Agency.

A wireless network has been set up to provide quick connection among the various administrative centres and outposts.

POWER DEVELOPMENT

A provision of Rs. 13,00,000 has been made in the Second Five-Year Plan for the development of power in the Agency. Of this amount, Rs. 11,00,000 is for providing diesel generating sets at 15 places for supply of electricity and Rs. 2,00,000 for survey of hydro-electric schemes.

SUPPLY

Air supply in the interior areas of N.E.F.A. commenced in January 1951. The Indian Air Force and chartered companies fly regular sorties to land or air-drop supplies. The total tonnage air-lifted during the calendar year 1956 was 6,881 tons. Up to October 31, 1957, the total tonnage air-lifted was 7,360 tons.

Under a State Trading Scheme all ration and stores for the Agency Service (corps and for sale to the people, are procured centrally at Jorhat, N.E.F.A.'s air base and supplied by air to the interior.

BIHAR STATE

Area : 67,113 sq. miles *

Total Population 38,783,778 *

Capital : Patna

Administrative Divisions :—Patna, Bhagalpur, Tirhut and Chota Nagpur.

* Districts with names of District Headquarters in brackets in each Division :

Patna Division : Patna (Patna); Gaya (Gaya); Shahabad (Arrah).

Tirhut Division : Muzaffarpur (Muzaffarpur); Saran (Chhapra), Champaran (Motihari); Darbhanga (Laheria-sarai).

Bhagalpur Division : Bhagalpur (Bhagalpur); Monghyr (Monghyr), Purnea (Purnea); Santal Parganas (Dumka); Saharsa (Saharsa).

Chota Nagpur Division : Ranchi (Ranchi); Hazaribagh (Hazaribagh); Palamau (Daltonganj); Singhbhum (Chaibassa); Dhanbad (Dhanbad).

Number of Districts : 17; Number of District Boards : 17; Number of Municipalities (including Patna Municipal Corporation) : 49.

Number of Notified Area Committees : 28; Number of notified Panchayats : 8,999 (1956); Names of towns with a population of over 50,000 : Patna, Monghyr, Jamshedpur, Muzaffarpur, Gaya, Chapra, Bhagalpur, Arrah, Ranchi, Darbhanga and Gaya.

(For names, area and population of taluks see this article under the heading Population.)

GEOGRAPHY

Bihar is more thickly populated than Germany. Hindus form an overwhelming majority of the population. Though Muslims form about one-tenth of the total population they constitute more than one-fifth of the urban population of the State. The scheduled tribes account for 10.6 per cent before the enactment of the Bihar and West Bengal Transfer of Territories Act, 1956. These are inhabitants of the Chota Nagpur plateau and the Santal Parganas, the latter district being a continuation of the plateau in a north easterly direction.

Although there is a great deal of mineral wealth in Chota Nagpur and important industries are developing in connection with it, still for the bulk of the population of the State agriculture continues to be the basic occupation. Over 80 per cent of the population depends wholly on agriculture, while only 7.8 per cent depends on industries.

The soil throughout the whole of that portion of the Indo-Gangetic plain lying within the State boundaries is extremely fertile, particularly in North Bihar, in parts of which the density of the population is more than 900 people to the square mile. The State occupies a transitional position between Ganges delta with its damp climate so suitable for the paddy crop and the State to the north and west where large irrigation schemes have had to be provided to enable the soil to produce its bounty. As in the delta of the Ganges, rice is by far the most important crop as it occupies normally an area of approximately 12 million acres or over 50 per cent of the net cropped area of the State. In the circumstances, the importance of the south west monsoon to the State of Bihar cannot be overestimated.

In addition to the rice crop, however, other grain crops are grown on a tolerably large scale. Of the monsoon cereals, maize, wheat and barley are extensively grown. The cultivation

of oilseeds like castor, mustard and linseed forms a large and important part of the agriculture of Bihar.

After Uttar Pradesh, Bihar is the most important white sugar area in India, some one-sixth of the total production of white sugar in the country being turned out in Bihar factories.

Jute has been an important crop and is confined almost entirely to the Purnea District part of which has gone to West Bengal after reorganization.

Tobacco is a crop of increasing importance in the State and one which is likely to expand in importance.

LARGE-SCALE INDUSTRY

The large-scale industries are :

Iron and Steel, Aluminium, Lead, Foundry, General and electrical engineering, Bicycles, Tanning, Leather goods and foot-wear making, Sulphate of ammonia, Hume pipe and R.C.C. products, Asbestos products, Glass and glass-ware, Ceramics, Cement, Heavy chemicals, Woollen textiles, Cotton textiles, Jute textiles, Silk and Art silk, Tobacco, Distilleries, Benzol, Sugar, Food industries, Roller flour mills, Mica and Shellac.

The figures below are for 1957. The first figure shows the number of units and the second the workers.

Iron and steel (6; 32,390); Sugar (34; 21,825); Cement (7; 4,614); Mica (138; 12,122); Bidi (357; 8,742); Coke ovens (5; 1,595); Jute mills (3; 5,916); Cotton mills (7; 1,537); Woollen mills (1; 642); Cigarettes (1; 2,013); Pulp and paper (2; 3,097); Shoes (1; 667); Tannery (1; 287); Rice mills (575; 7,228); Oil mills (377; 2,425); Shellac (80; 1,959).

MINERALS (1956)

Chief Minerals	Quantity
Iron ore	1,849,217 tons
Coal	19,590,347 "
Mica	93,912 cwt.
Manganese	46,482 tons
Kyanite	22,079 "
Asbestos	8,824 cwt.
Copper ore	388,987 tons
Chromite	2,682 "
Steatite	161,207 cwt.
Slate	665 tons
Limestone	1,572,579 "
Igneous rocks	508,274 "
Fireclay	37,375 "
China clay	41,884 "
Silica	15,995 "
Bauxite	50,974 "

The distribution of the minerals is as follows : Coal in Jharia, Bokaro, Kurnapura, parts of Raniganj; iron ore in Noamundi, Gua, Buda Bunde in Singhbhum District; mica in a 90-mile long and 20-mile broad belt extending from Gaya District through Hazaribagh to Monghyr and Bhagalpur Districts; copper at Bakha, Mosaboni, Dhubani and Badia in Singhbhum; bauxite at Fakirpat, Serendag in Ranchi District and at Netarhat in Palamau District; limestone at Banjar, Rohtas, Banlia in the districts of Shahabad, Palamau, Hazaribagh and Singhbhum; China clay in Singhbhum, Dhanbad, Bhagalpur and Santal Parganas; Fire clay at Jharia and Daltonganj in Monghyr and Singhbhum Districts; manganese in Singhbhum District; kyanite at Lapsa Bura, Ghagdi, Kanyaluka in Singhbhum and Dhanbad Districts; steatite at Belaipahari, Digha, Bhitardari and Narda in Singhbhum District and Fakhukata in Dhanbad District; chromite near Chaibasa; pyrites in Shahabad District; graphite in Palamau and Chota Nagpur; apatite at Nandup, Pathargara, Badia, Sunrui in Singhbhum District; antimony at Hiasu in Hazaribagh District; asbestos at Barhans and Saranghori in Seraikella State and in Monghyr District; ochre in Singhbhum District and in Rajmahal hills in Santal Parganas; tungsten at Tatanagar; uranium deposits have also been located in Bihar.

Workers employed in mines in 1956* : Iron ores—13,602; Coal—177,303; Mica—19,336; Kyanite—2,284; Manganese—1,036; Chromite—318; Copper ore—4,070; Asbestos—208; Limestone—7,192; China clay—2,571; Stone (igneous rock)—3,040; Fire clay—262; Bauxite—425.

AGRICULTURE

The following statement shows the figures of out-turn of principal crops obtained by crop cutting and eye-estimation during 1956-57 (in thousand tons) :—

Paddy (autumn and winter) 4,632; Wheat 137; Gram 251; Barley 107; Maize 383; Masoor 18; Arhar 48; Khesari 232; Peas 12; Sugarcane 3,673; Potato 251; Tobacco 7; Jute 1,378 (bales); Chillies 6; Rice 3,088.

The following figures show areas under principal crops in 1956-57 (in thousand acres) :—

Rice 12,346; Wheat 1,832; Gram 1,981; Barley 922; Maize 1,553; Masoor 275; Arhar 316; Khesari 1,762; Peas 100; Sugarcane 403; Tobacco 41; Potatoes 123; Jute 689, Chillies 57; Marus 364.

During 1957-58 Bihar, one of the five top producers of rice among the States, produced 2,198,000 tons of rice.

There are about 4 lakh cane-growers in Champaran, Saran, Darbhanga and Muzaffarpur. Tobacco is grown in Muzaffarpur, Monghyr, Purnea, Darbhanga, and jute in Purnea part of which has gone to West Bengal after reorganization.

Variety of fish produced (inland) : Carg, Cat-fishes, feather backs, Murrells and miscellaneous.

Estimated production of fish : 10 lakh maunds valued at Rs. 7 crores approximately.

Estimated fishing population: 22 lakhs.

There were 275 Blocks in March 1958. Of these 205 were C. D. Blocks of stage I, 23 of stage II and 47 C. D. Blocks of the old pattern.

* After transfer of territory to W. Bengal.

They covered 37,718 villages with an area of 32,450 square miles and a population of 182·20 lakhs.

As at end of June 1958, the money value of the peoples' contribution was estimated at Rs. 9·21 crores as against Government expenditure of Rs. 8·94 crores.

FORESTS (1955-56)

Total forest area : 13,286 square miles. Types of forests : Mainly sal.

Total revenue from forests for 1956-57 : Rs. 1,04,60,582 and total expenditure : Rs. 1,05,22,448.

The following is the latest information available, 1956-57 :

Main forest produce	Quantity
Timber	3,248,000 c.ft.
Fuel	4,086,000 "
Bamboo	9,173,000 Nos.
Sabalgrass	22,255 mds.

Three afforestation divisions have been functioning in the State since 1951. An area of 5,659 acres was afforested upto 1956-57.

LIVESTOCK : According to the 1956 livestock census the State of Bihar after reorganization of its boundaries possesses 2·62 crores of animals as detailed below :

1. Cattle : 14,398,399.

(i) Adult oxen : 6,379,154 ; (ii) Adult cows : 4,301,393 ; (iii) Young stock : 3,717,852.

2. Buffaloes : 3,426,450.

(i) Adult he-buffaloes : 683,402 ; (ii) Adult she-buffaloes : 1,618,700 ; (iii) Young stock : 1,124,348.

3. Sheep : 1,051,342
4. Goats : 6,524,732
5. Other animals : 841,087

Total : 28,242,010

6. Poultry : 8,638,494.

TRANSPORT

Total mileage of roads : 7,941 miles ; metalled roads : 5,378 miles ; unmetalled roads : 2,563 miles.

Total mileage of waterways : Length open to navigation : 900 miles.

State transport, by name Rajya Transport, operates in the whole of south Bihar except in the district of Daltonganj.

It has a fleet of 490 buses. The fare is 7½ ples per passenger mile exclusive of a sales tax of 12½%.

The area is divided into four Divisions : Patna, Gaya, Bhagalpur and Jamshedpur. Every Division has its own workshop and stores. The Central Workshop and Stores are at Phulwarisharif Camp Jail in Patna.

The State Government have decided to form a Road Transport Corporation with Railways as 25 per cent shareholders and it is expected that the Corporation will come into being at any time in 1959.

Statistics for the year ending 1957-58:

Number of Routes operated	105
Route Mileage	4,433
Total Fleet	490 } 120 petrol 370 diesel
Operating Fleet	322
Total Schedules	288
Total effective mileage	1,00,98,905
Total Passengers Carried	2,48,64,191

IRRIGATION

Area irrigated by Government Irrigation works : 948,458 acres ; private canals : 566,393 ; tanks : 595,288 ; wells : 524,741 ; other sources : 1,748,979 (1956-57).

The area under assured irrigation before the inception of the First Plan was 8·98 lakh acres in South Bihar and 1·39 lakh acres in North Bihar. Area added during First Plan was 3·64 lakh acres in South Bihar and 2·81 lakh acres in North Bihar. Target for the Second Plan is 6·55 lakh acres in South Bihar and 0·24 lakh acres in North Bihar.

Expenditure under assured irrigation before the First Plan was Rs. 343·44 lakhs in South Bihar and Rs. 106·56 lakhs in North Bihar. Expenditure during the First Plan was Rs. 758·03 lakhs in South Bihar and Rs. 326·05 lakhs in North Bihar. Expenditure during the Second Plan will be Rs. 1,476·91 lakhs in South Bihar and Rs. 415·00 lakhs in North Bihar.

The larger Irrigation works are Son Canal System in Shahabad, Patna and Gaya districts ; Tribeni Canal (recently expanded and extended) and Dhaka and Teer Canals in Champaran District ; Sakri Canal in Gaya, Patna and Monghyr Districts ; Saran Canal (recently renovated) in Saran District ; Kamala Canal in Darbhanga District ; Kosi and Durgawati Irrigation Schemes (completed), Kohra Reservoir (under execution) in Shahabad District ; Jamini Kola, Semaria-Gurgawan Embankment-cum-Irrigation Scheme, Mayurakshi Left Bank Canal in Santal Parganas ; Panchana, Sirnawa,

Lokain, Bhartua-Nandan Kulti Irrigation Schemes (Completed) and Panchana Phase II Scheme (under execution), in Patna District ; Batana, Chariari, Mahugain, Nitane, Hulla, Keshwar River Scheme, Jamunia Irrigation Scheme and Upper Morhar Irrigation Scheme (completed) and Lilajan, Adri, Dhawa and Lower Morhar Irrigation Scheme (under execution) in Gaya District ; Ajan, Gidheshwari, Ganalli, Kundghat, Kharagpur Lake, Kaurihari, Nagi and Lower Kuli in Monghyr District ; Sonhula Tarar, Gebua Weir, Khajia Danr (Phase I), Mahmuda, Chandan Bhasi, Khalkhalia Embankment and Khajia Phase II Scheme (completed) and Chandan Phase I and Badua Scheme (partly in Monghyr district) under execution in Bhagalpur District ; Arandh, Bucha opa, Kita and Rajia Irrigation Scheme (completed) and Kanchi Weir and Hata Water Supply Schemes (under execution) in Ranchi District ; Charwa, Gonda, Jurga, Jamunia, Ghaghra Irrigation Schemes (completed) and Lotia and Kuti Pisi Irrigation Scheme (under execution) in Hazaribagh District ; Sadabah, Kararbar, Batre and Chordanda Schemes (completed) and Jinjoi, Chako Adra and Sonre (Karar) Irrigation Scheme (under execution) in Palamau district ; and Kaida, Brahmini and Sonua Irrigation Scheme (completed) and Torlow, Boro and Rajbandh Irrigation Scheme (under execution) in Singhbhum district.

Besides this the Irrigation Department have constructed 946 State Tubewells in all, 496 of which are located in South Bihar and 450 in North Bihar.

TRADE

Statement showing exports and imports during 1956-57. The first three items in numbers, rest in maunds.

Article.	Exports.	Imports.
Horses, ponies, mules	75	29
Cattle (excluding sheep and goats)	68,514	51,610
Sheep and goats	99,788	2,972
Bones	171,413	4,755
Cement	12,842,752	731,028
Coal and coke	2,91,731,054	29,078,005
Cotton twist and yarn	8,588	148,411
Cotton piecegoods	11,989	548,057
Dyes and tans	9,776	2,219
Fruits dried	24,213	117,769
Glass	272,345	101,793
Maize	52,252	689,325
Jawar and Bajra	20,980	124,415
Hemp, Indian and others	22,632	9,495
Hides	371,277	18,785
Skin	30,236	831
Hides and skins (tanned) and leather	19,103	10,936
Jute (loose)	87,898	5,023
Jute (Fucca bales)	4,540,048	52,634
Gunny bags and cloths	450,916	455,893
Iron and steel bars, sheets, girders	15,885,805	5,332,926
Lao and shelles	39,857	64,005
Manganese ore	2,411,851	8
Oil cakes	424,860	554,445
Kerosene oil	76,824	3,514,530
Vegetable oil	—	—
Coconut oil	13,502	69,725
Castor oil	14,446	7,342
Groundnut	40,412	238,877
Salt	83,599	4,164,936
Sugar	2,885,009	888,298
Gur	577,465	346,147
Tea	16,841	43,515
Tobacco (raw)	309,345	101,513
Wood and timber including teak	2,541,056	1,628,805

A number of Chaur Drainage Schemes has also been constructed involving an expenditure of Rs. 100·47 lakhs to reclaim about 2 lakh acres of depressions for Rabi cultivation.

The total water resources available in the State of Bihar is 26·99 million acre ft. of which 9·57 million acre ft. can be utilised for assured irrigation of 41·32 lakh acres at an estimated cost of Rs. 79·59 crores.

North Bihar abounds in snow-fed rivers and the problem there is primarily that of flood control. Irrigation is provided only in pockets, where the rainfall is erratic and where the area is made partially or wholly flood free. For tackling these problems, North Bihar has been divided into six river basins, viz., (i) Basin between Gogra and Gandak, (ii) Basin between Gandak and Burhi Gandak, (iii) Basin between Kamla and Kosi and (iv) Basin between Kosi and Mahananda.

Most of the important rivers of North Bihar have already been embanked or are scheduled to be embanked in the near future with provision of Irrigation-cum-Drainage sluices in the embankments. For this, a separate master plan for flood control has been prepared at an ultimate cost of Rs. 70 crores. Irrigation Schemes have been planned for utilising 12·4 million acre ft. of the water resources available in North Bihar including the Kosi and Gandak Projects which will bring under assured irrigation 59·64 lakh acres of arable lands at an approximate cost of Rs. 65 crores.

The Master plan for irrigation in Bihar envisages assured irrigation facilities for 100·86 lakh acres of the total 253 lakh acres of arable land in the State at an estimated cost of Rs. 144 crores.

In addition to this, there are also minor irrigation schemes costing less than Rs. 1 lakh each. These schemes are likely to bring under irrigation 50 lakh acres of land at an estimated cost of Rs. 140 crores.

Flood Control Schemes have been undertaken by the State Government at a cost of Rs. 1,279 lakhs and 943·33 miles of additional embankment is nearing completion from which 26·49 lakh acres of land will be protected by the end of the Second Plan.

Flood control is mainly confined to North Bihar. An area of 24·87 lakh acres was protected from flood before the inception of the First Plan. An additional area of 0·96 lakh acres was protected from floods during the First Plan. During the

2nd Plan an additional area of 20 lakh acres will be protected from floods.

Under the drainage scheme 37 lakh acres were reclaimed in North Bihar before the First Plan and 43 lakh acres during the First Plan. During the Second Plan 1·84 lakh acres are to be reclaimed.

There are 32 schemes for implementation during the Second Plan period including the Kosi Project. Of these 14 are new and the rest are spill-over from the First Plan period.

Power Projects Continuing Schemes

Scheme	Scope	Date of beginning	Date of completion	Amount provided in 2nd Plan (Rs. lakhs)
Utilisation of D.V.C. Power in Patna-Gaya area ..	Patna & Gaya Districts ..	1951	1959	11·29
Utilisation of D.V.C. Power in Dehri-Aurangabad, Bhabua & Buxar area ..	Gaya, Palamau & Shahabad Districts	1954	1959	50·87
Extension of supply to Cement Works at Khelari & Coal Mines in Bokaro area ..	Hazaribagh District	1954	1959	25·77
Electrification of Mini-Chakradharpur-Chalbaria and Gua area ..	Singhbhum District	1954	1959	29·96
Extension from Malthon to Jamalpur-Monghyr-Bhagalpur Sahelganj ..	Monghyr, Bhagalpur and Santhal Parganas	1954	1961	196·67
Electrification of Dumka and adjoining area ..	Santhal Parganas	1954	1959	1·57
Extension of supply to Katthar, Kishunganj, Saharsa and Baiganj in North Bihar	Purnea, Saharsa and Muzaffarpur Districts	1954	1959	45·57

NEW SCHEMES

Scheme	Scope	Date of beginning	Date of completion	Amount provided in 2nd Plan (Rs. lakhs)
Electrification of towns villages in mining areas of Singhbhum district ..	Singhbhum District	1956	1961	64·60
Extension of power supply to Mica Mines area ..	Hazaribagh and Monghyr Districts ..	1956	1961	54·16
Power Development in Coal Mines area of Manbhum, Ranchi, Hazaribagh and Palamau districts ..	Dhanbad, Hazaribagh, Ranchi and Palamau Districts ..	1956	1961	133·62
Electrification of Jamtara, Karmataur and extension to Madhupur, Deoghar & Giridih area ..	Santhal Parganas District	1956	1961	53·20
Extension of Elec. Supply to Shahabad District for utilising D.V.C. Power ..	Shahabad District	1956	1961	117·80
Extension to Patna and part of Monghyr District for utilising D.V.C. Power ..	Patna and Monghyr	1956	1961	74·10
Electrification of Pakur and extension to Dumka and surrounding area ..	Santhal Parganas District ..	1956	1961	21·85
Power Development in Rural and urban areas of Bhagalpur, Santhal Parganas and Monghyr districts ..	Bhagalpur, Santhal Parganas and Monghyr	1956	1961	128·35
Utilisation of D.V.C. Power in Gaya District ..	Gaya	1956	1961	120·70
Steam Station in North Bihar	Monghyr, Darbhanga, Muzaffarpur, Saran	1956	..	203·55
Distribution extension under Steam Station in North Bihar ..	Monghyr, Darbhanga, Muzaffarpur, Saran	1956	1961	180·50
Taking over of derelict supply undertakings, their development and loans to licensees	Entire State	1956	1961	141·55
Rural Electrification in Bihar	Entire State	1956	1961	158·70

Progress of Electrification as for 1957-58 :

	1957-58	Targets for 1961
Total expenditure (Progressive) (rupees in lakhs) ..	1,755·007	2,973
Miles of H.T. lines ..	5,249	8,250
Miles of L.T. lines ..	1,995	4,600
Number of sub-stations ..	2,289	5,000
Number of consumers ..	64,249	1,60,000
Number of villages and towns ..	790	1,600
Number of tube-wells and surface wells ..	2,402	3,000
Demand in kW ..	62,200	1,60,000
Number of units sold (million kWh) ..	143·3	250
Gross revenue collected (rupees in lakhs) ..	168·66	500

LAND TENURE

The land tenure system in Bihar is governed by the following Tenancy Acts: The Bihar Tenancy Act, 1885, The Chota Nagpur Tenancy Act, 1908 and the Santhal Parganas Tenancy (Supplementary Provision) Act, 1949. The above Acts protect all types of raiyats against eviction and ensure special privileges to scheduled castes and scheduled tribes against alienation.

The raiyats are classified as raiyats at fixed rents or rates and occupancy raiyats. A very small area is held by non-occupancy raiyats who have no permanent and heritable interest in their holdings. There is also a small number under raiyats having occupancy rights holding of lands both under raiyats at fixed rents and under occupancy raiyats.

The Government of Bihar enacted the Bihar Land Reforms Act, 1950 which provides for the liquidation of Zamindari system in the State.

The Bihar Land Reforms Act, 1950 was put into force with effect from 25th September 1950, and now all intermediary interests have been acquired by the Government. Actually the vesting of the estates started from May 1952. The Zamindari system in Bihar now stands completely abolished.

The Government has laid down a sliding scale for the assessment of compensation. Where the net income does not exceed Rs. 500, the compensation payable is twenty times the net income, and where the net income computed exceeds Rs. 1,00,000 it is payable at three times the amount.

The total compensation is estimated at more than Rs. 150 crores. Provision has been made for the payment of ad interim compensation.

The assessment of compensation for mines and minerals has either to be fixed by agreement or by a tribunal appointed for the purpose.

As for funds to finance compensation, the proposal for Zamindari abolition in Bihar has been drawn up as a self-liquidating scheme. So all the compensation money will be realised from the beneficiaries.

The gross rental from the agricultural land and from salrati and other sources in the State is likely to be about Rs. 12 crores, which is likely to increase further as a result of reclamation of waste lands, the development as well as expansion of the forests, mines, salrats, etc.

The amount of compensation will be paid in cash or in bonds or partly in cash and partly in bonds. The bonds will be either negotiable or non-negotiable and non-transferable, and will be payable in forty equal instalments, and carry interest at two and a half per cent per annum with effect from the date of issue.

The maximum rent that a tenant has to pay to the landlord, has been fixed at 85 per cent of the gross produce. The tenant in Bihar has the option to pay rent in cash or kind.

Official statistics show that agricultural production has increased because of the new systems of tenure, the increase being estimated at 722,000 tons at the end of the First Plan.

Legislation for imposing a ceiling on existing or future agricultural holding has not been enacted in the State. The matter is under active consideration of the Government.

The Bihar Consolidation and Prevention of Fragmentation Act, 1956, provides for the consolidation of holdings and prevention of fragmentation. Actually some pilot projects have been taken up and it is expected that at the end of the Second Plan, about 20 lakh acres of land will be consolidated.

Reclamation

About 99,000 acres of vacant and waste lands have been settled with about 60,000 families belonging to the scheduled castes, scheduled tribes and backward classes (of list I). All waste and vacant lands of Government for agricultural purposes have been kept earmarked for settlement with the members of these three classes and no premium is charged from them at the time of settlement which is made on a permanent basis.

For restoring lands to the tenants who lost them in the Kosi area and also some tenants who lost these in the district of Ranchi, two special Acts were enacted in this State. One is Kosi Area Land Restoration Act, 1951 and the other is the Ranchi District Tana Bhagat Baiyats Agricultural Lands Restoration Act, 1947. For restoration of lands to the privileged persons, namely persons holding one acre of land or less besides homestead, the Bihar Privileged Persons Homestead Tenancy Act, 1947 was passed. This Act is meant primarily to give relief to the privileged tenants most of whom belong to the scheduled castes, scheduled tribes and backward classes of list I.

This is being carried out through the Waste Land Reclamation Department on Government waste and vacant lands and also on lands donated in the Bhoodan Yagna. The Waste Land Reclamation Department has already reclaimed more than 3 lakh acres of land and several Blocks have been set up for rehabilitating the landless agricultural labourers with whom lands also are settled for agricultural and homestead purposes.

Bhoodan

About 23 lakhs acres of land have been donated to the Bhoodan Yagna in this State and legislation known as Bihar Bhoodan Yagna Act, 1954, was passed which regulates the transfer of Bhoodan lands to the Committee and also the administration of these lands. A Committee known as the Bihar Bhoodan Yagna Committee has been set up under the Act, consisting of not more than nine members including Mr. Jai Prakash Narayan, Dr. Shri Krishna Sinha (Chief Minister) Bihar, and Pt. Binodanand Jha (Minister, Revenue) as members.

Under the Bhoodan Yagna movement about 3 lakhs of acres have been distributed already among the landless labourers. For the rehabilitation of Bhoodan tenants, ten pilot projects at a cost of Rs. 2½ lakhs are under execution through Co-operative Societies. There is also another scheme under execution at a total cost of Rs. 30 lakhs which will rehabilitate 10,000 Bhoodan families who are mostly landless.

Scarcity and Relief Operations: The State suffered in 1957-58 drought due to heavy damage to rabi crop. It was followed by another drought due to failure of paddy crops. The entire State was affected in varying degrees. The total short-fall in the yield of the rabi crops of 1958-59, as compared to the annual average production of the 5-Year period ending 1956-57, was 2,22,278 tons. From the beginning of the year 1957-58 to the pre-Bhadral period of 1958-59, there was a total short-fall in production of over 18.6 lakh tons as compared to the average annual production of the five years ending 1956-57.

The amount of expenditure incurred by the State Government on various relief operations came to Rs. 3,00,50,526 during 1957-58 and to Rs. 6,49,77,148 during 1958-59 upto 19th November 1958.

The State Government and millions of peasants did their best in saving as much of the standing crop as they could with the limited sources of irrigation available to them. Pumps, canals and tubewells were worked to capacity and every ounce of water available near the fields was diverted to save the paddy crop.

The Government had collected seeds for the spring crop and provided cash to the peasants who were unable to buy seeds without Government aid.

CO-OPERATION

Figures as on 30-6-1957 :

Number of Co-operative Societies: 23,853; Membership: 1,042,120; Working capital: Rs. 13,64,79,570; Share capital: Rs. 2,15,63,323; Reserve Fund: Rs. 1,38,59,302

Types of Co-operative Societies and number of each type: Provincial and Central banks 47 other Central Societies 110; total Central Societies 157; Primary Credit Societies with limited liability 17; Primary Credit Societies with unlimited liability 1,302; multipurpose (1957): 11,791 (registered); 333 (converted); Weavers' Co-operative Societies (1957): 989 (as on 30-6-1958); sales emporia 106 (as on 30-6-1958); Vishwakarma 42; oilmen's 149 (1957); vegetable growers 64; fishermen's 68; primary stores 337; teachers' stores 168; Harijan Co-operative 55; Cane Marketing unions 69; Cane Growers' Co-operative Societies 7,868; Milk Societies 20; Industrial Societies other than Vishwakarma Industrial Societies: 98; Ghee Producers' Societies: 5; Palm Gur Producers' Societies: 14; Jute Growers' Societies: 12; Biri Workers' Society: 1 (1957); other types including consumers' stores, and Teachers' Co-operative Societies: 183.

Position about multipurpose Societies as on 30-6-1957 is as follows: number of members 4,01,102; paid up share Capital Rs. 33,80,311 reserves Rs. 14,33,766; loans to financing banks and others Rs. 95,15,706.

Bihar State Co-operative Bank: paid up shares Rs. 44,21,100, deposits Rs. 1,62,11,766, loans from other sources Rs. 72,12,668, reserves Rs. 17,12,847, working capital Rs. 2,95,58,381, loans to central banks and societies Rs. 1,49,06,750.

Weavers Societies: Number 789; value of goods produced Rs. 2,48,91,676; value of goods sold Rs. 2,64,97,221.

Consumers' Co-operative Stores, number 337. The apex organization of all Co-operative Societies is the Bihar Co-operative Federation, the annual Government grant for which is about Rs. one lakh.

ANIMAL HUSBANDRY

At the end of the year 1956-57 there were 288 veterinary hospitals and dispensaries including 10 mobile veterinary dispensaries in the State.

HEALTH SERVICES

The following particulars are for 1957 :

Allopathic hospitals 100; Allopathic dispensaries 689; Beds in allopathic hospitals 7,400; Ayurvedic and Unani dispensaries 223 and 11 respectively; T.B. hospitals 5; Mental hospitals 2; Beds in T.B. hospitals 741 and in Mental hospitals 1,830.

Allopathic doctors 6,378 (1958); Nurses 432 (1958), Trained dais in urban and rural areas 480; Compounders 1,908; Ayurvedic and Unani doctors 476; Nurses 276; Compounders in Government employment 236.

Number of Medical Colleges (Allopathic) 2; Government Ayurvedic 1; Private 2; Government Unani 1.

At the end of 1957 there were 855 Hospitals and Dispensaries, out of which 201 were maintained by the State Government and 654 by District Boards.

There were 40 first class medical officers, 750 assistant surgeons, 190 sub-assistant surgeons, 432 nurses, 108 mid-wives, 206 dais.

741 beds in all were available for T.B. patients. There is one sanatorium at Itki, two at Ranchi, one at Kailwar and a T.B. Centre in Patna. The total number of B.C.G. tests and vaccinations upto December 1957 were 1,09,92,652 and 62,12,059 respectively.

There is a leprosarium at Brahmba near Ranchi with a provision for 75 beds.

A separate infectious diseases hospital has been opened in Patna city.

20 malaria control units each covering a population of one million are working at an estimated cost of Rs. 31 lakhs.

20 epidemic doctors and 100 health assistants are permanently maintained at the divisional headquarters in addition to 30 doctors and 210 health assistants appointed temporarily during the epidemic season.

450 vaccinators are working in a mass vaccination scheme to re-vaccinate the entire population at a cost of Rs. 16,000.

Training facilities for M.B.B.S. are available for 160 persons, for nurses 220, auxiliary mid-wives 150, compounders 400, dressers 60 to 70, operation room assistants 8, dais 375, sanitary inspectors 75, health inspectors between 100 and 120 and lady health visitors 60 each year.

LABOUR

Average daily number of workers in registered factories in 1957: 1,79,693; number of factories: 5,430 (1957).

Number of women employed in non-season factories in 1957: 9,768.

Industries in which minimum wage is fixed: Agricultural employment; Woollen carpet making and shawl making; Rice, flour, dal and oil milling; Bidi making; Lac manufacturing; Road construction and building operation; Stone breaking and stone crushing; Employment in public motor transport; Tanneries and leather manufacturing; Mica works; Tea plantations; Employment in local bodies.

Number of strikes: 67 (1957).

Number of lockouts: Nil.

Number of man-days lost: 4,67,998 (1957).

Number of workers involved: 48,199 (1957).

Number of Disputes settled by conciliation: 47 (1957).

Number of awards: 29 (1957).

Important State laws affecting industrial labour: Bihar Maternity Benefit Act, 1947; Bihar Workmen's Protection Act, 1948.

Number of registered trade unions (upto October 1958): 558.

Total membership of trade unions: 2,91,945 (1955-56).

Total amount of maternity benefits given to women workers during 1957: Rs. 78,648-53 nP.

Total amount of compensation paid in 164 fatal cases in 1957: Rs. 3,15,413-20 nP.; in 313 permanent disablement cases: Rs. 1,74,820-05 nP. Compensation paid to temporary employees for injuries in 1957: Rs. 2,44,772-65 nP.

Number of temporary disabled persons: 6,058.

Number of labour welfare centres: 41 (including six model State welfare centres) (1957-58).

Under the Second Five-Year Plan, the State Government have been implementing the Subsidised Industrial Housing Scheme by constructing 4,371 tenements at an estimated cost of Rs. 170 lakhs. The projects are distributed as follows:—

1. Katihar (Purnea—Jute Mill etc.) 200 tenements Rs. 7½ lakhs.

2. Jamshedpur—1,140 tenements: Rs. 44 lakhs.

3. Adityapur (Jamshedpur) 2,012 tenements: Rs. 77-88 lakhs.

4. Mugma (Dhanbad) 100 tenements Rs. 3,57,000.

5. Kumar Dhubi (Dhanbad) 575 tenements: Rs. 21,17,500.

6. The details of the remaining projects are being worked out.

The work on the Katihar Project is in full swing while that at Jamshedpur has begun. The other schemes are to start soon.

EDUCATION (1954-57)

On March 31, 1957 there were 29,685 primary schools with 49,217 teachers and 16,53,992 pupils. The State Government provide free education upto class V i.e. upto the primary stage. Free and compulsory primary education continued to be imparted in 16 towns in urban areas and in 19 villages in the rural areas. Compulsion is in respect of boys only of the age-group 6-10.

The percentage of pupils of the age-group 6-11 would be about 30 in 1956-57. Age group 11-14: 14 per cent.

There were 3,379 Middle and Senior Basic Schools with 18,444 teachers and 4,37,858 pupils. The number of High and Post-Basic Schools stood at 1,053 with 12,015 teachers, and 3,03,133 pupils. There were 7 Nursery Schools imparting pre-primary or pre-basic education with 18 teachers and 383 pupils on roll.

Since its inception in 1938, the scheme of Basic education has made rapid strides. There are 21 Post-Basic schools, 619 Senior Basic schools, 1,657 Junior Basic schools, 62 Junior and Senior Training schools and 3 Basic Training colleges. The Rural Institute of Higher Studies continued to impart higher rural education at the University stage to pupils completing the post-basic stage.

There are two universities, namely (1) the Patna University, a purely teaching university, its jurisdiction comprising the area of the Patna Municipal Corporation and (2) the Bihar University, a teaching-cum-affiliating university for the rest of Bihar having its present headquarters at Patna.

The control over High Schools is exercised through the Board of Secondary Education which accords recognition to schools and also distributes the grants sanctioned by Government.

The conduct of the Secondary School Examination (the final public examination after the completion of secondary stage) as a qualifying examination for admission to the collegiate course, is in the hands of an independent body, namely the Bihar Secondary School Examination Board.

Students are taught through their mother-tongue upto Class VII. Hindi is the medium of instruction from class VIII to XI. Teaching of Hindi as compulsory subject begins from Class IV. From January 1959, English may be taught as an optional subject from Class VII.

The percentage of literacy in the State as a whole is 12-23.

(For more details like number of institutions, etc. see the main article on Education).

BUDGET 1958-59

See under 'Late Particulars'.

DISTRICTS

Area : 190,641.*

Population : 48,264,622.*

Capital : Bombay.

Districts : The districts given below are grouped according to the six Administrative Divisions into which the State is broken up. The District headquarters are given in brackets after the name of the District :

Ahmedabad Division (Ahmedabad) : Ahmedabad (Ahmedabad), Banaskantha (Palanpur), Baroda (Baroda), Broach (Broach), Kaira (Kaira, Nadiad), Mehsana (Mehsana), Panch Mahals (Godhra), Babarkantha (Himmatnagar).

Aurangabad Division (Aurangabad) : Aurangabad (Aurangabad), Bhilr (Bhilr), East Khandesh (Jalgaon), Nanded (Nanded), Osmanabad (Osmanabad), Farbhani (Farbhani).

Bombay Division (Mulund, Bombay) : Danga (Ahwa), Greater Bombay (Bombay), Kolaba (Alibag), Nasik (Nasik), Ratnagiri (Ratnagiri), Surat (Surat), Thana (Thana), West Khandesh (Dhulia).

Nagpur Division (Nagpur) : Akola (Akola), Amaravati (Amaravati), Bhandara (Bhandara), Buldana (Buldana), Chanda (Chanda), Nagpur (Nagpur), Wardha (Wardha), Yeotmal (Yeotmal).

Poona Division (Poona) : Ahmednagar (Ahmednagar), Kolhapur (Kolhapur), Poona (Poona), Satara North (Satara), Satara South (Sangli), Sholapur (Sholapur).

Rajkot Division (Rajkot) : Amreli (Amreli), Gohilwad (Palitana), Halar (Jamnagar), Kutch (Rhuji), Madhya Saurashtra (Rajkot), Sorath (Junagadh), Zala (Surenhranagar).

The five constituent units of the new Bombay State are Kutch, Saurashtra, Marathwada (roughly the Marathi-speaking Districts of the former Hyderabad), Vidarbha (roughly the Marathi-speaking Districts of the former Madhya Pradesh) and the residuary Bombay State (that is, the former Bombay State bereft of the Karnatak Districts).

The area and the population (in thousands) of these constituent units are given below :

Kutch : 16,724 sq. miles ; 568,000. Saurashtra : 21,451 sq. miles ; 4,187,000. Bombay (residuary) : 90,123 sq. miles ; 30,768,000. Marathwada : 25,694 sq. miles ; 5,185,000. Vidarbha : 36,880 sq. miles ; 7,607,000.

Some other census relating to Bombay State :

Density : 15 per cent ; Rural population : 72.1 per cent ; Urban population : 27.9 per cent ; Agricultural population : 62.5 per cent.

Area under cultivation : 55 per cent of the total area ; Per capita area under cultivation : 1.38 acres ; Area under food crops : 68.2 per cent of the total cultivated area ; Area irrigated : 5.6 per cent of the total cultivated area ; Area under forests : 14.5 per cent of the total area of the State.

Bombay State now bulks larger in the size and economy of the country than before 1st Nov. 1956.

The area is 15 per cent of that of the Indian Union and the population 13.4 per cent.

The value of its annual textile production is about 70 per cent of that of the country and the number of persons employed in the industry 67 per cent of the number employed in the country as a whole.

It has 27.7 per cent of the area in India under ground nut, and 50 per cent of the area in India under cotton.

INDUSTRIAL PRODUCTION—1957 & 1958

Name of Industry	Unit	1957	1958 (Estimates)	Percentage of Bombay State to All India (1958)
Cotton Yarn millmade	..	907	832	49.7
Cotton cloth millmade	..	3,585	3,321	67.3
Vanaspati	..	112.02	105.96	34.5
Soda Ash	..	91,925	83,524	100.00
Caustic Soda	..	8,617	12,560	26.9
Sulphuric Acid	..	49.20	49.71	22.8
Power Driven Pumps	..	31	38	50.7
Glassware (excluding scientific ware and thermos flasks)	..	31.83	38.43	27.5
Sugar†	..	240	319	16.1
Bicycles	..	164.37	152.24	16.3
Cement	..	912	905	14.2
Salt	..	578	732	64.5

* Estimates. † Figures relate to crop season, Oct. to Nov. 1956-57 and 1957-58.

OTHER INDUSTRIES

Names of industries in Bombay State other than those given in the above table, showing the production of each industry for the year 1957 : Woollen fabric : 25,78,000 yds ; Liquid Chlorine : 22,58,000 tons ; Rectified Spirit : 10,88,000 gallons ; Denatured Spirit : 5,54,000 gallons ; Power Alcohol : 2,70,000 gallons ; Glycerine refined : 2,867 tons ; Glue : 8,376 cwt. ; Liver Extract injectible : 2,44,13,000 c.c. ; Liver Extract oral : 2,15,000 lbs. ; Plastic P.F. moulding power : 26,32,000 lbs. ; Copper sheets and circles : 2,507 tons ; Brass sheets and circles :

7,789 tons ; Oil pressure lamps : 38,400 ; Diesel engines : 15,945 ; Electrical conduit pipes : 23,02,500 ft. ; Rubber and plastic inflated and flexible cables : 95,02,000 yds. ; Electric lamps : 29,11,000 ; Electric fans : 77,000 ; Storage batteries : 89,000 ; Electric motors : 1,47,000 H.P. ; Power transformers : 5,11,000 K.V.A. ; Radio receivers : 72,323 ; Cars and trucks : 15,024.

In 1957 there were 21 sugar factories (9 co-operative). They crushed 2,800,000 tons of cane to produce 319,000 tons of sugar.

The State produces Ambar Khadi valued at Rs. 19 lakhs (Saurashtra Rs. 16 lakhs).

MINERAL PRODUCTION

Name of Mineral	Units of Quantity	1957	
		Quantity	Value (Rs. 000)
Asbestos	..	—	—
Bauxite	..	11,104	93
Calcite	..	1,076	11
China Clay	..	23,857	431
Coal	..	624	12,276
Fine Clay	..	3,042*	—
Iron Ore	..	1,21,589	1,090
Lime Stone	..	6,17,480	2,564
Manganese Ore	..	3,73,098	50,419
Ochre	..	—	—
Salt	..	21,82,370	55,266

* Figure for 1956.

Iron ore deposits have been discovered in Ratnagiri District over 100 square miles.

* Note that there is a small difference in the figures relating to area and population as published by the Government of India and the Government of Bombay. These are the Bombay Government figures.

Of the manganese ore produced in India 21.1 per cent would be mined in this State.

The installed capacity of electrical energy in the new State is about 27.7 per cent of the installed capacity of the country as a whole, and the amount of electricity generated about 39.8 per cent.

The number of motor vehicles is 26.2 per cent of the country as a whole.

The State has 22.6 per cent of the total Indian student population.

POLITICAL SET-UP

The State has 43 Districts. All the Districts are territorially compact except two—Amreli and Nanded. Amreli is broken up into eight parts separate from one another all in the Kathiawad peninsula, while Nanded has Rajura and Kinwat Talukas (former Hyderabad State) which is separated from the main body of the District by Yeotmal.

Each of the six Administrative Divisions has a Divisional Commissioner.

The State is a member of the Western Zonal Council, the other member of which is Mysore.

The Bombay Secretariat has eleven Departments:

The Political and Services Department, Home Department, Revenue Department, Agriculture and Forests Department, Education Department, Local Self Government & Public Health Department, Finance Department, Public Works Department, Legal Department, Industries & Co-operation Department, Labour & Social Welfare Department.

The total number of officers in the I.A.S. Cadre has been tentatively fixed at 219 and of the I.P.S. at 144.

The strength of the Legislative Assembly is 397 (306 elected and one nominated from the Anglo-Indian community), and of the Council 108. The State sends 66 members to the Lok Sabha and 27 to the Rajya Sabha.

DEVELOPMENT

Eleven special funds amounting to Rs. 14 crores are to be constituted for the development activities of the State.

This constitutes a new orientation of the financial policy of the Government and marks a change from orthodox finance to welfare finance.

The funds set up from the State's accumulated reserves would be utilised for creating more physical assets, wealth and amenities so that the standard of living of the people, particularly in rural areas, might be raised.

The funds will be utilised for specific purposes. A high-level committee will lay down the general lines of policy for the guidance of the various departments according to which expenditure from the funds will be incurred.

A water supply fund of Rs. 3,00,00,000 will be utilised for financing water supply schemes in villages and small municipal towns. Another fund of Rs. 50,00,000 will be used for providing relief to those who are affected by natural calamities, apart from famine.

Long-term loans will be given to municipalities, district local boards and village panchayats from a fund of Rs. 50,00,000 for making available amenities such as playgrounds, parks, gardens and theatres.

A sum of Rs. 2,00,00,000 will be set aside for a fund for the construction of hostels for students, quarters for teaching staff and school and college buildings. The construction of residential quarters for nurses, midwives, school-mistresses and women social workers in rural and semi-urban areas will be undertaken from a fund of Rs. 1,00,00,000.

A housing fund with Rs. 2,00,00,000 will provide co-operative housing societies, municipalities or local boards with loans for encouraging building activities.

Another fund of Rs. 1,50,00,000 will be utilised for granting long-term loans for the development of the economically backward areas of the State. Fishery co-operatives will benefit from a Fisheries Development Fund of Rs. 50,00,000.

JOINT STOCK COMPANIES

The number of Joint Stock Companies in Bombay State, their authorized capital and paid-up capital respectively as on March 31, 1958. The figures in brackets show the percentage to the

All-India figures: Rs. 5,515 crores (19.10); N.A.; Rs. 442.5 crores (38.12).

The position about different categories of Joint Stock Companies for the year 1958 is shown in the following table:

Category	No. of coys.	CAPITAL	
		Authorised	Paid up
		Rs.	Rs.
Agriculture and allied activities	112	5,69,825	1,63,064
Mining and quarrying	93	9,98,183	4,09,739
Processing and Manufacture foodstuffs, Textiles, leather and products thereof	693	1,83,90,380	93,93,444
Processing and Manufacture metal chemicals and products thereof	989	1,47,36,758	56,15,277
Processing and manufacture not elsewhere classified	578	1,09,13,423	44,65,098
Constructions and utilities	170	64,58,629	30,57,536
Commerce (Trade and Finance)	2,182	1,94,29,054	87,91,965
Transport and Communications and Storage	177	1,03,65,801	26,83,135
Community and Business Services	166	8,52,923	3,15,588
Personal and other services	310	20,02,885	5,05,792
Total for the State	5,870	8,47,15,361	3,54,00,638

Agricultural Production

CEREALS AND PULSES

(Figs. '00 tons.)

Year	Rice	Wheat	Jowar	Bajri	All cereals
1956-57*	15,731	5,970	30,877	8,445	67,930
1957-58 (Final forecast)	13,678	5,081	32,756	10,171	67,231
1958-59 (tentative estimates)	15,163	N.A.	N.A.	11,064	N.A.

Year	Tur	Gram	All Pulses	Cereals and Pulses
1956-57*	4,358	2,297	12,035	79,965
1957-58 (Final forecast estimate)	3,629	1,641	9,423	76,654

* Provisional.

End of First Plan : 73.28 lakh tons foodgrains ; Second Plan target : 88.51 lakh tons.

The annual deficit of foodgrains is about 10 lakh tons.

COTTON AND GROUNDNUT

Year	Cotton (in bales of 392 lbs. each)	Groundnut (in 00 tons)
1956-57	22,108	14,043
1957-58 (F. F. Estimates)	21,303	12,646
1958-59 (Tentative Estimates)	25,907	13,994

SUGARCANE AND TOBACCO

Year	Sugarcane (in gur) (in 00 tons)	Tobacco (in 00 tons)
1956-57*	7,402	693
1957-58 (F. F. Estimates)	7,685	510

* Provisional.

Three endowment funds, each amounting to Rs. 1,00,00,000, will finance research schemes in the medical scientific, industrial and agricultural spheres.

In agriculture, there are various schemes to be undertaken for improvising methods of cultivation and for providing new facilities to agriculturists and students of agriculture.

Starting of slum clearance schemes, youth employment services, audio-visual education, sheltered workshops for the handicapped, labour welfare centres where there are none at present, new homes for beggars, are all among the miscellaneous schemes included for implementation in the 1959-60.

Other schemes are the establishment of a theatre-cum-museum for children, extension of cashewnut cultivation, of co-operative fisheries, milk supply schemes in Rajkot and Baroda, purchase of milk-bar equipment, development of national parks, holiday resorts and hot springs.

On irrigation works an amount of nearly Rs. 23 crores is proposed to be spent. Some of the important ones include Purna, Mahi Canal, Kakrapar, Khadakvasla, Girna River, Shetrunji, Ukai, Ghod and other projects.

SMALL-SAVINGS SCHEME

The position for the State is as follows:
1957-58 : Target : Rs. 26 crores ; Achievement : Rs. 14.62 crores.

1958-59 : Target : Rs. 26 crores ; Achievement : Rs. 21.63 crores.

1959-60 : Target : Rs. 26 crores.

The District-wise figures are given below:
The physical achievement is in Rs. lakhs. The second figure shows the percentage of performance in relation to the target set. The figures are for 1958-59.

Bhir	20,28,050	253.5
Babarkantha	34,54,533	230

Zalawad	6,63,036	44
Halar	11,99,574	42.8
Gohilwad	16,68,044	41.5

IRRIGATION

The general position is as follows :—

1. Area under irrigation at the end of First Plan : 32.72 lakh acres.
2. Second Plan target : 8.80 lakh acres.
3. Second Plan allotment : Rs. 92.60 crores.
4. Amount spent : Rs. 47.72 crores.
5. Area under irrigation at present : 36.94 acres.

(For details see p. 376).

EDUCATION

Year	Primary	Secondary	Higher	Others*	Total	Percentage

PUBLIC HEALTH

Item	1957	1958 (Estimates)
No. of hospitals and dispensaries	1,750	1,760
No. of indoor patients treated—		
Males	3,02,757	3,63,308
Females	3,04,856	3,65,587
Children	1,37,866	1,65,439
Total	7,45,279	8,94,334
No. of outdoor patients treated—		
Males	68,14,777	81,77,732
Females	60,28,072	72,83,686
Children	65,59,136	78,70,963
Total	19,401,985	2,32,82,381

No. of leprosy patients : about 1,80,000.

Christian Mission hospitals : 41 ; dispensaries 10.

Figures for the following items are for the year 1956 :

No. of Staff : Medical Officers 2,809 ; Midwives 493 ; Nurses 1,757 ; Dais 255 ; Compounders 1,322.

No. of beds : Male 10,018 ; Female 8,683.

No. of Surgical operations. Operations performed 54,946.

CO-OPERATION—1957-58

Types of Societies	No. of Societies	No. of members (Thousands)	Working Capital (000 Rs.)	Advances (000 Rs.)
Agricultural	23,224	21.85	76,63.91	87,20.44
Non-Agricultural	8,394	17.38	88,73.77	37,82.92
Land Mortgage Banks	26	52	1,86.84	1,84.62†
Central Banks	63	219	85,57.72	199,73.37

Population covered by co-operative movement in 1957-58 : 2,07,20,000 (Estimates).

Percentage of population covered to total population during 1957-58 : 38.47 (Estimates).

* This figure is now exclusive of the Agricultural Societies like Consumers and Housing Societies working in the rural areas as these Societies are now grouped under Non-Agricultural Societies under the revised criteria for classification of societies as prescribed by the Reserve Bank of India.

† Figure is regarding loan due.

COMMUNITY PROJECTS

Year	No. of Blocks of CPA Pattern	No. of Villages covered	Population covered (in 000)

Percentage of people covered by the co-operative movement: 38; Percentage of villages covered: 81.

No. of villages that have panchayats: about 19,000; Percentage of villages: 70.

ROAD TRANSPORT

Passenger road transport is nationalised. Goods transport operations are not nationalised, but are carried on in competition with private operators, on an experimental basis.

The table below shows the position of the transport bodies at a glance, as revised in the budget estimates for 1958-59.

	No. of passengers carried (in '000)	Capital invested (Rs. in lakhs)	Total gross revenue (Rs. in lakhs)	Total expenditure (Rs. in lakhs)
Bombay State Road Transport Corporation	20,86.84	1,277.13	1,256.51	1,193.55
Saurashtra State Road Transport Corporation	1,43.22	104.00	107.13	105.18
Kutch State Road Transport Corporation	19.43	32.71	21.00	23.03
Provincial State Service, Nagpur	1,45.80	73.40	88.10	79.60
State Transport, Marathwada	1,08.79	63.18†	87.45	64.16
Total	25,04.08	1,550.40	1,560.19	1,465.47

Note :—The figures in all columns except those of Bombay State Road Transport Corporation are budgeted figures. † Excluding the value of capital invested by the former Govt. of Hyderabad as the value of assets transferred is still to be finalised.

More details are available for 1957-58. These are given below.

STATE TRANSPORT

The Bombay State Road Transport Corporation was constituted under the provisions of the Road Transport Corporation Act, 1950.

The data given below relate to Bombay State excluding the merged areas (Vidarbha, Marathwada, Kutch and Saurashtra) and covers the period from April 1957 to March 1958.

Position as on 31st March 1958 :

Capital invested in the Corporation :	
State Government ..	Rs. 803.25 lakhs
Government of India ..	Rs. 406.65 lakhs
No. of passenger vehicles owned by the Corporation ..	2,837
No. of goods vehicles owned by the Corporation ..	656
No. of nationalised City Bus Services ..	Three (Baroda, Surat and Kolhapur)
No. of municipalised city bus services ..	Four (Bombay, Poona, Ahmedabad and Sholapur)

Rate per passenger mile after nationalisation ..	Nine pies
Total No. of routes operated ..	2,117
Route mileage operated ..	54,481
No. of persons employed ..	19,383

The Corporation has two major workshops for major overhauls, 13 Divisional Workshops for running repairs and servicing, and 123 depot and sub-depot workshops for maintenance of vehicles. The central workshop is at Dapodi, the regional workshop is at Ahmedabad, the divisional workshops are at the divisional headquarters of the 13 S.T. divisions and the depot and sub-depot workshops are at the various operating points spread over the entire residual State.

Annual results of the year 1957-58 :	
Total bus miles operated ..	7,06,71,188
Total number of passengers carried by the Corporation ..	18,44,31,617
Total revenue expenses of the Corporation for 1957-58 ..	Rs. 10,14,00,685
Total revenue for 1957-58 ..	Rs. 11,14,86,189
Cost of staff per bus mile (in nP) ..	34.16
Expenses per bus mile (in nP) ..	136.21

The Corporation provides comfortable buses, long distance express services for the convenience of long distance passengers, well-equipped bus stations at important places with all modern facilities, adequate services to meet the normal traffic demands, and special services for fairs and other special occasions.

Passenger amenities provided by the Corporation as on 31st March 1958 : Booking Offices 179; Bus Stations 146; Passenger Stands 120; Canteens 145; Lavatories 165; Water Arrangements 193; Waiting Rooms 135.

MERGED AREA

The information given below covers the period from April 1957 to March 1958 for the 4 nationalised road transport undertakings in Saurashtra, Vidharbha, Marathwada and Kutch.

The nationalised transport services in these areas are directed and co-ordinated by a department of the Government of Bombay, under the Motor Transport Controller, known as the Transferred Road Transport Undertakings' Department.

The names of the Transport Authorities are :

- (a) Saurashtra : Saurashtra State Road Transport Corporation, Rajkot.
- (b) Kutch : Kutch State Road Transport Corporation, Bhuj.

These Corporations are constituted under the provisions of the Road Transport Corporation Act, 1950.

Passenger Road Transport is almost completely nationalised in Kutch with 59 routes under operation.

In Saurashtra, however, passenger services are partially nationalised, and only 212 routes have been taken over.

- (c) Vidarbha : Provincial Transport Services, Nagpur.

Government has constituted a Board to manage the operations of the Provincial Transport Services under the supervision of a High Power Committee. 81 routes have been taken over in the districts of Nagpur, Wardha, Yeotmal, Amravati and Bhandara. Of these 81 routes, 17 are city service routes operated in Nagpur City.

- (d) Marathwada : State Transport (Marathwada), Aurangabad.

The State Transport (Marathwada) undertaking is run departmentally under the supervision of a High Power Committee constituted by the Government of Bombay, and operates 85 routes including two city services.

Position as on 31-3-1958 :

(a) Total capital investment in the units :	
Contribution by State Government ..	Rs. 201.44 lakhs
Contribution by Central Government ..	Rs. 44.60 ..
Total ..	246.04 ..

The Central Government has contributed towards capital only in the case of the Saurashtra and Kutch Corporations and the Provincial Transport Services, Nagpur, while the entire capital for Marathwada which is a Government department, is contributed by the State Government alone.

- (b) Total no. of passenger vehicles owned by the 4 units .. 721
- (c) Total no. of trucks owned by the 4 units .. 21
- (d) Total no. of nationalised city bus services .. 4 (at Nagpur, Aurangabad, Nanded, and Rajkot).
- (e) Total no. of routes operated as on 31st March 1958 .. 410 (Rural) ; 27 (City).
- (f) Route mileage operated as on 31st March 1958 .. 15,896
- (g) No. of persons employed .. 4,335

Rate and fare structure :

The rate per passenger per mile charged in the 4 units is as under :—

- (a) Saurashtra : At 9 pies per passenger per mile on a mileage system. Minimum fare charged is one anna.

- (b) Kutch : At 12 pies per passenger per mile for lower class services and at 18 pies for upper class accommodation on a mileage system. Minimum fare charged is 2 annas.

- (c) Vidarbha : At a telescopic rate of 7.5 pies to 5 pies per passenger per mile with a surcharge on fares of 1 anna per rupee or part thereof and two annas per rupee or part thereof on fares in excess of one rupee. Minimum fare charged is 2 annas.

- (d) Marathwada : At 10.28 pies per passenger per mile or 3½ annas per stage of 4 miles or part thereof. Minimum fare charged is 3½ annas.

Under the Saurashtra State Road Transport Corporation there are two workshops, one each at Rajkot and Junagadh, while under the Kutch State Road Transport Corporation there is a workshop at Bhuj.

As regards the Provincial Transport Services, Nagpur, the Central Workshop is situated at Nagpur, while in the case of State Transport (Marathwada) the workshop at Aurangabad carries out major repairs as well as day-to-day maintenance.

Operational results of the period from April 1957 to March 1958 :

(a) Total No. of passengers carried by the buses in the 4 transport units ..	397.30 lakhs
(b) Total revenue from April 1957 to March 1958 ..	Rs. 264.29 lakhs
(c) Total gross mileage operated ..	202.80 lakhs
(d) Cost of staff per bus mile ..	26.1 nP.
(e) Expenses per bus mile ..	96.3 nP.

Amenities :

Comfortable buses are provided and regular bus services are operated in all the 4 units. For the convenience of long distance travellers express services are operated. At all important places, well-equipped bus stations with all modern facilities have been provided.

Way-side stands at traffic centres for en route passengers have also been provided at important places.

Adequate arrangements for the supply of extra buses have also been made to meet the traffic demand and special services are also run for fairs and on other special occasions.

Passenger amenities provided in the 4 units :

Total no. of Depots 33; Booking Offices 72; Bus Stands 28; Sheds 58; Canteens 25; Lavatories 55; Water Arrangements 68; Waiting Rooms 35.

ELECTRIC POWER DEVELOPMENT

The following table shows the position of electric power development in Bombay State :

(in million K.W.H.)

Year	Electricity generated	Electricity consumed			Public Lighting	Other purposes	Total consumption	No. of concerns
		Domestic	Commercial	Industrial				
1957	3,313.84	226.30	171.28	2,371.68	24.83	83.97	2,878.06	205
1958*	3,534.44	233.12	173.54	2,469.81	27.03	93.61	2,997.11	—

* Estimates based on 10 months average.

Note :—For regionwise figures see table No. 13.

TATA PROJECTS

The greatest hydro-electric undertakings in the State are the three schemes developed and brought into operation by Tata Sons, Ltd., and continued under their management until 1929, when they were transferred to the management of the Tata Hydro-Electric Agencies, Ltd., in which Messrs. Tata Sons retain a majority interest. These undertakings are :—

- The Tata Hydro-Electric Power Supply Company, Ltd. Supply started in 1918.
- The Andhra Valley Power Supply Company, Ltd. Supply started in 1922.
- The Tata Power Company, Ltd. Supply started in 1927.

The three Hydro-Electric Companies are interconnected with the 118 MW Chola Steam Station of the Central Railway, Electricity Board's 54 MW Steam Station also at Chola under the same roof as the Railways; together they are operated as a Hydro-Thermal system under the co-ordinated control of the Hydro Companies.

The three Hydro Companies have constructed a modern Steam Thermal Station of 125 MW capacity at Trombay which is also interconnected to the system.

This station which consists at present of two 62,500 kW units was opened on 15th Dec. 1956. A third unit of the same capacity is under construction. (For details see below.)

The Tata Hydro-Electric System serves an area in the State of Bombay of more than 800 square miles.

It is the largest power system in the country having a fixed capital expenditure in excess of Rs. 30 crores and an annual output representing more than one-sixth of the total electricity production.

Electric service is rendered to the textile mills and other industries of Bombay and the suburban areas, to local authorities, and, in bulk for retail distribution, to the electrical undertakings supplying Greater Bombay, Poona and ten other localities within the area.

The transmission network of the system consists of 573 circuit miles of 100,000-volt overhead lines and 9.5 miles of 100 KV gas filled underground cables and the distribution network of 134 circuit miles of 22,000-volt overhead as well as 113 miles of 22,000-volt and 126 miles of 6,600-volt underground cables.

Substantial additions to the transmission and distribution network are expected to be made during the next few years.

The interconnected transmission lines of the Railway add another 272 circuit miles to form the combined Tata Hydro-Railway Grid.

The second unit at Trombay was commissioned into service in April 1957 bringing the total installed capacity of the Tata Electric System to 399 KW.

A new Receiving Station at Carnac Bunder having an installed transformer capacity of 160 MVA was also brought into service in April 1957. This Receiving Station, which is feeding Southern Bombay, has greatly facilitated distribution of power in this area.

During the 12 months of 1957-58 (April to March) the system demand was 388.8 MW.

The sales by Tatas during the period was 1,626 million units and the purchase of Thermal Energy to supplement Hydro during the year was 212 million units.

Information for the Calendar year 1958: Total installed capacity of Tata-Rly. interconnected system: 513 MW. Total production of the system: 2,288 million kWh. Total Sales to Tata consumers: 1,709 million units. Total number of Tata consumers: 162.

Khopoli.—The hydraulic works of the Tata Hydro-Electric Power Supply Company are situated near Lonavla at the top of the Bhore Ghat. The monsoon rainfall is stored in three lakes, namely Lonavla, Walwan and Shikrawta, from which it is conveyed in open masonry canals to the Forebay at Khandala and thence through steel pipes to the Power House at Khopoli at the foot of the Ghats, where the head at turbine nozzles is 1,726 feet or approximately 750 lb. per sq. inch. The capacity of the Power Station at Khopoli is 70,000 kW.

This scheme was formally opened by the Governor of Bombay on the 8th of February 1915.

Bhivpuri.—Investigations in 1917-18 led to the discovery of a site on the Andhra River just to the north of the Tata Hydro-Electric Supply Company's lake, where additional power could be developed.

These investigations resulted in the formation of the Andhra Valley Power Supply Co. and the construction of the schemes, the principal features of which consist of a reservoir formed by a dam about 190 feet high, across the Andhra River and a tunnel 8,700 feet long driven through solid trap rock to the scarp of the Ghats, from which the water is taken in steel pipes 4,600 feet long to the turbines in the generating station at Bhivpuri. The head of water at turbine nozzles is 1,743 feet or approximately 750 lb. per sq. inch.

The electrical energy is transmitted to Bombay over a transmission line 57.5 miles long for augmenting the supply from Khopoli.

The present capacity of this station is 72,000 kW.

Shira.—The Tata Power Company's scheme on the Nila-Mula River to the south-east of Bombay was investigated and developed along lines similar to the Andhra Valley scheme and has an installed capacity of 132,000 kW.

The power is transmitted to Bombay over a transmission line 76 miles long and is used to augment the supply of the two earlier companies to mills, factories and railways.

The Trombay Thermal Power Station, the most modern of its kind in India, is situated on a 132-acre land on the south shore of Trombay Island, about seven miles north-east of Bombay. The station consists, at present, of two 62,500 kW units, and the layout permits expansion to an ultimate of four such units. A third unit of the same capacity is under construction and is expected to be completed by mid 1960.

The plant is of semi-outdoor type, designed on the unit system basis with one boiler and one turbine per unit. The radiant type, water tube boilers at Trombay are designed to burn refinery waste gas, oil, and low-grade coal, and each of them is capable of generating steam at a rate of 600,000 lbs./hr at 1,325 psig and 955° F. The steam from the boiler will be delivered at 1,250 psig and 950° F to a 22 stage, twin cylinder, impulse turbine, which exhausts the steam into a single shell two pass condenser at 2½" Hg absolute. The steam in the condenser is cooled by means of sea water pumped from Bombay harbour through a 4,066 ft. long 72" diameter steel pipe which projects approximately 2,000 ft. into the sea from the low water line. The condensed steam is fed back to boiler at 410° F after passing through 5 feed-water heaters.

Each turbine drives a hydrogen cooled 13.8 KV, 50,000/62,500 KVA generator, which is connected to the transmission grid through a 80,000 KVA, 13.8/100 KV transformer.

The station was opened on 15th Dec. 1956.

ELECTRICITY BOARD SCHEMES

The original Bombay State Electricity Board for the pre-reorganization Bombay State was reconstituted on 1st February 1957, and the new Board has now taken over the assets and liabilities of all the State Electricity schemes in the merged areas.

Members of the Board: U. N. Mahida (Chairman), P. C. Hanotia, J. K. Modi, P. H. Bhutta, K. C. Patel, G. L. Natu.

The Board, with a view to improving its administrative efficiency decentralised its functions at the head office by creating two full-fledged zonal offices, in charge of a Joint Chief Engineer; one at Nagpur and the other at Ahmedabad. The two new zones thus constituted were named as East Zone with head office at Nagpur and North Zone with headquarter at Ahmedabad. The East Zone comprises areas of Vidarbha, Marathwada, and Khandesh, while the North Zone comprises areas of Gujarat, Saurashtra and Kutch.

The Divisions in Maharashtra area not covered by the aforesaid zones, such as Kolhapur and Talegaon, are under S.E. (M) Circle with H.Q. at Kolhapur, who works directly under the C.E.

Position as on 31st March 1958 :

Total installed capacity ..	1,27,748 kW.
Steam ..	89,000
Hydro ..	5,824
Diesel ..	32,919.
Total number of towns and villages supplied with electricity ..	751
Total length of Transmission lines above 11 KV in circuit miles ..	3,772
Total number of consumers ..	1,24,805
Total production ..	about 724.46 million units during 1957-58.
Total sale ..	about 616.2 million units.
Total expenditure on Electricity Schemes upto 31st March 1958 ..	Rs. 2,876.85 lakhs (approx.).
Amount spent in 1957-58 on Electricity Schemes ..	Rs. 576.85 lakhs.
Working expenditure for the year ending 31st March 1958 ..	Rs. 402.60 lakhs.
Total estimated cost of the Schemes under the Second Five Year Plan ..	Rs. 3,300 lakhs.
Total estimated Foreign Exchange component required during the period ..	Rs. 1,385 lakhs.
Estimated Capital Expenditure for 1958-59 ..	Rs. 873.86 lakhs.

As a result of the intensive work carried out by the Bombay State Electricity Board the per capita consumption of electricity contributed by the Board is expected to be 25 kWh at the end of the Second Plan as against 12 kWh at the end of the First Plan.

The names of the more outstanding projects with the present installed capacity of each :—

North Gujarat Electric Grid Scheme ..	22,500 kW. (contracted power with M/s. A. E. Co.)
South Gujarat Electric Grid Scheme ..	22,500 kW.
R.H.E.-cum-F.I. Scheme ..	6,700 kW.
Bhatgar Hydro Electric Scheme.	1,024 kW.
Khaperkheda Thermal Scheme.	30,000 kW.
Ballarshah Power House ..	22,500 kW.
Shahpur Thermal Station ..	6,000 kW.
Rajkot Diesel Station ..	0,142 kW.
Sikka P.H. ..	8,000 kW.

The capital assets of the Board stood at about Rs. 36 crores on 31st March 1958.

Power Projects

Statement showing particulars about power projects in operation in Bombay State as on March 31, 1958.

North Gujarat Electric Grid Scheme : The Scheme makes bulk purchase from Ahmedabad Electricity Company. Purchased 136.3 million kWh and sold 120.50 million kWh. during 1957-58. No. of consumers : 15,717. Length of transmission lines : 11KV and above 887.62 miles.

South Gujarat Electric Grid Scheme : This has a power house at Utran. Existing capacity : 22,500 KW. No. of units generated during 1957-58 : 91.83 million KWh. No. of units sold during the same period : 80.14 million KWh. No. of consumers : 4,740. Length of transmission lines : 264.74 miles. Capacity under erection : 45,000 KW. Expected total capacity by end of 2nd Plan : 67,500 KW.

A new generator at Utran brought an additional capacity of 15,000 kW.

Radhanagari-cum-E. I. Scheme : This has three power houses. (1) Radhanagari Power House. Existing capacity : 4,800 KW. No. of units generated during 1957-58 : 14.20 million KWh. No. of units sold during 1957-58 : 12.42 million KWh. No. of consumers : 6,344. Length of transmission lines : 207.45 miles. Expected total capacity by end of 2nd Plan : 4,800 KW. (2) Kolhapur Power House. Existing capacity : 1,900 KW. Units generated during 1957-58 : 1.01 million KWh. Capacity under erection 1,390 KW. Of this one 550 KW set has since been installed at Kolhapur Power House. Expected total capacity by end of 2nd Plan : 3,290 KW. (3) Vishrambag Power House. Capacity under erection : 2,100 KW. Expected total capacity by end of 2nd Plan : 2,100 KW.

Bhatgar Scheme : Name of power house? Bhatgar. Existing Capacity : 1,024 KW. Units generated during 1957-58 : 2.65 million KWh. No. of Units sold during 1957-58 : 2.32 million KWh. No. of consumers : 780. Length of transmission lines : 54 miles. Expected total capacity by end of 2nd Plan : 1,024 KW.

Vidarbha Grid Scheme : This has three power houses. (1) Khaperkheda Power House. Existing Capacity : 30,000 KW. Units generated during 1957-58 : 107.80 million KWh. Capacity under erection : 30,000 KW. Expected total capacity by end of 2nd Plan : 60,000 KW.

(2) Ballarshah Power House. Existing capacity : 22,500 KW. Units generated during 1957-58 : 90.72 million KWh. Expected total capacity by end of 2nd Plan : 22,500 KW.

(3) Paras Power House : Capacity under erection : 30,000 KW. Expected total capacity by end of 2nd Plan : 30,000 KW.

Units sold in all the above three power houses during 1957-58 : 154.38 million KWh. No. of consumers : 26,158. Length of transmission lines : 1,861.88.

Shahpur Grid Scheme : This has two power houses. 1) Shahpur Power House. Existing capacity : 6,000 KW. Units generated during 1957-58 : 8.73 million KWh. Units sold during 1957-58 : 5.51 million KWh. No. of consumers : 10,822. Length of transmission lines : 157.69 miles. Expected total capacity by end of 2nd Plan : 6,000 KW.

2) Diesel Power House : Existing capacity : 3,681 KW. Units generated during 1957-58 : 0.45 million KWh. Expected total capacity by end of 2nd Plan : 3,681 KW.

Rajkot Grid Scheme : Rajkot Power House. Existing capacity : 6,142 KW. (AC) and 818 KW (DC). Units generated during 1957-58 : 13.62 million KWh. Units sold during 1957-58 : 9.95 million KWh. No. of consumers : 11,556. Length of transmission lines : 92.75 miles. Expected total capacity by end of 2nd Plan : 6,142 KW. (AC) and 818 KW. (DC).

Eight other diesel power houses. Existing capacity : 950 KW. Units generated during 1957-58 : 0.31 million KWh. Expected total capacity by end of 2nd Plan : 950 KW.

Diesel power houses have however been completely closed down and only Dhoraji and Manuvadar Stations are kept as standby at present.

Jamnagar-Sikka Scheme : There are two power houses. 1) Sikka Power House. Existing capacity : 8,000 KW. Units generated during 1957-58 : 49.97 million KWh. Capacity under erection : 8,000 KW. Expected total capacity by end of 2nd Plan : 16,000 KW.

Jamnagar Power House. Existing capacity : 3,007 KW. Units generated during 1957-58 : 1.53 million KWh. No. of consumers : 9,824. Length of transmission Lines : 35.88 miles. Expected total capacity by end of 2nd Plan : 3,007. After the extension of Sikka Power House, the Jamnagar Diesel Power House will be completely closed down.

Porbandar Scheme : Has one power house, Porbandar Power House. Existing capacity : 1,567 KW. Units generated during 1957-58 : 2.24 million KWh. Units purchased (1957-58) : 0.63 million KWh. Units sold (1957-58) : 2.60 million KWh. No. of consumers : 3,784. Length of transmission Lines : 4.10 miles. Capacity under erection : 15,000 KW. Expected total capacity by end of 2nd Plan : 16,567. 1,567 KW. of diesel capacity will be closed down after commissioning of the Porbandar steam station.

Minor Diesel Schemes unconnected to any Grid : There are 48 such schemes. Existing capacity : 14,399 KW. Units generated during 1957-58 : 13.85 million KWh. Units sold (1957-58) : 11.82 million KWh. No. of consumers : 29,886. Length of transmission Lines : 120.35 miles. Capacity under erection : 3,834 KW. Expected total capacity at the end of 2nd Plan : 18,233 KW. This includes the idle capacity of stations which would have been closed down at the end of the 2nd Plan consequent to their being connected to the grid systems.

Minor schemes based on bulk purchase like Ujjanagar, Pimpri-Talegaon, etc. : Units purchased (1957-58) : 4.12 million KWh. Units sold (1957-58) : 2.63 million KWh. No. of consumers : 5,494. Length of transmission Lines : 85.72 miles.

Kandla Thermal Scheme : Capacity under erection : 6,000 KW. Expected total capacity at the end of 2nd Plan : 6,000 KW.

Total in respect of all the above schemes as on March 31, 1958 : Existing capacity 127,288 KW. This does not include 455 KW of idle capacity at three diesel power houses in the North Gujarat area which have been closed down consequent on grid power being made available to the towns. Units generated (1957-58) : 398.91 million KWh. Units purchased (1957-58) : 141.05 million KWh. Units sold (1957-58) : 448.82 million KWh. No. of consumers : 124,806. Length of transmission Lines : 3,772.18 miles. Capacity under erection : 142,324 KW. Expected total capacity by end of 2nd Plan : 268,612 KW.

NEW CONSTRUCTION

As mentioned a number of these projects are being extended and work is in progress.

North Gujarat Grid : A transmission and distribution scheme started in April 1956 is to be completed in March 1961. The cost of the project is Rs. 234.72 lakhs. Out of this the amount spent so far (March 1959) is about Rs. 107.944 lakhs.

South Gujarat Grid : The Capacity is to be increased to 45,000 KW. Work started in April 1956 and is to be completed in March 1961. The cost of the project is Rs. 435 lakhs. About Rs. 267.24 lakhs have been spent.

Some projects in the residuary parts of the Bombay State are to be completed by March 1961. The total cost is Rs. 462.77 lakhs out of which Rs. 378.111 lakhs have been spent.

In the Vidarbha area the capacity of the Khaperkheda and Paras scheme is to be raised to 60,000 KW. Work started in April 1956 and is to be completed in March 1961. The cost of the project is Rs. 817.24 lakhs. There is also a transmission and distribution scheme for the rural areas. The cost is Rs. 68.40 lakhs.

In the Saurashtra area the Rajkot P.H. is to have a capacity of 3,000 kW and there is also D.C.-A.C. conversion. The scheme costs Rs. 34.80 lakhs and is to be completed in March 1961. The thermal station at Porbandar is to have a capacity of 15,000 KW. The cost is Rs. 225.84 lakhs. Work is to be completed in

March 1961. The Jamnagar-Sikka project will have an installed capacity of 9,000 kW. The cost is Rs. 96.5 lakhs. It is to be completed in March 1961. The Morvi-Wankaner scheme is estimated to cost Rs. 20 lakhs. Work has not started. The Surendranagar scheme is only a transmission scheme. The cost is Rs. 35 lakhs. It is due for completion in March 1961. The Bhavnagar scheme is also a transmission scheme. It will cost Rs. 50 lakhs and is due for completion in March 1961. The Shahpur project is to have a capacity of 10,000 kW. The cost is Rs. 60 lakhs, and is likely to spill over into the Third Plan. The Shahpur grid will have a capacity of 6,000 kW. The cost is Rs. 50 lakhs and is expected to be completed in March 1961. Then there is a group of miscellaneous schemes the total cost of which is Rs. 150 lakhs.

The total amount of money spent on the Saurashtra schemes till March 1959 was Rs. 516.70 lakhs.

In the Kutch area the Central station at Kandla is to have an installed capacity of 6,000 kW. The cost is Rs. 87.25. The scheme is to be completed by March 1961. There are a number of miscellaneous schemes the total cost of which is Rs. 102.40 lakhs and are to be completed by March 1961. Till March 1959 Rs. 93.63 lakhs were spent on them.

In the Marathwad area the rural electrification scheme in Bhir, Osmanabad, Puri, Hingoli and Latur will cost Rs. 16.48 lakhs. These are to be completed by March 1961. Till March 1959, Rs. 15.26 lakhs were spent. The Nanded scheme would have an installed capacity of 1,500 kW. The cost is Rs. 19.39 lakhs. The scheme is to be completed by March 1961. The sum spent till March 1959 was Rs. 6.09 lakhs.

CHOLA, KOYNA

A brief note each on two other power schemes is in order.

To relieve power shortage in the Bombay-Poona area the power house of the Central Railway at Chola was extended by the installation of three units each with an installed capacity of 18,000 kW. The station was sold to the Central Railway on Feb. 1, 1958. The scheme cost Rs. 4 crores and is operated as part of the Tata-Central Railway system.

The Koyna project provides for the use of the waters of the river Koyna—a tributary of the river Krishna—at Deahmukhwadi near Helwak in North Satara, about 150 miles south of Bombay, for the generation of hydro-electric power.

The entire scheme will be completed in three stages, and 4,80,000 kW of electricity ultimately produced.

The first stage involves the construction of a dam, about 208 ft. high with a storage capacity of 36,045 million c. ft., and a tunnel 21 ft. in diameter and 1,200 ft. long, which diverts the water westward to get a drop of about 1,570 ft.

The power house near Pophall will be located underground with a tail race tunnel 7,200 ft. long, discharging into Vasishti river.

In the first stage, four generating sets of 60,000 kW each will be constructed, with a provision for four additional units in the second stage.

A block of 230,000 kW of power will be transmitted to Bombay over a double circuit 220 kV transmission line, and about 10,000 kW to

Sholapur, Vishrambagh, Karad, and Satara Road area over 110, 33 and 11 kV transmission lines. Other places to which power will be supplied are Lonand, Wal, Panchgani, Mahabeshwar, Bhatgar, Pandharpur, and Kirsolkarwadi.

About 60,000 kW of power is expected to be released in 1960. This would be followed by an addition of 60,000 kW every six months to make a total supply of 240,000 kW for the first stage.

The work on the project commenced in January 1954, and has progressed considerably.

The first generating unit is expected to be commissioned after the monsoon in 1961, and the other three units at an interval of 6 months each thereafter.

The total expenditure incurred on the project up to December 1958 is Rs. 11.95 crores, of which Rs. 2.55 crores were spent during the First Plan period.

The first stage of the project will cost approximately Rs. 38.28 crores, including foreign exchange.

The provision for the project in the Second Plan is Rs. 29 crores.

The world Bank has granted a loan of 25 million dollars for the execution of the project. The loan is to be repaid over a period of 25 years starting with May 1965.

There is a separate Board called the Koyna Board which is in charge.

It is calculated that about 26,000 people living in 70 villages would be affected. By the end of Jan. 1959 about 1,500 had been rehabilitated.

HOUSING

BOMBAY HOUSING BOARD

The achievement of the Bombay Housing Board in the Greater Bombay area is given below in a tabular form. The position is as it existed at end of Sept. 1958.

No.	Scheme.	Tenements completed.	Under construction.	Total	Total expdtr. (Rs in lakhs)
1.	(A) Industrial Housing ..	20,860	2,052	22,912	901.49
	(B) Low Income Group Housing.				
1.	New construction of buildings	2,067	—	2,067	138.54
2.	Reconditioned hutments	787	—	787	15.26*
3.	'Own Your Own House' Scheme for Low Income Group	18	100	118	9.28
4.	Rental Housing Scheme for Low Income Group people under Deposit Rental basis	Nil	700	700	19.40
5.	Development of Sites for Low Income Group People on the north of Nala of the Juhu-Vile Parle Development Scheme ..	—	—	—	8.59
	(C) Rehabilitation Housing. Housing for D.P.s. .	25,378	612	25,990	519.92
	(D) Schemes on behalf of Private bodies.				
6.	Burmah-Shell Oil Refineries Ltd.	500	—	500	37.09
7.	Juhu-Vile Parle Development Scheme works of Development on behalf of 18 Co-operative Housing Societies ..	—	—	—	76.35
	Total ..	49,610	3,464	53,074	1,725.92

* 788 (out of 1,575) Military Hutments have since been demolished and the credits accrued have been adjusted accordingly.

Notes are given below about housing projects in Bombay.

In Bombay city itself it might be pointed out there are about 140 slum areas housing nearly half the city's population.

There are about 200,000 single-room tenements which house about 1,200,000 persons.

About 20,000 to 55,000 residential buildings are over 60 years old. About 9,000 of these accommodate as many as 500,000 persons.

The accommodation is enough for about 28-lakh persons. There is thus a shortage of 3 lakh tenements. The minimum cost of building these is about Rs. 180 crores.

The municipal bodies of Bombay, Ahmedabad, Poona, Nagpur, Surat, Ahmednagar, Dhulia and Malegaon have in all sixty-two schemes for slum clearance (See below).

There is a Rural Housing Cell for Bombay State at the State headquarters. It will provide technical guidance to local authorities in drawing up master plans for housing projects.

In Special Multi-purpose Projects—Community Development—National Extension Service Block areas, Collectors and Deputy Commissioners have been given power to advance loans to villagers on certain conditions.

One hundred and eight villages have been selected for the scheme.

The programme for 1960-61 is 19,000 tenements for industrial workers and 1,707 tenements for the low-income groups.

LABOUR AND SOCIAL WELFARE DEPARTMENT

The Government of Bombay undertakes construction of tenements for industrial workers under the Industrial Housing Schemes sponsored by the Government of India.

Till the end of the year 1957-58, the construction of 20,946 tenements costing Rs. 786.59 lakhs had been completed and the construction of 7,241 tenements costing Rs. 278.54 lakhs was under progress.

These tenements were constructed at Bombay, Ahmedabad, Nagpur, Rajkot, Nanded and other industrial centres.

The construction of tenements is undertaken through certain statutory bodies, viz., the Bombay Housing Board, the Saurashtra Housing Board and the Vidarbha Housing Board.

In Marathwada, the construction is departmentally undertaken.

Financial assistance is also given under the scheme to the Cooperative Housing Societies of industrial workers by way of loan and subsidy to the extent of 50 per cent and 25 per cent respectively of the total estimated approved cost. During the financial year 1957-58, Rs. 2,54,440 and Rs. 16,616 were granted as loan and subsidy respectively.

Low Income Group Housing

The scheme is intended to relieve the housing shortage in the case of persons whose total annual income does not exceed Rs. 6,000. The loan is granted upto 70 per cent of the estimated cost of construction of a tenement subject to the maximum limit of Rs. 8,000 at rates varying from 5 to 5½ per cent. per annum. It is repayable by half yearly or annual equated instalments within a period of 10, 20 or 30 years. The person repaying the loan instalments regularly gets a rebate of ½ per cent.

Loans on the abovementioned terms are granted to individuals, Cooperative Housing Societies, local bodies like Municipalities, Panchayats, charitable institutions, etc.

Loans granted to individuals and C. H. Societies are for construction of houses for the residence of the individuals or members of C. H. Societies.

Loans granted to local bodies, charitable institutions, etc. are for construction of houses for the low income group people on rental basis, rent being charged in accordance with the cost of construction, floor area etc., and also for development of land which is to be sold on no profit no loss basis to the Low Income Group people.

Authorities sanctioning the loans under the scheme are the Labour and Social Welfare Dept., Collectors, Registrar of Cooperative Societies, The Bombay Cooperative Housing Finance Society Ltd., Vidarbha Housing Board.

For the purpose of individuals who are not in a position to obtain house building sites and construct houses with loans obtained from the Govt. under this scheme, the Bombay Housing Board has been given a loan to construct houses and sell these houses on a hire-purchase basis.

The Scheme of Low Income Group Housing has recently been modified by the Government of India so that the State Governments are authorized to construct houses for rental purposes on No Profit No Loss basis, and accordingly a programme for the construction of houses in the bigger cities by the Bombay Housing Board has been formulated by the Government and 500 tenements are now under construction.

No. of tenements completed till the end of 1957-58 : 2,930

Land developed : 130 acres.

Total expenditure incurred on the scheme : Rs. 290 lakhs

The details of construction of tenements, shops and school buildings for Displaced Persons are given in under :—

Item.	Completed
Residential tenements in Displaced Persons Colonies	38,613
Shops	2,666
School buildings	15

Slum Clearance Scheme :

Government has decided to participate in the Slum Clearance Scheme of the Government of India, which provides for a Central loan of 50 per cent and a subsidy of 25 per cent, on condition that the State Governments and local bodies concerned bear the balance of the cost as their share of the subsidy.

It is proposed to concentrate first on large industrial cities such as Bombay, Ahmedabad, Poona and Nagpur, where slum conditions are bad.

Projects worth about Rs. 412 lakhs have already been forwarded to the Government of India, and that Government has so far sanctioned schemes worth Rs. 399.67 lakhs.

Proposals from other smaller Municipalities have also been called for and the scheme would be extended to these towns, if sufficient funds are available.

Besides the slum clearance scheme sponsored by the Govt. of India, loans are also given by the State Govt. to local bodies for their slum clearance projects not covered by the above mentioned scheme and also for housing their Harijan employees.

MARATHWADA

Brief notes on industrial housing and low-income group houses in Marathwada are given below.

No. of tenements completed upto the end of 1957 : 1,490 (Industrial Labour Houses) ; 267 (Low Income Group) ; Total : 1,757.

No. of tenements under construction : nil.
Total expenditure upto 31st March, 1957 : Rs. 50,37,572.

Size of tenements and no. of each class : 1,377 one-room ; 348 two-room ; 32 three-room. The size of a room is 12' x 9'

Cost of building : One-room Rs. 2,700 ; two-room Rs. 4,600 ; three-room Rs. 7,000.

Rent charged (provisional) : one-room Rs. 10 ; two-room Rs. 18 ; three-room Rs. 26. These are exclusive of water or electricity charges.

The location of these tenements is as follows.
Industrial Labour Houses : Aurangabad 200 ; Latur 200 ; Jalna 283 ; Nanded 807.

Low Income Group : Aurangabad 50 ; Nanded 41 ; Latur 40 ; Parbhani 25 ; Jalna 40 ; Hingoli 15 ; Basmathnagar 10 ; Udgir 15 ; Osmanabad 15 ; Bhir 15.

SAURASHTRA HOUSING BOARD

At the end of 1955, 700 tenements were completed under the industrial housing scheme. The target for the second Plan is a total of 6,034 tenements.

The tenements are one-roomed, with a total floor space (including bath, W.C.) of 276 sq. feet. Each tenement costs about Rs. 3,300. The Government of India has fixed the standard rent at Rs. 10 per month and service charges extra.

The District-wise distribution of the 700 tenements completed is as follows :

Gohilwad 200, Halar 200, Madhya Saurashtra 200, Sorath 40 and Zalawad 60.

During the year 1955-56 the construction of 1,000 subsidised industrial tenements was undertaken by the Board and all are completed and mostly rented. Their District-wise distribution is as follows :

Gohilwad 400, Halar 300, Madhya Saurashtra 200 and Zalawad 100.

During 1956-57 the construction of another 834 tenements was taken in hand and they are mostly completed.

Their District-wise distribution is as follows : Halar 60, Madhya Saurashtra 310, Sorath 240 and Zalawad 224.

During 1957-58, 500 tenements were expected to be constructed. Their distribution is as follows :

Gohilwad 50, Halar 100, Madhya Saurashtra 200, Zalawad 150.

Work in Gohilwad, Madhya Saurashtra and Zalawad is taken in hand.

During 1958-59, 1,000 tenements were to be constructed. Their distribution is as follows :—

Gohilwad 250, Halar 200, Madhya Saurashtra 400, and Zalawad 150. Work not taken in hand.

During 1959-60 and 1960-61, 1,000 S. I. tenements are to be constructed in each year.

With a view to providing fully developed plots to Co-operative Societies and individual applicants for the construction of houses on No Profit No Loss basis, it is proposed to develop land. Government has agreed to the grant of a revolving loan of Rs. 10 lakhs for development of land.

VIDARBHA HOUSING BOARD

Details about subsidised industrial housing schemes and low-income group housing schemes executed by the Vidarbha Housing Board are given below.

Under the industrial housing scheme plans for about 4,400 one-roomed tenements were drawn up during the First Plan period under the Government of India's original as well as the modified schemes of 1949 and 1952. Of these 4,400 tenements, 1,880 were completed.

The area provided by a tenement is roughly 220 sq. feet. The standard cost of building is about Rs. 2,700 inclusive of cost of land. The rent charged is Rs. 10 per month.

Details regarding the town-wise distribution of the tenements built are as follows :

Fifty tenements were built by the Vidarbha Mills at Achalpur. These were completed on May 1st, 1955. They were built under the Government of India's original scheme of 1949.

Under the Government of India's modified scheme of 1952, 460 tenements were built in Nagpur, 100 at Pulgaon and 100 at Hinganghat.

A third scheme was set on foot to construct 1,000 tenements at Nagpur and 200 at Akola. While the 980 tenements at Nagpur were completed, work on the 200 tenements at Akola has not started.

A fourth scheme has been drawn up for the construction of 2,000 tenements in Nagpur, 200 in Akola, 100 in Pulgaon and 200 in Achalpur. But work is still in the preparatory stage.

The ceiling cost of this scheme is now increased. In Nagpur it will be Rs. 3,500 with a rent of Rs. 12-50 per month, and in other towns it will be Rs. 3,300 with a monthly rent of Rs. 12-50.

Under the Low Income Group Housing Scheme, a 30 year loan is advanced to the State Government for disbursement to persons whose income does not exceed Rs. 6,000 a year or to Housing Co-operative Societies consisting of such persons. The loan assistance is limited to a figure not exceeding 80 per cent of the actual estimated cost of the house, inclusive of land, subject to a maximum of Rs. 8,000 per house. In the case of local bodies the loan assistance is limited to a figure not exceeding 80 per cent of the actual cost of the house, including land subject to a maximum of Rs. 2,800 per house. The remaining 20 per cent of the cost will have to be found from the builders' own resources.

The accommodation to be provided in each house built under the scheme, should not be less than 220 sq. ft. of floor area, and normally not more than 1,200 sq. ft. The Housing Board was asked by the old Madhya Pradesh Government to implement the Scheme.

The total amount of loan obtained from Government to the end of March 1957 was Rs. 1,10,93,400. A further sum of Rs. 5,00,000 was received from Government in June 1957 and Rs. 25,12,000 in March 1958 for disbursement during 1957-58 under the Scheme. Thus the total amount of loan obtained from Government was Rs. 1,41,05,000 of which Rs. 1,33,25,438 was disbursed to the end of Sept. 1958.

The progress achieved to the end of Sept. 1958 is as follows :

Period.	Qrs. built by Co-op. Societies.	Qrs. built by Local Bodies.	Qrs. built by Educational Institutions.	Qrs. built by Individuals.
1956-57 to 1958-59 (t.e. to end of Sept. 1958)	1,103	432	37	200
In progress	315	100	9	16

The tenements built under this scheme are being allotted on hire-purchase basis or on outright sale.

AAREY MILK COLONY, 1958

Started : March 1949.

Area : 3,167 acres.

Number of dairy farm units at Aarey : 28.

Number of buffaloes and other stock : 17,500 (including calves) (Aug. 1958).

Total quantity of milk per day from Aarey : 2,350 maunds.

Total quantity of milk per day from Anand : 1,170 mds.

Number of milk distribution centres in Greater Bombay : 963.

Total number of consumers taking milk from Scheme : 15,00,000.

Quantity of toned milk distributed to school children in Bombay city per day : 43,100 (6 oz.) bottles.

Value of milk distributed per annum : Rs. 4,20,00,000.

Number of bottles filled daily at the colony : 4,08,000.

Total quantity of whole milk processed per day : 2,750 maunds.

Total quantity of toned milk processed per day : 2,050 maunds.

Government employees working in the scheme : 5,000.

Private employees of the cattle-owners : 2,500.

Sale price of whole milk per seer : 88 nP.

Sale price of toned milk per seer : 44 nP.

LABOUR

Particulars about labour in Bombay State are given below :

Total number of registered Factories : 11,855 (As on June 30, 1958).

Number of Works Committees functioning : 277 (as on Sept. 30, 1958).

Average daily number of workers employed in factories : 9,54,634 (June 30, 1958).

Number of towns covered as on Sept. 30, 1958, by the :

Bombay Shops & Establishments Act : 88 (Municipal areas).

Saurashtra Shops & Establishments Act : 24 (Municipal areas.)

Central Provinces & Berar Shops and Establishments Act : 21.

Hyderabad Shops & Establishments Act : 46.

Number of industries covered by the Bombay Industrial Relations Act, 1946 : 10 (as on Sept. 30, 1958).

Number of workers covered by the Bombay Industrial Relations Act, 1946 : 5,00,356 (as on Sept. 30, 1958).

Number of registered trade unions in the State : 1,727 (As on Sept. 30, 1958).

Total membership of registered trade unions : 10,79,558.

Number of regd. trade unions affiliated to I.N.T.U.C. : 290.

Membership of unions affiliated to I.N.T.U.C. : 6,53,517.

Number of regd. trade unions affiliated to A.I.T.U.C. : 41.

Membership of unions affiliated to A.I.T.U.C. : 50,658.

Number of regd. trade unions affiliated to H.M.S. : 78.

Membership of unions affiliated to H.M.S. : 1,16,123.

Total number of disputes (1958) : 296.

Total number of workers involved : 2,39,953.

Total number of man-days lost due to the strikes : 12,65,770.

The number of welfare centres in the

(i) Saurashtra and Kutch Areas : 21.

(ii) Vidarbha Area : 5.

(iii) Marathwada Area : 1.

(iv) Remaining Areas of the State : 50.

Attendance at these centres as on 1957-58 :—

(i) Saurashtra & Kutch Areas : 10,55,515.

(ii) Vidarbha Area : 1,632.

(iii) Marathwada Area : 100.

(iv) Remaining Areas of the State : 2,12,27,122.

WAGES

The statement below shows the per capita annual earnings of factory workers during the year 1957 :

Industry.	Earnings Rs.
Processes allied to agriculture ..	151.31
Food except beverages	692.96
Beverages	955.37
Tobacco	461.98
Textiles	1,505.16
Footwear, other wearing apparel and made-up textile goods ..	888.47
Wood and Cork except furniture ..	856.77
Furniture and fixtures	1,284.81
Paper and Paper products	943.81
Printing, publishing and allied industries	1,325.60
Leather and Leather products (except footwear)	904.86
Rubber and rubber products ..	1,132.60
Chemicals and Chemical products ..	1,496.00
Products of petroleum and coal ..	2,113.59
Non-metallic mineral products (except products of petroleum and coal)	832.19
Basic metal industries	1,258.12
Metal products (except machinery and transport equipment) ..	1,297.18
Machinery (except electrical machinery)	1,315.79
Electrical machinery, apparatus, appliances and supplies ..	1,619.04
Transport equipment	1,861.62
Miscellaneous industries	1,245.62
Electricity, gas and steam	2,030.41
Water and sanitary services ..	1,161.14
Recreation services	1,388.22
Personal services	1,068.68

BOMBAY STATE FINANCIAL CORPORATION

The Bombay State Financial Corporation was set up by a notification of the Government of Bombay dated 30th November 1953 in exercise of the powers conferred by the State Financial Corporation Act, 1951.

The Corporation started functioning on 1st December 1953.

With effect from Nov. 1, 1956 the Bombay and Saurashtra State Financial Corporations were amalgamated and the new Corporation is called the Bombay State Financial Corporation, with headquarters in Bombay and branch offices in Rajkot and Nagpur.

The main office is at the United India Building, Sir Phirozesah Mehta Road, Bombay.

The branch office is at Vijay Kunj, Jagnath Road, Rajkot.

The main object of the Corporation is to provide financial assistance to medium and small-scale industrial concerns in the State for purposes of purchase of land, plant and machinery and other assets for renovation and expansion of existing units and for the development of new ones.

Under an arrangement with the Government of Bombay, the Corporation, on behalf of the Government of Bombay, considers applications from small and medium scale units, under the State Aid to Industries Rules from Rs. 10,000 up to Rs. 75,000 and in exceptional cases up to Rs. 1 lakh. Liberal terms are offered to the prospective loanes concerns under the scheme, the rate of interest chargeable being 3 per cent for loans up to Rs. 50,000 and 5 per cent for loans up to Rs. 1 lakh.

Industrial concerns which are eligible for financial accommodation from the Corporation are those engaged in or to be engaged in the manufacture, preservation or processing of goods, or engaged in mining or in the generation or distribution of electricity, or other forms of power.

The Government of Bombay has fixed the authorised capital of the Bombay State Financial Corporation at Rs. 4 crores divided into 400,000 fully paid-up shares of Rs. 100 each of which 200,000 fully paid-up shares of the total value of Rs. 2 crores were issued and subscribed.

The shares of the Bombay State Financial Corporation are guaranteed by the State Government as to the repayment of the principal. Payment of annual dividend at the minimum rate of 3½ per cent. per annum is also guaranteed by the State Government.

The dividend payable on shares of the Corporation is limited to a maximum of 5 per cent. per annum.

In October 1957, the Corporation issued 4½ per cent 1967 10-year bonds of the face value of Rs. 1,16,50,800 at Rs. 99/8 per cent. Repayment of the principal and interest at 4½ per cent on the bonds is also guaranteed by the Government of Bombay.

Rate of interest for loans advanced : 6½ per cent.

The period of loan is decided on merit but will not generally exceed ten years.

The amount of loan is advanced to the extent of 50 per cent. of the net value of the fixed assets, consisting of land, building, plant and machinery.

The Corporation received (inclusive of Rajkot branch) 66 applications during 1957-58 and the total amount of loan applied for exceeded Rs. 1,98,00,000. The Board of Directors of the Corporation sanctioned loans of the aggregate amount of Rs. 3,21,20,000 till that date.

BOARD OF DIRECTORS

Purushottam Kanji (Chairman), Ganesham G. Thakkar, Dr. M. R. Mandekar, T. K. Ramasubramaniyam, Pravinchandra V. Gandhi, D. V. Potdar, V. P. Pandit, P. H. Bhutta, P. C. Malhotra, O. H. Gheewala (Managing Director).

OFFICIALS

Managing Director, O. H. Gheewala, B.A., LL.B. Secretary, B. S. Pochkanawala, B.Sc. (Lond.), Bar-at-Law.

Officer-in-charge, Rajkot Branch, L. D. Dave, B.A., LL.B. Branch Manager, Nagpur, G. S. Joshi, M.A.

MISCELLANEOUS PARTICULARS

The total income of Bombay State is reckoned at Rs. 2,000 crores or about 20 per cent of the national income with a population of 13.5 per cent of the national population.

About 41 per cent of the insurance business is done in Bombay State. Out of about 5,140 banking offices in India about 1,260 are in Bombay State.

The State handles about 41 per cent of the foreign trade of India. The route mileage of railways is reckoned 6,363.

Some miscellaneous facts and figures are given below :
Bombay State Police : 87,364 (1959) ; Home Guards : 16,041.

Handlooms : 2,50,000 (registered : 2,00,000) ; under co-operative movement : 1,00,000.

Tonnage handled by minor and intermediate ports (1956-57) : 2,646,444.

Local Development Works (April 1953—March 1958) : 11,268 completed ; 3,371 in progress.

No. of licensed money-lenders (1957-58) : 12,937. Money advanced in Bombay City Rs. 64.72 crores. In old Bombay State : Rs. 123.14 crores.

About 30.9 per cent of total revenue is spent in salaries and D.A. of Government servants.

Fire-arms licences (1957-58) : 13,834 new, 75,847 renewed, 4,806 cancelled.

Arrears of Sales Tax on March 31, 1958 : Rs. 6,62,91,419.

PROGRESS REPORT

Some points from the progress report for the year 1958-59 are given below :

A foodgrains licensing order has been in force since Nov. 1, 1958. Dealers engaged in business of over 100 maunds have to take a licence and send in periodical returns.

There are about 4,200 fair price shops in the Districts and 1,400 in Greater Bombay.

A household foodgrains card system is now in operation in Bombay and Nagpur and a voluntary card system in Ahmedabad.

An area of 1,38,000 acres came under the irrigation of major and medium works from 1951-52 to 1957-58. About 438 tubewells were dug and nearly 412 wells developed till Oct. 1958. The Second Plan target is 400 new tubewells.

Before the end of Second Plan contour bunding of 17 lakh acres is proposed.

Land has been acquired for 240 seed farms against the Plan target of 323.

There will be a second dairy for Bombay city to handle 7,500 maunds a day in about two years.

There are now about 32,000 co-operative societies in the State with a membership of over 50 lakhs and a working capital of Rs. 251 crores.

Co-operative farming societies 499 ; membership 18,591 ; Paid up capital Rs. 15.64 lakhs ; Reserve fund : Rs. 9.68 lakhs.

About 60 per cent of the villages and 75 per cent of the rural population is covered by village panchayats.

The total number of Development Blocks is 320 covering almost half the rural population.

The recent oil find in Cambay will strengthen the industrial potentialities of the State. A pig iron plant will be established in the Chanda District.

It is proposed to establish 16 industrial estates, of which work on five has already started : Baroda, Poona, Kolhapur, Rajkot and Udhna near Surat.

Of the 18 co-operative sugar factories registered in the State 12 have gone into production and the erection of three more has been completed. The total crushing capacity of the 12 factories is 11,800 tons a day.

There are 24 electric power schemes in the Second Plan, all of which are expected to be completed by the end of the Plan. By the end of 1958-59 about Rs. 1,652.87 lakhs will have been spent.

The provisions of the Bombay Weights and Measures (Enforcement) Act, 1958 in so far as they relate to weights was put into force with effect from 1st Oct. 1958 in certain areas, and in respect of certain undertakings and classes of goods in the whole State.

There is now a 'Ports and Marine Organization' for the ports in the State under the control of a Principal Port Officer and Engineer with headquarters in Bombay.

With effect from 15th Jan. 1959 all industrial establishments employing 50 or more workers would come under the provisions of the Industrial Employment (Standing Orders) Act, 1946.

Employment in any shop or commercial establishment has been added to the schedule to the Minimum Wages Act.

There are 25 Employment Exchanges in the State, and 8 more are to be opened. A scheme of youth employment and counselling service to guide school-leaving boys is to be started in Nagpur and Rajkot.

By the end of 1958-59 about 40.23 lakhs, that is, 54.23 per cent of the total number of children in the age-group of 6-11 would be at school.

Families earning less than Rs. 900 a year will have their children's education free. It is calculated that about 41 per cent of urban and 70 per cent of rural population would benefit.

Over 12,400 tenements for industrial workers involving a total cost of Rs. 5.19 crores will have been completed by the end of the Second Plan. Over 700 tenements for low income groups will also have been completed. For Class III and IV Government servants

(Government constructed 392 tenements in Bandra and work on 600 more is in progress.

The reorganization of administrative machinery as well as the integration is almost complete. There are now Regional Officers in almost all departments.

Progress has also been made in the unification of laws. The Prohibition Act, 1949, was extended to the whole State except the outstall areas of Chanda District from April 1, 1959. Disparities in the rates of revenue assessment and court fees have been evened out.

TENANCY LAWS

In Bombay permanent tenants have full security of tenure and the right to acquire ownership on payment of six times the rent. Other tenants have security of tenure subject to the landlord's right to resume twelve to forty-eight acres of land depending upon the class of soil, for personal cultivation. The tenant is entitled to retain half his land.

All tenants were deemed to have acquired the right of ownership of non-resumable areas (with certain exceptions) on April 1, 1957 and are liable to pay compensation varying from 20 to 200 times the assessment plus value of improvements. The compensation is payable in instalments not exceeding 12 with simple interest at 4 per cent. Permanent tenants were required to pay compensation in lump sum.

The maximum rent is not to exceed two to five times the assessment. In addition, the tenant is required to pay the assessment on the land and the cesses. The total payment is not to exceed one-sixth of the gross produce.

Ceiling on future acquisition has been fixed at 12 to 48 acres of land depending upon the class of soil. The ceiling does not apply to existing holdings under the personal cultivation of the owners.

The Hyderabad Tenancy and Agricultural Lands (Amendment) Act, 1957 and the Bombay Tenancy and Agricultural Lands (Vidarbha Region and Kutch Area) Act, 1958, which grant more rights and protection to the tenants in the respective areas, are important landmarks in tenancy legislation. Inams and Jagirs in Kutch have been abolished by the Bombay Inams and Jagirs (Kutch Area) Abolition Act, 1958, which came into force on the 30th December 1958. The Bill passed for the abolition of the Inferior Village Watans is awaiting the President's assent.

HOLIDAY HOMES

Bombay State has a unique holiday resorts scheme designed to cater for the needs of the lower middle and poorer classes of people, —those with an income of Rs. 500 and less per month.

The scheme was put into effect in Oct. 1957, and the first holiday camp was inaugurated by the Chief Minister at Karla in Nov. 1957.

The period of stay is restricted to provide for as many people as possible during the season. The charges at the Government holiday camps vary from one rupee per head per day for individual visitors to Rs. 2 or Rs. 3 for a family of seven members. There will be cinema shows at the resorts and excursions to nearby places of interest are also included in the Government's scheme.

The holiday resorts are : Mahabaleshwar (5,000 feet above sea level) in North Satara district ; Karla (2,500 feet) in Poona district ; Panhala (2,700 feet) in Kolhapur district ; Matheran (2,200 feet) in Kolaba district ; Bhandardhara (2,400 feet) in Ahmednagar district (under construction) ; Toran Mal (3,400 feet) in West Khandesh ; Chikaldia (3,600 feet) in Amravati district ; Malimal (3,000 feet) in Aurangabad district ; Tithal (a seaside resort) and Umrahi in Surat district ; Chorwad in Sorath (Saurashtra) and Shukladhri in Broach district.

The holiday camps are now provided in every region of the State.

Out of an estimated total expenditure of Rs. 12 lakhs, Rs. 6 lakhs had already been spent on the holiday resorts.

BUDGET 1958-59

Revenue : Rs. 202.27 crores.

Expenditure : Rs. 224.13 crores.

(For details see under 'Late Particulars').

SECOND FIVE YEAR PLAN

The Second Five Year Plan of the reorganised Bombay State involves a total outlay of Rs. 350.28 crores. During the first two years of the Plan period a total expenditure of Rs. 98.14 crores was incurred.

For the year 1958-59 a development programme of the order of Rs. 76.78 crores was drawn up. As against this programme, the revised estimate of expenditure for 1958-59 was Rs. 78.12 crores. Thus by the end of March 1959 an aggregate expenditure of the order of Rs. 176.26 crores is expected to have been incurred, leaving a balance of Rs. 174.02 crores for the last two years of the plan period.

Owing to the difficulties arising from the reorganisation of the State, the foreign exchange crisis in the country, the import restrictions and certain shortages in essential materials like iron and steel which were experienced during the first two years of the plan period, the pace of development was rather slow during the two years 1956-57 and 1957-58. The year 1958-59 showed a better outlook and the development programme was stepped up considerably.

For the year 1959-60 also, it has been possible to raise the tempo of development. Accordingly a programme of the order of Rs. 90.17 crores has been drawn up.

These outlays are exclusive of the outlay on schemes sponsored by the Central Government and executed in this State through the State Government. These Centrally sponsored programmes include National Highways, roads financed from the Central Road Fund, schemes for the rehabilitation of displaced persons and certain special schemes for the Backward Classes and local development works programme.

The expenditure on Central programme is of the order of Rs. 6 crores per annum.

* The first figure shows the month, the second the year.

GREATER BOMBAY

The area of Greater Bombay would be about 176 sq. miles and the population over 30 lakhs.

The area of Bombay City is 28 sq. miles and the population 2,329,020 (1951 census). The area of the Bombay Suburban District is about 150 sq. miles and the population about 7 lakhs (1951 census).

The northern boundary runs from the north of Dahisar village in the west, in the centre between the mile stones 21 and 22 on the Agra Road, and in the east north of Mulund Municipality.

The municipal area of Greater Bombay described above is also the area covered by Bombay City and the Bombay Suburban District from the point of view of revenue division.

The Collector for Bombay City is also the Collector for the Bombay Suburban District. Bombay City Collectorate is directly under the Government and is governed in accordance with the provisions of the Bombay City Land Revenue Act of 1876.

The Bombay Suburban District has besides the Collector, one Additional Collector, one District Deputy Collector, one Additional District Deputy Collector and two Mamlatdars one for each of the Talukas Andheri (also called South Salsette) with headquarters in Andheri, and Borivli with headquarters in Borivli. The headquarters of the Additional District Deputy Collector is at Andheri.

There are 30 Presidency Magistrates Courts, twelve Police Divisions and 34 police stations.

There are now six police stations under the Greater Bombay Police in the new area, one each at Borivli, Kandivli, Malad, Goregaon, Aarey and Mulund.

AGRICULTURE

In Bombay Island proper though about 8 sq. miles of unbuilt and undeveloped land is available there is practically no agriculture. Vegetables, flowers and fruit are grown in private gardens and Wadis but on a very negligible scale. In the newly merged areas and the adjoining suburbs, however, extensive paddy cultivation is carried on. Vegetables and fruit are also grown especially during the monsoon. The produce is largely marketed in Bombay.

COMMERCE AND INDUSTRY

Commercially and industrially Bombay is the second, if not the first City in India. It is the principal centre of the cotton textile industry (66 cotton mills with 64,134 looms and 3,160,954 spindles.) Its share in looms and spindles is about 31 per cent and 25 per cent respectively of the total in the country. There are 331 textile factories including silk, woollen and hosiery; 803 engineering undertakings; 188 establishments manufacturing articles of

food, drink and tobacco; 216 establishments producing chemicals, etc.; 50 hides and skins processing concerns, and 809 factories of a miscellaneous character.

There are about 34,127 registered shop-keepers in Bombay.

After Calcutta, Bombay is the biggest financial centre in India. The Stock Exchange, Bullion Exchange and Cotton Exchange regulate trading in stocks and shares of a wide circle of industrial undertakings. The Reserve Bank of India, the central banking and currency authority has its headquarters in Bombay. Thirty-three Scheduled Banks operate in Bombay. Of these six have their headquarters here. There are 15 foreign Scheduled Banks. Of these seven have their principal offices located in Bombay. The head office of the Life Insurance Corporation of India is also located in Bombay.

Being the best natural harbour in India, the trade carried through Bombay is about 46 per cent of the total trade of India. The principal items of import are bricks, cement, sand, etc.; China clay; coal; cotton; glassware; grain; hardware; iron and steel; kerosene; fuel oil; motor vehicle parts; machinery; boilers and railway materials; oilman stores; oils; vegetables, etc.; paper; piece-goods; petrol; sugar; timber; twist and yarn; Government and naval and military stores.

The main exports are coal; cotton; flour; groundnuts; hemp; hides and skins; kerosene and fuel oils; manganese ore; myrobalans; oil-cake; piece-goods; seeds; spices; sugar; wool packages; twist and yarn; Government and naval and military stores.

The total returns to the Central Government from Greater Bombay in customs revenue is about 46 per cent of the total revenue from the seaborne trade of India. The income-tax return to the Central Government from Greater Bombay is about 30 per cent of the total income from the country. The Corporation Tax amounts to about 20 per cent of the total income from this source.

COMMUNICATIONS

From the communications point of view Bombay holds a unique position. There are numerous air routes connecting Bombay with the rest of the country, and it is also directly linked with foreign countries aurally. The head offices of two chief railway systems, the Central and Western Railways are in Bombay which is rail linked with Calcutta, Delhi, Nagpur and Madras. It is the second biggest port and the chief sea communications centre of India. Greater Bombay's transport requirements are met by the local services of the two railways, Central and Western, besides the tram and bus services of the municipalised Bombay Electric Supply and Transport Undertaking.

1951 CENSUS

Note: After the census were taken Greater Bombay was enlarged and a population of about 700,000 was added to it. The census given below do not include particulars about these 700,000 persons. But the census would indicate in a rough way the chief census characteristics of the population of the area.

The number of each religious group in Greater Bombay is given below. The first figure shows the number of males, the second figure the number of females:

Hindus (1,291,004; 748,240); Sikhs (8,617; 5,367); Jains (47,110; 33,000); Buddhists (1,049; 448); Zoroastrians (34,924; 33,736); Muslims (268,902; 148,364); Christians (117,560; 88,639); Jews (9,247; 6,888); Non-tribals (846; 379).

NON-INDIAN NATIONALS

The number of non-Indian nationals in Greater Bombay is given below. The first figure shows the number of males, and the second figure the number of females:

Portuguese (7,398; 4,361); British (2,624; 2,222); Pakistani (1,388; 289); Iranian (1,101; 525); Nepalese (792; 78); Chinese (964; 396); American (320; 174); Afghan (199; 43); Arabian (184; 72); African (48; 35); Burmese (43; 48); German (70; 48); Swiss (79; 65); Ceylonese (105; 30); French (60; 40); Danish (88; 23); Russian (70; 20); Greek (24; 18); Swedish (31; 15); Israelites (43; 32); Italian (33; 28); Spanish (51; 4); Norwegians (55; 11); Australians (32; 14); Eire (23; 31); Iraqi (34; 20).

For the rest the figure is less than 50 for each group.

Beggars: It is reckoned that there are about 15,000 beggars in Greater Bombay. Money spent on charity is about Rs. 36 lakhs a year. Government runs about 15 homes under the Beggar Act with accommodation for about 3,000 inmates. Actually the number living at any time is much more than that. There are eight private institutions with accommodation for about 600 beggars.

AGE AND LITERACY

A ten per cent sample survey by age group showed the following position. The first figure in the brackets shows the number of males, and the second figure the number of females:

Number surveyed (171,940; 103,990); Literates (93,634; 38,847); Illiterates (78,286; 65,149).

Age group 5—9: Literates (5,141; 4,145); Illiterates (7,531; 8,191).

Age group 10—14: Literates (9,007; 6,747); Illiterates (3,833; 3,978).

Age group 15—24: Literates (27,566; 24,400); Illiterates (54,008; 76,571).

Age group 25—34: Literates (40,846; 13,707); Illiterates (51,492; 73,357).

Age group 35—44: Literates (14,527; 4,255); Illiterates (11,530; 7,249).

Age group 45—54: Literates (7,738; 2,106); Illiterates (5,995; 4,682).

Age group 55—64: Literates (3,170; 1,070); Illiterates (2,098; 2,531).

Age group 65—74: Literates (994; 460); Illiterates (467; 924).

Age group 75 and over: Literates (295; 152); Illiterates (143; 406).

OCCUPATION GROUPS

The main occupation groups in Greater Bombay are as follows. The first figure in the brackets shows the number of males and the second figure the number of females:

All Industries and Services

Employers (48,933; 1,614); Employees (879,268; 71,134); Independent workers (215,248; 21,251).

Fishing

Employers (480; 22); Employees (1,694; 125); Independent workers (2,808; 761).

Salt, Saltpetre, Saline substances

Employers (11; 0); Employees (988; 18); Independent workers (10; 2).

Foodstuffs, Textiles, Leather

Employers (4,567; 154); Employees (256,374; 19,558); Independent workers (21,900; 2,497).

Tobacco

Employers (91; 13); Employees (3,151; 1,045); Independent workers (1,719; 1,110).

Textiles

Employers (711; 37); Employees (206,713; 16,405); Independent workers (1,485; 157).

Wearing Apparel

Employers (1,832; 62); Employees (12,368; 314); Independent workers (10,413; 887).

Other Textiles

Employers (139; 4); Employees (11,733; 944); Independent workers (511; 89).

Leather and its products

Employers (336; 1); Employees (5,415; 178); Independent workers (4,704; 76).

Manufacture of Metals and Chemicals

Employers (2,039; 38); Employees (75,532; 1,964); Independent workers (6,049; 227).

Manufacture of Iron and Steel

Employers (131; 5); Employees (6,605; 132); Independent workers (195; 9).

Transport equipment

Employers (236; 7); Employees (22,282; 190); Independent workers (660; 6).

Electrical Machinery

Employers (175; 0); Employees (4,725; 104); Independent workers (598; 18).

Machinery including Engineering

Employers (431; 5); Employees (14,919; 259); Independent workers (1,534; 18).

Medical Preparations

Employers (59; 2); Employees (2,014; 185); Independent workers (67; 83).

Toy products

Employers (53; 1); Employees (1,443; 437); Independent workers (206; 12).

Rubber products

Employers (50; 0); Employees (2,100; 91); Independent workers (75; 2).

Wood and wood products

Employers (399; 10); Employees (16,693; 145); Independent workers (7,266; 303).

Printing and Allied Industries

Employers (600; 16); Employees (15,353; 172); Independent workers (653; 15).

Buildings

Employers (747; 7); Employees (10,004; 1,559); Independent workers (9,443; 296).

Roads, Bridges

Employers (6; 0); Employees (356; 53); Independent workers (34; 0).

Electric Power and Gas Supply

Employers (12; 0); Employees (2,821; 32); Independent workers (209; 1).

Sanitary Works

Employers (23; 1); Employees (8,854; 2,157); Independent workers (471; 100).

Commerce

Employers (28,342; 727); Employees (129,336; 4,744); Independent workers (91,453; 6,979).

Retail trade in foodstuffs

Employers (6,923; 239); Employees (20,469; 781); Independent workers (33,080; 4,595).

Retail trade in fuels

Employers (1,108; 31); Employees (8,389; 227); Independent workers (1,515; 115).

Retail in textile and leather

Employers (3,808; 63); Employees (8,643; 128); Independent workers (8,795; 158).

Wholesale trade in foodstuffs

Employers (710; 49); Employees (1,341; 170); Independent workers (1,724; 105).

Real estate

Employers (70; 4); Employees (2,059; 21); Independent workers (270; 15).

Insurance

Employers (163; 4); Employees (5,964; 148); Independent workers (642; 39).

Money lending, banking

Employers (1,058; 25); Employees (11,907; 350); Independent workers (5,244; 164).

Transport, storage, communications

Employers (1,374; 63); Employees (95,386; 2,491); Independent workers (15,795; 270).

Below we give the totals of some other categories. The first figure shows the number of males and the second the number of females:

Transport by road (33,982; 592); Transport by water (36,962; 601); Transport by air (2,534; 91); Railway transport (24,689; 424); Storage and warehousing (2,835; 417); Postal services (5,965; 216); Telegraph services (1,783; 77); Telephone services (1,657; 315); Wireless services (161; 3); Health, education and public administration (74,889; 12,170); Medical and health services (9,407; 4,466); Educational Services and Research (10,316; 4,334); Police (11,108; 209); Employees of municipalities and local bodies (18,597; 1,281); Employees of State Governments (14,832; 1,337); Employees of Union Govt. (14,715; 511); Employees of non-Indian Governments (172; 26); Services not elsewhere specified (226,880; 34,177); Domestic services (65,784; 21,091); Barbers and beauty shops (9,836; 104); Laundries and laundry services (13,871; 444); Hotels, restaurants, eating houses (46,725; 1,790); Recreation services (13,777; 1,270); Legal and business services (14,000; 1,143); Arts, letters, journalism (3,232; 137); Religious, charitable and welfare services (5,776; 312).

AGE GROUPS

In a 10 per cent sample survey the numbers in the different age groups were as follows:

	Males	Females
0	3,232	3,278
1—4	10,828	10,688
5—14	25,512	23,359
15—24	41,959	23,402
25—34	43,422	19,417
35—44	26,057	11,504
45—54	13,753	6,788
55—64	5,268	3,601
65—74	1,461	1,384
75 and over	438	558

Total number of households: 568,862.

22,695 households were examined in a sample survey. The number of persons living in them was 107,282—66,530 males and 40,752 were females.

Out of these households, the number of small households (3 members and less) was 9,110, and the number of persons living in them was 18,518; of medium households (4 to 6 members) 8,238, and the number of persons 30,699; of large households (7 to 9 members) 3,656, and the number of persons 28,454; of very large households (10 and above) 1,691, and the number of persons 20,611.

THE GREATER BOMBAY CORPORATION

THE municipal area of Greater Bombay is now divided into 18 administrative wards. These are A, B, C, D, E, F, G, H, K, L, M, N, P, R, and T.

For election purposes the municipal area of Greater Bombay is divided into 44 electoral wards—and are numbered 1 to 44.

From a demarcation point of view one or more electoral wards would go to make one administrative ward.

Total no. of seats : 131.

The administrative ward, the electoral ward, the area covered by the electoral ward, and the number of seats allotted to it are given below :

Administrative	Electoral	Area	Seats
A	1	Colaba	2
A	2	Fort	2
A	3	Bori Bunder	3
C	4	Mandvi	2
B	5	Dongri	2
B	6	Umerkhandi	3

The municipal government of Greater Bombay vests in the Municipal Corporation, composed of 131 representatives elected on adult franchise.

The Corporation has four statutory committees, the Standing Committee, the Improvements Committee, the Education Committee and the Bombay Electric Supply and Transport Committee.

The executive power in regard to general municipal administration vests in the Municipal Commissioner. The administration of the B.E.S.T. Undertaking, however, vests in the General Manager, B.E.S.T.

The Corporation is required to meet at least once a month. In actual practice it meets twice a week and oftener if necessary. Meetings of the Corporation are presided over by the Mayor who also convenes the meetings. The Mayor's term of office is one year and he is elected at the first meeting in April.

COMMITTEES

The Standing Committee consists of 17 members, 16 of whom are elected by the Corporation. The Chairman of the Education Committee serves as an additional member. Half the members retire at the end of each year. The Chairman is elected by the members of the Committee at the first meeting in April every year. The main functions of the Committee are to sanction contracts, to scrutinise the budget and establishment schedule, frame service

regulations, sanction investment of funds, prescribe the form of keeping accounts and conduct their scrutiny. The Committee meets once every week usually on Wednesdays.

The Improvements Committee consists of 16 Councillors, all of whom are elected by the Corporation. The Chairman is elected for a term of one year, while half the Councillors retire at the end of each year. The Committee is charged with all improvement and development schemes, slum clearance, providing accommodation for the poorer classes and purchase and sale of land which does not exceed Rs. 50,000. The Committee usually meets once a fortnight on Tuesdays.

The Bombay Electric Supply and Transport Committee consists of nine members, one of whom is the Chairman of the Standing Committee (ex-Officio), while the remaining members are appointed by the Corporation from among persons who (may or may not be members of the Corporation) have experience of administration, transport or electric supply, or of engineering, industrial, commercial, financial or labour matters. The Chairman is appointed by the members for a period of one year, while half the members retire every second year. The Committee usually meets every Friday; and the Chairman and members are paid a fee for attending the meetings. The Committee exercises general control over the electric supply and transport undertakings of the Corporation.

The Education Committee consists of 16 members, of whom 12 are Councillors and 4 non-Councillors of whom two have to be women. The Chairman of the Committee is elected for a period of one year, while half the members retire at the end of each year. The Committee usually meets on the first Friday of every month. The main function of the Committee is to administer the Primary Education Act or any other law for that purpose for the time being in force.

Besides the Statutory Committees mentioned above there are four Special Committees appointed by the Corporation. These are 1. the Works Committee, 2. the Medical Relief and Public Health Committee, 3. Markets and Gardens Committee, and 4. Law, Revenue and General Purposes Committee. Each Committee consists of 24 Councillors appointed by the Corporation after each general election. There are a Chairman and a Deputy Chairman for each Committee who are elected by the members and who hold office for one year. All questions that are due to go before the Corporation must first be considered by the appropriate Special Committee which then makes its recommendations to the Corporation.

Then there are a number of *ad hoc* Consultative Committees appointed from year to year, to which the Corporation can refer any matter for consideration and report.

The four most important officers of the Corporation are the Municipal Commissioner, the General Manager of the Undertaking, the Municipal Secretary and the Municipal Chief Auditor.

The Municipal Commissioner is at the head of the Executive. He is usually a senior member of the Indian Civil Service and is appointed by the Government for a renewable period of three years. He can be removed by the Corporation by a five-eighths vote. If however Government desires to revert him to their service the consent of the Corporation is necessary. He attends meetings of the Corporation and Committees but does not vote. He is assisted by three Deputy Municipal Commissioners with one Assistant Commissioner.

The General Manager of the Undertaking is in the same position to the Electric Supply and Transport Undertaking as the Municipal Commissioner is to the Corporation as a whole. He is appointed by the Corporation subject to the approval of the Provincial Government for a renewable period of not more than five years at a time. He can be removed by the votes of not less than half the total number of Councillors. He attends the meetings of the B.E.S.T. Committee and takes part in the discussions but does not vote.

The Municipal Secretary is in charge of all the secretarial work pertaining to the Corporation and its Committees. He is independent of the Commissioner and is directly under the Standing Committee.

The Municipal Chief Auditor is also independent of the Commissioner and is directly under the Standing Committee.

EDUCATION, MEDICAL

Primary education is free and compulsory in the Lower Primary standards of Municipal Schools all over Greater Bombay. It is the special responsibility of the Corporation.

But only about 81 children out of 100 receive an education.

From 1958 the benefit of free education has been extended to the upper primary classes too.

There were on March 31, 1958, 670 Municipal Schools and Classes conducted by the Education Committee and 396 Aided or Recognised Schools to which the Corporation makes grants or gives recognition. The total number of pupils in all Primary Schools on December 31, 1957 was 3,74,007 out of whom 2,73,140 were in Municipal Schools and 1,00,867 in Aided Schools. The Corporation spent Rs. 1,81,38,133 on primary education in 1957-58. Of this Government contributed Rs. 33,43,955.

To meet the growing expenditure on primary education the Corporation decided for the first time in 1958 to levy an education cess at 1½ per cent.

The Municipality maintains the Victoria and Albert Museum at Victoria Gardens and 17 free reading rooms and libraries.

As for medical relief the Municipality conducts one large fever hospital (Arthur Road), and three large general hospitals (K.E.M., Nair and Sion*) and four hospitals, an isolation centre and three clinics for tuberculosis patients, while in the suburbs there are two general hospitals and a provision for 100 beds for T.B. patients. Then there are 42 free dispensaries, nine maternity homes, 15 ante-natal clinics, 22 family planning clinics, one venereal diseases clinic, one eye hospital, and dispensary and dental clinics.

WATER SUPPLY

The water supply of the City is drawn from four lakes: Tansa, Vihar, Tulsi and Vaitarna. The Tansa Lake can supply more than 100 million gallons per day and is the main source of water supply. It is situated about 66 miles north-east of Bombay. The Vihar Lake can supply 20 million gallons a day exclusively to the north-east part of the City and also partly to Chembur and Kurla. It is situated about 18 miles north of Bombay. The Tulsi Lake which is to the north-west of Vihar Lake supplies about 4 million gallons a day to H, K and L Wards.

The Vaitarna Lake feeds the Tansa at present, and in combination the latter can supply 147 million gallons per day.

Under Section 140 of the Bombay Municipal Corporation Act the Corporation can levy water tax on buildings, lands and premises in the City. The tax is fixed as a certain percentage of the rateable value of the building, land or premises. The rate in 1958 was 3½ per cent which is proposed to be increased to 4½ per cent. Under section 169 the water supplied can also be charged on meter measurement and at the rates prescribed from time to time by the Standing Committee. Water tax is the first charge on a property under Section 141, and can be recovered from the owner by distress (Sections 203, 204) and is also recoverable from tenants by authorizing them to make payments from their rents (Section 209). The supply of water to any premises can be cut off in default of payment of water tax or any sum due for water or hire of meter or expenses of work done (Section 279(1)(d)). Copies of Water Charges Rules can be had from the office of the Hydraulic Engineer on payment of a sum of annas 8 per copy.

The obligatory duty of the Corporation to supply an adequate quantity of water relates to the provision of supply only up to the boundary of the premises, as distinguished from the distribution of water within the premises. Any premises can be served by means of one communication pipe only, the size of which depends upon the quantity of water needed in the premises. The owner can have separate connections to each floor provided he pays the cost of all the connections but one.

If the Municipal Commissioner finds that any premises are not provided with an adequate supply of pure water he has the power under Section 271(2) to compel the person who pays the property tax to obtain an adequate supply from a Municipal Water Works and carry out all such works as is necessary for a proper distribution of the water.

No one except a licensed plumber can undertake work on water-pipes and fittings and no person can allow any such work to be done by anyone except a licensed plumber.

For purposes of distribution Bombay is divided into 3 parts, called A Division, B Division and C Division. Broadly speaking, the A Division consists of the areas of Clerk Road, Hornby Vellard up to Jacob Circle, Lamington Road, part of Grant Road, Kika Street, Abdul Rehman Street and Carnac Road up to the Victoria Dock in the north, and on the west coast along Back Bay, Wakeahwar, Nepean Sea Road and Warden Road up to Clerk Road Junction—this Division is served by the Malabar Hill Reservoir.

Division B consists of the localities of Kalachowki Road, Beay Road, Coal Bunder in the north, on the eastern coast up to Carnac Road, Abdul Rehman Street, Kika Road, Falkland Road and part of Grant Road up to Lamington Road in the south, in the west Lamington Road and Arthur Road and finally some areas of Dongri and Mandvi and Mazagon. The whole of this Division is supplied from the Bhandarwada Hill Reservoir. The C Division, that is the north of the Island is served directly from the Trunk mains as they enter the City.

The amalgamated areas of the former Bombay Suburban District are divided into five wards for purposes of water supply H, K, L, M and N, with two Assistant Engineers in charge, one looking after H and K Wards and the other after L, M and N. The supply is throughout metered.

Total water supplied per day: 146 mln. gallons after completion of the first phase of Vaitarna-Tansa Scheme. When the scheme is completed the total supply is expected to be 220 million gallons a day.

The Tansa supply is chlorinated at the Chlorination Plants of Powai and Ghatkopar, while the Vihar supply is sterilized at Powai.

There is regular bacteriological and chemical analysis of water carried out by the Municipal Analyst.

PUBLIC HEALTH DEPARTMENT

The Public Health activities are carried on under the direct control and supervision of the Executive Health Officer. The Department is divided into several branches such as environmental sanitation, food sanitation, vital statistics, prevention and control of communicable diseases, maternity and child hygiene, medical relief and health propaganda.

Environmental sanitation comprises inspection and supervision of premises, provision of public sanitary conveniences, sanitary control over factories, licensable trades, overcrowding.

The veterinary staff inspects the stables in the city and are also in charge of the bullock hospital and segregation sheds in Mahalaxmi.

For purposes of sanitation, registration and vital statistics the city is divided into five divisions, each division being under the charge of an Assistant Health Officer who is directly responsible to the Executive Health Officer.

For the hygienic control of foodstuffs including milk trade there are Milk Sub-Inspectors and Sanitary Inspectors.

For pest control there is an Insecticide Branch.

The vaccination staff includes a Superintendent, a Head Vaccinator, a number of Vaccinators including a Lady Vaccinator. There are 67 permanent public vaccination stations 5 of which work daily at: 1. The Central Vaccine Depot, Parel, 2. The Sanitary Institute Building, Dhobi Talao, 3. Arthur Road Hospital, 4. Municipal Suburban Offices, Wakefield Road, Bandra, and 5. Municipal Office, Gazdar Hall, Andheri. The remaining centres work on one day every week by rotation for about 2½ hours. Besides, 4 additional temporary centres work one day every week for 2½ hours.

Hygiene includes maternity and child welfare, family planning and school health.

There are five Maternity Homes in the city, each in charge of a Lady Medical Officer. Twenty Health visitors, do the follow-up work and domiciliary care under the direction of the Lady Medical Officers. A small maternity unit is conducted at Dharavi. Expectant mothers are encouraged to attend ante-natal clinics, of which there are 15 in number. The five Maternity Homes are at Cadell Road, Victoria Road, Bellasis Road, Khetwadi and Imamwada Road. And child welfare clinics are conducted (besides the Maternity Homes) at Ferguson Road Dispensary, Dadar Main Road Dispensary, Labour Welfare Centre at Arthur Road Chawli, Ambewadi Dispensary at Parel Tank Road, District Dispensary at Souter Street, Tardeo Flats Dispensary, District Dispensary at Charni Road, District Dispensary at Panjrapole, Palton Road Stables Dispensary, District Office at Kolsa Mohalla.

There are Family Planning Clinics at 264, Charni Road; Bai Gulbai Choksy Dispensary at Dr. D'Silva Road, Dadar; Bellasis Road Maternity Home; Victoria Road Maternity Home; Imamwada Maternity Home; Cadell Road Maternity Home; and Khetwadi Maternity Home; Municipal General Hospital, Sion; and fourteen other Centres.

School Health Work is limited to Municipal Schools only and is under a Medical Officer. Children found to have defects are taken for treatment in school buses to the school clinic at K.E.M. Hospital. Dental care is given at the Dental Clinic at the Bai Yamunabai L. Nair Hospital. Undernourished children in municipal schools are given free milk and snacks on working days.

The Public Health Laboratory which is under the charge of a Municipal Analyst conducts routine and special examinations of water, sewage, food, urine, blood and sputa of patients at Municipal Institutions.

The Conservancy Branch is under the City Engineer, who is assisted by a Public Health Engineer. Under him are Supervisors, Senior Overseers, Junior Overseers, Depot attendants, etc.

Conservancy includes cleansing of streets, etc., removal and disposal of refuse, destruction of rats and dogs, veterinary service, removal of carcasses, disinfection, ambulance and so on.

The Veterinary staff is under a Senior Veterinary Inspector, who has a number of Junior Inspectors and qualified veterinary surgeons.

Medical Relief is given at the following general hospitals: K.E.M., Nair, Sion Municipal Hospital*, R.P.T.B. and Arthur Road, at Municipal Free dispensaries and one Eye Dispensary and Hospital.

There are dispensaries at 55, Rajwadekar Street, Colaba; 303, Frere Road, Fort; 250, Vallabhbhai Patel Road, Dongri; 212(1) Panjrapole Street, Bhulashwar; 264, Charni Road, Girgaum; 15-17, Khetwadi First Lane; 1, Souter Street, Byculla; 143, Foras Road; Bai Gourabai Dispensary, Kamathipura 8th Lane; Bai Gulbai Choksy Dispensary, D'Silva Road, Dadar; B.D.D. Chawl, No. 48, Worli; 2130, Delisle Road; 245(H) and (I), Dharavi Road; New Parbadevi Road and Cadell Road Junction; Mulji Bhuvan, Sewri New Road; New Chawl, Ambewadi, Parel Tank Road; 160-160-A, New Delisle Road; Tardeo Flats, Mahalaxmi; Connaught Road, Byculla; Chembur Dispensary, Chembur; King George V Infirmary, Baines Road, Mahalaxmi; Palton Road; Zandu Ayurvedic, Gokhale Road (South),

* Now called Lokamanya Tilak Hospital.

Dadar ; Dadar Main Road, Municipal Chawl No. 1 ; Waterfield Road ; Kherwadi, Khar East ; Vile Parle ; Andheri ; Jogeshwari ; Versova ; Kurla ; Bhandup and Ghatkopar.

The Eye Dispensary is in Bai Lingubai Building in Kamathipura where an eye hospital is also located.

There are also physiotherapy and occupational therapy centres school clinics, a rehabilitation and training centre for the crippled, family health centre and a convalescent home at the K.E.M. Hospital ; dental clinics at the Nair Hospital Dental College ; and the benefit of a paying-beds scheme at the Sion Hospital.

The Bombay Civic Journal

To stimulate civic awareness and promote closer contact with the public, the Corporation has been running an illustrated English monthly called 'The Bombay Civic Journal' from March 1954. It deals with the activities and problems not only of the Bombay Municipality, but also of other local bodies all over the country and seeks to foster 'an objective discussion of civic issues and the larger questions relating to local self-government from the national angle.'

Editor, U. G. Rao ; Advertisement and Circulation Manager, R. S. Shanbhag.

Another new development has been the starting of a Public Relations Department in February 1956 to attend to complaints from the public and do publicity. The old Propaganda Section of the Public Health Department and the Ward Officers' section were merged in it.

HISTORY

One of the earliest self-governing institutions in the country, with a history of autonomous functioning going back to nearly a century, the Bombay Municipal Corporation had until 1950 a territorial jurisdiction more or less confined to the seven islands of Bombay, with an area of 26 square miles and a population of about 23 lakhs.

Owing to the rapid growth of population during and after the war years, the lack of room for expansion within the existing limits, the increasing dependence of the suburbs on the City for essential services like water supply, medical relief and fire protection and the need of a proper pooling of resources and a co-ordinated plan for development, it was found necessary to merge the suburbs in the City proper to constitute Greater Bombay. This came about on April 15, 1950.

It brought a territory of about 70 square miles, with a population of five lakhs, under the control of the Corporation, and the strength of the civic body was raised from 117 Councillors to 135, to be reduced later to 124 by the abolition of the representation to various public organisations.

Six years later, following the decision of Parliament to create the bigger bilingual State of Bombay, it became clear that the importance of Bombay as a political, commercial, industrial and educational centre would increase, resulting in a large influx of population from the newly-merged territories and also necessitating major plans of development.

Finding that it is imperative that the limits of the Municipality should be further extended the Corporation passed a resolution on September 20, 1956, requesting the State Government to take urgent steps to merge the following areas in Greater Bombay to promote co-ordinated development : (1) Borivli Taluka of Thana District excepting the villages of Bhayander, Dongri, Ghodbunder, Kashi, Mire, Murdhe and Uttan ; and (2) the villages of Mulund and Nahur in Thana Taluka of Thana District.

The requisite legislation being passed, a territory, extending about 79 square miles with a population of about two lakhs, was absorbed in Greater Bombay on February 1, 1957, and the membership of the Corporation was increased by seven to 131 to give adequate representation to what have come to be known as the extended suburbs.

The new areas have been divided for administrative and electoral purposes into three wards : P Ward (Goregaon-Malad), R Ward (Kandivli-Borivli) and T Ward (Mulund).

Thus in the course of about seven years, from 1950 to 1957 the Corporation saw almost a seven-fold increase in the extent of its territory.

Greater Bombay now spreads over 175 square miles from Colaba to Dahisar on the Western Railway and to Mulund on the Central Railway, with a population of over 30 lakhs according to the census of 1951.

In the process of amalgamation with Bombay City, the old Municipal Boroughs of Bandra (established in 1876), Kurla (estd. 1877), Parle-Andheri (estd. 1931), Juhu (estd. 1921), Ghatkopar-Kirol (estd. 1916), Malad, Kandivli and Mulund have ceased to exist.

Meeting the civic needs of this vast territory as already mentioned are the following statutory authorities : the Corporation ; the Standing Committee ; the Improvements Committee ; the Bombay Electric Supply and Transport Committee ; the Education Committee ; the Municipal Commissioner ; and the General Manager of the B.E.S.&T. Undertaking.

A notable feature of the Act governing the Corporation is that while the municipal government of the City vests in the Corporation except where it is otherwise expressly provided, the executive power in regard to ordinary municipal administration is vested in the Commissioner.

With regard to the B.E.S.&T. Undertaking, the General Manager enjoys executive powers similar to those of the Commissioner in the Corporation.

The Corporation has been a pioneer in many spheres of civic activity. It was the first in the country to experiment with adult franchise, introduce free compulsory education at the primary stage, to be extended in 1958 to the upper primary classes, to own and administer urban transport and electric supply, to undertake trading, supply free milk and snacks to under-nourished school children, and to promote family planning.

Other notable activities of the Corporation have been the institution of a permanent Mayor's Fund for the relief of distress, building of a dormitory for the homeless in the City, starting of physiotherapy and occupational therapy schools and centres, and several new ventures in medical relief, education and research ; conduct of two medical colleges and a dental college, the creation of a family health centre and a health museum, and the running of a regular monthly publication, 'The Bombay Civic Journal', for publicising the activities of the Corporation and of other civic bodies and for promoting discussion of civic issues.

Other activities include the production of films for health education, the introduction of various modern devices for traffic control, starting of a unit for research in primary education, the opening of a municipal bank, the building of an open-air theatre for the recreation of citizens, holding of civic exhibitions, organisation of Health and Cleanliness Weeks and the starting of a department of preventive and social medicine at the Topiwala National Medical College and a convalescent home at the K.E.M. Hospital and maintenance of a swimming pool.

A vast new five-storied structure, designed to accommodate the numerous scattered departments of the Corporation, was built by the side of the old head office and declared open on February 5, 1958.

The City Engineer's, the Special Engineer's and the Hydraulic Engineer's departments are all now housed in the new building.

The new building has lounges, party rooms and committee rooms for Councillors and also accommodates the Estate Agent and Land Manager's Department and the Public Health and Public Relations Departments.

The Corporation, however, continues to meet in the Corporation Hall in the old building.

The administration of the suburbs was put under a Deputy Commissioner with offices in Bandra. The Deputy Commissioner is helped by an Assistant Commissioner.

GREATER BOMBAY

Below we give particulars about Greater Bombay :

No. of Hospitals (Municipal, Government and Private) : 18.
No. of Municipal Hospitals : 7.
No. of Municipal Dispensaries : 42.
No. of Primary Schools (Municipal and Private) : about 1,056.
No. of pupils in all Primary Schools : about 3,74,000.
No. of Municipal Primary Schools : 670.
No. of children in Municipal Primary Schools : 2,73,140.
No. of teachers in Municipal Primary Schools : 7,246.
No. of Medical Municipal Colleges : 3 including a Dental College.
No. of Motor Vehicles : More than 40,000.
Road Mileage : about 466.
No. of Markets (municipal and private) : 60.
No. of gardens, open spaces etc. : about 115.
No. of Fire Brigade Stations : 12.
Total no. of Municipal employees : 26,685.
Annual wage bill of employees : Rs. 66 lakhs.

CITY

Below we give some facts about the City for 1958-59 :

Area of the City	16,782 acres (26·189 square miles).
Population	2,329,020 (according to census of 1951).
Density of population	139 per acre.

INCOME :—

General Tax at 17 per cent and Fire Tax at 4 per cent	Rs. 4,20,64,645
Water Tax at 3½ per cent including other receipts from Water Works	2,61,11,390
Halalkhore Tax at 3½ per cent including receipts from special service	85,94,345
Total income (including revenue from other sources)	11,03,06,371
Rates charged for water connections by measurement	From As. 12 to Rs. 2-6-0 per 1,000 gallons according to class of property.

EXPENDITURE :—

	Rs.
Primary Education (including suburbs) ..	2,14,85,345
Medical Relief and Education	1,31,04,003

Water Works—

Maintenance etc. .. Rs.	33 11,874
Debt Charges	2,00,68,789
	2,33,80,663

Public Health	47,31,671
Fire Brigade	18,57,104
General Supervision, Collection of Revenue etc. ..	36,22,849
Contribution to Education Budget	1,21,70,590
Grants-in-aid to Public Institutions	9,29,500
Debt charges (excluding Water Works)	1,13,83,211
Total expenditure including other items	11,16,57,557

The following facts relate to 1957-58 :

TAXES, LOANS ETC. :—

Incidence of taxation per head	39-10
Total rateable value of properties	26,64,32,986
Properties registered in the Assessment Book ..	55,040
Rateable value per head of population	114-55
Number of vehicles and animals taxed	49,968
Demand in respect of Urban Immovable Property Tax levied by Government and collected by Municipality for the year	1,11,16,081
Amount collected including previous arrears ..	1,09,39,500
Debts outstanding	36,04,53,331
Redemption or Sinking Fund in hand or invested ..	7,13,12,298
Net loan debt	28,91,41,037
Net debt per head of population	124-14

BIRTHS AND DEATHS

Total number of births registered during the year (1957-58)	64,526
Birth rate per thousand living	27-7
Total number of deaths during the year	33,164
Death rate per thousand of population	14-2

Budget, 1959-60

Here are a few salient features of the City Budget for 1959-60 as presented to the Corporation by the Chairman of the Standing Committee :

	Rs.
Opening balance on April 1, 1959	1,02,31,000
Income on existing basis of taxation	11,92 81,000
Expenditure	12,31,75,000
Deficit	38,94,000
Total (surplus)	63,37,000
Anticipated savings in expenditure	40,00,000
Closing Balance	1,03,37,000

Loan Works—

Out of a total provision of Rs. 548 11 lakhs proposed for the loan works programme for 1959-60, Rs. 481 44 lakhs are for works in progress and Rs. 36-64 lakhs for new works, Rs. 17-53 lakhs for plant and machinery to be purchased out of advances from Special Funds, and Rs. 12-5 lakhs for discount and other charges on New Loan.

Among the major allocations are : Master Plan for distribution of water supply in City Rs. 95 lakhs; Vaitarna-cum-Tansa Scheme Rs. 17 48 lakhs; acquisition of land for extension of B.Y.L.N. Charitable Hospital and T.N.M. College Rs. 20-38 lakhs; enlarging of Faust Water Main from Keshell Anchor Block to Kaparbandi Anchor Block Rs. 25 lakhs; re-modelling of Colaba Sewerage Scheme Rs. 25 lakhs; provision for housing accommodation Rs. 25 86 lakhs; installation of purification plant at Love Grove Rs. 20 lakhs; cost of survey and acquisition in connection with the town planning scheme for the area near Masjid Station Rs. 15 lakhs; improving sewerage system in various parts of the City Rs. 13-17 lakhs.

Some interesting minor items are : acquisition of sites rendered vacant by house collapses in the City for various municipal purposes Rs. 6 lakhs; development of the interior of the northern part of the island at Mahlin Rs. 10 lakhs; construction of an industrial estate building on Bapty Road Rs. 5 lakhs; construction of a vehicular subway near Princess Street Junction Rs. 3 lakhs; provision of extra accommodation at Lokamanya Tilak Hospital at Sion Rs. 12-54 lakhs; construction of a hostel building for 120 male students of the National Medical College Rs. 4-25 lakhs; extension of the purification plant at Dadar Rs. 10 93 lakhs; street improvement at different places Rs. 5 lakhs; acquisition of land for shifting cemeteries at Haines Road Rs. 3 lakhs; treating with 3" asphaltic concrete the surfaces of different roads in the City Rs. 4 lakhs.

Capital Account :

The Capital Budget for 1959-60 has made provision for works already in progress and for certain new works. The expenditure on Improvements and Street Scheme (proper) has been estimated at Rs. 105-60 lakhs. Some of the principal items for which provision has been made are : housing accommodation for the poorer classes Rs. 20 lakhs; construction of 464 tenements and a shopping centre off Road No. 26—Sewri-Wadala Estate Rs. 8-5 lakhs; cutting of Worli Hill Rs. 8 lakhs; provision of sewerage from Sion Junction to the terminus of the Sion Causeway Rs. 7-19 lakhs; construction of 144 tenements on municipal plot at Road No. 15, Scheme 57, Sewri-Wadala Estate Rs. 6-10 lakhs.

SUBURBS

The following particulars relate to the year 1958-59 :

Area of the Suburbs	43,398 acres
Population	510,250 (according to the census of 1951).
Density of population	11-75 per acre

INCOME :—

General Tax at different rates varying from 10 per cent to 17 per cent and Fire Tax at $\frac{1}{2}$ per cent	Rs. 77-40 lakhs.
Water Tax by measurement (including other receipts from Water Works)	" 55-38 lakhs.
Halalkhore Tax at $\frac{3}{4}$ per cent including receipts from special service	" 10-40 lakhs.
Grant-in-aid from Government	" 16-78 lakhs.
Share from City Budget under Town Duties	" 17-37 lakhs.
Total income, including revenue from other sources	" 208-77 lakhs.
Rate charged for water supplied by measurement	From Rs. 0-75 to Rs. 2-25 per 1,000 gallons according to class of property.

EXPENDITURE :—

Education (Secondary)	Rs. 9-256 lakhs.
Medical Relief and Education	" 8-24 lakhs.

Water Works—

Maintenance etc. .. Rs.	50 75 lakhs.
Debt Charges	" 7 30 "
	" 58-05 lakhs.
Public Health	" 10 52 lakhs.
Fire Brigade	" 1 69 lakhs.
General Supervision, Collection of Revenue etc. ..	" 10 29 lakhs.
Grants-in-aid to Public Institutions	" 0 82 lakhs.
Debt charges excluding Water Works	" 27 27 lakhs.
Total expenditure including other items	" 233 26 lakhs.

The following particulars relate to 1957-58 :

TAXES, LOANS ETC. :—

Incidence of taxation per head	Rs. 30-48
Total rateable value of properties	" 5,24,24,869
Properties registered in the Assessment Book ..	" 42,731
Rateable value per head of population	" 102-74
Number of vehicles and animals taxed	" 4,637 (excluding those taxed under Public Conveyance Acts).

Demand in respect of Urban Immovable Property Tax levied by Government and collected by Municipality	Rs. 32 37 lakhs including arrears of previous years.
Amount collected including previous arrears ..	" 16 59 lakhs.
Debts outstanding	" 3,20 45 lakhs.
Redemption or Sinking Fund in hand or invested	" 48-82 lakhs.
Net Loan Debt	" 2,71 02 lakhs.
Net debt per head of population	" 53-23

BIRTHS AND DEATHS :—

Total number of births registered during the year (1957-58)	22,612
Birth rate per thousand living	44-3
Total number of deaths during the year	6,752
Death rate per thousand of population	13-2

Budget, 1959-60

Here are a few salient features of the Budget for the Suburbs, (1959-60) as presented to the Corporation :

Estimated Opening Balance on April 1, 1959	Rs.	54,60,000
Income on present basis of taxation		2,37,21,000
Expenditure		2,63,15,000
Deficit		35,94,000
Total (surplus)		18,66,000
Deduct—Advance for Plant and Machinery		Nil
Closing Balance		17,66,000

Loan Works—

The Loan Works Programme for the suburbs to be carried out in 1959-60 includes the completion of works already undertaken and also certain new works considered necessary in connection with roads, hospitals, water supply, drainage, construction of a new fire station, provision of gardens and open spaces, construction of markets and provision of village amenities. Of the total amount of Rs. 208.54 lakhs proposed for 1959-60, Rs. 147.55 lakhs are for works in progress and Rs. 60.99 lakhs for new works.

The more important of the new works proposed are : widening of Bombay-Agra Road between Sion Causeway and Kamani Metal Works, Kuria, Rs. 5 lakhs; widening of Ghodbunder Road and provision of footpaths between Andheri Level Crossing and Oshivara, Jogeshwari, Rs. 3 lakhs; widening of Sion-Trombay Road, Rs. 2 lakhs; town planning scheme, Ghatkopar, Rs. 1.67 lakhs; town planning scheme, Santa Cruz, Rs. 1.66 lakhs; laying water main for proposed housing colony at Vikrolli, Rs. 1.48 lakhs; and acquisition of land and construction of semi-permanent structures at Golibar, Santa Cruz, Rs. 1 lakh.

EXTENDED SUBURBS

The following particulars relate to 1958-59 :

The extended suburbs, merged in Greater Bombay on February 1, 1957, consist of areas once forming part of the municipal districts of Malad, Kandivli, Borivli and Mulund, village panchayats of Goregaon and Dahisar and 34 villages of the Thana District where there was no municipal administration of any kind, though certain functions were being performed by the District Local Board of Thana.

Area of the Extended Suburbs	About 48,000 acres (75 sq. miles).
Population	About 1.59 lakhs (according to the census of 1951).
Density of population	About 3.6 per acre.

INCOME :—

General Tax at different rates varying from 6 per cent to 17½ per cent	Rs.	17.89 lakhs.
Water Tax (including other receipts from Water Works)		12.06 lakhs.
Halalkhore Tax at 3½ per cent including receipts for special service		2.87 lakhs.
Grant-in-aid from Government		3.00 lakhs.
Share from City Budget under Town Duties		3.87 lakhs.
Total income, including revenue from other sources		44.58 lakhs

EXPENDITURE :—

Education (Secondary)	Rs.	0.06 lakh.
Medical Relief and Education		1.75 lakhs.
Water Works		12.36 lakhs.
Public Health		1.14 lakhs.
General Supervision, Collection of Revenue etc.		2.48 lakhs.
Grants-in-aid to Public Institutions		0.018 lakh.
Total expenditure including other items		43.33 lakhs.

Budget, 1959-60

Here are a few features of the Budget for the Extended Suburbs (1959-60) as presented to the Corporation :

Estimated Opening Balance on April 1, 1959	Rs.	9.03 lakhs.
Income on the present basis of taxation		45.26 lakhs.
Expenditure		51.97 lakhs.
Deficit		6.71 lakhs.
Closing Balance		2.32 lakhs.

Loan Works—

Out of a total expenditure of Rs. 39.25 lakhs proposed for the loan works programme for the Extended Suburbs in 1959-60, Rs. 16.4 lakhs are for works in progress and Rs. 22.85 lakhs for new works. Some of the more important items for which provision has been made are : improving and widening of Ghodbunder Road from Oshivara Bridge to Goraswadi Rs. 1.69 lakhs; improving and widening of the same road from Goraswadi to Borivli Railway Level Crossing Rs. 1.44 lakhs; laying of 9" and 6" mains along the Ishwarbhai Patel Road and cross-roads at Goregaon Rs. 1.26 lakhs; provision of village amenities Rs. 1.22 lakhs; construction of Harijan quarters at Goregaon Rs. .63 lakh; widening of bridge on nullia at Malad Rs. .56 lakh. The bulk of the expenditure proposed is for laying water mains in various parts of the Extended Suburbs, provision of sewerage and construction and improvement of roads.

B.E.S. & T. UNDERTAKING

The following particulars relate to 1957-58 :

Total staff in the whole Undertaking	16,084
--	--------

Tramway Section—

No. of vehicles	275 plus 26 trailers
Route Mileage	21.611
No. of passengers carried during the year	17,40,84,945
Total income for the year	Rs. 1,22,18,162
Total expenditure	1,63,77,968

Bus Section—

No. of vehicles	750
Route Mileage	365.79
No. of passengers carried during the year	36,70,27,103
Total income for the year	Rs. 3,90,98,299
Total expenditure	3,45,81,127
Specialty-built luxury buses for tourists	4

Electric Supply Section—

Total number of units purchased	42,19,09,409
Total number of units sold (supply)	37,57,16,425
Total number of units sold (traction)	1,08,16,297
Total number of consumers	2,20,637
Total income for the year	Rs. 3,71,75,754
Total expenditure for the year	3,04,13,146

Budget, 1959-60

Estimated opening balance	Rs.	1,00,000
---------------------------------	-----	----------

INCOME :—

Electric Supply	5,04,88,900
Tramways	1,22,12,700
Buses	6,15,45,300
Total	12,42,46,900

EXPENDITURE :—

Electric Supply	Rs.	4,49,05,350
Tramways		1,63,55,009
Buses		5,87,13,411
Total		11,99,73,870

Appropriation to statutory and other funds ^a or objects	Rs.	42,73,100
Estimated Closing Balance		1,00,000
Total		12,43,46,970

Capital Estimates (1959-60) :—

The sum of Rs. 229.838 lakhs proposed for capital expenditure in 1959-60 is to be spent mainly on the expansion of the Electric Supply and Bus Sections and construction of quarters for the staff.

Some of the more important items for which provision has been made are : purchase of 62 buses Rs. 56 lakhs; 22 kV bulk supply receiving stations, extensions in existing receiving stations etc. Rs. 39.59 lakhs; construction of staff quarters at Parol (second stage), Byculla, Santa Cruz, Borivli and Mulund Rs. 25.56 lakhs; proposed aerial ropeways at Malabar Hill and Sion Hill Rs. 9.5 lakhs; construction of stores depot at Wadala Rs. 10 lakhs; bus terminus at Marve Rs. 2 lakhs and balance of cost for a bus depot at Borivli Rs. 1 lakh. Besides these, a sum of Rs. 7.50 lakhs has been proposed for the replacement of tram-cars by trolley buses between Mazgaon and Gowalla Tank.

RAINFALL OF BOMBAY

COLABA OBSERVATORY

Note : From the year 1957 rainfall figures are recorded in Millimeters instead of inches. 1 inch equals 25.4 mm.

* In the case of some associations, besides the title and the address a short note is added about their aims, etc. This is generally done where the aims, activities, organisation are not immediately obvious from the title. Also, when an association appears for the first time in our book a note is generally added. The addition of a note is not necessarily an indication of the relative importance of the association, that is, in relation to others.

Two points should be kept in mind: office-bearers may change; addresses given may sometimes be in the nature of a reference specially where we say c/o.

HAPPY HOME & SCHOOL FOR THE BLIND

B. D. D. Chawl 52, 3rd Floor, Worli.

This charitable residential institution for blind boys between 7
and 20 and fully secular, is the only one of its kind to provide for
street blind and delinquents. It was started in 1925. It aims at
giving educational and vocational training to blind juvenile boys.
Music both instrumental and vocal as well as cane-work, weaving,
net-work, sewing, knitting, dramatics, physical culture, scouting
etc., are taught, with a view to making them self-supporting. It
gives general education in Marathi and Gujarati upto the 7th stand-
ard. Hindi and a little bit of English are also taught. Special
attention is paid to developing the character of inmates and turn
them into useful citizens thus saving them from becoming beggars.

There are 56 inmates with room for 60, funds permitting.

President:—Kamalnayan Baja.

Hon. Secretary:—Mrs. Coomi Sohrab Bharoocha 68, Pedder
Road, Bombay 26.

INDIAN CANCER SOCIETY

Tata Memorial Hospital, Parel, Bombay 12.

The aims and objects of the Society are to encourage and support scientific investigation of the cause, prevention and control of cancer; to create a public awareness of the curability of early cancer and a medical awareness of the best methods of detection, diagnosis and treatment; to encourage and aid financially and otherwise persons suffering from cancer; to combat quackery; to increase the facilities for more efficient social service to cancer victims in rural areas; to encourage research in the newer techniques of diagnosis and treatment. Thus it has initiated a cytology training scheme for medical and scientific workers throughout India, at the Tata Memorial Hospital. It has also set up 'Colposcopy and Chemotherapy Service Units' at the same Hospital. To achieve these objects the Society depends entirely on voluntary aid from the public.

INSTITUTE FOR LABOUR WELFARE WORKERS

Govindji Keni Road, Naigaum, Bombay 14.

Principal : V. B. Kamath, M.Sc. (Bom.), B.Sc. (Spl.), Lond., F.S.S. (Lond.).

The Institute was started in 1947 with the purpose of organising training of leaders for labour and social work. Till 1955, 9 months and 3 months Courses were conducted for the same for which students from all over India and nominees sent by the several State Governments, prominent industrial establishments and trade union organisations, besides fresh students were taken up. In July 1955 the Institute started a 2-year Diploma Course in Labour Welfare for training Labour Welfare Officers. As before it gets the patronage of all the State Governments and employees and trade union organisations. The course is now open to graduates of any recognised University and admission restricted to 40 trainees per year.

The University of Bombay has drafted the syllabus for a post graduate Diploma in Labour Welfare (D.L.W.) and it is expected that the University will institute the Diploma early in 1959. The Institute proposes to seek affiliation to the University with effect from July, 1959 as a post graduate Institute for specialised studies.

Particulars of the members of the staff are given below. In addition, outside experts in different fields are invited to deliver lectures on various topics in the curriculum.

Gupta, B.Sc. (Tech.) (Manch.), B.Sc. (Bom.); **Junior Research Officers.**—V. Venkataraman, M.A., Dr. S. M. Betrabet, M.Sc., Ph.D.; N. Balasubramanian, B.Sc., B.Sc. (Tech.); **Superintendent, Testing House.**—K. G. Deo; **Office Superintendent.**—A. T. Raphael, B.A.

THE THEATRE GROUP

7, Walton Road, Bombay 1.

Membership is open to everyone genuinely interested in Theatre—acting, producing, writing and all departments of stage management. Monthly subscription: Re. 1.

Activities include producing significant plays by world renowned dramatists, 'visual enactments', evenings of music and poetry, revivals of film classics and, of course, staging contemporary new plays in Hindi.

The THEATRE GROUP maintains a Library on drama and the allied arts, and publishes a bi-monthly theatre magazine "SCRIPT". It also hires out Lighting Equipment and Costumes and undertakes Backstage Management for other organisations.

President.—Deryck Jeffereis; **Vice-President.**—Alyque Padamsee; **Secretary.**—Fola Sabavala; **Treasurer.**—Chandra Kumble.

THEATRE UNIT

89, Bhulabhai Desai Road, Bombay 24.

The Unit's main objective is to provide training in all branches of the theatre. It runs a fully equipped and adequately staffed School of Dramatic Arts (See under Educational Institutions) whose Principal, Mr. E. Alkazi, is recognised as Drama Instructor by the Government of India.

The Unit produces, in the professional spirit, plays calculated to enhance theatre in the eyes of the public, concentrating on the classics of Western and Eastern drama. It hopes to set a standard in Indian language productions, with all the resources of modern stage technique. It has a Hindi section.

The Unit builds its own sets and makes costumes for its productions. To stimulate interest in theatre, literature and the visual arts, it publishes the *Theatre Unit Bulletin* (Annual Subscription, Rs. 5.)

Director.—E. Alkazi.

ZOROASTRIAN PHYSICAL CULTURE AND HEALTH LEAGUE

Central Bank Building (Dean Lane Entrance), Bombay 1.

EDUCATIONAL INSTITUTIONS IN GREATER BOMBAY*

UNIVERSITY OF BOMBAY

INCORPORATED under Act XXII of 1857 (subsequently amended by Act VII of 1904, and reconstituted by the Bombay University Act IV of 1928 and Act XXXI of 1953).

The Senate meets ordinarily once a year in June on a date fixed, and at other times when convened, by the Vice-Chancellor. A meeting of the Senate can be convened on the requisition of at least twenty Fellows to the Vice-Chancellor. Twenty members of the Senate form a quorum; and all questions are decided by a majority of the votes of the members present, the Chairman, when the numbers are equal, having a second or casting vote. There are seven Faculties, viz. Arts, Science, Technology, Law, Medicine, Commerce and Dentistry. Each Faculty elects its own Dean. The Annual Convocation for conferring degrees is held on the third Tuesday in August.

The Executive Government of the University is vested in the Syndicate. The Vice-Chancellor is the Chairman of the Syndicate.

CHANCELLOR

Sri Prakasa, B.A., LL.B. (Cantab.), Bar-at-Law, Governor of Bombay.

VICE-CHANCELLOR

Principal T. M. Advani, M.A., LL.B.

HEADS OF RECOGNIZED INSTITUTIONS

Dr. R. L. N. Iyengar, D.Sc.; Dr. V. V. Kelkar, B.Sc., D.I.C., Ph.D. (Lond.), A.M.I.Chem.E., M.I.Chem.E.; Dr. N. N. Shukla, B.Sc., M.Ed., Ph.D.; Prof. V. P. Khanolkar, M.A.; Dr. V. R. Khanolkar, B.Sc., M.D., F.A.Sc., F.N.I.; Dr. H. J. Bhabha, B.A., Ph.D., D.Sc., F.R.S., F.N.I.; Professor H. D. Velankar, M.A.; Professor A. K. Priolkar, B.A.; Dr. C. V. Kulkarni, M.Sc., Ph.D.; Prof. A. R. Wadia, B.A. (Bom. & Cantab.), Bar-at-Law; Dr. H. I. Jhala, M.D., F.C.P.S., D.T.M.; Prof. N. A. Nadvi, M.A.

ELECTED BY THE ACADEMIC COUNCIL TO THE SYNDICATE
Prof. A. N. Kothare, M.Sc. (Lond.).

* In the case of some institutions, besides the title and address a short note is added about their curriculum, etc. This is generally done where the objects, curriculum, organization are not immediately obvious from the title. A note is also added when an institution appears in our book for the first time. The addition of a note is not necessarily an indication of the institution's relative importance, that is, in relation to others.

† Ex-Vice-Chancellors are also ex-officio Fellows of the Senate.

II. FELLOWS—ORDINARY (ELECTED).

ELECTED BY THE HEADMASTERS

A. S. Sthalekar, M.Sc.; Y. M. Trilokekar, M.A.

BOMBAY DUMB & DEAF INSTITUTION

Kakadwadi, Girgaon, Bombay 4.

The above institution was started in 1925. Dumb and deaf boys and girls are taught here to write, read and sew. Admission is given to the needy irrespective of caste and creed. More than 500 students have had the benefit of this charitable institution so far. Almost all of them now earn their own livelihood.

Trustees : C. B. Joshi, K. M. Upadhye.

BRITISH INSTITUTE OF ENGINEERING TECHNOLOGY (INDIA) PRIVATE LTD.,

BRITISH INSTITUTE OF COMMERCE

359, Dadabhai Naoroji Road, Flora Fountain, Bombay 1.

The Institutes provide Correspondence Courses in all branches of Engineering and Commerce, both for professional examinations and for vocational training. Tack Personal Salesmanship and Sales Management Courses are also conducted under the auspices of the British Institutes.

Principal, R. P. Wellman.

DOCKYARD APPRENTICE SCHOOL

Indian Naval Dockyard, Fort.

Dockyard Apprenticeships are awarded to boys between 15 and 19 years of age who pass the all-India open competitive examinations and interviews held annually in June and July.

Officer-in-Charge, Commander W. P. Bapat, I.N.

Senior Instructor Officer, Lieut-Commander G. Dimri, I.N.

"DUFFERIN," TRAINING SHIP

Off Masgaon Pier, Bombay 10.

(Under the administrative control of the Government of India, Ministry of Transport & Communications).

The first Cadets joined the Training Ship in November 1927 since when 982 Cadets have been trained for a sea career; in addition between 1936 and 1949, 287 Cadets were trained for the Engineering Branch. Of the 982 Cadets, 359 are Officers in the Merchant Navy, 63 in the Indian Navy, 165 in the Port Services and 68 are serving in the auxiliary and other services. In addition, there are 134 Cadets in training on board the ship.

The age limits for admission are between 15½ years and 18 years on the 1st July of the year of entry. Annually about 80 Cadets for the Executive Branch are admitted for a 2-year course, terminating in the Final Passing Out Examination of the ship.

Total cost to the parent of training a boy is about Rs. 2,000 for the 2-year course. A number of scholarships are available both while under training on board and while serving as apprentices at sea; some are awarded on financial grounds and others on merit.

The Board of Control consists of a Governing Body with the Transport Minister to the Government of India as ex-officio Chairman.

GOVERNING BODY :—*Chairman*.—The Minister of State, Government of India, Ministry of Transport & Communications (ex-officio); *Members*.—The Director-General of Shipping (ex-officio); Rector, Bombay University (ex-officio); Amolakh Chand; M. INDIAN INSTITUTE OF TECHNOLOGY

Dr. Annie Besant Road, Worli, Bombay 18.

The Institute is the second in the chain of four such institutes to be set up in the country. The first is located in Kharagpur.

The Institute will have a campus of over 550 acres of picturesque land surrounding the Powai Lake in Greater Bombay which has been placed at its disposal by the Government of Bombay. Permanent buildings of the Institute are at present coming up on this land.

The Institute will have facilities for training about 1,500 students—undergraduate, postgraduate and research. The Institute will provide training in several branches of engineering such as Civil, Mechanical, Electrical, Chemical, Metallurgical, etc. leading to Bachelors and postgraduate degrees.

The Institute will be fully residential and will not only provide hostel accommodation for all the students on the campus but will also provide accommodation to its staff.

The building scheme of the Institute includes laboratories for various departments, central workshop, central library, assembly hall, auditorium, administrative blocks, printing press, hostels for students, a hostel for officers and residential buildings for members of staff.

As a temporary measure the Institute is located in the buildings of the Silk and Art Silk Mills' Research Association at Worli. The Institute was expected to shift to its permanent location at Powai by June 1959.

The Institute has been functioning as an autonomous body governed by a Board of Governors under the Chairmanship of Mr. Kasturba Lalbhai since April 1958.

From the very beginning the UNESCO became associated with the Institute. As a result of an agreement with UNESCO twelve million rupees worth of equipment from U.S.S.R. will be supplied to the Institute. In addition, services of eighteen U.N.E.S.C.O. experts will be made available to the Institute during a five-year period.

Twenty fellowships for training of teachers in U.S.S.R. have also been sanctioned. An agreement for direct aid was also reached with the Government of U.S.S.R. for an equipment worth three-and-a-half million rupees.

Director : Brigadier S. K. Bose.

INDIAN TECHNICAL EDUCATION SOCIETY'S RADIO ELECTRIC INSTITUTE

Lamington Chambers, Opp. "The Naas", Bombay 4.

BOMBAY CITY SOCIAL EDUCATION COMMITTEE

Sales Tax Office Bldg., Swadeshi Mills Compound, Tata Road No. 2, Near Roxy Cinema, Charni Road, Bombay 4.

The Committee imparts Social Education including instruction in community and individual health, hygiene, civics and literacy both in theory and practice.

The Committee carries on the campaign in accordance with the Ten-Year Plan supplemented by "New Approach" for liquidating illiteracy within ten years. However the Plan could not succeed due to want of funds and to extension of its jurisdiction to Greater Bombay. It has now a Fifteen Year Plan for educating 6,75,000 illiterate men and women at an aggregate cost of Rs. 92,06,815.

The Committee has a Special Scheme for educating workers in mills and factories also.

Activities.—The Committee runs 2,000 literacy and 600 post literacy centres per year in Marathi, Gujarati, Hindi, Urdu, Kannada and Telugu; arranges cultural programmes every week; cinema programmes every day; circulates library boxes; science and other exhibitions for the enlightenment of the illiterate masses, cleanliness programmes. It has also established 14 Community Radio Centres in the labour areas. It has organised 2 Matru Vikas Kendras for women and a special Research Department for Social Education.

Finances.—The annual expenditure is about Rs. 8,50,000. The Government of Bombay pays 50 per cent of the annual expenditure and the Bombay Municipality contributes about 20 per cent. Amongst others, Sir Dorabjee Tata, Sir Ratan Tata Trust and N. M. Wadia Charities make regular yearly contributions. A special annual feature is the Social Education Week celebration to collect funds and to propagate social education.

Achievements.—In the last 19 years, the Committee has educated in literacy and general knowledge in Marathi, Hindi, Urdu, Gujarati and Telugu languages more than 888,695 adults of whom 76,536 were women at a total cost of Rs. 42,43,560. Adults are provided with all educational facilities free.

President.—S. L. Sillam (Speaker, Bombay Leg. Assembly); *Secretary*.—B. M. Kapadia.

129, Gulabwadi, Bombay 4.

Free distribution of Books for study of School and with scholarships for study of college to the students of Shrimali Brahman.

TATA INSTITUTE OF FUNDAMENTAL RESEARCH

Apollo Pier Road, Bombay 1.

The Tata Institute of Fundamental Research was established jointly by the Government of Bombay and the Trustees of the Sir Dorabji Tata Trust in June 1945. The object of this all-India Institute is fundamental research in Physics, Mathematics and allied sciences. The Institute is permanently recognised by the University of Bombay as a constituent recognized institution for post-graduate research in physics and mathematics.

Though, at its inception, the Government of India was not directly concerned with the Institute, it has provided grants since 1948. In view of the increasing financial assistance given by the Government of India, which latterly contributed over 90% of the Institute's budget, a tripartite agreement was entered into between the Government of India, the Government of Bombay and the Sir Dorabji Tata Trust, and came into force on April 1, 1956. This agreement, under which the Government of India recognises the Institute as the National Centre for advanced study and fundamental research in nuclear science and mathematics, provides for its administration by a council consisting of representatives of the 3 parties, the Government of India having a major voice.

Till the Atomic Energy Establishment of the Department of Atomic Energy was created, the Department recognised the Institute as the centre for all large-scale projects in nuclear research and entrusted to it important research projects in which it was interested. With the creation of the Atomic Energy Establishment such projects have been taken over by the Establishment; however, pending the construction of its own laboratories at Trombay, facilities are being provided at the Institute to divisions of the Engineering and Physics Groups of the Establishment.

COUNCILJ. R. D. Tata (*Chairman*); Dr. H. J. Bhabha, D.Sc., F.R.S., F.N.I.; P. N. Thapar, I.C.S.; N. N. Wanchoo, I.C.S.; V. T. Dehejia, I.C.S.; Professor R. Choksi, M.A.

STAFF

Academic

Dr. H. J. Bhabha, D.Sc., F.R.S., F.R.S., *Director and Professor of Theoretical Physics*; Professor K. Chandrasekharan, Ph.D., *Professor of Mathematics*; Professor D. D. Kosambi, *Professor of Mathematics*; Professor B. Peters, Ph.D., *Professor of Experimental Physics*; Prof. M. G. K. Menon, Ph.D., Dr. D. Y. Phadke, Ph.D., *Associate Profs. of Experimental Physics*; Dr. S. S. Dharmatti, Ph.D., *Reader in Experimental Physics*; Dr. B. V. Thosar, Ph.D., *Reader in Experimental Physics*; Dr. K. G. Ramanathan, Ph.D., *Reader in Mathematics*.

Administrative

E. C. Allardice, I.C.S. (Retd.), *Deputy Director (Administration)*; N. R. Puthran (*Registrar and Secretary to the Council*).

TATA INSTITUTE OF SOCIAL SCIENCES

Sion-Trombay Road, Chembur, Bombay 38.

Board of Trustees.—Lady Ratan Tata; Sir Homi Mody, K.B.E. (*Chairman*); J. B. D. Tata; Dr. John Matthai; A. D. Shroff; N. H. Tata; Professor E. Choksi (*Managing Trustee*).

Governing Board.—Prof. R. Chokai (*Chairman*); N. H. Tata; D. R. D. Tata; K. G. Saiyidain; Prem Narain; P. A. Narielwala; A. D. Gorwala; Col. L. Sawhny; Prof. A. R. Wadia; L. S. Kudchedkar (*Secretary*).

The Tata Institute of Social Sciences was founded in June, 1936—then known as Sir Dorabji Tata Graduate School of Social Work—by the Trustees of the Sir Dorabji Tata Trust. Admission to the Institute is open only to graduates of recognised universities. The Institute offers a two years' training in professional social work on the successful completion of which a Diploma in Social Service Administration is awarded. The Courses of specialization include Labour Welfare and Industrial Relations, Family and Child Welfare, Medical and Psychiatric Social Work, Community Organisation and Development, Criminology, Juvenile Delinquency and Correctional Administration, Social Research, Rural Welfare and Tribal Welfare.

The Institute also offers one-year programmes of training in Applied Psychology, Social Research and Tribal Welfare and six months' programmes of training in (1) Criminology, juvenile delinquency and correctional administration, (2) Organisation of Community Welfare Centres, (3) Rural Welfare and (4) Labour Welfare and Management.

In addition to the training programmes, the Institute maintains a Department of Research which promotes research in social problems. Under the auspices of the Department of Publications *The Indian Journal of Social Work* is published every quarter and edited by the Director of the Institute.

Among other activities of the Institute are the Child Guidance Clinic and a special school for bedridden children located in the Jerbai Wadia Hospital for Children, Parel, Bombay, and a community welfare centre in Worli, Bombay. Psychological and Group Work Laboratories have also been equipped to provide facilities for practical work.

Director.—Professor A. R. Wadia, M.P.

Registrar.—L. S. Kudchedkar, M.A.

COAL PROCESSING PLANT

Nelson L. Davis Company, Illinois, U.S.A. Coal Preparation and Coal Cleaning Plant; Sole Concessionaires: Greaves Cotton & Co. Ltd., 1, Forbes St., Fort, Bombay.

COLOURS

I. C. I. LTD., Dyestuffs Division, Manchester, England. Selling Agents in India: I.C.I. (India) Private Ltd., Post Box No. 310, Bombay 1.

J. W. & T. A. Smith Ltd., London. Fine Colour & Pigments. Distributors: F. Bock & Co., Shale Building, Bank Street, Fort.

CONCRETE MACHINERY

Gifford-Udall Prestressing Equipment, Sole Agents: Killick, Nixon & Co., Private Ltd., Killick House, Home Street, Fort, Bombay.

Stelmo Ltd., London. Agents: Killick, Nixon & Co., Private Ltd., Killick House, Home Street, Fort.

CONCRETE PRESTRESSED

McCall Macalloy Ltd., Sheffield, England. "Lee McCall" System of Prestressed Concrete: "Macalloy" bars and accessories; Designs and drawings supplied. Richard Johnson & Nephew Ltd., Manchester. H. T. Wires; Sole Representatives: The United Steel Companies (India) Private Ltd., Himalaya House, Hornby Road, Fort.

CONCRETE REINFORCEMENT

McCall & Co., (Sheffield) Ltd., Templeborough, Sheffield, England. "Matobar" High Tensile Electrically Welded Steel Fabric for Reinforcement; "Tenkor"—Bars; Sole Representatives: The United Steel Companies (India) Private Ltd., Himalaya House, Hornby Road, Fort.

Pittsburgh Steel Products Co., Pittsburgh, U.S.A. Distributors: Maneklal & Co., 166, Dr. Dadabhai Naoroji Road, Bombay 1.

Richard Hill Ltd., England. Mfrs. of "MAXWELD" brand Steel Fabric for Concrete reinforcement. Sole Agents in India: Alsals Ltd., 9, Wallace Street, Bombay 1.

CONCRETE VIBRATORS

Allam, E. P., & Co., Ltd., 45, Great Peter Street, Westminster, London, S.W.1. Sole Agents: Healy & Gresham Ltd., 9, Forbes Street, Fort.

Johnson (Machinery) Ltd., C. H., England. Sole Agents: Killick, Nixon & Co., Private Ltd., Killick House, Home Street, Fort.

Wacker Gebrüder, Germany. Gasoline/Electric High Frequency Internal/External Concrete Vibrators, Tampers, Tie Tampers, Plate Vibrators, etc. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

CONDUIT APPLIANCE

Ductube Co. Ltd., London. Agents: Killick, Nixon & Co. Private Ltd., Killick House, Home Street, Fort.

CONFECTIONERS

B. YOUNG & CO., England. Edible Gelatine. Selling Agents in India: Imperial Chemical Industries (India) Private Ltd., P.B. No. 310, Bombay 1.

James Pascaill, Ltd., Confectionery. Sole Agents: J. L. Morrison, Son & Jones (India) Private Ltd., Contractor Building, Nicol Road, Ballard Estate, Bombay 1.

CONFECTIONERY MACHINERY

Rose Brothers (Gainsborough) Ltd., England. Packing, Wrapping, Labelling & Bag Making Machinery. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

CONSULTING ENGINEERS

Ingenieurdienst, G.m.b.H. Germany. Agents: Behram & Co., 1/1 Lakshmi Bldg., Sir P. M. Road, Bombay 1.

CONTRACTORS, PLANT AND MACHINERY

Blaw Knox Ltd., London. Concrete Mixers. Sole Agents: Marshall, Sons & Co. (India) Ltd., Marshall's Building, Ballard Road, Bombay 1.

Boydell & Co. Ltd., E., Manchester (Muir-Hill Dumpers). Agents for Western India: Killick, Nixon & Co. Private Ltd., Killick House, Home Street, Fort.

Cement & Steel Ltd., Kent, (Bar Bending & Bar Shearing Machine). Agents: Killick, Nixon & Co. Private Ltd., Killick House, Home Street, Fort.

Christopher & Sons Ltd., J., London, (Hemel Hoists). Sole Agents: Killick, Nixon & Co. Private Ltd., Killick House, Home Street, Fort.

Florentini & Co., Ing. F., Italy. Agents for Western India:—Killick, Nixon & Co. Private Ltd., Killick House, Home Street, Fort.

Frederick Parker, Ltd., Leicester. Sole Agents: Healey & Gresham Ltd., 9, Forbes Street, Fort.

Friedrich Wilh Schwing G.m.b.H. Germany. Construction Equipment like Self-Supporting Hoists, Climbing Cranes, Hoisting Show Load, etc. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Frits Graupner Ohg., Germany. Stone Polishing, Grinding and Cutting both Petrol & Electrically Driven. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Georg. Stetter Baumaschinenfabrik, Germany. High Speed Builder's Winches, Concrete Mixers, Canal Cranes, etc. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Ingenieurdienst G.m.b.H. Germany. Representatives: Behram & Co., 1/1 Lakshmi Bldg., Sir P. M. Road, Bombay 1.

W. G. Armstrong Whitworth (Metal Industries) Ltd., England. "Kue-Ken" Jaw and Gyrotory Crushers. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Wacker Gebrüder, Germany. Gasoline/Electric High Frequency Internal/External Concrete Vibrators, Tampers, Tie Tampers, Plate Vibrators, etc. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

CONVEYORS AND LOADERS

Barber-Greene (Overseas) Inc., Aurora, Illinois, U.S.A. Barber-Greene Olding Co. Ltd., Hatfield, Herts, England. Bituminous Finishers, Conveyors and Loaders. Sole Distributors: William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.

British Straddle Carrier Co., Ltd., London. Agents: Killick, Nixon & Co., Private Ltd., Killick House, Home Street, Fort.

COPPER SULPHATE

TRAVANCORE CHEMICAL & MANUFACTURING CO. LTD., Travancore; Copper Sulphate; Agents: Imperial Chemical Industries (India) Private Ltd., P.O. Box No. 310, Bombay 1.

CRANES & HOISTS

Clyde, Crane & Booth Ltd., Rodley, Leeds, England and Mossend, Scotland. Electric, Steam and Diesel Dock and Wharf Cranes, Travelling Jib Cranes for Docks, Railways and Collieries, Railway Breakdown and Main Line Cranes and Deck cranes. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort.

Cowans, Sheldon & Co. Ltd. Carlisle. Cranes, Ganties, Lifting Gear, Turntables, etc. Agents: Guest, Keen, Williams, Ltd., Wakefield House, Sprott Road, Ballard Estate, Bombay.

Fellows Brothers Ltd., Cradley Heath, England. Overhead Electric and hand Power Travelling Cranes, Pulley Blocks & Hoists; Sole Concessionaires: Greaves Cotton & Co. Ltd., 1, Forbes Street, Fort, Bombay.

John Smith & Sons (Kelghley) Ltd., Kelghley. Electric Overhead Travelling Cranes. Sole Agents: Marshall, Sons & Co. (India) Ltd., Marshall's Building, Ballard Road, Bombay 1.

KARL KEIENBURG, ESSEN-STEEL, Germany. Manufacturers of Steel Tube Light Construction Cranes for all Purposes. Agents: Gaytee & Company, Jammahesam Chambers, Fort Street, Bombay 1. Phone: 283449. Grams: "IMPENG."

Loro & Parkini, Milan. Sole Agents: Killick, Nixon & Co. Private Ltd., Killick House, Home Street, Fort, Bombay.

Thomas Smith & Sons (Rodley) Ltd., Rodley. Steam and Diesel Cranes. Sole Agents: Marshall, Sons & Co. (India) Ltd., Marshall's Building, Ballard Road, Bombay 1.

CUTTING OILS AND SOLUTIONS

Germ Lubricants Ltd., Salford, Manchester. Lubricating Oils, Greases, Soluble Cutting Oils and Quenching Oils. Sole Concessionaires: Greaves Cotton & Co. Ltd., 1, Forbes St., Bombay.

DAIRY MACHINERY MANUFACTURERS

Enamelled Metal Products Corporation (1933) Ltd., England. "PFAUDLER" Glass Enamelled Steel Storage & Mixing Vessel, Steel Chemical Process Equipment, Stainless Steel Vessel & Equipment. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Pfaudler Co., U.S.A. "Pfaudler" Glass Enamelled Steel Storage & Mixing Vessel, Steel Chemical Process Equipment, Stainless Steel Vessel & Equipment. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Pfaudler Werke A. G., Germany. "Pfaudler" Glass Enamelled Steel Storage & Mixing Vessel, Steel Chemical Process Equipment, Stainless Steel Vessel & Equipment. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Westfalia Separator A. G. West Germany. Agents: Dairy Equipment Co., 204, Dr. Dadabhai N. Road, Bombay 1.

DENTAL GOODS

DENTAL MANUFACTURING CO., LTD., England. (Kallodont, etc.) Selling Agents: I.C.I. (India) Private Ltd., P.B. No. 310, Bombay 1.

Nordenta (Sweden) Ltd., Dental Syringes, Instruments & Equipments. Sole Agents: J. L. Morrison, Son & Jones (India) Private Ltd., Contractor Building, Nicol Road, Ballard Estate, Bombay 1.

DIESEL ENGINES

Andrita, Vienna. Industrial Diesel Engines from 250 BHP. Sole Agents: Marshall, Sons & Co. (India) Ltd., Marshall's Building, Ballard Road, Bombay 1.

Bergius Co. Ltd., The, Glasgow. Agents: India Metal Agencies, Post Box No. 1966, Bombay-1.

Cummins Diesel Export Corp., Indiana, U.S.A. Sole Agents: Blackwood Hodge (India) Private Ltd., Lotus House, Marine Lines, Bombay 1.

Davey Paxman & Co., Ltd., Standard Iron Works, Colchester. Diesel Engines for Stationary, Marine and Rail Traction Duties. Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

Dorman, W. H. & Co., Ltd., Stafford. Industrial and Marine Diesel Engines. Sole Agents: Marshall, Sons & Co. (India) Ltd., Marshall's Building, Ballard Road, Bombay 1.

East Japan Heavy Industries Ltd. (Japan). For Beacon Diesel Engines. Agents in India: Essential Engineering Co., Botawala Building, Elphinstone Circle, Fort.

H. Widdop & Co. Ltd., Kelghley, England. Agents: India Metal Agencies, Post Box No. 1966, Bombay 1.

R. A. Lister & Co. Limited, Dursley, Gloucestershire, England; Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Ruston & Hornsby Ltd., Lincoln & Grantham, England. Horizontal & Vertical Stationary Diesel Engines, also Marine, Main and Auxiliary Diesel Engines. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

Turner Manufacturing Co., Ltd., Wolverhampton. Agents: Killick, Nixon & Co. Private Ltd., Killick House, Home Street, Fort.

DISC SPRINGS

ADOLF SCHNORR, West Germany. Mfrs. of Disc Springs. Sole Agents: Messrs. B. Chowdhury & Co., Indian Globe Chambers, (7th Floor), Fort Street, Fort, Bombay 1. Phone: 26-3470. Grams: "BIBUKH".

**DISINFECTANTS AND
INSECTICIDES, FUNGICIDES,
WEEDKILLERS, LIQUID
CHLORINE ETC.**

**ALKALI & CHEMICAL CORPORATION
OF INDIA LTD.**, Calcutta. Gammaxane brand insecticides etc.) Agents: I.C.I. (India) Private Ltd., Post Box 310, Bombay 1.

BRITISH SULPHATE OF COPPER ASSOCIATION LTD., 1, Great Cumberland Place, London, W. 1. (Copper Sulphate) Agents in India: I. C. I. (India) Private Ltd., Post Box No. 310, Bombay 1.

Dakin Brothers Ltd., 82, Middlesex Street, London, E.1. Manufacturers of Dakin's Cresol Disinfectant. Sole Agents: J. D. Jones & Co. (Bombay) Private Ltd., Ruston Building, Veer Nariman Road, Fort.

Hercules Powder Co., Inc., Wilmington, Delaware, U.S.A. Agents: Hardcastle, Wand & Co. Private Ltd., Alice Buildings, Dr. Dadabhoi Naoroji Road, Fort.

Lee Nagel's (Cowan's) Process for Extermination of White ants. Agents: The Anglo-Thai Corporation, Ewart House, Bruce Street.

Michigan Chemical Corporation, U.S.A. Insecticides. Sole Distributors: Spencer & Co., Ltd., Spencer's Building, Forjett Street, Bombay 26.

PLANT PROTECTION LTD., Bolton House, 61, Curzon Street, Piccadilly, London, W. 1. (For plant protection products and growth promoting chemicals). Agents in India: I. C. I. (India) Private Ltd., Post Box No. 310, Bombay 1.

Thresh Disinfectant Co., Phoenix Works, Marriner Road, Kelghley, Yorks. Sole Agents: Healdy & Gresham, Ltd., 9, Forbes Street.

DOMESTIC APPLIANCES

Lumbys Ltd., London. Hot Water Boiler, etc. Agents: Richardson & Cruddas, Ltd., Byculla, Bombay 8.

DOMESTIC HARDWARES

Valor Co., Ltd., "Stoves, Cookers, Ovens, etc." Sole Agents: J. L. Morrison, Son & Jones (India) Private Ltd., Contractor Building, Nicol Road, Ballard Estate, Bombay 1.

DRAWING OFFICE EQUIPMENT

Lewis Rabjohns Ltd., Acre Works, Brooklands Road, Weybridge, Surrey. Drawing Office Materials and Equipment. Agents: Gillanders Arbuthnot & Co., Ltd., 16, Queen's Road Estate, Bombay 1.

DREDGERS

Fleming & Ferguson Ltd., Paisley. Agents: Glenfield & Kennedy Ltd., 198, Jamshedji Tata Road, Fort.

**DREDGERS AND DREDGING
PLANT BUILDERS**

De Groot, Holland. Bucket Dredgers. Sole Agents: Marshall, Sons & Co. (India) Ltd., Marshall's Building, Ballard Road, Bombay 1.

DRILL STEEL

Sheffield Hollow Drill Steel Co. Ltd., Sheffield; Hollow Drill & Mining Steel; Sole Distributors: William Jacks & Co., Ltd., Hamilton House, Graham Road, Ballard Estate.

Gwynnes Pumps Ltd., Lincoln. Suction Dredgers. Sole Agents: Marshall, Sons & Co. (India) Ltd., Marshall's Building, Ballard Road, Bombay 1.

I. H. C. Holland, Holland. Agents for Western India: Killick, Nixon & Co. Private Ltd., Killick House, Home Street, Fort.

Wm. SIMONS & CO., LTD., Renfrew, Near Glasgow. Representatives: James Finlay & Co., Limited, P.O. Box No. 73, Bombay 1.

Elliott Brothers (London) Ltd., Century Works, Lewisham, London, S.E. 13. Electrical Measuring Instruments and Telegraph Apparatus. Sole Agents: Siemens Edison Swan Ltd., United Bank Building, Sir P.M. Road, P.O. Box No. 1062, Fort, Bombay.

ELECTRICAL MOTOR CONTROL GEAR

BROOKHIRST SWITCHGEAR LTD., Northgate Works, Chester, England. (Electric Motor Control Gear and Auxiliaries). Representatives: James Finlay & Co., Limited, P.O. Box No. 73, Bombay 1.

IGRANIC ELECTRIC CO., LTD., Export Department, Victoria Station House, Victoria Road, London, S.W. 1. (Electric Motor Control Gear and Auxiliaries). Representatives: James Finlay & Co., Limited, P.O. Box No. 73, Bombay 1.

ELECTRICAL PLANT

Asea, Vasteras, Sweden. Manufacturers of all types of electrical machinery and apparatus for power purposes. Representatives: Asea Electric India, Private Limited, Yaff Building, Goa Street, Ballard Estate.

Brown, Boveri & Co., Ltd., Baden, (Switzerland). Steam Turbine and Electrical Machinery Apparatus of every description. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Bruce Peebles & Co. Ltd., Edinburgh. Electrical Machinery, Transformers, etc. Agents: Guest, Keen, Williams, Ltd., Wakefield House, Sprott Road, Ballard Estate, Bombay 1.

ELECTRICAL & RADIO TEST INSTRUMENTS

Avo Ltd., 92-96, Vauxhall Bridge Road, London, S.W. 1. England. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

Sangamo Weston Ltd., Great Cambridge Road, Middlessex, England. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

ELECTRICAL RESISTANCE ALLOYS, NICHROME, ETC.

British Driver-Harris Co. Ltd., Cheshire 15, England. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

Driver-Harris Company Harrison, New Jersey, U.S.A. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

ELECTRICAL SWITCHES AND FUSES

Arrow Electric Switches Ltd., Hanger Lane, Ealing, England, London, W 5. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

ELECTRICAL SWITCHGEAR

British Klockner Switchgear Ltd. Air Break and Oil Immersed Electric Motor Starters, Contractors, Loom Switches, Remote control push button stations—Contact: Ratansi Morarji Private Limited, Post Box No. 1270, Bombay.

Contractor Switchgear Ltd., Wolverhampton, England. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

Dorman & Smith Limited, Electric Switch-fuses, Rewirable & H.E.C. fuses, Miniature Circuit Breakers, Lighting Fittings, Plugs and Sockets—Contact: Ratansi Morarji Private Limited, Post Box No. 1270, Bombay.

Midland Electric Mfg. Co. Ltd., Birmingham. Distributors: Advani & Co., 7 Shahviri Bldg. 37, Picket Road, Bombay 2.

M. & C. Switchgear Ltd., Glasgow. Electrical Switchgear. Agents: Guest, Keen, Williams Ltd., Wakefield House, Sprott Road, Ballard Estate, Bombay 1.

Sprocher & Schuh Ltd., Aaran (Switzerland). Agents: Kaycee Industries Ltd., Kamani Chambers, Nicol Road, Bombay 1.

Stots—Kontakt G.m.b.H. Heidelberg (Germany) Agents: Advani & Co., 7, Shahviri Bldg., 37, Picket Road, Bombay 2.

Yorkshire Switchgear & Engineering Co. Limited, Meanwood, Leeds 6, England. Manufacturers of Metalclad H. V. Switchgear. Representatives: Asea Electric India Private Limited, Yaff Building, Goa Street, Ballard Estate.

ELECTRICAL WIRES & CABLES

Manufactures De Cables Electriques Eupen, Belgium. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

ELECTRODES

Cooper & Turner Ltd., Vulcan Works, Vulcan Road, Sheffield, England. Sole Agents: Datsun, Raviraj & Co., Private Ltd., 43, Tamarind Lane, Fort, Bombay. Phone: 39333.

Murex Welding Processes Ltd., Waltham Cross, Herts. Agents: Guest, Keen, Williams, Ltd., Wakefield House, Sprott Road, Ballard Estate, Bombay 1.

Union Carbide International Company, New York 17, N.Y. (U.S.A.). Acheson Graphite and National Carbon Electrodes for Electrothermic & Electrolytic applications, Carbon Lining Blocks, Bricks, Paste, etc., Chemically inert "Karbate" (Impervious Carbon and Graphite) Products. Representatives in India: Voltas Limited, Ballard Estate, Bombay 1.

Weldcraft Ltd., 26, Purley Way, Croydon, England. Manufacturers of "Bronze-craft" Low Temperature Welding Rods. Sole Agents: Datsun Raviraj & Co., Private Ltd., 43, Tamarind Lane, Fort.

Welding Supplies Ltd., England. Electrodes & Welding Plants, Magnetic Crack Detectors, and Gas Cutting Machines. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

ELECTRONIC APPARATUS FOR RESEARCH & INDUSTRY

Allen B. Du Mont Laboratories, Inc. International Division, 515, Madison Avenue, New York, 22 N.Y., U.S.A. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

Boonton Radio Corp., Boonton, New Jersey, U.S.A. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

Southern Instruments Ltd., Surrey, England. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

Sperry Gyroscope Co. Ltd., Brentford, Middlesex, England. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

Sperry Gyroscope Co. Division of the Sperry Rand Corporation. Great Neck, New York, U.S.A. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

ELECTRONIC APPARATUS & RADIO BROADCASTING & COMMUNICATION EQUIPMENT

Westinghouse Trading Co. (Asia) Ltd., 40 Wall Street, New York, U.S.A. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

ELECTRONIC EQUIPMENT AND INSTRUMENTS

Brush Instruments. 3405, Perkins Avenue, Cleveland 14, Ohio, U.S.A. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

Electronic Instruments Ltd., Surrey, England. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

General Radio Company, 275, Massachusetts Avenue, Cambridge 39, Mass., U.S.A. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

ELECTROPLATING & POLISHING EQUIPMENTS

I.C.I. LTD., General Chemicals Division, England. (Cyanides) Agents: I.C.I. India Private Ltd., P.B. No. 310, Bombay 1.

MOND NICKEL CO. LTD. THE, England. (Nickel Sulphate, Chloride etc.). Agents: I.C.I. (India) Private Ltd., P.O. Box No. 310, Bombay 1.

R. Cruickshank Ltd., Camden St., Birmingham 1. Agents: Haricastle, Waud & Co. Private Ltd., Alice Buildings, Dr. Dadabhoy Naoroji Road, Bombay 1.

W. Canning & Co., Ltd., Birmingham, England. Agents and Chief Distributors: S. Mitra & Co., 187, Dr. Dadabhoy Naoroji Road, Bombay 1. Grams: "Mludeshl."

ENGINEERING

Aerex Ltd., 46, Rutland Park, Sheffield. Mine Ventilating Fans. Agents: Balmer Lawrie & Co. Ltd., 5, Graham Road, Ballard Estate, Fort, Bombay. Phone: 261494 (3 lines). Grams: "BALMER".

Ashworth & Parker, Ltd., Bury, Lancs. High Speed Steam Engines and Accessories. Sole Representatives: W. H. Brady & Co., Ltd., Veer Nariman Road, Fort, Bombay 1.

Beck & Co. (Meters) Ltd., etc. Agents: Haricastle, Waud & Co. Private Ltd., Alice Buildings, Dr. Dadabhoy Naoroji Road, Fort.

British Pitometer Co., Ltd., London. Agents: Glenfield & Kennedy, Ltd., 198, Jamshedji Tata Road, Fort, Bombay 1.

Charles Thomas & Co., Ltd., Wainwright Street, Aston, Birmingham, 6, England. Agents: Soho House, Lohar Street, Bombay.

Christiani & Nielsen, Copenhagen, Denmark. Patented R.C.C. Arch Bridges with inclined hangers. Sole Agents in India: Gammon India Private Ltd., Hamilton House, Ballard Estate.

Craven Bros. Crane Division, Ltd., Loughborough. Breakdown and Railway Cranes. Sole Representatives: W. H. Brady & Co., Ltd., 12/14, Veer Nariman Road, Fort, Bombay 1.

Glenfield & Kennedy, Ltd., Kilmarnock. Agents: Glenfield & Kennedy, Ltd., 198, Jamshedji Tata Road, Fort, Bombay 1.

Head, Wrightson & Co., Ltd., Stockton Forge Division, Stockton-on-Tees, England. Ore mining and Treatment Plant, Coal mining and Treatment Plant. Selling Agents: Balmer Lawrie & Co., Ltd., 5, Graham Road, Ballard Estate, Bombay. Phone: 261494 (3 lines). Grams: "BALMER".

Henricot Steel Foundry, 5, Lawrence Pountney Hill, Cannon Street, London, E. C. 4. Steel Castings. Agents: Haricastle, Waud & Co. Private Ltd., Alice Buildings, Dr. Dadabhoy Naoroji Road, Fort.

Hick Hargreaves & Co., Ltd., Steam Engines and Turbo Generators. Representatives: W. H. Brady & Co., Ltd., Veer Nariman Road, Fort, Bombay 1.

Hoffman Sprinkler Co., Ltd., Manchester. Specialists. Sole Representatives: W. H. Brady & Co., Ltd., 12/14, Veer Nariman Road, Fort, Bombay 1.

Hopkinson, Ltd., Huddersfield. Mountings and Fittings for all classes of Engines and Boilers, Steam, Air and Oil Valves, Oil Purifiers. Sole Representatives: W. H. Brady & Co., Ltd., 12/14, Veer Nariman Road, Fort, Bombay 1.

Kent, George, Ltd., Biscot Road. Works: Luton, Beds. Steam, Water, Air and Oil Meters and Recorders. Sole Representatives: W. H. Brady & Co., Ltd., 12/14, Veer Nariman Road, Fort, Bombay 1.

Lister & Co. (R. A.), Dursley, Glos. Auto Trucks. Agents: Balmer Lawrie & Co., Ltd., 5, Graham Road, Ballard Estate, Bombay. Phone: 261494 (3 lines). Grams: "BALMER".

Morris (Herbert), Ltd., Loughborough. Hand & Electric Cranes, Pulley Blocks, Runways, Stacking Machines, Lifts, Conveyors, Elevators, and all types of Mechanical Handling Equipments. Sole Representatives: W. H. Brady & Co., Ltd., 12/14, Veer Nariman Road, Fort, Bombay 1.

Norris, Henty & Gardner, Ltd., High Speed Oil Engines. Sole Representatives: W. H. Brady & Co., Ltd., Veer Nariman Road, Fort, Bombay 1.

Power Plant Co., Ltd., England. Agents: Balmer, Lawrie & Co., Ltd., 5, Graham Road, Ballard Estate, Bombay. Phone: 261494 (3 lines). Grams: "BALMER".

Renold Chain Ltd., Didsbury, Manchester. Chains, Chain Drives, etc. Sole Representatives for India: W. H. Brady & Co., Limited, 12/14, Veer Nariman Road, Fort, Bombay 1.

Richard Klinger Ltd., Klinger Engineering specialties. Agents: Haricastle, Waud & Co., Private Ltd., Alice Buildings, Dr. Dadabhoy Naoroji Road, Fort.

Ultra Lens Company, The, London, E.C. 2. Agents: Haricastle, Waud & Co., Private Ltd., Alice Buildings, Dr. Dadabhoy Naoroji Road, Fort.

Veeder-Root Ltd., Hartford, U.S.A. Counters. Sole Representatives: W. H. Brady & Co., Ltd., 12/14, Veer Nariman Road, Fort, Bombay 1.

Weir, G. & J., Ltd., Glasgow. Pumps & Power Plant Auxiliaries, Refrigeration Plant. Sole Representatives: W. H. Brady & Co., Ltd., 12/14, Veer Nariman Road, Fort, Bombay 1.

Wells, A. C., & Company Ltd., Manchester. Wells Oil Filters. Agents: Haricastle, Waud & Co., Private Ltd., Alice Buildings, Dr. Dadabhoy Naoroji Road, Fort.

ENGINEERING STORES & HARDWARE

Dicks Asbestos and Insulating Co., Ltd., Asbestos Packings. Sole Representatives: W. H. Brady & Co., Ltd., 12/14, Veer Nariman Road, Fort, Bombay 1.

Dixon (Joseph), Crucible Co., Graphite Specialities. Sole Representatives: W. H. Brady & Co., Ltd., 12/14, Veer Nariman Road, Fort, Bombay 1.

Lushington Tool & Gauge Co., Ltd., England. Representatives: Behram & Co., 1/1 Lakshmi Bldg., Sir P. M. Road, Bombay, 1.

Nicholson File Co., Providence, U.S.A. Files and Rasps. Wholesale Representatives in Bombay State: W. H. Brady & Co., Ltd., 12/14, Veer Nariman Road, Fort, Bombay 1.

Signode Steel Strapping Co., Chicago. "Signode System" of Strapping and Seals. Sole Representatives: W. H. Brady & Co., Ltd., 12/14, Veer Nariman Road, Fort, Bombay 1.

ENGRAVING MACHINES

Taylor, Taylor & Hobson Ltd., England. Engraving Machines, Pantograph Milling & Diesinking Machines, Electric Etching Equipment. Toolmakers' Microscopes, Talysurf Instrument, Talysond Roundness Measuring Instrument, Auto-Collimator, etc. Sole Distributors: William Jacks & Co. Ltd., Bharat House, Apollo Street, Fort, Bombay.

ESSENCES & PERFUMES

N. V. SLUYS BOECROUT, BELGIUM. Sole Selling Agents in India: Industrial and Allied Chemicals, National House, 6, Talloch Road, P.O. Box 488, Bombay 1.

ESSENTIAL OILS

Antoine Chiris, S. A., Grasse, France. Sole Agents: Anil Trading Co. 32, Princess Street, Bombay 2.

Destilaciones Bordas Chinchureta, S.A., Seville, Spain. Essential Oils. Distributors: F. Bock & Co., Shale Building, Bank Street, Fort.

Destilaciones Garcia De la Fuente S.A., Granada (Spain). Sole Agents: Aromatic Products & Chemicals Private Ltd., 42, Prospect Chambers Annexe, Dr. Dadabhoy Naoroji Road, Fort, Bombay 1. Grams: "DISCOVERY."

Dragoco-Holzmlinden, W. Germany. Agents: B. C. Patel & Co., 79, Princess Street, Bombay 2.

ESROLKO LTD. (formerly FLORA), Switzerland. Mfrs. of Synthetic Essential Oils & Aromatic Chemicals. Agents: M. C. Davar & Co., 143, Princess Street, Bombay 2.

H. Raab & Co., Amsterdam, Holland. Agents: B. C. Patel & Co., 79, Princess Street, Bombay 2.

Jean A. du Crocq Jr. N. V., Hulzen N. H., Holland. Agents for Bombay State: B. K. Shapurji & Co., Prospect Chambers, 319, Dr. Dadabhoy Naoroji Road, P.B. No. 1065, Bombay 1.

Takasago Perfumery Co. Ltd., Tokyo, Japan. Sole Agents: Aromatic Products & Chemicals Private Ltd., 42, Prospect Chambers Annexe, Dr. Dadabhoy Naoroji Road, Fort, Bombay 1. Grams: "DISCOVERY."

EXCAVATING MACHINERY MANUFACTURERS

Blaw Knox Ltd., London. Excavators. Sole Agents: Marshall, Sons & Co. (India) Ltd., Marshall's Building, Ballard Road, Bombay 1.

Harnischfeger Corporation, International Division, Milwaukee, Wisconsin, U.S.A. Power Shovels, Dragliners, Cranes, Clamshells and Soil Stabilizers. Sole Distributors: Voltas Ltd., Chinchpokli Road, Bombay 12.

Marlon Power Shovel Co., Ohio, U.S.A. Agents: Blackwood Hodge (India) Private Ltd., Lotus House, Marine Lines, Bombay 1.

Newton Chambers & Co. Ltd., Horncliffe, Sheffield. Excavators, Earthmoving Plant. Agents: Balmer Lawrie & Co. Ltd., 5, Graham Road, Ballard Estate, Bombay. Phone: 261494 (3 lines). Grams: "BALMER".

Thomas Smith & Sons (Rodley) Ltd., Rodley, Excavators. Sole Agents: Marshall, Sons & Co. (India) Ltd., Marshall's Building, Ballard Road, Bombay 1.

EXPLOSIVES (CHEMICALS)

I.C.I. LTD. Nobel Division, Glasgow, Scotland. Commercial Explosives & Accessories for Blasting also Sporting Gunpowder. Selling Agents: **I.C.I. (India) Private Ltd.**, P.B. No. 310, Bombay 1.

FACTORY AND CALENDAR CLOCKS

Solari Remici O. & C. (Italy). Agents: for India: **Essential Engineering Co.**, Botawalla Building, Horniman Circle, Fort, Bombay.

FANS

Blackman Export Co., Ltd., London. Industrial Fans and Blowers. Sole Agents: **Marshall Sons & Co. (India) Ltd.**, Marshall's Building, Ballard Road, Bombay 1.

FILTERS

Vokes Ltd., Guilford, England. Agents: **John Fowler India Private Ltd.**, Marshall's Bldg., Ballard Road, Bombay 1.

FIRE ENGINES AND APPLIANCES MANUFACTURERS

Coventry Climax Engines, Ltd., Widdrington Road Works, Coventry (ENGLAND). Sole Agents: **Kooverji Devshi & Co.**, Private Ltd., 164, Lohar Street, Bombay 2.

Dennis Bros. Ltd., Guildford, Surrey, England. Dennis' Motor, Fire Engines and Trailer Pumps. Agents: **Roberts, McLean & Co., Ltd.**, Ilaco House, Sir Phirozshah Mehta Road.

Merryweather & Sons, Ltd., Greenwich, London. Fire Engines & Appliances. Agents: **Balmer Lawrie & Co., Ltd.**, 5, Graham Road, Ballard Estate, Bombay. Phone: 261494 (3 lines). Grams: "BALMER."

Read & Campbell Ltd., 75, Victoria Street, Westminster, London S.W. 1 (ENGLAND). Sole Agents: **Kooverji Devshi & Co.**, Private Ltd., 164, Lohar Street, Bombay 2.

Walter Kidde Co., England. Fire Extinguishers and built-up systems. Agents: **Roberts McLean & Co., Ltd.**, Ilaco House, Sir Phirozshah Mehta Road, Fort.

FIRE FIGHTING APPLIANCES

Albion Motor Co., Sweden. Sole Agents: **National Fire Equipment Co.**, 11 Bank Street, Bombay 1.

Firewater Company, 1, First Street, Los Altos, California (U.S.A.). Sole Agents: **Kooverji Devshi & Co.**, Private Ltd., 164, Lohar Street, Bombay 2.

H. Christoferson & Co., Goteburg, Sweden. Agents: **National Fire Equipment Co.**, 11, Bank Street, Fort, Bombay 1.

James Hendry Ltd., 252 Main Street, Bridgeton, Glasgow, S.E. (ENGLAND). Sole Agents: **Kooverji Devshi & Co.**, Private Ltd., 164, Lohar Street, Bombay 2.

Koehler Mfg. Co., Marlboro, Massachusetts (U.S.A.). Sole Agents: **Kooverji Devshi & Co.**, Private Ltd., 164, Lohar Street, Bombay 2.

Mandals Reherbane C. H. Co., Oslo, Norway. Sole Agents: **National Fire Equipment Co.**, 11, Bank Street, Fort, Bombay 1.

Pyrene Company Ltd. Fire fighting Appliances. Sole Distributors: **William Jacks & Co., Ltd.**, Hamilton House, Graham Road, Ballard Estate.

FIRE WORK MFRS.

ALBRIGHT & WILSON LTD., England. (Stremthum Nitrate). Selling Agents: **I.C.I. (India) Private Ltd.**, Post Box No. 310, Bombay 1.

ENGLISH METAL POWDER CO., LTD., England. Aluminium Powder Pyrotechnic. Selling Agents: **I.C.I. (India) Private Ltd.**, Post Box No. 310, Bombay 1.

I.C.I. LTD. Nobel Division, England. (Barium Nitrate). Selling Agents: **I.C.I. (India) Private Ltd.**, Post Box No. 310, Bombay 1.

FISH (PRESERVED)

Seafood Products Ltd., Vancouver. Frozen Fish. Sole Distributors: **Spencer & Co., Ltd.**, Spencer's Building, Forjett Street, Bombay 26.

Stavanger Preserving Co., A.S. Canned Fish. Sole Agents: **J. L. Morison, Son & Jones (India) Private Ltd.**, Contractor Building, Nicol Road, Ballard Estate, Bombay 1.

FLAME GUNS & BURNERS

Hauck Manufacturing Co., U.S.A. Agents: **Guest, Keen, Williams, Ltd.**, Wakefield House, Spratt Road, Ballard Estate, Bombay 1.

FLAVOURING & PERFUMERY RAW MATERIALS

Jean A. du Crocq Jr. N. V., Hulzen N. H. Holland. Sole Agents for Bombay State: **E. K. Shapurji & Co.**, Prospect Chambers, 319, Dr. Dadabhai Naoroji Road, P.B. No. 1065, Bombay 1.

FLOOR HARDENING COMPOUND

Ironite Co., Ltd., 4, Holbeine Place, Sloane Square, London, S.W. 1. Sole Agents: **Heath & Graham, Ltd.**, 9, Forbes Street, Fort.

FLOUR MILLING PLANT & MACHINERY

E. R. & F. Turner Ltd., England. Complete Flour Milling Plant and Machinery. Sole Distributors: **William Jacks & Co. Ltd.**, Hamilton House, Graham Road, Ballard Estate.

FOOD PREPARATION MACHINERY

Allied Ironfounders Ltd., England. Heavy duty Hotel & Canteen Cooking and Food Preparation Machinery. Sole Distributors: **William Jacks & Co. Ltd.**, Hamilton House, Graham Road, Ballard Estate.

FORGINGS AND STAMPINGS FOR RAILWAYS

COMPTON DES FERRURES, CHARLEVILLE (ARDENNES), France. Manufacturers of Component Parts of Machinery, Rolling Stock, etc. Agents: **Gaytee & Company, Jammabhoomi Chambers, Fort Street, Bombay.** Phone: 263449. Grams: "IMPENG."

USINES ET ACHIERIES DE SAMBRE ET MEUSE, Paris, France. Steel Castings, Carbon Steel and Alloy Steel. Railroad Parts, Armament Products, Aircraft Bombs, Machinery, etc. Agents: **Gaytee & Company, Jammabhoomi Chambers, Fort Street, Bombay.** Phone: 263449. Grams: "IMPENG."

FORK LIFT TRUCKS

Coventry Climax Engines Ltd., Widdrington Road Works, Coventry. Fork Lift Trucks, etc. Sole Distributors: **William Jacks & Co. Ltd.**, Hamilton House, Graham Road, Ballard Estate.

FOUNDRY MATERIAL & EQUIPMENT

BEARDSLEY & PIPER, U.S.A. Manufacturers of "SANDLO" Core Blowers. Sole Agents: **Pioneer Equipment Co., Private Ltd.**, 139, Meadows Street, P.O. Box 1909, Bombay 1 (Phone: 251882). Also at 1, Mangoe Lane, Calcutta 1 (Phone: 231611) and 193, Mount Road, Madras 2. Grams: "PIOMETAL."

Foundry Services International Ltd., Long Acre, Nechelles, Birmingham. Foundry Fluxes, for use in the founding of light alloys, non-ferrous & ferrous metals. Sole Concessionaires: **Greaves Cotton & Co. Ltd.**, 1, Forbes Street, Fort, Bombay.

GRAUE, G.m.b.h., W. Germany. Manufacturers of Sand Conditioning & Foundry Mechanisation Plants. Sole Agents: **Pioneer Equipment Co. Private Ltd.**, 139, Meadows Street, P.O. Box 1909, Bombay 1 (Phone: 251882). Also at 1, Mangoe Lane, Calcutta 1 (Phone: 231611) and 193, Mount Road, Madras 2. Grams: "PIOMETAL."

GUSTAVE ZIMMERMANN MASCHINENFABRIK, G.m.b.h., W. Germany. Manufacturers of famous Zimmermann Moulding Machines. Sole Agents: **Pioneer Equipment Co., Private Ltd.**, 139, Meadows Street, P.O. Box 1909, Bombay 1 (Phone: 251882). Also at 1, Mangoe Lane, Calcutta 1 (Phone: 231611) and 193, Mount Road, Madras 2. Grams: "PIOMETAL."

Hauck Manufacturing Co., U.S.A. Agents: **Guest, Keen, Williams, Ltd.**, Wakefield House, Spratt Road, Ballard Estate, Bombay 1.

HESONWERK, Germany. Manufacturers of Moulding Boxes etc. Sole Agents: **Pioneer Equipment Co. Private Ltd.**, 139, Meadows Street, P.O. Box 1909, Bombay 1 (Phone: 251882). Also at 1, Mangoe Lane, Calcutta 1 (Phone: 231611) and 193, Mount Road, Madras 2. Grams: "PIOMETAL."

Houghton, E. F. & Co., Philadelphia. Agents: **Hardcastle, Waud & Co.**, Private Ltd., Alice Buildings, Dr. Dadabhai Naoroji Road, Fort.

Morgan Crucible Co. Ltd., The Battersea Church Road, London, S.W. 11. Morgan's tilting and Lift-out Furnaces—Coke and Oil-fired, Crucibles and Accessories, Plumbago and Fatching Materials, Refractoryware and other allied articles. Sole Concessionaires: **Greaves Cotton & Co. Ltd.**, 1, Forbes Street, Fort, Bombay.

Newton Chambers & Co., Ltd., Thorncliffe. Agents: **Killick, Nixon & Co.**, Private Ltd., Killick House, Home Street, Fort.

Robinson Major & Co., Manchester. Manufacturers of "SCOLS" Iron Cement, Pipe Joint Compound, Tube and Bar Bending Machines. Sole Agents: **J. D. Jones & Co. (Bombay), Private Ltd.**, Ruston Building, Vir Nariman Street, Fort.

SISSON LEHMANN, France. Manufacturers of Shot Blasting machines. Sole Agents: **Pioneer Equipment Co., Private Ltd.**, 139, Meadows Street, P.O. Box 1909, Bombay 1 (Phone: 251882). Also at 1, Mangoe Lane, Calcutta 1 (Phone: 231611) and 193, Mount Road, Madras 2. Grams: "PIOMETAL."

FOUNTAIN PEN

Montblanc Sempio GmbH.—Germany. Manufacturers of Quality Writing Instruments, Pens, Pencils, Desk-sets & Ink. Sole Agents in India: **Jhaveri Bros. & Co.**, Private Ltd. (Established 1914), 345, Abdul Rehman Street, Opp. Crawford Market, Bombay 3. Grams: "MONTBLANO"

FORK LIFT TRUCKS

Yale & Towne Manufacturing Co., U.S.A., U.K., Germany and Associates. Industrial Fork Lift Trucks and Hoists. Sole Distributors: Voltas Limited, Chinchpokli Road, Bombay 12.

FRUIT JUICES AND EXTRACTS

H. D. Davies & Co., Ltd., 98/100 Bishopsgate, London E.C. 2. Sole Distributors: Spencer & Co. Ltd., Spencer's Building, Forjett Street, Bombay 26.

E. I. Michel & Co., Ltd., 415, Oxford Street, London W.1. Sole Distributors: Spencer & Co., Ltd., Spencer's Building, Forjett Street, Bombay 26.

FUEL INJECTION SERVICING EQUIPMENT

Leslie Hartridge, England. Fuel Injection Servicing Equipment. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

FUEL LINE PIPES

TECHNO-CHEMIE KESSLER & CO., West Germany. Mfrs. of Fuel line pipes. Sole Agents: Messrs. B. Chowdhury & Co., Indian Globe Chambers (7th Floor), Fort Street, Fort, Bombay 1. Phone: 26-3479. Grams: "BISUKHI."

FURNACES

Furnace Construction Co., Birmingham, England. All kinds of Furnaces. Sole Concessionaires: Greaves Cotton & Co. Ltd., 1, Forbes Street, Fort, Bombay.

G. W. B. Furnaces Ltd., England. (Manufacturers of large Electric Furnaces). Sole Agents: Indian Furnace Co., Private Ltd., Lotus Cinema Buildings, Hornby Vellard, Bombay 8.

I. C. I. LTD., General Chemicals Division, England ("CASSEL" Heat Treatment Furnaces). Selling Agents: I. C. I. (India) Private Ltd., Post Box No. 310, Bombay 1.

Morgan Crucible Co. Ltd., The, Battersea Church Road, London, S.W. 11. Morgan's tilting and Lift-out Furnaces, Oil and Coke-fired. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

OTTO-JUNKER, G. m. b. h., Germany. Electric Steel smelting and heat treatment Furnaces. Agents: Pioneer Equipment Co. Private Ltd., 139, Meadows Street, P.O. Box No. 1909, Bombay 1 (Phone: 251882). Also at 1, Mangoe Lane, Calcutta 1 (Phone: 231611) and 193, Mount Road, Madras 2. Grams: "PIOMETAL."

SKELNAR FURNACES LTD., Cardiff, U.K. Melting Furnaces, Reverberatory—Capacity 25 lb. to 5 tons—oil, coke and gas fired. Also Holding Furnaces. Sole Agents: Pioneer Equipment Co. Private Ltd., 139, Meadows Street, P.O. Box 1909, Bombay 1 (Phone: 251882). Also at 1, Mangoe Lane, Calcutta 1 (Phone: 231611) and 193, Mount Road, Madras 2. Grams: "PIOMETAL."

Stein & Atkinson Ltd., Parnell House, 25, Wilton Road, London, S. W. 1. Sole Agents: Heatly & Gresham Ltd., 9, Forbes Street, Fort.

Thermic Equipment and Engineering Co. Ltd., England. Sole Agents in India: Indian Furnace Co., Private Ltd., Lotus Cinema Buildings, Hornby Vellard, Bombay 8.

Wild-Barfield Electric Furnaces Ltd., England. Associated Company in India: Indian Furnace Co., Private Ltd., Lotus Cinema Buildings, Hornby Vellard, Bombay 8.

GARAGE EQUIPMENT

A/B Carl Larssons—Mek-Verksland, Gothenberg Sweden. Agents: Chandul Mehta & Co., (Private) Ltd., 15, New Queen's Road, Bombay 4.

B. O. Morris Ltd., England. "Morrisflex" Flexible Shaft Equipment for Motor Garages, Workshops and for Boiler Decaling Agents: Armstrong Smith Private Ltd., Sir P. M. Road, Bombay 1.

Barrett Equipment Co., U.S.A. Brake Drum Lathes, Brake Reining Machines, Hydraulic Brake Bleeder & Filler Tanks. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Bear Manufacturing Co., U.S.A. Wheel Alignment and other Automotive Testing Equipment. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Black & Decker Ltd., England. "UTILITY" Portable Electric Tools, Valve Refacers, Vibrocentric Kits, Bench & Portable Grinders, etc. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

British Tool & Engineering Co., Ltd., England. Sole Agents: Elliott Waud & Hill Private Ltd., 1-2, Lakshmi Bldg., Sir P. M. Road, Bombay 1.

C. & E. Fein, Germany. Heavy Duty Portable Electric Drills with Universal Motors 440 volts A.C. Drills, Slow Speed Drills, Multispeed Drills, Right Angle Drills and Attachments, Screw Drivers, Impact Wrenches, Valve Grinders, Tappers, Tool Post & Precision Lathe Grinders, Brake Drum & Journal Grinders, Shears, Nibblers, Pipe Cutting Saws, Stone (Rock) Drilling Machines, Hammers, etc. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Churchill, V. L. & Co., 27/84, Walnut Tree Walk, Kennington, London, S.E. 11. Agents: Heatly & Gresham, Ltd., 9, Forbes Street, Fort.

Clayton Manufacturing Co., U.S.A. GLAYTON Engine and Chassis Dynamo meters. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

De Vilbiss Company, Ohio, U.S.A. Air Compressing & Spray Painting Outfits, Hose, etc. Agents: John Fleming & Co., Private Ltd., Bastion Road, Fort, Bombay 1. Phone: 261158.

E. Asbeck-Genelsberg, Germany. Agents: Chandul Mehta & Co., (Private) Ltd., 15, New Queen's Road, Bombay 4.

Hall-Toledo (Division of Baker Bros. Inc.), U.S.A. Production Valve Seat Grinders, Eccentric Grinders. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Harvey Frost & Co. Ltd., England. Garage Tools, Jacks, Tyre Changers, Vulcanising Equipment. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Homestead Valve Mfg. Co. Ltd., U.S.A. Hypressure Steam Jennis & Compounds. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Joseph Bradbury & Sons Ltd., England. Garage Equipment, Jacks, etc. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

King Electric Equipment Co. Inc. Cleveland, Ohio, U.S.A. Agents: Chandul Mehta & Co., (Private) Ltd., 15, New Queen's Road, Bombay 4.

Lisle Corporation, U.S.A. Cylinder Honing Machines, Wet Honing Machines, Bldge Reamers, Rod Aligners, Glaze Brakers, Garage Tools. Also "Lisle" MAGNETIC PLUGS. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Newton Bros. (Cudworth) Ltd., England. Hand or Power Operated Main Wire Bearing Boring Machines, Conrod Aligning & Boring Machines and other Engine Reconditioning Equipment. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Tecalemit Ltd., Brentford, U.K. Agents: Tecalemit (India) Ltd., 9, Forbes Street, Fort, Bombay.

Van Norman Co., U.S.A. Cylinder Boring Bars, Crankshaft Regrinders, Horizontal Surface Grinders, Automatic Wet Honer, Super Rotary Surface Grinder, Con-Rod Boring Machine, Piston Turning & Grinding Machines, Race-way Grinding Machines, Special purpose Milling Machines. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

GAS CUTTING MACHINERY

Welding Supplies Ltd., England. Electrodes & Welding Plants, Magnetic Crack Detectors, and Gas Cutting Machines. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

GAS GENERATORS

Bottagas Ltd., 6, London Street, Paddington W.2. Agents: Heatly & Gresham Ltd., 9, Forbes Street, Fort.

GAS MAKING PLANT, ETC.

Humphreys & Glasgow Ltd., London. Agents: Killick Nixon & Co., Private Ltd., Killick House, Home Street, Fort.

GAS TURBINES

Blackburn & General Aircraft Ltd., Brough, East Yorks, England. Gas Turbine driven Compressors, Generators and Pumping Equipment. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

Bristol Aero-Engines Ltd., Filton House, Bristol, England. Gas Turbine Marine Engines. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

Euston & Hornsby Ltd., Lincoln, England. Gas Turbines. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

GAUGES & INSTRUMENTS

Bailey & Mackey Ltd., Birmingham, England. Agents: Keshavlal Narsidas Jallwala, 157, Abdul Rehman Street, Bombay 3.

BRITISH STEAM SPECIALITIES LTD., Leicester, England. Manufacturers of Pressure Vacuum and Hydraulic Gauges. Agents: Gaytee & Company, Jannabhooni Chambers, Fort Street, Fort. Phone: 283446. Grams: "IMPENG."

Coley Thermometers Ltd., Brentford, Middlesex. Thermometers & Pressure Gauges. Sole Concessionaires: Greaves Cotton & Co., Ltd., Forbes Street, Fort, Bombay.

Dobbie McInnes Ltd., Glasgow. Engine Indicators & Accessories. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

Heath & Co., London. Mercury and Fluid-in-Glass Thermometers. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

Joseph Tormey & Sons Ltd., England. Gauge glasses, Pressure-Vacuum & Temperature Gauges. Agents: John Fleming & Co. Private Ltd., Bastion Road, Fort, Bombay 1. Phone: 261153.

GEARS

David Brown Corporation (Sales) Ltd., Huddersfield, England. All types of open Gearing, Totally enclosed Gear units, Automobile Gears, Geared Motors. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

GENERATING SETS

Hampson Industries Ltd., West Bromwich. Generating Sets. Sole Agents: Marshall, Sons & Co. (India) Ltd., Marshall's Building, Ballard Road, Bombay 1.

GLASS-CRETE BLOCKS

King, J. A., & Co., Ltd., Bridge House, 181, Queen Victoria Street, London, E.C. 4. Agents: Heatly & Gresham Ltd., 9, Forbes Street, Fort.

GLASSWARE

PARKINSON AND SPENCER LTD., England. (Refractory materials). Agents: I.C.I. (India) Private Ltd., P.O. Box No. 310, Bombay 1.

UNITED GLASS BOTTLE MANUFACTURERS LTD., England. ("SHEEDLEY" brand Glassware). Selling Agents: I. C. I. (India) Private Ltd., Post Box No. 310, Bombay 1.

GLUCOSE AND STARCH MANUFACTURERS

Irving R. Boody & Co., Inc., New York. Liquid Glucose 45° Baume. Distributors: F. Dock & Co., Shale Building, Bank Street, Fort.

GLUES, 'CHURN' MINERAL SUPPLEMENT

BHOPAL GLUES & CHEMICALS, Bhopal. Selling Agents: I.C.I. (India) Private Ltd., P.B. 310, Bombay 1.

BRITISH GLUES & CHEMICALS LTD., England. Selling Agents: I. C. I. (India) Private Ltd., Post Box No. 310, Bombay 1.

GUMS

H. IMAMI & SONS, Teheran (Gum Tragacanth). Selling Agents in India: I. C. I. (India) Private Ltd., Post Box No. 310, Bombay 1.

HEAT TREATMENT SALTS

IMPERIAL CHEMICAL INDUSTRIES LTD., General Chemicals Division, England. ("Cascel" brand Heat treatment Salts). Agents in India: I.C.I. (India) Private Ltd., Post Box No. 310, Bombay 1.

HEAT TREATMENT & METAL PROCESSING PRODUCTS

Houghton, E. F., & Co., Philadelphia. Agents: Hardcastle, Waud & Co. Private Ltd., Alice Buildings, Dr. Dadabhai Naoroji Road, Fort.

HEAVY CHEMICALS

Barter Trading Corp. Ltd., 14, Waterloo Place, London S.W. 1. Agents: Gillanders Arbuthnot & Co., Ltd., 16, Queen's Road Estate, Bombay 1.

HIGH SPEED, ALLOY AND HIGH CARBON STEELS

Firth's "Speedicut" High Speed Steel. Sole Distributors: William Jacks and Co., Ltd., Hamilton House, Graham Road, Ballard Estate.

HOISTING MACHINERY

Fellows Bros. Ltd., Cradley Heath, England. Agents: Keshavlal Narasidas Jallwala, 157, Abdul Behman Street, Bombay 3.

Rowland Fris & Co. Ltd., England Pulley, Blocks, Mechanical & Hydraulic Lifting & Traversing Jacks & Other Equipment. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Stroj Export, Praha, Czechoslovakia. Agents for Western & Central India: India Metal Agencies, Post Box No. 1960, Bombay 1.

HOSPITAL EQUIPMENT (MFRS.)

I.C.I. LTD., Pharmaceuticals Division, England. ("Evion" brand pharmaceuticals). Selling Agents: I. C. I. (India) Private Ltd., Post Box No. 310, Bombay 1.

Manlove Allott & Co., Ltd., Nottingham. Manufacturers of Sterilisers, Disinfectors, Laundry Equipment, Oil Mill Machinery, etc. Sole Distributors: William Jacks & Co., Ltd., Hamilton House, Graham Road, Ballard Estate.

HYDRAULIC ENGINEERS

Glenfield & Kennedy, Ltd., Kilmarnock. Agents: Glenfield & Kennedy, Ltd., 198, Jamshedji Tata Road, Fort, Bombay 1.

HYDRAULIC JACKS

Epcot Ltd., Leeds 7, England. Sole Agents: Heatly & Gresham Ltd., 9, Forbes Street, Bombay.

HYDRAULIC MACHINERY

Glenfield & Kennedy, Ltd., Kilmarnock. Hydraulic Accumulators, Rams and Pumps. Agents: Glenfield & Kennedy, Ltd., 198, Jamshedji Tata Road, Fort, Bombay 1.

J. Blakeborough & Sons Ltd., London & Brighouse, England. Hydraulic Valves, Screening Plant, etc. Sole Distributors: William Jacks & Co. Ltd., Bharat House, Apollo Street, Fort, Bombay.

John Blake Ltd., Accrington, Hydram Water Raisers. Agents: Richardson & Cruddas Ltd., Byculla, Bombay 8.

Leeds Engineering & Hydraulic Co., Ltd., Leeds. Makers of Hydraulic Machinery. Agents: Richardson & Cruddas, Ltd., Byculla, Bombay 8.

Theodore Bell & Co. Ltd., Kriens-Lucerne, Switzerland. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

INDUSTRIAL ADHESIVES

B. B., Chemical Company Ltd., Industrial Adhesives. "Bostik". Sole Distributors: William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.

INDUSTRIAL EQUIPMENT (MANUFACTURERS)

TEDDINGTON INDUSTRIAL EQUIPMENT LTD., Windmill Road, Sanbury-on-Thames, Middlesex. Manufacturers of Industrial Control Equipment. Representatives: James Finlay & Co., Ltd., P.O. Box No. 73, Bombay 1.

INDUSTRIAL INSTRUMENTS

G. Luft Metallbarometer Fabrik, G.m.b.H. Germany. Representatives: Behram & Co., 1/1, Lakshmi Bldg., 22, Sir P. M. Road, Bombay 1.

HARRY W. DIETERT, INC., Detroit, U.S.A. Manufacturers of Sand Testing Equipment. Agents: Pioneer Equipment Co., Private Ltd., 139, Meadows Street, P. O. Box 1909, Bombay 1 (Phone: 251882). Also at 1, Mangoe Lane, Calcutta-1 (Phone: 231611) and 193, Mount Road, Madras 2. Grams: "PIOMETAL."

RIDSDALE & CO., U.K., Manufacturers of Sand Testing Equipment. Sole Agents: Pioneer Equipment Co., Private Ltd., 139, Meadows Street, P.O. Box 1909, Bombay 1. (Phone: 251882). Also at 1, Mangoe Lane, Calcutta-1 (Phone: 231611), and 193, Mount Road, Madras 2. Grams: "PIOMETAL."

STROHEIN & CO., Dusseldorf, Germany, for Analytical Instruments for Iron and Steel and other metallurgical industries. Sole Agents: Pioneer Equipment Co., Private Ltd., 139, Meadows Street, P. O. Box 1909, Bombay 1 (Phone: 251882). Also at 1, Mangoe Lane, Calcutta-1 (Phone: 231611) and 193, Mount Road, Madras-2. Grams: "PIOMETAL."

W. & L. E. Gurley Troy, New York, U.S.A. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

INDUSTRIAL INSTRUMENTS AND STEAM LINE ACCESSORIES

Drayton Regulator & Instrument Co. Ltd., West Drayton (Middlesex, England). Steam Traps & Steam Line Accessories, Instruments for Measuring, Regulating or Controlling Temperature, Pressure and Draught. Electrically and hydraulically operated valves, metal bellows. Sole Concessionaires: Greaves Cotton & Co. Ltd., 1, Forbes Street, Fort, Bombay.

INDUSTRIAL PLANTS

Polysius G.m.b.H. Neubeckum, W. Germany. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

Polysius Limited, The Brackens, Ascot, Berks, England. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

Theodore Bell & Co. Ltd., Kriens-Lucerne, Switzerland. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

INDUSTRIAL TRUCKS

Douglas (Kingswood) Ltd., 50, Pall Mall, London. Sole Agents: Heatly & Gresham Ltd., 9, Forbes Street, Fort.

INHALER & ACCESSORIES

CYPRANE LTD., [England. Selling Agents: I.C.I. (India) Private Ltd., P.B. No. 310, Bombay 1.

INSULATING BOARD & MATERIAL

British Refrasil Co. Ltd., The, Stillington, Co., Durham, England; Lightweight Fibrous Silica, high temperature insulation material, Applications—Aeronautical Engineering, Chemical Engineering etc. where electrical insulations and thermal insulation problems are encountered; Sole Concessionaires: Greaves Cotton & Co. Ltd., 1, Forbes St., Fort, Bombay.

Continental Diamond Fibre Company, Bridgeport, Pa., U.S.A. Agents: Hardcastle, Wand & Co. Private Ltd., Alice Buildings, Dr. Dadabhai Naoroji Road, Fort.

Diamond Fibre Co., Ltd., 59, Southward Street, London. Agents: Hardcastle, Wand & Co. Private Ltd., Alice Buildings, Dr. Dadabhai Naoroji Road, Fort.

Ioco Ltd., Anniesland, Glasgow. Agents: Balmer Lawrie & Co., Ltd., 5, Graham Road, Ballard Estate, Bombay. Phone: 261494 (3 lines). Grams: "BALMER."

Mo. & Domsjo Trading Co., Ltd., 47, Piccadilly, London, W. 1. Sole Agents: Heatly & Gresham Ltd., 9, Forbes Street, Fort.

INSULATORS (HIGH TENSION)

Hoverken, Bromolla, Sweden. Manufacturers of Porcelain Insulators. Representatives: Asea Electric India Private Limited, Yafi Building, Goa Street, Ballard Estate.

INSURANCE COMPANIES

Alliance Assurance Co., Ltd., London. (Settlement of Marine Claims). Agents: The Anglo-Thal Corporation Ltd., Ewart House, Bruce Street.

Baloise Fire Insurance Co., Ltd., Basle (Inc. in Switzerland). Principal Agents: Volkart Brothers, Ballard Estate, Bombay.

cester, England, Manufacturers of
Screw Lifts, Elevators & Conveyors.
Agents: Gayle & Co., Jammabhoosi
Chambers, Fort Street, Bombay 1.
Phone: 253449. Grams: "IMPENG."

LINOLEUM

Taylors Floorcloth Co., Ltd., Newburgh,
Fife, Scotland. Sole Agents: Healy &
Gresham Ltd., 9, Forbes Street.

LITHOGRAPHERS

Waterlow & Sons Ltd., 25/27, St. Winchester
Street, London, E.C. 2. Protective Cheque
Specialists, Bank Notes, Bond and Stamp
Engravers. Agents: Gillanders Arbuthnot
& Co., Ltd., 16, Queen's Road Estate,
Bombay 1.

LOCOMOTIVE EQUIPMENT

Associated Locomotive Equipment Ltd.,
London. Agents: Guest, Keen, Williams,
Ltd., Wakefield House, Sprott Road,
Ballard Estate, Bombay 1.

WM. GRIFFITH & SONS LIMITED,
Saville Street East, Sheffield, 4 (Eng-
land). Laminated Springs. Repre-
sentatives: James Finlay & Co.,
Limited, P.O. Box No. 73, Bombay 1.

LOCOMOTIVES

Davey Paxman & Co., Ltd., Standard Iron
Works, Colchester. Diesel Engines for
Rail Traction in Locomotives and Rail-
cars. Sole Concessionaires: Greaves Cotton
& Co., Ltd., 1, Forbes Street, Fort,
Bombay.

G. Cesare Rauzi, Legnano, Italy. Sole
Agents: India Metal Agencies, India
House, Fort Street, Bombay 1.

**NORTH BRITISH LOCOMOTIVE CO.
LTD.**, 110, Farnington Street, Spring-
burn, Glasgow, N. Representatives:
James Finlay & Co., Limited, P.O.
Box No. 73, Bombay 1.

Buston & Hornsby Ltd., Lincoln. Narrow
& Metre Gauge Diesel Locomotives and
Broad Gauge Shunting Diesel Locomo-
tives. Sole Concessionaires: Greaves
Cotton & Co., Ltd., 1, Forbes Street, Fort,
Bombay.

**LUBRICATING OILS AND
GREASES**

Acheson, Colloids Ltd., London. "Colloidal
Graphite Products", "Oildag", "Aqua-
dag", etc. Agents: Hardcastle, Waud
& Co., Private Ltd., Alice Buildings,
Dr. Dadabhai Naoroji Road, Fort.

A. E. Westwood Ltd., England. Sole Agents:

Dadabhai Naoroji Road, Fort.

United Refining Co., Warren, Philadelphia,
U.S.A. Sole Agents for India: Bombay
Mercantile Corporation, 211-217, Nagdevi
Street, Bombay 3.

MACHINE TOOLS

A. A. Jones & Shipman Ltd., England.
Universal & Semi-Universal Grinding
Machines, Surface Grinders, Tool
& Cutter Grinders etc. Sole Distributors:
William Jacks & Co. Ltd., Bharat House,
Apollo Street, Fort, Bombay.

Adcock & Shipley Ltd., England. Universal,
Vertical and Horizontal Milling Machines
and Attachments. Sole Distributors:
William Jacks & Co. Ltd., Bharat House,
Apollo Street, Fort, Bombay.

Alfred J. Amster & Co., Switzerland.
Treating Machines for all materials,
Planimeters, Integrators, Current Meters,
Torsion and Drawbar Dynamometer and
Track Recording Cars for Railways.
Sole Distributors: Voltas Limited, Ballard
Estate, Bombay 1.

Anton Kirner, West Germany. Relief
Milling Machines for Milling Cutters.
Sole Distributors: Voltas Limited, Ballard
Estate, Bombay 1.

Armstrong Whitworth (Metal Industries)
Ltd., England. Rolls for Rolling Mills
and Tube Mills. Sole Distributors: William
Jacks & Co. Ltd., Bharat House, Apollo
Street, Fort, Bombay.

B. M. W. Maschinenfabrik, Germany. Single
Spindle Automatics, Gear Deburring
Machines, etc. Agents: Armstrong Smith
Private Ltd., 1, Sir P. M. Road, Bombay 1.

Boko, Bohner & Kohle, West Germany.
Universal High Speed Vertical Milling
Machines, Pattern Milling Machines,
Semi-Automatic Spinning Lathes. Sole
Distributors: Voltas Limited, Ballard
Estate, Bombay.

B. S. A. Tools Ltd., England. Single &
Multi-Spindle Automatic Screw Machines,
Centreless Grinding Machines, Multi-
Tool Lathes, etc. Sole Distributors:
William Jacks & Co. Ltd., Bharat House,
Apollo Street, Fort, Bombay.

Bretts Patent Lifter Co., Foleshill Works,
Coventry, England. Sole Agents: Healy
& Gresham, 9, Forbes Street, Fort.

C. & F. Fein, Germany. Portable Electric
Tools. Agents in India: Armstrong
Smith Private Ltd., 1, Sir P. M. Road,
Bombay 1.

Carl Hurth, West Germany. Tool Room
Milling Machines, Key-way and Slot
Milling Machines, Spline Shaft Milling
Machines, Gear Chamfering Machines,
Gear Speeders, Gear Shavers, Power
Presses with Epicyclic Gear Drives. Sole
Distributors: Voltas Limited, Ballard
Estate, Bombay 1.

Casati Ernesto & Figli (Caser), Italy.
Radial Drilling Machines. Sole Distri-
butors: Voltas Limited, Ballard Estate,
Bombay 1.

Churchill-Redman Ltd., Parkinson Lane,
Halifax. Sole Agents: Healy & Gresham
Ltd., 9, Forbes Street, Fort.

Cincinnati Milling Machines, Cincinnati,
Ohio, U.S.A. Sole Agents: Healy &
Gresham Ltd., 9, Forbes Street, Fort.

Cincinnati Milling Machines Ltd., Woodlands
Farm Road, Tyburn, Birmingham, Eng-
land. Sole Agents: Healy & Gresham
Ltd., 9, Forbes Street, Fort.

Coventry Gauge & Tool Co. Ltd., England.
Machine Tools: Jig Boring Machines, Tap
Grinding Machines, Thread Grinders, Gear
Grinders, Cylindrical Grinders, Broach
Sharpening Machines, Tread Milling Ma-
chines, etc. Measuring Instruments: Float-
ing Carriage Diameter Measuring Machines,
"Micro-Mag" Internal Micrometers,
Taper Measuring Machines, Pitch Measur-
ing Machines, etc. Gauges: Gap Gauges,
Caliper Gauges, Slip Gauges, etc. Sole
Distributors: William Jacks & Co. Ltd.,
Bharat House, Apollo Street, Fort,
Bombay.

Craven Bros. (Manchester) Ltd., England.
Railway Wheel Lathes, Axle Journal Re-
turning & Grinding Machines, and all
types of Railway Machine Tools. Heavy
Duty S.S. & S. O. Lathes, Gear Cutting
Machines, Horizontal Boring Machines,
etc. Sole Distributors: William Jacks &
Co. Ltd., Bharat House, Apollo Street,
Fort, Bombay.

D. Mitchell & Co. Ltd., England. General
Purpose High Speed S.S. & S.O. Lathes.
Sole Distributors: William Jacks & Co.
Ltd., Bharat House, Apollo Street, Fort,
Bombay.

Douglas Fraser & Sons Ltd., Scotland.
Double ended Facing and Centering
Machines. Sole Distributors: Voltas
Limited, Ballard Estate, Bombay 1.

E. H. Jones (M.T.) Ltd., England. British
Built "Kearney & Trecker" MILWAU-
KEE Milling Machines, Vertical and Hor-
izontal and Universal, Duplex, Simplex
Die Making Machines. Agents: Armstrong
Smith Private Ltd., 1, Sir P. M. Road,
Bombay 1.

Eitel K. G., West Germany. Hydraulic
Presses various sizes including Bench
Presses, Open Gap Presses, Drawing
Presses, Capacity 5 tons to 500 tons.
Sole Distributors: Voltas Limited, Ballard
Estate, Bombay 1.

Emil Sachs, Germany. Thicknessing Planner,
Heavy Duty Smooth Planing, Jointing and
Moulding Machines, Upright Chain Mortis-
ing machines, tenoning & Slotting Ma-
chines and other wood working machinery.
Agents: Armstrong Smith Private Ltd., 1,
Sir P. M. Road, Bombay 1.

Ernst Grob, Switzerland. Vertical Metal
Cutting Band Saws. Sole Distributors:
Voltas Limited, Ballard Estate, Bombay 1.

Ernst Grob, W. Germany. Thread Rolling
Machines. Special purpose Unit heads
and Machines; Sole Distributors: Voltas
Limited, Ballard Estate, Bombay 1.

F. B. Hatebur, Switzerland. Automatic
Cold Bolt Formers, Automatic Cold and
Hot Nut Formers. Sole Distributors:
Voltas Limited, Ballard Estate, Bombay 1.

F. J. Edwards Ltd., England. Complete
range of Sheet Metal Working Machinery.
Sole Distributors: William Jacks & Co.
Ltd., Bharat House, Apollo Street, Fort,
Bombay.

Fell, W. A., Ltd., Windermere, England.
Agents: Healy & Gresham Ltd., 9,
Forbes Street, Fort.

Finlay Engineering Co., England. Hydraulic
Cold Benders, Press Units, Rail & Grinder
Presses, Hand Operated Press, Plate Sec-
tion Presses, etc. Agents: Armstrong
Smith Private Ltd., 1, Sir P. M. Road,
Bombay 1.

Fischer, Karl Eugen, Germany. Press Brakes & Guillotine Shears. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Frederick Town & Sons Ltd., Halifax, England. Radial Drilling Machines, Vertical Drilling Machines, etc. Sole Distributors: William Jacks & Co. Ltd., Bharat House, Apollo Street, Fort, Bombay.

George Fischer Ltd., Switzerland. Hydraulic Copying Lathes for Bar and Chucking Work. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Gildemeister & Co., West Germany. Turret Lathes, Multi-Spindle Bar and Chucking Automatics, Plano-Milling Machines. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Graham & Normanton Ltd., England. "GRANOE" High Speed S.S. & S.C. Lathes & Shaping Machines. Sole Distributors: William Jacks & Co. Ltd., Bharat House, Apollo Street, Fort, Bombay.

GV Nibbler & Company, Sweden. Nibblers, Cutting and Framing Machines. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

H. A. Waldrich G. m. b. H., Siegen, W. Germany. Heavy Planers, Lathes, Roll Grinders, Combined Planing and Milling Machines, Steel Ingot Cleaning Machines. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Hans-Biel, Germany. Metal Spraying and Sand Blasting Equipment. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Herman Hilbert, Ramsched Germany. Sole Agents: Tirathdas Kesharam, 130, Narayan Dhuru Street, Bombay 3.

Hermann Pfauter, West Germany. Gear Hobbing Machines, Spline Hobbing Machines, Worm Milling Machines. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Herminghausen Werke, G. m. b. H., West Germany. Precision Centreless Grinders and Polishers. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Hilgers Maschinenfabrik, Germany. Cold Tube Bending Machines. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Ingenieurdienst G.m.b.H. Germany. Representatives: Behram & Co., 1/1, Lakshmi Bldg., Sir P. M. Road, Bombay 1.

J. E. Batty & Co., Ltd., Burgess Hill, Sussex. Agents: Elliott Waud & Hill Private Ltd., 1-2, Lakshmi Building, Sir P. M. Road, Bombay 1.

James Neill & Co., (Sheffield) Ltd., England. Representatives: Elliott Waud & Hill Private Ltd., 1-2, Lakshmi Bldg., Sir P. M. Road, Bombay 1.

Johann Streicher K. G., W. Germany. Automatic Nut Tapping Machines, Automatic Nut Counter-Sinking Machines, Bar Pointing Machines. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Jungner, Svenska Akkumulator Aktiebolaget, Sweden. Universal Tool & Cutter Grinder Machines. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Kearney & Trecker Corp., U.S.A. "Milwaukee" Milling Machines. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Kelghley Grinders (M.T.) Ltd. (Newall Group Sales Ltd.), England. Universal Grinders, Precision Cylindrical Grinders and Internal Production Grinders. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Kitchen & Wade Ltd., Halifax, England. Drilling Machines. Agents: Heatly & Gresham Ltd., 9, Forbes Street, Fort.

Kjellberg-Kberle, G. m. b. H., West Germany. Gas Cutting Machines various sizes, Portable Models to large gantry type profile cutting machines. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Malmmedie & Co., G.m.b.H., Germany. Wire Drawing Plant, Wire Nail Making Machines, Nut Presses, etc. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Mannaioni Works, Italy. High Production Automatic Single Point Tool, Multicut, Screw Cutting Lathe. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Manurhin, France. Single Spindle Automatics 12 mm. to 60 mm. Bar Capacity, Measuring Instruments. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Murad Developments Ltd., England. High Speed Capstan Lathes, Double Ended 'Dustless' Grinders (the only Grinder in the world with built-in Dust Inhibitors). Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

National Acme Co., U. S. A. Multi-Spindle Bar Automatics. Sole Distributors: William Jacks & Co. Ltd., Bharat House, Apollo Street, Fort, Bombay.

Ned Grossmann, Holland. Twist Drill Milling Machines, Second Operation Lathes, Marking Machines. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Newall Engineering Co. Ltd. (Newall Group Sales Ltd.), England. Jig Boring Machines, Angular Head Grinding Machines, Thread Grinding Machines, Cylindrical Grinding Machines, Internal Grinding Machines & Production Lapping Machines. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Officine Meccaniche Ceruti, S. A., Italy. Horizontal Boring Machines. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Officine Rino Berardi, Italy. Single Spindle drilling Machines 14 to 70 mm. Capacity, Multi-Spindle Drilling Machines. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Optical Measuring Tools Ltd. (Newall Group Sales Ltd.), England. Projectors, Optical Rotary Table, Optical Rotary Projection Table, Optical Rotary Inclined Table, Toolmaker's Microscope, Thread Template Microscope, Vertical & Horizontal Ommeters. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Ormerod Shapers Ltd., Hebdon Bridge, Yorks, England. Sole Agents: Heatly & Gresham Ltd., 9, Forbes Street, Fort.

Physik Instrument Huggenberger, Switzerland. Tensometers, Deflectometers, Deformeters, Clinometers, Portable Callibrators, Co-ordinometers, Vibrographs and Strain Gauges. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Pickles, John & Son (Engineers) Ltd., Hebdon Bridge, England. Sole Agents: Heatly & Gresham Ltd., 9, Forbes Street, Fort.

Planers (Huddersfield) Ltd., England. Planing Machines. Sole Distributors: William Jacks & Co. Ltd., Bharat House, Apollo Street, Fort, Bombay.

Prachoma Werke Kehren & Co., West Germany. Vertical and Horizontal Spindle Surface Grinders with Circular and Rectangular Tables in various sizes. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Remo-Werke, West Germany. Pipe and Bolt Threading Machines, Tube Cutting-Off Machines, Chaser Grinding Machines. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Rushworth & Co., England. Bar Cropping Machines, Punching & Shearing Machines, Guillotine Shearing Machines, Plate Bending & Straightening Rolls, Press Brakes. Sole Distributors: William Jacks & Co. Ltd., Bharat House, Apollo Street, Fort, Bombay.

Safag, S. A., Switzerland. Automatic form cutter Milling Machines, Horizontal Spindle Rotary Surface Grinders, Automatic carbide tool grinding and lapping machines. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Samuel Denison & Son Ltd., England. Compression & Transverse Machine, Wire Twist & Tensile Testing Machines, Universal Machines, Fabric Testing Machines, Creep Testing Machines, Chain Testing Machines, etc. Sole Distributors: William Jacks & Co. Ltd., Bharat House, Apollo Street, Fort, Bombay.

Schardt Machine G. m. b. H., W. Germany. Cylindrical internal, Universal, Camshaft, Jet Bore and Gear grinders. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Schless—A. G., West Germany. Single Column Vertical Turret Lathes, Double Column Vertical Boring Mills, Floor type Horizontal Boring and Milling Machines, Large Gear Hobbing Machines, Gear Shaping Machines, Crankshaft Milling and Crankpin Turning Machines, Multi-tool Automatic Lathes. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Scottish Machine Tool Corporation Ltd., Glasgow, U.K. Planers, Lathes with centre height over 20", Wheel Lathes Guillotine Shears, Press Brakes, Shipyard and Heavy Structural Shop Machinery, Power Presses 75 to 1,000 tons. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Sheffield Twist Drill & Steel Co., Ltd., England. Representatives: Elliott Waud & Hill Private Ltd., 1-2, Lakshmi Bldg., Sir P. M. Road, Bombay 1.

Societe Genevoise D'Instruments De Physique, Switzerland. Jig Boring Machines, Measuring Machines, Profile Projectors. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Standall Engineering Ltd., England. Forging Hammers, Air Compressor Plants. Agents: Balmer Lawrie & Co. Ltd., 5, Graham Road, Ballard Estate, Bombay. Phone: 261494 (3 lines). Grams: "BALMER."

Stenners of Tiverton Ltd., England. Log Band Mills, Band Rack Saws, Band Resaws, Saw Doctoring Equipment, etc. Sole Distributors: William Jacks & Co. Ltd., Bharat House, Apollo Street, Fort, Bombay.

Sykes, W. E., Ltd., Manor Works, Staines, Middlesex, England. Hobbing and Gear Cutting Machine. Agents: Heatly & Gresham Ltd., 9, Forbes Street, Fort.

Technolimpex, Budapest, Hungary. Lathes, Radial Drills, Milling Machine, Plate Shearing Machines, Pneumatic Power Hammer, Hydrocopying Shapers, Tapping Machines, Balancing Machines, etc. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Tesa, S. A., Switzerland. Precision Measuring Instruments. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Theodor Gen-Kinger Nurtinsen, Germany. Sole Agents: Tirathdas Kesharam, 130, Narayan Dhuru Street, Bombay 3.

Thos. Firth & John Brown Ltd., Sheffield, England. Forged Steel Rolls for Rolling Mills. Sole Distributors: William Jacks & Co. Ltd., Bharat House, Apollo Street, Fort, Bombay.

Tolimit Gauges, Ltd., England. Precision Thread and Plain Gauges. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Trumpf & Co., West Germany. Curve, Cutting out and Nibbling-Shears, Flexible Shaft Grinders. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Ulvreunda Verkstader Aktiebolag, Sweden. Internal Grinders. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Wanderer Werke, A. G., West Germany. Plain, Vertical and Universal Milling Machines, Thread Milling and Spindle Hobbing Machines, Bed types single and double head Milling Machines. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Weingarten, Germany. Plate Bending and Rounding Machines. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

MACHINERY (BAG FILLING)

Sack Fillers Ltd., London. Sole Agents: Killick Nixon & Co. Private Ltd., Killick House, Home Street, Fort.

MACHINERY (ELEC. & MECH.)

Christy & Norris Ltd., Chelmsford. Disintegrators, Hammer Mills, Screening Plant. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

Clayton Manufacturing Co., El-Monte, California, U.S.A. Agents: Chandulal Mehta & Co. (Private) Ltd., 15, New Queen's Road, Bombay 4.

Clearing Machine Corporation, Chicago 38, Illinois, U.S.A. (Mechanical and Hydraulic Power presses & Press Brakes). Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

Colcrete Ltd., London. Manufacturers of Colloidal Mixers and Colloidal Grouting. Sole Agents in India: Gammon India Private Ltd., Hamilton House, Ballard Estate.

Electric Construction Co. Ltd., 9, Kingsway, London. Electric Motors and Generators. Agents: Balmer Lawrie & Co., Ltd., 5, Graham Road, Ballard Estate, Bombay. Phone: 261494 (3 lines). Grams: "BALMER".

Fluidrive Engineering Co. Ltd., Isleworth (Middlesex, England). Hydraulic Couplings. Sole Concessionaires: Greaves Cotton & Co. Ltd., 1, Forbes Street, Fort, Bombay.

Karl-Kack Maschinenbau, Germany. Representatives: Behram & Co., 1/1, Lakshmi Bldg., Sir P. M. Road, Bombay 1.

Lister & Co., Ltd. (R. A.), Dursley, Glos., England. Petrol and Diesel Engines, Pumping, Generating Sets, Cream Separators and Dairy Equipment. Distributors: Voltas Limited, Ballard Estate, Bombay 1.

SIEMENS-SCHUKERTWERKE, A.G.
SIEMENS-HALKE, A.G. of Western Germany. Manufacturers of all types of Electrical Equipment, Steam & Hydro-Power Plants, Telephone & Telecommunication Equipment, Electrical precision machinery, Cables and Instruments, Electricity Meters, Water Meters and other Electric Equipment. Sole Representatives in India: Siemens Engineering & Manufacturing Co. of India Private Limited, 81/83, Veer Nariman Road, Bombay 1.

Stroj Export, Praha, Czechoslovakia. Agents for Western & Central India. India Metal Agencies, Post Box No. 1966, Bombay 1.

Stream-Line Filters Ltd., London, England. Filters for reclaiming used Engine Lubricating Oil, Transformer Oil Filters. Aviation Fuel Filters. Sole Concessionaires: Greaves Cotton & Co. Ltd., 1, Forbes Street, Fort, Bombay.

Sulzer Brothers Ltd., Winterthur, Switzerland. Diesel Engines, Pumps. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Weston, Shipley & Weston Ltd., Leicester. "Kut-Out" Machines for Pipe Cutting. Agents: Richardson & Cruddas Ltd., Byculla, Bombay 8.

MACHINERY MANUFACTURERS

C. H. & E. Manufacturing Co., 3849, North Palmer Street, Milwaukee 12, Wis. (U.S.A.). Agents in India: Essential Engineering Co., Botawala Building, Elphinstone Circle, Fort.

Cement Gun Co., Ltd., London. Agents: John Fleming & Co., Private Ltd., Bastion Road, Fort, Bombay 1. Phone: 261153.

Reckermann Frasmachine (Germany). Agents for India: Essential Engineering Co., Botawala Building, Horniman Circle, Fort, Bombay.

Sturtevant Engineering Co., Ltd., England. Crushing, Grinding, Screening, Separating and Mixing Machinery including Laboratory Machinery. Contact: Ratana Morarji Private Limited, Prospect Chambers, 317/21, Dadabhai Naoroji Road, P.B. No. 1270, Bombay 1.

MACHINERY PRESSURE GAUGES

Eagle & Wrights (Gauges) Ltd., 87, Carver Street, Birmingham 1, England. Sole Agents for Bombay State: R. K. Shapurji & Co., Prospect Chambers, 319, Dr. D. Naoroji Road, Fort, P.B. No. 1065, Bombay 1.

MACHINERY (TEXTILE)

Armstrong Cork Co., Ltd., Kingsbury, London, N.W. 9. Agents: Roberts, McLean & Co., Ltd., Ilaco House, Sir Phirozshah Mehta Road.

Atwood Division Universal Winding Co., Hartford, U.S.A. Silk Machinery. Sole Representatives: W. H. Brady & Co., Ltd., 12-14, Veer Nariman Road, Fort, Bombay 1.

Cook & Co., Manchester, Ltd., Spinning and Doubling Travellers, Card Vacuum Stripping Plants, Spinning Specialities. Sole Representatives: W. H. Brady & Co., Ltd., 12-14, Veer Nariman Road, Fort, Bombay 1.

Daniel Foxwell & Sons, Ltd., Cheddle, Manchester. Cloth Rolling, Folding, Measuring and Lapping Machinery. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

Dronfield Bros., Ltd., Oldham. Card Mounting and Grinding Machinery, Roller Covers Plant. Representatives: W. H. Brady & Co., Ltd., 12-14, Veer Nariman Road, Fort, Bombay 1.

Dronfield Bros. Ltd., Oldham. Card Grinding Equipment, Emery, Fillet Roller Covering Machinery. Concessionaires: Greaves Cotton & Co. Ltd., 1, Forbes Street, Fort, Bombay.

ELLERWERKE MASCHINENFABRIK, Hamburg 33, Germany. Mfrs. of Hydro Extractors. Sole Importers: Popular (Imp.-Exp.) Trading Co., Javeri House, 110, Meadows Street, Bombay 1.

Gebruder Wicki, Zurich, Switzerland. Manufacturers of "KNITTAX" Hand Knitting Machine. Agents: Altex Private Ltd., 147, Mahatma Gandhi Road, Fort, Bombay 1.

Goodbrand & Co., Ltd., Stalybridge. Yarn & Cloth Testing Machines. Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

Grob & Co. Ltd., Horgen, Switzerland. Wire and Flat Steel Heads. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Hindle Son & Co., Ltd., Blackburn. Electric Baling Presses. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

Hodges, P. & Co., Ltd., Nottingham. High Speed Braiding and Twisting Machinery. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

John T. Hardaker Ltd., Bradford. Jacquards and Jacquard Sundries. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

Longloose Engineering Co. Ltd., Leeds. Cheese, Cone & Beam Dyeing Plants. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

Mather & Platt Ltd., Manchester. Dyeing, Bleaching, Printing and Finishing Machinery. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

Mount Engineering (Sales) Company, Oldham, England. Makers of Improved Mechanical Warp Stop Motions, Firm Stripping Machines and Hydraulic Beam Trucks, etc. Sole Representatives: W. H. Brady & Co., Ltd., 12/14, Veer Nariman Road, Fort, Bombay 1.

OERLIKON MACHINE TOOL WORKS, Zurich 50 Oerlikon, Switzerland. Mfrs. of Roller bearing inserts and Jockey pulleys. Sole Importers: Popular (Imp.-Exp.) Trading Co., Javeri House, 110, Meadows Street, Bombay 1.

Power House Components Ltd., Nottingham. Manufacturers of "WAYNE" patent Self-Winding Electric Cable Reels and Fuel Economy Specialities. Sole Representatives: W. H. Brady & Co., Ltd., 12/14, Veer Nariman Road, Fort, Bombay 1.

Pulrose Co., Ltd., England. Agents: Altex Private Ltd., 147, Mahatma Gandhi Road, Fort.

REINERS & FURST, M. Gladbach, Germany. Mfrs. of Spinning Rings, Ring Travellers & Automatic Winders Knotters. Sole Importers: Popular (Imp.-Exp.) Trading Co., Javeri House, 110, Meadows Street, Bombay 1.

RHEYDTER MASCHINEN & SPINDEL-FABRIK, Rheydter (Rhld), Germany. Mfrs. of Spinning Fly Frame Parts & Ball Bearing Tops Rollers of every description. Sole Importers: Popular (Imp.-Exp.) Trading Co., Javeri House, 110, Meadows Street, Bombay 1.

Rietor & Co., Ltd. (J.J.), Winterthur (Switzerland). Cotton Spinning Machinery. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Rotameter Mfg. Co. Ltd., Crydon, Surrey. Manufacturers of Flow Meters for all Gases and Liquids. Sole Representatives: W. H. Brady & Co. Ltd., 12/14, Veer Nariman Road, Fort, Bombay 1.

Ruti Machinery Works, Ruti (Zch.), Switzerland. Warping, Beaming and Sizing Machinery, Cotton & Silk Looms. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Ryden Mill Stores Ltd., England. Agents: Altex Private Ltd., 147, Mahatma Gandhi Road, Fort.

S. Dodd & Sons Ltd., England. Manufacturers of Hopper Blenders. Conversions of Single Process Blow Room. Suppliers of Melner's Thread Illuminators. Agents: Altex Private Ltd., 147, Mahatma Gandhi Road, Fort, Bombay.

S. Dodd & Sons Ltd., Oldham, England. Makers of Conversion Equipments, etc. Sole Representatives: W. H. Brady & Co. Ltd., 12/14, Veer Nariman Road, Fort, Bombay.

Schweitzer Ltd., Horgen, Switzerland. Automatic Pirn Winders and all Winding Machines. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Staubli Bros. & Co., Horgen, Switzerland. Dobbies. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Stone-Wallwork Ltd., London, S.W. 1, England. Suppliers of Ting Tuf Mark 1 Tufting Machine for making Rugs, Carpets, Mats, etc. Agents: Altex Private Ltd., 147, Mahatma Gandhi Road, Fort, Bombay 1.

T. W. Riley & Co., Ltd., Rochdale. Cloth Raising Machines. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

Thos. Holt Ltd., Rochdale. High Speed & Automatic Winding & Warping Machines. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

Vollenweider, Sam., Horgen, Switzerland. Shearing Machines. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Wm. Ryder Ltd., Bolton, England. Makers of Flyers, Spindles, Collars and Fluted Rollers, etc. Sole Representatives: W. H. Brady & Co. Ltd., 12/14, Veer Nariman Road, Fort, Bombay 1.

Wright Hargreaves Engineering Co., Ltd., Blackburn. Vacuum Card Stripping Equipment. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

Zellweger Ltd., Uster, Switzerland. Warp Tying Machines. Distributors: Voltas Limited, Ballard Estate, Bombay 1.

MAINTENANCE EQUIPMENT (ELEC. & MECH.)

Martindale Electric Co. Limited, London and Cleveland, Ohio, U.S.A. Electrical and Mechanical Maintenance Equipment, Comminators and Blowers. Representatives: Asea Electric India, Private Limited, Yaffi Building, Goa Street, Ballard Estate.

MARINE DIESEL ENGINES

Bergius Co. Ltd., The, Glasgow, England. Agents: India Metal Agencies, India House, Fort, Street, Bombay 1.

MEASURING AND RECORDING INSTRUMENTS

Esterline—Angus Co., Inc. Indiana, U.S.A. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

H. W. Wallace & Co. Ltd., England. Hardness Meters, Dead Load Hardness Testers, Abrasion Testers, Rapid Plastimeters, Compression Set Apparatus, Flexton Testing Machines, Laboratory Ovens. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Hilger & Watts Ltd., England. Measuring Equipment of all types including Projectors, Enlargers, Optical Gauging & Inspection Equipment etc. Sole Distributors: William Jacks & Co. Ltd., Bharat House, Apollo Street, Fort, Bombay.

L. M. Ericassons Matinstrument Aktiebolaget, Stockholm, Sweden. Manufacturers of Electricity Meters. Representatives: Asea Electric India, Private Limited, Yaffi Building, Goa Street, Ballard Estate.

M. S. S. Recording Co., Ltd., England. Dictaphones. Agents: Hind Co., 27, New Queen's Road, Bombay 4.

Pierre Roch, S.a.r.l. Switzerland. Representatives: Behram & Co., 1/1, Lakshmi Bldg., Sir P. M. Road, Bombay 1.

Radiometer, Copenhagen, Denmark. Agents: Hindco, 27, New Queen's Road, Bombay 4.

Taylor of London Ltd., London, England. Water Meters, Waste & Cocks Fittings. Agents: John Fleming & Co. Private Ltd., Bastion Road, Fort, Bombay 1. Phone: 261153.

Thomas Ashworth & Co. Ltd., England. "Speedy" Moisture Testers. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

MECHANICAL EQUIPMENT

J. Collis & Sons, Ltd., London. Sole Agents: Killick, Nixon & Co. Private Ltd., Killick House, Home Street, Fort.

MECHANICAL HANDLING, CONVEYING & TRANSPORTING EQUIPMENT

Cranes (Dereham) Ltd., Furham, Norfolk, England. Trailers. Sole Concessionaires: Greaves Cotton & Co. Ltd., 1, Forbes St., Fort, Bombay.

Drake America Corp., New York, N.Y. Gasoline Powered Solid tired fork lift trucks. Sole Concessionaires: Greaves Cotton & Co. Ltd., 1, Forbes St., Fort, Bombay.

Moxey Conveyor & Transporter Co. Ltd., Birmingham, England. Complete Ore handling Plants, Bucket Elevators, Conveyors, Wagon Tipplers. Sole Concessionaires: Greaves Cotton & Co. Ltd., 1, Forbes St., Fort, Bombay.

Oliver International, S.A., Chicago, Illinois, U.S.A., Crawler Tractors, Fork Lift Trucks. Sole Concessionaires: Greaves Cotton & Co. Ltd., 1, Forbes St., Fort, Bombay.

Shinyei Kikito Kaish, Kobe, Japan. Fork Lift Trucks. Sole Concessionaires: Greaves Cotton & Co. Ltd., 1, Forbes St., Fort, Bombay.

METAL DOORS AND WINDOWS

Gibbons James, Ltd., St. John's Works, Wolverhampton, England. Sole Agents: Healey & Gresham Ltd., 9, Forbes Street, Fort.

METAL MANUFACTURERS

IMPERIAL CHEMICAL INDUSTRIES LTD., Metals Division, England and Yorkshire Imperial Metals Ltd., Leeds, (Wrought Non-ferrous Metals and Alloys). Selling Agents: I.C.I. (India) Private Ltd., Post Box No. 310, Bombay 1.

Mond Nickel Co. Ltd., The, London. Nickel. Sole Concessionaires: Greaves Cotton & Co. Ltd., 1, Forbes Street, Fort, Bombay.

MICROPHONES AND PICKUPS

American Microphone Co. Division of Elgin Pneumatic Inc., 600 Bellanca Avenue, Los Angeles 45, England. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

SHURE BROS, Inc., Evanston, Illinois, U.S.A. Manufacturers of the World famous Shure Microphones, Magnetic Tape Recording Heads, & Electronic Components. Represented in India by M. V. DADA, Pennsylvania Traders, Post Box 4044, Bombay 1, Telephone: 74444, Telegram: "PENUNION."

MICROSCOPES

CARL ZEISS JENA, East Germany.—Microscopes, Optical, Surveying, Precision measuring and Scientific Instruments. Sole Agents: Ghordandas Desai Private Ltd., Kermani Bldg., Sir Pherozshah Mehta Road, Bombay 1.

COOKE, TROUGHTON & SIMMS LTD., U.K. Manufacturers of Vickers Microscopes. Sole Agents: Pioneer Equipment Co. Private Ltd., P.O. Box 1909, Bombay 1 (Phone: 251882.)

MILL & GIN STORE SUPPLIERS

Frankland Bros., Blackburn. Loom Pickers and Shutters. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

Haydock & Drake Ltd., Blackburn. Healds and Reeds. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

John Atkinson & Son (Sowerby Bridge) Ltd., England. Agents: Altex Private Ltd., 147, Mahatma Gandhi Road, Fort.

Joseph Sykes Brothers, Huddersfield. Card Clothing. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

Kenyon & Son, Ltd. (James) Bury, Lancs. Textile Clothing and Filter Cloth. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Lupton Bros., Accrington. Loom Sundries. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

Pulrose Co., Ltd., England. Agents: Altex Private Ltd., 147, Mahatma Gandhi Road, Fort.

Reallia Cots & Rollers Ltd., Marfleet, Hull, (England) (Cots, Aprons, Buffers, Loop Pickers, Twister Sleeves, Lug Straps, etc). Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

Robert Hyde & Co., Ltd., Stalybridge. Machinery Cloths for Cotton Spinning & Weaving. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

William Kenyon & Son Ltd., Dukinfield, Cheshire. P.I. Cotton Driving Rope and Baling. Spindles, Tape and Twine. Sole Concessionaires: Greaves Cotton & Co., Ltd., 1, Forbes Street, Fort, Bombay.

MILLING MACHINES

UNION WERKEUOMASCHINENFABRIK M. REUTHER K.O., Germany. Milling Machines. Agents: Gaytee & Company, Jammahoomi Chambers, Fort Street, Bombay 1. Phone: 263449. Grams: "IMPENG."

MINERAL WATERS, SQUASHES, CORDIALS, ETC.

E. I. Michel & Co., Ltd., 415, Oxford Street, London W.1. Sole Distributors: Spencer & Co., Ltd., Spencer's Building, Forjett Street, Bombay 26.

H. D. Davies & Co., Ltd., 98/100 Blahopagate, London E.C. 2. Sole Distributors: Spencer & Co., Ltd., Spencer's Building, Forjett Street, Bombay 26.

Societe Des Eaux Mineral Source Cachat Evian Les-Bains. Sole Distributors: Spencer & Co., Ltd., Spencer's Building, Forjett Street, Bombay 26.

MINERS LAMPS & EQUIPMENTS

Ceag Ltd., 58, Victoria Street, London, S.W. 1. Miner's Electric Safety Lamps. Agents: Balmer Lawrie & Co., Ltd., 5, Graham Road, Ballard Estate, Bombay. Phone: 261494 (3 lines). Gram: "BALMER."

MINING MACHINERY & EQUIPMENT

Broom & Wade Ltd., High Wycombe, England. Portable and Stationary Air Compressors & Pneumatic Tools. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Exdeveco Corp., New York. Coal Mining Drills. Sole Concessionaires: Greaves Cotton & Co. Ltd., 1, Forbes St., Fort, Bombay.

Head, Wrightson Colliery Engineering Co., Ltd., England. Coal Preparation and Screening Plants. Agents: Balmer Lawrie & Co., Ltd., 5, Graham Road, Ballard Estate, Bombay. Phone: 261494 (3 lines). Grams: "BALMER".

Joy Manufacturing Co., Pittsburg 22, PA., U.S.A. & Joy Sullivan Ltd., London, England. Coal Mining Machinery, Auxiliary Mining Machinery, Air Compressors and Pneumatic Tools. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

Kennametal Overseas Corp., Latrobe, U.S.A., Mining Bits and Rock Bits; Sole Concessionaires: Greaves Cotton & Co. Ltd., 1, Forbes St., Fort, Bombay.

Olin Mathieson Ltd., 17-18, Old Bond Street, London W.1. Representatives: Bakubhai Ambalal Private Ltd., Shahibag House, 13, Wittet Road, Ballard Estate, Bombay 1.

Sheepbridge Equipment Ltd., England. Tuggers, Haulages, Mine Cars, Vibrating Screens. Agents: Balmer Lawrie & Co., Ltd., 5, Graham Road, Ballard Estate, Bombay. Phone: 261494 (3 lines). Grams: "BALMER".

H. Liebherr, Germany. Tower Cranes. Sole Distributors: William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.

TRACTION GEARS AND UNITS

Wiseman, Alfred & Co. Ltd., Glover Street, Birmingham 9. Sole Agents: Healy & Graham Ltd., 9, Forbes Street, Fort.

TRACTORS & FLOUGHS

International Harvester Export Co., Chicago, U.S.A. Agricultural Machinery and Implements, McCormick-Deering Tractors, (Agricultural and Industrial). Sole Distributors: Voltas Limited, Chinchpokli Road, Bombay 12.

John Fowler & Co., (Leeds) Ltd., Leeds. Diesel Crawler Tractors from 40 BHP to 150 BHP. Sole Agents: Marshall, Sons & Co. (India) Ltd., Marshall's Building, Ballard Road, Bombay 1.

Marshall, Sons & Co., Ltd., Gainsborough. Diesel Tractors (Wheel Types). Sole Agents: Marshall, Sons & Co. (India) Ltd., Marshall's Building, Ballard Road, Bombay 1.

Oliver International, S.A., Illinois, U.S.A. Oliver Tractors and Agricultural Implements. Sole Distributors: William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.

TRAIN LIGHTING BATTERIES & ACCUMULATORS

Pritchett & Gold & E. P. S. Co. Ltd. Manufacturers of Accumulators of all types. Head Office: 50, Grosvenor Gardens, Victoria, London. Sole Agents: Healy & Graham Ltd., P. O. Box No. 1774, Bombay. Telephones: 255756 & 255757. General Manager for India: Niren N. Ghose, J.P., D.F.H. (Lond.), A.M.I.E.E.

TRANSFORMERS

BRUCE ELECTRIC CONSTRUCTION CO., LTD., Kelvin Works, Hackbridge, Wallington, Surrey, England. Representatives: James Finlay & Co., Ltd., P.O. Box No. 73, Bombay 1.

Gresham Transformers Ltd., Hanworth. Transformers. Sole Agents: Marshall, Sons & Co. (India) Ltd., Marshall's Building, Ballard Road, Bombay 1.

Hitachi Ltd., Tokyo, Japan. Transformers. Sole Distributors: William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.

Yorkshire Electric Transformer Co., Ltd., Dewsbury. Transformers. Sole Agents: Marshall, Sons & Co. (India) Ltd., Marshall's Building, Ballard Road, Bombay 1.

Zenith Electric Co. Ltd., London, N.W. 2, England. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

TRAVELLING REQUISITES

Fibre Case Co. Ltd., 36/8, Peckham Road, London, S.E. 5. Agents: Soho House, Lohar Street, Bombay 2.

TUBE WELL DRILLING AND BORING EQUIPMENT

English Drilling Equipment Co., Ltd., London. Sole Agents: Killick, Nixon & Co. Private Ltd., Killick House, Home Street, Fort.

TYGAN FLYSCREENING

Fothergill & Harvey Ltd., Manchester. Agents: Killick, Nixon & Co. Private Ltd., Killick House, Home Street, Fort.

TYGLAS INSULATION

Fothergill & Harvey Ltd., Manchester. Agents: Killick, Nixon & Co., Private Ltd., Killick House, Home Street, Fort.

TYPEWRITERS, CALCULATORS, ADDING MACHINES & TELEPRINTERS

ING. C. OLIVETTI & C. S.P.A., Ivrea, Italy. Typewriters, Calculators, Adding & Listing Machines. Representatives: Latham Abercrombie & Co. Private Ltd., Forbes Building, Home Street, Fort.

OLIVETTI TELESCRIVENTI, Via Viotto 9, Torino, Italy. Teleprinters. Representatives: Latham Abercrombie & Co. Private Ltd., Forbes Building, Home Street, Fort.

Pallard Ltd., Yverdon (Switzerland). Hermes Typewriters. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

UPHOLSTERY

ALBRIGHT & WILSON LTD., London, (Calgon) Leather Cloth Manufacturers. Selling Agents: I.C.I. (India) Private Ltd., P.B. No. 310, Bombay 1.

I. C. I. LTD., Leather cloth Division, England. "REXINE" & "VYNIDE" Leather cloth. Selling Agents: I. C. I. (India) Private Ltd., Imperial Chemical House, Ballard Estate, Bombay 1.

VACUUM BRAKE EQUIPMENT

Vacuum Brake Co., Ltd., 187, Abby House, Victoria Street, London, S.W. 1. Locomotive and Rolling Stock Fittings. Agents: Healy & Graham Ltd., 9, Forbes Street, Fort.

VACUUM CLEANERS & FLOOR MAINTENANCE MACHINES

Breuer Electric Mfr. Co., Chicago 6, Illinois, U.S.A. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

VALVES MFRS.

Superior Valve & Fittings Co., Pittsburgh 26, Pa. U.S.A. Representatives: Bakubhai Ambalal Private Ltd., Shahibag House, 13, Wittet Road, Ballard Estate, Bombay 1.

VALVES (WATERWORKS)

Ernest Filtach, Stuttgart, Germany. "Flica" Expansion Valves. Agents: C. Sethia & Co., 59, Forbes Street, Bombay 1.

Ham Baker & Co., Ltd., England. Valves, Penstocks Fittings, etc. Agents: John Fleming & Co., Private Ltd., Bastion Road, Fort, Bombay 1. Phone: 261153.

J. Blakeborough & Son, Ltd., Brighouse. Makers of Valves all types, and other Waterworks Appliances. Agents: Richardson & Cruddas Ltd., Byoula, Bombay 8.

Meynell & Sons Ltd., Wolverhampton, England. Agents in India: R. Ochavial & Co., 86, Nagdevi Street, Bombay 3.

VEE ROPE MFRS.

Fenner, J. H., & Co., Ltd., Marfleet, Hull, England. V-Belts and V-Belt Drives. Agents: Greaves, Cotton & Crompton Parkinson Private Ltd., 1, Forbes Street, Fort.

VEGETABLE OIL & VANASPATHI

JOHN-MANVILLE, INTERNATIONAL CORPN., (Filter-aids), Agents: I.C.I. (India) Private Ltd., P. B. No. 310, Bombay 1.

MOND NICKEL CO. LTD., England. Nickel formate. Agents: I.C.I. (India) Private Ltd., P.B. No. 310, Bombay 1.

VENTILATORS

Greenwood & Alrvas Ventilating Co., Ltd., Kingsway, London. Manufacturers of Alrvas Ventilators and Railway Carriage Ventilating Fittings. Sole Agents: J. D. Jones & Co. (Bombay) Private Ltd., Ruston Building, Veer Nariman Road, Fort.

Robertson, Thain Ltd., Mersey Iron Works, Ellesmere Port, Wirral, Cheshire. Sole Agents: Heatly & Gresham Ltd., 9, Forbes Street, Fort.

VETERINARY SPECIALITIES

Bob Martin (Export) Ltd., "Condition Tablets and Dog Remedies." Sole Agents: J. L. Morrison, Son & Jones (India) Private Ltd., Contractor Building, Nicol Road, Ballard Estate, Bombay 1.

VIBRATORY SCREENS

Niagara Screens (Great Britain) Ltd., Middlesex. Sole Agents: Killick Nixon & Co. Private Ltd., Killick House, Home Street, Fort.

WALKING DRAGLINES

Page Engineering Co., U.S.A. Walking Draglines. Sole Distributors: William Jacks & Co. Ltd., Hamilton House, Graham Road, Ballard Estate.

WATCHES & CLOCKS

Buren Watch Co., S.A. Switzerland. Representatives: Phoenix Watch Co., 166, Dr. Dadabhai Naoroji Road, Bombay 1.

Enicar, S. A., Switzerland. Representatives: Phoenix Watch Co., 166, Dr. Dadabhai Naoroji Road, Bombay 1.

Wehrle Uhrenfabrik, G.m.b.H., West Germany. Representatives: Phoenix Watch Co., 166, Dr. Dadabhai Naoroji Road, Bombay 1.

WATER FILTRATION

CANDY FILTER CO., LTD., London. Manufacturers of all types of Water Purification and treatment Plant. Agents: Candy Filters (India) Private Ltd., Forbes Bldg., Home Street, Fort, Bombay.

Cleveland Meters Ltd., Redcar, England. Agents: Kaycee Industries Ltd., Kamani Chambers, Nicol Rd., Bombay 1.

Metafiltration Co., Ltd., Hounslow, Middlesex. Metafilters for Laboratory and Industrial use. Agents: Roberts McLean & Co., Ilaco House, Sir Phiroozshah Mehta Road.

WATER METERS

Aquametro Ltd., Basle, Switzerland. Meters for Water and other Liquids. Sole Distributors: Voltas Limited, Ballard Estate, Bombay 1.

British Pitometer Co., Ltd., London. Venturi Meters and Recorders. Agents: Glenfield & Kennedy, Ltd., 198, Jamshedji Tata Road, Fort, Bombay 1.

C. G. E., Liege, Belgium. Agents: India Metal Agencies, P. Box No. 1966, Bombay 1.

Cleveland Meters Ltd., Yorkshire. Makers of Water Meters. Agents: Richardson & Cruddas, Ltd., Byculla, Bombay 8.

CONTIMETER, COMPAGNIE CONTINENTALE D'APAREILS, De Mesure, Bruxelles, Belgium. Manufacturers of Water Meters, Gas Meters and Geysers. Agents: Gaytee & Co., Jambhoomi Chambers, Fort Street, Bombay 1. Phone: 283448. Grams: "IMPENG."

Glenfield & Kennedy, Ltd., Kilmarnock. Inferential and Positive. Agents: Glenfield & Kennedy, Ltd., 198, Jamshedji Tata Road, Fort, Bombay 1.

Taylor of London Ltd., London, England. Water Meters, Waste & Cocks Fittings. Agents: John Fleming & Co. Private Ltd., Bastion Road, Fort, Bombay 1. Phone: 261153.

WATER PURIFICATION & SCALE PREVENTING DEVICES

Epuro Limited, Antwerp, Belgium. Water Purification Plants, Electro Magnetic Devices for anti-Calcareous treatment of Water, Sugar-cane Juice, etc. Contact: Ratanji Morariji Private Limited, Prospect Chamber, 317/21, Dr. Dadabhoi Naoroji Road, P.B. No. 1270, Bombay 1.

WATER TREATMENT CHEMICALS

I.C.I. LTD., "ALFLOC" Water Treatment Service, England. ("ALFLOC" Water Treatment Chemicals). Selling Agents: I. C. I. (India) Private Ltd., P.B. No. 310, Bombay 1.

WATER TREATMENT PLANTS

DUPER WATERREINIGING N. V., HOLLAND. Sole Selling Agents in India: Industrial and Allied Chemicals, National House, 6, Tulloch Road, P.O. Box 488, Bombay 1.

WEIGHBRIDGES

Ashworth, E. & A. Ltd., Crown Engineering Works, Staincliffe Road, Dewsbury, Yorks, England. Scales & Weighbridges. Agents: Heatly & Gresham Ltd., 9, Forbes Street, Fort.

WEIGHING MACHINES

Aktiebolaget Stathmos, Eklstuna, Sweden. Sales Distributors: Motwane (Private) Ltd., 127, Mahatma Gandhi Road, Bombay 1.

WELDED STEEL WIRE FABRIC

British Reinforced Concrete & Engineering Co., Ltd., Lichfield Road, Stafford, England. Sole Agents: Heatly & Gresham, Ltd., 9, Forbes Street, Fort.

WELDERS (ELECTRIC & GAS)

A. I. ELECTRIC WELDING MACHINES LTD., Rose Street, Inverness, England. Representatives: James Finlay & Co. Ltd., P.O. Box No. 73, Bombay 1.

WELDING EQUIPMENT

AB Asea Svetsmaskiner, Stockholm, Sweden. Manufacturers of Electric Welding Equipment and Electrodes of all types. Representatives: Asea Electric India Private Limited, Yaffi Building, Goa Street, Ballard Estate.

Elektiska Svcningsaktiebolaget "ESAB", Sweden. Magnetic Crack Detectors, Welding Plants, etc. Agent: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

F. Bode & Sons Ltd., England. Welding positioners and fixtures for welding operation. Agents: Armstrong Smith Ltd., 1, Sir P. M. Road, Bombay 1.

New Process Welders Ltd., England. All Types of Spot Welders, Seam Welders, etc. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Welding Supplies Ltd., England. Electrodes & Welding Plants, Magnetic Crack Detectors, and Gas Cutting Machines. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

WINDOW & DOOR FITTINGS (TRANSPORT)

E. Hill Aldam & Co. Ltd., Britannic Works, Haslemere Avenue, London, S.W.18. Sole Agents: Heatly & Gresham Ltd., 9, Forbes Street, Fort.

Williams & Williams, Ltd., Chester. Makers of Steel Window Frames. Agents: Richardson & Cruddas, Ltd., Byculla, Bombay 8.

WINDOWS FOR RAIL, ROAD AND MARINE TRANSPORT

Beckett Laycock & Watkinson Ltd., Acton Lane, London, N.W. 10. Sole Agents: Heatly & Gresham Ltd., 9, Forbes Street, Fort.

WINE & SPIRITS

Drumblie Liqueur Co. Ltd., 12, York Place, Edinburgh 1. Sole Distributors: Spencer & Co., Ltd., Spencer's Building, Forjett Street, Bombay 26.

Martell & Co., Cognac, France. Sole Distributors: Spencer & Co., Ltd., Spencer's Building, Forjett Street, Bombay 26.

Wm. Gaymer & Co., Ltd., Attleborough-Norfolk, England. Sole Distributors: Spencer & Co., Ltd., Spencer's Building, Forjett Street, Bombay 26.

WIRE BRUSHES

Gem Brushes (Inson) Ltd., Gem Works, Minerva Road, Park Royal Road, London, N.W. 10. Sole Agents: Datson, Raviraj & Co. (Private) Ltd., 43, Tamarind Lane, Fort, Bombay. Phone: 39333.

WIRES & CABLES

British Insulated Cables Ltd., London. Agents: Killick Nixon & Co., Private Ltd., Killick House, Home Street, Fort, Bombay.

WIRE PRODUCTS

Firth Co. Ltd., England. Mfrs. of High Carbon Basic and Acid Steel Wires and other Steel Products. Agents in India: Alsales Ltd., 9, Wallace Street, Bombay 1.

Pittsburgh Steel Products Co., Pittsburgh, U.S.A. Distributors: Manckini & Co., 166, Dr. Dadabhoi Naoroji Road, Bombay 1.

Richard Hill Ltd., England. Mfrs. of Spoke Wires, Roping Wire and 'Maxweld' Electrically welded screen cloth. Sole Agents in India: Alsales Ltd., 9, Wallace Street, Bombay 1.

Somerset Wire Co. Ltd., Somerset. Wire for Rope and Spring Making, Pre-stressed Concrete Wire. Agents: Guest, Keen, Williams, Ltd., Wakefield House, Spott Road, Ballard Estate, Bombay 1.

WIRE ROPE MANUFACTURERS

Allan Whyte & Co., Ltd. (Unit British Ropes Ltd.), Glasgow. Wire Ropes. Agents: Shaw Wallace & Co., Ltd., 3, Wittet Road, Ballard Estate.

HALL'S BARTON ROPEY CO., LTD., 100, New Cleveland Street, Hull, England. Representatives: James Finlay & Co., Limited, P.O. Box No. 73, Bombay 1.

JOHN SEAW LTD., Workshop, England. Manufacturers of Steel Wire Ropes. Representatives for Bombay: Eastern Trading & Engineering Co., Alice Building, 3rd Floor, 339, Dr. Dadabhoi Naoroji Road, Fort, Bombay.

Thos. Holdsworth & Sons Ltd., Drighlington, England. Sole Agents in India: Anil Private Ltd., 57 Stock Exchange, New Building, Apollo Street, Fort, Bombay 1.

Whitecross Co. Ltd., England. Wire Ropes. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Wm. Jas. Glover & Co., Ltd., Lancashire, England. Agents: Keshavji Naraldas Jaliwala, 157, Abdul Rehman Street, Bombay 3.

Wrights Ropes Ltd., Steel wire ropes of all descriptions. Sole Agents: William Jacks & Co., Ltd., Hamilton House, Graham Road, Ballard Estate.

WIRE ROPE SPlicing EQUIPMENTS

CABLE COVERS LTD., Westminster, England. Manufacturers of "Talurit" Wire Rope Splicing Equipments. Representatives for India: Eastern Trading & Engineering Co., Alice Building, 3rd Floor, 339, Dr. Dadabhai Naoroji Road, Fort, Bombay.

WIRELESS TRANSMITTERS & APPARATUS

Nera, P.B. 4060, Pilestredet 75c, Oslo, Norway. Agents: E. W. Stevens & Co., Private Ltd., 4, Ballard Road, Bombay 1.

Radio Corporation of America, RCA Building, 30, Rockefeller Plaza, New York 20, N.Y., U.S.A. Agents: E. W. Stevens & Co., Private Ltd., 4, Ballard Road, Bombay 1.

Redifon Limited, Broomhill Road, London, S.W. 18, England. Agents: Hindco, 27, New Queen's Road, Bombay 4.

Robertson Radio-Elektro, P.O. Box 75, Egersund, Norway. Agents: E. W. Stevens & Co., Private Ltd., 4, Ballard Road, Bombay 1.

WOOD PULP

FINNISH CELLULOSE ASSOCIATION, 3 Esplanadgatan 2, Helsinki, Finland. Representatives: James Finlay & Co., Ltd., P.O. Box No. 73, Bombay 1.

WOOD TREATMENT

Pratchitt Brothers Ltd., Denton Ironworks, Carlisle, England. (Timber Impregnating Plant). Sole Concessionaires: Greaves Cotton & Co., Ltd., 1 Forbes Street, Fort, Bombay.

WOODWORKING TOOLS, SAWS & FLOUR MILLING MACHINERY ETC.

Albert Fezer, Germany. Spindle Moulding Machines and Other Wood Working Machines. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

ELSWORTH LTD., Sheffield, England. Manufacturers of Woodworking Saws and Woodworking Tools. Agents: Gaytee & Co., Jammabhoemi Chambers, Fort Street, Bombay. Phone: 263449. Grams: "IMPENG."

Emil Sachs, Germany. Thicknessing Planner, Heavy Duty Smooth Planing, Jointing and Moulding Machines, Upright Chain Mortising machines, tenoning & Slotting Machines and other wood working machinery. Agent: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Gebrüder Canall, Germany. Woodworking Machinery & Wood Wool Manufacturing Machinery. Agent: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Mafell Maschinenfabrik, Germany. Powerful Portable and Stationary Woodworking Machines, like Saws, Routers, Jointers, Planers, etc. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Max Striffler K. G., Germany. Complete Range of Portable Woodworking Tools. Pattern Making Machines. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Sheffield & Halamshire Hacksaw Co., Ltd., Sheffield, England. Agents: Keshavji Naraldas Jaliwala, 157, Abdul Rehman Street, Bombay 3.

Taylor, Brothers (Saws) Ltd., England. Representatives: Elliott Waud & Hill Private Ltd., 1-2, Lakshmi Bldg., Sir P. M. Road, Bombay 1.

Thomas Robinson & Son Ltd., Rochdale. Woodworking and Flour Milling Machinery. Sole Agents: Marshall, Sons & Co., (India) Ltd., Marshall's Building, Ballard Road, Bombay 1.

Wadkin Ltd., England. Woodworking Machinery of all types, viz. Planers, Moulders, Routers, etc. Sole Distributors: William Jacks & Co. Ltd., Bharat House, Apollo Street, Bombay.

WOOL AND HAIR

Hill & Sons Ltd., Sir James, Bradford. Wools Merchants & Top Makers. Sole Agents: W. A. Beardsell & Co., Ltd., 15-16, Sir Phirozshah Mehta Road, Fort.

Nettl, Dyson & Co., Ltd., Bradford. Merchants: Wools, Hairs, Tops, Nolls, Wastes, etc. Sole Agents: W. A. Beardsell & Co., Ltd., 15-16, Sir Phirozshah Mehta Road, Fort.

William Hunter & Co. (Wool Export) Ltd., Bradford. Wool Merchants and Top Makers. Sole Agents: The Anglo-Thal Corporation Ltd., Ewart House, Bruce Street.

WOOL TOPS

F. Kanematsu & Co. Ltd., Osaka, Japan. Woollen Worsted Yarns. Agents: Darahimal Tandon & Co., Victoria Building, Parsee Bazar Street, Bombay. Phone: 254995.

WOOLLEN PIECEGOODS

Kelsall & Kemp Ltd., Rochdale. Manufacturers of woollen piecegoods. Sole Agents: W. A. Beardsell & Co., Ltd., 15-16, Sir Phirozshah Mehta Road, Fort.

WORKSHOP MACHINES

B. O. Morris Ltd., England. "Morriaflex" Flexible Shaft Equipment for Motor Garages, Workshops and for Boiler Descaling. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Berg & Schmid, Germany. Power Driven Ball Saws, Hammer Drills, etc. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

C. & E. Fein, Germany. Heavy Duty Portable Electric Drills with Universal Motors, 440 volts AC. Drills, Slow Speed Drills, Multispeed Drills, Right Angle Drills and Attachments, Screw Drivers, Impact Wrenches, Valve Grinders, Tappers, Tool Post & Precision Lathe Grinders, Brake Drum & Journal Grinders, Shears, Nibblers, Pipe Cutting Saws, Stone (Rock) Drilling Machines, Hammers, etc. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Lawler Ayers & Co. Ltd., England. Hydraulic Head Operated Tube Bending as well as power operated Bending & Cutting Machinery for Pipes & Bars. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Remawerk Germany, Germany. Ratchet Operated, Tangential Pipe Dies. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

Wandsbeker Werkzeug Gesellschaft, Germany. "Barson" Range of Metal Cutting Machinery. Agents: Armstrong Smith Private Ltd., 1, Sir P. M. Road, Bombay 1.

WRAPPING AND PACKING MACHINES

Rose Bros. (Gainsborough) Ltd., Gainsborough, England. Wrapping & Packing Machines for all purposes, etc. Sole Representatives: W. H. Brady & Co., Ltd., 12 14, Veer Nariman Road, Fort, Bombay 1.

YARN

Adolfo Viti and Fratello, Genova, Italy. Spun Silk Yarns "Parrot" brand. Sole Agents for India: Darahimal Tandon & Co., Victoria Building, Parsee Bazar Street, Fort, Bombay 1. Phone: 254995.

F. Kanematsu & Co., Ltd., Osaka, Japan. Woollen Worsted Yarns. Agents: Darahimal Tandon & Co., Victoria Building, Parsee Bazar Street, Bombay 1. Phone: 254995.

The manufacturing programme of Siemens-Schuckertwerke Includes

The work of Siemens
extends
to every sphere of
electrical engineering

POWER SUPPLY EQUIPMENT

Thermal and Hydroelectric Power Stations, Substations, Transformer and Converter Stations, Switching Stations, Control Rooms, Overhead Lines and Underground Cable Systems, Turbo-sets, Steam Turbines, Generators, Transformers, Reactors, Rectifiers and Inverters, Capacitors, High-voltage and Low-voltage Switchgear, Relays, Automatic and Remote Control Equipment, Regulating Equipment, System and Machine Protection Equipment.

INDUSTRIAL EQUIPMENT

Electrical Equipment of Mines, Smelting Works, Rolling Mills, Chemical Works, Manufacturing and Refining Works. Special Drives, Control, Switching and Regulating Equipments for all types of Industrial Works. Electrical Equipment for Cranes, Lifts and other Hoists. Welding Sets, Medium- and High-frequency equipment for industrial purposes, Infrared Equipment, Ultraviolet Radiation Equipment.

ELECTRICAL EQUIPMENT FOR TRANSPORTATION

Electric Main-line Railways, Tramways, Trolley Buses and Lines, Works and Mine Railways. Overhead Trolley Lines, Power Supply Equipment. Electrical Equipment for Ships, Harbours, Shipyards and Airports, including Lighting Equipment.

LIGHTING, INSTALLATION AND WIRING

Fittings for Incandescent and Fluorescent Lamps. Wiring Material, Cables and Wires, Installation of Power and Light Equipment, Electric Stage Equipment.

MOTORS AND SWITCHGEAR

Pumps and Fans, Electric Tools, Electricity Meters.

ELECTRIC DOMESTIC APPLIANCES

Small Appliances, Space Heating Equipment, Water Heaters, Vacuum Cleaners, Fans, Hand Driers, Laundry Driers, Rotary Ironers, Refrigerators.

INDIAN HUME PIPE CO., LTD., THE, are the largest manufacturers in India of Concrete Pipes, Steel Pipes and Concrete Poles. Concrete Pipes manufactured by this Company, better known as "Hume Pipes" and "Homogeneous Pipes" are very extensively used for Water Supply, Drainage, Culverts, Irrigation, etc. They are also used as Cable Conduits, Half-round and One-third round Channels, as well as for Well Sinking, Septic Tanks, Telephone Cabins, Dust Bins, Cattle Troughs, Fencing Posts, Latrines, Policeman Cabins, Pillars, etc.

For High Pressure Mains and Distribution required for Water Supply, the Company manufactures Steel Pipes lined and out-coated with Concrete, known as "Hume Steel Pipes." These too are very extensively used and are considered more economical than any other substitutes used for the purpose. During the World War II, the Company started manufacture of Welded Steel Pipes for Penstock requirements of Hydro-Electric Projects.

The R.C.C. Poles manufactured by this Company have very advantageously replaced the Steel Electricity Poles for both High Tension and Low Tension Transmission Lines. They are also largely used as Lamp Posts in all the big Cities.

Recently the Company has also started manufacturing the Prestressed Concrete Pipes, which can easily stand pressures upto 400 ft. head.

The Company have a large network of about sixty factories spread over India, and Ceylon. Head Office: Construction House, Ballard Estate, Bombay 1. Telephone No. 26-2904 (3 lines). Telegraphic Address: "HUMEPIPE", Bombay.
